DAILY BRITISH COLUMBIAN.

VOLUME 1 — NEW WESTMINSTER, B. C., WEDNESDAY EVENING, SEPTEMBER 15, 1886. — NUMBER 40

Daily British Columbian

Wednesday Evening, Sept. 15, 1886.

Two hundred anarchists met in Cleveland on Sunday night to talk of blood and dynamite. One of the speakers, Saam, said that if the seven convicted anarchists in Chicago were hung, 700,000 avengers would arise from their blood. A collection was taken up, the object being to assist the Chicago murderers in obtaining a new trial. The amount realized from these two hundred men was $10.69, a trifle over five cents per man. The prospects of provisioning a force of 700,000 men on these figures are certainly not very bright.—*Winnipeg Sun.*

To narrow, bitter spirits and fanatical partizans, the battles of politics may be a necessary excitement, but the chief interest the people have is that they should be governed well. We repeat we are sorry that men, animated by motives the reverse of creditable, should, at a time like this, when we ought to be thinking of the settler, driven in many instances to his wits' ends, have thought fit to adopt measures which will tend to dissipate in barren controversies some of the force which should be used to aid the farmer and push forward the country. We say "*tend* to dissipate," because we are determined to pursue the same course of loyalty to the material and moral interests of the people.—*Regina Leader.*

The prospects of the woman suffragists are looking brighter of late. The English Woman's Suffrage Society had its annual meeting in London the other day, and everybody was in high spirits. Since the last great extension of the suffrage in England, it is argued, the ground has been cut away from under the feet of their opponents; it is absurd to talk about the "unfitness" of women for political privileges when an act of parliament has made a capable citizen of practically every adult male person. That women understand politics, and are a good deal interested in them, they have shown very convincingly at the last and the present general election. And, best of all, a majority of the Conservatives and Gladstonian Liberals elected to the new house are said to be in favor of the suffrage for women.—*The Week.*

Fruit is highly charged with an imponderable element, electricity, the active life principle we all possess in a relative degree. Now cook this fruit, and what becomes of this evanescent element? It has dissipated—vanished from the scene, together with much of its delicious odor, and has left us nothing but dead matter. Now it ought to be evident to the merest tyro that, in eating ripe fruit, he is adding to the sum of his own vitality—increasing the fund of his energy without deteriorating his physical powers. On the contrary, by subsisting on dead matter, he subtracts—uses up his own supply of the vital element to get rid of the inert mass he ignorantly puts into his stomach. It is nevertheless a fact that fresh fruit, as used in Canada, is rarely to be found on the tables of the mass of the people of Great Britain. They seem to prefer preserves.—*London Echo.*

Our American neighbors feel deeply grieved that bad, bad Canadians should pretend to have a right to capture seals in the open sea one hundred and twenty-five miles or more from the Atlantic coast. The seals, says brother Jonathan, are killed on their way to the grounds leased by the Alaska Fur Company; that's where they are born; clearly they are American property wherever found, and it's not to be endured that foreigners shall waylay the animals on their travels! There are grand opportunities for Canada in this doctrine, which applies, of course, to all migrants. The Dominion must proceed to seize all foreign vessels found catching cod or any other fish in the open sea, for it is as certain that they are all bred in Canadian waters as that seals are all born in Alaska. Americans must also take mighty good care that they don't shoot any of our wild ducks or geese on their way home from the south. We have an excellent claim against them for the value of the buffaloes that they formerly destroyed south of latitude forty-nine, and as buffalo robes are high-priced now, this will be a pretty penny into the Dominion treasury. By what right have New Bedford men harpooned our whales for ever so many years back? There is a good deal of money for Canada in this new American doctrine, and it is to be hoped that the Ottawa government will wake up to the thing.—*Globe.*

SUN LIFE Assurance Company OF CANADA.
Business of 1885.—Life Department.
Income, $319,987.05; Increase, $41,007.40.
Assets, $1,411,004.33; Increase, $130,007.09.
New Life Applications, $2,608,071.48; Increase, $707,229.30.
Life Policies in force, $7,930,878.77; Increase, $1,080,474.73.
ACCIDENT DEPARTMENT.
By introducing its popular Unconditional Life Policy the SUN showed itself one of the most liberal institutions of its kind in the world. It maintains this reputation by following the same course in its Accident Department. It offers to the public incomparably
The Most Liberal, Straightforward, Untechnical Accident Policy in Existence.
The following are a few of the points of superiority:
FIFTEEN DAYS OF GRACE are allowed. (See condition 1). No other Company in America allows one hour.
BONUS—Should no claim be made for five years, the sixth year's assurance will be allowed free of charge, if the age is under 65. (See condition 2). Very few other Companies give this privilege.
POLICIES NOT VOIDED by engaging in a more hazardous occupation than that assured against. For particulars see Policy. This advantage can be obtained hardly anywhere else.
RESIDENCE—More liberal conditions than given by any other Company in America.
R. MACAULAY, Managing Director. THOMAS WORKMAN, President.
A. E. IMRIE, General Agent, Victoria, B. C.
JOHN O. McLEOD, Agent,
jly28tc New Westminster, B. C.

NEW ADVERTISEMENTS THIS DAY.

To Builders.....J. M. Cowper

Daily British Columbian

Wednesday Evening, Sept. 15, 1886.

