Daily British Columbian

Wednesday Evening, August 17, 1887.

There can be no doubt that a removal of trade restrictions between the two countries, lying side by side as they do, and speaking the same language, would be of immense advantage to both, and there is no good reason to believe that the people of both would not hail free commercial intercourse with satisfaction. —*Buffalo Commercial.*

The return to this city by the Colon yesterday of Colonel Frank G. Ward, until lately Superintendent of the Panama Railroad, was the first public notice of the fact that the directors of the road had just made a summary change in its management. Reports have been current for some time that all was not as it should be, and it is now known that Colonel Fred Rivas of Virginia was sent down on the 11th ult., with secret instructions to assume entire management. It is understood his arrival was a surprise to the officials there and that the superseding of Colonel Ward was very unexpected to him. — *N. Y. World Aug. 2.*

The United States imported from Japan last year $15,000,000 worth of goods and exported to Japan only $4,000,000. We bought from the Japanese silks, teas, camphor, and curios. We sold to them coal-oil, canned goods, flour, and machinery. Great Britain, on the other hand, imported from Japan only $3,000,000 while her exports to Japan amounted to $15,000,000, the principal item of which was cotton goods. That is, we send our cotton to England to be manufactured there and sold to the Japanese, and we use the money paid to us by English manufacturers for the raw cotton to pay for the silks and tea which we import from Japan. This illustrates the effect of the protective system on foreign trade.—*N. Y. Witness.*

The Transatlantic fleet of steamers will within the next year be increased by half a dozen new vessels, the most of which are now in process of construction. The tendency in ship-building, as evinced by the plans for these, is for greater safety and speed. The width of most of the new steamships is to be greater than common. Until recently, the usual rule for the length was ten times the beam. One of the new steamships is to be only eight times the beam, but the Pocahontas, an American vessel to run from Newport News, is to be fourteen times the beam. She is expected to eclipse everything for speed. The builders predict three and one-half days passage. The more conservative view holds that four days will be required. A little over six days is the fastest record.

The Englishmen who celebrated the Queen's jubilee in Faneuil hall have organized a political body to counteract the influence of the Irish and have enrolled the names of 5,000 Englishmen and Scotchmen scattered over Massachusetts. The leading spirit thinks they will be truckled to by the very men who were so fierce against them at the time of the celebration. He says they will have a city and a State committee, and will work in a systematic manner, hunting up British residents, getting them naturalized and seeing that they vote right. They will send out 80,000 circulars and will soon hold a mass meeting. He thinks the movement will spread throughout the country and become an important factor in national politics. There are, however, three obstacles which he seems to overlook: the Englishmen in the country are few in number, [illegible] together, and they for the most part refuse to become American citizens. —*Buffalo Courier.*

The example of General Boulanger may have the vicious effect of reviving the waning popularity of duelling in the French army. Napoleon is credited with saying that duelling was a good thing since it multiplied the chances of promotion and kept the officers in buoyant spirits. The present idol of the army, who, when he was War Minister, did much to restore a feeling of *esprit de corps* among the officers, as well as to make the private soldiers more comfortable by giving them better beds and meals and more leisure, may take the same cynical view of duelling. He may also be influenced by the popularity of the practice in the German army. Duelling in the French army, however, will have to be more democratic in its code than it is at Berlin. A German officer is forbidden to cross swords or exchange pistol shots with a tradesman. Under the Republic; with its traditions of equality and fraternity, no restrictions of this sort can be put upon the fine old aristocratic recreation of trying to kill a man and a brother. —*N. Y. Tribune.*

Stanley Dead--News from Zanzibar that the Great Explorer was Massacred. War Between the C. P. R. and the R. R. V. R.

By Associated Press.

THE PANAMA CANAL.

NEW YORK, Aug. 15.--At the association for the advancement of science, this afternoon, Commander Taylor, of the U. S. navy, read a paper upon "The Question of Isthmian Transit." Among other things he said that the debt of the Panama Canal Co. is now about $350,000,000, and its interest and other fixed charges is nearly $20,000,000 annually. Less than a fifth of the work has been done, and and the great difficulty is yet to be attempted. The ship railway project at Tehauntepec promised to be as disastrous as the Panama Canal. Captain Ead's enthusiasm, Commander Taylor feared, would lead many credulous persons to pin their confidence to what seems to be an unworthy venture. The Nicaurauga Canal would not be affected by it, as it was entirely without their limits. The opening of the canal would reveal channels of trade not now recognized. Few persons realize how near New York is to Chili and Peru, or what close neighbors New Orleans and Callao would be were there a canal through Nicaurauga. The canal must be neutral. If we some day feel that we must take a part in helping Nicaurauga and Costa Rica to sustain their neutrality, we will then realize the need of controlling the land at Nicaurauga, which is of vast importance to our fleet as a strategic base.

ANOTHER GLADSTONIAN VICTORY.

LONDON, Aug. 16.—R. T. Brunner, the Gladstonian, is elected over Lord Henry Grosvenor, for Cheshire, by over 1,000 majority.

RUSSIAN CRUISERS IN THE PACIFIC.

TORONTO, Aug. 16.—A cable to the *Mail* says Russia has sent four cruisers and one iron-clad to the Pacific Ocean. A well-known and experienced officer has been placed in command, and will have everything in readiness for war.

