FEROCIOUS ASSAULT

A Large Silver Tip Bear Made An Unprovoked Attack on Well Known Mining Man.

About the middle of the afternoon of Tuesday last Messrs. Geo. H. Bayne and J. A. Kennedy had an experience that does not often fall to the lot of man, and one from which both men may consider themselves fortunate in having escaped alive, and yet one that Mr. Bayne may never recover from.

An EAGLE reporter met Mr. Kennedy yesterday and got the following full particulars:

About a week ago Mr. Bayne came in from Rossland, accompanied by Mr. Kennedy, and went directly to Hall creek, camping at the Jewel cabin, 16 miles above Ten-Mile, which is reached by a very rough mountain trail. Mr. Bayne is interested in several properties on Hall and Haley creeks and he and Mr. Kennedy intended to spend about two months doing assessments and examining different properties in the vicinity. Tuesday the two walked to the "Little Tommy" across the big lime dyke and over three miles distant. They had finished their examination and were returning to camp, walking through thick undergrowth, when they heard an animal growling and snorting, presumably a bear warning her cubs to seek shelter from possible danger. Mr. Kennedy continued as follows:

"We stepped upon a large fallen tree, where there was a little opening in the undergrowth. We turned, and looking behind, and saw a large Silver-Tip bear jump on the log some 10 or 15 feet from us. We both jumped to escape down the hill, but Bayne's foot caught a bough and he fell by the side of the log. I got about 40 feet away when I knew that the bear had attacked Bayne. We had no weapons of any sort and we had very little time to have used them. The bear having passed on, I returned to Bayne at once. He was quite conscious, but bleeding profusely, and said when he fell the bear jumped upon him and bit his hand and face and head, and also clawed him, but though perfectly conscious, he lay without flinching or attempting a defence and the bear passed on after lingering but a few seconds and evidently feeling assured that no harm could be suffered by the cubs from that source, and thinking no doubt of fetching the cubs to partake of a meal.

"I returned to my partner," said Kennedy, "and found him badly lacerated and I was afraid of him bleeding to death. I bound up his wounds as well as I could, and he having expressed a desire for water, we walked to the creek, 1,500 feet below. I asked Bayne to wait here till I got a horse to convey him to camp, but he insisted on walking with me and we reached camp about 7 p. m., and were rejoiced to find Captain Davey and Jas. Curry had arrived during our absence. We again bound up the wounds and at 5 the next morning we mounted horses and rode through to the Ferguson hospital without resting, and arrived at 2:30 p. m."

Kennedy says Bayne's fortitude and splendid nerve was remarkable, and though he must have suffered intense agony during the 9½ hours ride, he never murmered except to speak of his lacerated hand.

CONDITION OF PATIENT.

Mr. Bayne arrived at the Lardeau Miners' Union hospital at 2:30 p. m. Wednesday, and under chloroform it was found that the left side of forehead and face are torn away, laying bare facial muscles and bone; left eyelid and eyebrow lascerated and torn; left ear torn to pieces; scalp from forehead to neck literally torn and chewed to shreds, one large laceration extending from left eye to left ear and around back of head to near right ear. Mr. Bayne remembers distinctly that this latter wound was caused by a blow from the bear's paw. The right hand is badly chewed and bruised. There are no signs of "fracture of base of skull," although slight symptoms of intracranial hemorrhage are present. Mr. Bayne is very weak from shock, loss of blood and his long journey after the accident.

Mr. Bayne is a well known and well to do mining man. He is one of the principal owners in the Homestake of Rossland, as well as being president of the company. His relatives live in Halifax, N. S., to whom particulars of the accident have been wired.

Mr. Kennedy returned to the Jewel this morning to continue the operations that were under way.

COUNTY COURT.

A session of the County court was held at Trout Lake on Thursday, the 16th inst., His Honor, Judge Forin, presiding, when the following cases were disposed of:

Glenn vs. Watts—Judgment was given for plaintiff for $100 and costs, the question as to garnishee being held over. R. Hodge for plaintiff, F. C. Elliott for defendant.

McPherson vs. Woods—An action for damages for trespass. Judgment was given for plaintiff for the amount of money paid into court and costs, and a counsel fee of $5. R. Hodge for plaintiff, F. C. Elliott for defendant.

Vipond vs. Bury & Co.—An action for the price of beef sold to defendants. The action was dismissed with cost, Elliott for plaintiff, Hodge for defendant.

Brown vs. A. Hillman—An action to recover $8 for shakes. Judgment for plaintiff for $8 and disbursments. Elliott for plaintiff, Hodge for defendant.

Hume vs. Davie—An action for store account. Judgment for plaintiff for $51.49 and costs. Hodge for plaintiff, Elliott for defendant.

