REGULAR SESSION OF CITY COUNCIL

The regular meeting of the city council was held on Monday evening, all the members being present with the exception of the mayor. In his absence, Ald Liddicoat occupied the chair. Leave of absence was granted the mayor for that meeting.

Lot 7, block 11, plan 52, was sold to G. T. Waterman.

The mayor was appointed a delegate to the Good Roads and Union of British Columbia Municipalities convention at Victoria.

District Engineer Gwyer advised the council that he would take up the matter of rebuilding Winnipeg avenue on his next visit to Grand Forks.

A grant of $25 was made to the Children's Aid society.

A circular letter from Inspector Baird regarding city managership was laid on the table for further consideration.

A letter from the volunteer fire department tendering the resignation of the brigade as a body, was read, and the clerk was instructed to send a circular letter to each member asking his views and wishes in the matter.

The water and light committee reported that the hours of pumping had decreased to about six hours per day; that Mr. Meakes had returned from his vacation, and that a section of the electric light system was being rebuilt.

The board of works reported that several blocks of plank sidewalks had been rebuilt and many blocks had been replaced with cinder walks; also that they were looking into the possibility of providing drainage of water on Bridge street, adjoining Sixth street.

The sale of tax lands bylaw was given its first three readings.

GRANT'S WEEKLY MARKET REPORT FROM CALGARY

Calgary, Sept. 16.—Weather for greater part of the week wet and cool; roads are in bad condition and harvesting is held up.

City business is fair with country trade described as good.

Cantaloupes are in plentiful supply but are finding a slow demand owing to cool weather. Stock is arriving in very good shape.

Tomatoes are arriving in fair quantity and mostly in good condition. A car from the dry belt arrived last week end showing many crates over-ripe with considerable shrinkage.

Apple supplies are sufficient to meet the demand with the call mostly for Wealthies. McIntosh are arriving in greater quantities. Gravensteins have sold fairly well but are not yet cleaned up.

Imported peaches, pears, prunes and plums are still held in quantity. During the month of August the proportion of imported fruits, omitting citrus, to the total arrivals at all points in souther Alberta amounted to about 55 per cent Importations are ow considerably reduced and British Columbia stock is beginning to dominate the market.

British Columbia pear arrivals up to date have been very small; the market is practically supplied with imported stock.

McIntosh f.o.b. apple prices are follows: Crates $1.45, Fancy $1.75, Ext a Fancy $2.

Standard winter onions, f.o.b. price, $30 per ton.

Car Arrivals—From British Columbia: 10 cars fruit and vegetables, 5 cars vegetables, 1 car apples, 1 car cantaloupes, 2 cars onions Spain. From Washington: 2 cars mixed fruit, 3 cars pears. California: 1 car grapes.

Calgary wholesale prices:

Onions, B.C., pickling, box	1.75
Peppers, B.C., green, per lb, 12c	.15
Corn, Alta., box or sack, per doz	.35
Celery, B.C., crate, per lb 5c to	.06
Celery, Alta., crate, per lb 5c to	.06
Cauliflower, Alta., crate, per doz	2.00
Cabbage, Alta., crate, per lb	.02½

A vein of ore running from eight to fifteen inches in width with ore that promises to rival in silver values the highest grade shipments which have been made from the Beaverdell mining camp, is reported uncovered on the Elkhorn Fraction at Greenwood. A carload shipment of this ore will be sent to the smelter within a few days' and those interested believe the shipment will run from 300 to 500 ounces of silver to the ton, with the average to the car of 400.

Three New Ministers Appointed to the Canadian Cabinet

HON. GEORGE BOIVIN

Appointed by Premier King to the post of minister of customs and excise.

HON. G. N. GORDON

Whese appointment to the ministry of immigration and colonization was announced by Premier King.

HON. LUCIEN CANNON

In the reorganization of the cabinet, he has been appointed solicitor-general.

RESULTS OF LIBERAL RULE

Speaking at Guelph, Ont., last week, Premier King hit back at the opposition leader, while declaring that he had not yet had time to study Mr. Meighen's speech in detail.

