THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians reregularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
oco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
Chilblains	Lumbago.	Tumors
Chapped Hands	Piles	Ulcers
		Wounds
		Yaws

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies highly."

Asthma or Difficult Breathing and Bronchitis.

WEST MINE, ENGLAND.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the *last forty years*. HENRY L. PARKS, *Merchant*.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the *dangerous symptoms of Consumption, from which no aid* we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger*.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect *purgative which is known to man. Innumerable proofs* are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

TUESDAY EVENING, OCT. 23, 1866.

The Departure of Governor Kennedy.

His Excellency Governor Kennedy leaves our shores to-day. Two years and a half ago he came to the colony amid the booming of cannon and the shouts of a joyous multitude; to day he leaves us with no more demonstration of regret than can be squeezed out of a few unfortunate or obsequious men. In vain has every effort been made to "drum up" a lachrymose crowd; all that can be mustered to do "duty" on the occasion are a few volunteers and the flunkeys from Peter Funk down to the *Chronicle* Jenkins. What a commentary on His Excellency's administration! The people hailed him on his advent as the man who was, according to his speeches at the time, to carry out their wish; the man who was to assist them in cutting down the expenses of the Government and in inaugurating a policy that would bring our resources into play, and make the British subject proud of British rule. What, however, has been his conduct? Instead of diminishing the people's burdens he has increased them beyond precedent. Instead of carrying out the public wish, he has trampled upon every popular aspiration, and thwarted every effort to introduce laws to promote the settlement of the country. Instead of nourishing and fostering a British sentiment, and causing British institutions to be respected, he has, in conjunction no doubt with the noodles of Downing street, driven the people to petition Her Majesty for annexation to the United States, and reduced the status of a British subject down to a Mexican level. He has done even more. He has used his position of Governor to foster the growth of those reptiles which infest every youthful British colony—which are the excrescences of English life—we mean the "snobs." Hostile to every independent man—to every person who presumed to differ from himself—and overpowering in his attentions and favors to those who were willing to bend the knee that "thrift might follow fawning," he has encouraged the growth of the most despicable of all classes of the human species—the creatures who barter every quality that is noble in man for the approving nod, the shake of the hand, the social condescension of some fellow-worm a little better off than themselves. This is the only thing His Excellency has promoted—the only class of population his administration has increased. The industrious and independent men, the only element that can ever save a country from ruin, he has been driving gradually away; the very steamer, in fact, which takes him from our shores, carries away the men and their families who fondly hoped to make a home for themselves under the British flag in this beautiful island of the Pacific, but who are now forced into the great Republic to get that livelihood which imbecility and superciliousness have denied them here. Further comment is useless. His Excellency has only to look around him on the steamer Active to see the fruits of his administration.

We do not wish to embitter the departure of Governor Kennedy; but we would be untrue to ourselves and the public, to remain silent while the adulation of sycophants is attempting to falsify the true feeling of the people of Vancouver Island on His Excellency's leave-taking We are ready to bear tribute to Gov. Kennedy's good personal qualities, and the amiability of his family; but all the social excellences in the world can never counteract the mischievous tendencies of his political rule. We believe in calling things by their right names, and in criticising a Governor as we would any other public man. We are not of opinion that cocked hats and gold spurs give immunity to any person, and when we find their wearers dangerous to the country, either through their ignorance, or through their antipathy to the popular voice, we believe in denouncing them, even though they may be taking their departure from amongst us. No person, but the veriest flunkey, can be sorry at His Excellency leaving the colony; but our worst wish for Governor Kennedy is, that his experience on Vancouver Island may be beneficial to him and that if he obtains another Governorship, he will surround himself with fewer parasites, and be guided more by the popular voice.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carterright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

Evening Telegraph.

TUESDAY EVENING, OCT. 23, 1866.

A NEW STAR.—Miss Alice Kingsbury, a young and beautiful "star" who has recently arisen in the theatrical firmament of San Francisco, has turned the heads of all playgoers in the Bay city. The young lady is from the Western States, and has not appeared in any of the metropolitan theatres. The *Bulletin* says: Miss Alice Kingsbury was greeted by a fine house on her second appearance, last evening. She confirmed the favorable impression of the night before, and established beyond dispute her claim to the distinction, if not of a great, of a very clever artist. While she is not free from faults of style, she is so sprightly and *naive*, has such a fresh, joyous face, such a sweet voice and such grace of manner that she disarms criticism. We are content to sit and enjoy, without stopping to inquire if she is always scrupulously artistic. Of her singing we cannot speak so flatteringly. Her voice seems to lack the true lyric quality, and while it pleases it does not satisfy us.