Batho vs. Evans—An action for a meat account. The amount sued for was admitted and paid into court. His Honor thought the proper parties were not made plaintiff and dismissed the action with costs.

Archer vs. Cowan—This was an action in a logging contract. After hearing the plaintiff's story the learned judge saw fit to dismiss the action with costs, allowing the plaintiff only the amount paid into court. Hodge for plaintiff, LeMaistre for defendant.

There were some applications in chambers but they were of no public interest, but 20 applications for naturalization were granted. The next court will be held at Trout Lake on the 6th of October.

To Marry an American.

The engagement of Austen Chamberlain, eldest son of Colonial Secretary Joseph Chamberlain, and himself a cabinet minister (postmaster-general), to Miss Muriel White, only daughter of Harry White, secretary to the United States embassy, is announced. It is understood that the wedding will take place at an early date.

King Edward's Regrets.

King Edward has commanded Irish Secretary Wyndham to express to Cardinal Logue, the Archbishop of Armagh and Primate of all Ireland, His Majesty's deep regret at the death of the Pope, and to ask His eminence to convey to the sacred college His Majesty's sincere regrets.

SPARKS FROM THE HAMMER

Information Obtained from Mining Men Who Are Developing Our District's Resources.

G. B. Manross and Gus Peterson returned Tuesday from doing assessment work on their property near the head of Macdonald creek. The showing is even better than last year, and they left quite a lot of ore on the dumps sacked, ready for shipment in the fall. Crown grants are to be applied for at once, the claims having been surveyed last year.

There are four claims in the group, through which run two strong leads, and work has been done on both leads. The ore is high grade, averaging over $100 to the ton.

Mr. Peterson spent the summer of 1897 in the Lardeau, when he and Mr. Manross staked the above property. Since then he has superintended a mine in the boundary for five years, but last year he prospected in California. He says Lardeau has developed into the best camp that he knows, and he expects to stay. He will take a run down to Poplar creek and see what is there. Mr. Manross hopes to get his family moved to Ferguson very soon and make this his permanent home in the future.

COPPER CLIFF.

N. J. Cavanaugh, a well known mining operator of Sandon, outfitted in Ferguson during the week and took Bert Sharp and Jack McLeod up to his property, the Copper Cliff group, adjoining the Black Warrior, at the head of Macdonald creek. Mr. Cavanaugh had to return to Sandon to be in attendance at the meeting of the lead conference that convened on Friday.

He said he thought the Lardeau would forge right to the front now that the lead bounty is fixed for a long enough time to be of service.

TRAMS UNDER WAY.

Three four-horse teams came into Ferguson Wednesday night bringing the outfit of the B. C. Riblet Tramway company. The Silver Cup extension tram has been under way for some time and the building of the towers will now be started.

The tram from the Nettie L. will also be started in a few days.

Relatives Take a Last Glance.

In Rome, July 21, there was a scene at the Vatican when the nephews of the pope with their families entered the death chamber to take a last farewell of their uncle, for whom they had an intense reverence. The elders were dressed in black and the children in white. As they entered the young children, awe-struck and frightened, began to cry at this, their first acquaintance with death, but the beauty of the scene soon quieted them. The little party advanced on tip-toe and, circling around the bed, fell on their knees and joined in the prayers of the penitentiaries. The whiteness of the children's gowns added a pleasing note to the rather highly colored scene.

Presently the visitors arose and slowly filed past the bed, kneeling to kiss the dead hand as they passed. Count Camillo, one of the nephews who knew him best, accompanying him always when he went into the gardens of the Vatican, was quite overcome, more so, in fact, than at any time since his uncle's death occurred.

Women Deteriorating.

Halifax society women are in a flutter over the sensational charges made by the Rev. W. J. Ancient, who preached at St. Luke's cathedral, the fashionable church of Halifax, on Sunday night. Mr. Ancient said that he was informed that women—he was going to say ladies—who came to church and approached the Holy Communion with an appearance of sincerity and humiliation, went on the golf-links next day and swore like troopers.

"What are we to expect of men now," said the preacher, "when women look upon profanity as the correct thing?"

The Halifax Golf club is one of the most exclusive institutions, and numbers among its members only those prominent in the smart set of the city, as well as army and naval circles. Several members belong to St. Luke's, and the preacher's charges have made a great sensation. Lady golfers are highly indignant, and a delegation from them waited upon Mr. Ancient and demanded a retraction. This Mr. Ancient declined to make, and reiterated what he had stated in his sermon.

In an interview later, he further stated that Mr. Van Dean had told him that ladies not only swore but smoked at the golf links.

Miss Miller Wedded.

