The Midway Dispatch.

Vol. 2, No. 35. MIDWAY, BRITISH COLUMBIA, SATURDAY, FEBRUARY, 27, 1904. $2.00 per Year.

MID-WINTER CLEARING SALE

AT

McNICOL'S

Regardless of cost we have decided to close out the balance of our Winter Goods, and all odd lines, which are bound to accumulate in the ordinary run of business.

We do not purpose carrying these goods over until next season, as it would cost us more than the profit to do so, and so have decided to give the profit and a little more to our Customers.

You cannot fully appreciate the GENUINE BARGAINS offered unless you call and examine them for yourself, and we guarantee you will be surprised and pleased.

No Goods Charged at Cash Sale Prices.

J. McNICOL.

Take Care of Those Lungs.

This is the time of year when a little cough may mean a serious illness, if neglected.

Our White Pine and Tar Compound
and
Emulsion of Cod Liver Oil
Still hold first place as curers.

Thomas Drug Co. Midway

Crows Nest Pass Coal Company's Profits.

The net profits of the Crow's Nest Pass Coal company in 1903 as shown at its annual meeting, amounted to $310,492, which, together with the balance at the profit and loss account from 1902 and the sum of $913,526 premium received on calls on new stock, made the aggregate to the credit of the profit and loss account $2,174,530. Four quarterly dividends of 2 and 1-2 per cent were paid, and a balance carried to profit and loss account. During the year nearly $1,000,000 has been spent in plant development and machinery, adding to the efficiency and capacity of the mines.

Senator Claim Looking Well.

The Senator claim, which was bonded by the Granby company some months ago, from Chris Tobiason and associates, is turning out well. The company has 14 men developing the property and is sending out by team to the Rathmullen spur one car of ore a day, which is shipped to the company's smelter for treatment. Preparations are being made to ship on as much larger scale as the C. P. R. continues the Rathmullen spur to the mine, which will be in the course of a couple of months. There is ore enough in sight to make shipment of 100 tons per day.

Running Full Blast.

The Granby smelter is running full blast now, and the six furnaces are at work smelting about 2300 tons per day, with plenty of ore in sight to keep them running at their full capacity right along. More custom ore is being treated at the present time than since the opening of the smelter, because of the need of fluxing ores. The smelter is treating ore from several Rossland mines besides the Oro Denoro, the Emma, the Athelstan-Jackpot and other Summit camp properties. There is no shortage of coke, as the quantity being brought in is considerably more than is required for daily consumption, thus providing surplus in case of an emergency.

Work on Granby Tunnel is Progressing.

Work on the New No. 4 tunnel of the Granby mines, which was started some little time ago, is proceeding steadily, and the face is now about 150 feet from the portal. This tunnel, which is being driven on a five per cent incline, will reach the 300 foot level of the Old Ironsides mine

Now that plenty of cars are available, ore shipments from the Athelstan mine, in Wellington camp, are somewhat heavier. Twenty horses are hauling the ore from the mine to the Winnipeg spur, a mile away, whence shipments are made to both the Granby and the Greenwood smelters. George H. Collins is in active management of the property, where some 25 men are employed.

Fruit Growing in British Columbia.

Some interesting facts regarding the fruit industry in the prairie province were brought out at the recent meeting of the British Columbia Fruit Growers Association. The growing commerial importance of the industry is evidenced by the increased shipments by freight and express, as the following figures show; There were carried by the C. P. R. during 1902, 1469 tons fruit, while in 1903 1987½ tons were carried; an increase of 35 per cent. The Dominion Express Co. carried in 1897, 70 tons of fruit; in 1901 378 tons; in 1902, 483 tons; in 1903 over 676 tons. The establishment of a fruit connery in New Westminister is assured, which will employ forty to fifty hands during the season. This will give growers a market for their surplus fruit.

At the present time British Columbia fruit practically rules the markets as far east as Calgary. The markets of the Northwest, though vast and valuable, are very scattered; Winnipeg is the great wholesale centre, and is of such importance that it enters into the calculations of fruit growers all over the continent, consequently the competition there is keen. Orders are being received from Australia, Hawaii, China, and Japan, and efforts were made last fall to get a foothold in Britain. On Oct. 16th last Messrs. Stirling and Pitcairn of Kelowna shipped the first carload of British Columbia apples, consisting of Spies, Baldwins, Ontarios and Canada Reds to the British market. They arrived in Glasgow on November 9th, in first-class condition and were sold at an average price of about 6s. per box, while Eastern Canada apples were selling in the same place at about one dollar per barrel less, figuring three and one half boxes to the barrel. However when the extra freight charges to Montreal were deducted, the net returns were hardly satisfactory. Enquiries are now being received from other firms who saw the British Columbia fruit and learned it gave first-class satisfaction, so that it is thought that if more and larger shipments were sent foward, better prices would be realized. Concessions in the way of freight rates will evidently have to be obtained, if this export trade is to be developed.

