ARMISTICE DAY 1927

To-day we mourn our gallant dead,
Who sleep beneath the poppies red
Who left their dear ones, home and all
In answer to their country's call.
This day is theirs, to them belong,
The shout of Victory, glory, song
For us they fought, for us they died,
Our bravest men our country's pride.
Their names are writ in living light,
Emblazoned on the scroll of "Right"
That generations yet may keep
The trust and faith of those who sleep.

L. Pannell, Midway,
Nov. 11th, 1927.

GREENWOOD AND DISTRICT HOSPITAL

(Donations for October)

The Board of Directors thank the following donors:

Mrs. A. R. Royce, magazines; Mrs. T. M. Gulley, flowers; Donald Smith, pears; Mrs. A. Walker, rags; Mrs. Chas. Bubar, butter; G. S. Walters peaches; Anonymous, grouse, apples, cantaloupes; Mrs. J. Skilling, rags, milk; R. Forshaw, plums and apples; Ladies Hospital Auxiliary, cakes (2), milk, butter, cream, sandwiches, water glasses, soup dishes, dessert dishes, soup strainer; A. Sater, citrons and crab apples; Mrs. Walters, cabbage, chicken(2); Mrs. L. Powers, Midway, pickles.

Miss Nellie Keir of Christian Valley, spent the week-end at her home on the Midway road.

Guests at the Pacific Hotel during the week: G. E. Webber, A. J. Bates, B. Hodge, J. C. Dufrean, Vancouver; Jas. Brodie, J. Woodall, J. Ramsay, Nelson; D. J. Murray, Mrs. T. E. Saunders, S. E. Mulhern, Mr. and Mrs. L. Johnson, Miss A. Hogberg, Mr. and Mrs. E. Cousins, S. T. Pittendrigh, G. Hambly, B. W. Bubar, Mrs. P. Bubar, H Hemming, Beaverdell; Mr. and Mrs. I. Crawford, Cascade; Mr. and Mrs. A. D. McLennan, Bridesville; J. H. Kennedy, G. Swondy, Kelowna; Mrs. F. Bubar, Kettle Valley; James Kerr, Penticton; Miss Ellman, Spokane, A S. Black, Princeton; F. O. Morris, Victoria; O. B. N. Wilkie, Merritt; A. E. McDougall, Grand Forks.

Of Local Interest

Geo. H. Gray left on Wednesday afternoon for a visit in Spokane.

Joe Price of Bonnington spent sunday with his family in Greenwood.

Mrs. C. Primalle of Bridesville, is the guest of Mr. and Mrs. P. Campolieto.

A. S. Black of Princeton, was renewing acquaintances in town during the week-end.

Born.—To Mr. and Mrs. S. B. Hamilton, a son, at the District Hospital on Sunday, Nov. 6th.

Mr. and Mrs. James Kerr of Penticton, spent a few days in Greenwood and district this week.

Miss Irene Inglis of Beaverdell, was the guest of Mr. and Mrs. J. E. Hoy during the first-of-the-week.

Mr. and Mrs. A. J. Purkis of Beaverdell, were the guests of Mr. and Mrs. H. J. Purkis during Thanksgiving.

Mrs. Andrew Sater and Mrs. Martin Anderson returned this morning from a visit to Spokane, Wash., and points in Idaho.

S. T. Pittendrigh, H. J. Hemming, and T. H. Worthing were among the Beaverdell visitors to town during Thanksgiving.

Mr. and Mrs. Geo. White have moved into town from the Jewel mine and are residing in the Forshaw house in the north end of town.

Mrs. L. Sortome and six children left on Tuesday for Ymir, where Mr. Sortome is located. For several days before their departure they were the guests of Mr. and Mrs. Ed. Mellrud.

Complaints are being made of cattle straying in the city. Owners are reminded that the pound-keeper will again get busy if the animals are not kept where they belong.

In accordance with Armistice Day observance, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two-minutes' silence at 11 o'clock on Friday morning, the 11th of November, 1927.

The Liberal Association will hold their Annual Meeting at Greenwood Theatre on next Wednesday evening. Supporters of the party from all parts of the Greenwood Riding are invited. The principal business will be the election of officers. Mr. D. McPherson, M.L.A. will address the meeting.

R. L. Mace of Bridesville, was the lucky winner of the Trounson piano that was drawn for at the Greenwood Theatre on Saturday evening during the show, the ticket number being 22.

Miss Heather Harris of Kerr Creek, was the guest of Dr. and Mrs. A. Francis during the Thanksgiving holidays.

A most enjoyable time was had by the fifty card players at the Altar Society Whist Drive in the Parish House on Wednesday evening, Nov. 2nd. The ladies first prize was won by Mrs. A. C. Hamilton and the booby by Miss Madeline Gidon. The gents first prize went to Jack Anderson and the booby to Joe Klinosky. George Hingley was the lucky winner of the entrance prize.

D. McPherson, M.L.A., has rented the offices formerly occupied by Mr. H. W. R. Moore, on Copper St., and spent last Friday in town, making arrangements to get the rooms ready so that citizens may consult him in regard to local matters. Mr. McPherson intends to spend a day or two of each week at his new quarters and extends an invitation to any person who wishes to interview him.

Midway News

Buttercups are blooming among the foothills.

Henry Strauss is a patient in the District Hospital.

Mrs. J L. Bush and Miss Alice McMynn had a very enjoyable hike to Greenwood and return on Saturday afternoon.

Ladies Aid Bazaar in the Old School, Nov. 12th at 2:30 p.m. Fancy-Work, Farm Produce, etc. Tea will be served during the afternoon.

The Women's Institute will hold a Dance on Friday, Nov. 25th. Bush's orchestra will furnish the music. The members will donate the supper. Watch for posters.

The regular fortnightly card party was held this week on Wednesday evening in the Old School House. There were eight tables of "500" and the players spent a very pleasant few hours at their favorite game. Mrs. R. D. Kerr won the ladies first prize and John Bush, Jr., the gents first. Miss Nora Jackson received the ladies booby and Bob Brown, Jr., the gents booby. The entertainers for the evening were Miss Nora Jackson and Emery DeLisle. The next party will be held on Tuesday, Nov. 22nd.

Junior Poultry Club

The result of the Junior Poultry Club is as follows:

Club I.
1st, Mayneen Bush.
2nd, Phillip Pannell.
3rd, Ethel Bender.
4th, Billy Boltz.

Club II.
1st, Eileen Pannell.
2nd, Joan Richter.
3rd, Evelyn Hawkes.
4th, Frank Krouten.

In connection with the Junior Pig and Poultry Club the Institute will give a childrens tea-party in the Farmer's Hall on Saturday, Dec. 3rd, when the prizes will be awarded.

