Sayings and Doings of Josh Billings.

WISE SAYINGS.

It is highly important that when a man makes up his mind tew become a raskal, that he would examine hisself closely, and see if he ain't better konstituted for a phool.

I argy in this way: If a man is right, he kan't be too radikal; if he is rong, he kan't be too konsarvatiff.

When you pra, pra, pra right at the bull's-eye.

'Tell the truth, and shame the devil. I kno lots of people who can shame the devil easy enuff, but the tother thing bothers them.

It iz a verey delikate job tew forgive a man without lowering him in hiz own estimashun, and yures too.

Az a general thing, when a woman wares the britches, she has a good right tew them.

It is admitted now by everybody, that the man who kan git fat on berlony sassage, has got a good deal of dorg in him.

Sticking up yure noze don't prove enything, for a soap biler, when he iz awa from his hum, smells enything.

No man luves tew get beat, but it iz better to be bored with an inch orger than a gimblet.

'Be sure you are rite, then go ahead;' but in case you don't, then go ahed anny wa.

Wooman will sometimes confess her sins; but I never knue one tew confess her faults.

Don't mistake arrogance for wisdom; menny people thought they wuz wise when they wuz only windy.

Men ain't apt tew get kicked out of good society for being ritch.

The rode to Ruin iz always kept in good repair, and the taverns pay the expense ov it.

If a man begins life bi bein' a fust Lutenant in his familee, he need never tew look for promoshun.

Young man, study Difference; it is the best card in the pack.

Honesty iz the poor man's pork and the rich man's pudding.

There iz a luxury in sometimes feeling lonesom.

Lastly—I am violently opposed tew ardent spcerits as a beverage, but for manfakturing purposes I think a leetle ov it tastes good.

The privilege of franking letters is still allowed to members of the Congress of the United States. The postmaster-general has recently made a report, in which he states that the privilege is so abused as to lessen seriously the postal revenue and bring reproach upon the department. One Senator allows his niece to write his name upon envelopes to frank them; patent agents send out their circulars under the frank of a member of Congress; a clerk in one of the departments farms the franks of three members.

From a report made to Congress it appears that the American government has provided 6075 artificial limbs to soldiers—2134 arms, 3784 legs, 44 hands, 9 feet, and 104 other appliances. Twenty-three different manufacturers of artificial limbs supplied the government, and the cost was $357,628.

Miscellaneous.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER.

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

☞ It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with all directions for its use.

Prices 25 cents, 50 cents & $1 per bottle

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their nathral action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

Evening Telegraph.

THURSDAY EVENING, SEPT. 27, 1866.

Canada and the Mother Country.

We have already said the relations of the North American Colonies with the mother country are becoming exceedingly critical and may at any time the ensuing year be mutually dissolved. The past raids and the prospective raids of the Fenians are pregnant with grave national results. Already we see the London *Times* enunciating that despicable selfishness which seems now to actuate the British Government in its dealings with the colonies. The Canadians are loyal British subjects—they have in the face of many disasters clung to British connection—clung to it when it was a serious injury rather than an advantage to them. During the present year they have taxed themselves for the support of an army to defend the frontier from the enemies of Great Britain. They have assumed heavy burdens for protection against foes that would never trouble them but for their connection with England And when their country was invaded—when the Fenians in their hatred to the British Government crossed the Canadian border, they came out manfully and poured forth their blood in withstanding the shock. The incursion was stopped—the raid was suppressed; but Canadian lives were lost and Canadian property destroyed. To whom were the Canadians to look for reparation? Why, to that Government whose citizens had thus wantonly, in time of peace, made war upon an unoffending people. Accordingly a proposition is introduced into the Canadian Parliament demanding indemnity from the American Government for the expense of putting down the Fenian raid. It may be said the United States are equally entitled to compensation for the raids from the Canada side during the civil war, and we admit the proposition; but every case must be dealt with on its own merits; and no principle in international law is clearer than that which makes a nation responsible for the acts of its own citizens. It is only a few years ago that England made reprisals in a Brazilian port as indemnity for the *supposed* murder of a number of British seamen who had the misfortune to be cast ashore on the Brazilian coast. There was nothing clearly proved about the murder of the seamen; but because the Brazilian authorities did not take the steps demanded of them by the British Consul, an English Admiral got instructions to pounce upon Brazilian vessels. The Canadians, however, it would appear are not Englishmen, nor entitled to the protection of Great Britain; or what is right with an inferior power like Brazil becomes wrong with a great power like the United States. The Canadian claims are scouted, and scouted by the English press, before even the American Government can pronounce upon them. The London *Times*, speaking in this instance, as events since prove, the sentiment of the British Government, says:—"The Canadian Parliament has had a most foolish and preposterous proposal submitted to it, claiming of the United States' Government indemnification for the expense of suppressing the recent Fenian raid. Lord Monck's advisers ought to have known that this is a demand not founded on justice or reason, and which the American Government never could submit to. It was a great and incomprehensible error to make it. The Provinces need not be reminded that they are unable to enforce their absurd claim, and in England it can only be regarded with astonishment and disapprobation."