From all appearances the Bulgarian fracas does not seem likely to yield many Russian plums after all. If it be true that the powers, including Germany and Austria, have agreed that Russia shall not interfere in Bulgarian affairs, and that the people shall be left free to select their own ruler, one cannot perceive wherein Russia has gained any advantage. The interference of her representatives in securing the abdication of Prince Alexander has alienated the friendship of Bulgaria and made less her chances of capturing that principality. It may turn out that Russia has made a great blunder after all.

Our local cotemporary this morning returns to the declaration that the extension of the Canadian Pacific Railway from this city to Vancouver would be fatal to the city's interests. On the contrary, we are of opinion that it would materially advance these interests. If there is to be no railway connection with Vancouver at all, of course it would be better for us to have the road terminate here. But the road will unquestionably extend to Vancouver, either along the inlet or through this city, and it would certainly be better for us to have the extension made this way. Our cotemporary views the whole scheme through a false light, and necessarily reaches a wrong conclusion.

We are glad the license court has refused to grant the applications made this morning for two new liquor licenses in the city. It is to be hoped the board will adhere firmly to its attitude, and grant no more licenses. In this city of not much more than 3,000 white inhabitants there are now 20 liquor licenses, and most of the places holding these licenses are not places for public accommodation but merely saloons. If the hotel accommodation is not sufficient, those who have authority to do so should insist that every license holder furnishes a reasonable amount of lodging accommodation for travellers, and the want would be easily supplied. *What we want is hotels and not* saloons.

The Regina *Leader* of a late date says: "We see a rumor that liquor is about to be admitted into the Territories as into Manitoba. We do not believe there is a word of truth in this, for the government is convinced that prohibition has been beneficent. Such a step would be most undesirable. Let men recall what they saw in districts in Manitoba *in the days prior to free trade* in liquor and what these districts afterwards became. Even now whenever disturbances take place in the Northwest they are traceable to liquor and are generally caused by those who introduce it contraband. If the Northwest were polled to-morrow she would vote for the continued exclusion of liquor. Certainly no change should be made until the people have an opportunity of saying whether or not they wish the traffic in liquor introduced."

Eastern papers published on the eve of the Haldimand election, and on the day after the result became known, are now reaching us; and they bear additional evidence of the bitterness of the contest. The Conservatives were extremely foolish, it seems to us, to give such prominence to a by-election the result of which must have been at least doubtful. They sent a number of their great political leaders to stump the riding, and even Sir John himself was hurried into the battle. The result is, of course, a serious blow to them and a cause of extraordinary rejoicing among their political opponents. The *Globe* flings its editorial bonnet into the air and declares that "Seven years of rioutous misgovernment and plundering cannot be forgiven because one lunatic rebel has been hanged!" The majority for the Reform candidate is now stated to be 194. At last election the Reform majority was 126.

From the preparations that are going on in Europe one may surmise that the agitation consequent upon the Bulgarian fiasco is not yet subsided. One of the immediate effects of that affair must be mistrust not only of Russia but of Germany and Austria as well. It was supposed that Germany and Austria would have been very quick to resent even the appearance of Russian intrigue in the Balkans; but when Prince Alexander was driven from the country, manifestly through the active influence of Russian agents, these two countries coolly announced that it was a matter that might seriously concern Great Britain, but it was none of their funeral! The situation developed itself into this, that if any hostile demonstration was to be made, it would have to be made by Britain alone, without assistance from any *other quarter*. The preparations now going on in the east may be undertaken on the supposition that sooner or later Britain will be forced to oppose single handed the selfish designs of Russia in the east, and that she may as well prepare now for the inevitable.

Beautiful photographic panoramic views in British Columbia, 75 cts. per set at T. R. Pearson & Co.'s.

TO BUILDERS.

TENDERS WILL BE RECEIVED BY the undersigned up to SATURDAY, 18th inst., for the erection of a frame dwelling on Royal Avenue.

DETACHED DWELLINGS, ¾ per cent.

HENRY V. EDMONDS,
ds10tc **AGENT.**

COSTIVENESS

affects seriously all the digestive and assimilative organs, including **the Kidneys.** When these organs are so affected, they fail to extract from the blood the uric acid, which, carried through the circulation, causes **Rheumatism** and **Neuralgia.**

The functions of the Liver are also affected by costiveness, causing

Bilious Disorders.

Among the warning symptoms of Biliousness are Nausea, Dizziness, Headache, Weakness, Fever, Dimness of Vision, Yellowness of Skin, Pains in the Side, Back and Shoulders, Foul Mouth, Furred Tongue, Irregularity in the action of the Bowels, Vomiting, etc.

The Stomach suffers when the bowels are constipated, and Indigestion or

Dyspepsia,

follows. Fetid Breath, Gastric Pains, Headache, Acidity of the Stomach, Waterbrash, Nervousness, and Depression, are all evidences of the presence of this distressing malady. **A Sure Relief** for irregularities of the Stomach and all consequent diseases, will be found in the use of

AYER'S PILLS.

They stimulate the stomach, free the bowels, healthfully invigorate the torpid liver and kidneys, and by their cleansing, healing and tonic properties, strengthen and purify the whole system, and restore it to a salutary and normal condition.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists.

1873. **GRIP!** 1886.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1886.

THE AIM OF "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—*though the latter is equal to that of any* similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons *will certainly not suffer from extensive* improvements in the artistic department.

The price of *Grip* will hereafter be $1a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $3 a Year, Postage Free.

Address the Grip Printing and Publishing Company, 26 and 28 Front Street, West, Toronto; or leave your order with your bookseller or other local agent. fe14

Public Notice

New Westminster Public Library.