Reports from Atlin tell of the marriage on the 7th inst. of Miss Miller, daughter of Munroe Miller, to Mr. C. R. Bourne, formerly of New Westminster. Miss Miller has been teaching school in Atlin, and Mr. Bourne has a prosperous drug business there. The trustees the Atlin school are seriously contemplating securing a gentleman to teach the youth of the camp, as they are unable to hold any young lady who has been brought in. They quite approve of their citizens settling down and securing the comforts of a home in the charming surroundings of Atlin, but they do not favor the idea of running a matrimonial promotion bureau, as the results of their efforts to keep a school open so far have turned out. Mr. and Mrs. Bourne are very popular in Atlin.

A Hard Diet.

Dr. Monnier of Paris, has just reported to the Academy of Medicine the case of a young man with an extraordinary stomach. He entered St. Joseph's hospital on May 19th, suffering from severe pains. A hard body was felt in his stomach and he was operated upon on June 25th, when the doctor extracted eight teaspoons, a three-pronged fork, a sharp pointed four-inch knife blade, a key, a long tooth comb, and other articles, altogether 25 in number and weighing half a pound.

The young man is now recovering. He states that he tried suicide this way.

Death Mask Taken.

A death mask of Leo XIII was taken on the 21st by Commendatore Galli, director of the Vatican Museum. The delicate work was successfully executed, and the result is considered highly satisfactory.

The viscera of Pope Leo, which was today placed in an earthen urn and provisionally deposited in the crypt of St. Peter's was removed at midnight to a magnificent urn, which, carried by Mgrs. Marzolina and Angeli, was taken in a Vatican carriage to the Church of St. Vincent Anastasius. The carriage was met at the door of the church by priests carrying torches.

The viscera of all the Popes, except Pius IX, have been deposited in this church.

The will of the Pope has not been opened.

Land Bill Passes.

In the British house of commons on Tuesday last Premier Balfour, in the absence of Irish Secretary Wyndham, moved the third reading of the Irish land bill. The bill passed the third reading by 317 to 20.

MANITOBA ELECTIONS

Conservatives Sweep the Province--Roblin Government Returned by a Large Majority.

The result of the Manitoba elections held on the 20th inst., so far as they are known to date, show that the government of Hon. R. P. Roblin has made almost a clean sweep of the province.

The figures are: Conservatives 39, Liberals 4, doubtfuls 4, deferred elections (Swan River and Gimili) 2. Total, 40.

There has been a cyclone among the Liberal candidates, and especially among those who attempted to humbug the electors by masquerading as Independents. Every conspicuous Liberal, with the exception of Greenway himself, has been turned down, including J. D. Cameron, at one time attorney general in Greenway's cabinet, who lost by a sweeping majority to J. S. Gordon; A. C. Fraser, at Brandon, who has been boomed as Greenway's successor; E. Brown, mayor of Portage La Prairie; J. D. Hunt, in Norfolk, and Dr. J. A. Macarthur in Centre Winnipeg.

A contrast is shown by the present ministers, all of whom have been returned, in most cases by record majorities. Premier Roblin and the Hon. Mr. Rogers head the list by majorities which are phenominal.

The returns are necessarily incomplete, but even if the four seats, Carollon, Gilbert Plains, St. Andrew and Kildonan and Virden, where the result is at present doubtful, should go Liberal, together with Gimili and Swan River, the government's standing now would be 30 to 10.

The buffalo herd at Banff is rapidly growing. Where there were 16 buffaloes in 1898, there are 40 in 1903. There has been an increase of 27 and a loss of three. Already this summer eight calves have been born and further increases are expected. There have been increases this summer in the moose, elk and goat families within the animal enclosure and the many cute looking youngsters are interesting attractions for visitors, says the Banff paper.

DISTRICT WORKS.

The EAGLE is in receipt of a communication from H. McPherson, the district superintendent of roads, stating that the trail from Ferguson up the Great Northern mountain has been repaired, and also that the Eight-Mile wagon road is receiving the best attention that can be given it with the men that are available.

We are glad of this assurance from the superintendent of works for this road and trail in particular are the ones to which the EAGLE saw fit to direct attention a fortnight since.

We have visited the trail and road in question and find things in pretty good condition, the road to Five-Mile especially and the bridge across the Lardeau below Ferguson having both been given good attention in the past two weeks.

EDITORIAL NOTES.

The magnificent victory of the Roblin government in the province of Manitoba at the polls on the 20th inst., is significant of the trend of public opinion in the west, About 1894 the electors all over Canada showed a falling off from the ranks of the Conservative party and in the general Dominion election of 1896 the country was found to have gone overwhelmingly Liberal. For a few years everything went smoothly, but for the past two years one cannot but have noticed the change in public sentiment; a condition very nearly akin to that which existed immediately preceding the election of 1896. Now province after province is getting more conservative and the signs point to another great turnover at the general elections that will in all probability take place at the close of the present year.

