W. W. McLellan, Lyn N. S., writes: "I was afflicted with rheumatism, and had given up all hopes of a cure. By chance I saw Dr. Thomas' Eclectric Oil recommended. I immediately sent (fifty miles) and purchased four bottles, and with only two applications I was able to get around, and although I have not used one bottle, I am nearly well. The other three bottles I gave around to my neighbors, and I have had so many calls for more, that I feel bound to relieve the afflicted by writing to you for a supply."

O'BRIEN'S SUNDAY IN MONTREAL.

MONTREAL, May 15.—O'Brien had the quietest time yesterday that he has had since he crossed the border and entered the Dominion. Prominent public men of the two nationalities called on him during the afternoon at his hotel, but he felt so fatigued he relieved himself from all further public notice by locking himself in his room and attending to dispatches from his friends in Toronto, which have been many and frequent. O'Brien went to high mass to-day and in the afternoon attended a national league meeting in St. Patrick's hall, which was crowded by an audience which cheered the Irish agitator and the evicted tenant Kilbridge. O'Brien made characteristic speeches here and at two receptions given him later in the day. The enthusiasm was unbounded whenever he appeared.

SAN FRANCISCO, May 15.—Advices by the steamer Zealandra say that 85 bodies, victims of the Ballie colliery disaster near Sydney, New South Wales, have been recovered. An inquest resulted in a verdict that the explosion was due to a disregard of the rule prohibiting miners working where gas existed.

Daily British Columbian

Monday Evening, May 16, 1887.

Our cotemporary of the Vancouver *Herald* thinks we may have to wait long enough before the public schools come under the management of local school sections if we have to wait until municipal government has been extended to all parts of the province. But no one proposes to wait such a length of time. What the COLUMBIAN said was that the time for committing the public schools to local control, to be provided for by local taxation, had not yet arrived, inasmuch as a great part of the country is still without the machinery of local government. We think so still. In small settlements it is doubtful if the cost of carrying out a system of local taxation merely for school purposes would not be considered very burdensome. The cost of making assessments and collections for the school would be just as much as for the whole municipal work as well, and it would amount to a very large percentage on the sum realized. And it is very questionable if this system would result in establishing any more schools, or in making them any more efficient, than under the present plan, where the conditions necessary for municipal government were not found. In a few years it is altogether probable that several new municipalities will be formed in this province. Population is rapidly increasing, and the benefits of self government will keep pace with settlement. We do not think the *Herald* can justly charge the government with lack of interest in the schools, or with a disposition to deny school privileges to new settlements. On the contrary, it has shown great concern and singular liberality in the question of education.

Nanaimo's silent appeal to the civilized world in the hour of her terrible distress is being met with a noble response. From quarters where assistance was scarcely looked for, it has come most generously and promptly. There is, perhaps, no more singular case than that of Seattle, in Washington Territory. From this single city, not much larger than Victoria, the relief subscription is now nearly $3,000. The Victoria list shows over $3,000. Vancouver will probably not fall short of $2,000. Westminster will go nearly $3,000. San Francisco will amount to probably $7,000. This is in addition to many smaller sums from various parts of the province, which will be supplemented undoubtedly by substantial contributions from the wealthy cities of the east. A considerable number of those who were overwhelmed in the Nanaimo catastrophe were members of various benefit societies, and the amount of insurance will be considerable. It is hoped the sum available for the bereaved and destitute families of the miners will, including insurance, reach at least $100,000. It ought not to be less. The responses that have been made from private purses indicate the existence of a large amount of philanthropic sentiment in the hearts of the people of this coast. When the cry of distress is raised, one does not stop to consider whether it is a British subject or an American that is in need of help. The boundaries which have been erected for political purposes instantly disappear, and every man sees in his fellow-man a brother and recognizes his personal responsibility. This spirit is most commendable, and its existence is one of the hopeful signs of the times.