THE UNDERSIGNED (THANKS TO the kindness and permission of the Mayor and City Council) two weeks ago re-opened the Public Library, and takes this opportunity to offer an invitation to residents of New Westminster to pay him a visit. Papers and Magazines from all directions are received for patrons and visitors, and more will be added in case a *reasonable support is obtained. The* terms are 50 cents a month, *in advance*, as papers, &c., are paid for in advance. This will amount to about 2 cents a day, or the cost of *one* cigar for seven days permission to see news from all over the world, and elegant books which may be changed every 24 hours! There is no compulsion about this, but those who believe in getting in out of the rain and who can enjoy a decent fire will doubtless appreciate this institution. Ladies and strangers are free, so doubtless all the parties who believe in Blue Ribbon will come forward at once and join this attractive affair, both for *their own credit and that of others. Come* one, come all, and you will be attended to by one who can soap all classes, viz.:

Yours Respectfully,
HENRY W. HUGHES.
New West., Aug. 20, 1886. dau28te

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

VICTOR PERPETUAL

Hay Bailing Press!

REID & CURRIE

—OF THE—

PACIFIC CARRIAGE WORKS

HAVE PURCHASED THE SOLE right to manufacture these celebrated Hay Bailing Presses in the Province of British Columbia, and are now manufacturing them at their manufactory, Columbia St., New Westminster. Farmers and others interested are advised to call and see these presses before purchasing elsewhere. They have no equal for economy, simplicity and efficiency.

With this Press there is no climbing up and tramping in the hay and climbing down again and pulling out the bale, as with the old-style presses. Everything is done on the level ground. You don't stop the team to tie the bale. The bale is discharged automatically, and moves itself on to a platform scale to be weighed and tagged.

It is the cheapest Press, besides being the best; so every farmer can afford to have one of his own, and it will save him its worth in one season by reducing the high rates of freight to a minimum, and by avoiding loss of time and vexation when you want to be bailing hay.

REID & CURRIE.

JNO. REID. WM. CURRIE.

PACIFIC CARRIAGE WORKS

COLUMBIA STREET,

New Westminster, B. C.

REID & CURRIE,

HAVING PURCHASED the Blacksmithing business lately carried on by W. R. Lewis, and the Pacific Carriage Works, carried on by Johnstone & Smith, we are prepared to manufacture all kinds of

Farm Wagons, Carriages, Phaetons, Buggies, Express Wagons, Drays, Carts, Stages,

And everything in the vehicle line on the shortest notice and at reasonable prices.

We also keep in stock the above articles, and all kinds of Wagon and Carriage Material.

Repairing, Painting & Trimming done at reasonable prices.

BLACKSMITHING

In all its branches. Farmers', Loggers', Mill and Contract Work, and Horseshoeing undertaken; Agricultural Implements, and everything in the blacksmith line made to order.

We also keep in stock to supply the trade,—Iron, Steel, Cumberland Coal, Chain, Horse and Ox Shoes, Steel and Iron Harrow Teeth, Harrows, Springs, Axles, and a complete stock of Carriage Hardware.

Having secured first-class workmen, we feel confident of giving satisfaction.

All material and work leaving the shop will be guaranteed first-class. Orders from the country promptly attended to.

mh3tc REID & CURRIE.

HARDWARE

T. J. TRAPP & CO.

HAVING PURchased the stock of **Hardware, Paints, Oils, &c.,** of the Estate of Trapp Bros., we purpose offering to the Public VERY GREAT INDUCEMENTS in this branch of the Business, which we trust will secure the patronage of those residing on the Mainland.

We have bought a large and well-selected stock of **Shelf Hardware** in the eastern markets FOR CASH, which we expect to arrive in a few days, and our assortment will be, we consider, second to none in the country, and will be found complete in all the following branches: General and Shelf **Hardware,** Cross-cut **Saws, Paints** in all colors, Boiled & Raw **Linseed Oil** [English and American], **Dry Colors** in all kinds, **Wall Paper** and **Window Blinds, Oakum, Pitch,** Giant, Blasting and Sporting **Gun-Powder, Fuse** and **Caps, Brushes** in Paint, White-wash, Scrubbing, Horse, Dandy and Whisk, and a full line of Table and Pocket **Cutlery.**

We purpose doing a CASH BUSINESS and all orders intrusted to us will be subject to a cash discount of 5 per cent.—our motto being, "Small Profits and Quick Returns."

Thanking the Public generally for the liberal patronage accorded to us in the past, we trust by strict attention to business to merit a continuance of the same.

T. J. TRAPP,

Auctioneer & Appraiser.

Our telegraphic despatches this afternoon are more than usually interesting, and will repay perusal.

Arrangements have been made for a ball at Langley on the 22d inst., in aid of Royal Columbian hospital.

A very horrible story concerning the dreadful ravages of cholera in Austria will be found in this afternoon's despatches. It is almost beyond belief.

An item marked "personal" came through the postoffice the other day for publication, but it is withheld because the author neglected to enclose his name.

Before deciding on the plan of your new house look over the latest architectural designs at Mr. Hill's office, McKenzie st., and combine economy with utility and beauty. dw-sel3tc

A large pile-driver hammer from the Vancouver foundry, Victoria, for the use of the snagboat in making improvements at the river mouth, was brought up on the Teaser.

The only man who got even with the earthquake lives at Taylorville, Ky. When it rattled at his door he promptly fired at it, under the impression that robbers were seeking an entrance.

