LETTER TO THE EDITOR.

Editor Courtenay Review:—

Sir.— The I. O. D. E. and myself have been accused by Union Bay and Campbell River of stealing 'their day' We did not take the day from anybody. The Royston Fete was first proposed and fully organized by the Patriotic Fund officials, of which Mr. Hicks-Beach was the moving spirit. Later when they were stuck they came to the I. O. D. E. and aasked us to come in and help. We agreed, provided we got half the ceeipts. On account of the day befoe being Sunday it was extemely hard to get everything into smooth running order, but under existing circumstances we did extremely well, and take this opportunity of thanking all these, whether members or oherwise, who assisted in any manner on the grounds.

Yours sincerely

A British Luxury Tax

Following the French example, the British Government is contemplating imposing a special tax on luxuries. To compensate British manufacturers it will place an equivalent duty on similar imported goods. This bit of war finance will be closely watched the world over, since direct taxes on the sale of luxuries are likely to become a common method of raising revenue or of compelling public economy. The French system is unique. It puts a special tax of 10 per cent on the retail price of expensive jewellery, expensive clothing photographic materials, automobiles, art works, game instruments, boats, etc. No matter what the retail price is, the tax applies. In another category is a tax specific, which applies when the retail price is over a certain minimum. For instance, the ten per cent tax applies on women's hats of $8 or over on shoes at more than $8 and $10 (ladies and men's) on men's suits from $37.50 and up, and a hundred and one other articles of common use. The minimum price is selected in such a way as to exempt the working classes from the tax. Those fashionable people who want expensive goods must pay the state an impost on them. It is said that in the application of the tax much revenue is lost by the special effort of the dealer to make a price just under the minimum. There seems to be no doubt of the utility of the scheme as a fixer of maximum prices on goods of general use. The burden of avoiding the tax comes chiefly on the manufacturer and dealer. If the British government begins such a discrimination against the wealthy purchasers of high priced goods, there will be a big commotion in the big trade circles affected.

The Trail News in commenting upon the process of the part of the Oliver government for firing every Conservative in office and supplanting him with a Liberal and after this was done, to put the civil service law into effect, says that the present government in view of its promises to the people have not played the game.

Prince Arthur of Connaught, son of the Duke of Connaught, will be in Vancouver en route from Japan to Britain toward the end of July or the beginning of August. His itinerary will bring him via San Francisco and Victoria, where he will make short stops. The prince has been serving and is still nominally on the strength of the Canadian corps. Latterly he has been on a diplomatic mission to Japan.

PUBLIC NOTICE

Military Service Act, 1917.

Men 19 and 20 Years of Age.
Harvest Leave.
Leave of Absence on Ground of Extreme Hardship.
Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

DEPARTMENT OF JUSTICE.

Island Development

Another movement has been launched for the purpose of securing unity of action among the various communities on the Island in building up the industries of Vancouver Island and developing it's resources. The movement had its origin in Victoria, just as the Island Development League and other Island Associations came from the Capital City. It is to be hoped that this latest amalgamation of the various Boards of Trade on the Island will prove a more stable institution and accomplish more for the Island than it's predecessors along this line. It has probably been started on a sounder basis, and with the machinery of the various boards of trade to work with, should easily succeed in getting united action in the development of the Island's resources.—Nanaimo Herald

Some Thoughts on Thinking

Thinking was invented by Socrates, whom Francis Galton calls the greatest genius in history. Before Socrates, the head of man was very largely the loafing place for hair, observes the Grasshopper. Now it is a perfect hotbed of ideas and the blank look of a man who isn't thinking of a thing is so rare that one almost never sees it. Loose thinking, which prevailed for centuries before Socrates, was getting man nowheres. Socrates sow that and submitted for it hard thinking which may be said to have done fhe business. Like everything else new, thinking was regarded with alarm, and Socrates was put to death for it. Nevertheless there were men who liked it, and though it was a good thing. They kept on thinking, and twenty-four hundred years affer Socrates first put two and two together we find ourselves enjoying the fruit of human thought to such an extent that men get rid of the hair on their heads as quickly as they can and devote themselves exclusiyely to thought. If there were hair restorers we wouldn't use them. Heads are much too valuable for waste products.

The rain which commenced to fall on Tuesday afternoon was welcomed by a host of fire fighters. By Wednesday morning sufficient had fallen to check the fire at all points and wherever a blaze is left it is now possible to put it out or keep it under control. Last week the Camp 2 got beyond control and was completely wiped out. The Logging Co. lost largely in equipment and tools, the majority of the men saved their effects however. The Company decided to discontinue operation until danger from fire was past, and on Wednesday morning re-opened one Camp. The loss was about $10,000.

