THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arresteb in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
coco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
	Lumbago.	Tumors
Chilblains	Piles	Ulcers
Chapped Hands		Wounds
		Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar), London; also by a respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices 1s. 1½d 2. 9d. 4s dd., 11s., 22., and 33s., each Pot.

*** There s a considerable saving by taking the larger sizes.

N B.—Directions for the guidance of Patients in every disorder are affixed to each Pot.

Miscellaneous.

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

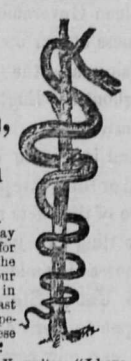
AYER'S

CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: *I feel it a duty and a pleasure* to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

PRICE 25 CTS. PER BOX. FIVE BOXES FOR $1.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER,

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

☞ It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with all directions for its use.

Prices 25 cents, 50 cents & $1 per bottle.

FROM LEECH RIVER.—We learn from a miner who returned from Leech river last evening, that the late rains have raised a freshet in the river. For 38 hours it rained steadily and the river rose about 8 feet, rolling along in an impetuous torrent and putting a temporary stop to all mining operations. The new dam built for the government sawmill, which has just been completed, received the full weight of the flood, but withstood the shock without injury. The sawmill is only waiting for the lumber to build the flume, and the ditch is expected to be finished this week. Our informant, with two others, has been mining in one of the gulches, and in two weeks they took out $140, among which was a piece worth $60. He believes that when Leech river is properly worked it will yield millions of dollars. There will be nothing done, however, by the aid of the ditch this season.

FROM LIVERPOOL.—The bark McKay, Capt. Owen Hughes, arrived here yesterday evening in 188 days from Liverpool. She brings a cargo of general merchandise and is consigned to Janion, Green & Rhodes. Four of the crew are down with the scurvy, and the steward, a West Indian named John Botet, died on the way, of inflammation of the lungs. In the Straits the Mackay was caught in a gale which carried away the fore, fore-topgallant, and mizen staysails. The Mackay is a Province built vessel of 383 tons. She was brought into the harbor and placed at her consignees' wharf by Pilot Pike.

RIFLE MATCH.—The match between the non-commissioned officers and privates of Rifle Company No. 1 came off yesterday, resulting in the privates winning by a score of 192 against 180. The contestants were Color Sergt. Turner, Sergt. Bowden, Corporals Roscoe, Englehart and Norris; and Privates John Wilson, Soar, Allsop, Newbury and Homfray. The best shooting was made by Corp. Englehart, who scored 56 points.

SHIPPING AT UTSALADY—From Mr. John Costello who returned from Utsalady this afternoon, we obtain the following list of shipping at that port: Siamese ship Silas Greenman, nearly loaded; British ship Annie Langton, brig Sheet Anchor and ship Royal Tar, loading. The crew of the Royal Tar had nearly all deserted, five of them leaving the first night.

POLICE COURT.—There was a blank calendar again this morning. Mr. Pemberton is suffering from ill-health at present, and although he came in to his office this morning, he is hardly fit for business. There is no official in the colony who has performed his duties more faithfully and unremittingly than Mr. Pemberton, and he is richly entitled to the holiday his failing health seems to require.

COAL MINE ON FIRE.—Mr. John P. Couch, the agent for the Bellingham Bay coal mine, received a despatch to-day stating that the mine was on fire, and requesting him to send over 1000 feet of hose for the purpose of putting out the fire. Mr. Couch has been unable to procure the hose but the steamer Fideliter has been chartered and Mr. Kohl will go over to see what can be done.

THE GOVERNOR'S DEPARTURE.—We are glad to learn that it has been decided to make the farewell to Governor Kennedy assume the form of a ball instead of a dinner, or any other mode which might be regarded as a political demonstration.

HEAVY FAILURE.—We understand that one of the largest firms in British Columbia has been obliged to suspend business. The liabilities are stated to be from $150,000 to $200,000.

NAVAL.—H.M.S. Clio is daily expected from Panama.

THE FIDELITER will sail for Portland on Monday morning early—hour not yet fixed.

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

TELEGRAPHIC.

Eastern.

WASHINGTON, Oct. 8.—The President has issued a proclamation recommending that Thursday, the 29th of November, be observed as a day of thanksgiving and praise to God for all his mercies and benefits.

NEW YORK, Oct. 8—Additional particulars of the burning of St. Patrick's Cathedral state that the loss is not so great as it wes supposed and not over $71,000, insured for $51,000; all the valuables were removed in time and the walls are not seriously damaged.

FROM CARIBOO.

Notes by the Way.

