SEEK POWER TO ERECT $75,000 SWIMMING BATHS

VICTORIA—The Hon. W. J. Bowser, in the unavoidable absence of Sir Richard McBride, presided at a meeting of the executive Friday morning, when a hearing was given the representations made by a large delegation of citizens who urged that the Government agree to an amendment to the Muncipal Clauses Act to place before the people a by-law providing for an expenditure on the erection and maintenance of public swimming baths. It was stated that it had been estimated that the cost of the installation of the proposed baths would be in the neighborhood of $75,000. There were special reasons why this was a favorable time to proceed with the enterprise, in view of the fact that both lumber and other material and labor could be obtained at lower figures than would be the case under normal conditions.

Mr. Bowser and colleagues who were present, the Hon. W. R. Ross and the Hon. Thomas Taylor, gave the deputation a sympathetic hearing, and it was promised that a decision would be reached at the earliest possible date and communicated to the committee.

COUNCIL REFUSES TO APPROVE DEPOT PLANS

At a special meeting held Friday the city council refused to approve of the depot plans of the Great Northern Railway, because the railway had refused to give an estimate of the cost of the structure. The meeting was held to consider a recommendation of the bridges and railways committee to approve the plans on condition that they proved satisfactory to the Board of Railway Commissioners and provided the Great Northern agreement with the city should be carried out. The railway board has already ordered the railway to commence construction by December 1, now a little over a fortnight away. It was finally decided to hold a special meeting on Monday evening to secure more information, if possible, from the representatives of the Great Northern Railway.

COMPANIES INCORPORATED DURING THE PAST WEEK

VICTORIA—The industrial and commercial concerns which have been granted charters during the past week are all located in Vancouver, and the names and capital in each case are as follows:

British Columbia, Alberta and Northern Development Company, Limited, $10,000; Canada Nut Company, Limited, $60,000; Mac and Mac Cedar Company, Limited; $20,000; Metal Corroders, Limited, $300,000; Pioneer Gold Mines, Limited, $1,000,000; Pumps and Power, Limited, $10,000; Tai Hon Kong Bo, Limited $5,000.

The Vancouver Trust Company has been incorporated under the Trust Company act of the province. The Michigan Trust Company, licensed in the province, is allowed to add to its powers that of acting as guardian for minors and lunatics.

PRICE OF STEEL FIXED.

OTTAWA—It is announced that the munitions committee has fixed the price of steel for ammunition to be made in Canada. It must not exceed 3 1-2 cents a pound, including forgings. American steel plants will not take orders from Canada for the present, as they are overbooked.

VANCOUVER BUILDING PERMITS

Only Permits amounting to less than $500 will be found under this head.

7880—Van. Engineering Works, 519 6th Ave. W., 1 sto. fr. bldg. Contr. W. Jeans & Sons, $250.

TENDERS RECEIVED FOR UPPER HARBOR WORK

VICTORIA—Tenders for the work of dredging and piling the upper harbor at the point where the syphon for the northwest sewer system will be laid under the water were before the City Council last week and were referred to the sewers committee and City Engineer. But two tenders were received. Watson & Hall offered to supply and drive the piles at $12.50 per pile, and dredge at the rate of seventy-five cents per cubic yard up to 800 yards and sixty-five cents for yardage in excess thereof; W. J. Cox bid $20 per pile and $2.50 per cubic yard for dredging with $15 per yard for rock. The time for receiving bids for sewer pumps and piling and dredging required to be installed at the Cecilia Street tank was extended until the 29th inst.

TO SUBMIT SEWERAGE PLANS TO BOARD OF WORKS

Plans for a trunk sewer along the south side of False Creek from Brewery Creek to the China Creek trunk at Seventh avenue and Keith Drive, have been received by Engineer A. D. Creer of the sewerage board from the city engineer's department for approval and will probably be submitted to the board of works on Tuesday.

The scheme of Mr. R. S. Lea for the drainage of the district provided for the part of Ward Five, east of Main street and south to Broadway towards Bridge street, and ultimately sewerage from this district would be carried out to Point Grey by an interceptor. Owing to the construction of the seawall and the other reclamation operations in False Creek, the diversion of Brewery Creek has become imperative.

GRANDVIEW IRON WORKS DESTROYED BY FIRE

Fire has totally destroyed the Grandview Ironworks, owned by B. Boardman and situated at 1530 Venables Street. The building, a one-storey structure, was insured for $1,500 and the loss will not exceed $3,000. The cause of the fire is unknown.

THOUSAND DOLLAR FIRE.

About $1,000 damage has been done by fire which broke out in the boiler room of Chew's mill, Sixth avenue and Laurel street, when the engine room caught fire after shavings had been set ablaze from a spark from the furnace.

HAS NOT LET CONTRACT.

The Shell Oil Co has not awarded the contract for the improvement work which will be done by the company near Barnett. It is expected however that the award will be made this week.

The above also applies to the Great Northern Railway's piling work, tenders for which have been in for some time.

REBUILDING FACTORY.

REVELSTOKE—O. W. Abrahamson is rebuilding the Revelstoke Sash and Door factory on Third street, which was destroyed by fire a fortnight ago.

CONGOLEUM
Floor Coverings
If you have Congoleum on your floors, you can run a mop over them and they will be cleaner than any swept floor. Congoleum is waterproof right through—water cannot injure it. Compared with printed linoleum, Congoleum is more durable, more attractive, more waterproof, yet the price is less. Congoleum requires no fastening—any one can lay it—it won't curl up.
Congoleum Rug Borders, laid next to a rug or carpet, give the actual appearance of polished oak.

GETTING ON THE MAP.

In an address to the members of the Chicago Garment Manufacturers' association—representing an annual business of $20,000,000—President Joseph L. Eisendrath recently heralded 1915 as the most prosperous period that the industry had ever faced. He urged his fellow manufacturers to advertise. Advertise, and then ADVERTISE some more.

"Don't forget that it is your advertising man who puts you on the map. Unless you want to fail, don't listen to any backwoodsman who tells you that it doesn't pay to advertise. It DOES pay to advertise, and the men who are successful today are the men who realize this fact and practice it.

"Your advertising man is a great factor in putting you on the map.

"It's a good system to keep telling people about your goods, whether they are buying them at the time or not. It is even true that they may not buy them tomorraw, but they are going to buy them ULTIMATELY.

"Cease to advertise and you'll be forgotten."

"Keep up your advertising constantly and consistently. Do not give a big splash, followed by a whole lot of silence.

"Advertising is salesmanship. You send out salesmen in a new territory and you find that they have to do a deal of missionary work before the territory becomes profitable. It's something like that in starting advertising. But use of advertising as an advance agent breaks the ground for the salesman in these days of successful and profitable business.

"Make the public want your goods."