The International Logging Co. at Campbell River was a heavy loser in the fires which were raging there last week. Hundreds of thousands of feet of timber which had been cut and piled up all ready for taking away was destroyed. Two locomotives and several donkeys are also reported to have been lost, aggregating about $50,000. Disastrous fires were also raging at Powell River.

Canadian Vs. German Losses

During the past four years according to official German estimates, the fire losses in the public forests have been exceedingly small. Prior to 1914, the total fire destruction on over a million acres of German forests was below one thousand dollars a year. Other German foeest areas suffeed even less harm.

In Canada, however, the country's commercial strength has been steadily weakened by devastating forest fires that devour each year a several million dollars worth of property and many human lives. Most of these forest fires were started by carelessness that borders on criminality. One of the least condolable causes is the unextinguished camp fire, left by camping parties. In 1917 and 1918 a full dozen of the worst forest fires in the Dominion have been due to camp fires and lighted cigarettes and matches. No camp fire ought to be built anywhere except on rocks or gravel, and should be entirely extinguished.

The careless camper in Canada is doing this year what the Kaiser would gladly pay his bombers and propagandists to accomplish.

"What is that dog's name?"

"Same as mine," said Mr. Erastus Pinkley. "It's mo' convenient. When my wife comes to de back do' an' hollers 'Rastus!' I kin use de dog foh an alibi,"—Washington Star.

Different Kinds of Heat

Your furnace should not only give you plenty of heat, but the right quality of heat.

Some houses would be better without any heat than the kind their furnaces give them.

If you study the Sunshine Furnace you will know what the right kind of heat is and how to get it.

THURSDAY JULY 18, 1918

The returned soldier who gave the party such a trouncing in Victoria at the recent bye-election, Frank Gilloma formerly resided in the Comox Valley and still owns lnd near Headquarters. The government has sustaianed only the first of many shocks that will be forthcoming at his his hands, and in him not only the veterans themselves but the people of B. C., will have a fearless and uncompromising advocate. The people have only lost heavily through partizan government and the time has come for better methods. The new member is the apostle of the new order of things, and the number and quality of his supporers at the election testified to the widespread revolt against any more party politics

Now that the Capital City has returned the first soldier member to power, it is worth while considering whether Comox cannot follow the example. The returned men are strong here already, and are growing more so week by week. The trenches have made them think more deeply and there are many of us who are ready to back an able veteran as candidate. We hope that Mr. Gilolma will come up this way and address a few meetings on the subject of the returned men generally.

With the approach of the fruit preserving season we advise our readers to make full use of the wild blackberry that is to be had in our district for the trouble of gathering. All fruit will be dear this year and scarce at that, whereas the blackberry crop promises to be a good one. We should like to see our folks going out by the hundred and coming in with gallons of berries while they last. The logged off lands in our vicinity are ideal berry-patches, and no one need travel many miles to secure a goodly reawrd It all helps o increase Canada's food supply, and there are many in authority who assure us even today that we shall soon be on he card rationing system. Let us then gather in the blackberries from the time they are ready until the last one ripens.

The recent forest fires in our neighborhood have caused such widespread damage that several enquiries assert themselves. It is naturally asked what was the cause or causes of these outbreaks. As a rule they are ascribed to sparks from he logging company's engines, although he law calls for proper precautions to be taken in this regard, and as logs are worth high money to day it is not to be expected that such precautions would have been deliberately neglected. It is also unlikely that any burning was being done under permit, as no fire ranger would issue one a such a dangerous period, and therefore this possibility can be dismissed. The third reason, and the only one remaining is that the fires were deliberately started, probably by alien and enemy agens. This has already been proved in the case of fires both in B. C. and in he States. Butt whatever the cause orcauses we hope that the authorities will in due course make the same public. Our timber cannot be replaced for centuries, labour to fight forest fires is wanted too badly elsewhere, and crops suffer, while the people have o endure not only discomfort but also much risk to life an property. More efficient protection against such fires should be forthcoming, in order to guard aganinst what has come to be an annual event.

DOCUMENTS TO BE CARRIED

by every male person who is not on active service in any of His Majesty's Naval or Military Forces, or in the Naval or Military Forces of any of His Majesty's Allies, and who apparently may be, or is reasonably suspected to be, within the description of **Class One** under the Military Service Act, 1917, who for any reason may have claimed that he is not within **Class One** under the Act.

