MUNICIPAL COUNCIL.

Fathers of the Municipality Spend Busy Day in Routine Work.

The regular monthly meeting of the municipal council was held last Saturday, at which all members were present.

Under the head of communications, a letter was read from T. Kilpatrick, superintendent of the C. P. R., stating that he had authorized the road boss to put in a level crossing at T. N. Hayes' siding.

Re the extension of the water works system so as to include lands adjacent to Lansdowne, F. Temple Cornwall gave it as his opinion: (1) The council has the authority to extend or cause to be extended the water system as required. (2) Such extension may be done under the sections of the Municipal Clauses Act dealing with the bylaws regulating local improvements. (3) The cost of such work may be levied as a special rate on the lands benefitted by such work. (4) The rates for water can be regulated the same as other rates, taxes, etc. Before the council can proceed in the matter it will be necessary for the parties desiring the extension of the system to petition the council to that effect.

F. Temple Cornwall, solicitor for the municipality, reported that the difficulty re the Bennett creek drain assessments had been settled satisfactory to all parties concerned.

H. C. D. Pelly, noxious weed inspector, reported as follows: He had been over the most of the main roads of the municipality and had found the Canadian thistle in many places which he had destroyed and ordered those cut on private property; had found the tumbling mustard on the lands of the C. P. R. near Larkin and ball mustard quite general throughout the municipality; also desired to call the attention of the council to the presence of bull and Scotch thistles in the municipality. A letter was received from E. J. Tronson in reply to the notice of the weed inspector stating that he would have the weeds on his property destroyed soon.

J. M. Wright, secretary of the municipal school board, called the attention of the council to the bad condition of the road in places leading to the Pleasant Valley school. The sum of $10 was appropriated to repair the same.

The assessor made application for a remuneration of $60 for extra assessment work under the new school act. The request was granted.

A protest having been filed by Geo. Levins against the closing of the old Lansdowne road by J. Taylor, the matter was placed in the hands of the board of works for investigation.

It having come to the notice of the council that there were several parties who had not yet paid their dog licenses, it was moved that all parties who have been notified to pay the same and have not done so be served with summonses forthwith.

The bylaw re the Steedman road is to be prepared at once.

J. M Wright, C. J. Becker and D. Matheson were appointed as trustees of the recreation grounds and agricultural buildings.

G. Moberly was granted the privilege of conducting the waste water from his factory.

Councillor Hallam was granted $75 for general repair work and Councillor Hartwell $15 for repairs on Deep Creek bridge on Lansdowne road.

The following list of bills were passed for payment:

C. Pelly, weed inspector,	$ 8.75
R. S. Bourne, road word,	11.25
Boyd, Burns & Co., water pipe	12.50

Armstrong Advertiser,	89.75
L W Patten, extra assessment,	60.00

J. M. Wright was authorized to collect from the Armstrong Electric Light & Power Co. the sum of $20, cost of advertising bylaw.

Public School Building to Be Raised at Once.

J. M. Wright, secretary of the school board, received an official letter from the department of education Wednesday with reference to the addition of the second story to the Armstrong public school building, which has been subjected to considerable apparent delay. The minister of education states that the public works department has been instructed to proceed with the work at once, so that it is probable that the work on the new story will now be begun shortly. With the addition of the second story to the present handsome brick structure Armstrong will boast one of the best public and high school buildings in the province. Nor is the improvement to be made any too soon, for with the very large increase in the number of public school pupils and with the addition of the high school the additional room is badly needed, and will be utilized in a very short time.

Monument to Maple Leaf Author.

The Toronto News has opened a fund for the erection of a memorial in Gladstone avenue school to the memory of the late Alexander Muir, author of "The Maple Leaf Forever", whose death occurred so suddenly a couple of weeks ago. The cooperation of all Canadians, especially that of school children is asked. Mayor Coatsworth, Chairman Shaw, of the board of education, and Inspector Hughes will be a committee to carry out the movement. Newspapers throughout the Dominion are to cooperate with the News in this tribute to the memery of the man who did much to unify Canada's nationhood. Any donations handed to the Advance will be properly forwarded and acknowledged by the News.