Beaver Mine Gets Ore At Depth

R. L. Clothier, Manager of Beaver Silver Mines at Beaverdell, B.C., passed through town last week en route to the Coast, whence he drove in his car.

Interviewed by the representative of The Greenwood Ledge, Mr. Clothier stated that the results obtained from development carried out on the Beaver mine during the past season have been of a highly satisfactory nature.

In all, some 530 feet of underground work was done during the season. The shaft was sunk to the 100-ft. level and in the West Drift, which was extended out from the bottom of the shaft, the downward continuation of the large ore-shoot, previously mined on the surface and in the shallow upper workings, was encountered. The width, at the point of encounter, on the bottom level is over seven feet.

Mr. Clothier's visit to the Coast has been for the purpose of conferring with his principals as to the policy of future operations. The Greenwood Ledge is now definitely informed that work on the Beaver will be pushed forward vigorously, during the Winter, with the existing plant of machinery and that, in the early Spring, larger air-compressor and hoisting machinery as well as more extensive general mining equipment will be installed.

The Beaver adjoins the Bell and Sally mines on the East and within the zone of mineralization which effects these properties. Considering the substantial production which has already come from their property, coupled with the satisfactory outcome of this Season's development, the management of Beaver Silver Mines Ltd., express themselves as being confident of repeating the outstanding successes of the famous Bell and Sally mines.

Veterans Masquerade

The ninth annual Masquerade Dance by the Great War Veterans in commemoration of Armistice Day was held in the Masonic Hall, Greenwood, on Monday, Nov. 7th, and proved an even greater success than ever, which reflects great credit on the few remaining Vets in the district, who have taken it upon themselves to carry on this masquerade as in former years.

Bush's orchestra supplied the music and with the addition of a saxaphone caused favorable comment by all.

The dance hall was tastefully decorated in the spirit of the occasion.

The many beautiful costumes were evidence that the people throughout the district are taking a greater interest than ever in this yearly event, making the judging a very difficult task. The judges were: Mrs. J. H. Bush, Miss Heather Harris and Mr. I. Crawford and their ability in this capacity was well demonstrated by their awards. The following is a list of the prizes and prize winners:

The best dresed ladies prize of a silk bed spread was won by Miss Annie Thomet, of Midway, as the "Ace of Clubs."

The best gentleman's prize a set of military brushes was won by Mr. Frank Richter, of Rock Creek, as a "Cavalier."

The best dresesd girls prize an inlaid manicure set was won by Miss Vera Walmsley, as a "Spanish Dancer."

The best dressed boys prize a knife and belt was awarded to Miss Renie Skilton, as "Prince Charming."

The prize of a thermogene jug for the most original costume was won by Mrs. Geo. Boug, as a "Sack of Spuds."

The flashlight which was the prize for the best comic costume was won by Mr. P. Bowsher, as an "Old Lady."

The novelty features arranged by the Dance committee seemed to please everyone and much credit is due to the artistes. "In Flander's Fields" was touchingly rendered by Miss Vera Kempston, and was especially appropriate for the occasion. Later on in the evening a novelty dance was staged by Miss Ruth Axam and Miss Vera Walmsley whose dance of old Spain was exceptionally good and reflects great credit on the two dancers and their instructress and accompanist, Mrs. A. Francis.

The success of the dance is in no small measure due to the Ladies Auxiliary who once more proved their ability and efficiency in the manner in which they catered to the large crowd of over 200 people.

The boys spared neither expense nor time to keep this dance the outstanding event of the year and they wish to avail themselves of this opportunity to thank the people of Greenwood and especially those throughout the district who travelled miles to attend this affair and to make it the success it proved.

A complete balance sheet will appear in the next issue of The Greenwood Ledge.

A LAUGH

(By Kay Martin, late of Rock Creek)

A real laugh and a true laugh is full
of so many things:
It holds the scent of fresh-mown hay,
the joy of all the springs.
The rustle made in dancing by
crumpled new-born leaves;
The reapers' songs in harvest fields
when piling up the sheaves.
There is sunrise-glory in it, the
sunset's glowing hue;
There's the glory of the summer, when
all the sky is blue.
The harmonies of sun-lit streams
a-rippling o'er their stones,
The grandeur of the storm-winds, the
zephyr's soft, sweet tones.
Full often, all unknowing, what gave
the laugh its birth,
A soul by sorrow darkened, finds fresh
sunshine in its mirth.

Spencer-Salmon Nuptials

A wedding of interest took place at the Midway United Church, which had been tastefully decorated for the occasion by Mrs. W. Smith of Grand Forks and Capt. Hill, on Monday, November 7th at 11 a.m. when Miss Gwendolyn Anne Salmon eldest daughter of Mr. and Mrs. W. Salmon, became the bride of Mr. William Anson Spencer, B. A., M. A., of Rock Island, N. J.

They were married under an arch of flowers and autumn leaves loaned by Mrs. H. J. Purkis. The bride looked very charming in a lovely gown of ivory flat crepe trimmed in silver, her headdress (her mother's) was made up of a beautiful imported veil caught up with a wreath of orange blossoms and she carried a shower bouquet of pink Ophelia roses and lillies of the valley.

The bridesmaids, Miss Kathleen Salmon and Miss Rosalie Brown, wore sleeveless gowns of diadem lavender crepe back satin and carried bouquets of lavender and white chrysanthemums.

Miss Goldie Walker winsome daughter of Rev. A. and Mrs. Walker was a petite flower girl in pink organdie and strewed rose petals in the path of the bride.

Mrs. W. Smith of Grand Forks, as matron of honor was exquisitely dressed in biege crepe and carried a bouquet of chrysanthemums.

Mr. Harold Johnson of Curlew, acted as best man. Messrs. D. McMynn, J. Bush, Jr., and Capt. Hill were the ushers.

Rev. Andrew Walker of Greenwood, tied the nuptial knot and during the signing of the register Miss Heather Harris sang very sweetly "I Love You Dearly," being accompanied on the organ by Mrs. A. Walker.

After the ceremony the bride and groom received their many guests at the Farmer's Hall where a dainty wedding repast had been prepared for 150 people. Many speeches and toasts were called for and responded to.

After luncheon Rev. E. A. St. G. Smyth sang "Echo" by Lord Henry Sommerset and Capt. D. N. Hill rendered "O Flower of all the World."

The grooms gift to the bride was a single rope of pearls to the bridesmaids gold signet rings as also to the flower girl. The matron of honor received a tomato server and Mrs. Walker a cold meat fork and Miss Harris poems by Pauline Johnson. Mr. Johnson received a sapphire tie-pin, while Douglas McMynn and John Bush, Jr., gold cuff-links.

