Midway and Rock Creek

Rock Creek District Items

J. O. Thompson left on Monday for Rossland.

Fred Madge has returned from a visit to Spokane.

Mr. and Mrs. W. Hanrahan and daughter, left recently for Vancouver.

James McCreath of Greenwood, has taken a position in the Rock Creek Hotel.

Mr. and Mrs. H. T. Newmarch of Greenwood, were visiting in the Valley on Tuesday.

Mr. and Mrs. J. C. Madge and daughter, Rosie, were visitors to Greenwood on Thursday last.

Major and Mrs. R. Gray, Mrs. G. B. M. Gane, and E. F. Wilson returned on Friday from a visit to Spokane.

The Rock Creek Fall Fair will be held on the first Friday in October. Prize lists will be issued in a short time.

Miss Juanita Docksteader has returned to her home in Grand Forks after a visit with Miss Winnifred Whiting.

The annual meeting of the Kettle Valley Golf Club will be held in the Ingram Bridge School House on Saturday, May 7th, at 2:30 p.m.

Wm. Johns, proprietor of the Riverside Hotel, has taken over the dining room in this well-known hostelry. Mr. Johns expects a large tourist trade this season.

The Rock Creek Women's Institute intend to give a Big Dance on the 1st of July, 1927, for the benefit of the Crippled Children of B. C. Posters will be issued later.

R. W. Foster has opened a bake shop in the building known as the Riverside Hotel annex. Mr. Foster was until Saturday in charge of the Riverside Hotel dining room and at that time baked on an average of 240 loaves a day. He will greatly increase this number at his new shop. He will also specialize in pastry making.

A Big Picnic Celebration will be held under the auspices of the Rock Creek Women's Institute at Ingram Bridge on Tuesday, May 24th. A Memorial Service at the Monument, with Boy Scouts in attendance, will take place at 12 noon; Basketball 12:30; Children's sports 2 p.m.; Baseball at 3 p.m.; Dance in Riverside Hall in the evening. Watch for posters.

Mrs. Howard Smith and son, Howard, Jr., spent a few days in town this week the guests of Mr. and Mrs. G. S. Walters. While here Mrs. Smith received treatment for an infected hand at the District Hospital.

Howard Pannell was a visitor in town on Wednesday from Midway. Howard is making a success of custom hatching and this week he will re-set his incubators with 1000 eggs. He shipped chicks as far as Proctor last week.

Keep in mind the date of Hospital Day, which is Friday, May 13th. There will be a Show in the local Theatre and a Dance in the Masonic Hall afterwards. By attending these affairs you are supporting your Hospital.

The following interesting item is taken from the Auckland Weekly News, New Zealand, of Jan. 20th, 1927: "A pre-war built car was seen in Auckland a few days ago, with the badge of the Automobile Club of British Columbia on the radiator."

Miss Lillian Pickthall, who has entertained the people of Greenwood so frequently the last few years, has received very favorable newspaper comment for her singing at various times during the past winter for the Vancouver Women's Musical Association. Last week at the Musical Festival held in Victoria, Miss Pickthall was awarded the gold medal and first prize for the competition in the class for contraltos. This high honour will be welcome news for all old friends of Miss Pickthall in this district.

The waiter was taking the order of a pretty young lady who was accompanied by a florid, pudgy, middle-aged man. "And how about the lobster?" the waiter inquired.

"Oh, he can order whatever he likes," came the startling reply.

Council Sets Clean-Up Days May 10th and 11th

The City Council met in regular session on Monday evening Mayor Gulley presiding and present Alderman King, Portman, Taylor, Peterson and Forshaw.

A large amount of correspondence through the Trustee from the bondholders was read and thoroughly discussed. The information and statistics supplied by the City Clerk being considered satisfactory both by the Council and Trustee.

Letters and pamphlets from the Executive Committee of the National Committee for the Celebration of the Diamond Jubilee of Confederation and a circular from the Premier of B.C., also in connection with the celebration were read and discussed. Ald. Forshaw reported that the Rock Creek Farmers Institute had already taken preliminary steps towards holding a district celebration and in view of this the Council felt it would be unwise to commence any separate undertaking. Ald. Forshaw was appointed as representative of the Council for a future meeting and the City Clerk instructed to forward the documents received to Major Gray of Kettle Valley.

Completion of work on the Silver St. pole line was reported by Ald. Peterson and further work as outlined received authorization. City Clerk was ordered to investigate reason for increased power consumption during April and no apparent increase in revenue.

The Water committee had a lengthy report covering conditions of the water system and extra trouble is being experienced due to high water. Up to the present Twin creek is well under control and the reservoir on that creek has been overhauled and cleaned. Providence creek channel is normal the water having been diverted by other parties and the Council disclaimed all responsibility in connection with this diversion.

Clean-up days will be Tuesday and Wednesday, May 10th and 11th and householders are requested to have any rubbish placed conveniently for removal on Wednesday.

Conditions at the cemetery were severely criticized and the City Clerk was instructed to write the various organizations to whom portions of the cemetery have been presented, asking that work be done to improve the place held by them.

Midway News

Mrs. L. Leggatt returned last week from spending the winter in Victoria.

Miss Gwennie Salmon has accepted a position in the Grand Forks Hospital.

Sam Bender is making preparations to commence logging on Chas. Watson's land.

The Women's Institute will meet on Saturday, 7th inst. in the Farmer's Hall at 2:30 p.m.