NOTICE is hereby given that, under the provisions of an Order in Council (P.C. 1013), of the 20th April, 1918, upon and after the 1st day of June, 1918, every male person who is not on active service in any of His Majesty's Naval or Military Forces, or in the Naval or Military Forces of His Majesty's Allies, and who apparently may be, or is reasonably suspected to be, within the description of Class One under the Military Service Act, 1917, by whom or on whose behalf, it is at any time affirmed, claimed or alleged that he is not, whether by reason of age, status, nationality, exception, or otherwise, within Class One under the Military Service Act, 1917, as defined for the time being or that, although within the said Class, he is exempted from or not liable to military service; shall have with him upon his person at all times or in or upon any building or premises where he at any time is,

AGE

If it be claimed that he is not within the class by reason of age, an official certificate of the date of his birth, or a certificate of his age signed by two reputable citizens residing in the community in which he lives and having knowledge of the fact; or

MARRIAGE

If it be claimed that he is not within the Class by reason of marriage, a certificate, either official or signed by two reputable citizens residing in the community in which he lives and having knowledge of the facts, certifying to his marriage and that his wife is living; or

NATIONALITY

If it be claimed that he is not within the Class by reason of his nationality, a certificate of his nationality signed by a Consul or Vice-Consul of the foreign State or Country to which he claims his allegiance is due; or a passport issued by the Government of that Country establishing his nationality; or

ACTIVE SERVICE

If it be claimed that he is excepted as a member of any of His Majesty's Forces or as having since the 4th August, 1914, served in the Military or Naval Forces of Great Britain or her Allies in any theatre of actual war and has been honourably discharged therefrom, official documents or an official certificate evidencing the fact; or

CLERGY

If it be claimed that he is excepted as a member of the clergy, or of any recognized order of an exclusively religious character, or is a minister of a religious denomination existing in Canada on 29th August, 1917, or as being a member of any other society or body, a certificate of the fact signed by an office-holder competent so to certify under the regulations of the church, order or denomination, society or body, to which he belongs; or

EXEMPTION

If it be claimed that he is exempted from or not liable to military service by reason of any exemption granted or claimed or application pending under the Military Service Act, 1917, or the regulations thereunder, his exemption papers, or a certificate of the Registrar or Deputy Registrar of the district to which he belongs evidencing the fact; or

OTHER CLASS

If it be claimed that he is not within the Class, or that he is exempted, not liable or excepted upon any other ground, a certificate of two reputable citizens residing in the community where he lives having knowledge of the fact upon which the claim is founded and certifying thereto;

FAILURE TO CARRY REQUISITE EVIDENCE

If upon or after the 1st day of June, 1918, any such male person be found without the requisite evidence or certificate upon his person or in or upon the building or premises in which he is, he shall thereupon be presumed to be a person at the time liable for military service and to be a deserter or defaulter without leave;

PENALTY

And he shall also be liable upon summary conviction to a fine not exceeding $50 or to imprisonment for a period not exceeding one month, or to both such fine and imprisonment; and moreover, any such person may forthwith be taken into military custody and may be there detained and required to perform military duty in the Canadian Expeditionary Force so long as his services shall be required, unless or until the fact be established to the satisfaction of competent authority that he is not liable for military duty.

FALSE CERTIFICATE

The use, signing or giving of any such certificate as hereinbefore mentioned shall, if the certificate be in any material respect false or misleading to the knowledge of the person using, signing, or giving the same, be an offence, punishable, upon summary conviction, by a penalty not exceeding five hundred dollars, and by imprisonment for any term not exceeding six months and not less than one month.

CUMBERLAND

Mount Horeb L. O. L. of Cumberland celebrated the evening of the Glorious Twelfth by holding a social evening at which refreshments were served by the young ladies while the program was going on. There were visitors present from Courtenay, Union Bay and Denman and Hornby islands. After the lodge had been transacted, the master acted as chairman while the following programme was carried through:

Solo ....Bro Edwards
Bro. Sam Calhoun gave an interesting address on the ins and objects of the Order from the time of its inception to the present day.
Song ....Bro. Horwood
He was followed by Rev. Mr. Knox of the Methodist Church.
One of those interesting events which occur regularly in well organized lodges was a presentation of a past master's jewel to Bro. McLeod, who had filled the important post of master during two years of very trying times when many members were called to the colors. He feelingly replied.
Selection ....Bro cGee
honor of Bro. J. Bannerman's newly-
A sextette then rendered a song in
born son.
Song ....Bro. Waterford
Duet ...Bros. Edwards and Robertson
Bros. Willard, McLaren, Boden and Leighton were called on for a few remarks. The evening was brought to a close with songs by Bros. Horwood and McGee.

Let All Join in the Chorus.

"If you see an editor who pleases everybody, there will be a glass plate over his face and he will not be standing up."—Omaha Bee.

As Promised.

"See here," complained the man as he walked up to the proprietor of the clothing store. "I have only had this suit two weeks and it looks rusty already."

"Well," said the proprietor, did the sales man guarantee the suit?"

"He did" replied the man. "He said it would wear like iron."