The many and beautiful gifts received by the happy pair attested to the esteem in which they were held. The presents were on display at the reception hall.

Mrs. Spencer's travelling dress was created in wine-colored satin trimmed in silver and old rose with hat to match. Black plush coat trimmed with fox fur completed the outfit.

Mr. and Mrs. Spencer left for Vancouver to visit Mrs. Spencer's brothers and thence to Seattle and California. They will make their home in Berkeley, California.

Out of town guests were: Mr. and Mrs. W. H. Bryan, Mrs. H. J. Purkis, Mrs. Walter Clark, Rev. A. and Mrs. Walker, Miss Goldie Walker, Greenwood; Dr. and Mrs. C. M. Kingston and daughters, Miss Wirth, Miss Jeffries, Miss Coleman, Miss Jackson, Mr. and Mrs. S. T. Hull, Mrs. Barron, Mrs W. Smith and son Aubrey, Miss J. Davidson, Rev. E. A. St. G. Smyth, Grand Forks.

The Greenwood Ledge joins with the newly-married couple's many friends in extending felicitations.

A list of the gifts will appear in the next issue.

FORMER LOCAL GIRL DIES OF BURNS

The following taken from a Nevada paper tells the sad story of the death of Pauline Putzel in Thompson, Nev., on October 24th.

Pauline Putzel, eight years old, was burned to death when a cottage in which she and her mother, two sisters and two brothers were sleeping at Thompson, was destroyed by fire last Monday night. The father and another brother were working at the Thompson smelter at the time. Louis, 22 years old, and brother of the dead girl, made three attempts to save his sister from the blaze, but on the third attempt was overcome and fell out of the house through a window. He is now in a critical condition at the Yerington hospital. Physicians have amputated one finger and all the flesh is gone from one hand, but it is believed that the boy will recover.

Pauline was dragged from the burning house by William Swalley, who managed to reach in through a window and grasp the child. She lived for an hour.

The origin of the fire is not known. All of the family were asleep, and were awakened and helped out by neighbors. The mother was burned on the back and feet.

Pauline, the youngest of six children, was born in British Columbia. The family had come to Thompson from Kennett, California, about a year ago. The house, which was the property of the Thompson Smelter Company, was completely destroyed. Funeral services for the little girl will be held in Yerington at St. Joseph's church Thursday.

L. J. Putzel, father of the young girl, is well known in Greenwood, having lived here for many years, prior to leaving with Mrs. Putzel and family for California.

Dr. Darwin, Superintendent of Missions for the United Church of British Columbia, will preach on Sunday evening, Nov. 13th, in the Greenwood United Church. Don't fail to hear him.

RED ROSE TEA "is good tea"

112

RED ROSE ORANGE PEKOE is extra good.

A Good Deed

It was our pleasure, says a writer in a New York paper, to meet with the Boy Scout spirit, fully matured, aboard a Long Island train recently. At one of the stations the gentleman seated in front of us accidentally dropped a glove out the window just as the train started to move out. Without o moment's hesitation he tossed the other one after it. Moved by curiosity, we dropped all reserve to ask him why he had done so. He courteously explained that the one glove that remained would have done him no good; nor would the lost glove have done the finder any good. This being the case, he had tossed out the other, so that the finder might have a complete set.

The viewpoint and line of conduct of this man might well serve as an object lesson to many, adding contentment in their own lives and conferring benefits on others. The average person, it is to be feared, would have grumbled and bemoaned his loss,—small though it be,—and generally made himself and possibly others miserable for a time, and all to no end. But the hero of this little incident, which might have passed unobserved, enjoyed a brighter outlook on life and a finer conception of things generally. He had sustained a loss which, under the circumstances existing, could not be restored. He realized on the instant that he must accept that loss. His immediate thought was as to how his loss could be turned to somebody's gain.

If in family and community life and activities the spirit displayed by this unknown man became the inspiration of our thought and the guiding motive of our actions, how much happier this old world would become. What contentment of spirit and real joy in living would be experienced by those who adopted and followed such a policy of unselfishness, resulting in an inner gain of satisfaction far outweighing the outward and material loss sustained.

Such a spirit and code of conduct costs nothing, and how much more satisfactory all round it would be to that usually followed in which a loser determines that if he must lose, or has lost, he will at least have the satisfaction,—poor though it be,—that nobody shall be the gainer thereby.

There are people no doubt who are inclined to belittle and scoff at the insistence with which members of the Boy Scout organization are taught to be watchful for opportunities for helping others in order that they may do at least one good turn a day. But if such people would strive for just one week to emulate these Scouts and do good turns to others, they would quickly discover a new richness and joy in their own lives while at the same time happiness and gain would be conferred on others.

The people of Canada have just observed a day of National Thanksgiving and in a few weeks all Christendom will be joyously celebrating the happiest day in all the year, Christmas. Many may have sustained losses and suffered defeats in the months that are passed without making the slightest effort to extract such profit as they could from their loss and without turning defeat into ultimate victory. Possibly they are still bemoaning the sad fate which overtook them, feeling sorry for themselves, and declaring that luck is against them. Such an attitude will avail nothing; it merely makes for further discontent, discouragement, and additional failure and loss. Such an attitude is taking the joy out of their own future lives and making for unhappiness and misery for others.

Let the dead past bury its dead. Forget your losses and disappointments except as they can be capitalized to realize future gains, if not for yourself, then for somebody else. In the long run this will mean gain for you.

Decorate Nelson Monument

Custom Observed On Anniversary Of Historic Victory

On the anniversary of the Battle of Trafalgar, the monument to Lord Nelson in Trafalgar Square, as is customary on this date, was bedecked with laurels. Nowadays the monument has become a sort of cenotaph for wreaths placed there to honor the sailors buried beneath the waves in the Great War.

Nelson's flagship Victory, which is now permanently drydocked at Portsmouth, still is undergoing restoration. Her topmasts and spars have not yet been replaced, so Nelson's famous signal, "England expects that every man will do his duty," flew from the nearby signalling school.

At the dinner given by the Navy League Earl Beatty, former Admiral of the fleet and First Sea Lord, proposed a toast to "The Immortal Memory of Lord Nelson." Earl Beatty was supported in the toast by the oldest living admiral the Hon. Sir Edmund Robert Fremantle, who is in his 92nd year.

For all pains—Minard's Liniment.

Japan has ordered 300 airplanes of the type Lindbergh flies, but ordering 300 Lindberghs is another matter.

Does Ill Health Detract from Your Good Looks?