Ayer's Ague Cure acts directly on the liver and biliary apparatus, and drives out the malarial poison which induces liver complaints and bilious disorders. Warranted to cure, or money refunded.

Judge—Have you anything to say before the court passes sentence upon you? Prisoner—Well, all I got to say is, I hope yer honor'll consider the extreme youth of my lawyer, an' let me off easy.—*Puck.*

John C. Eno is getting tired of Canada, because all society doors are closed against him. There is one door in New York John will find open and ready to welcome him. It is at Sing Sing.—*Inter-Ocean.*

Some person who does not sign his name sends for publication a letter relating to the remarkable invitation from a Clover Valley lover that was published last month, but we must decline to accept it.

By a vote of 138 to 113, the Methodist Conference now sitting in Toronto has decided in favor of university federation. This will probably involve the removal of Victoria university from Cobourg to Toronto.

In addition to our new stock of spring goods we have opened an invoice of Diagonals, West of England Broadcloths and French Cassimeres. Walsh the Model Tailor. HERBERT WALSH, Manager. ap21tc

"The heathen in his blindness bows down to wood and stone," says a popular missionary hymn, and it is exemplified in an Arkansas county where Wood and Stone are candidates on a democratic ticket.—*Pittsburg Chronicle*

One of the questions which will come up before Judge Henry in the exchequer court shortly to be held in the province is that between the province and the Dominion in regard to the rightful ownership of minerals in railway lands.

A Port Haney correspondent calls attention to the fact that in noticing the operations of Messrs. Beckett & Son it was stated that their brick yard was situated at Port Hammond, whereas it is at Port Haney. We beg to apologize to Port Haney and our correspondent. The mistake was entirely unintentional.

By taking Ayer's Sarsaparilla many a poor sufferer who submits to the surgeon's knife because of malignant sores and scrofulous swellings, might be saved, sound and whole. This will purge out the corruptions which pollute the blood, and by which such complaints are originated and fed.

The *West Shore* for September is a specially fine number, both in its illustrations and literature. It is announced that a splendid engraving of Mt. Hood, printed in eight colors, is being prepared as a special supplement to the holiday number. Every household in the Northwest should receive the *West Shore* regularly. Published at Portland, Oregon; $2 per year.

OBITUARY.—Mr. Chapman, an old resident of Yale, was found dead in his store on Monday. Mrs. York, one of the oldest settlers of Sumas, died yesterday. The funeral takes place to morrow.

OPPOSITION.—It is reported that the C. P. N. Co. people have said they will not let the Gladys make enough to pay the oiling of the machinery. If this threat is carried out Mr. Townsend says she must be withdrawn.

GROUSE SCARCE.—Grouse are reported to be scarce along the river. The Indians account for the circumstance by the late season of high water, which they say destroyed the broods on the lowlands when they were too young to get out of reach of the flood.

SOME POTATOES.—They were digging potatoes on the penitentiary grounds to-day, and came across some that we hope will find their way to the Colonial exhibition. One weighed 3 lbs. 1 oz., another 3 lbs., and a third 2¾ lbs. If anybody can beat that, let him speak now!

ARRIVALS.—The Teaser brought up 30 tons freight from Victoria last evening. The Gladys came down the river to-day with a full freight and a number of passengers, also $1,000 in gold dust. The Reliance from up river had also good freights and the usual number of passengers. The Yosemite had a large freight and passenger list.

FURTHER EAST.—An item in our last evening's issue stated that an engineer and fireman had been killed on the C. P. R. "near Port Moody." "Near Port Moody" is rather too indefinite for local purposes. The scene of the accident was 1,970 miles east of the station of the "statutory terminus," at a place called Rat Portage.

MEETING OF SYNOD.—The synod of the diocese of New Westminster will meet to-morrow (Thursday) in Holy Trinity Church, at 10 a.m. The sermon will be preached by the Ven. Archdeacon of Columbia. The service is public, and there will be a collection for the expenses of synod. There will be choral Evensong at 8 p.m., at which a sermon will be preached by the Rev. D. H. W. Horlock.

SALMON.—Last week cohoe salmon were running unusually well for this month of the year, but the run has fallen off again. Reports from down river state that nets are stretched across the mouth from Point Roberts to Point Gray and few fish are being taken. If these reports are true, it is apparent that something must be done to prevent the blocking of the river mouth with nets if we would preserve our splendid industry from injury.

B. C. A. E.—The annual exhibition of the British Columbia Agricultural Association, it should be remembered, is to be hele this year on the 7th, 8th and 9th of October. The mainland press does not seem to have been favored this year with a copy of the prize list or any official intimation as to the programme to be adopted, and we have had to rely upon such information as could be picked up. We may again express the hope, however, that the farmers and others will do all they can to make the exhibition a success.

SUNDAY SCHOOL INSTITUTE.—Rev. E. G. Wheeler, of Portland, Or., the Sunday School missionary and representative of the International Sunday School Institute, is expected in this city next Saturday for the purpose of holding a Sunday school Institute. It will be remembered that Mr. Wheeler made arrangements to visit this city some months ago but failed in consequence of the sudden death of a near relative. He will be accompanied by Mrs. Wheeler. Sunday schools should avail themselves of the benefit of this visit. Particulars will be given later.

A USEFUL BOOK.—A blue book has just been issued from the department of agriculture, Ottawa, that is of more than usual interest. It is a "Statistical Abstract and Record," and contains a large amount of information relating to legislation, population, finance, trade, railways, canals, postoffices, telegraphs, criminal statistics, immigration, marine, fisheries, militia, arts and agriculture, lands, banking, insurance, loan companies, &c. The statistics are principally taken from official documents, and may be relied upon as very nearly accurate. We are indebted to the minister of agriculture for a copy of this useful work.