THIS AFTERNOON'S DESPATCHES.

ANOTHER RAILROAD ACCIDENT.

WASHINGTON, Aug. 17.—As the St. Louis, Chicago & Cincinnati express on the C. & O. road, due here 6:20 a.m., was approaching the city at a high rate of speed, the engineer found the air brakes not working properly and blew the whistle for ordinary brakes. It was too late however to check the momentum of the train and it ran upon what is known as the "Y" near the depot at the rate of 40 miles an hour. The curve is very sharp and the express car jumped the track and struck the signal tower. A general wreck ensued and all the cars except the sleepers were badly smashed. The only deaths reported up to 10 a.m. are those of Hamilton Brosious, the engineer of the train who was scalded to death and two passengers. The fireman was badly scalded and 75 passengers seriously injured. The telegraph operator observed the derailment in time to escape by jumping from the window of the structure. His arms were broken, but not otherwise injured. Great confusion prevails at the wreck and much difficulty in learning the names of the dead and wounded. Later investigations show only one person killed outright, which was the engineer. Ten persons were injured seriously. Two of them Chas. Koch and William Buck of Cincinnati, will probably die. The others are Mrs. Augusta Barnes, Mrs. Chas. Koch, Chas. Morrison, Fireman J. B. Smith and Ed Lechmeyer, all of Cincinnati; Frank Deraur, St. Louis; Jas. Healy and W. Baxter, of Washington.

PARTICULARS OF THE UTE UPRISING.

WASHINGTON, July 17 —A telegram was received at the war department [illegible] that the governor of Colorado had requested Gen. Crook to assist the civil authorities in serving a process upon the Ute bucks who had been indicted by the grand jury. Terry asked for instructions for the guidance of himself and Crook in the matter. A telegram was sent in reply directing him to hold the troops in readiness to move at a moment's notice. The war department has received no special information of the reported engagement between Colorow's band and the sheriff's posse, and the military authorities do not feel authorized to call upon the troops to assist the civil authorities in their efforts to arrest the Indians. In the event of the defeat of the posse, and Colorow's taking to the war path, Gen. Crook, who is near at hand, has full authority to take the needful action to protect the people. In view of the absence of any official information of the outbreak the war officials are disposed to characterize some of the reports received as exaggerations.

NO NEWS AT THE LONDON OFFICE.

LONDON, Aug. 17.—Neither the foreign office nor the Emin Bay relief committee has received any news in regard to the alleged massacre of Stanley. The officials at the foreign office are surprised at the intelligence in the despatch received by the French government, and says if news of Stanley's death had been received at Zanzibar the British agent there had failed to notify his government.

WAR BETWEEN THE C. P. R. AND R. R. V. R. R.

ST. PAUL, Aug. 17.—A special from Winnipeg says: The Canadian Pacific yesterday sent road building material and a gang of 50 men over its southwestern branch to Morris, where work was to begin to-night constructing a spur line crossing the route of the Red River Valley road, thus obstructing the building of the latter. An open conflict between the forces of the opposing roads is expected to-day. The Red River people say they will put their road through at all hazards.

THE NEWS OF STANLEY'S DEATH CONFIRMED.

PARIS, Aug. 17.—The following despatch was received from Zanzibar at the foreign office: Henry M. Stanley, the explorer, has been killed by natives, after having been deserted by his escort.

Objects to Cowboys.

Buffalo Bill's cowboys are becoming a bore, as one is liable to meet them in the most unexpected places. A few women in good society seem to have lost their heads over these untutored sons of the prairie, and many of the men have taken them up as visitors to clubs. The result is that one meets cowboys at garden parties, at Sunday picnics and even at dances, and has to listen, if not to their uncouth language, at least to their irritating drawl and their wild Western comments upon current events. The presence of these men would not be tolerated in the salons of New York or Boston, yet in England these adventurers are welcomed with open arms, flattered as though they were Bayards or Crichtons, permitted to flirt with the prettiest girls and married women, and readily excused if, perchance, they have to be sent home in a state of semi-intoxication. Some women, who ought to know better, have even begun to call upon them in their tents and to sip afternoon tea with these rough fellows.—*London Bat.*

ESTABLISHED 1875.

The West Shore

FREE

For the balance of 1886, including the mammoth holiday number, to all who subscribe now for 1887.

With the January issue THE WEST SHORE will begin its twelfth year. Every number contains original illustrations of scenery, towns and industries in the Pacific Northwest, equaling in excellence the best productions of Eastern magazines. The contributed articles, general literature and stories are entertaining and carefully edited, making the magazine a chaste family visitor. The comments on events of interest to this region and the large amount of information concerning our various resources and the progress of development given in every number render it extremely valuable. No family can afford to do without it, and every one financially interested in the Pacific Northwest or desirous of learning its resources will find it invaluable.

If the subscription price ($2 per year) is sent in now you will be entered for 1887, and the remainder of 1886 will be sent as a premium.

L. SAMUEL, (ad 1b) 122 Front Street, Portland Or.

Daily British Columbian

Wednesday Evening, August 17, 1887.