IMMIGRATION TO CANADA—The number of immigrants arriving at the Port of Quebec from the opening of navigation till August 21st, was, according to official returns, 25,210, an increase of 9,560 over that during the corresponding period last year. Of this number Norway contributed a little more than one half, England one fifth or 5,041, Germany 3,330, Ireland 1,640, Scotland 1,875 and Belgium 117. The immigration from the United Kingdom was 2,304 less than last year, while the other countries showed an increase, that from Norway being 9,825.

A MODEST HERO.—Though favors are falling fast on Angus Cameron, the winner of the Queen's prize—even, as the Inverness papers state, he was presented by some ladies with a bouquet of flowers on "descending" from a railway carriage—he bears his honors with meekness and modesty. He has resumed his position behind the counter of his brother, a grocer, at Kingussie, and goes about his duties as if nothing particular had happened.

INQUEST.—The inquiry into the circumstances causing the death of the Indian boy Charley was resumed to-day. Dr. Davie, sen'r. having made a *post mortem* examination of the body, deposed that death had been caused by a blow on the back of his head causing the fracture of the skull and extravasation of blood on the brain. A verdict of wilful murder was then brought in against the Bel a Bella Indian, who was shown to have made an attack on deceased.

HEAVY FAILURE IN GLASGOW—Messrs. Edington & Sons, Engineers and ironfounders, Glasgow, have failed, Mr. David Law, sole partner in the firm, having suspended payment. The liabilities are reported at £243,748, and the assets at £121,504. Mr. Law is a creditor to the amount of £79,000, of the estate of Messrs. McEwen & Bryson, suspended.

ROYAL INSURANCE COMPANY—The annual report of this company announces increased business and continued prosperity. Notwithstanding fire losses, which are above the average, £6,543 has been added to that reserve, and £103,146 to the life and annuity funds. The usual dividends have been declared.

NEW DRY DOCK.—A San Francisco telegram of Saturday last says, the contract has been signed for the construction of a stone dry dock at Hunter's Point about four miles south of San Francisco, which is to be the largest stone dry dock in the world, to cost $2,500,000.

COME TO HIS Muck-a-muck.—Jim, the Indian imprisoned for robbing the dead body of Edmond Urin, and who recently tried to starve himself in the gaol, has given up that pleasing idea, and now takes his muck-a-muck like a christian.

AGRA AND MASTERMAN'S BANK.—The creditors of this institution, who number 10,000 and represent claims of £7,500,000, are shortly to receive a dividend of 5s. in the pound. The *Daily News* says an active movement is on foot for the resuscitation of the bank.

THE present population of Rome is 210,701. This is an increase of 30,000 since 1861, and of 3,300 during the past year. The increase has been partly natural and partly owing to the concentration of emigrants from other parts of Italy from political motives.

LAST TRIP OF THE ACTIVE.—Next trip of the Active to New Westminster will be the last under the present arrangement. It is to be hoped that the foolish and uselessly expensive system of a double subsidy for one purpose will be abandoned hereafter.

SAILING OF THE STEAMER.—The steamer Active sailed to-day at half-past three o'clock carrying His Excellency Governor Kennedy and family, Mr. D. M. Lang and family, Mr. W. B. Smith and family and a full list of passengers.

FOR NANAIMO.—The steamer Sir James Douglas did not sail for Nanaimo this morning, owing to a slight accident to her boiler. She will go up to-morrow morning at the usual hour.

CITY COUNCIL—This body to-day presented a complimentary address to His Excellency the Governor.

NEW YORK, Oct. 16—The *Post's* money article says the price of gold has gone down, but closed with an upward tendency.

Europe.