Nellie Wren, daughter of Mr. and Mrs. T. A. Clark, sang over the radio from San Francisco last Friday evening.

Mrs. T. Roberts entertained on Tuesday last in honor of Miss A. Jones, the occasion being this popular young lady's birthday.

At the Ladies Aid meeting last Saturday the following officers were elected: President, Mrs. Harold Erickson; Vice-President, Mrs. James Bush; Secretary, Miss Joy Sharp; Assistant Secretary, Mrs. W. Salmon; Treasurer, Mrs. A. Porter.

Jubilee District Celebration

The Jubilee Celebration meeting will be held in Riverside Hall, Rock Creek, on Saturday, May 14th at 2:30 p.m. It is hoped there will be a large attendance as plans will be formulated for the District Celebration on July 1st.

Never Touched Him

"Want to go to the theatre tonight?"

"I have nothing to wear," said his wife peevishly.

"That won't matter. I only meant one of those moving picture theatres where its dark."—Ex.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

One of Canada's Assets

Every citizen is, or should be, interested in all things pertaining to the development and prosperity of Canada, whether he views it from a broad patriotic and national standpoint or the more selfish one of how his individual business and welfare is affected. Anything any citizen can do to advance national interests and progress is, therefore, to be expected of him.

It is generally recognized that it is in the interests of a country to develop its export trade to a point beyond the volume and value of its import trade; in other words, to create what is known as a favorable balance of trade. Export trade is made up of those articles produced or manufactured in Canada and sold in other countries; import trade consists of produce and goods of other countries brought into Canada and sold to its people. That is, Canada must send its money abroad to pay for imports, while on the other hand, foreign money is paid to us for goods we export. In practice, of course, exports really pay for our imports; hence the strength of developing exports in excess of imports.

There is, however, one exception to this general rule. Money itself when imported adds to the wealth of the country much the same as exports of produce and goods adds to it. And it is immaterial the form in which such money may come.

Of late years a new industry has developed on the North American continent, although it is an old industry in France, Switzerland, and some other lands. We refer to Tourist traffic, which has long been a source of great income to France and Switzerland. Tourist traffic has, with the advent of the automobile and the building of good roads, become one of the major industries of Canada, and, unlike most imports, the more tourists we can import the richer Canada is made. It follows that everything in reason should be done by Canadians to encourage an increase in such traffic.

Tourists come to Canada for a variety of reasons. They are glad to get away from the excessive heat of the south in summer; with the development of so many large cities in the United States those who can afford to do so are anxious to flee to the woods, to the lakes and river resorts; some come for the purpose of hunting and fishing; some with the idea of investigation of Canada's resources and possibilities and investment therein. All in their travels look for comfort, pleasure and beauty of surroundings.

The mountais scenery and winter sports of Switzerland are that country's drawing cards. Canada can offer just as fine mountain scenery as Switzerland, and an infinite variety of other natural beauty which the land of the Swiss lacks. Canada's national parks are without exception among the finest in the world.

But to get to the main point of this article. Tourists travelling our provincial and country highways, en route hither and thither, desire to follow the most attractive and beautiful roads. Bare, treeless levels do not attract, but winding trails and roads through little valleys and park-like country make a powerful appeal. It is in these districts, too, that a profusion of wild flowers flourish, making the whole countryside beautiful and a constant surprise and joy to the visitor.

But these wild flowers are in danger. People exclaim at the beauty of a certain patch and forthwith proceed to break off the blooms or even tear the plants up by the roots. In a few short hours they are withered and thrown away. Had they been left undisturbed they would have given pleasure to scores of passing tourists, adding to the attractiveness of the route along which they bloomed. Not only so, but they would have reappeared next year and by scattering seed far and wide would have greatly increased in number. The serious thing is that through destruction their beauty was lost, not for one season alone, but for all time, and the loveliness which marked a spot this year is bereft of its charm in future years.

The moral is: Stop this thoughtless picking of our prairie and forest wild flowers. Try to realize that these wild flowers mean not only beauty to our country but that they attract visitors and have an effect in adding to the material wealth and prosperity of the Canadian people.

Making Animals Feel at Home

Lions and tigers in Bronx Zoo will have an opportunity to become acquainted with scenes of their childhood. Painted backgrounds purporting to picture the plains of Africa and the jungles of India, are being installed in the outdoor cages. Similar backgrounds were installed in the reptile house several years ago.

To the troubadour of old, we are indebted for most of our knowledge of the customs and thought of Medieval Europe. His songs, 2,500 of them, have been preserved. They deal with drama, romance and fable.

Diamond cutters who come to London to buy gems remain in semi darkness until the time comes for examining the stones.

The Londoner Won

A traveller was talking of some of the great cities he had visited, and he happened to remark that London was the foggiest city he knew.

"Nonsense!" exclaimed an indignant Londoner. "I've been in a foggier place than London."

"Where was that" asked the traveller.

"I couldn't find out where it was," replied the Londoner; "it was too foggy."

Keene, New Hampshire, claims to have the widest concrete-paved street in the world, measuring 140 feet from curb to curb.