He took up Mr. Meighen's charge that the government had no achievements to its credit. In reply to the charge, Mr. King asserted in his speech that the government had,

1. Reduced expenditure by $100,000,000 in the last four years.

2 Reduced taxation to 75 per cent of what it was.

3. Reduced the public debt by $83,000,000, while the Meighen government had increased it by $173,000,000,

4. Added to the national railway debt less than was added by the Meighen government.

"Are these not achievements?" the premier questioned.

Referring to Mr. Meighen's Wingham speech, the premier declared that Mr. Meighen had not taken the trouble to analyze the situation carefully, but had dealt in generalities "mixed with some abuse of myself."

"One of the things that Mr. Meighen says," proceeded the premier, "is that the government has no achievements to its credit. When we took office the expenditures amounted to $460,000,000. We have cut this down by $100,000,000 in the four years we have been in office I ask you, is that not an achievement?

"When you take the amount of money that was raised from the people in taxes when we took office and compare it with the amount raised now, you will find that for every dollar raised in taxes four years ago the people are now being taxed only 75 cents.

"In other words, we are only taking from the people, or did last year, three-quarters of the amount raised in taxation four years ago.

"More than that, during the two years Mr. Meighen was in office after the war was over, the public debt was increased by the amount of $173,000,000. During the last three fiscal years we have reduced the public debt by some millions of dollars."

Work for the best and let hoping for the best be a side issue.

EUROPE WANTS MORE APPLES

The indications are that Europe may absorb as many apples from Canada and the United States as last year, reports Edwin Smith, foreign market specialist of the department of agriculture at Washington, who has just returned from abroad. While it is true that the English apple is better both as to quantity and quality than in 1924, yet it is scarcely more than half a full crop and the varieties that show the best promise are cooking varieties. The continental crop is very short and will scarcely be a factor in the deal.

Germany will start taking volumes of apples from the American continent earlier than last year and if the market is handled judiciously, Mr. Smith advises, will take steady consignments in greater volume than in 1924.

Dealing with crop conditions on the American continent, a bulletin from the department of agriculture says:

"A heavy crop of apples in Nova Scotia will somewhat offset Virginia's shortrge, while in the boxed apple deal British Columbia's reduced crop will ease up on the competition with our Pacific Coast states.

The Jewish people the world over will celebrate their Rosh Hashanah, or New Year. Friday, September 18, ushers in the 5686th year of the Jewish calandar, and will be observed by attendance at places of worship.

No one really scoffs at public opinion. It is always relentless.

MARGARET BONFIELD

Under-secretary of state in the MacDonald government in Britain who has been apphinted by the Baldwin ministry to an important commission dealing with immigration to the Dominions.

FROM EVERYWHERE

All previous records set by the Manitoba Telephone System, a provincial all-government owned and operated utility, were surpassed in July, when net earnings for the month were $15,754. A surplus of $100,000 was predicted for the present fiscal year.

According to an estimate made by Quebec Automobile Club officials from data supplied by transportation companies and garages, 200,000 tourists have already passed through Quebec this year. This, it is explained, is an increase of twenty per cent. over the total for the whole of last year.

Building permits issued in Winnipeg since the beginning of the current year to date have topped the three million dollar mark, being $3,034,840 for 1,704 structures. For the corresponding period of last year the total was $2,289,450 for 1,733 buildings, an increase in value for this year of $745,390.

Heavy shipments of this season's crop of potatoes in Fredericton, N.B., are now being made to the Cuban market from the potato belt on the Upper St. John River, according to the provincial superintendent of the crops and soil division of the Department of Agriculture. There have been large consignments from Carleton and Victoria counties.

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 907,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A party consisting of twelve Chinese students from Hong Kong and Peking arrived in Montreal recently to take up temporary positions in departments and shops of the Canadian Pacific Railway, in order to familiarize themselves with the railway situation in Canada. They will remain a few months and then return to China to make practical use of the information they acquire.

Among the notable personages who arrived in Canada during the first week in September from Europe were Princess Patricia, Sir Thomas and Lady Grattan, and the Earl and Countess of Mar and Kellie, all of whom were on the Canadian Pacific steamship Mountroyal; James Oliver Curwood on the Empress of Scotland and Baroness Orczy on the Montnairn, of the same line.