"Well," replied the proprietor, "it did, didn't it?"—Cincinnati Enquirer.

The loafers and merely nominal workers of the North American cantinent have fallen upon evil Both in Canada and the United Stateo, the law has now set it's face severely against them. On July 1st the United States Federal ordee, as drawn up by Provost Marshall Enoch Crowder, went into effect, All men of draft age, that is between the ages of eighteen and fifty have now to be engaged in some productive employment or get into the army. This Federal Order is being re-enforced by anti loafing laws, enacted by the state legislature.

In Canada the most essential industry at the present time is agriculture. Food production is a necessity of the summer of 1918 and the saving of the harvest is the necessity of the present moment. More than 65,000 able-bodied men in addition to tne men already employed on the land, such as the Soldiers of the soil and the boys and women of other organizations, will be needed to save the crops this season. There is no room for loafers; no time for idlers and there should be no mercy for tramps and mere pool room sports.

Canada's new wheat crop will not reach the consuming public as flour foe three months at least and in the meantime this country will be very short of wheat flour. We have—as has also the United States shipped as much wheat as possible to the Allies, giving shem a considerable share of our own normal supply to help carry them over until the new harvest has come and the corner has been turned, The use of substitutes, therefore, becomes an imperative necessity in this country and our people should familiaize themselves with methods successfully used in baking these substitute flours.

A Wart Superstition.

Boys in the west of England believe that by squeezing a mole to death between the hands and touching the affected parts with the blood that oozes from the mouth of the dying animal warts will disappear and will not reappear. The culprits are convinced that moles, worms and other subterranean dwellers have no feelings, and therefore it is not cruelty to put them to death in this way.

Scarcity of English Humor.

It is to be feared that if the papers reserved a special corner once each week for the witticism of the week it would be often left blank. There is no wit to speak of today, only a feeble imitation of it which people are fond of calling the saving sense of humor.—London Saturday Review.

City Council.

The regular meeting of the City Council was held on Monday night. Those present were: His Worship Mayor Duncan and Ald. Aston, Kerton, Loggie Idiens and Leighton.

A report was received from the Medica Heath officer.

Upon motion of Alderman Kerton, seconded by Ald. Aston it was decided to hold a tax sale of all lands in arrears for 1915 and 1916 taxes. The Sale will be held on September 11th. Soldiers property will be exempt from sale

The City clerk was instructed to take egal proceedings to collect the arrears of school taxes for he years 1915 1916, and 1917 due from those living outside the city limits

On moton of Ald. Kerton, seconded by Ald. Loggie, interest on taxes owing by soldiers on active service will be rebated.

A building by-law was given its first and second reading. It provides for the protection of buildings already erected, and aims to do away with pipe chimneys. No new buildings can be erected without permission from the council, to whom plans and specifications must be submitted.

Bert Whittle, who is moving Mrs. Fechner's cottage to the ranch, asked that some stumps and poles on Isabel street be removed so tha the building which is 33 feet wide could pass. The Board of Works was given power to act in the matter.

H Stewart M. L. A. will be asked about the new steel bridge across the Courtenay river which was promised by the governmen this year.

Ald. Idiens enquired if anything further had been done about a watr supply. Application haas been made for a record on Urquhart's springs.

Th city electrician ha ordered some more material for city ligts, but nothing has ben done yet in the matter of extnding the sys em to Comox.

Ald Loggie had head that the farmers of Happy Valley intended holding an indignation meeting to protest against the city taking water from these springs which supply the creeks that water their farms, and thought the city should send a representative to explain th mater.

There are few of us who do not think that we could not give the Canada Food Board some valuable pointers. Among one group of men can have a monopoly of wisdom, perhaps we could. But the Food has the information which we have not and which they are not at liberty to share with us. The situation is serious, and this is no time to rock the boat. Follow directions. —"Rationer" in Regina Leader.

Parkin Bros.

On the 1st of July the Canada Food Board Order became efftctive requiring all public bakeries and private households also to use 10 per cent. sub titute flour. On the 15th of July this percentage is to be increased to 20 per cent in all of Canada east of Port Arthur. The question then will arise in each housekeepers mind, what are sub ttitutes for wheat flour, where can shey be hak and how are they to be used? Substitutes, as defined by the new law tnclude bran, corn flour, bran, corn meal, edible corn starch, hominy, corn grits, barley flour, rolled oats, oat meal, rice, rice flour, buckwheat flour, potato flour, tapioca flour, and rye meal, Potatoes are also classed as a substitnte for wheat flour, in proportion of four pounds of potatoes to one of the othee substitutes mentioned, on account of the higher percentage of water in potatoes. A large numer of millers are ready with these different flours, and as soon as the public demand calls for then they will be distributed throughout the trade, and are now procurrble by dealers.
