(DATES TO AUG. 18.)

The Fenian excitement appears to continue in Canada. A great Fenian "picnic" was announced to be held on Grand Island, Niagara river, and apprehensions were felt that a hostile demonstration was intended.

The Canadian papers announce that the government has received such information as to warrant it in taking active military precautions at once.

In view of the projected Fenian "picnic" at Buffalo on the 21st instant, it is considered advisable to put the country in a state of military preparation. It is believed that the Fenian picnic is merely a pretext for an armed demonstration in force.

The Seventh (Prince Arthur's Own) battalion, of London, and the County battalion, are under orders for Niagara Falls. They are to leave London on Friday next, and will encamp there eight days. The government will furnish transportation and camp equipage. Eight thousand men are under orders.

The Toronto *Leader's* Ottawa dispatch of Sunday says:—

The Cabinet was in session all this afternoon, but the object of the meeting has not transpired publicly. It is stated that important detpatches were received on Saturday from Sir Frederick Bruce; but if so, the report of them has not become known. The telegraph offices in the country were open to-day, so that if anything threatening did happen the earliest intelligence of it might be transmitted to the government up to midnight. Everything was profoundly quiet all along the frontier.

The last number of the official gazette of Canada, just published, announces that thirty-four additional companies of volunteers have been authorised to be organized by the government.

The *Leader* says there are seven British gunboats now on the lakes, carrying ten Armstrong guns, and eight field pieces.

The Montreal *Herald* of Aug 16 statet that Col. Lowry and Col. McKinstry, of the 17th regiment, are on the Niagara frontier, making arrangements for the location of a camp of observation at Port Welland or Port Robinson. The "Queen's Own will probably be stationed there.

The papers say that it is understood that the United States and Canadian governments have assented to the formation of an international commission, for the purpose of reducing the obstacles in the way of the development of the frontier trade of the two countries.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER.

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

☞ It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with all directions for its use.

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "*I had a tedious Influenza, which confined me in doors* six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. *The first dose relieved the soreness in my throat and* lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best *we can buy, and we esteem you, Doctor, and your remedies*, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my *American Almanac, containing directions for their use* and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass.

FROM BIG BEND.—Some 15 or 20 returned miners from Big Bend came down by the Enterprise on Saturday night. There is no encouraging news from that quarter. Most of the returning miners go down the Columbia, Captain White carrying broken men down on the "Forty-nine" free, or for their services in cutting fuel. The steamer Marten is still running, but will probably be laid up after one or two more trips on account of the lowness of the river. Seymour is nearly deserted; the only traders left are the H. B. Co., Smith & Ladner, and S. Earles, and one grog-shop. The most of the goods have been sent down and up to Cariboo. The total resident population is about 25, and the number of houses about the same. Harvesting on the way down was completed. About 100 Indians were collected at Savona's Ferry on last Tuesday week to meet with Mr. Administrator Birch, by his appointment, and were much disgusted at his non-arrival. A religious revival had taken place among the tribes lately, and services were held among themselves night and morning, much fervor being evinced. The Roman Catholic missionaries were doing much good among the natives.

ACCIDENT TO THE ATLANTIC CABLE.—A fortnight ago an accident happened to the cable that was not made public by the telegraph. It was the result of the carelessness or reckleness of the skipper of a coal vessel, who dropped his anchor right over the route of the cable. The consequence was that the anchor became fouled with it, so that serious results were feared. With the aid of a diver, who went down and took a survey of the position, the cable was finally cleared from its dangerous neighbor. Although the cable was very much twisted by the efforts of the skipper to free his anchor previous to the explorations of the diver, there was not the slightest interruption to the electrical communication. It should be mentioned in justice to the cable, that nearly all of the irregularity occuring in the reception of foreign news is due to the inefficiency of the Newfoundland connections.

THE POPE LEAVING ROME.—A delayed despatch, dated Paris, Aug. 20, says it is rumored there that the Italian government will soon treat directly with the Pope for the cession of his temporal dominions and the establishment of Rome as the capital of Italy. The Canadian papers are discussing the probability of his taking up his abode in Lower Canada.

ARRIVAL OF THE SPARROWHAWK.—H.M.S. Sparrowhawk arrived from San Francisco this morning at half-past one o'clock, bringing the mails. She left San Francisco on Wednesday at 9 a.m., thus making the run up in three days sixteen and a-half hours, although having to encounter rough weather and violent head winds.

THE GREAT ENGLISH PRIZE FIGHT.—The great fight between Mace and Goss came off on the 6th of August, resulting in the defeat of Goss. The combatants fought twenty-one rounds, which lasted thirty minutes, at the expiration of which time Goss was so disabled that he was unable to continue the contest and Mace was declared the victor.

BANK OF BRITISH COLUMBIA—We understand that Mr. D. M. Lang, manager of the Bank of British Columbia in this city, has received instructions from the Board of Directors to remove to San Francisco to the branch in that city. Mr. Lang will go down on the next steamer. We have not learnt who will be the new manager.

NEW STEAMER FOR THIS COAST—A New York telegram of the 14th says: The magnificent steamship Oregonian, built at Williamsburg for the California and Oregon Line, made a successful trial trip down New York Bay last Tuesday, making, with 26 pounds of steam, 18 revolutions per minute and 16 miles per hour.