Hamilton, Ont.—"I was in a rundown state of health, my nerves were bad and I suffered from backaches and pains in my side, which would be so severe that I would get weak and have to lie down. I could not eat without being distressed. Upon the advice of a relative I started to take Dr. Pierce's Favorite Prescription and it relieved me of all my distress, and I do not suffer in any way from any of the above conditions. I have a good appetite and my nerves are in splendid condition. I am strong and healthy in every way."—Mrs. George Turansky, 373 Ferguson Ave. North.

Sold by dealers. Fluid and tablets. Send 10c for trial pkg. tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

Standard Too High

Author Receives Courteous Rejection Slip From Chinese Publishers

John K. Williamson of Detroit, who is stopping in London, has received the prize rejection slip of Chinese publishers. "We read your manuscript with boundless delight," wrote the Chinese firm. "By the sacred ashes of our ancestors we swear that we have never dipped into a book of such overwhelming mastery. If we were to publish this book it would be impossible in the future to issue any book of a lower standard. As it is unthinkable that within the next 10,000 years we shall find its equal, we are, to our great regret, compelled to return this too divine work and beg you a thousand times to forgive our action."

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Leads In Electrical Exports

Britain Set New Record For Orders Last Year

Britain is now the leading export country in the world for electrical equipment. Orders secured by electrical manufacturers for generating plant and heavy electrical equipment during the twelve months ended June last, constitute a new record in the history of the industry. "British Industries," the official organ of the Federation of British Industries, states that in the first six months of the year British firms booked contracts aggregating a higher plant capacity than during the whole of 1924 or 1925. India, Australia, New Zealand, South Africa, South America and Japan were the principal buyers.

The new Angora-Caesarae Railway in Turkey, has nine bridges and 33 tunnels in its 250 miles of right-of-way.

Minard's Liniment for Neuritis.

Fokker Foresees Millions Of Planes

Aviation Is Great Factor For Peace Says Designer and Builder

A million or more planes blackening the air over America, from flivver planes, in which the young man can take his sweetheart for a ride in a dual control side-by-side cockpit, to giant multimotored air transports, were pictured by Anthony H. G. Fokker, at a luncheon of the Netherlands Chamber of Commerce of New York.

Mr. Fokker said the development of commercial flying was closely linked with military aviation and that the nations of Europe had realized this. The subsidies granted to air transport lines in Europe for commercial purposes, he said, were part of the general preparation plan for future wars whereby pilots would be trained and fields, hangars and workshops provided for future military use.

"Aviation is the cheapest and most efficient method for killing people," Mr. Fokker said. "In a city like New York bombing planes loaded with gas bombs could destroy a million persons absolutely without fail. So important will aviation be as an offensive weapon in another war and so great is the range of planes that the safest place for men will be the front line trenches."

The designer suggested that aviation was a factor for peace by its very deadliness as a potential weapon of offense.

"Men are not so likely to start a war or to help keep one going," he said, "when they realize that nowhere can they find safety for themselves. The man who stays away from the front to manufacture shells and guns on war contracts will be in more danger than the man at the front."

On Ladies' Toes Are Sore Corns

Quick safe relief is almost instantaneous if you apply Putnam's Corn Extractor. Shoes won't pinch or hurt any more. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for Putnam's.

Weathered Four Decades

Early Day Traction Engine Is Still In Working Order

After having lain discarded on the edge of a grain field near Stevenson, Wash., for forty years an early-day traction engine was steamed up recently and found equal to its task. The engine is an old H.P. type and with other farm machinery came from a factory at Leeds, England, in 1886.

The farmer who first owned the then ponderous machine failed to make wheat pay and abandoned the engine. For some reason the engine was never tampered with and weathered the four decades without injury. As a useful article the old-time engine is nil, for it burns wood and uses axle grease in the bearings.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attract its excellence, for in all these countries it is on sale and in demand.

Treasured At Buckingham Palace

Anne Boleyn's clock, a gift from Henry VIII. on her wedding day, is being cleaned and given a general overhauling the first time in many years. The clock, but ten inches in height, is now one of the treasures of Buckingham Palace. It formerly belonged to Horace Walpole, and when his effects were sold Queen Victoria bought the timepiece for £110.

An electric treadmill for exercising dogs has been invented in England.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Orser, Elginburg, Ont., writes:—"I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I saw advertised, so decided to try them. I had only taken a few boxes when I noticed that I felt better, so I continued taking them and in a short time my heart felt entirely different.'

MILBURN'S HEART AND NERVE PILLS

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

11 OUT OF 83

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

Zam-Buk

Has Suitable Airport

Edmonton All Ready For Moth Planes Promised By Government

Increasing interest is being manifest throughout the country in the project sponsored by the Department of National Defence regarding light-aeroplane clubs, and it was stated at Ottawa by departmental officers that two queries had been received formally requiring the Government to fulfil its part of the scheme by shipping the two Moth planes promised under the provisions of the plan.

Edmonton, Alta., which has already a suitable airport, wired the department declaring that the city's application was in the mail, and seeking Government action. A number of prominent Albertans are behind the Edmonton club and their request will be fulfilled as soon as the planes are available.

The Edmonton clubmen declare that all the requirements of the Government in connection with the expert maintenance of the presentation planes and the like are being met.

Flying men in Montreal have also approached the department with regard to the matter, and it is likely that other cities will shortly follow suit.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Canada Will Redeem Loans

Thirty-Seven Millions Will Soon Be Taken Off Market

Thirty-seven millions in Dominion loans will be taken off the market and redeemed from revenue on December 1. Of this, twenty-nine millions consist of 5½ per cent. five year Victory renewal loan. The remaining eight is in treasury notes.

Sixty-three millions in 5½ per cent. Victory loans also fall due on December 1. The present plan is to meet as much of this as possible from revenues and to issue a refunding loan for the balance. Actual steps to be taken will depend, however, on incoming revenues during the next month. In any event, it is expected that the refunding will result in a saving in interest charges of at least one per cent. per annum.

First Commercial Plane Reaches Yukon

Will Be Used Principally For Exploration and Prospecting

Lieut. A. D. Cruickshank made a pretty landing recently on the aviation field at White Horse, Yukon Territory with the monoplane Queen of the Yukon, which made the trip from Skagway in a few minutes over the hour. This is the first plane brought in by the Yukon Airways and Exploration Company, organized for the purpose of freight, mail and passenger business, but more particularly for exploration and prospecting in the more inaccessible parts of the territory.

White Horse will be the base of the company's operations. The plane had been taken from Vancouver to Skagway by steamer.

Most Northerly Post

The Canadian Government post at Bache Peninsula, on the east coast of Ellesmere Island in the Arctic, is the most northerly police post, post office and custom house in the world. It is 755 miles (656 nautical miles) from the North Pole.