Calgary, Alberta. — The No. 4 Royalite well (Imperial), continues to amaze geologists. Its naptha production increased July to 546,135 gallons, 78 degrees Beaume, an increase of 25 barrels daily over the June production. The production continues to increase and the flow of gas at 20,000,000 cubic feet a day is being maintained. This flow will shortly be harnessed to supply Calgary.

Preparations are under way for the holding in Montreal in June next year of the annual convention of the American Association of Railroad Superintendents. J. K. Savage, General Superintendent, Canadian Pacific, was elected chairman of the arrangements committee, and plans were made for the organization of a complete committee to go ahead with the business of making the convention a success.

A despatch from London states that in the past three weks more than 20,000 boxes of Quebec-made cheese have arrived and been sold in London at good prices, the quality, it is said, being of the best. It is pointed out that if Quebec products are to obtain the position they deserve here it is necessary to keep continuous supplies coming, in order to make them known to the general public, rather than to make either isolated or occasional speculative shipments. Along this line, some 7,000 boxes of Quebec-made cheese went forward from here to the London market during the past week.

CONVENTION NEXT FRIDAY

Delegates to the Liberal convention to be held in Penticton next Friday to nominate a candidate for Yale consitnency were chosen at a meeting of the Grand Forks Liberal association in G.W.V.A. hall on Tuesday evening.

The meeting was well attended, indicating than that a great deal of interest is taken in the forthcoming contest. In the unavoidable absence of President McCallum, Vice President Donaldson occupied the chair.

The following delegates were elected:

Brown Creek—Robert Simpson, Wylie Glover.

Cascade—R. G. Ritchie, James Burke.

Paulson—A. F. Michener.

Grand Forks—Mrs. A. F. Michener, Mrs. F. D. Gordon, Mrs. J. Graham, Mrs. Ed Graham, D. McPherson, E. C. Henniger, John Donaldson, Geo. C. Egg, Pete Honsen. Alternates: Geo. O'Keefe, K. Scheer, W. C. Chalmers, F. J. Miller.

D. McPherson, member for Grand Forks Greenwood, made a short address on federal issues involved in the election. He emphasized the fact that the concessions already obtained in the way of freight equalization were worth more to the people of this province than they at present realized; and still further benefits in this connection were to follow. These concessions, he said, would not have been granted had not the government at Ottawa been friendly to the west. British Columbia, said the speaker, should show its appreciation for the favors already secured by returning a solid Liberal delegation. Mr. McPherson also touched briefly on a number o other subjects.

In this end of the district Col. C. E Edgett seems to be the favorite for Liberal standard-bearer.

SHIPPING APPLES TO THE ORIENT

Vancover, Sept. 16.—The manifest being prepared for the sailing of the Canadian Pacific liner Empress of Asia Thursday does not indicate that exports from Canoda to China are falling off as a result of the trouble in Hongkong and Shanghai.

Flour, automobiles, metal, canned goods and 10,000 boxes of apples will go forward on this ship.

Japan has lifted the embargo against Canadian apples und when the Empress sails she will have the first big shipment to be made from here this season.

Many prominent passengers will go out on this ship, and a number of travelers who make trips to the Orient every winter in the interests of trade promotion are booked for this trip.

THE WEATHER

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Law's ranch:

	Max.	Min.
Sept, 11—Friday	77	53
12—Saturday	84	43
13—Sunday	86	45
14—Monday	86	42
15—Tuesday	73	43
16—Wednesday	67	43
17—Thursday	75	38
		Inches
Rainfall		.05

Charles Hudson, of Anderson, Ind., who lost the use of one eye in an accident twenty-five year ago, recovered the sight of the optic when he was struck in the eye by fluid from a fire extinguisher while fighting a small fire.

The four-act drama, "The Fool," was broadcast by KGO from Oakland last night. The play carries a very healthy moral. Most people nowadays could improve their usefulness to society by adopting it.

FRIDAY, SEPTEMBER 18, 1925

Notes • Notions • Notables

In another week, it may safely be assumed, the federal election campaign will be in full swing all over Canada. At present it looks as if the gavernment would be returned by a good majority. The country had two years of Mr. Meighen as prime minister. He made a sorry mess of national policies. It is not likely that the people of Canada will want to repeat the experiment by entrusting the affairs of the country to his care. British Columbia owes much to the King government, and if the convention at Penticton next Friday does not make the mistake of nominating a weakling, we shall certainly expect to see Yale in the Liberal column en election night.