That the British Columbia growers labor under disabilities similar to those of the eastern fruit men, is shown by the following list mentioned by President Metcalfe in his opening address.

First: The lack of co-operation on the part of our growers in shipping, marketing and maintenance of prices, the purchase of packages, paper, spraying materials, and redress of grievances.

Second: We suffer, as fruit growers, from the general lack of knowledge or want of confidence as to the benefits of spraying.

Third: We need canning and evaporting factories to take our surplus fruit, the ripe and lower grade varieties that will not ship long distances, thereby relieving the markets of these qualities offruits, and leaving the higher grades and better fruits to sell at increased prices.

Fourth: We suffer from the

SATURDAY, FEBRUARY 27, 1904.

What Russia is anxious to do is to emigrate to a warm country. She's too big to pen up in her snowdrifts.

Amongst all of Canada's daily newspapers there is not one that attempts to give the news of the day without trying to make political capital out of each news items. Domestic news is twisted and distorted in every conceivable shape in an attempt to prejudice the reader for or against one or other of the political parties and the high standing that Canadians Journaljsm once held is now sunk so low as to almost have become a gutter-snipe press. Has it come to such a pass, in this country where all boast of their freedom in speech and religion, that the press cannot live with out toadying to every pot-house politcian or ballot-box stuffer.—Blairmore Times.

THE FEDERAL BYE-ELECTIONS.

On the 16th inst. elections were held in eight constituencies for the Dominion Parliament. in Ontario, the vacant seats were East Lambton and East Bruce, In Quebec, St. James Division of Montreal, Hochelaga Division of Montreal, St. Hyacinthe, and Montmagny, in New Brunswick, St. John, in Prince Edward Island, Queen's. These constituencies, with the exception of East Bruce and East Lambton, were formerly represented by Liberals. At the recent election St. John N. B. went Conservative by a majority of 274. Dr. J. W. Daniel defeating H. A. McKeon, who resigned his position as Solicitor-General of New Brunswick, to contest the seat. In 1900 Hon. A. G. Blair, Liberal, defeated Hon. Geo. E. Foster, Conservative by a majority of 997. East Lambton went Llberal in 1896, and became Conservative by a majority of 221 in 1900. At the recent election the Conservative majority was 558. In East Bruce the Conservative majority at the general elections of 1900 was 43, at the recent election 200. In West Queen's the Liberal majority in 1900 was 735, at the recent election 285. In St. Hyacinthe, the Liberal majority in 1900 was 1111, at the recent election 187. In Hochelaga Division, Montreal, the Liberal majority at the general elections was 635, at the recent election 278. In St. James Division, Montaeal, the Liberal majority in 1900 was 1641, at the recent election 636.

LOCAL AND DISTRICT.

Alderman A. McDonald, of Phoenix, was in town to-day.

P. Graham, of the Waterloo mine, Camp. McKinney was among the week's visitors to Midway.

C. Johnson, brakeman on the run between here and Nelson, took formal leave of the C. P. R. one day this week.

J. S. Shaver returned on Thursday from an extended trip in the east. On his return journey he bought a carload of fine cattle and has taken them out to his ranch at Rock Creek.

M. Burrell, of Grand Forks, the Liberal-Conservative candidate for the Yale-Cariboo electoral district was a visitor to Midway this week sizing up the political situation. Mr. Burrell will return later and go on to Rock Creek and Sidley where he will hold meetings on March 3rd and 4th, respectively.

A change was made this week on the Columbia & Western among the expressmen. W. McCandlish was laid off and E. T. Hogle substituted. Mr. Hogle, although a young man, has had considerable experience having for a time been on the Lake Shore railway and also performed express duties in an office in Cleveland, Ohio. He comes from Jackson, Mich. and for the past six months has resided at Chesaw. The only reason that can be surmised for Mr. McCandlish's removal is that he is a member of a union formed some time ago by the expressmen. He was an obliging and painstaking employee and his removal is greatly regretted by his many friends here.

Last week a miner named Henry Henrikson was taken to the Phoenix hospital suffering from pneumonia. He was seriously ill when he reached the hospital, and grew steadily worse, expiring in that institution on Sunday. The funeral was held on Wednesday, interment being in the Phoenix cemetery, Rev. T. Green officiating. Henrikson has been a resident of that camp on and off for three years, being employed at the Granby mines just before his death. A year ago he made a visit to his old home in Sweden. He was a young man of about 33, and unmarried, with a brother living somewhere in Montana.