WAGES SUIT.—Peter McLean sued Alexander McIntyre in the Police Court to-day for $28 50 wages due. Defendant proved that he had offered complainant $20, and had boarded him for three or four weeks while he was laid up with a sore finger, and the magistrate made an order for $20 without costs.

ON DIT—That His Excellency will probably appoint Major Foster stipendiary magistrate for Leech river, with a view to his being one of the Vancouver Island official members of the united Legislative Council.

RIFLE CORPS.—A meeting of the corps is called for to-morrow evening, at the Drill Hall, in regard to the resignation of Capt. Lang.

GOOD TEMPLARS—The new lodge of Good Templars meets this evening in the Theatre Photographic Gallery.

ASSAULT AT SEA.—Albert Aeffcke, E. Neumann, and Richard Berlinger, three German seamen from the ship Royal Tar, charged Captain Mark and his brother, the second mate, with assaulting them at sea. Aeffcke accused the mate of striking him in the face and head with his fists and with a capstan bar, and the captain of also striking and choking him. Berlinger confirmed the evidence in part, and stated that he had signalled the navy with his shirt, when the captain drew a pistol and threatened to shoot him unless he came down. The second mate had also kicked him (Berlinger) on the head while alo't. After patient inquiry into the charges the Magistrate dismissed the complaints of Neumann and Berlinger and fined the second mate $25 or fourteen days' imprisonment for the assault on Aeffcke.

FIREMEN'S BENEFIT.—Mr. Legh Harnett has kindly consented to deliver a lecture in aid of the funds of the Victoria Fire Department on Wednesday evening next, in the theatre. The subject chosen is "the genius of England and America," and we learn that the lecturer is likely to deliver a very interesting address. We need not urge the claims of the Fire Department on the support of our citizens; the simple announcement that they need the money should elicit an immediate and hearty response from all quarters. The tickets have been fixed at the low figure of 75 and 50 cents, and we hope every man interested in the safety and the welfare of the city will buy one or more tickets.

THE UNION BILL.—Late papers announce that the Union of the Colonies bill had received the Royal Assent. A private letter dated London, Aug. 15, states that the bill has become law and will take effect *next February*. The writer also alludes to the duty at Victoria being 10 per cent. as at New Westminster.

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

MONDAY EVENING, SEPT. 24, 1866.

THE NEWS.

The English papers received by the Sparrowhawk are up to the 5th of August. The Union Bill, or as it is termed the British Columbian Bill, had obtained the royal sanction, so that it is now law. It may be interesting to our readers to know the interest which is felt in these colonies by the men who guide the destinies of the British Empire. During the various stages of this bill in the House of Commons and House of Lords, there was not a single member to stand up in defence of the people of either colony, or in defence of that principle which only the debased Englishman can ignore—the principle of self-government. Had we been a herd of cattle we could not have received less consideration—indeed we would have received more, if we might judge by the amount of interest that was taken by noble lords and members of both Houses generally the present year in the quadrupeds which supply the "roast beef of old England."

The Confederation scheme, which the telegraph announced a little while ago to be consummated by Imperial enactment, turns out to be still a thing of the fancy. The English Government did nothing with it whatever the present session. Next year it is to be taken "under consideration." Next year! The term has ruined nations as well as projects before now. Next year may, and no doubt will witness events that will put Confederation out of the question. People's destinies are not now to be decided by the namby-pamby "next year" statesmen. The following is the manner in which the question was dealt with by the Government:—"The Earl of Carnarvon, in reply to Lord Lyveden "bore testimony to the loyalty and patriotism displayed by the inhabitants of the British colonies in North America, and said that the question of their federation had been long and anxiously considered, but it was not until two years ago that it had assumed a practical shape. The delegates of the different colonies had at last settled the basis of a scheme, and about a fortnight ago their proposals were finally sent to the Colonial Office, and the sanction of the Imperial Government and Legislature asked. The scheme had been most elaborately discussed, and as there had been many difficulties to overcome, they had necessarily taken a long time. Her Majesty's Government would do all in their power to forward the wishes of the colonies as far as consistent with the interests and policy of the mother country. The matter was, however, so important, that it was impossible for her Majesty's Government or the Imperial Parliament to take it into consideration during the short period which now remained of the session."

From Canada we learn that Mr. Galt, the Finance Minister, has resigned. The immediate cause of the step was the withdrawal by the Government of the School bill which Mr. Galt had pledged himself to support; but the condition of the Canadian finances had, we believe, very much to do with the gentleman's resignation. The School Bill, however, created very general indignation throughout Upper Canada, and it was this power that forced the Administration to withdraw the bill. The following were some of its obnoxious clauses, as given by the *Globe*: "The common schools of Upper Canada, which are thoroughly unsectarian, are to be placed on the same footing as the schools of Lower Canada, which are avowedly sectarian. Our schools which are so constituted as to serve all creeds, are to be regarded in the same light as the Lower Canada schools, which are so constituted as to serve only one particular creed. In Upper Canada, Roman Catholic teachers and scholars have the same advantages in the common schools as others; but, in Lower Canada, the Roman Catholics have the exclusive use of the schools, and yet the minority in Upper Canada is to have as great and greater privileges than in Lower Canada. We, who invite all to the common schools, and treat all alike, get no more consideration than the Lower Canada majority who monopolize the schools, and force the minority to seek education elsewhere."

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.