IMPORTANT NOTICE!

The Seven Sutherland Sisters

beg to announce that they have made arrangements with R. R. Burns, Druggist, and will give daily demonstratione for one week, commencing on

MONDAY, JULY 23rd, 1906,

Regarding treatment of the Hair and Scalp. They respectfully invite everyone to call and consult with them. Come and see the Long Beautiful Hair grown by the use of Seven Sutherland Sisters Hair Grower.

The Armstrong Pharmacy,

R. R. Burns, - - Druggist.

Miner Still Has Hope.

George Edwards, alias Bill Miner, still hopes for the ultimate success of his lawyer's appeal for a new trial on the C. P. R. hold-up case. For this reason he continues to deny his identity as the notorious Miner. He is not to be caught napping either; last week George Hoben, of Oregon, came to New Westminster, to see Miner and plead with him for his young brother, who is doing time in the Oregon state penitentiary for his part in the Oregon Short-Line hold-up of three years ago. Young Hoben, who was then only 15 or 16, got a ten-year sentence for his part of the hold-up, but Miner, who was always credited with having planned it, escaped. Hoben claims that his connection with the robbery was solely due to Miner's persuasive abilities. He would never have been near the place but for the glowing get rich quick stories told by Miner. His brother hoped that if Miner would admit that he had influened the boy, the authorities might be persuaded to reduce his sentence. He relied on a worthless hope, however, for Edwards is not admitting anything.

I. O. O. F. Installation.

The ninth semi-annual installation of officers of Coronation lodge No. 48, I. O. O. F., occured in their hall last evening. S. A. Shatford, D. D. G. M., of Vernon, was the installing officer and with the assistance of the late District Deputy, S. C. Smith, and other prominent members of the order did the work in the most approved manner. After the installation refreshments were served and the local members of the Three Links, with their visitors, enjoyed a pleasant time in talking over the principles and work of Oddfellowship. The officers of the lodge as installed are: W. J. Smith, Jr. P. G.; H. Hawkins, N. G.; O. McPherson, V. G.; secretary, G. Moberly; financial secretary, A. E. Morgan; treasurer, C. J. Becker; conductor, Joe McDonald; warden, Hugh Cummings; Chap., H. Fletcher; R. S. N. G., J. M. Wright; L. S. N. G., T. Lowes; R. S. V. G., Geo. Wyatt; L. S. V. G., Eugene Rhian; I. G., S. McKee; O. G., N. Ferguson; R. S. S., T. Marshall; L. S. S., H. R. Sturt.

The Oddfellow lodge enjoys the reputation of being one of the greatest fraternal societies in existence, and their work of relief to distressed members and families during the eighty-seven years of their history entitle the order to the flattering tributes bestowed upon it.

Wait and See.

A great surprise awaits you. The Seven Sutherland Sisters are coming to R. R. Burns' on July 23. They have the longest and most beautiful hair in the world.

A Conundrum.

What is the difference between a bald head and the Seven Sutherland Sisters? It is before and after using Seven Sutherland Sisters Hair Grower and Scalp Cleaner.

R. R. Burns, Special Agent.

To Firemen.

A meeting of the memders of the Armstrong fire brigade is hereby called at the fire hall for Monday evening, July 23rd, at 8 o'clock. A full attendance is urged as there are many matters of business to be attended to.

L. E. Farr, Chief.

Watch for Them.

Watch the window at Burns'! They are coming! The ladies with the longest and most beautiful hair in the world—the Seven Sutherland Sisters—July 23.

Seven Sutherland Sisters Hair Grower works wonders when your head is bald or nearly so.

Painters Wanted

I will pay highest wages and give steady employment to three men capable of doing good house painting. A. J. Laaworth,

PUBLIC NOTICE

The Advance is published in the interests of the town and district in which it exists and cordially solicits the patronage of the public.

Our Water Supply.