Our cotemporary of the Seattle *Post*, after referring to the unwelcome reception which awaits American boodlers who flee to Canada, says: "Why cannot an extradition treaty be negotiated so simple and yet so perfect that a fugitive who is flying from the consequences of breaking the laws of one country will be quickly arrested and turned over to justice by the authorities of the other? Why cannot the simple fact that the authorities of one country want a fugitive for something other than a political offense be made sufficient ground for his extradition? There is neither merit nor reason in treaties which make one country an asylum for the lawbreakers of the other. Why can we not have sensible extradition treaties? Why cannot the authorities on both sides of the boundary show a disposition to aid in bringing criminals to justice instead of a disposition to shield them from justice and to turn their pursuers from their track?" The reason is plain enough. The Canadian government has expressed its perfect willingness to subscribe to such a treaty, but the government of the United States refuses to reciprocate. It is not willing to subscribe to any treaty under which it might be called upon to surrender Irish dynamiters, because it is afraid of the Irish vote in America!

So far no appreciable hitch has occurred in the construction of Manitoba's disallowed railway. The work goes on smoothly and expeditiously, and the first payment is said to have been made to the contractor. The statement we published yesterday, said to have been made by Mr. VanHorne, leads to the conclusion that the road will be carried on to completion. Not long ago Mr. Goldwin Smith suggested to the people of Winnipeg that they should lay their railway grievances before the privy council of Great Britain and obtain from that august body a statement of its opinion on the extent to which the constitution gives the veto power to the federal authorities. The Winnipeg *Sun* says that this suggestion has been received favorably by the Manitoba government, and will probably be acted upon. It would be of great value to obtain such an opinion, if it could be obtained—which seems to us somewhat doubtful under the circumstances. There is a general impression that the federal veto power is really unlimited, and may, consequently, be exercised with respect to all provincial legislation. But this does not seem to have been the intention of the framers of the constitution, and it is possible that legislation looking to the curtailment of that power may be found necessary in the interest of the Dominion.

The Victoria *Times* of Saturday and the Vancouver *Herald* of Monday have editorial articles commenting upon the appointment of Mr. Fagan as Indian agent for the north-west. In the Vancouver *News* also one or two little paragraphs appeared some time ago on the same subject. So far as any public notice has been taken of the appointment, it has been universally condemned. The ground of this condemnation is two-fold. First, it is objected that Mr. Fagan has had no opportunity of making himself acquainted with the language and manners of the Indians, both of which are essential to the success of an Indian agent. In the second place it has been claimed that Mr. Fagan, being a Catholic, ought not to be appointed to administer the affairs of Indians who are all Protestant. But Mr. Fagan himself denies that he is unacquainted with the language or manners of the natives. He claims to be able to talk Chinook, and that his training is such as to qualify him in a special way for the duties of the office to which he has been appointed. We have expressed no opinion on this appointment, or on any appointment made by our present representative, Mr. David Gisborne. We have simply contended that the COLUMBIAN was the only newspaper in British Columbia that opposed Mr. Chisholm's election; but since the electors thought fit to entrust him with the representation and patronage of the constituency against the earnest protest of this paper, if the result is not satisfactory it may be as well to let Mr. Chisholm's friends fight it out among themselves. The appointment of superintendent of Dominion works in this city, which, we believe, has had to be cancelled, has produced a most unfavorable impression, and the persons who did the kicking were among his chief supporters. The case of Mr. Fagan is very different, but for some reason it does not meet the approval of the party either.

THAT "TOCSIN OF THE SOUL, THE DINNER BELL," as Byron calls it, suggests no pleasing reflections to the dyspeptic, bilious sufferer. He partakes, of course, but the subsequent torment is egregiously out of proportion to the quantity of food he eats, which lies undigested, a weight like lead in his unhappy stomach. There is a remedy, however, and its name is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. No case is entirely hopeless.

D. ROBSON,
Manager.

A GORGEOUS PALACE.

Description of the Charming Mango Gardens of the King of Siam.

The Summer Palace of the King, the Mango Gardens, is considered the handsomest place in Siam. The main building is erected in the style of a French chateau, and is surrounded with grounds laid off with great skill by a landscape gardener, paths winding in serpentine sinuosity in every direction, flowers of all kinds fill the air with perfume, and to add to the charms of the place miniature lakes, dotted over with lotus plants in blossom, flash their sparkling waters in the sunshine.

These lakes are fed from the river that flows in front of the palace, which together with the yard is enclosed by a wall containing a number of handsome buildings set apart for the various wives of the King. Through the kindness of the gardener in charge I was shown through the palace, the King being absent he not staying there more than a month during the year.

The palace is built of teak and other costly woods, the walls paneled most handsomely; the hard wood polished like a mirror, bringing out the grain; the ceiling lofty, laid off in handsome designs and most elaborately gilded; the floors a mosaic of various woods also highly polished, each room a different design, while the broad flight of steps that lead to the second story—the sleeping apartments—is simply grand, in keeping with the magnificence of the interior.

The King's chamber, bath-rooms, etc., were worthy of the abode of royalty, and his couch 'a thing of beauty,' if not 'a joy forever.' It was made of rare wood and carved in the most exquisite designs, draped with rare lace fringed with gold; a gold embroidered spread covered the bed; the pillows and bolsters were also hemmed with lace, and above it swung a handsome punka to keep him cool. It seemed more like a work of art to please the eye than the resting place of one who courted slumber, surcease of business and trouble arizing from the control of over 7,000,000 people.