We do not know whether to be most ashamed of the ingratitude or the cowardice of such a position as the above—ingratitude because the sacrifice which Canada made, the loss for which she claims indemnity, was entailed solely because she was a British Province anxious to maintain the honor of Britain; and cowardice, because had the United States been Brazil the London *Times* would have been the first journal to shout for reparation. This is not all—the American Government is not expected to punish the arrested Fenians, and the Canadians are called upon to deal leniently with those who have fallen into their hands. With regard to the first position the *Times* says—"If the Fenians arrested by the United States authorities are convicted, they will doubtless meet with their deserts, but this country can have *no reason to complain if there should appear to be a failure of justice.*" Men, on the mere suspicion of being Fenians, who have never raised their hand to injure anyone, are sentenced in Ireland to the moderate punishment of transportation for life. Fenians in Canada, with arms in their hands and reeking in Canadian blood, are *to be dealt with leniently*; and those caught by the United States authorities are not required to be punished at all. Verily the life of a colonist is estimated at but little value, and the destruction of his property a thing of but little consideration. And why? Because Canada is not Great Britain. What do the noble law-givers of England care if people three or four thousand miles off are cut down and their homesteads burned? The danger is away from their doors. All they have to do is to see that these foolish Canadians in their desire to maintain British rule, do not get them into trouble. Don't hang any Fenians, comes the shout across the Atlantic; don't get us into difficulties with the United States. Bear your troubles patiently, tax yourselves to maintain our connection and be our battle field. Fortify yourselves, turn your able bodied into volunteers and militia, sink the country into difficulties, repel immigration, have your whole frontier in a state of anxiety and insecurity, and when our enemies, not yours for you have got none, rush into your towns and villages and bring the horrors of war to your very hearths, think of the benefits of our connection When you have stayed the invasion, if you really can stay it, and when you demand of your Republican neighbour compensation for your damage, think how sweet will be our response "your claim is absurd, it can only be regarded in England with astonishment and disapprobation."

Does any sane man imagine for a moment that relations like these can last? What are the Fenians to Canada or Canada to the Fenians that they should be enemies! And why is the Canadian youth to shoulder his musket to fight for some old wrongs committed by the Government of England years ago? And then comes the other question, if England gets into war with the United States, we will say for instance on the Alabama claims or the Island of San Juan, things about which the Canadians know nothing and care less, is Canada to be devastated because of her connection with Great Britain? Surely there never was so unnatural a state of things as this; and surely the wise men of both the mother country and the North American colonies will see a way the ensuing year out of the difficulties, by severing a connection, that only brings with it danger and expense, without an equivalent? The enlightened minds of England point this way, and the difficulties which are looming out at present on the Canadian frontier would seem to give a precipitation to the event. Under any circumstances the attachment of England to her colonies is gone. Wrapt up more than ever in herself she cares little about their fate, so long as they do not get her into trouble. So much so indeed has this principle crept into her policy that we believe she is only awaiting the opportunity to get rid of what she considers now a source of weakness and expense—her North American colonies.

FROM PORTLAND—The Fideliter arrived today at 4:30 with 15 passengers.

Mr. George Peabody has made another gift of $100,000 to the Peabody Institute established by him at South Danvers, Massachusests.