KOOTENAY RAILWAY.—We have heard it stated as quite probable that application will be made to the provincial legislature next session for a change in the charter of the Kootenay Railway and Navigation Co. We are not informed as to the precise nature of the changes intended, but believe it is intended to connect the Kootenay Railway directly with the C. P. R. and to make it standard gauge instead of narrow gauge. If the house consents to the change it will make the Kootenay Railway a direct feeder for the C. P. R., and will involve the construction of about 80 miles of road instead of 25 miles, as required under the present agreement.

ADMITTING LUNATICS.—As there seems to be a serious misapprehension respecting the steps necessary to secure admission of patients to the lunatic asylum, we publish for general information the following clause from the consolidated statutes: "No person shall be received into said asylum as a lunatic without a certificate from two duly qualified medical practitioners, signed and verified by a stipendiary magistrate or two justices of the peace." The reason of this strictness must be obvious to those who know that people who are perfectly sane have been unjustly thrust into lunatic asylums by designing scoundrels who wished to get rid of them for the purpose of enabling them to carry out their own selfish schemes.

LICENSING COURT.—This court met at 11 o'clock to-day. There were present Mayor Dickinson (chairman) and Messrs. Bole, Cunningham, Ferris, Pittendrigh, Clute, Clarkson, De Beck and Mathers. The application of Messrs. Insley & Owens and James Wise were presented. Mr. Corbould appeared for Mr. Wise and asked leave to withdraw the application till next sitting of the court. Mr. Atkinson appeared for the other applicants, and presented a petition signed by 100 residents of the city praying for the granting of the license, on the ground that more hotel accommodation was needed. Per contra, a petition signed by 300 residents of the city was presented by Rev. C. Watson against granting the licenses, and another by Mrs. Jas. Cunningham on behalf of the W. C. T. U. Rev. Mr. Watson and Mr. W. R. Austin addressed the court on behalf of the local temperance alliance against the applications. After deliberation the court announced that both applications had been refused.

C. C. Jacobs, Buffalo, N. Y., says: "Dr. Thomas' Eclectric Oil cured him of a bad case of piles of 8 years' standing, having tried almost every known remedy, 'besides two Buffalo physicians,' without relief; but the Oil cured him; he thinks it cannot be recommended too highly." There being imitations of Dr. Thomas' Eclectric Oil on the market, customers will see that they get the genuine.

Personal.

Mr. Thos. Cunningham returned to-day from Johnson's Landing.

Mr. Jas. Burns, of Burns & Co., Victoria, came down the river to-day.

Mr. Brown, who succeeds Mr. MacPhetridge as traffic manager at Port Moody, and C. Wood, U. S. customs officer who will attend to bonded freight coming through on the C.P.R., came up on the Yosemite to-day.

Registered at the Colonial to-day: C. H. Freedman, Victoria; M. Lumby, Spallumcheen; W. Wolfenden, Victoria; Geo. Winks, Winnipeg; Arthur Hill, Victoria; R. Y. Ellis, C.P.R.; D. Hewes, California; L. A. Aggasiz, Ferny Combe. Messrs. Thos. Shaw, W. J. Tippins and Henry Brown, of Victoria are also in the city.

Communications.

Connecting Links.

EDITOR COLUMBIAN.—Although the railway line between Moody and Vancouver be "injuncted," the latter place is not quite so dead as some folks would have us believe; and it will doubtless retain sufficient vitality during the winter to ensure a large amount of traffic with the Freshwater Terminus. The government is therefore acting wisely in attending to the repair of the *new* road; but it will not be wise all through if it neglects the *old* one. It is now in very fair condition, and a small expenditure, at once, will keep it up to the mark (you are aware that the "mark" for country roads in this district is not set very high) during the winter. The bush should be slashed away along both sides of the road, the ditches cleared, and a few spots which threaten speedily to become quagmires, should be covered up with gravel. Beds of gravel occur all along the road; and two men with a dump cart and a brush hook could do pretty well all it would pay to do at this season, before the November rains come. Every dollar so expended now would save ten in spring. TOURIST.

Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes: "I am requested by several friends to order another parcel of Dr. Thomas' Eclectric Oil. The last lot I got from you having been tested in several cases of rheumatism, has given relief when doctor's medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may be benefited by its providential discovery."

Sad Stories from Berlin.

Out of a population of 1,200,000 in Berlin more than 150,000 are receiving public charity. Many of the workingmen here openly favor community of wives. Divorces have increased to 15 per cent. of the marriages solemnized. The attendance at the churches has decreased to 2 per cent. of the adult population, and of 48,000 funerals last year nearly 30,000 were performed without any religious ceremonies whatever.