When the sun shines lay aside a little of your enthusiasm for a rainy day.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Americans Use Radiophone

Calls Increasing With Advent of U.S. Visitors to London

Radiophone talks with America from London are rapidly increasing with the advent of United States visitors. It has been found that a large proportion of the calls from London were made by American business men staying there. Twenty-six calls to New York and elsewhere in the United States were made in one day last week from one London hotel and all by American business men. An American staying at a leading hotel paid for his telephone talks to Chicago four and one-half times as much as his hotel bill. One conversation alone cost him $275.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly, it takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Sends Greetings to Canada

President of Cuba Pleased With Existing Friendly Relations

Expressing keen satisfaction with the financial and economic relations between Canada and Cuba, President Machado has sent cordial greetings to Canada through the Hon. Vincent Massey. The Cuban president discussed the affairs of the two countries with the Canadian minister during his short visit to Washington. It is understood that the rumored intention of Cuba to send a minister plenipotentiary to Ottawa was not discussed.—New York Morning Telegraph.

RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Liniments of No Use

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin but it is loaded with impurities—rheumatic poisons. Without the proper treatment these poisons increase, the inflamed joints swell and the patient becomes a cripple. Most treatments simply aim to keep down the pain, hence with every unfavorable condition a renewed attack follows.

To cast out rheumatism the blood must be enriched and the rheumatic poisons driven out with the natural secretions of the body. This can best be done through a course of Dr. Williams' Pink Pills, which have a specific action on the blood, giving it new richness and redness. Thousands have tried this treatment with beneficial results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Pictou, N.S., who says:—"For years I was troubled with rheumatism. The pains were not continuous, but they always returned, and kept getting worse. I tried so-called electric belts and many medicines, but did not get more than temporary relief. Only those who have suffered from this trouble will realize what I suffered at times. I had begun to despair of getting better when a friend urged me to try Dr. Williams' Pink Pills. In a short time I could feel this medicine helping me so I gladly continued taking the pills and soon found that every trace of the trouble had disappeared and there was a great improvement in my general health. It is now two years since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. That is why I confidently recommend the pills to other sufferers."

You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Company, Brockville, Ont.

Canadian Alfalfa Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 238,000 acres in 1920 to 858,000 acres in 1926.

Elevator Contsruction

Grain elevator construction in Western Canada this year will be on an unprecedented scale, no fewer than 350 elevators being already projected.

The largest refrigerating plant in the world recently was opened in Buenos Aires. It is capable of handling daily 5,000 sheep and 10,000 cattle.

Treat corns with Minard's Liniment.

"The Confederation"

Name Given to New Canadian National Train Commemorates Canada's Diamond Jubilee

An important extension of Canadian National Railways passenger train service between Eastern Canada and the Pacific Coast, is announced by H. H. Melanson, general passenger traffic manager of the System. Under a new chedule which becomes effective on June 24th, from Toronto, and June 27th from Vancouver, trains No. 3 and No. 4, now operating between Winnipeg and Toronto only, under the name of "The National" will operate between Toronto and Vancouver on a 93-hour schedule westbound and 91 hours and 10 minutes schedule eastbound. It It was announced also that in honor of Canada's diamond jubilee, the trains under the new service will bear the title of "The Confederation."

These trains operate with the latest type all-steel equipment, including tourist and standard sleepers, dining cars and radio-equipped observation library cars, and have proven very popular with passengers between Toronto and Western Canada points since their inception. On the new schedule, the trains will carry a mountain observation car between Kamloops and Vancouver, and will thus provide passengers with the opportunity of seeing the beauties of the famous Fraser River canyons en route.

An important change in the routisg of "The Confederation" across the prairie provinces is also announced. Under the new schedule these trains will operate via Brandon, Manitoba, and Regina, Saskatchewan, thus giving through service to these important cities in the west.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Farmers Appreciated Better Seed Cars

Attendance at 28 Manitoba Points Reached Total of 4,418

Final report on the work of the Manitoba Better Seed and Poultry Cars which were operated by the Manitoba Provincial Extension Department of Agriculture in conjunctios with the Canadian National Railways, during February and March, shows that a total of 4,418 people visited the cars and attended the lectures at the 28 points visited.

These figures indicate an average attendance of 157 persons at each point, a satisfactory result in view of the fact that the Better Seed Cars were being operated for the first time and of the weather conditions which prevailed at some points. Of the total attendance 1,057 were children of Grade 8 and over.

In addition to lectures and a display of noxious weeds common to the districts in which the cars operated, practical demonstratioss in the cleaning of seed were given and farmers were provided with lists showing the screens which should be used to produce the best results. Live poultry were used in the poultry car which also had accommodation for lecturing purposes.

The staff consisted of George Black; R. Whiteman; F. B. Hutt, and at various times visits were paid by N. C. MacKay and H. E. Wood of the Extension Service Department and by officers of the Agricultural Department of the Canadian National Railways.

Is Becoming Important Factor

Tourist Business Means Millions of Dollar to Canada

The tourist business of Canada has grown to such proportions that it now is considered by the Dominion treasury to be an extremely important factor in the annual revenue of the country. How many people realize, for instance, that last year's turnover was very nearly $250,000,000? How many realize that this figure is nearly three times as much as Canada's entire budget was twenty years ago? But the important point to remember in this community is that this enormous business has been developed by the town and cities of the Dominion that have conducted campaigns similar to that which Victoria conducts every year. Yet some people hesitate about approving a small publicity grant instead of bearing in mind the relationship between the insignificant investment and the very large return.—Victoria Times.

Teacher: "Surely you know what the word 'mirror' means, Tommy. After you've washed, what do you look at to see if your face is clean?"

Tommy: "The towel!"

Minard's Liniment for dandruff.

Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one bad spell that kept me in bed for six months.

"My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wrists and hands would swell up so that I couldn't write my name. I dreaded bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal.