The coal crisis in England served to recall the methods employed by the miners in bringing their grievances to public attention more than a century ago—in 1815. At that time the workers made their protest in person They dragged loads of coal to London and demanded to see the prince regent. But the magistrate sent for them, told them they must not bother London's august personages, and bade them go back to their work. And they went back home, carrying their loads behind them.

We might use the glamorous words of childhood's fairy tales, "Long ago and far away," to tell of Elgin cathedral, whose seven hundredth birthday was celebrated on August 5 and 6. So long ago as the twilight time of the Middle ages, so far away as Rome, must we go for the beginnings of the story of this hoary old pile, whose influence has been casting its spell upon the lives of the dwellers in the old province of Moray from that far-off time to the present. There is an old tradition that the Culdees founded the church to begin with, just as they did that of Birnie. In any case, the site was already hallowed by many sacred associations, when Bishop Andrew Meray, scion of the powerful house of De Moravia, moved the Cathedral of Spynie to the Church of Holy Trinity in Elgin.

How tremendous a role the earthquake has played in the history of mankind is once more hinted in a discovery of the expeditionary force from the University of Pennsylvania museum at Beisan (once Bethshean, later Scythopolis) in Palestine. The force has uncovered the ruins of a temple of Bacchus of which the columns were six feet in diameter. Among the columns, which had toppled over, were a portion of an enormous foot, in all probability from a heroic statue of Bacchus, and some delicate Roman mosaics, utensils and statuary.

A vigorous family, the Doyles, both mentally and physically. One of Conan Doyle's sisters married a clergyman named Angel, a dearly fellow. They lived near to us at Wallingford, and next door to them happened to live another clergyman named Dam. And later on Dam was moved to Goring and found himself next door to a Roman Catholic priest whose name was Father Hell. Providence, I take it, arranges these little things to some wise purpose.—Jerome K. Jerome.

The Academic School of Philosophy was a school of philosophy founded by Plato the Athenian (B. C. 438 347), and so named because his lectures were delivered in the "academy," or groves of Academus, near Athens. It comprised the Old academy, which consisted of Plato and his immediate disciples; the Second or Middle academy, led by Arcesiiaus; and the New academy, or sceptical scqool of Carneades. Platonic doctrines, as taught by Plato and Antiochus respectively, are often spoken of as the Fourth and Fifth academies.

London's first park jazz concert was attended by 20,000 people, many arriving an hour and a half before the advertised time of starting.

Sir Jagadis Chundra Bose, famous Hindoo scientist, has invented an instrument with which one can see through a heavy book. But many books are so heavy that it would be a torture to have to see through them.

C. C. Peters of the bureau of standards, Washington, has completed a new ruler, which he thinks is absolutely free from mathematical error and therefore the most accurate in the world. It has a scale with rulings only five one hundred-thousandths of an inch wide and spaced with an accuracy of at least two millionths of an inch. Completion of the ruler upsets the old saying that nothing made by man can be perfect, as scientists declare the scale is free from error. The new scale will be used in the callibration of micrometer microscopes.

The word "set" used in relation to a set of teeth is a general term and may correctly be applied either to ail the teeth or to only part of them. For instance, it is correct to say, he has a good set of upper teeth or a good set of lower teeth. On the other hand, it is also correct to say, he has a good set of teeth, meaning both the upper and lower teeth taken together. If no modifying word such as "upper" or "lower" is used, "set of teeth" is understood to include both.

The food of alligators usually consists of raw meat and raw fish. They consume more food in summer than in winter.

The pride that goeth before a fall taketh a tumble to itself.

Poems From Other Lands

Japan

HUSBAND AND WIFE

WIFE—

Though other women's husbands ride
Along the road in prond array,
My husband, up the rough hill side,
On foot must wend his weary way.

The grievous sight with bitter pain
My bosom fills, and many a tear
Steals down my cheek, and I would fain
Do ought to help my husband dear.

Come! take the mirror and the veil,
My mother's parting gifts to me;
In barter they must sure avail
To buy an horse to carry thee!