During the summer season the necessity for the enlargement of the present waterworks system is made most plainly apparent. With the present small main the supply is entirely insufficient and the result is a deal of dissatisfaction among the consumers. The water commissioners have dealt with the matter carefully and have arranged the hours in which the water may be used for lawns and for street sprinkling so as to as nearly as is possible meet the requirements of consumers both within and outside the townsite limits. The extension of the system by the putting in of a 10-inch main as at present proposed is anxiously locked forward to, not alone by the present consumers, but by a number of parties who would like to be connected with the system. The application *for the extension of the townsite* limits is now before the lieutenant governor and as soon as accepted by him it is hoped the council will lose no time in having the matter voted upon by the people and later the actual extension of the system begun as soon as possible.

Re Public Swimming Tank.

A public meeting is called by the water commissioners for tonight for the purpose of discussing the suggestion of erecting a public swimming bath on the recreation grounds. Such a convenience would no doubt be of great value to the community, and the proposition of the commissioners is worthy of careful consideration. The cost of a suitable tank is estimated at about $1,000. This the commissioners propose could be provided from the surplus accumulated by the town waterworks system, the expense thus coming equally upon the public and in such a manner as to hardly be noticeable. Beside a small revenue that would be secured during the summer months it is suggested that during the winter the tank could be utilized for freezing ice for the town, thus assuring a substantial revenue for this necessary, though scarce, commodity. It is urged that a good attendance will turn out to the meeting that the matter may be freely discussed pro and con. Other business in connection with the waterworks will also be considered.

At the Farmers' Exchange.

That the shipping season from the Spallumcheen is actively on may be steadily seen by the activity around the warehouse of the Farmers' Exchange. Potatoes, cabbage, cauliflower, turnips, carrots, etc. are now coming in from the farms of the district and being shipped to points east, where there is afforded a good market for this class of products. A large proportion of this class of products goes to supply the mining and lumbering districts, while a large business is also done with points farther east where the season for such commodities is several weeks later than here. Already ten cars have been shipped, beside the large quantities that have been shipped in small lots. The volume of business done by this enterprising concern during the present season promises to be the largest yet in the history of its organization, and that the farmers of the community are satisfied with the prices obtained through this channel and the treatment accorded them by the management is best evidenced by the fact that the Exchange is now the only medium through which produce is handled outside of the small amount done by the general stores at this place. That the farmers are enabled to sell their produce for cash creates a condition highly satisfactory both to the producers and to the merchants, and one which should be taken into consideration by parties who contemplate embarking in agriculture or fruit growing in the district.

A Good Time at the Arm.

The Armstrong contingent to the Salmon Arm celebration of the 12th were most generous in their commendation of the manner in which they were entertained. 103 tickets were sold at this station, while many more drove over. The pleasant groves, the beautiful Shuswap lake and the excellent recreation grounds make the Arm an ideal spot for an outing such as was enjoyed there by the Orangemen and their friends last week. Booths conducted by the various churches provided ample accommodation for the feeding of the numbers, estimated at 1200, present. There was provided a good program of small sports, which with the base ball and foot ball games furnished the amusement of the day. The base ball game resulted in a defeat for our own team by a score of 7-2, but except for the first innings proved a very close and interesting game. Through a disagreement between Kamloops and Vernon teams, no lacrosse game was had. Both teams were evidently at fault, and, like the Vernon base ball team just a year previous, wrought insult upon the town whose guests they were.

The celebration for the Interior next year will probably be held at Revelstoke.

Excursionists to Okanagan.

C. P. R. excursions were run from the prairie provinces to British Columbia this week, and as a result many visitors have been in the Okanagan the past few days, many of whom have been shown some of the fine farms of this district at the hands of our genial real estate firms. As a result of the opportunities offered by these periodical excursions by the C. P. R., the people to the east of the Rockies are enabled to secure practical information concerning the Pacific province, which in turn is attracting a widespread interest among those who are looking out for a location in a milder climate. *Almost invariably a favorable* impression of the Okanagan is carried home by the excursionists here, and many of them who do not at present locate will keep an eye on the development of the valley as the ultimate scene of their later home.

Wild Flower Collection.