Sunday Island in the Pacific is said to be the tallest mountain in the world, as it rises 2,000 feet out of 5 miles of water, making its height nearly 30,000 feet.

Tells Why Germany Failed

Ex-Kaiser Says People Did Not Sacrifice Enough

In an interview with George Sylvester Viereck, printed in Liberty, Wilhelm Hohenzollern, formerly German war lord, tells why Germany lost the war:

"Because we did not obey God in all things; because we hesitated to bear the worst; because we refused in the end to face all risks in preserving faith! The German people performed miracles of endurance, but at the last they failed. The supreme miracle can be accomplished only by faith. We should have fought to the very last carrot, the very last man, the very last round of ammunition."

The ex-emperor is a pretty one to talk about fighting to the last carrot! the German people had indeed performed "miracles of endurance." They had sorrowed over their losses and mumbled their black bread patiently enough. It was their leader, their emperor-king, who by his midnight departure for Holland set them the example of submission to stern fate.

Wilhelm had plenty of carrots. He had caviare and champagne. He had abundance while his people starved. He had millions in the midst of beggary. He had six tall sons, carefully protected during a time when grass grew green on many new graves. For him, now, to blame the German people for "hesitating to bear the worst," for "refusing in the end to face all risks," is, perhaps, no more indecent than might have been expected.—New York World.

Aviation Activity

Aircraft Factory Of Vickers, Limited, To Be Enlarged

Greater aviation activity in Canada is resulting in increased business for the aircraft factory of Vickers, Limited, Montreal, and it is now proposed to extend the present plant by the erection of another building, though only last autumn a new shop was added. There are now 32 machines in course of construction or on order, 12 of these being Avro aeroplanes ordered by the Canadian Government.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

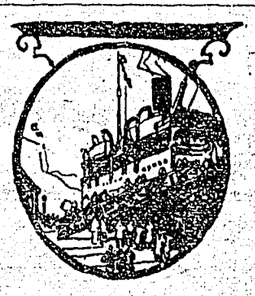
Proud Of Waiter's Job

Has Given Him Self-Respect Says Russian Nobleman

A six-footer of aristocratic mien at the Waldorf, New York, also distinguished by a spike-tailed coat with gold braid, has identified himself as William Schurch de Witte, famous premier under the Czars. He is now a floor waiter, having worked up in six months from kitchen boy.

Proud of his job, he says: "I have more self-respect than when I was playing bridge or attending tea parties in New York City." He kept his incognito until recognized by a woman guest of the hotel whom he had met socially, he says.

It's no trouble at all to find trouble.



Enlist Now!

With the party of Christmas homegoers leaving Halifax for the Mother Country. Make sure of a right royal Christmas and good time with your family and friends on the other side.

Clever Deaf Children

Band Of Twelve In Wisconsin School Give Concert

A band of twelve small totally deaf children, who devote their entire energy to producing a perfect rhythm and ignore the matter of melody, has been organized in the Wisconsin School for the Deaf and is the culmination of an interesting experiment in instruction.

The children recently gave a concert in which they played a march, a dance, and a lullaby with three cymbals, one set of jingle bells, one drum, two tambourines, two triangles, and three miniature xylophones.

Requisite On the Farm. — Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Gushing Lady—Oh, Mr. Jones, we are collecting funds, to help the starving heathen. May I put your name on the succor list?

Doris—"Does your husband mind the baby when he's home?"

Dorothy—"Yes, and so does everybody else."

Fish rise and fall in the water by means of an air bladder inside them.

FOR Neuralgia

BAYER

ASPIRIN

Proved safe by millions and prescribed by physicians for

Neuralgia	Neuritis
Headache	Toothache
Colds	Lumbago
Pain	Rheumatism

DOES NOT AFFECT THE HEART

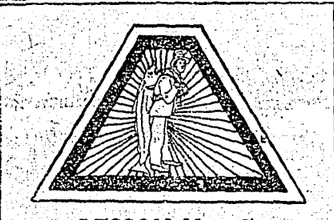
WARNING!
Beware of Counterfeits
There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—it is not "ASPIRIN" at all! Don't take chances!

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."



LESSON No. 15

Question: Why is *emulsified cod-liver oil so* important as an added ration with milk in the diet of children?

Answer: Because when it is mixed with milk *it makes milk* a more efficient rickets-preventing food and builder of strong bones. Children like it best in the form of

SCOTT'S EMULSION

Britain Wins Big Concession

Syndicate Will Develop Mineral Wealth Of Dead Sea

A concession for developing the vast mineral resources of the Dead Sea, the Sunday Times learns, has been awarded to a British syndicate, and the American and Continental tenders have been definitely rejected. This action follows many months of negotiations between the concession seekers, the Colonial Office and the Palestine and trans-Jordania governments.

Expert examination, according to the London Times, has shown that the Dead Sea is a practically inexhaustible source of potash, and that its exploitation will probably be the making of Palestine.

All official reports show that the mineral wealth of the British mandate of Palestine are of little importance with the exception of those of the Dead Sea basin, situated 25 miles East of Jerusalem. This inland lake, the bottom of which is 2,600 feet below the level of the Mediterranean, receives from the North the waters of the Jordan and the melting snows from Mount Lebanon.

It is believed that at the bottom of the lake, about 1,300 feet below its surface, exist valuable mineral deopsits of various kinds, formed there through the centuries or brought down by freshets from Mount Lebanon.

Aside from the concentration of salt in the lake itself, there are in its shallows calcareous marl, gypsum, chloride of magnesium and chloride of calcium. From the eastern shore juts a peninsula composed entirely of calcareous marl, rock salt and gypsum. On the southwestern shore is the mountain of rock salt, Hajr Usadum.

In 1925 the British Government gave out approximate figures on the mineral possibilities of its waters in billions of tons as follows: Potassium chloride, 2; sodium chloride, 12; calcium and magnesium chloride, 28; and magnesium bromide, 1.

Among the bidders for the concession granted to the British group were an Anglo-American syndicate headed by Dr. Thomas Herbert Norton, and a Zionist company headed by the Russion-Jewish engineer Novomeisky.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition. C

Praise For Maritimers

Hon. R. B. Bennett Refers To Contribution Made By People Of Provinces By the Sea

Declaring he supposed no people in the world were as attached to one another as the men and women who come from the Maritime Provinces, Hon. R. B. Bennett, leader of the National Conservative Party, in an address at Calgary, before 400 of his kinsmen from New Brunswick, Nova Scotia and Prince Edward Island, told of their history, sacrifices and traditions, the natural beauties of the land of their birth and answered the question as to why they are so clannish by stating that "what binds us is the love of the land in which we were born—a love that is not rivalled by any people of the earth unless it be the Scotch. The spirit of loyalty and devotion to cause and principles is just a little stronger there."