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

THE SAANICH OUTRAGE.—The ruffian who committed the atrocious outrage on the Saanich road on Tuesday last was brought into town last night, at 12 o'clock, by Sergt. Ferral. The capture was very cleverly accomplished, the officer taking up his track at Saanich and following him across the Inlet to an Indian village, where he took him prisoner without resistance. It appears that the villain, who is a mulatto named Henry Williams, a deserter from the U. S. S. Saginaw, had been engaged by Mr. Freddison, the father of the child, to work on his farm; during the absence of the latter, the man attacked Mrs. Freddison as she was engaged in the garden, threw her down, forced some morphine into her mouth and tied her up, so that she was helpless; he then went to the house and violated the girl, after which, leaving her lying insensible, he plundered the house, and supplying himself with provisions started for the Inlet. The prisoner when questioned by the magistrate, denied the charge, and was remanded till Monday, for the production of witnesses. Much credit is due to Sergt. Ferral for the energy shown in tracking and capturing the ruffian.

ASSAULT ON SHIPBOARD.—T. Holcome, recently steward on bord the ship Royal Tar, entered a charge of assault against Robert Mark, the second mate, in the Police Court this morning. Complainant stated that about six bells the second mate ordered him aloft to loose the mizzen top-gallant staysail; he had a very sore hand, and told the mate he could not go up as he could not hold on; the mate then struck him twice in the face, cutting his lip. Complainant stated that he had been four years ward-room steward in H. M. S. Charybdis. Owen Thomas, one of the seamen, testified that he was going up the main rigging when he saw the second mate strike the steward in the face, because he would not go aloft. After some further inquiry the magistrate dismissed the case.

DESERTION.—Two young men, seamen on the ship Royal Tar, were brought up in the Police Court this morning, charged by the captain with deserting from his ship. The men pleaded guilty, and were sentenced to 10 days imprisonment, but to be given up to the captain when demanded. The magistrate stated that his reason for not stopping any of the men's pay was that they had evidently been badly used by the officers of the ship, and cautioned the captain against using physical force in dealing with his crew.

VOLUNTEER PROMOTIONS.—At a meeting of No. 1 Rifle Corps last evening the following promotions were made:—Sergeant Turner, to be Color Sergeant, vice Siffken, resigned; Corporal Thorne to be Sergeant, vice Turner promoted; Private Roscoe to be Corporal, vice Thorne promoted. It was also arranged to have a shooting match at an early day between six non-commissioned officers and six privates.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived down last evening with 60 passengers and a Cariboo express. Among the passengers were Messrs. A. McKenzie, McKeon, Chas. Levy and others from Cariboo, and Messrs. K. Gambitz and A. M. Harri from Big Bend.

COMPLIMENTARY.—Testimonials will be presented to Captain Lang to-morrow, at 4 p.m., in the theatre, by the Rifle Corps, the Mechanics' Institute, and a number of friends. In the evening he will be entertained at dinner in the Vancouver Club Rooms.

RIFLE CORPS TESTIMONIAL.—The Rifle Volunteers will parade at their new drill hall to-morrow at 3:30 p.m., preparatory to presenting an address and testimonial to Capt. Lang at the theatre at four o'clock.

SALE OF REAL ESTATE.—The James Bay Brewery was sold by Mr. J. P. Davies to-day for $1000, to Mr. Miller the brewer; and the Fort street property to Mr. Doughty, brushmaker, for $430.

FROM AUSTRALIA.—The British ship Jeddo, bound for Adelaide, Australia, from Burrard Inlet, anchored in the roads yesterday afternoon. She will carry four passengers.

DISCHARGED.—The ship Royal Tar will finish discharging to-day or to-morrow, and on Saturday sail for Utsalady, to load for Callao.

VOLUNTEERS VS. NAVY.—The rifle match between ten of the Volunteers and ten from the Navy comes off on Saturday at Esquimalt.

YALE "TRIBUNE."—This journal announces that its last issue for the season will be on the 8th October.