The Natural History Society has under taken the work of establishing a Wild Flower Garden in Victoria. We have secured a *most eligible site in Beacon Hill* Park, and the city authorities have promised to make us two small rocky ponds. Our aim is to secure a representative collection of the many beautiful wild flowers and shrubs native to this province. We now appeal to anyone who is interested in the flora of his particular locality to help us. We want this fall only those subjects that will thrive on rocks and dry institutions, as we shall not have water until next season. Our funds are limited and we cannot offer to pay for plants, but will gladly pay freight charges. It is a labor of love on our part, and we shall be glad to hear from anyone able and willing to help us in the good work.

EDWARD ALEX WALLACE,
Victoria, President.

TO
Stock Owners.

Having secured the services of Mr. Geo. Maundrell, of Armstrong, to represent us in the Okanagan, we are now prepared to buy all kinds of Live Stock at the Highest ——Market Prices.——

Owners may leave word at the office of Fisher & Sage or notify Mr. Maundrell, when he will arrange to call.

Poultry Wanted

.. Local and General ..

Jas. Reid has taken a position as clerk in John Hamill's store.

A. Shary has leased the Schubert residence, at present occupied by C. J. Becker and family.

H. B. McElhinney is having his residence painted in Eastview. W. James wields the brush.

A. E. Huntley has moved his saw mill from Larkin to the Morgan-Jackson tract, where he is now setting for a large cut of lumber.

J. H. Currie, of Vernon, spent Sunday with his wife here, who is a guest of Mrs. Eli Wilson. On Monday he left for a trip through the Kootenays for the Okanagan Produce Co.

Harvesting has already begun, those who had fall wheat already having most of it in the stook. The fall wheat crop this season is perhaps below the average, yet is of excellent quality.

Miss E. Ellison, daughter of our local M. P. P., was greeted at the station by several friends Wednesday morning on her way home from Toronto, where she has been a student of Havergal College.

A. J. Weddle drove over from Salmon Arm Wednesday to fetch his daughter who has been visiting friends here since the 12th. Mr. Weddle and his partner, O. A. Butterfield, are so far well pleased with their recent location at the Arm, and prefer this part of B. C. to their old home in Alberta.

The enlarged ad on our front page announcing the annual clearance sale of the Big Store is worthy of the notice of the purchasing public. They are making more room, for the accommodation of a complete stock of hardware, stoves, ranges, etc.

McDonald & Hardy on Wednesday completed C. J. Becker's new cottage south of town. This cottage is one of the best residences of the town and in its beautiful situation presents a most attractive appearance. Mr. Becker and family will at once move into the same where they will be comfortably domiciled.

Among the excursionists to this part of the valley the past week was a party from Moose Jaw, Sask., consisting of Alex Wilson and wife, Dr. Size and wife, Wesley Mitchell, J. Dennis, and Miss Flossie Arnold. They were all taking a look for the first time over the Okanagan of which they have heard a great deal in their prairie home, and so far as they had seen it when here were most agreeably impressed with the appearance of the country. At least some of the party will no doubt make investments before returning home.

Last Saturday was perhaps the most quiet Saturday that has been experienced in town for the past year. This is easily accounted for by the fact that the farmers of the district are universally engaged in the hay field. Hundreds of tons have been put up in this distrist the past week. The crop is a heavy one and the dry weather has permitted its being put up in excellent condition. Except that of the higher uplands the hay is now pretty well up and by another week will pretty generally be in the stack.

G. A. Love returned Monday from his business trip to Red Deer, Alta., where he succeeded in disposing of a portion of his property interests, which will enable him to apply further energies to the improvement of his fine fruit farm south of town. Conditions in the prairie province at this time are most favorable, the weather is warm and prospects for a good harvest favorable, and the country fast filling up with the new immigrants from the western states. Mr. Love was accompanied on his homeward trip by H. L. Gaetz, druggist and postmaster of Red Deer, who came out to see some of the Okanagan.

A. E. Sage was a business visitor to Revelstoke Monday.

R. W. T. Kirby returned Tuesday from his trip to the coast.

Mrs. A. S. Elsom left on Wednesday for a visit to relatives in Moose Jaw.

Mrs. A. E. Huntley returned Friday from an extended visit with friends at Kamloops.

Mrs. V. Dickie has been confined to her bed the past week with an attack of bronchitis.

Geo. Maundrell has been appointed the local representative of P. Burns & Co., and advertises for the purchase of all kinds of live stock.