An accidentoccurred Monday at Grand Forks whereby the two young daughters of Mr. and Mrs. E. Disney, were seriously injured. The two girls, Catherine and Amy, aged 11 and 14 respectively, were riding on a toboggan drawn by a horse and accompanied by several other children when the horse took fright and ran away. As the horse began to run the toboggan struck his heels and the animal kicked. Catherine, the youngest one, received a kick on the side of head just over the eye, and has been unconscious ever since, and Amy had her nose broken and was otherwise badly bruised by being thrown against a telephone pole. Both were removed to their home and medical assistance was rendered immediately.

Lart week A. Castleman, of Boundary Falls, had an experience with a panther, which he does not care to repeat, although, fortunately, no one was hurt but the panther and Mr. Castleman's pet dog, which were both killed. Mr. Castleman went to the stable in the morning to feed his horses and upon opening the door saw what he supposed to be a dog partly hidden in some hay. He reached down to touch the dog when the animal, which proved to be a huge panther, sprang out and ran down a little gulch a short distance away. Mr. Castleman in company with his son, James, both armed with rifles went in pursuit and after firing several shots, all of which took effect, they succeeded in killing the panther. It was afterwards found that the animal was taking a breakfast off Mr. Castleman's dog, when he was discovered beneath the hay in the stable.

The Mail and Empire War News.

People who wish to be posted on the progress of the Japanese-Russian War should subscribe for The Toronto Mail and Empire, which will cover the field with the same thoroughness that witnessed its handling of the Spanish-American and Boer Wars. Not only will the Mail and Empire be served by the Laffan Bureau and the Associated Press, but it will publish the cables of the special correspondents of the London Times, London Daily Mail and the Paris edition of the New York Herald.

Russo-Japanese War.

With characteristic enterprise the Winnipeg Free Press has arranged to give its readers a war news service unequaled by any other newspaper of the Dominion. It has made special arrangements with the New York Herald for a simultaneous publication of the Herald's special war cables sent by its own correspondents from the seat of war. This arrangement covers the entire service of the New York Hearld—its special cablegrams, its war maps, its illustrations from their artists at the front, and its special articles on the war. The New York Herald has unrivalled facilities for procuring the fullest and latest news, especially in war times. The New York Herald's special cable reports from its own special correspondents on the ground in the Turko-Greek war, Kitchener's Campaign in Egypt, Spanish-American war, and the British-Boer war, were admittedly the fullest, the most vivid and the most reliable of any received on the American continent, and constituted for reference purposes on this continent the authoritative records of all these campaigns.

Fruit Growing in British Columbia.

Continued from page 1.

lack of a proper distribution of our fruits in the different markets we are shipping to.

Fifth: We also require better facilities in transportation and lower rates. The express rates are excessive and the care and attention given to the handling of fruit on and off express cars are careless and unsatisfactory and ought to be discouraged and corrected.

Plain English.

A member of Parliament in Australia recently received from an indignant constituent, who has asked him in vain for "a billet" (a job in politics), the following unique letter: "Deer Sur—You're a dam fraud and you know it. I don't care a rap for the billet or for the muney either, but I object bein' made an infernil fool of. Soon as you was elected by my hard working friends a feller wanted to bet me that you wouldn't be in the house moren a week before you made an ass of yourself. I bet him a Cow on that, as I thought it was worth it then. After I got your note sayin' you deklined to ackt in the matter i druv the Cow over to the Feller's place an' tole him he had won her. That's orl I got by howlin' meself horse for you. You not only hurt a man's Pride, but you injure him in buzness. I believe you take a pleshir in cuttin' your best friends, but wate till the clouds roll by an' they'll cut you—just behind the Ear, where the butcher cut the pig. Yure no man. Yure only a tule. Go to hel. I lowers meself ritin' to a skunk, even tho I med him a member of Parliament."

STRAYED.

Came to my place about December 26th last, a white horse, aged, branded on left stifle but brand is indistinct. If not claimed within 30 days will be sold to pay expenses.

Midway Feb., 6th, 1904.

J. E. DRENNAN.

A Business Proposition.

If you are going east a careful selection of your route is essential to the enjoyment of your trip. If it is a buisness trip time is the main consideration; if a pleasure trip, scenery and the conveniences and comforts of a modern railroad.

Why not combine all by using the ILLINOIS CENTRAL, the Up-To-Date Road, running two trains daily from St. Paul and Minneapolis, and from, Omaha, to Chicago. Free Reclining Chair Cars, the famous Buffet-Library-Smoking Cars, all trains vestibuled. In short thoroughly modern thoroughout. All tickets reading via the Illinois Central will be honored on these trains and no extra fare charged.

Our rates are the same as those of inferior roads — why not get your money's worth Write for full particulars.