In some of the rooms we noticed some very handsome furniture and pictures, costly tables, crystal and alabaster vases, etc., though the place was dismantled during the absence of royalty. It is a place that one tired of power and the world would retire to for a month and live in elysium or Oriental ease. In the center of several of the lakes handsome pavilions are erected, where the band discourses music, and on their rippling surface float barges ready to bear the wives and children or family of the King, when he concludes to pass his time there.

Scattered throughout the gardens are cages containing monkeys, birds, etc., that add not a little to the picturesqueness of the scene. For over an hour our party strolled through the well-kept grounds and gardens, fifty men being constantly employed in beautifying and keeping them in order. Amid a grove of rarest foliage, musical with birds, is a handsome Italian monument, erected to the memory of the late Queen, who was drowned by the sinking of a yacht, erected by the King, and by his special direction kept in the neatest order.

As our time was limited we could see but a portion of the beauties of this lovely place. It would take a column to speak at length of the various palaces that are scattered over the grounds, the Oriental watch and bell-tower that stands like a giant sentinel towering over all, the handsome, wat, built like a Gothic cathedral, with stained glass windows, but the shrill whistle of our steam launch reminds us that "time is up," and, with a sigh of regret, our party left the lovely Mango Gardens, its world of flowers, its fragrant atmosphere and paradisical beauty—an elysium where one could dream life away, the Nepenthe of the poet, where no raven will ever "sit on pallid bust of Pallas," but eternal sunshine gilds the velvet curtains and casts a glory on the glistening floors.

Money Saved by a Fly.

Here is a story from the *Companion*, showing how a blue-bottle fly was the means of saving much work and expense:

"Flies are most useful scavengers, for they destroy much matter which is injurious to man. They lay their eggs in decaying animal substances, and these hatch out in a very short time. The young flies begin to eat as soon as they are hatched, and soon eat up the decayed matter. It is said that the progeny of two blue-bottle flies will eat up a dead horse more quickly than one lion could perform the task.

Flies have a wonderful scent. If a piece of decayed meat is placed in an open place where there are no flies, it will not be long before a troop of flies will be crawling over it. An ingenious man once made a fly serve him. A poisoned rat had crawled under the floor of a gentleman's dining-room, and died there. The room, which had been fitted up at great expense, became uninhabitable, and workmen were called in to remove the flooring. But one of them suggested that if a blue-bottle fly should be turned into the room, it would find the exact spot where the dead rat was lying. The fly, being caught and turned in, buzzed about the room for some time. At last it alighted upon a certain spot on the floor, and remained there.

"There's where your dead rat is!" the the workman said. A single board was removed, and the rat was exposed to view. The fly had scented the body through the crack in the floor.

Understanding of Animals.

Bayard Taylor relates the following:—"Animals have much more capacity to understand human speech than is generally supposed. The Hindoos invariably talk to their elephants, and it is amazing how much the latter comprehend. The Arabs govern their camels with a few cries, and my associates in the African desert were always amused whenever I addressed a remark to the big dromedary who was my property for two months, yet at the end of that time the beast evidently knew the meaning of a number of simple sentencec. Some years ago, seeing the hippopotamus in Barnum's Museum looking very stolid and dejected, I spoke to him in English, but he did not even open his eyes. Then I went to the opposite corner of the cage, and said in Arabic, 'I know you; come here to me' He instantly turned his head towards me; I repeated the words, and thereupon he came to the corner where I was standing, pressed his huge, ungainly head against the bars of the cage, and looked into my face with a touch of delight while I stroked his muzzle. I have two or three times found a lion who recognized the same language, and the expression of his eyes, for an instant, seemed positively human."

Miss Pettem: "Pretty Polly!"
Polly (imitatively): "Pretty Polly!"
Miss Pettem: "You're sure the bird is a young one!"
Dealer: "Absolutely, madam! He came from Africa last May."
Polly (suddenly): "Tippecanoe and Tyler too!—oo!—oo!—Puck.

ABOUT WOMEN.

—Mrs. Custer has received nearly five hundred letters about her book "Boots and Saddles," and has answered them all.

—Dr. Martha G. Ripley is the only woman among the faculty of the Homœopathic College of Minnesota at Minneapolis.

—Miss Letta L. Burlingame, of Ann Arbor, Michigan, has been licensed to practice law by the Illinois Supreme Court.

—Miss Marietta Holley (Josiah Allen's Wife), received eleven thousand dollars for the manuscript of her new book, 'Samantha at Saratoga."

—Miss Minna R. Pollock, of New York, translater and type-writer, has been appointed by the board of aldermen as commissioner of deeds.

—There are 318 women employed as prison officials in England, with salaries varying from $225 to $2,500 per annum, and in addition fuel, ligets, quarters and uniform.

—The women of New York have been granted more patents than their sisters in any other State. The women of Massachusetts, Ohio, Indiana, and Wisconsin rank next in order.

—Mrs. Elizabeth Cady Stanton, in a recent visit to Paris, met some of the most distinguished suffragists of France at a reception given at the residence of her son, Theodore Stanton.