MR. HARNETT'S LECTURE—This gentleman gave a lecture last evening in the theatre, and on account of the proceeds going to the Fire Department there was a good attendance. The lecture was on the "Genius of England and America," but the text, like many other texts, had little to do with the discourse. Had the gentleman announced that his subject would be the "Glory of Vancouver Island officials and the flourishing condition of real estate" he would have been nearer the mark. A number of statistics were read and some rather novel deductions, somewhat at variance with the ordinary laws of political economy, drawn. The people of the country were severely handled for not overcoming all the drawbacks which land speculators and the Government had placed in their way, and the gentleman modestly insinuated that all the country wanted was men of his resource and intelligence to put it to rights. Mr. Harnett we are afraid has fallen into bad hands, and his presumption in giving advice to the people about their politics, shows, as a correspondent very properly says in another column, a sad lack of common sense. The gentleman gets a scathing rebuke for the same folly in the Nanaimo *Tribune*. In a word the "good things in the lecture were not new, and the new things were not good."

An Erratic Lecturer.

EDITOR OF THE EVENING TELEGRAPH.—SIR:—I do not like to criticise gratuitous services. Mr. Harnett, lecturing for the benefit of so useful an institution as the Victoria Fire Department, deserves our consideration; but when he goes out of his way to tell us that our Government has not been so very expensive, or so very much to blame, that despite the want of work, the want of money, and the decrease in every particular, the place is in a flourishing condition and destined to be the "great emporium" &c.,—when he shows his knowledge of political economy by telling us that if the imports of a country exceed the exports, the country sustains a loss—when he brings forward the fact that we send hundreds of thousands of dollars away every year for articles we can produce ourselves as something new which he has just discovered—when he inculcates the idea of running up the country in order to raise its credit—telling falsehoods to the banker in order that he may discount our bills—when he, a man who has merely paid a flying visit to the place, and knows literally nothing of our condition, has the hardihood to rise up and advise us to accept Mr. Seymour and his despotism, I am afraid the gentleman shows rather a lack of sense, and has been stuffed by a few Peter Funks and Government officials.

DELTA.

TELEGRAPHIC.

The Cable.

CHICAGO, Sept. 25.—11 P. M.—We have no Cable dates latet than noon Sept. 22, and no explanation from New York.

The Fenians.

OGDENSBURG, New York, Sept. 25.—It is reported upon good authority that large number of Fenians are concentrated for a raid into Canada.

TORONTO, Sept. 25.—Orders have been given to the volunteer force of the city to muster at a given point on the first alarm of the fire bell with forty rounds of ball cartridges. An attempt to burn or capture the city is feared Large quantities of military stores, including ambulances, are arriving here. Regular troops and volunteers are continually moving.

Canada.

Cabinet meetings of the Canadian Government are being held daily in Quebec, questions discussed being the military condition of the province, the Confederation scheme, and the failure of the Bank of Upper Canada. Much insecurity is felt in financial circles. Money is still commanding 15 per cent in Montreal.

California.

SAN FRANCISCO, Sept. 25.—Secretary Seward has telegraphed to Queen Emma tendering her a passage on the steamship Vanderbilt now lying in this harbor. The offer has been accepted, and the Queen will probably depart in about two weeks. The officers of the army who desire to be presented to Queen Emma will assemble at the Occidental Hotel this evening.

Arrived Sept. 25—Bark Lizzie Boggs, 12 days from Seabeck with lumber; bark Glimpse, 8 days from Port Discovery with lumber.

Sailed, Sept. 26—Steamer Active, Victoria.

BRITISH COLUMBIA.

[*From the Columbian.*]

HOPE, September 25—From a person lately arrived from the Okanagan and Similkameen country, we gather the following: At the Okanagan Missison the grasshoppers had again destroyed most of the crops. This is the third year of this plague, and the farmers hope they have seen the last of them.

There are about 1500 sheep kept by a Frenchman at the Mission, and all doing well.

The Walla Walla Indians had made a raid on the Shuswaps—result not known. It is about some old dispute.

The cattle throughout the country look well. Mr. Harper passed the Custom House with 550 head on his way to Kamloops, Messrs. Reese & Co. had about 250 head at Alison's, on the Similkameen. They are now on the way to Hope. They look fine, and people may expect excellent beef.

On the Similkameen some 40 or 50 Chinamen are working and making good wages. Mr. Krugor had turned the Similkameen, and was taking out big pay.

It was reported by the Indians that the man who killed Morgan, near Soda Creek, was skulking about Okanagan Lake, threatening to kill every white man or Indian he should meet. The Indians were in great fear of him, as they considered him bullet proof.

Several large pack trains were met on their way to Kootenay.