T. Skyrme for some months employed at the Armstrong hotel, has severed his connection there, and is temporarily teaming for T. K. Smith. His place at the hotel is succeeded to by P. B. Pelly.

Mr. and Mrs. C. H. Hardy left Saturday for the Halcyon Hot Springs, Arrow lake. Mrs. Hardy expects to take treatment there for a month, while Charley will return next week.

Al Wells, the last of the party of four to leave here last fall for the Nechacho valley dropped in Wednesday morning. Al says the weather in the north country is even hotter than the Okanagan.

A cucumber twenty-three inches long is not bad for this early in the season. Yet this was the measurement of some picked out of Mrs. A. J. Lapworth's garden last week. Only another evidence of the productiveness of the district.

Work is now being prosecuted on H. Martin's new residence in Eastview. Robt. Ferguson has charge of the masonry and Geo. Bowness of the carpenter work, and the well known abilities of these two men in their respective lines insures a good job of workmanship. The dimensions are to be 18x28, two stories, with ell.

Jackson Harrison, of Regina, Sask., a brother of the late purchaser of W. Gregory's farm, has located adjoining his brother by the purchase of forty acres of land from E. M. Chambers, upon which he expects to make his home. Mr. Chambers sold forty acres only to reduce his holding, as he has no desire to dispose of all his fine ranch on the east side of the valley.

The sporting element of the town was revived Saturday night by the pulling off of a horse race between horses owned by Josh Blackburn and W. Needham, for a money stake. Blackburn's horse had considerably the best of the race all the way through and came in several lengths in the lead. A large crowd of spectators turned out.

Albert Norman presented the ADVANCE with a sample of vegetables from his father's garden this week that would open the eyes of some of our eastern friends if they were to behold them at this season of the year. A number of onions, of this spring's growth, measured from 11 to 13 inches in circumference, the largest specimen tipping the scales at a trifle over three quarters of a pound.

Frank Young, Jr., and Tommy Greenhow returned home Wednesday, after an absence dating from the first of April. Since that time the boys have spent the time in travelling around and seeing some of the western country and have traversed over three thousand miles, taking in all of western Canand a good share of the nortwestern states. When accused of having struck home because of being "broke", this conclusion was quickly dissipated by their display of five one cent pieces between them. They have at least made expenses during their absence and have the advantage of having seen a bit of the world, which will prove of value to them in later life.

$25 Reward!

The above reward will be paid to the party or parties giving information leading to the conviction of the party or parties ringing the fire alarm on night of July, 10th. 1906.

By order

FIRE WARDENS.

Mrs. W. Harry returned Tuesday from a visit with relatives at Revelstoke.

John Daykin left Monday on a two-weeks holiday trip to the coast cities.

McPherson & Holtby are putting the finishing touches on F. R. Glover's residence.

Armstrong's fall fair Oct. 10, and 11. Bear this date in mind as a fitting time to visit the Spallumcheen.

Some of the Armstrong owners of the Cotton Belt group of mines leave next week for a trip of work and inspection there.

It is currently reported that the government veterinaries will soon resume their work of testing for glanders among the horses of the Okanagan.

The residence of T. W. Marshall at Lansdowne has lately been materially improved by the application of paint inside and out. A. J. Lapworth was engaged in the work.

The annual sitting of the court of revision for the municipality of Spallumcheen was held Wednesday. Only one complaint on the municipal assessment was made and this one was disallowed.

A. Hooper, employed in G. Moberly's jobbing shop, has purchased three acres of land in Eastview adjoining Thos. Holiday, upon which he will shortly erect a dwelling and establish his residence.

Mrs. Jas. Reid and children and Miss Ida McDonald went down to Okanagan lake Tuesday where they will spend a short time camping in the hopes of benefitting Mrs. Reid's failing health. The men folks accompanied them down just to get the camp established.

Basil Gardom, the well-known provincial police of Enderby, and Miss Helen Nunro were married at Victoria last Sunday. Miss Munro will be remembered as having sung here with Madam Glendenning during the winter. Mr. Gardom's friends in the district extend congratulations.