The steamer Scotia brings the following news:—A Florence dispatch says the following are the principal conditions of the treaty of peace between Austria and Italy: The frontiers to be added to Italy are those which constituted the frontier of Venetia, while under the Austrian rule. The amount of debt assumed by Italy is thirty-five million florins, which is payable in eleven installments in 24 months. Venetia is transferred to Italy with its assets and liabilities; its assets 3,500,000; its liabilities 63,000,000 florins. Venetians residing in Austria are to have the right of preserving their Austrian nationality if they desire; all objects of art as well as archives belonging to Venetia will be restored. The iron crown of Lombardy will also be given up to Italy. Treaties which formerly existed between Austria and Sardinia will again come into force for a year, during which period fresh arrangements can be concluded. Private property belonging to political prisoners which had been sequestered by the Austrian government is to be restored with reserves of rights of state for one-third. A complete amnesty will be accorded by both Austria and Italy to all persons condemned for political offences, to deserters from either army, and to persons compromised by their political conduct.

The American Championship.

In a previous issue we gave a short summary of the fight for the American championship. The following in connection with American pugilism, from the New York *Herald*, may not be altogether uninteresting:

Fighting in the prize ring was inaugurated in Great Britain about a century and a half ago, and the first champions were Figg, Slack and Broughton. Since that time, until a year ago, England has had her champions in regular succession but by the retirement of Tom King, who defeated Heenan, and the repeated failures of fights to come off, England is now practically without a champion.

Prize fighting was introduced introduced into the United States by the advent of George Kensett, an Englishman, a little over forty years ago. He fought Ned Hammond at Coney Island, N. Y. After a severe struggle Hammond was declared the victor, after receiving a foul blow from Kensett. A number of aspirants quickly sprung up for fistic honors.

The title of champion of America was first given to Tom Hyer after his defeat of Yankee Sullivan; but as he did not make fighting a profession he relinquished the title to Morrissey after the latter defeated Heenan. Morrissey's refusal to meet Heenan a second time lost him the championship, and Heenan carried the honors to the field of Farnsborough where he strove to unite them with those of England. He failed, however, and not returning to maintain his title in this country Coburn and McCool fought for the championship. Coburn won the renown, but, not caring to hold the honors by fighting, he resigned the title to give others a chance to win it in the magic arena; and hence the present fight. Since that time Coburn's *fiasco* with Mace, in Ireland—in which, probably, both were partly to blame—has become matter of fistic history, but no great fight has come off in America since Coburn and McCools's contest. Davis, one of the present combatants, was matched to fight Jim Elliott, but the affair ended in smoke, the men never coming together.

Michael McCool is an Irishman by birth, and an American by citizenship. Born in 1837, he is consequently twenty-nine years old, or four years younger than his opponent. His first appearance in the ring was with Wm. Blake, known as "Dublin Tricks," of St. Louis, McCool at that time hailing from Louisville, Ky., where he was engaged in the business of a steam oatman. The match was for $200 a-side, and came off at Twelve Mile Island, near Louisville, June 27, 1859, McCool winning in thirty-one minutes and twenty nine rounds. In this fight he showed that, although a hard hitter and game man, he possessed no science. His avocation of river boatman carrying him frequently to New Orleans, he there met Tom Jennings, who had just returned from an unsuccessful visit to New York to get on a match either with Price or Aaron Jones. Several gentlemen, aware of Mac's abilities as a boxer, and anxious to test Jenning's boasted powers, induced the former to conclude a match with Jennings for $300 a-side. They met up the river, near New Orleans, May 2, 1860, McCool, while *en route* for the place designated, having narrowly escaped arrest in consequence of the authorities taking possession of the steamboat he and his friends had engaged. He was compelled to walk a distance of eighteen miles to reach the place of fighting, and even then had no one to second him. Entering the ring, which was surrounded by Jennings' partisans, he found himself almost alone and without friends; but on his publicly appealing to the crowd to give him a fair show, which was all he required, caused a change of feeling towards him, and he was assured that fair play should be shown. The battle lasted thirty-three minutes, during which twenty-seven rounds were fought, when the heavy, killing body blows which McCool planted, round after round, on Jennings, rendered him unable to respond to the call, and for the second time Mac was hailed the winner.