—Mrs. Frank Leslie is of Huguenot extraction, and was born in the French quarter of New Orleans. She speaks French, Spanish, Italian, German and English with equal fluency.

—Mrs. Helen Campbell, since her "Prisoners of Poverty" called attention to the sufferings of poor sewing women, has received hundreds of applications from people who want seamstresses.

—The name of the first woman graduate of Columbia is Miss Mary Parsons Hankey. She is about 20 years of age, and is the daughter of Lawyer James Hankey, who lives at Garrison's Station, Staten Island.

—The medical attendants of ex-Empress Carlotta of Mexico begin to hope that she will fully recover her mental powers. She is 47 years of age and is at present confined in the Chateau de Boncot, near Brussels.

—Mary Clayton Black, daughter of the late Jeremiah S. Black, is to publish during the summer a sketch of her father's life Miss Black acted as private secretary to her father for many years, and is in possession of his papers.

—A Chicago special says that Nina Van Zandt, the wife of August Spies, by proxy, is rapidly failing in health and not likely to live long enough to learn the decision of the Supreme Court with reference to her husband's fate.

—Miss Winifred Edgerton, who received the degree of Ph. D. from Columbia College last year, is the teacher of mathematics in the New York school of which Miss Rose Elizabeth Cleveland has become the associate principal.

—Under the new rules of precedent at the White House Miss Bayard, although she is the youngest, will next year outrank all the other ladies of the Cabinet. This is because she is daughter of the Secretary of State and presides over his house-hold.

—Two Venetian ladies named Silvestri have formed at Vienna a school for young girls to learn the art of mosaics, and have given them the Palazzo Sceriman in which to work. They execute orders of all kinds, sending the work in sections to any part of the world.

—Mrs. L. F. Baldy, of California, is about to establish a colony of silk culturists in Maryland. A tract of one hundred acres near Odenton will be divided among ten colonists, and by next spring she hopes to have the experiment fully under way. She proposes to raise grapes along with the silk-worms, as the worms require but six weeks of care. Mrs. Baldy is a member of the Woman's Silk Culture Association of the United States.

—Dr. Mary F. Thomas, of Richmond, Indiana, sent a very able paper on "Heredity" to the recent annual meeting of the Indiana State Medical Society at Indianapolis. Dr. Thomas could not be present, and the paper was read by Mrs. Mary E. Haggart, of Indianapolis. The character of the paper, and the excellent manner in which it was read, secured the earnest attention of the members of the Medical Society.

—Miss Helen Gray Cone, whose poems have given her a prominent place among our young women of letters, and Miss Jennette L. Gilder of the "Critic," are at work on a book in two volumes, to be called, "Pen Portraits of Literary Women." The portraits are drawn by the women themselves, and by their contemporaries. With two exceptions, George Sand and Harriet Beecher Stowe, these portraits are of English literary women, from Hannah Moore to George Elliot. A concise biographical sketch of each, written by Miss Cone, is followed by descriptive anecdotes culled from every conceivable source.

Grant's Horse.

General Grant was particularly proud of his stud of horses. His war charger was an especial favorite. He took great delight in exhibiting his horses to his friends with whom he was intimate. Once at his stables with a friend he said, "Perhaps you would like to see the horse I rode during all the campaigns I commanded?" The animal was ordered to be brought out. The gentleman was surprized to find the horse no larger than a lady's palfrey—small, slender, agile-limbed, black as a coal, intelligent, mild, an eye like a hawk, and a lick on the mane for all the world like a boy's cowlick. It was such an animal as women and children would make into a family pet.

The gentleman pronounced the animal a beauty, but expressed a doubt as to its endurance. "Endurance!" said the general; "this animal exceeds in endurance any horse I ever saw. I have taken him out at daylight and kept in the saddle till dark, and he came in as fresh when I dismounted as when I started in the morning. There isn't enough gold in America to buy him. He is an imported horse of fine breed, and was once on Jeff Davis' plantation." This was just before Davis was caught, and the visitor said, "I presume you would exchange the horse for Jeff Davis?" "You have said it," exclaimed Grant; "I would exchange him for his master, but for nothing else in the world."

—A German chemist has invented a new kind of anæsthetic bullet, which he urges will, if brought into general use, greatly diminish the horrors of war. The bullet is of a brittle substance, breaking directly when it comes in contact with the object at which it is aimed. It contains a powerful anæsthetic, producing instantaneously complete insensibility, lasting for twelve hours, which, except that the action of the heart continues, is not to be distinguished from death. While in this condition, the German chemist points out, the bodies may be packed in ambubulance wagons and carried off as prisoners.

Business Directory.

The following Business Directory relates only to persons whose advertisements appear in the BRITISH COLUMBIAN. It has been found true, as a rule, that persons who advertise liberally are liberal in their dealings, and many persons make it a rule to give preference in their dealings to those establishments which advertise freely. The following list is arranged alphabetically:

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. Retailed by A. M. HERRING and D. S. CURTIS & CO., New Westminster; T. McNEELEY, Ladner's Landing; H. ADCWELL & CO., HASTINGS SAW MILL CO., THE VANCOUVER [illegible] CO., Vancouver; W. E. McCARTNEY & BRO., Vancouver and Kamloops; J. B. LOVELL, Yale; W. R. MEGAW, Priest [illegible]alley; H. CLARK & CO., Kamloops. dwsc23y1

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

☞ **Persons sending in advertisements should be careful to state whether they are to appear in the Daily Edition, or the Weekly, or both.**

D. ROBSON, Manager.

NEW ADVERTISEMENTS THIS DAY.