Women flock by thousands to the city to obtain employment, and, failing to get what they want, large numbers fall and are lost. This evil has become so great that strenuous efforts are being made to avoid it. The law of consent has already been raised in a similar way as it was done in New York and in England. By such legislative enactment some sort of protection is extended to girls up to the age of 18. Lodging houses and benevolent institutions have been established to rid working women, and a society of ladies has been formed charged with protecting, sustaining and counseling women up the age of 35.—*Berlin letter in N. Y. Sun.*

"Who made you?" inquired a teacher of a lubberly boy who had lately joined her class. "Don't know," he said. "Don't know! You ought to be ashamed of yourself—a boy 14 years old. Why, there's Dickey Felton; he's only 3; he can tell, I daresay. Come here, Dickey. Who made you?" "God," lisped the child. "There!" said the teacher. "I knew he would remember." "Well, he oughter," said the stupid boy, "tain't but a little while ago since he was made."—*Ex.*

A little boy was watching his mother make sandwiches to carry to the picnic last Thursday, and asked what she was putting between the biscuits. She replied, "Deviled ham." He thought for a moment, and then replied, "Well, you needn't give me any of that bad man's ham, for I belong to the Star of Promise."—*Fairhaven, Mass., Star.*

Mother Graves' Worm Exterminator is pleasant to take; sure and effectual in destroying worms. Many have tried it with best results.

Latest by Telegraph

This Afternoon's Despatches.

Special to the Columbian.

SAN FRANCISCO, Sept. 10.—The British sloop of war Cormorant arrived here to-day from San Diego en route to Vancouver Island.

LONDON, Sept. 15.—Cholera is gaining ground in Austria. It is worst at Lic village, near Agram. Of nine hundred inhabitants of the village ninety have been stricken down and about twenty-eight of them died almost immediately. People distrust the doctors and conceal the sick as long as possible. Doctors are frequently stoned in the streets. In one house a mother and daughter were found half naked on the bare floor writhing in the agonies of death and in another room lay the body of the father upon which had been thrown the corpse of a son. Villagers are too much frightened to help one another.

ST. LOUIS, Sept. 15.—Late yesterday afternoon the Howard Co. Bank at Glasgow closed its doors and placed its business in the hands of trustees for the benefit of its creditors. Jas. S. Thompson, president of the bank makes the following statement of the bank's affairs: "Assets of bank are ample to pay all depositors and stock holders in full. Hard times and the extreme difficulty of collecting induced the directors to turn over the business to trustees who will collect and pay its depositors and then pay the stock holders to the amount of $60,000. The liabilities do not amount to quite this sum.

LAS VEGAS, New Mexico, Sept. 15.—To-day a train of ten coaches arrived from the south bringing Chiera chua and Warm Spring Apaches from San Carlos reservation in Arizona to Florida. There were 460 of the savages guarded by three companies of U.S. infantry. Although none of them have been on the war path since Geronimo broke loose it is well understood that they were furnishing his band with ammunition and there was no telling what moment they might break out. For these reasons the government decided to ship them to Florida where they could do no harm. More than half of the Indians are squaws and their children and a more repulsive and hideous mass of humanity never crowded in emigrant sleepers before. The car doors were closely guarded by soldiers.

LONDON, Sept. 15.—This is the second day of the Doncaster September meeting. The race for the St. Leger stakes was won by Ormond's; St. Miriam 2nd, Exmore 3rd. Seven starters.

WASHINGTON, Sept. 15.—A call for $15,000,000 3 per cent. bonds will probably issue from the treasury this afternoon.

CONSTANTINOPLE, Sept. 15.—The British are establishing a coaling station at Thaso, on the northeast shore. The island of Thaso is in the Ægean sea, off the southeast of Roumelia, and belongs in the greater part to the khedive. The island has, however, for some time enjoyed certain autonomic privileges. Besides establishing a coaling station at the village of Thaso, the British are giving other indications of an intention to govern the whole island. Said Pasha, the Turkish minister of foreign affairs, telegraphed instructions to Eastern Pasha, Turkish ambassador in England, to ask Iddlesleigh, foreign minister, whether or not it is true that England is chartering steamers and making other preparations against contingencies, and if so what are England's reasons for this activity, and if it is indirectly in connection with anything in which Turkey has interests.

PARIS, Sept. 15.—*Republique Francaise* publishes a telegram from London which states that England meditates a grand *coup d'etat* and will probably proclaim Egypt British possession. "She will, however," adds the *Republique Francaise*, "do nothing until she has a sufficient force at Alexandria."

LONDON, Sept. 15.—Sir Charles Dilke, who has returned to London, has already announced that he will reenter public life, as proprietor and editor of a London newspaper.

THE ROCK ON WHICH MANY a constitution goes to pieces is Dyspepsia. The loss of vigor which this disease involves, the maladies which accompany it, or which are aggravated by it, the mental despondency which it entails, are terribly exhaustive of vital stamina. Its true specific is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which likewise overcomes bilious maladies, female ailments, and those coupled with impurity of the blood.

PASSENGERS.

Per str. Reliance, from up river, Sept. 15.—Mrs B F Boyce, P McTiernan, A Burns, T Dunville, A Mahood, Geo Hall, T Cunningham, H P Bales, R Coghlan, E J Thomson, Wm Oliver, J Ritchie, A Hawkins, J Tremblath, S Dunn, E L Kirkland, McKendry, G C Carter, D Dalziel, H A Trance, B Benton, A L Fry, T D Johnson, and others.

Per str. Yosemite, from Victoria, Aug. 15.—Miss Parker, Mrs Bann, Mrs Miller, Mrs Howison, Mrs Woodward, Mrs Rocket, Mrs Lumby, Mr Brown, Mr C Wood, Mr Wolfenden, Mr F Woods, Wilkes, H Brown, Parrr, Booth, and Tippins.

Why go limping and whining about your corns, when a 25-cent bottle of Holloway's Corn Cure will remove them? Give it a trial and you will not regret it.

An Efficient Remedy.