The warm weather has come, and with it a plentiful supply of mosquitoes. In a short time we shall be forced to look after our drainage and the condition of our back yards. This is a year in which there may be a call for special precautions against disease. Small-pox prevails in San Francisco, and cholera has reached South America. In these days when all civilized nations become neighbors by reason of rapid transit and intimate intercourse, it is difficult always, and sometimes impossible, to enforce quarantine regulations in such a way as to shut out the germs of great epidemics. But it has been demonstrated with certainty that cleanliness and correct habits of life are among the most important safeguards against all disease. Cholera and small-pox have little hold on cleanly and temperate. They follow the scent of pollution, and as a rule go straight by the houses of the cleanly and the temperate. In this city there seems to have been very little attention hitherto paid to sanitary matters. We have been singularly free from epidemics. Our city stands like the face of a hill, where there is natural drainage, and with ordinary attention to the simplest principles of health we should have very little fear of anything. But there are, nevertheless, many places in the city which invite the growth of disease, and we earnestly hope the proper authorities will take such steps as may be necessary to expunge these blotches. Our city is growing rapidly; it has been growing for some years, and it is sure to keep on growing for years to come. Its situation is so excellent and its surroundings are so well calculated to invite trade and promote enjoyment, that we shall undoubtedly gather around us our full share of the incoming population. Let us not neglect any of the appliances which are to add to the usefulness or attractiveness of the place, and every effort in that direction will surely bring its reward.

W. H. KEARY, Sec.-Treasurer.

J. W. HARVEY; J. CUNNINGHAM.

DIRECTORS' ANNUAL REPORT.

GENTLEMEN—In presenting our report for fiscal year ending 31st March, 1887, we beg to state that it will be an utter impossibility to run the hospital free of debt on the grant just voted by the government for the ensuing financial year.

The surgeon has been attentive in his duties and reports a large increase in the number of patients admitted during the year, shewing also that we have received patients from all parts of the province.

There are a number of incurables in this hospital, some of whom were brought from Victoria hospital years ago. The sum of $1,000 a year has been voted for a convalescent home in Victoria, the last few years. The Board think, therefore, that some of these incurables should be shipped back to Victoria.

A great number of improvements have been made during the year, walls and floors repaired, a wash-house built, the two cesspools thoroughly cleaned; the building being old, requires constant repairs; which entails considerable expenditure.

The hospital has been filled to its utmost capacity during the whole year.

The Board desire to thank subscribers for generous substriptions, lists of which are annexed, and without which it would have been found impossible to have kept the institution free of debt; also the congregations of Holy Trinity Church, St. Andrew's (Presbyterian), Methodist and Baptist Churches for hospital Sunday collections, and the following ladies and gentlemen for old clothes, linen, books, papers etc.:—Mesdames C. T. Woods, C. E. Woods, Major, Lennie, H. Elliot, W. J. Armstrong, W. B. Townsend, Douglas, Edmonds, J. W. Harvey, Baker, W. H. Keary, D. Hennessey, Cummings, A. M. Herring, Bronskill, Sisters St. Ann's Convent, ladies W. C. T. U., Bachelors' Ball Hatchery, Messrs. I.B. Fisher, Z. S. Hall, R. I. Bentley, J. S. McDonnell.

The surgeon's report is appended hereto, and gives full details of the work accomplished for the year.

The average cost per day for each resident patient in the hospital, which includes the disbursements on out-door patients, is 67 cents.

W. H. KEARY,
Hon. Secretary.

SURGEON'S REPORT

FOR YEAR ENDING 31ST MARCH, 1887.

To the Members of the Board of Directors:

GENTLEMEN.—I have the honor to herewith present the report on this Hospital for the year ending 31st March, 1887:

" Remaining in Hospital	18
" Died	14

Causes of death of the fourteen who died and length of time in Hospital:—1 typhoid fever, 6 dys; 1 alcoholism, 13 dys; 1 effects of fire at Vancouver, 4 mos. 10 dys; 1 bronchitis, 4 dys; 1 inflamation of bowels, 8 dys; 1 consumption, 2 mos. 26 dys; 1 syphilis; 9 dys; 1 paralysis, 4 dys; 1 aneurism (popliteal), 4 mos. 26 dys; 1 general debility, 2 mos. 27 dys; 1 aneurism (arota), 13 dys; 1 old age, 4 dys; 1 paralysis, 23 dys; 1 dropsy, 5 dys; total, 14.

Although the number of deaths is large the short number of days in the Hospital of a large proportion of them shows that they came in in a hopeless condition.