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. *I never have an ache. It's hardly believeable!* If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from overwork or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Destroy Machine-Carved Glass

Craftsmen Fear Machinery Will Ruin Hand Cutting Trade

Bohemia's famous glass-cutting industry is greatly agitated over the adoption of modern machinery to replace the proces of cutting by hand, which has been the source of livelihood of thousands of families.

Fearing ultimate destruction of their handicrafts, 1,000 trade glass cutters, representing an ancient guild of craftsmen, invaded a half dozen factories and summarily demolished large stocks of machine-carved glassware. Intervention by the police failed to pacify the rioters and the disturbances are spreading through the glassware belt.

Production of a carload of machine-cut glassware requires less labor than a single hand cut vase, the revolting glass-cutters declare. They claim the foreign markets still demand hand-cut wares and announce their determination to halt further invasion by technical appliances calculated to destroy their profession.

Many Americans Live in London

Number Increases Fifty Per Cent in Ten Years

Although a heavy reduction occurred in the sumber of aliens living in Great Britain, the number of Americans living there increased almost 50 per cent. in ten years. This is disclosed by the general report of the 1921 census of England and Wales, published for the first time.

The total population of England and Wales numbered 87,886,699, of which there were 18,075,239 males and 19,811,460 females. Its density was 649 persons to the square mile, or about an acre per head greater than that of any other country in the world for which statistics are available. Nearly 80 per cent. of the population live in urban areas.

"Surplus" women increased from 1,200,000 to 1,700,000.

The Welsh language is shows to be gradually dying out.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

The man who knows nothing and wants to find out everything is almost as big a bore as the man who thinks he knows everything and insists upon telling it.

"Moto-Balloon" New Invention

Observation Post Can Be Quickly Transformed Into Semi-Dirigible

A "moto-balloon," capable of remaining immobile in the air as an observation post, though unattached, or of being transformed into a semi-dirigible within a half hour was launched at Milan, Italy, recently. It was christened the "A-P," after its inventor, Colonel Avorio, and his assistant, Passone.

It consists of a special type of captive balloon with the body replaced by a metallic tubular apparatus equipped with a 400-horse power motor and containing room for a crew of several men. It is capable of flying four hours at a speed between 30 and 40 miles an hour at an altitude of 6,500 feet.

Husband And Wife Are Both Benefitted

Mr. F. Spilay Speaks Highly of Dodd's Kidney Pills

Saskatchewan Man Who Suffered From Kidney Trouble Tells of the Relief He Sought and Found.

Springside, Sask. (Special)—"Both my wife and myself have suffered with strained kidneys, the pain being so bad at times that it was impossible for either of us to stoop and getting up was most difficult and painful. We used Dodd's Kidney Pills and found ready relief in them for this trouble."

This statement comes from Mr. T. M. Spilay, Box 2, Springside, Sask.

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood.

Dodd's Kidney Pills have restored sound health to thousands of troubled men and women. Give them a trial at once.

The road to good health lies through the kidneys, so keep them in good condition with Dodd's Kidney Pills.

"Were you in Paris, London, Berlin?"

"I really couldn't tell you. My husban bought all the tickets."

Man learns from his own mistakes, but he never lives long enough to complete his education.

A woman never thinks of her husband as a gambler as long as he does not lose.

Genuine ASPIRIN

BAYER

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

HOME-BAKED BREAD IS BEST OF ALL

Alliance Not Desirable

Cordial Understanding Betwees Britain and U.S. More Desirable Says American Ambassador

Alanson B. Houghton, United States ambassador, seconded the recent suggestion by Sir Esme Howard, British ambassador to the United States, that an Anglo-Saxon alliance would not better the relations between the United States and Great Britain.

"We must not hope to seek to develop those wholly natural relations between the British and American peoples into anything like an alliance," Mr. Houghton said, in an address at a luncheon given before Manchester Chamber of Commerce.

"The idea may be tempting; nevertheless, I believe it to be wholly false. To bring the English-speaking peoples together into an armed and exclusive group prepared if need be to enforce its collective will by force, would, if it were possible, tend neither to promote peace nor to assure our mutual security.

"It's only result would be to unite all the rest of the world against us. It would turn this earth once again into an armed camp. In the end precisely what we sought to avoid—war—would result, and out of such a war we may be sure that neither honor nor safety nor profit to any people could possibly emerge.

"The peace, happiness and well-being of the world," he added, "depends largely upon a sound and cordial understanding between the British and American peoples."

Is Good Paying Business

Noted Egyptologist Recommends Plumbing as Best Trade

Plumbing as a career is recommended to members of the British aristocracy by Arthur Weigall, noted Egyptologist who points to the new fad of having expensively fitted bathrooms even in the smallest houses. There is no better paying business today, declares.

Weigall was formerly inspector general of antiquities to the Egyptian Government and keeps up with the times by following modern plumbing. Women in particular, he contends, appear to take five or six times as many baths a week as they did a few years ago.

There is no limit to the decorative ingenuities which might be injected into the plumbing business, he believes.

After a mounted policeman was run down by an automobile in England, a law was passed requiring night riders to equip their mounts with tail lights fixed to the harness.

If You Need a Tonic, Get The Best!

—Hayball

Mrs. Sophie Salway of 135 Wilson St., Woodstock, Ont., (picture above) said: "I had had an operation and was expecting to have to undergo another. I was in a very poor state of health—was weak, it seemed that all my strength had left me. I could not do anything. It was quite necessary that I have a good tonic to make me strong enough for my second operation so I took Dr. Pierce's Golden Medical Discovery and it soon had me well and strong, and I came thru the operation without any trouble. Several other members of my family have taken the 'Golden Medical Discovery' with usually good results and all have words of praise for it."