He told how the early history of this country was laid at St. Croix, Port Royal and Chaleur, how responsible Government and parliamentary institutions in British North America had their beginning there, how, no matter what may have been their feelings, they laid the foundation for an educated democracy in institutions that were the envy of all people. He asked how poor indeed would Western Canada have been without the contribution the Maritime Provinces had made to the bench and professions. "Looking over this great gathering is it any wonder that the Maritimes now feel the loss," he said.

"With a proud conviction of the greatness of Canada and a lover of a province submerged in a love for the whole Dominion, inspired by our history we look forward, ever forward. We can no longer look over our shoulder at our departed great," he said.

Speaking of the responsibilities of his new position, Mr. Bennett said he had no sympathy with the men who say that the problems facing Canada today are so great that the Dominion must be broken up to solve them.

"That is not in the mind of the men from the lower provinces," he declared. "It is idle for us to say today that there are no men so great as the men of a generation or two ago. The courage of our fathers breathes in the young men of today."

Had Terrible Experiences

Survivor Of Jutland Battle Most Helplessly Maimed Person In England

The police at Brighton have just sent to the Admiralty, in the care of an officer, a man who is probably the most helplessly maimed in all England. They found him in the streets in a condition of complete collapse, trying to support himself with a pair of crutches. He has described himself as:

Left leg off at the thigh.
Right leg off at the knee.
Left arm useless and withered.
Right arm partially paralyzed.
Jaw gone and replaced by a silver plate.

O'Malley told the police that in the war with Germany he was a first class petty officer on H.M.S. Queen Mary. After the Battle of Jutland he was one among many reported killed in action. As a matter of fact, two days after that memorable encounter he was picked up by the enemy a raving lunatic, and lashed to a mess table. The Germans took him into Wilhelmshaven, and for ten years he was one of the inmates of a great asylum. In spite of his terrible afflictions, his mind gradually became normal, and at last the Germans considered he was a fit subject for repatriation. Accordingly thty sent him to Tilbury with a cork leg, a pair of crutches and ten dollars in English money in his pocket. From Tilbury, O'Malley made his way to Brighton. The Germans, he says, says treated him fairly well, but only allowed him one meal a day. He had no one to talk to, no amusements, and nothing to read.

Worse Than Infantile Paralysis

Infantile paralysis is a flea-bite compared to rheumatic fever in the opinion of Dr. John Meakins, of McGill University, who spoke at the post-graduate medical conference in Kansas City. The symptoms of rheumatic fever often are found in five-year-old children and are wrongly called growing pains, he said. In a large number of cases this develops into heart disease.

Blake: I wonder who owned this car before I bought it.

Hamilton: Why?

Blake: Whenever it comes to a dark place on a lonely road the engine dies.

Bob—"He can't fight!"

Pete—"Can't, eh? Say, when he swings and misses, the other fellow gets pneumonia."

What is wrong with the tea? If this question is ever asked at the table you may find that the tea you are using was in a poor package. Careful experiments have proven that Aluminum is the only fit package to keep good tea in. You should try Red Rose Tea and see how fresh and brisk and pungent it is in the Aluminum package. 10T

New Shops Required For Aviation Industry

Many Types Of 'Planes Being Built In Canada

An indication that aviation is making rapid progress in Canada is seen in the intensive construction program announced by Canadian Vickers Limited, Montreal. The company erected a special shop of aviation work last summer and another will be constructed in the near future.

There are now 32 machines in course of construction or on order, 12 of these being Avro aeroplanes ordered by the Canadian Government and forming part of the Royal Canadian Air Force program of 26. Although nothing official has been announced, it is understood that two of the remaining 14 will be De Haviland Moths and three will be Fairchild machines.

These Avro 'planes will be land machines, specially constructed for training purposes at Camp Borden. They are to be biplanes, with capacity for about 54 gallons of gasoline, and will be propelled by a Lynx, Armstrong-Siddeley engine. Two passengers will be carried in each machine.

Eight Vickers "Vedette," three-seater, single engined flying boats are also on order. These are used principally for oblique photography and fire control. Lynx, and possibly Wright Whirlwind, motors will be fitted to these.

Two Vickers "Varuna," seven-passenger machines are on order, one of these having an all-metal hull. This type of flying boat is used principally for fire suppression and vertical photography.

Says Marriage Prolongs Life

Wives Live Longer Than Single Women Declares Actuary

Married women live longer than single women, according to the British Government Acutary, Sir Alfred Watson.

In a report on life tables based on the population as returned in the 1921 census, and on the average number of deaths recorded in the three years 1920-22, rates of mortality for single, married and widowed women show that the advantage lies with the married woman.

At the youngest ages for which comparison was possible the lightest rates were those for single women. Rates for single and married women differed but slightly between the ages of 24 and 27. But thereafter the rates for married women were usually lower than those of single women or widows, while rates for widows were invariably heavier than those for single women or wives.

Trade With West Indies Good

Business between British Columbia and the British West Indies, which has been developed since the British Columbia-West Indies freight service was established little more than a year ago, is proceeding satisfactorily. On October 15, the freighter Chris Knudson, of this service, sailed with a cargo of 2,400 tons for British West Indies ports, the consignment including 900 tons of British Columbia potatoes, onions, butter, cheese, salmon, newsprint and rope.

Girls beg the question when they try to induce men to propose.

Large Pimples Lasted A Year Cuticura Heals

"My face and neck were all covered with pimples. They were red, hard and large and festered and scaled over. For a while the itching and burning were so severe that I could not help scratching, and my face was disfigured. I lost my sleep for about a month on account of the irritation. The trouble lasted one year.

"I used other remedies but they failed to help me. I sent for a free sample of Cuticura Soap and Ointment. After using it I purchased one cake of Cuticura Soap and one box of Ointment and in a month and a half I was healed." (Signed) Miss Emily Doll, Riverton, Man.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Bovine Tuberculosis

Saskatchewan Health Officials Association Deal With Question

Extension in Saskatchewan of the working having for its object the eradication of bovine tuberculosis, was urged upon the dominion department of agriculture, in a resolution adopted at the closing sitting in the Saskatchewan Health Officials' Association, at Regina.

In succession to Dr. Arthur Wilson, Saskatoon, Dr. H. C. Burroughs, Swift Current, was elected president. Other officials named were: Vice-president, Dr. J. H. Jackson, North Battleford; secretary-treasurer, R. H. Murray, Regina; executive, Dr. B. M. Bayly, Moose Jaw; Dr. W. R. Coles, Regina; Miss Ruby Simpson, Regina; Dr. A. Boughton, Saskatoon; Dr. W. H. Orme, Saskatoon; C. G. Southon, Swift Current.