Mrs. L. B. Stokes, daughter of Mr. and Mrs. C. T. Daykin, arrived Wednesday morning from Estevan, Sask., for a visit with her parents here. She is accompanied by Mrs. (Rev.) A. Cairns, also of Estevan, who came along for a visit with former friends and a look at this part of the Okanagan.

This district has long been noted for its success in the production of garden vegetables and the gardens to be seen here at this time of year are freely remarked upon by visitors from east of the Rockies. Vegetables of all kinds have been shipping through the Farmers' Exchange for several weeks now, and no doubt many tables in the prairie provinces are being supplied with vegetables grown in the Spallumcheen weeks before the home product begins to be fit for use.

The newspaper is for everybody and hence must publish something for everybody. If you see something of little interest to you remember there are others and that the entire paper is not for you. The very little that is dull and uninteresting to you may be the very best thing in the paper for some other reader, and other readers have just as good a right to be pleased as well as you have. There are whole pages in the daily papers that are of no interest to us but they are to others. A paper which contains only such matter as would interest any one or other of us, would have a small number of readers. There are many people of many minds and the paper should have have something for all of them.

Synopsis of Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least a six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by residence upon said land.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land

Six months' notice in writing should be given to the Commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2,000 pounds shall be collected on the gross output

W. W. CORY,
Deputy of Minister of the Interior

Revelstoke Wins Silver Cup.

The members of the Armstrong gun club and their guests enjoyed a very pleasant and successful day's shooting on the occasion of the tournament here on Wednesday of this week. Teams were in attendance from Revelstoke, Enderby and Vernon, each place having sent its best "crack" shots to try conclusions with the keen eyed gunners of our own town. The local shots, however, did not maintain their general averages in the team shoot and lost the silver cup trophy to Revelstoke. The following were the results in the several events, the winner only being named in each case:

Event No. 1—10 Birds, 1st McRae and Wolfenden, divided, 8 birds.

Event No. 2—Team shoot, 4 mem, 24 birds; Revelstoke 76, Armstrong 66, Enderby 61, Vernon 54.

Event No. 3—10 birds, McPherson and McDonald, divided, 9 birds.

Eveni No. 4—Miss and out, McDonald and Vankleek, divided.

Event No. 5—3 pair doubles, McPherson, 4 birds.

Event No. 6—10 birds, McDonald and Shirdy, divided 1st, 10 straight.

Event No. 7—10 birds, McDonald, 10 straight.

Event No. 8—Consolation match 10 birds, Wright, 10 straight.

Shirdy won prize for highest score in team shoot.

A Pleasing Concert.

The Armstrong public, who on previous occasions, have learned to admire the singing of Miss Queenie McCoy were in no way disappointed with her appearance here on Wednesday evening, for if Miss McCoy has sung well on former occasions she did exceptionally so on this occasion, and the hearty applause accorded each of her selections showed the favor with which she is held by her hearers. Miss Maude Underhill, the companion of Miss McCoy, appeared here for the first time on this occasion, but won flattering favor among the audience at once as a talented and pleasing reader and impersonator. The manner in which she could adapt herself readily from the humerous to the pathetic and visa versa in her different selections showed a careful of her natural abilities as an artist in her line.

Financialiy, the concert did not receive the attendance its merits deserved.

Bank Manager in Difficulty.

Miss Emma Cushing, of Montreal, has instituted an action for breach of promise of marriage against K. M. Christie, formerly of the Canadian Bank of Commerce, Montreal, but now stationed at the branch at Penticton. Miss Cushing claims damages to the extent of $32,000. Among the items in the account for damages is one for $15,000 for loss of support for an estimated life time of 25 years; $2,000 for presents, $10,000 for medical attendance as the direct result of his refusal to marry her, and $5,000 for lacerated feelings.

Locals That Get Business

The ADVANCE and the Winnipeg Free Press one year for only $1.75.

On Matters That Interest You

Your local paper is a necessity to you, financially and socially.

But a NEWSPAPER OF GENERAL CIRCULATION, containing the latest news of the world, is equally necessary to you. The "up to date man" will provide himself with these two essential features of progress.

