April 27 1907

Dear Mr Sandin:

At last I have received the receipt - nearly four weeks since I sent draft - was just about to have the R. O. send a tracer as I did last time as I felt sure it must be lost but the enclosed letter explains. The receipt covers the $8 you sent and my last check for $7.

I have made all my plans

this altitude for a year
and I have thought
I would go to the coast
to sea level and try
and get some lighter
work for a year - but
everything is so uncertain
and there is so much
war excitement - men
of course are enlisting
and will be sent over
seas as soon as they
are ready I hope they

to take my class to dinner to morrow but it is now eleven p. m. and just pouring so think we'll have to change our plans. (my ink is bad and it is too late to try to get something better.)

This is our rushing time getting toward the end of the year. The Doctor has been urging me for some time to take a leave of absence and get out of

and the women are workin
many are taking Red Cross
nursing - I have done a
little Red Cross work but
my time is so occupied
could not take any of the
hospital courses - Conditions
are so changed that I feel
it is not a good time to
make a change yet I believe
the Doctor is right about it
We are having such a late
cold spring - Every foot of land
is being planted - all vacant lots
in towns & cities - as well as all
unused land in the country
Hope you are well - so write me soon

Lucinda