Gas-Fitting ..... J. Cunningham
Municipal Notice ..... J. A. Robinson

Daily British Columbian

Wednesday Evening, August 17, 1887.

For some hours this morning the river was enveloped in fog.

The *Gladys went up to Chilliwhack* and way ports this morning.

Stone masons and bricklayers are wanted. Wages $5 a day. See adv.

4 carloads of cattle arrived last night from Kamloops, consigned to Mr. J. B. Graves of this city.

We wonder if the board of works intends to have the projecting spikes in the sidewalks driven down!

Excavations have been commenced for the new brick block to be erected on the west side of Tytton Square.

E. S. Scoullar & Co. received this morning from Hamilton, Ont. a new cornice brake. This is the only one in the city.

The WEEKLY COLUMBIAN issued this morning contains 8 pages, and will be found a capital number to send to friends abroad. Per copy, 10 cts.

A man named Monney appeared in the police court this morning on a charge of selling liquor to Indians. He was remanded until to-morrow.

Remember the musical entertainment in the Methodist church to-night by the R. B. George Convention and Concert Co. The entertainment is free.

The Rocky Mountains locust has made its appearance in large numbers in Beaver River settlement, 40 miles from Saskatoon, N. W. T., and has eaten up the crops.

Mr. Jas. Cunningham has decided to erect two new elegant brick residences on the corner of Agnes and St. John st. These will be the first brick residences in the city.

Vancouver is considering the question of a fire-limit. It's about time. A good, healthy fire, with five minutes start, would be apt to blot out a great part of the wooden city.

Next Sunday Rev. Dr. Reid will occupy the pulpit of St. Paul's church in this city. At the evening service he will induct the Rev. T. Haddon to the pastorate of the church.

Messrs. Beckett & Co., of this city, have been awarded the contract for the erection of the Lord Durham block, Vancouver. The block will be of brick, 60x66 feet, 3 stories high.

The stone foundation of the Masonic-Oddfellows' bulding is making good progress. We understand that the corner stone will propably be laid next week with Masonic and Oddfellows' honors.

The str. Rainbow arrived last evening at 6 o'clock from Victoria. She brought over a large cargo of freight, including a quantity of California fruit for city merchants. She left this morning at 7 o'clock for Victoria.

Consignees per William Irving: H. Morey, 1 box apples; J. Wilson, 1 box apples; Jas. Kepp, 3 buggy tops; A. Revesback, keg butter; G. Black, 1 box cheese; A. C. Wells, 3 bales hay; R. wickinson, 2 calves; S. McKee, 2 hogs; Rousseau, 1 hide.

Mr. W. L. Fagan, of this city, received last evening a despatch from his son-in-law, Mr. J. M. McGovern, of Port Arthur, stating that Deputy-Warden Fitzsimmons and Inspector Moylan passed through Port Arthur yesterday in charge of the four prisoners on their way to Kingston.

The benefits of the fire-limit by-law passed in this city are now appearing. The by-law was hotly opposed in certain quarters, but we are sure there is no one who will not now admit it to be one of the best by-laws ever passed in the interest of the city. As a result of it look at the numerous stately brick blocks rising everywhere!

With a view of developing still further the passenger traffic between this city and Vancouver, which has already attained such proportions as to require two daily trains the C. P. R. is now issuing round trip tickets for $1.50. These tickets will be good to go on one day and return the next and to go on Saturday and return Monday. This is a very commendable action on the part of the railway and is another inducement to stimulate travel.

MORE CANS.—The run of salmon in the Fraser has been so large that in many of the canneries all the cans have been filled, and large numbers of men are at work making new cans for the spring salmon which will soon put in an appearance.

DETAINED FOR POSTAGE.—The following letters are detained for postage at Westminster post office: Jack Ynan, Ladner's Landing; H. Enrikoe, Spallumcheen; Mrs. R. Brook, Moodyville; M. P. Campbell, Butler, Ind.; David Kerr, Sydney, Australia.

SOME PLUMS!—To-day Mr. W. H. Burr, of Royal Avenue, left at this office a dozen blue plums which average 4 ounces each. They were grown in his own orchard, but the exact position of the tree may as well not be disclosed. Mr. Burr invites anybody who has plums to lay twelve of them beside his.

THE SUNDAY LAW.—We are sure every one will be glad that the city council paid no attention whatever to the demand of the vintners for the repeal of the Sunday-closing by-law. In matters of this sort the opinion of the majority must prevail, and we believe a majority of the citizens as well as of the council are in favor of Sunday closing.

AND STILL ANOTHER.—Mr. H. Harvey, of Front st., has decided to put up a brick building on the lot he lately purchased near the Telegraph Hotel. The building will be 45x60 feet, but the height has not yet been determined. It is expected that work on this new block will be commenced very soon. The building boom in this city is certainly very extraordinary.

MORE OF GREER.—Greer is still up to his elbows in law. The C. P. R. men having molested some of his personal property in their attempts to force a way through his premises, he has had several of these arrested and is hunting about for the rest. Nobody need be surprised at any development in this remarkable fight between a powerful corporation and an individual backed up by a large number of speculators.