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory, in Bridgeburg, Ont.

Good Sound Sleep Essential

Eight Hours Necsesary if You Would Be Efficient Say Scientists

All you night owls that argue that a good night's sleep and plenty of it is not necessary to keep humans on their feet, and essential to the best results for man power haven't a leg to stand on—especially after they had been out all night.

Scientists assert that not only is eight hours of good rest necessary each day for efficiency, but that it is also one of the secrets of good looks. So if you want to perform a full day's work well and become attractive, too, in your personal physique and contour, go to bed early and you can then observe the old adage: "Early to bed and early to rise makes a good milkman."

"The head of the Psychological Laboratory at Colgate University, aided by a young doctor, made with three willing subjects, a scientific study of the laws of sleep," writes Eileen Bourne in Liberty.

"This experiment brought out two things: "First, it takes about three times as much energy to accomplish sustained mental work after six hours' sleep as it does after eight hours. Second, six hour of sleep on a soft, springy bed is worth eight hours' sleep on a hard bed. Thus eight hours' sleep on a soft bed is necessary preparation for working without strain.

"Of course, these scientists were interested in the effect of sleep loss on efficiency, not on looks. But the two qualities suffer equally. Not even your temper shows the result of nervous tension so much as your skin and eyes. First and foremost, then, comes the investment is a good bed. It wil play dividends in a look of freshness and vitality. Second, after you get your bed, go to it! To make restful sleep for eight hours the rule and five or six hours the exception—this is the whole point of the Colgate University experiment. Only then can you eliminate strain from your nervous system and its reflection from your eyes and skin."

Less Exodus to States

Marked Decrease in Canadians Going Across the Border

C. R. Taggart, United States Consul at London, Ont., states that there has been a tremendous falling off in the number of Canadians seeking to make their homes in the United States. In the first three months of 1926 applications were made to this office by 1,027 persons who desired to live in the United States. In the first three months of the present year the number of such applicants had fallen to 491.

"Now, Able," asked a teacher in one of New York's East Side schools, "what does the Statute of Liberty stand for?"

"Because, teacher, de vater iss too deep vare she iss tanding to sit down."

Jones—"Taking Miss Smith out last night must have cost you a lot of money?"

Brown—"Only thirty shillings!"

Jones—"Is that all?"

Brown—"Yes, she hadn't any more with her!"

He had spoken to her on the street and she was highly insulted. "I don't know you from Adam," she said, indignantly. "You ought to," he retorted "I'm dressed different."

Ford—"My wife allows me to see only one sporting event a week."

Fordson—"Why not take in the six-day bicycle race?"

As intelligent working man has a vocabulary of 5,000 words, while an educated man should know 8,000 to 10,000 words.

The word "zero" comes from the Arabic "sifr," meaning "nothing." Our word "cipher" also came from the same source.

Basle, Switzerland, has issued special poster-stamps to commemorate this year's exhibition of Swiss industries.

A successful man is one who makes his mistakes when they don't count against him.

A Strange Plant

Compass Plant of Texas Responsible for Saving Many Lives

A plant found in the prairie of Texas has bees responsible for saving the lives of many persons who have become lost during storms. It was first brought to the attention of the scientific world by Gen. Benjamin Alvord. Known as the compass plant, it received its name from the strange property exhibited by its leaves of presenting their faces to the rising and setting sun.

The compass plant is a perenial, and during its first year bears radial leaves only. In its second year it is a flowering herb, with four or five leaves measuring from twelve to thirty inches in length.

It is found mainly in the prairies of the Mississippi valley and its peculiar powers were well known to hunters and settlers long before Gen. Alvord discovered it. When lost on dark nights they would search for it, and by feeling its leaves obtain their bearings.

World's Laziest Creature

Fresh Water Tortoise in London Zoo Takes Life Easy

The modern urge to "be on the go" has finally struck the Mantamata Terrapin, in the London zoo, which is known there as the world's laziest creature, resulting in its walking the entire length of its tank and at rather a fast pace, too This fresh water tortoise, or turtle, had reduced the science of living to a minimum of ease and rest. For months it lay in one corner of the tank with scarcely a visible movement. Occasionally it gulped a fish which came within its range. Small water plants covered the animal's shell and it made no effort to scrape them off. Baby alligators played about the terrapin constantly, without disturbing its siesta.

Suddenly it went on its walk—upsetting the equanimity of all its tank mates—but apparently it has settled down again to another long rest.

Banker's Ten Rules for Success

Eminent Financier Gives Good Advice to Young Business Men

Ten rules for success, which that eminent banker, Otto H. Kahn, says he has given to many young men about to enter business, appear in a recent interview published in the Daily Princetonian:

1. Eliminate from your vocabulary the word "perfunctory."
2. Think—exercise your brain as you do your muscles.
3. The most serviceable of all assets is reputation.
4. Use your imagination.
5. Know how to bide your time and to "sit tight."
6. Be neighborly. Be a good sport. Remember you can't lift yourself by downing others.
7. Work hard. It won't hurt you.
8. Take an active interest in public affairs.
9. Meet your fellow man frankly and fairly. You don't have to go through business armed to the teeth.
10. If you are successful, be patient, courteous and conciliatory. Avoid ostentation.