The places where the indoor patients were received from are as follows:

Victoria	5	Ladner's Landing	2
Cariboo	1	Langley	2
Kamloops	5	Clover Valley	1
New Westminster	25	Harrison River	1
Bonaparte	1	Mud Bay	3
Yale	4	Chilliwhack	1
Port Moody	6	North Arm, Fraser	1
Hastings	4	Boston Bar	1
Moodyville	3	Cassiar	1
Port Haney	2	Fraser River	2
Vancouver	22	Mission	2
Hope	1	Pitt Meadows	1
C. P. R.	9		
Total	103		

The number of incurables now in the Hospital is twelve [12]. This large number requiring to be taken care of from year to year renders it impossible to make a number of desirable improvements in the building, owing to the limited supply of funds. I have introduced the table of residences to show the people of British Columbia that they all ought to take an interest in helping on this institution, which is increasing in usefulness every year, as may be seen by comparing the number of indoor patients of the previous year—seventy-five (75)—with this year—one hundred and three (103).

We still require a lot of draining to be done about and from the building. The floors and walls have been improved and the new wash-room is a great addition to the comfort of the place.

I have great pleasure in thanking a number of friends of the Hospital for presents of clothes, old linen, pictures, books and papers. Again I have to thank the steward, Mr. Charles Digby, for his constant attention to the cleanliness of the building and his kindness and attention to the wants of the sick and his readiness in carrying out all my directions. Before closing this report I must offer my sincere thanks to the medical gentlemen who so kindly offered their assistance to myself whenever required during the past year.

I am Yours Faithfully,
R. I. BENTLEY, M. B.,
Surgeon R. C. H.

TREASURER'S REPORT.

In presenting the accounts for the past year, the Treasurer begs to call attention to the fact that the outlay has been rigidly scrutinized; in which he has been ably assisted by the Steward, Mr. Digby. There seems little prospect of any reduction of expenditure. You will notice that the subscriptions have been liberal and have been a great assistance in keeping the institution free of debt. It is to be regretted that the Government have reduced the grant to the Hospital from $1,500 to $1,000.

W. H. KEARY,
Treasurer.

1878. GRIP! 1887.

CANADA'S COMIC JOURNAL

GREAT IMPROVEMENTS FOR 1887.

THE AIM OF "GRIP" is to set forth, in in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than who'e columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper—though the latter is equal to that of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being soarlistically executed as to compare favorably with the best papers on the continent. The advts. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be $4 a year, which is lower than that of any paper of its kind in America,—most of them selling for $5. Single numbers of *Grip* will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced, particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.

GRIP'S PLATFORM:

Humor without Vulgarity;
Patriotism without Partizanship;
Truth without Temper.

Only $4 a Year, Postage Free.

Address the Grip Printing and Publishing Company, 26 and 28 Front Street, West, Toronto; or leave your order with your bookseller or other local agent. feld

SOMETHING ABOUT FRET-WORK.

[illegible]

"There is a great deal people don't know about the art of fret-sawing," said a well-known artist in fret-work in response to the inquiries of a reporter, "and people would wonder, too, if they knew how simple it is and how it is becoming the fashion.

"Take, for instance the latest design of a cabinet of fret-work. Nothing like it has ever been produced in the art of fret-sawing. Indeed it is hard to conceive of the effectiveness of the appearance of such an article when constructed out of differently colored and properly selected woods, and when you think that it is possible for a boy to construct such an article from the pattern, you begin to realize the real value of the fret machine.

"Such a cabinet stands from the base to [illegible] inches across and 15 inches deep. The front of the first section is [illegible] with panels; in the centre [illegible] the second section are four drawers, and at the ends folding doors, back of which are receptacles for knick-knacks; the third section, when open, forms a lady's writing-desk, and the fourth, two doors open upon a mirror, fifteen by thirty inches in size, and on [illegible] small doors which open into receptacles for a lady's toilet articles. The table is surmounted by a castellated top.

"The [illegible] cost but $5, and [illegible] when made up, will [illegible] an article of furniture as any that can be bought at a furniture store for from $200 to $300. Besides the beautiful results obtained by this work, there is money in it.

"I can tell you [illegible] a case in point. A young man who found it impossible to obtain employment became possessed of a foot-power scroll-saw and by its aid made brackets, card-baskets, match-boxes, frames and other articles, which gave him when sold a clear profit of $5 a day.

"Hundreds of others here earned $50 to $100 by the sale of work [illegible] More than 30,000 foot-power scroll-saws have been made and sold to parties who are now using them for pleasure or profit, and besides there are probably three times as many more who use the ordinary hand-saw.