HUSBAND—

And I should purchase me an horse,
Must not my wife still sadly walk?
No, no! though stony be our course,
We'll trudge along and sweetly talk.

—Anon.

Ancient History

[TAKEN FROM TWENTY-YEAR OLD SUN FILES.]

Martin Burrell will have a fine display of fruit and plants at the Nelson fair.

Three Grand Forks people were married in as many different States last Wednesday—Miss Lily E. Taylor and J. P. Chenier, at Spokane, Wash., G. M. Fripp and Miss Wood, at Payette, Idaho, and Fred H. Knight and Miss Bertha Julia Bradley, at Corning, Cal.

The poles for the high tension line of the West Kootenay Power & Light company have been set from Rossland to Cascade, and the stringing of the wire will soon commence.

The floating population of Midway has decreased during the past week, due to the fact that railway contractors are now rusing work and using all the available help.

Ella Ewing, the Missouri giantess, is in the city tonight. If the richest man in town should take a notion to lay his heart and fortune at Ella's feet, they would not make much of a showing by the side of her No. 27 boots.

When the treaty of peace between Russia and Japan was announced, The Sun purposely refrained from going into hysterical ecstasy over the event, because its prophetic vision foresaw more bloodshed ahead. The rioting which has been induldged in on both sides since the treaty was signed, almost leads one to the conclusion that it would have an act of mercy if President Roosevelt had allowed the belligerents to continue the fight to a finish.

Genuine BAYER ASPIRIN

Say "Bayer" - Insist!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians for 25 years.

Safe — Accept only a Bayer package which contains proven directions

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Butter exported from Canada during the twelve months ending June, 1925, amounted to 25,096,120 pounds, valued at $8,934,794, a decided increase over the figures of the previous year when exports amounted to 13,668,379 pounds, valued at $5,031,634, according to a report issued by the Federal Department of Agriculture. Shipments were made to the United Kingdom, the United States, South America, South Africa, West Indies, Alaska, China, Japan, Germany, Belgium, Cuba, Holland, New Zealand and many other countries.

James Oliver Curwood, the well-known American novelist, who crossed not long ago to Europe on the "Empress of France" and returned a few weeks later to Canada on the "Empress of Scotland," wirelessed the following message from the "Scotland" to the Canadian Pacific headquarters in Montreal: "Can never fully express my appreciation of the splendid treatment accorded me by Captain Gillies and Captain Griffiths, and the staffs aboard the 'Empress of France' and the 'Empress of Scotland.'"

A party of British journalists is now touring Canada at the invitation of President E. W. Beatty, of the Canadian Pacific Railway, for the purpose of gaining first hand knowledge of economic and industrial conditions in this country. They are John A. Buist, Glasgow Herald; C. J. Jory, London Daily Telegraph; F. R. Peterson, London Times; H. Read, South Wales Daily News, Cardiff; Captain E. Altham, London Morning Post; Hugh Martin, London Daily News; R. A. Colwill, Western Morning News, Plymouth; W. A. Renton, Daily Chronicle, London; J. F. Chapter, Westminster Gazette, London; John Sayers, Belfast Telegraph.

A wise man does his duty; a fool does his friends—and loses them.

Better a little well kept, than a great deal forgotten.

YOUNG AT 50

Dr. Legard's New Life Tablets

Imparts to the Old and Middle-aged **Youthfulness, Energy** and **Fitness,** retards mental and physical decay, thus promoting longevity, Preserves the arteries and tissues, Sufferers irom Deafness with its many distressing accompanying ailments, as Head noises, deriveal most immediate benefit. Calm refreshing sleep assured. Gloom, Depression and Nervousness is banished under the influence of these Life-giving Tablets Wrinkles, hard lines and blemishes disappear. The skin becomes clear, light and elastic and the complexion bright and smooth. Think of the blessings of perfect health, the possession of few; the joy of a clear Youthful appearance and tingling blood, of lustrous hair, bright eyes and health-tinted cheeks; the beauty of radiant life and the realisation that Time has been put back Ten years to the envy and admiration of your friends, and the unbounded satisfaction of yourself. Can you allow a golden opportunity like this to pass? Remember there are no arduous rules to follow, no restriction on diet, nor are there any ill effects after. On the contrary it gives the entire system a feeling of exhaltation with increased mental and bodily vigour. Why not look and feel **30** at **50?** Do not delay, commence the treatment at once. You will never regret the slight cost incurred for such incalculable benefits. The price of these Marvellous Tablets including Mail Charges is **3 Dollars** per bottle, dispatched in plain wrapper on receipt of amount.