Spelling Mistake Furnished Clue

Anonymous letters written to the villagers of Consignat, near Guerat, France, using threats and making fantastic accusations, have caused a reign of terror for the past two years. Many a farmer has, after receiving one of these letters seen his barns in flames. A young woman has now been arrested is connection with the case. In a letter dictated to her, she made a spelling mistake similar to one which occurred in one of the anonymous letters.

Cliff Dweller's Burial Grounds

The lost burial grounds of the Casa Grande (Ariz.) cliff dwellers, probably a thousand years old, have been found by an expedition from the Southwest Museum, Los Angeles, California. A funeral urn of beautifully shaded red on buff coloring and containing bone fragments and ashes of the dead was the first finding of the expedition. It revealed that two forms of burial—cremation and earth internment—were used by the cliff dwellers.

Orders Frogs From Hawaii

Two thousand pairs of frogs who have been harmonizing under the Hawaiian moon will be given a trip to the Orient if an order from a Japanese frog fancier can be filled. Why the Hawaiian variety of croaker is desired is not stated, but natives claim the edible hind legs are made unusually large and muscular by surf-riding.

A will, consisting of 25 words, was written on the back of a bridge score pad by a New York woman.

Sell Airplanes on Installment Plan

London Dealers Keep "Samples" for Customer's Selection

Enterprising aeroplane dealers have entered the installment plan field alosgside the furniture houses and real estate agents.

In London under the new order of affairs, two-seater machines, fully equipped, may now be bought for £230 down (roughly $1,150) and twenty-four monthly installments of £24 15s.

The installment plan ship has an eighty horse-powered engine of the latest type and can do 100 miles an hour.

A prospective purchaser may inspect "samples" in the downtown shops, pay down his cash, go to Stag Lane aerodrome, in the Edgware Road, on the outskirts of London, and flit away in his new craft with all the pride of the shopper who gets what he wants when he wants it.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. Tousaignant, Ste. Sophie, Que., writes:—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Use for Everything

Australia Making Millions Out of Jack Rabbit Pest

Australia once upon a time frantically wondered what it would do with the jack rabbit pest. These ferocious creatures ate up all the crops in sight. A government bounty was put on them. Then it was found that rabbit hides, were good for material to build felt hats. Last year the pelts of 78,000,000 jacks brought $12,500,000 into Australia. There seems nothing so useless on earth but that it has real value. Some day we expect some genius will discover a use for moth holes.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Alberta Sugar Beet Industry

The Canadian Sugar Factory Co., Ltd., of Raymond, Alberta, intends growing beets on half an acre of land in the vicinity of Red Deer this summer for test purposes. If successful, a new plant is likely to be set up in that vicinity.

Bees can't talk, but they often get back at one with a stinging retort.

RESTORED TO GOOD HEALTH

Mother of Eleven Children Praises Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I knew of it from my sister, Dame Edouard Bellefeuille of Ramsayville. For five years I was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls."—Dame WILLIAM PARENT, Box 414, Buckingham, Quebec.

Why suffer for years with backache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use. C

Cuticura Preparations for All the Family

For generations Cuticura Soap and Ointment have afforded the purest, sweetest and most satisfactory method of promoting and maintaining a healthy condition of skin and scalp. Tender-faced men find the freely-lathering Cuticura Shaving Stick a necessity. Cuticura Talcum is an ideal powder, cooling and refreshing.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.
Cuticura Shaving Stick 25c.

Untold Wealth in Dead Sea

Is Fabulously Rich in Mineral Salts Says Chemists

The Dead Sea, so salty that fish and seaweed cannot live in it, has prospects of coming to aggressive life as a chemical production centre.

Scientists who investigated for the Hebrew University have completed a report for Dr. Chaim Weizmann, its president, who is now in the United States, showing this historic salt lake to be as fabulously rich in mineral salts as it is in Biblical lore.

The chemists recommend that in connection with the harnessing of the Jordan River for power, now under way, steps may be taken to utilize the treasures of this inland sea. Ways and means to carry out the recommendations are under consideration.

The Dead Sea, 793 feet below the level of the Mediterrasean, contains 25 per cent. saline element in comparison with 4.6 per cent. in ocean water. It is so heavy that animal bodies will not sink in it. The report says it contains in millions of tons, potash, 2,000; magnesium bromide, 980; magnesium chloride, 22,000; ordinary salt, 11,000, and calcium 2,000.

The chemists estimate there is enough bromide to last the entire world 35,000 years at the present rate of consumption, and enough potash for 1,000 years. They also believe that production near the ancient site of Sodom and Gomorrah would be cheaper than anywhere else in the world because of the intense heat, which causes rapid evaporation. The Jordan River pours 6,000,000 tons of water daily into the sea, but its level never rises.

Legend incorrectly has it that the sea poisons the air so that plants cannot even grow near it nor birds fly over it.

Little Helps For This Week

Add to godliness brotherly kindness, and to brotherly kindness charity.—2 Peter 1. 7.

O brother man, fold to thy heart thy brother,
Where pity dwells the peace of God is there;
To worship rightly is to love each other,—
Each smile a hymn, each kindly word a prayer.
—John Greenleaf Whittier

As the rays come from the sun, and yet are not the sun, even so our love and pity, though they are not God, but merely a poor, weak image and reflection of Him, yet from Him alone they come. If there is mercy in our hearts, it comes from the Fountain of Mercy. If there is the light of love in us, it is a ray from the full sun of love.
—Charles Kingsley.