"From a square foot of black walnut I have known to be made in a few hours a handsome clock-case worth at least $4 and the material costing but ten cents. A piece of ebony, worth about a penny, furnished enough material for a cross for which a person would gladly have given a couple of dollars.

"A square foot of good black walnut will be sufficient to make four or five pretty brackets which will readily sell for 20 cents each.

"What about the wood that is used in fret-work?

"There are more kinds than you imagine. First comes white pine, useful particularly for lining the bottoms of boxes, etc. Then there is Spanish cedar, easily obtained from cigar boxes, but really only suited for coarse work. Butternut, also known as white walnut, cuts clean, but is soft and not adapted for delicate designs. Red cedar and white juniper are both handsomely marked, though difficult to cut successfully, because they are picky. White poplar is very useful to the fret-sawyer, as also is basswood, furnished by the lime tree.

"But the highly ornamental goods are black walnut, white holly, ebony, mahogany, rosewood and satinwood. Besides these there are the tulipwood, olive, bird's-eye maple and Hungarian ash."

"You cut other material than wood in fret-work?"

"Yes, there are ivory and tortoise-shell, for instance. There are two varieties of elephant ivory, the Asiatic and African. The latter is more opaque and dead white than the other.

"But the hippopotamus supplies ivory which [illegible] harder and far more valuable than that of the elephant, being [illegible] from [illegible]

"An interesting fact about ivory in connection with this work is that it requires seasoning the same as wood and is very liable to crack and warp when subjected to changes of temperature. It costs $6 to $8 a pound in the rough.

"Tortoise-shell can be applied to the same purpose as ivory.

"Mother-of-pearl is another of these choice materials that can be used by the fret-sawyer."

An invention is reported from Turin. It consists in the application of light-giving material to [illegible] by which [illegible] becomes luminous in the dark, so that in future it will be possible to read at night, [illegible] during a journey without the assistance of a candle or lamp.

A new daily paper in which the lumino[illegible] will be used, it is said, [illegible] to be published at Turin.

KEROSENE LAMPS.

General Misunderstanding about Their Care and Use.

Of all misunderstood things in daily life the use of the kerosene lamp probably stands at the head.

First, a lamp is bought and fitted for use, and then filled day after day, and after a longer or shorter period does not give as good a light as it used to; then come complaints to the oilman or grocer about the quality of the oil, when a little reason and judgment used would remedy the fault and remove the cause of complaint.

If persons using a lamp would remember that the lamp is a machine resembling the furnace and pump, and endeavor to learn the principle of using oil, much trouble would be saved; for while no one expects to use a large machine without learning how to work it, any one can use a lamp.

Now, the wick is the pump to bring oil from the fount to the blaze, and, as there is always more or less dust and dirt in the oil, the wick soon becomes clogged up, and cannot pump oil fast enough for a good light; so a complaint is made, when a new wick would remove the cause.

Then, as we burn oil out, the lightest part burns, leaving the heavy oil; and, as the lamp is filled day by day, the oil gets so heavy that the draught is not strong enough to pump it up, when the oil should be all turned out of the lamp and it refilled with fresh oil.

And then the burner, after a time, gets gummed up, and the even flow of the oil is disturbed, and causes a smoky, uneven light which is vexatious. I have often had burners brought into my store condemned, and a new one wanted, when by two minutes' work they were made as good as new. When the wick needs cutting, some scrape it off; others cut it so uneven that it makes a pointing blaze which so provokes one that he wants to condemn it.

If a little reason and thought were used in everyday life, we would soon find that lots of our discomforts would be very easily overcome and banished; but things go on in a slipshod manner, year after year, with no thought of improvement.

But to resume, the burner is furnished with a great number of small holes to provide air, to the end that perfect combustion may take place, and not to collect dust and dirt until they are clogged up, and a smoky, bad-smelling light is the result.

Now, if in using kerosene we fill the lamp up with white oil every day, and once a week empty back the oil which is in the lamp, and use a new wick, or, if even and true, every week or once in two weeks, and are sure to have the lamp burner clean, and a clear, nicely polished chimney used,, we will find that the kerosene lamp is a cheap and great luxury, and not, as is often the case, a necessary nuisance, which has to be used for lack of anything better.