Obtainable from

Dr. Legard's Laboratories,
106, Liverpool Road, Barnsbury, London, England.

British Columbia Telephone Company

A BARGAIN IN NEWSPAPERS

An Opportunity to Win $5,000

A Beautiful Art Calender Free

The Grand Forks Sun has concluded an arrangement with The Family Herald and Weekly Star of Montreal by which we can offer the greatest bargain ever given to newspaper readers.

The offer includes a full year's subscription to both papers, an art calendar with a most beautiful picture subject ready for framing, and an opportunity to win a prize of $5,000 cash.

In the Federal Election of 1921 there were 3,119,306 votes cast out of a total of 4,435,310 names on the voters list.

How many votes will be polled in the next Federal Election?

The Family Herald and Weekly Star are offering Ten Thousand Dollars in 94 prizes for the best estimate, and our arrangement with the publishers of that great weekly gives every Grand Forks Sun subscriber an opportunity to make an estimate and perhaps win the capital prize of $5,000. Some person will win. Why should it not be you?

Read This Bargain

The Grand Forks Sun Costs $1.00 per Year.

The Family Herald and Weekly Star Costs $1.00 per Year.

We now offer a full year's subscription to both papers, including a copy of The Family Herald Art Calendar and the right to make one estimate in The Family Herald Election Contest.

All for $1.50

Estimates must be made at time of subscribing, and no changes will be permitted afterwards.

Order Now at This Office

The GRAND FORKS SUN

Here is the Summer Home of Mister Jack Frost Himself

THIS is the Ice Cave in Mount Sir Donald, near Glacier, B.C. The light of the sun streams in through the opening at the far end causing the frozen walls to glisten as though built of a thousand times ten thousand diamonds. It is rumored that this is the official summer residence of Jack Frost himself, to which the Chilly Monarch retires for his annual nap from spring time to autumn.

And this is a scene from Mr. Frost's private grounds, on the roof of the world in the Canadian Pacific Rockies. It is here, so we understand, that Mr. Frost spends most of his time when not asleep in his Cave. For a pastime he enjoys most of all riding around on chunks of floating ice and his favourite food is a good, deep crackly glacier which he prefers coated with a generous frosting of newly fallen snow. When the winter comes and the nights are long and dreary he lets out a wild whoop of joy (so we are told), jumps on a passing snow cloud and sails away over the continent, pushing down mercuries and heaping up snow drifts wherever he goes.

But after all, nobody takes him very seriously these days, for it would be a tiresome old world to live in if Friend Frost didn't come along once in a while and give us something to contrast with the summer.

FROM EVERYWHERE

All tourists' records, motor and train, are being broken at Banff, Alberta, this year. More than 13,000 cars were registered by the first of August with the big rush yet to come. As many as 2,000 were under canvas at one time in the Government auto camp ground.

Maple sugar and maple syrup production in Canada during the season of 1925 amounted to 9,791,859 pounds and 1,672,093 gallons, respectively, with an aggregate value of $6,825,416. This compares with an output of 9,385,415 pounds of maple sugar and 1,970,696 gallons of maple syrup during 1924. Quebec province accounted for over 90 per cent. of the production of maple sugar and over half of the output of maple syrup.

Production of the four basic industries of British Columbia during 1924 aggregated in value $210,692,798, as compared with $207,934,041 in the previous year, according to a statement issued by the Provincial Government. The 1924 production was made up as follows, with 1923 comparative figures in brackets: Forest products, $80,702,000 ($86,674,400; agriculture, $60,029,224 ($59,139,798); mines, $48,704,604 ($41,304,320); and fisheries, $21,256,965 ($20,795,923).