Farmers Enjoy Low Freight Rates

Speaking recently in the Senate, Hon. C. P. Beaubien said that farmers in Western Canada enjoy the lowest freight rates in the world. In Canada it costs 12 cents per bushel to move grain 794 miles, while in the United States it costs 22 cents per bushel to move grain 708 miles. The average rate per bushel on all grain in Canada, he stated, was about 15 cents, whereas in the United States it was 30 cents and still higher in the Argentine.

Alberta's Dairy Industry

Increase in North Alberta's dairy industry has caused the Edmonton City Dairy to plan additions to its plant this summer, at a cost of $350,000.

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Eclectric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore it should have a place in all home medicines and be amongst those taken on a journey.

The honest man who pays his rent has to hustle and the dishonest one who doesn't has to keep moving.

One of the things a man can't understand is why his enemies seem to have so many friends.

Keep Minard's Liniment in the house.

Wins Short Story Contest

Winnipeg Writer Submits Story That Takes First Prize

Lillian Beynon Thomas, Winnipeg, is the winner of the first prize of $500 in the $1,000 Canadian short story contest conducted by MacLean's magazine. Her story, "Five Cents for Luck," was unanimously chosen by the judges as the best of 936 manuscripts submitted. The second prize of $250 goes to R. V. Grey, of North Battleford, Sask., author of "Alouette." Two prizes of $125 are awarded to Mazo De La Roche, of Toronto, for her story, "Good Friday," and to Leslie MacFarlane, Haileybury, Ontario, author of "The Root House."

Albert C. Trimble, of Dauphin, Man., received special mention for "Ex Nihilo Nihil Fit." (Out of Nothing Nothing Comes.)

The entries were anonymous.

The winner of the second prize, R. V. Grey had never written for publication prior to this contest.

"Whistling for half an hour after meals," says a well-known whistler, "is the best possible aid to digestion."

? --- Times One Pound

Multiply one lb. by the number of sheep you have. The answer is the extra wool you get by machine shearing. Have you 15 sheep? Why not begin now to get 15 lbs. more wool every season? Have you 500 sheep? You'll lose 500 lbs. of wool every time you shear with the old, slow and tedious hand blades. Machine shears evenly — gets longer staple wool which brings better price, sheep injured less. Anyone can use machine.

Stewart No. 9 Shearing Machine

Hand power. Sturdy construction—ball bearing. Built to last for years. Includes 2 combs and 4 cutters. At dealers $29.75 or send $2.00 to factory and pay balance on arrival (freight prepaid). Cow and horse clipping attachments $10.75 extra.

Satisfaction or money back.

A BROKEN DOWN SYSTEM.
This is a condition (or dis ease) to which doctors give many names, but which few of them really understand. It is simply weakness-a breakdown, as it were, of the vital forces that sustain the system. No matter what may be its causes (they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as night succeeds the day this may be more certainly secured by a course of

Mother's Day

Sunday, May 8th, has been set aside as Mother's Day. Those who are still fortunate enough to have their mothers living should by some means or other try to show their "best and truest of pals" what she means to them by some token not necessarily through an expensive gift but rather by a thoughtful act. Those who are less fortunate can but overcome their own loneliness by doing some little kind act to a lonely mother.

Beaverdell Briefs

J. H. Pratt was in town this week from Penticton demonstrating the Nash car.

Bill O'Donnell and daughter, Evelyn, of Rock Creek, were visitors to camp on Tuesday.

Henry Lee of the Bell mine, has returned from a two weeks visit to his home in Vancouver.

Wm. McIntominey is on a business trip to Vancouver and expects to be away about ten days.

Mrs. Martin Anderson of Greenwood, is visiting her neice, Mrs. C. E. Nordman, at the Sally mine.

Mrs. Fred Johnson came up from Greenwood on Saturday and is visiting her husband at the Sally mine.

A. Hurley and Bert McLean took in the Dance and Card Party at Westbridge on Saturday night.

E. Peterson, mining engineer, of Vancouver, was in camp for a few days this week taking a survey of the Beaver claim.

The merchants of the town have decided to take every Monday afternoon as their half holiday. They well deserve this holiday as their hours are unusually long, being from eight in the morning until nine or ten every night, including Sundays.

Tittle-Tattle

Clean up time, May 10th and 11th. Get busy, there, with that rake!

Someone once mentioned about spring being on its way. Must be coming by freight.

"Oh! Yes! You know, really I saw the biggest one, etc." Fishing has started—so have the fishing stories!

Greenwood and District Hospital

Donations for April

The Directors of the Greenwood & District Hospital express their gratitude to the undermentioned donors:

Mrs. Royce, plants and flowers; T. M. Gulley, hand bell; Mrs. C. S. Floyd, eggs and rags; R. Taylor, oranges, Roderick McLeod, Kettle Valley, fresh fish; Ladies Auxiliary, face cloths; Mrs. Berg, rags; Mrs. Fretz, milk; Anonymous, plant; J. Machell, Westbridge, record; Miss Axam, flowers; Ladies Aid, United Church, flowers; Mrs. Skilling milk; Mrs. L. Sortome, plant; Mrs. Mitchell, chicken; Mrs. Bryant, jelly. Mrs. Sater, oranges.

Mr. Softee: "This is my photograph, with my two French poodles. You recognize me?"
Miss Cane: "I think so. You are the one with the hat on, are you not?"

Midway Concert and Dance

The Concert staged by Midway and district talent was most successfully carried off on Friday night in the Farmer's Hall. The gross receipts were $182.75.