A little care daily in using the lamp makes all the difference between luxury and nuisance.—[The Analyst.

Bridging the Chasm.

While we were tramping over the battlefields around Marietta, Ga., the young man from Connecticut grew sweet on the pretty daughter of the widow with whom we boarded. It was love at first sight, and they went in heavy.

Our guide had been an old Reb soldier, and when he saw how things were going winked the girl to a seat on the wash-bench behind the house and said:

"Now, Lucy, this 'ere orter stop."

"What 'ore?"

"In love with that feller."

"Hain't I a right?"

"No gal. Me'n your old father served in the ranks together. We fit agin them Yanks together, and together we cum home kalkerlatin' to hate 'em as long as we lived. 'Twouldn't be right fur you to go back on your dad that way."

"Jim Skuce," she replied as she stood up to wave her arm, "mebbe ye never heard suthin' 'bout bridgin' the bloody chasm And shakin' hands across the ditch.

"I know pap was a fighter but after he'd been home a year or two, 'long came a Yank one day looking for land. He had a bottle o' whiskey, and he and pap sat down on this very bench and fit them old fights over until both got drunk and fell in a heap.

"When they woke up they began to shake and bridge, and they kept it up till the Yank hurrahed for General Lee, and pap hollered for General Grant.

"Now, you shut! If you don't want to bridge [illegible] your nose [illegible] up to the weather but don't you go to [illegible] fetin' with me.

"Dad fidgeted, maw fidgeted, but I'm going to climb out of one hole and hustle for a Yankee husband!"

They were engaged before we left.—[Detroit Free Press.

The Universal Name.

It was not long ago that a friend of the writer was traveling with a party of excursionists in the mining regions of Pennsylvania. She was a single lady, and did not know any of her male companions even by name.

She went down into a mine with the other tourists, and with a woman's natural curiosity thought she would investigate a little for herself.

The consequence was that she got lost, and found herself in a labyrinthine passage, whose windings she could not follow to the sunlight. Vague visions of death by starvation floated before her mind, and she was puzzled for a few minutes to know what to do.

Feminine wit finally came to her aid, and she shouted at the top of her voice:

"John!"

Presently the answer came back:

"What do you want?"

"I wish you would help me to find my way out of this hole," was the reply, and almost immediately a manly form was at her side which dexterously piloted her to the open day.

She was not acquainted with her kind rescuer, but she said she was sure there was a John in every crowd, and could make no mistake if she called for him.—[Boston Budget.

Wanted the Wishbone.

Florence, aged four, demanded as her perquisite the wishbone of every fowl brought into the house.

One day she was carefully arranging her collection when her father came into the room.

"Father, [illegible] is you going to die?"

"Why, yes, Florence, we must all die some time," he said, touched by her earnest look.

"Father, when you get done dying I have your wishbone!"

She was away with her mother and she indited an epistle (in her mother's handwriting) to her papa.

She had [illegible] what she thought poetry, was named Helen Marguerite, and she wrote:

"Helen Marguerite's eyes fell down her stomach and her head fell off, and I'm so sorry. I want you, papa, to go and get me a pair of twins from Dr. ——. I want some babies to play with."—[San Francisco Chronicle.

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Diseases and Complaints attendant thereon, successful treatment was practically impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worst immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof!

THE BRITISH COLUMBIAN Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes a may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

The poles for the new electric light have been erected at Vancouver, and the building is in course of erection. By jubilee day it is expected from 300 to 400 lights will be in operation.

Donald has had its fill of sensation within the past week. What with four bodies found in the Columbia and three shooting affairs, one of which is probably fatal, Judge Vowell has his hands pretty full.

A NEW SUIT.—We congratulate the *News* on its spring dress.

THE FIRST.—Messrs Manahan Bros. began making brick to-day for the first time this season.

RELIEF FOR NANAIMO.—Mr. Gordon has collected $850 among the members of the house of commons for the Nanaimo relief fund.

RAILWAY SOUTH.—Mr. Chisholm's bill to incorporate the Westminster Southern Railway Co. has passed a second reading in the house of commons.

A NEW HOUSE.—Mr. Jas. Laidlaw, the canner, intends erecting a splendid residence at Sapperton. Construction will be gone on with very shortly.