In all cases of **Bronchial and Pulmonary Affections** is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of **Laryngitis, Bronchitis, Pneumonia,** and **Pulmonary Consumption,** and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of **Croup,** the alleviation of **Whooping Cough,** and the cure of **Colds** and **Influenza,** ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a deeper hold, but take at once the speediest and most certain to cure,

Ayer's Cherry Pectoral,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists.

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $282,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

Wednesday Evening, Sept. 15, 1886.

Latest by Telegraph

LAST NIGHT'S DESPATCHES.

Special to the Columbian.

STRASBOURG, Sept. 14.— Emperor William to-day received the bishop of Strasbourg, the provincial committee, and the canonical council.

CONSTANTINOPLE, Sept. 14.— The powers have replied favorably to the porte's circular. They agree that there shall be no military occupation of Bulgaria. Consular reports from Sofia announce that Bulgaria and Roumelia have made an agreement to avoid any action that might lead to foreign intervention. U. S. Minister Cox left to-day for New York on a two months' leave of absence.

BUFFALO, Sept. 14.—A despatch from Silver Creek, N. Y., says: A Niagara Falls excursion train on the Nickel Plate railway, under the management of J. W. Butler, excursion agent, collided with a local freight train in a cut on a curve just east of here at 11 o'clock this morning. Both the engineer and the fireman saved themselves by jumping. Only those in the smoking car were hurt, it being completely telescoped by the baggage car. There are various causes given for the collision, but Engineer William Harris, of the freight train, is blamed for it. I is said he had orders to meet the excursion train at Irving, but failed to obey instructions and was running at full speed when the crash occurred. Train men will not talk regarding who is to blame. A gentleman who was on the train says that freight's order was to go to Silver Creek, and the passenger train to Irving, which is this side, and it was these orders that caused the collision. The excitement among the survivors was intense, and the scene in the smoking car was most harrowing. The first warning was a slight jar caused by the heavy pressure of air brakes. Some of the passengers stirred themselves in their seats, seemingly apprehending danger, then came the terrible shock, followed by the smashing of the windows and roof of the car, and all was a mass of bleeding and struggling humanity. Men covered with blood were locked in each other's arms, while underneath them and on all sides lay poor unfortunates who were instantly killed and crushed out of all human semblance. The wounded crawled out of the debris and were assisted to neighboring houses, where people brought bedding, etc., and did all they could to relieve the sufferings of the wounded until the arrival of medical aid. Mrs. J. H. Siegel, of Erie, was a passenger, on her way to Buffalo. She arrived here safely this afternoon. In an interview with Mrs. Siegel she said: "I was in the first coach, next to the smoking car; the train carried a large number of excursionists, as well as regular passengers. The first we knew of the collision was a terrific crash, like an explosion. Nobody was hurt excepting those in the smoking-car, and not a single car was thrown from the track, but the smoker was completely telescoped. It was a mercy that our car was not crushed. One young man in the smoker saved himself by dropping on the floor, and escaped with a few bruises. I did not learn the cause of the accident, but we were going very slowly, while the freight train was coming at a high rate of speed. We were just one coach-length off the trestle when the collision occurred. Some of the wounded were taken to the different houses near by, and one of the coaches was turned into a hospital. In another coach the dead were placed. Twelve have been reported killed, and 14 seriously wounded have been taken from the wreck.

LONDON, Sept. 14.—In the house of commons to-night a bill entitled "submarine cable amendment" was passed. It ratifies the international convention for the protection of the submarine cables of the world.

SAN FRANCISCO, Sept. 14.—A statement comes direct from the office of the Peninsular and Oriental line in Yokahama that that company guarantees steamer connection with Victoria based on a minimum of thirteen miles per hour on the ocean route, which is six hundred miles less than from San Francisco. The company possesses eighty-six vessels, of every class and tonnage. The P. and O. guarantees the trip between Victoria and Yokahama to be made in 12 days, also that effective communication will be made to accommodate the trade between Europe, Australia and New Zealand. Already the United States postoffice department has been notified of the early discontinuance of the sending of English mails through San Francisco, thus anticipating the new route which is to be made in from 22 to 25 days between London and Liverpool and trans-Pacific ports. It appears, then, that a shorter distance on the Atlantic, less of rail travel, and a material reduction of the Pacific ocean route with the swiftest of the P. and O. company's steamers, links of a purely and very complete English all 'round the world line.

Local passenger agents assert that they do not look upon the Canadian Pacific as a rival in any sense, but the agent of that road appears to be more than satisfied with the freight and passenger business already secured by his line, and looks forward to a speedy augmentation of traffic.

LONDON, Sept. 14.—The *Morning Post* says: Germany has asked Russia for a pledge that she will not interfere in Bulgaria nor increase irritation in the Balkans. Russia stipulates that if such a pledge be given Germany and Austria shall not insist on the re-election of Alexander to the Bulgarian throne by the European powers.

At the Sea-Side.

"Have you bathed yet this summer?"

"Yes, I've bathed several times out at Coney Island."

"How did you find the water?"

"Find the water! Why, you can't miss it. It's all around the island.—*Texas Siftings.*

The Solar Engine.

The visible globe of the sun is 1,250,000 times as large as the earth; within the surface so seen there lies a mass exceeding the earth's 320,000 times; the materials present in the sun's globe are the same as those which form the globe of our earth—at least we know that iron, copper, zinc, sodium, magnesium, calcium, titanium, and a number of other metallic elements are present; hydrogen is certainly there in enormous quantities, and Dr. Henry Draper proved also that oxygen is present, while no astronomer doubts that those other elements which have not as yet been detected in the sun are really present in his mass.