The concert committee which was composed of Miss H. Harris, Mrs. H. Pannell, Miss N. Brown, Mrs. W. Preetzman, Miss H. Nystrom and T. Clark deserve great praise for the able manner in which they had arranged the playlets, songs and comic numbers. The stage decorations were in charge of Mrs. C. J. Laudy, Lewis Keir, A. Lander, and H. Bruce. Mrs. Laudy deserves special mention for the wonderful display of flowers she had made.

The choruses were sung by the Black Minorcas which consisted of the following: Mrs. W. Preetzman, Miss Vivian Schuman, Miss Heather Harris, Miss Nellie Kroupa, Miss Vivian Paisley, Miss Annie Thomet, Miss Joy Sharp, Mrs. Bauers, Mrs. E. DeLisle, Miss Nellie Brown and Miss Helen Nystrom.

The Black Minorcas sang the opening number on the program called "The Pierrets Parade" which was followed by a duet sung by Mrs. Pannell and T. A. Clark "Only To See Her Face." Miss H. Harris sang rather sweetly "A Wee Bit Shy" and was greatly encored. A chorus entitled "She Knows Her Onions" with dancing was wonderfully done. T. A. Clark recited "King John and the Abbott" which was both clever and instructive. Mrs. Pannell, accompanied on the piano by Miss Barker, sang "The World is Waiting for the Sunrise." The seventh item was a playlet "Courtship Under Difficulties", acted by Miss Thomet, Miss Nellie Brown and Miss H. Nystrom. It was most amusing. Miss Harris and Juan Puddy brought the house down with their song "Where Do You Work Now Johnnie?" while R. E. Norris created an equal stir with his "Slap Dab" song. Miss Sandercock accompanied Mr. Morris on the piano. Here another chorus was sung called "Hush-a-By" and it was very popular. Miss Harris again caused great laughter with "Oh! Josia!"

The second playlet entitled "The Train To Morrow" starring Mrs. Pannell with Mrs. Hawkes and Mrs. Preetzman, certainly was a scream and was followed by another comic number by the same three "Have You Ever Seen A Straight Banana." Another chorus "In a Little Spanish Town" followed by a clever recitation "The Mowers Song" by T. A. Clark. Juan Puddy with girls chorus sang "Me To" and was greatly applauded. Another chorus "Idolizing" followed. Mrs. Pannell caused great fun with her song "The Preacher and the Bear," while R. E. Norris created many a smile with his song "Lucky Jim." The concert was brought to a close by the singing of "God Save The King."

A most sumptuous supper followed after which Bush's melodious orchestra supplied the merry crowd of dancers with excellent music until the wee sma' hours.

Westbridge Farewell Party

The Farewell Party given by Albert Granier on April 30th, was well attended, many coming from Beaverdell, Rhone, Rock Creek and Christian Valley. The tables were kept busy and the games were very interesting. Mrs. C. Taylor won 1st prize; N. Noren the 2nd and Mrs. R. J. McCutcheon the booby. Mr. Fisher won the men's first prize; Fern Emery the 2nd and Bert McLean the booby. Dancing commenced immediately after the prizes were presented, Francis Cousins, John Noren, Chas. and Billy Worthington furnishing excellent music.

Bridesville News

Dr. T. Laws, veterinary inspector, was in town during the week.

Mrs. R. G. Sidley has returned to her home in Kettle Valley after a week's visit with Mr. and Mrs. Letts.

Rev. A. Walker was visiting in town on Saturday and held service in the School House on Sunday morning at 11 o'clock.

Dr. Tyler was called on Friday to the home of Mr. and Mrs. Howard C. Rhyarson on the McLennan ranch, the nine months old baby, Russell Cecil, being ill with pneumonia. The child died before the doctor arrived. The funeral was held on Sunday, Rev. A. Walker, conducting the service. Burial took place in Rock Creek cemetery.

"The Amateur Gentleman"

"The Amateur Gentleman," Richard Barthelmess' latest Inspiration First National release, which will be shown at the Greenwood Theatre on Saturday, May 7th, is a romantic and adventurous cinema tale teeming with spectacular situations and offering the star great opportunities for heroic buccaneering and intensive love making.

One of the highlights of the picture is a great steeplechase, for which a genuine course was built and professional riders employed. Many hundreds of people take part in this scene, and in it Dick himself rides a reckless race that is said to make the traditional hair stand on end. It is in this situation that Barnabas Beverly Barty (played by Dick) proved his right to gentlemanhood in London Society.

The supporting cast is one of superlative merit and includes Dorothy Dunbar in the leading feminine role, Gardner James, Brandon Hurst, Nigel Barrie, John Miljan, J. Edward Davis, Billie Bennett, Sidney de Gray, Gino Corrado, Herbert Grimwood, John S. Peters, Jacques D'Auray and others.

The program also includes a Pat Sullivan comedy, Felix the Cat "Rings the Ringer."

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers range, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1925

Has produced Minerals as follows: Placer Gold, $77,663,045, Lode Gold $122,808,459; Silver, $74,111,397; Lead, $89,218,907; Copper, $197,642,647; Zinc, $39,925,947; Miscellaneous Minerals, $1,594,387; Coal and Coke, $273,048,953; Building Stone, Brick, Cement, etc, $44,905,886; making its Mineral production to the end of 1925, show an

Aggregate Value of $920,919,628

Production for the year ending December, 1925, $61,492,242

The Mining Laws of this Province are more liberal, and the fees lower, than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N.B. Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.