DISALLOWANCE RETAINED.—In the railway committee Sir Hector Langevin said it was the intention of the government to retain the disallowance policy. They must keep faith with the Canadian Pacific railway.

GENEROUS.—One of our citizens the other day received $12 fees as witness in the Chearer murder case. He immediately handed it over to the Nanaimo relief fund, and promised besides to give two barrels of salmon. Such generosity is most praiseworthy.

SAVINGS BANKS DEPOSITS.—The following is a statement of the balances at credit of depositors in government savings banks in British Columbia on March 31, 1887:

Victoria	$1,566,661.60
New Westminster	289,717.42
Nanaimo	252,030.50

WHERE IS HE?—Some time last winter Mr. Zed S. Smith made agreement with the citizens to sprinkle the business streets during the summer months. If Zed is going to carry out his agreement it might be advisable for him to go at his labors at once, as the dust was flying pretty freely today.

A PERNICIOUS CUSTOM.—On Saturday evening Constable McBroom arrested a Chinaman in the swamp for selling liquor to an Indian. On searching the prisoner an iron bar about a foot long and about three-quarters of an inch in diameter was found on him, in one of his inside pockets. This would prove a very formidable weapon in the hands of anyone evilly disposed. The constables say that nearly all the Chinamen in the city carry some concealed weapon on them, either a knife, a thug or an iron bar or ball.

THE NANAIMO DISASTER.—All but the bodies of 6 white men and 11 Chinamen have now been recovered from the mine. Work at South Field is likely to be resumed to-day and the public schools will re-open. At a public meeting held Saturday night a relief committee was appointed. President, the mayor of Nanaimo; vice-presidents, mayors of Victoria, New Westminster and Vancouver; honorary treasurer, S. M. Robins; honorory secretary, Dr. Preger, and a committee of thirty-two, with power to add to their number.

SEASONABLE.—While oranges can be bought for such trifling sums, they should be on the breakfast table in everyhome. The habit of eating fruit certainly should be encouraged in all, and especially in older children. It is said of the orange that it is one of the most useful and agreeable of common fruits. It is exceedingly grateful and refreshing to the palate, and, in the ripe state, it is so little likely to occasion disorder as to be admissible under almost every condition, both of sickness and of health. This is quite true of the juice of the fruit, but the fibrous partitions are much more slowly acted upon by the digestive fluids, and should be rejected by invalids suffering from gastric or intestinal irritations.—*Boston Herald.*

Mr. Henry Marshell, Reeve of Dunn, writes; "Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia." This medicine is making marvellous cures in Liver Complaints, Dyspepsia, etc., in purifying the blood and restoring manhood to full vigor.

Police Court.

[Before T. C. Atkinson, P. M., and Capt. Pittendrigh, J. P.]

Charlie, an Indian, having liquor in his possession, fined $25 or two months in jail.

A Chinaman, for selling liquor to Charlie, the Indian, fined $125 or six months in the chain gang.

Humphrey, Lulu Island; Gilbert Ward, Sapperton; James Prestidge, Surrey; Cyril Goss, Mark Goss, Andrew Rick, Mrs. Miller and three children, Vancouver; John H. McInnis Surrey; Mrs. Mitchell, Miss Magee, James Rowling, North Arm; Wm. Smith, Clover Valley.

Supreme Court.

[Before Mr. Justice McCreight.]

Monday, 16th May, 1887. The appeals by Hector Ferguson and Henry Dawson, two of the councillors of Maple Ridge, against convictions made by W. J. Harris, reeve, and George Howison, J. P., for alleged refusal to serve as councillors, contrary to sec. 47 of the Municipality Act, 1881, came on for hearing to-day. Mr. McColl appeared for the appellants and Mr. Bole for the corporation of Maple Ridge. It appeared that the neglect to attend two meetings of the council constituted the alleged offence. Mr. McColl contended that as the respondents had taken the oath of office the failure to attend two meetings was not a refusal to serve. Moreover, in fact they absented themselves only pending the decision of the question whether fresh letters patent should be obtained, which was a sufficient reason. Mr. Bole admitted that the convictions could not be sustained, but submitted that no costs should be given. His lordship said he could see no ground for departing from the usual rule that costs follow the event. Convictions quashed accordingly, with costs against the corporation.