In THE TWICE-A-WEEK SPOKESMAN-REVIEW, Spokane, Wash., will be found the very latest news of the world, its matter including information on politics, commerce, agriculture, mining, literature, as well as the local happenings in the states of Montana, Oregon, Idaho, Washington and the province of British Columbia. In addition, its columns for women, its popular science articles, its short and continued stories, its "Answers to Correspondents" and "Puzzle Problems" combine to form a home newspaper that at $1.00 per year can nowhere be excelled.

ITS ADVERTISING VALUE.

Perhaps you have something to sell—a farm, a team, farm machinery. You may wish to buy something. The best possible way to communicate with people who wish to buy or sell is by inserting a small advertisement in The Spokesman-Review.

Farmers, stockmen, lumbermen and miners take the TWICE-A-WEEK.

If you wish to reach business men and newcomers, use the DAILY or SUNDAY SPOKESMAN-REVIEW.

THE TWICE-A-WEEK RATES ARE

Ten cents per line each insertion. Count six words to a line.

FOR DAILY AND SUNDAY RATE FOR CONSECUTIVE INSERTIONS.

18 Words	1 time	30c
	2 times	45c
	3 times	60c
24 Words	1 time	40c
	2 times	60c
	3 times	80c

THE SUNDAY ALONE

Ten cents per line each insertion. Count six words to a line.

ADDRESS

THE SPOKESMAN-REVIEW,
Spokane, Wash.

Write your adv. plainly, enclosing amount in stamps or money order for number of insertions desired, and state whether you wish adv. inserted in Daily, Sunday or Twice-a-Week.

If you will call and see the

EMPIRE Cream Separator

and note how few parts it has, how perfectly simple it is, how easy it turns, how perfectly it skims, how easily it is kept clean, and how strong and durable it is, you will at once decide it is the separator for you. No separator ever made such rapid strides in popularity as the Empire. The eason is that it satisfies every purchaser.

I ask the privilege of showing it to you.

Progress —AND— Developm'nt

ARE TERMS CLOSELY IDENTIFIED WITH LIFE IN THE WEST.

In this comparatively new country people are working daily for the upbuilding of the town and district, and for the improvement of the condittons under which they are called upon to live. Every act of daily life that tends to bettering one's surroundings makes directly of indirectly for the improvement of society generally. In all this the local newspaper plays an important part. Among its local readers it stimulates an increasing interest in their home surroundings, keeping them posted on local happenings, and becomes a welcome weekly messenger. Among its outside readers it forms a valuable advertising medium, making known the merits, advantages and prospects of the district it represents. In the upbuilding of a town or district the local newspaper is a most important factor.

The Armstrong Advance . . .

Aims to do its full and complete share in the upbuilding and advancement of Armstrong and district. It is the only paper that is owned and published here, hence the only medium devoting its every energy to the interests of the district; it is in no way handicapped by any restraining obligations to any party, clique, creed or corporation, but has a perfectly free hand to at all times promote the interests of the town and community in in which it gains its existence. No efforts are being spared to make the ADVANCE the class of paper the people want—a good live LOCAL paper. Special attention is paid to chronicleing every item of interest to the local resident and to the publication of such articles as will attract the interest of outsiders to our district. With this end in view we aim to have—

A Subscriber in Every Home in the District.

The exceptions of the homes where the paper is not read in this district are now very few, which fact shows that the past efforts of the publisher have not been in vain. In our advertisiug department every effort is put forth to protect the home merchant. Foreign advertising in not solicited, nor will it be accpted from firms who seek to compete with the local business men.

PUBLIC NOTICE.

Land Registry Act.

TAKE NOTICE that on the 23rd day of July, 1906, I will issue a certificate of indefeasible title in the name of Frederick Taylor Jackson of lot 1, block 14, map 408, Town of Armstrong, unless in the meantime a valid objection in writing is made to me by parties having a valid interest in said lot.

Dated the 19th June, 1906.

W. H. EDMONDS,
District Registrar of Titals,
Kamloops.

The party or parties having in their custody or possession conveyance in fee of said lot from Robert Wood to P. Elliott, dated 12th August, 1893, are requested to deliver the same to the undersigned.