Now, have we any evidence as to the way in which the mighty mass of the sun is disposed within that surface which encloses what we term his volume?—though in reality one can hardly say what his volume is, seeing that there are portions of his mass outside the surface which bounds his visible globe. Is the sun's mass uniformly distributed throughout that visible globe, 1,560,000 times as large as our earth? or is it concentrated toward the centre? or, on the other hand, is the denser part near the surface, so that the sun is what Professor Young once suggested, a gigantic bubble? There are three lines on which we can seek for an answer to these questions.

1st, we find that the visible surface of the sun behaves in a manner utterly inconsistent alike with the idea that this surface is near the real surface of an inferior globe, and with the idea that the visible surface is part of a mighty vesicle or bubble. The spot zones are carried around at different rates, according to their distance from the equatorial solar regions. Not to follow Faye and others in niceties of calculation (far from justified by the evidence we have), I may say that the equatorial zone gains about one rotation in seven on the spot zones, or, roughly, some 2,700,000 miles in 200 days—say 13,500 miles per day. Such a velocity as this, close on ten miles in a minute, could not possibly exist in a cloud-laden region (such as the visible surface of the sun undoubtedly is), and as affecting regions exceeding the whole surface of the earth thousands of times, unless that cloud-laden region were very far away from the real surface of the sun, and therefore from the frictional effects of the true solar rotation. The real mass of the sun, however distributed, can only rotate as one; the visible cloud surface has many rates of rotation; therefore there must be an enormous distance between the two.

2nd, calculation has been made by competent mathematicians respecting the amount of polar compression which would arise from the rotation of a globe such as the sun appears to be, at the average rate of rotation indicated by the solar spots. It is found that the polar flattening would be well within the measuring capacity of our best instruments. But if there is one thing certain about the sun, it is that (within such capacity) his apparent globe is not flattened at all. It is absolutely certain, then, that the real globe of the sun lies far within the surface of flowing clouds which we see and measure.

3rd, our earth has her story to tell about the sun's interior. We know from the earth's crust that, for periods of time which geologists now estimate by tens of millions of years, the sun's power has been at work on the earth's surface, by rain, wind, and storm, fashioning and refashioning the structure of that crust, now forming layers, anon cutting them up, but throughout leaving clear traces of his handiwork. Croll estimates the duration of this portion of the earth's history—that is, of the time during which the earth's crust has been forming under solar action—at fully one hundred millions of years. In other words, our earth tells us one hundred millions of years of sun work, at the sun's present rate of working. It is a matter of no importance whether we suppose that the sun has worked all the time at his present rate, or has sometimes worked with more energy, sometimes with less. It is the quantity of sun work, not the way in which the work has been done, which alone has to be considered. Now all physicists and astronomers are agreed in regarding the sun's emission of heat as due wholly or almost wholly to solar gravitation, resulting in the steady contraction of the sun's mass. To get from the sun of past ages the amount of work which our earth tells us he has actually done, we must suppose him once to have been much larger than he is now—how much larger we cannot say.

I take it also that the change which takes place in the aspect of the sun's corona as the number of sun spots varies, and the alteration of the physical condition of the corona—in such sort that when there are many spots, its spectrum indicates the presence of glowing hydrogen, whereas, when there are few, the lines of hydrogen are few or wanting—correspond also with the theory that the time of sun spots is a time of great eruptional activity. For the rush of ejected masses through the coronal region would cause the hydrogen present there (not as an atmosphere, but irregularly distributed and moving around the sun) to glow with greater lustre, so as to show the lines of hydrogen in the spectrum of the corona.

It is, at any rate, remarkable that all the facts known to us in regard to the sun spots themselves, to the colored flames, and to the corona, should agree in confirming that which is already all but demonstrated by three strong lines of evidence, that the real working mass of the sun is very much smaller than the globe we measure as his, and that all the phenomena which give so great an interest to the study of the sun are due to tremendous forces at work tens of thousands of miles below the surface which limits our view of his globe, and hides from us the processes by which the life of the solar system is maintained.—*R. A. Proctor, in Harper's Magazine.*

Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best satisfaction for all diseases of the blood." It never fails to root out all diseases of the system, cures Dyspepsia, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness.

NOTICE.

Dominion Lands.

NOTICE IS HEREBY GIVEN THAT, the surveys of Townships Nos. 1 and 2, west of Coast Meridian, and Townships Nos. 7, 8, 10, 12, 14 and 16, east of Coast Meridian, New Westminster District, having been duly confirmed, the undersigned is now prepared to receive applications for Homestead Entry on Dominion Lands in such Townships respectively.

Applicants must personally appear before the undersigned at the Dominion Lands Office, New Westminster, and make the affidavit and pay the entry fee of $10 prescribed by Clause 16 of the Lands Regulations of 1883.

H. B. W. AIKMAN,
Agent of Dominion Lands, B.C.
14th August, 1886. dwau16m1
(*Mainland Guardian copy.*)

NOTICE.

ALL ASSESSORS UNDER THE "Assessment Act, 1876," and amending Acts, are hereby instructed to prepare their rolls on or before the 30th November next, and the duties of all Courts of Revision and Appeal are to be completed, and the rolls finally revised and completed, on or before the 31st December next.

By Command,
JNO. ROBSON,
Provincial Secretary.
Provincial Secretary's Office,
Victoria, B. C., 6th Sept., 1886. dselltp1