FRUIT CAR.—In order to secure rapid transit for California fruit coming to this city the C. P. R. has arranged to send a special car from Vancouver every Tuesday. This car will connect with the San Francisco steamer, and will arrive here at 13 o'clock. The delay avoided by this arrangement will be very important to fruit dealers, and the fact seems to be a proof of a desire on the part of the railway authorities to furnish every reasonable facility for meeting the requirements of the royal city trade.

CONSIGNEES PER C. P. R.—W. Morrison, 1 keg brandy; P. Billadeaux, 1 keg brandy; F. Burgoyne, household effects; J. Ellis, 1 case settler's effect; M. Ross, 17 cases fruit; W. McKeen, 7 cases fruit; R. J. Armstrong, 10 cases fruit; collector of customs, 52 cases fruit; F. Eichoff, 13 boxes biscuits; R. C. P. mills, 19 boxes biscuits; Wm. McColl, 20 boxes biscuits; McDonald Bros., 36 boxes biscuits; McDonough, 60 boxes biscuits; Jas. McColl, 6 boxes fruit; C. J. Robson, 11 boxes fruit; M. Hayes, 6 boxes fruit.

MORE HEDGING.—Our esteemed cotemporary of the Vancouver *News* has not abandoned the circulation matter yet. We thought he had. In his issue of this morning he devotes over half a column to the subject without ever touching once upon the point at issue. We have asked him over and over again to accept our challenge as it stands, or point out wherein it is unjust or unfair. He obstinately refuses to do either. Until he does one or the other we must decline to entertain any counter proposal. Surely nothing could be simpler or fairer than this.

DIVIDED AGAINST ITSELF.—The *Guardian's* sub-editor (Mr. Kelly) was at Vancouver last Sunday, and in this morning's issue of that sheet he gives his readers a few pointers. The statement, by the way, is in the shape of correspondence (which is a favorite resort of the sub-editor). In it he says "the city site is well chosen." But the regular editor of the *Guardian* has all along been telling us a very different story. He has declared the site to be very bad, and altogether unfit for a city. The sub is more accurate in this instance than the chief, for all unprejudiced persons will admit that Vancouver is an excellent site for a city.

Stanley's Death.

A despatch will be found among our telegrams this afternoon conveying the sad intelligence of the death of Stanley, the celebrated African explorer. This news will awaken a feeling of profound sorrow throughout the whole world. There is scarcely a corner of the globe where the fame of H. M. Stanley has not penetrated. Since 1872, when he started on his memorable journey to find Livingston, the civilized world has been keeping an eye on all his movements. He has met death in the harness, risking life for the rescue of a brave man who, like himself, has been engaged in the work of civilization. It is to be feared the fate of Stanley may involve also the abandonment of Emin Pasha, and, perhaps, the collapse of a great scheme for the civilization of the heart of the dark continent. Further developments will be awaited with much interest.

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressing feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

Personal.

Geo. Hayes came down from Kamthis morning.

Mr. Corbett (Kennedy & Corbett), Illicillewaet, is in the city.

D. E. Brown, C.P.R. district passenger agent, was in the city to-day.

Mrs. H. Abbot and Miss Abbot came in on the noon train from Vancouver.

Rev. J. M. King, D. D., Principal of Manitoba College, is in the city and is the guest of Rev. Thos. Scoular. Dr. King will remain in the city until next week.

Hon. Thos. White and party returned to Vancouver from Victoria yesterday and left to-day for the east. They will stop a few days at Harrison Hot Springs.

J. G. Jaques will leave for Illicillewaet to-morrow. Mr. Jaques is interested in the claims of the Illicillewaet Mining Co., and goes to look after the interest of the stockholders.

Passengers per str. Rainbow last night from Victoria: Mr. Haugh, Miss Haugh, J. H. Chase, Jno. Morrison, R. McDougall, W. Minowgraw, Miss E. Haugh, A. Bernard, Geo. Houghton, Jas. Ward, John Brown, Hutcheson, 1 Indian and 20 Chinamen.

K. Ito, a distinguished Japanese, who has been in the city since Tuesday left to-day for Vancouver. K. Ito has been travelling in America and in Europe during the last 16 months, and is now on his way to Japan. He is accompanied by a travelling companion, and will leave for Japan by the next steamer for Yokohama.

John Leckie of Toronto and J. S. Huntoon of Hamilton left for home on the C. P. R. at noon to day. Mr. Leckie has spent some weeks on the coast and has made a most successful business trip, having taken orders for upwards of $75,000 worth of twine and other fisherman's goods. Mr. Huntoon, who is a retired millman, made the trip for pleasure, and goes home highly gratified with what he has seen.

R. C. Bruce, druggist, Tara, says: "I have no medicine on my shelves that sells faster or gives better satisfaction than Dr. Thomas' Eclectric Oil, and the sale is constantly increasing, the past year being the largest I have ever had. One of my customers was cured of catarrh by using three bottles. Another was raised out of bed, where he had been laid up for a long time with a lame back, by using two bottles. I have lots of customers, who would not be without it over night."