Mr. Alison has discovered a new pass which avoids the Hope mountain, and does not exceed the altitude of the Lake. The distance would be about the same as the present trail.

WILLIAMS CREEK.

From a gentleman who left Williams Creek on Tuesday last, we have received the following news from Cariboo: There had been copious rain, which gave sufficient water for working the claims which had been stopped. The Foster-Campbell company were taking out good pay, but not so large as previously. The Morning Star company had got into excellent pay and had washed up a large amount.

THE UNION ACT.

The following is the text of the Imperial Act uniting the colonies of Vancouver Island and British Columbia. It will be seen that, with the exception of the expunging of the clause giving the colonies themselves any say in the matter, the Act is word for word the same as the bill we published on the 3d of last month.

THE BRITISH COLUMBIA ACT, 1866.

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as The British Columbian Act, 1866.

2 In this Act the term Governor means any Officer for the time being lawfully administering the Government.

3. From and immediately after the Proclamation of this Act by the Governor of British Columbia, the colony of Vancouver Island shall be and the same is hereby united with the colony of British Columbia, and thenceforth those two colonies shall form and be one colony, with the name of British Columbia (which Union is in this Act referred to as the Union)

4. On the Union taking effect, the form of Government existing in Vancouver Island as a separate colony shall cease, and the power and authority of the Executive Government and of the Legislature existing in British Columbia, shall extend to and over Vancouver Island; but in order that provision may be made for the representation of Vancouver Island in the Legislature of British Columbia after the Union, the maximum number of Councillors in the Legislative Council of British Columbia after the Union, shall, until it is otherwise provided by lawful authority, be twenty-three instead of fifteen.

5. After and notwithstanding the Union, the laws in force in the separate colonies of British Columbia and Vancouver Island, respectively, at the time of the Union taking effect, shall until it is otherwise provided by lawful authority, remain in force as if this Act had not been passed or proclaimed; save only that the laws relative to the Revenue of Customs in force in British Columbia at the time of the Union taking effect, shall, until it is otherwise provided by lawful authority, extend and apply to Vancouver Island; and, until it is otherwise provided by lawful authority, the Governor of British Columbia shall have, in relation to the territory for the time being under his Government, all the powers and authorities for the time being vested, in relation to the United Kingdom, in the Commissioners of Her Majesty's Treasury or in the Commissioners of Customs, with respect to the appointment of warehousing ports, and the approval and appointment of warehouses or places of security in such ports, and everything consequent thereon or relative thereto.

6. Nothing in this Act shall take away or restrict the authority of the Governor of British Columbia, with the advice and consent of the Legislative Council thereof, to make laws for the peace, order and good government of British Columbia either before or after the Union; nor shall anything in this Act interfere with the exercise of any power that would have been exerciseable by Her Majesty in Council if this Act had not been passed.

7. Until the Union, British Columbia shall comprise all such Territories within the Dominions of Her Majesty as are bounded to the South by the Territories of the United States of America, to the West by the Pacific Ocean and the frontier of the Russian Territories in North America, to the North by the Sixtieth Parallel of North Latitude, and to the East from the boundary of the United States Northwards by the Rocky Mountains, and the One Hundred and Twentieth Meridian of West Longitude, and shall include Queen Charlotte's Island and all other islands adjacent to the said Territories, except Vancouver Island and the islands adjacent thereto.

8. After the Union British Columbia shall include all the Territories and Islands aforesaid, inclusive of Vancouver Island and the Islands adjacent thereto.

The Acts described in the Schedule to this Act are hereby repealed; but this Repeal shall not invalidate any Order in Council or other Instrument issued under the authority of those Acts or either of them, or any Act done or Right or Title acquired by virtue of those Acts or of either of them or of any such Order or Instrument.

SCHEDULE—*Acts Repealed*—An Act to provide for the Government of British Columbia; An Act to define the Boundaries of the colony of British Columbia, and to continue an Act to provide for the Government of the said colony.

Special Notices.

MR. ZINN begs to announce to the inhabitants of Victoria that he has lately received a large assortment of Children's Carriages and Chairs, Fishing Baskets and Fishing Cane, and a large quantity of Market and Traveling Baskets, China Vases, Fancy Goods and Toys, all of which have to be sold on or before February next at greatly reduced prices Goods sold at wholesale for cost prices. *

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

ALEXANDRE'S GLOVES—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alterative, regulating and strengthening qualities, and thus exert over every internal organ the whole only controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

Miscellaneous.