It is rumored that Herr Blichesders, agent on behalf of three large banking firms in Berlin and four in St. Petersburg, has concluded an extensive arrangement for converting the present outstanding Russian loans into a new issue with the view of raising Russian credit abroad.

A HINT WORTH HEEDING. Life loses half its zest when digestion is permanently impaired. Surely then a speedy means of restoring this essential of bodily comfort is worth trying. Every rank, every profession, bears its quota of evidence to the beneficent influence upon the stomach, and also upon the liver, bowels and kidneys, of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, or celebrated Blood Purifier. What is the wise course suggested to the sick by this testimony? We leave them to decide.

Maple Ridge Council.

Council met May 7th. Members were all in attendance.

Communications re road work and other matters were read and ordered filed.

Appropriations for roads were laid over until next meeting. Councillor Dawson gave notice that at next meeting he would bring in a by-law for the sale of land for delinquent taxes. Road committee's report on Mr. Hinch's claim was adopted.

Mr. H. R. Beckett explained that he examined all the records referring to the road alleged to be 66 feet wide between lots 398 and 401 and discovered that the road was not gazetted. It was resolved that the facts in reference to the matter in dispute be referred to Mr. Bole for a legal opinion.

Road by-law for 1887 received its first and second readings. Statute labor by-law was read a third time and passed.

Application for a new road beat at Port Haney was laid over until next meeting.

The clerk was instructed to write to the surveyor-general in reference to section lines in townships 11, 14, and 15.

Mr. Trembath's claim for fence was referred to the road committee.

It was resolved that an application be made for the extension of the limits of the municipalty one-half mile north, and that the returning officer take a vote of the parties affected by such extension.

Road committee of Ward No. 2 were instructed to locate a road to Mr. Angus Ferguson's farm and employ a surveyor if necessary.

All applications for grants on roads were referred to road committees to report at next meeting.

The clerk was instructed to obtain 1 doz. copies of the Municipalities Act and amendments thereto, for the use of council.

Council then adjourned.

C. A. Liviogstone, Platteville, says: "I have much pleasure in recommending Dr. Thomas' Eclectric Oil, from having used it myself, and having sold it for some time. In my own case I will say for it that it is the best preparation I have every tried for rheumatism."

The Confederation Life.

The annual report of this solidly prosperous Canadian institution will be found in another column. The facts revealed in the accounts and the Directors' report thoroughly justify the ecomiums which the shareholders present bestowed upon the management. Thanks to the resolute manner in which the Company has declined to embark upon extravagant methods of procuring business, the working expenses of the company bear to the total income the very small ratio of between 17 and 18 per cent. A point attesting the soundness of the finances of the Company is the fact that the interest income is sufficient to pay the death claims—which in a company of the age of the Confederation Life is something to be proud of. The assets and liabilities are set forth in minute detail, and the tables show that, after making allowance for all possible contingencies and providing for every debt, there is a surplus of $232,199 over liabilities and capital combined. The increase in the assets in the last year was $260,390. So much for what can be done by rigid adherence to what the President defined as the true policy of the Company, viz:—"To keep its balance sheet right and avoid unnecessary, unwise, or extravagant expenditure for the sake merely of increasing new business." —*Toronto Globe.* T. R. Pearson & Co. are agents for this company in British Columbia. m19tc

WHITE BRONZE MONUMENTS.—White Bronze is a comparatively new substance, and has come into large use, rapidly, for special purposes in this country. It has been found to be so well adapted for statuary and monuments, that companies have been for some time established at Bridgeport, Conn., Detroit, Mich., Des Moines, Iowa, and St. Thomas, Canada, who are making monuments of all kinds and styles. From experiments made by these companies, it has been found that the material will stand exposure for an indefinite period—it is practically indestructible. White Bronze being non-corrosive and unchangeable, it is stated to be equal to gold, silver or platinum, and superior to copper or antique bronze, which throws off a verdigris. The monuments are cast from refined zinc, and are given their sparkling appearance by the sand blast, sand being blown against the work under a high pressure of steam, which cuts the surface, but does not adhere to it. A thin film of oxide which forms on this bronze is indistructible by the elements; it cannot be dissolved by water, and air cannot penetrate it, although the film is so thin as to be immeasurable. No corrosion, it is affirmed, can take place.—*Boston Journal of Commerce.* Chas. J. Robson, New Westminster, is agent for the White Bronze Monuments in British Columbia.