Canada's ordinary revenue for the four months of the present fiscal year ended July 31 last, shows an increase of $2,932,163 over the same four-month period last year, according to a statement made by the Department of Finance. Ordinary revenue for the four months of 1925 amounted to $141,739,416. Ordinary expenditures during the four-month period show a decrease from $96,546,541 in 1924 to $95,655,692 this year.

George H. Ham, known throughout Canada as the Grand Old Man of the Canadian Pacific, celebrated his seventy-eighth birthday on Sunday, August 23rd, and was the recipient of a deluge of congratulatory messages from all parts of the country. Col. Ham has been with the Canadian Pacific since 1891 and by his social activities and powers as an orator has made for himself and for the company a veritable army of staunch and faithful friends.

The ethics of The Sun do not permit it to print liquor advertisements or any other advertisements of an ojectionable nature. Last week we rejected an advertising contract for meretricious book We feel that our reuders are as much entitled to protection from undesirable advertising as they are from trashy matter in the news columns.

SKI-ING IN MIDSUMMER AT JASPER PARK

FAIR lovers of winter sports gathered on the Cavell Glacier at Jasper National Park on August 21st, for a try-out on the ash blades. From left to right: Miss Flora MacDonald, Edmonton, Alta.; Miss Doris Neale, Toronto; Miss Peggy Armour, Perth, Ont.; Miss Marjorie Neale, Toronto; Miss Maree MacDonald, Edmonton, and Miss Marian Greene, New York City.—C.N.R Photos.

$1.00 Brings The Sun to Your Home Every Week for One Year

DO YOU WANT THE PEOPLE TO READ YOUR ADVERTISEMENT

People take The Sun because they believe it is worth the price we charge for it. It is therefore reasonable to suppose that they read its contents, including advertisments. This is not always the case wifh newspapers that are offered as premiums with chromos or lottery tickets

WE DO NOT WANT CHARITY ADVERTISING---

Advertising "to help the editor." But we do want businessadvertising by progressive business men who know that sensible advertising brings results and pay. If you have something to offer the public that will benefit them and you as well, the newspaper reaches more people than a bill board

SUN READERS KNOW WHAT THEY WANT

and if you have the goods you can do business with them

The Perfect Blend

"SALADA" TEA

H715

The exquisite flavor of Salada is produced by the expert blending of the choicest teas grown.

NEWS OF THE CITY

Grote Stirling, retiring member for Yale, was nominated Conservative candidate for this constituency at the Conservative convention in Penticton last Monday night.

Six new Doukhobor schools on the Doukhobor colonies in the Nelson district, to replace those burned by incendiaries, were opened on Tuesday, according to a statement made by P. H. Sheffield, inspector of schools.

Dr. and Mrs. G. H. Acres and Mr. and Mrs. Kyle left the first of the week for a vacation trip to Spokane and the coast cities. Dr. Paxton, of Nelson, is relieving Dr. Acres as Dominion veterinary surgeon during his absence.

Jas. Bradley, of P. Burns & Co., is nursing a sore hand because he mistook it for the integral part of a steak the other day.

H. H. Henderson made a trip to the Republic fair on Saturday.

The honey crop in the valley this year was light in weight and a shade darker in color than usual. The flavor, however, is said to be excellent.

D. McPherson, member for Grand Forks-Greenwood, visited Beaverdell on Tuesday.

H. W. Gregory, of Greenwod, was a visitor in the city Saturday evening.

F. Spraggett came down from the Rock Candy mine on Saturday to spend a couple of days with his family.

F. Hine, vice-principal of the public school, is confined to his home on account of a severe cold.

The Normans, Charles and Louis of Beaverdell, and their brother Ed, will receive approximately $175,000 as their share of the proceeds from the sale of the Sally group of claims at Beaverdell to the Guggenheims for $500,000. Mr. Norman Sr. has been in charge of the Sally for a number of years He is remaining at Beaverdell for the present, while Charles and Louis have left on an extenhed to the coast cities.

WINNIPEG LIKES B.C. APPLES

Winnipeg, Sept. 15.—Market conditions here are somewhat better this week with good supplies of practically every line of fruit and vegetables to hand.

The first car of British Columbia bulk apples arrived yesterday and cleaned up quickly; these were Wealthies and sold for 4½c per pound. This in comparison to crates selling at $2.25, should be considered a very good price, and it is understood several firms here have bulk cars rolling.