The 1928 convention will be held in Saskatoon at a date to be named by the executive.

How Turkey Handles Speeders

Patrolman Instructed To Throw Nails In Their Path

A unique method of combating the tendency of Constantinople motorists toward excessive speeding has been put into practice recently. The mayor, in addition to providing for a motorcycle traffic squad, has issued instructions that the patrolman be provided with short nails to throw in the path of recklessly speeding drivers.

Constantinople's narrow, tortous, cobbled and hilly streets are no bar to the chauffeurs, who drive at breakneck speed, causing many casualties.

The mayor says the next campaign will be against excessive noise. He sees no reason why the ordinary automobile should sound like a fire engine answering a call.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Gift For B.C. University

Series Of Pictures Portray Early Days In Province

With a view to perpetuating for future generations in British Columbia the chief exploits connected with early days in the province the Native Sons of British Columbia, a local patriotic society, promoted the idea of having a series of paintings placed in the University of British Columbia, and with the co-operation and financial assistance of the Hudson's Bay Company the scheme was brought to a successful issue recently when eight pictures painted by John Innes, well-knon artist, were formally presented to the university by Charles V. Sale, governor of the company, and accepted by Magistrate H. C. Shaw on behalf of the board of governors of the university.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correst the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

An Interesting Demonstration

Noise Of Fish Swimming Amplified By Radio Sounds Like Thunder

The thunderbolts of Ther have a noisy equal in the goldfish.

The noise occasioned by the swimming of a goldfish in a bowl at the electric and industrial exposition in Grand Central Palace, New York, was amplified by radio 20,000,000 times, and sounded to auditors like the roar of distant thunder.

Likewise, the human heart beats were made to sound like the noise of hammer blows, and the gentle crushing of a paper bag sounded like the popping of many firecrackers.

The demonstration was in charge of Hugh Gernsback, radio news writer.

Now that we have a self-operating typewriter we are very much in need of a machine that will get busy and do our thinking.

The old fashioned fellow who never thought anything of walking 18 or 20 miles in an afternoon has a grandson who never thought of it either.

Minard's Liniment for Chilblains.

EVEREADY Layerbilt

Cheaper "B" Power

Here is a new development in Radio "B" Batteries. It marks an entirely new conception in radio "B" battery long life and economy. A "B" Battery, unlike any other you have ever used. Layer-building packs more active materials in a given area, and makes those materials produce more electricity than is possible in "B" Batteries of any other construction. Only Eveready makes the Layerbilt. Your radio dealer sells it. Use it for economy.

Canadian National Carbon Co., Limited
Montreal Toronto Winnipeg Vancouver

EVEREADY Radio Batteries *they last longer*

RADIO IS BETTER WITH BATTERY POWER

Finland Uses New Device

First Parliament To Introduce Automatic Voting Apparatus

The Finnish Parliament can boast of being the first to introduce a mechanical and automatic apparatus for recording its divisions. The apparatus constructed by a Swedish electrical firm, consists of a large table, fixed on the wall behind by wires with the members' benches, every member having on his desk a small table containing an "Aye" button and a "No" button.

On the large table behind the Speaker's chair and connected to the Speaker's chair the result of the division is registered within the amazingly brief time of about two seconds, while in the ordinary course a division requires some fifteen minutes. In case a member prefers not to cast his vote, he presses both the "Aye" and the "No" button.

He can press a button only once, and after he has done it a lamp is lighted on his desk to indicate that he has performed his duty. There is no possibility of tampering with the vote except that an unscrupulous member might work the buttons of his absent neighbor. But here, again the appearance of the light signal would probably deter him.

The British Policy

Helping Other Lands To Achieve Best Possible Results

Dr. Adams, emeritus Vice-Principal of McGill, who has returned from a visit to the East, says that the British have made Palestine prosperous. Brigandage has been suppressed, roads have been improved and extended, and reforestation is being studied. Order has replaced disorder and the inhabitants are benefiting. The military force numbers but a thousand, two hundred of whom are British. The High Commissioner is Lord Plumer, a great soldier, who is also a most capable administrator. The improved conditions in Palestine are in the nature of things. It is the British way to help other lands and peoples to achieve the best possible results.—Montreal Gazette.

Before marriage a man's display of affection is very apt to be overdone; after marriage it is more likely to be rare.

"Why do you say you have a presentiment of misfortune about Abondio?"

"Because I have just read that he is dead."—Buen Humor, Madrid.

Little Helps For This Week

In the fear of the Lord is strong confidence, and His children shall have a place of refuge.—Prov. xiv. 26.

Have faith in God; for He who reigns on high
Hath borne thy grief, and hears the suppliant's sigh;
Still to His arms thy only refuge fly,—
Have faith in God.
—Anna Shipton.

Trust Him; trust Him about every one and everything, for all times and all needs; earth and heaven, the conquest of sin, the growth of holiness, the cross that chafes, the grace that stirs. To trust God glorifies and honors Him.—Thorold.

Minard's Liniment for Distemper.

Teacher—"Bobby, what is butter?"

Bobby — "Something that makes popcorn better with."

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Children Cry for Fletcher's CASTORIA

Hospital Shower

Wednesday, November 23rd, is the day chosen by the Ladies Hospital Auxiliary for holding the Annual Shower which in the past has proved a boon to the Hospital as it gives an opportunity for those who have the welfare of this institution at heart to make a donation on this occasion, when perhaps at other times they are away or have overlooked opportunities of giving the help they really desire to.

The Hospital Auxiliary carries on its steady and unobtrusive work all the year round and the active members deserve high praise for the wonderful assistance rendered in the carrying on of the large amount of charitable work which seemingly falls to the lot of a hospital, which otherwise would be self-supporting. A review of the gratis treatment accorded to indigent patients and in not a few cases to some who are not inclined to acknowledge their indebtedness would give all and sundry donors a thankful feeling of having helped a great cause.

The Auxiliary is about to undertake the renewal of much of the linen, towels, blankets and dressings material besides providing further kitchen necessities and comforts. In previous times many kind ranchers in the outside districts who have had surplus stocks of vegetables, fruit, etc. have delivered generous supplies and no doubt this appeal will again bear fruit.

The Shower will be held in the Auxiliary Hall, tea will be served from 3 to 5 p.m. and Greenwood Theatre will be the venue in the evening for an illustrated lecture by Rev. A. Walker, and from which the United Church Ladies Aid and the Hospital Auxiliary expect to benefit financially. Remember!