Davis's first appearance in the fistic arena was with a man named Pearson, in California, whom he defeated. On the 31st of May, 1862, he fought Tom Daly at Port Wine, California, for $1,000, winning the battle after a rattling good fight in fifty four rounds, which occupied forty-seven minutes. On the 14th of June, 1864, he met and defeated Patsey Daley at Virginia City, N. T., in eight rounds. He then went to New York city to look for a job of handiwork, when he found a customer in James Dunn, of Brooklyn. They fought on the 16th of May last in Pike county, Pa., and after a very stubborn and hard fought battle, which lasted one hour and six minutes, during which time forty-three rounds were contested. Davis had to lower his colors. Not feeling satisfied with his defeat, he again challenged Dunn, but the latter declining, Elliott was substituted for Dunn, and a match was made between them for $1,000 a side, to fight in Schoharie, N. Y., on the 21st December, 1865. The Albany police interfered, and the fight did not come off. Davis then issued a challenge to "any living man," which was accepted by John Woods. The fight, however, did not come off, and so Davis has borne the title of Champion of America for the past two years, simply for the lack of a

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

SOMETHING NEW
UNDER THE SUN.
A NEW ERA IN MEDICINE!

Let the suffering and diseased read the following.

Let all who have been given up by doctors, and spoken of as incurable, read the following.

Let all who can believe facts and can have faith in evidence, read the following:

Know all men by these presents, That on this, the Twentieth day of June, in the year of our Lord, One Thousand Eight Hundred and Sixty-Six, personally came Joseph Haydock to me, known as such, and being duly sworn, deposed as follows: That he is the sole general agent for the United States and dependencies thereof for preparations or medicines known as Maggiel's Pills and Salve, and that the following certificates are verbatim copies to best of his knowledge and belief.

{L.S.} JAMES SMEITRE,
Notary Public,
Wall street, New York.
June 1st, 1866.

DR. MAGGIEL.—I take my pen to write you of my great relief and that the awful pain in my side has left me at last—thanks to your medicine. Oh, Doctor, how thankful I am that I can get some sleep. I can never write it enough. I thank you again and again, and am sure that you are really the friend of all sufferers. I could not help writing to you, and hope you will not take it amiss.
JAMES MYERS, 116 Avenue D.

This is to certify that I was discharged from the army with Chronic Diarrhœa, and have been cured by Dr. Maggiel's Pills.
WILSON HARVEY,
New York, April 7, 1866. 27 Pitt street.

The following is an interesting case of a man employed in an Iron Foundry, who, in pouring melted iron into a flask that was damp and wet, caused an explosion. The melted iron was thrown around and on him in a perfect shower, and he was burnt dreadfully. The following certificate was given to me by him, about eight weeks after the accident.
New York, Jan. 11, 1866.

My name is Jacob Hardy; I am an Iron Founder; I was badly burnt by hot iron in November last; my burns healed, but I had a running sore on my leg that would not heal; I tried Maggiel's Salve, and it cured me in a few weeks. This is all true, and anybody can now see me at Jackson's Iron Works, 2d Avenue.
J. HARDY,

Union is accomplished and

Producers Protected.

The country only can be saved by Patronizing

CAMERON'S ISLAND PRODUCE

MARKET,

No. 18 Fort street, opposite Mrs. Heal's Boarding-house.

SINCE WE ARE TO HAVE A TARIFF, Island Produce will be in demand and to supply the increase of orders it has been necessary to make arrangements with several more hunters and fishermen; also Producers will always be able to find a market for their vegetables and other produce, at reasonable rates; whilst consumers can have their demands supplied free of duty. The market will henceforth be supplied with the finest Venison, Fish and Game of every description.

Clams and Oysters from the newly discovered beds at Chemainus.

Since preparing the above we learn that a special Telegram has arrived from the Home Government stating that Chinamen pedlars are to be taxed $30 per head, per month, and knowing it to be a fatal shock to them, the "Original" will go in mourning for the space of one month, in respect to their memory.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).

The Edinburgh Review (Whig)

The Westminster Review (Radical)

The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum
For any two of the Reviews	7	"
For any three of the Reviews	10	"
For all four of the Reviews	12	"

For Blackwood and three of the Reviews	13	"
For Blackwood and the four Reviews	15	"

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "BLACKWOOD," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz.:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any review.

☞ A few copies yet remain of *all the four Reviews* for 1863 at $4 a set, or $1 50 for any one.

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits, and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5s. 9d., 4s. 6d., 11s., 22s., and 33s. each box.