Within the past 12 months the Laurier government have lost two of their cabinet ministers in Hon. J. I. Tarte and Hon, A. G. Blair. This means something, and if one will but stop and read between the lines it will be seen that something is very wrong, for these two strong men who did so much to enable the party to gain power, to have dropped out. It looks as if the party is falling to pieces. Therefore it cannot be expected that the rank and file would do otherwise than lose confidence and return to their old friends, the Conservatives.

The excitement about Poplar creek continues and increases from week to week as more becomes known of that remarkable gold camp. People who are conservative and did not credit the reports that were carried out at first, have since heard them corroborated by the most reliable persons and have come to place confidence in the extent and richness of the new field. That camp will make a name and a record before long.

The unfortunate accident that occurred Tuesday on Hall creek, shows how unsafe it is for men to go about in the mountains at this season of the year without carrying firearms. One is liable to find themselves between a bear and her cubs at any time and in almost any place, and when such a thing occurs the bear is sure to prove aggressive.

King Edward in Ireland.

King Edward and Queen Alexandra, accompanied by Princess Victoria and their suites, are visiting in Ireland, arriving in Dublin on Tuesday, the 21st. The party has been warmly greeted at all places, holidays being proclaimed and general rejoicings being manifest.

CONSERVATIVE PLATFORM.

[Adopted at Revelstoke, September 13th, 1902.]

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows;

"To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase.

"To actively assist by state aid in the development of the agricultural resources of the province.

2. That in the meantime and until the railway policy above set forth can be accomplished, a general railway act be passed, giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.

3. That to encourage the mining industry, the taxation of metalliferous mines should be on a basis of a percentage on the net profits.

4. That the government ownership of telephone systems should be brought about as a first step in the acquisition of public utilities.

5. That a portion of every coal area hereafter to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.

6. That in the pulp land leases provision should be made for reforesting and that steps should be taken for the general preservation of forests by guarding against the wasteful destruction of timber.

7. That the legislature and government of the province should persevere in the efforts to secure the exclusion of Asiatic labor.

8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.

9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employees.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

CONSERVATIVE CONVENTIONS.

At a meeting of the executive of the Provincial Conservative association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Grand Forks, Greenwood, the City of Rossland, and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to vote for delegates.

3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.

4. All notices of the date of public meetings for the election of delegates to nominating conventions, the apportionment of delegates, and the place and date of nominating conventions in the several electoral districts shall be prepared by the members of the executive of the division in which the electoral districts are situate, and issued over the names of the president and secretary of the Provincial Conservative association.

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will be then fixed. JOHN HOUSTON,
President of the Provincial Conservative Association.

The Fred Robinson Lumber Co.Ltd

THE NEW AND ONLY

MAP

OF THIS DISTRICT

Including the Fish Creek camp and Upper Duncan River section, compiled by A. P. Cummins, P. L. S., and S Shannon. B. A., is now on sale at this office. The ready sale of the map is proving all we have said for it. The Trout Lake division is lithographed in black, the Lardeau in red, and the Ainsworth in blue. Even a tenderfoot could take a copy of this map and find any claim recorded in the three divisions. The mountains, lakes, creeks, wagon roads, trails, surveyed railway routes, and the location and name (by a unique index) of every mineral claim in the district is shown.

Next to Visiting the Country in Person This Map Takes First Place.

In fact every geographical feature is so well defined that one can see at a glance the nature of our country and the trend of the claim locations gives an intelligible idea of the mineral belts running through the camp. It is certainly

The Best Worth For One Dollar

ever offered in the map line of a mining camp. It is the first complete map of the district and is selling well. It is just what you are looking for. WE ALSO HAVE A FEW MAPS MOUNTED ON LINEN, WITH A GOOD COVER, FOR TRAVELLERS OR PROSPECTORS, WHICH SELL AT $1.50. THESE ARE THE BEST VALUE, AS THEY WILL LAST FOR YEARS.

Address your order, with an enclosure of a one dollar bill, (no cheques, orders, etc.) to

THE LARDEAU EAGLE,

FERGUSON, B.C.

Mining companies or others ordering lots of 20 or more, maps will be supplied at 50 cents each.

No Soap, Borax, Soda or Ammonia is needed with

GOLD DUST

With little water and less effort you can clean anything about the house better, easier and cheaper than with Soap or any other cleanser. Once try it, you'll always buy it.

Sleigh Bells in July.

Some people act as though they begrudge Ferguson any Sunshine or fine weather, and when a fine day does appear, by accident or otherwise, they come around and remind us of winter. Just such a thing happened Wednesday. Up till 5 p. m. the day was beautiful and most people were out enjoying themselves, when some parties from Beaton drove a four-horse team through the main street with horses bedecked with sleigh bells. Verily the meanness of some people is beyond comprehension.