The humblest donation or volunteer help in the past to this worthy branch of your hospital support whether direct or to aid in raising funds from dances, etc., is gratefully acknowledged and the kindly spirit in which these things have been done is further encouraged to this hard-working band of ladies to continue the good work.

TWO NEW FORDS ARRIVE AT WISCONSIN TOWN; ARE VIEWED WITH SATISFACTION

(Prairie du Chien Courier)

Considerable interest was aroused here by the arrival of two new Fords. While not ready for exhibition purposes, the Fords have been observed by several and much approval of their fitness and finish have been voiced. Their bodies are finely lined and graced with pleasing curves. Their color job is of quality that shows richness and well being, and their lines in general are wholly fitted for the work desired of them. Probably not without reason the designs follows that of former models, but their are individual differences. They are generally quiet, but there is considerable sound when under heavy stress of exertion.

Their speed and durability have not been tested, but their fuel consumption at least at the present time is surprisingly low. **Methods of caring for the radiator overflow remain the same.** While formed on the same general principles there is much difference which is not surprising when it is considered that one is a boy and the other is a girl, born to Mr. and Mrs. Louis Ford. The babies have not yet being named, but they and their mother are reported to be doing well.

VALENTINO DARING IN THE "EAGLE" FILM

Rudolph Valentino had to do many daring stunts while filming "The Eagle," which represents him in the role of an action hero. This magnificient picture of Russia before the revolution will be shown at the Greenwood Theatre on Saturday, November 12th. Here are some of the things Ruddy did.

Fought with a real live bear.

Stopped a runaway horse and a runaway team.

Rode spirited horses.

Jumped out of a window.

The "Eagle" is a Clarence Brown production and the star's first picture under his new United Artists Corporation contract. Vilma Banky, beautiful Hungarian actress, found by Samuel Goldyn and loaned for this picture, plays opposite the star. The picture was produced on a lavish scale.

As we go to press Mother Earth is covered over with a white blanket.

News From Victoria

(By a Former Greenwoodite)

Mr. and Mrs. John Bannerman, of Huntington, recently visited their daughter, Mrs. Brown, at Sooke and Mr. and Mrs. Lamont at Saanich.

During the absence of Dr. and Mrs. MacLean a well known former resident of Greenwood, Mrs. J. H. Willcox, is in charge of the Premier's household.

On the evening of the 28th some of the young people of Saanich gave a dance in the tea room at the Brentwood Ancorage. George Love and W. C. Wilson were billed to assist the orchestra. George was taken ill and was unable to attend so the other member of the Greenwood orchestra had to his stuff.

J. L. White has purchased a very desirable residence near the Parliament Buildings, is nicely settled and enjoying all the comforts of a home. Next summer when he takes his bride to the Boundary and his old friends have the opportunity of meeting her the verdict will be unanimous. Jack says he lights the fire every morning. They have an electric range.

Randolph Stuart is recuperating after a six months visit to the local hospital. Just say Greenwood to him and he will talk by the hour. He should write a book. As a matter of fact he is a much older timer in the Boundary than most people imagine. He was there before there was a Greenwood, before Jewel lake was discovered or the Jewel mine was staked.

N. H. Lamont has returned from Ontario where he went to study the wine industry of the Niagara Peninsula. Heinze started with one pickle so Mr. Lamont started with one barrel of Loganberry wine. In four years their business has developed till they now have an investment of half a million dollars. As a snowball rolling down hill increases in size so this business has increased and the possibilities of the future are hard to estimate.

Last week the boat house keeper at Oak Bay invited the writer to an afternoon trip in a launch among the Gulf islands. We picked Jack the Lighthouse Keeper from his little tower on the reef opposite Oak Bay. During fine weather he is allowed to leave his post during the daytime, but at the slightest sign of fog or the approach of night he must return to get the beacon going and in case of fog to turn the fog horn by hand sometimes days and nights at a stretch. The few hours he gets ashore are full of worry as a south easter is liable to kick up any time then to get back is not a task but a peril. Since our trip this very circumstance occured. His boat was dashed on the rocks and smashed to pieces, Jack was thrown in the raging surf but managed to climb out.

Our party proceeded into the channel where we encountered a tide rip which tossed the launch about. These cross currents can certainly make a rough piece of water. After rounding the north end of Chatham Island we pulled into a sheltered cove. This place as well as many other similar spots have been the scenes of all kinds of lawless acts. Smuggling of merchandise and Chinamen, rum running and sheep stealing. We tied up to a big float. Here the Chinese and Japanese have huge crates sunk in the water. In these they put live fish which they hold till the market requires them. To catch these they use what they call live bait. They have herring alive, run the hook through his middle, let him swim around dragging the line. Then the big fish comes and gobbles him.

On this Island were sea birds in countless numbers. Big gulls, pigeon gulls, divers, ducks, herons and cormorants; also the foliage was interesting. There were the huge Douglas firs and the smaller Arbutus. The bark falls off this tree every year while the leaves stay on.

The writer eventually returned to deposit Jack on his lonely rock. That night while sitting by a comfortable fire with a party of friends till the wee sma' hours we could not help thinking of the man in the Lighthouse keeping his lonely vigil.

GREENWOOD AND DISTRICT HOSPITAL LADIES AUXILIARY

The ladies of the Hospital Auxiliary wish to thank most heartily the undermentioned ladies and gentlemen who contributed so generously to the provisions for the supper served at the War Veterans Masquerade Dance held in the Masonic Hall on Monday, Nov. 7th. These donations helped to make this annual affair one of the most enjoyable and successful that has been held in commeration of Armistice Day.

Admits Looting Liquor Store

Robert Cress of Tacoma, Wash., who pleaded guilty at Vancouver on Nov. 2nd. to having recently burglarized a Cordova Street Government Liquor Store when $1800 was taken from a safe which had been carried off to the Pacific highway. He was remanded until Nov. 4 for sentence and on that day was sentenced to three years in the penitentiary.

Cress was arrested at Bellingham while driving a truck load of stolen liquor. A few days later Cress struck a keeper with an iron bar and escaped, but was captured shortly afterwards hiding in a garage.

But while waiting trial he again escaped, this time by filing the bars of his cell.

A fortnight later burglaries of stores in Point Grey yielded the number of a truck used to carry of the loot. Police ran across this machine in the heart of Vancouver one afternoon, and set a watch. To their surprise, the much-sought jail-breaker climbed into the machine. On the way to the police station he bolted, and only gave up after he had been shot in the thigh.

This is the same Bob Cress who four years ago assisted by his two brothers stole an automobile and twenty-two cases of liquor from the Grand Forks Export Warehouse. He was sentenced to five years in the penitentiary.

At one time Cress was a professional baseball player having played with Bob Brown's team in Vancouver and also with Salt Lake City.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.