Gilbert and Sullivan are said on the authority of a London newspaper man, who is very close to the D'Oyly Carte management, to be preparing an opera on an American subject with special reference to the Wild West craze, which Buffalo Bill has made fashionable in England. Cow-boys, scouts, and good and bad Indians will figure in it extensively, and it will be produced simultaneously in London and New York.

A remarkable haul of fish is reported from Newport, Pembrokeshire, England. A small party of boatmen engaged in salmon fishing in one haul caught 103 fine salmon, weighing considerably more than half a ton. The weight in the nets was so great that the fishermen were unable to haul them into the boats for some hours. A few days previously the same fishermen caught 66 salmon in one haul.—*Truth.*

IT IS A REMARKABLE FACT that Dr. Thomas' Eclectric Oil is as good for internal as external use. For disease of the lungs and throat, and for rheumatism, neuralgia, crick in the back, wounds and sores, it is the best known remedy, and much trouble is saved by having it always on hand. Jacob Loockman, Buffalo, says he has been using it for rheumatism. He had such a lame back that he could do nothing; but one bottle entirely cured him.

At Jeddah, on the Arabian shore of the Red Sea, is the tomb of Mother Eve. The grave is 160 feet long and 5 wide, surrounded by a wall, and crowned by a small mosque. The holy of holies is a black meteoric stone polished by the kisses of the faithful. The most regular visitor is the wandering Bedouin. Father Adam lies under the forest-clad slopes of Adam's peak in Ceylon.

A simple-minded Nebraska farmer, guarding his melon-patch with a shotgun, mistook his mother-in-law for a skunk and killed her. The calamity is in the highest degree pitiable, but there is nevertheless a suspicion in the neighborhood, based on past domestic unpleasantnesses, that Hiram Schoonover, even at 10 o'clock at night, in a corn-field, knew a skunk from a mother-in-law.

There is a good deal of food for contemplation in the remark attributed to a Pacific Coast Chinaman. He was taken to see one of the booming new towns, where all the outlying country was laid out in city lots, and he took it all in. When he returned home he was asked what he thought of it, and he answered, "Too muchee by-and-by."—*Hartford Courant.*

Mr. Ruskin, in a recent letter, says: No man should marry till he has made himself worthy of a good wife and able to maintain her and her children in comfort. And he should choose her as he would choose his destiny—with range of choice from earth to heaven. No man should marry under 24; no girl under 18.

One of Buffalo Bill's Indians disappeared the other day, and it was feared he had committed suicide by drowning in the Thames. He returned a few days later, however, and explained that he had merely taken a run over to Dublin "to see his ould mother."—*Norristown Herald.*

Out of twenty young men who competed for a West Point cadetship at Westfield, Mass., ten were rejected by the physician because they had "the tobacco heart," brought on by cigarette smoking. They were unfit for West Point service.

The traffic receipts of the C.P.R. for the week ending Aug. 7th were $38,000, an increase of $19,000 compared with the corresponding week last year.

"I take only one English weekly paper, *The Spectator*, and one Canadian, *The Week*; and as a rule I should be puzzled to say which I should miss most."—From a letter by Thomas Hughes, author of "Tom Brown's School Days."

The Week:

A Canadian Journal of Politics, Society and Literature.

PUBLISHED EVERY THURSDAY, AT $3.00 PER ANNUM.

Independent in politics, THE WEEK appeals by a comprehensive Table of Contents to the different tastes which exist within the circle of a cultured home.

An average of fifteen short, crisp Editorials is given in each number upon CANADIAN, AMERICAN, and ENGLISH POLITICS and LITERATURE.

Amongst the regular contributors is Professor Goldwin Smith; and a distinguished public man in London has kindly undertaken to supply regularly an English Letter. Paris and Washington Letters will appear at regular intervals.

In addition there are special contributions from some of the ablest writers in the Dominion and the United States.

THE WEEK

has now entered upon its third year with most encouraging prospects, and with many new features.

C. BLACKETT ROBINSON,
5 Jordan St., Toronto, Ont.

Sample copies free on application.

THE WEEK is one of the most influential journals in Canada.—*Truth*, London, England. fe13

Fire! Fire!

TESTIMONIAL!

Vancouver, 23rd June, 1886.

MR. G. ROBERTSON,
Vancouver:
Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

L. A. Hamilton, for the Canadian Pacific Railway Company; M. A. MacLean, Mayor; John J. Blake, Stipendiary Magistrate; Rich'd. Alexander, Justice of the Peace; John Boultbee, Police Magistrate, City of Vancouver; Thomas Dunn, Justice of the Peace; Isaac Johns, Col.; Edward E. Rand, Real Estate Broker; R. Balfour, Alderman; John Rankin, Real Estate Broker; Pither & Edson, Royal Hotel; H. F. Keefer, Contractor, C. P. R.; J. W. McFarladd, Port Moody, to Vancouver and English Bay; F. C. Innes & Co., Real Estate Brokers; A. W. Ross, Real Estate Broker; Gravely & Spinks, Real Estate Brokers; R. C. Ferguson, Mgr. R. C. P. Mills. je30tc

THE BRITISH COLUMBIAN Printing Company (LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is enconsistt with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. Address all communications and remittances to

D. ROBSON, Manager.

New Westminster, Jan. 28, 1887.