A grievous illustration of the liveliness and impunity of brigandage, even in the neighborhood of the capital o' Turkey, is reported from Gheive, near Ismidt. A few weeks ago a band, which has long been the terror of the district, seized a leading man of that village and held him to ransom 40,000p. The money was raised and taken by the brother of the captive to the spot indicated, but, instead of the latter being set free, the messenger was himself seized and a further sum of the same amount demanded for his release, failing which it was intimated by the ruffians that both prisoners should be put to death. Thereupon the family set the authorities upon the track of the band, and a party of zeptiehs was sent in pursuit. The brigands showed fight and defeated their assailants, and on the following morning the mutilated corpses of the two brothers were found in the principal street of Gheive. From Yanina is reported still greater outrages A band which had been ravaging that province for some months past, recently attacked the village of Zogori, about 12 hours from the provincial capital, on the road thence to Monastir, and literally sacked the place, killing the men and outraging the women with a barbarity beyond precedent.

On the evening of the battle of Sadowa, says the correspondent of the *Times*, an officer of the Ziethen Hussars, who were forward in the pursuit, rode as far as the gates of Koniggratz, and, finding there were no sentries outside, rode in; the guard, immediately on seeing him in Prussian uniform, turned out and seized him, when, with a ready pretence, he declared he had come to demand the capitulation of the fortress. He was conducted to the commandant, and made the same demand to him, adding that the town would be bombarded if not surrendered within an hour: the commandant, unconscious that he was not dealing with a legitimate messenger, courteously refused to capitulate; but the Hussar was conducted out of the town, passed through the guard at the entrance, and got off safely without being made a prisoner.

A Costly Wine—The Rose Rosenwine, in the Rathkeller at Bremen, is famous for its delicious flavor and fabulous value. A single bottle of this wine has cost the town more than 2,750,000 rix dalers, or about 10,000 francs, so that, at the same rate, one drop of it is worth 1,400 francs, or £56. The financial accuracy of this calculation is incontestible. The wine in question was bottled in 1624, at which time a cask of it, containing 24 bottles, cost 300 rix dalers, or £48. Reckoning cellerage, duty and interest, it is found that up to the present day one cask of this wine has cost nearly 600,000,000 rix dalers, and a single bottle the price mentioned above. During the French occupation of Bremen, the generals of the empire emptied a considerable number of the bottles containing this precious beverage, so that the citizens of Bremen maintain that their wine paid France a larger contribution than all the towns of Germany put together.

A curious dispute has recently arisen between the members of the communal council and the burgomaster of Bussum (North Holland), the latter personage contending that the custom of smoking at the sittings was incompatible with the dignity of the proceedings. The members, however, having decided otherwise, the burgomaster made an appeal to the Minister of the Interior. The reply of that functionary was favorable to the councillors, and as soon as it was read every one triumphantly drew out his pipe and commenced smoking.

The Algerin journals announce that the waters of the streams having become poisoned by the vast number of locusts which perished in them, have produced at Medea and other points of the colony a mortality amongst the cattle.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think Maggiel's Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicity to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering and renovigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the wonted energies to their pristine state. To the young and middle aged they will prove most invaluable, as a remedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold about, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).
The Edinburgh Review (Whig)
The Westminster Review (Radical)
The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. Scott & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum
For any two of the Reviews	7	"
For any three of the Reviews	10	"
For all four of the Reviews	12	"
For Blackwood's Magazine	4	"
For Blackwood and one Review	7	"
For Blackwood and any two of the Reviews	10	"
For Blackwood and three of the Reviews	13	"
For Blackwood and the four Reviews	15	"

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the Postage to any part of the United States will be but twenty-four cents a year for "Blackwood," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz.:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive: the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any review.

☞ A few copies yet remain of *all the four Reviews* for 1863, at $4 a set, or $1 50 for any one.

LEONARD SCOTT & CO.,

Publishers, 38 *Walker Street, N. Y.*

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 3. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.

PRINTED and Published by McCLURE & Co. at the office, Langley Street.