Local tomatoes are supplying the market altogether, retailing at 10 cents per pound. Ontario and imported preserving fruit are still supplying the demand.

British Columbia prunes, however, have not yet reached here in any quantity, and the trade has to depend on the imported prunes.

Wholesale fruit men look for good business during the present month, owing to the fact that a great many people who have been away from home, at summer resorts and beaches, are now back in the city.

Under the heading, "The Inconsistencies of Men," C. B. Fletcher contributes the following interesting remarks on freight rates to the August "Railway Review":

"Man's progress is measured by his adaptability to his surroundings and his opportunity to trade with his fellow men by exchanging products. Transportation is the essential instrumentality for trade, commerce or business of any kind.

"The phenomenal prosperity of the United States today is the direct result of the most efficient transportation facilities in the world — railroads.

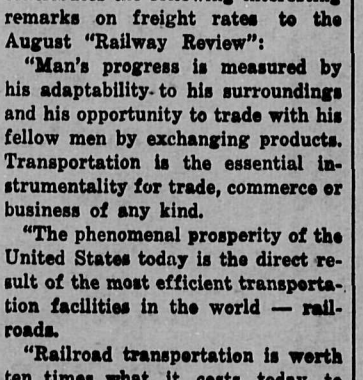
"Railroad transportation is worth ten times what it costs today to every person in this nation. The railroads haul your meat 500 miles for 36 cents a hundred pounds, you pay from 20 cents for cheap cuts to 60 cents for special cuts of meat or from 60 to 180 times the cost of transportation.

"The railroads haul flour 400 miles for 13½ cents a hundred, 7 pounds for one cent. You pay 10 cents a pound for bread or 70 times the cost of transportation.

"You pay one dollar for a meal at a first class hotel on which the freight charges were less than two cents, including everything served, and the coal to cook it, and then tip the waiter ten cents or five times what the railroad received for hauling it 400 miles or more.

"The same man who tips the waiter ten cents will go out and make a speech and complain of high freight rates which are not one-fifth of the amount of his tip.

"Consistency, thou art a jewel!"



TIMBER SALE X7361

SEALED TENDERS will be received by the Minister of Lands at Victoria not later than noon on the first (1st) day of October, 1925, for the purchase of Licence X7361, to cut 120,860 lineal feet of Cedar Poles and Piling and 168,035 lineal feet of fire-damaged Cedar Poles and Piling on an area situated on North Side of McRae Creek at Lafferty Siding, Similkameen District.

Three (3) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Nelson, B C.

TIMBER SALE X7297

AN EXAMINATION for Forest Rangers will be held in Penticton on October 14th, Nelson on October 16th and Cranbrook on October 19th, 1925. Applications will be received up to noon October 7th by the District Forester, Court House, Nelson, from whom application forms and full particulars may be obtained. Fee $1.00.

Candidates must be British subjects, not more than forty years of age, residents in British Columbia for at least one year, of good character and physical condition, with woods experience and familiar with the practical side of logging, timber cruising, surveying and forest protection, with knowledge of the Forest Act and able to organize work and handle men.

This examination is to establish an eligible list for the next year from which appointments will be made as rangers are required. One ranger is required immediately.

W. H. MACINNES,
Civil Service Commissioner,
Victoria, B. C.

Interesting Announcement

Word comes from Montreal that that great family and farm paper The Family Herald and Weekly Star has been enabled to reduce its subscription price to One Dollar a year. This certainly will be interesting news in every Canadian home where the Family Herald is known and to many who will avail themselves of the offer. At two Dollars a year The Family Herald and Weekly Star was generally admitted to be good value, in fact big value, but when reduced to One Dollar a year it will certainly be the marvel of the newspaper world.

Canada is proud of that great Weekly, and has every reason to be so, as it has no superior and few equals in the world today. The publishers announce that notwithstanding the change in price every feature will not only be maintained but improvements will follow. The publishers are fortunate in being in an financial position to do this, and Canadian homes will have the advantage. When the new rate is made known it certainly will bring a rush of subscribers to the Family Herald. One Dollar is a small amount for such a great paper.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 1,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