We have been favored with the following notes by a gentleman just down from Cariboo:

Left Antler Creek on Sept. 25th, the weather was getting cold and the snow had already fallen on the mountain to a depth of five to six inches; three companies were organized to prospect this creek thoroughly, and also to run tunnels into the hill near the old town of Antler; they have every hope of success, and expect to find the same channel that passes through Grouse Creek. Arrived at Keitley's in the evening. This creek is almost abandoned, the whole town was in the possession of two cats almost in a state of starvation; the houses serve as shelter and fuel for weary travellers; there are four companies (Frenchmen) working on this creek, and barely making expenses, but always in hopes of making a strike, and then "making tracks" towards *La belle France*. The distance from Antler to this creek is laid down at 22 miles across the Bald Mountain; the "Live Yankee" who lived on the summit, set fire to his house and went away; he said the ground hogs and martens were getting scarce, and it was time for him to leave

From Keithleys started for Cedar Creek, a distance of 25 miles; the trail is very good. It runs along the Cariboo Lake four miles, then down the South Fork eight and a-half miles to Captain Mitchell's old bridge, which you cross, and get into Murphy's Cut Off, or Skedaddle Trail, 12½ miles to Cedar Creek. The town consists of five small log houses, including two stores and one butcher's shop; provisions were selling very reasonably; mutton, 25 to 30c. per lb.; beef, 20 to 35c; flour, 25c; sugar. 50c; beans, 50c; bacon, 80c; butter, $1 50; tea, 1 50, &c., &c.; there were about seventy men on the creek, including some of the old, well-known miners of Williams Creek; Wm. Hazeltine and *lady*, J. Sellers, J. Woodward, D English and T. Moorhead; they seem sanguine as to the richness of the country, but up to the present nothing of importance has been found. The Aurora, Borealis and Discovery Co's. are the only ones taking out gold, and the highest results do not exceed $16 per day to the hand; one-half of the men on the creek are not making expenses; the diggings are shallow, from four to six feet; the gold is coarse, and found on the rock, the top gravel contains very little pay.

From here continued on the 'Skedaddle trail' for 10 miles along the South Fork Lake to Mitchell's Ferry, where I learned that a party of six, including the old Captain, had started up the lake with provisions and tools. It seems they had previously prospected, and discovered as they said, rich diggings, but would give no further information. They are expected to return about the 8th October, and are anxiously looked for. After crossing the the lake (one mile wide) the distance to Somers' ranch is 15 miles. This ranch is situated on the Horsefly river, in a beautiful fertile valley. The proprietor, Thomas Somers, after spending $4000 in buildings, fences, &c., had to abandon the place this spring and start for Blackfoot, being unable to dispose of his crops. I found the house occupied by Indians who were drying fish in it, and said it was *hias skookum* I saw two men prospecting on the banks of the river; they found from five to seven cents to the pan, and intended to set sluices and go to work; they seemed to think that there would be an excitement in this quarter next spring.

From Somers' to the 108 Mile Post (Roper's) is put down at 50 miles, over a level and picturesque country, but no sign of habitation or improvement. Game is abundant. Spruce grouse, willow grouse, prairie chickens, and hares, ducks, geese, &c., can be shot without going far from the trail, and if mines that will yield even $6 per day are found here, it will be a pleasant and cheap place to live in.

The company who two years ago sunk a shaft 140 feet deep and had to leave on account of financial troubles have earned money this summer, and intend to resume operations during the winter, having had sufficient inducements to do so. In conclusion, I will remark that this season altogether has been a very hard and disastrous one for the poor hard working miner, and in spite of the low rates of fares you will see numbers of men walking along adorned with the "Golden Gate" and "Self-rising" patches and cooking their scanty meals on the road side, a sure sign of hard times.

P. J. BLACK.

A band of clever thieves, wearing the dress of Prussian soldiers, lately made a descent on the gambling rooms at the fashionable watering places at Ems, in the Duchy of Nassau, and ordering the game to be stopped, seized upon all the money of the bank and carried it off. The imposture was discovered some hours later when a regiment of real Prussians arrived.

A letter from Franklin, published in the Salt Lake *Telegraph*, says: Millions of grasshoppers have made their appearance in this settlement, and are busy laying their eggs. They came from the north. Through the day the air was thick with them. They are moving south, and some of the most experienced citizens apprehend another grasshopper war equal to 1855.

Special Notices.

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

ALEXANDRE'S GLOVES—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—*These maladies are ever present, and if left unattended frequently terminate fatally.* It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

FRIDAY EVENING, OCT. 12, 1866.

The Triumphs of Popular Rule.

Nothing can be more instructive, and nothing more gratifying to the believer in human progress and the unerring justice of nature, than the contemplation of past and contemporaneous history. We can present to the understanding but few things more sublime than the spectacle of the human mind emerging from ignorance and doubt into the realms of scientific truth—the spectacle of man rising from the sphere of merely animal instinct to that of god-like reason. It is true it has taken many thousand years to bring us up to our present standard, and we are still groping, perplexed, in many of nature's labyrinths; but the more recent advances of the human mind lead us to hope for a more rapid development of that genius which is at last entering the portals of the Maker's designs, and turning the goodness of Providence to the purpose intended by the Creator—the comfort and happiness of man.

If the development of human understanding is a noble thing in itself, that which most conduces to such development must be also noble and worthy our most serious consideration. Happily this latter proposition can be dealt with tangibly; we are not required to go into the abstract to prove that this system of rule is better for human progress than that system. The recent history of the world shows that wherever man enjoys the greatest political privileges—wherever the greatest scope is given to the individual—there the greatest mental development takes place. It is astonishing that such a truth as this should have been so long closed against the European mind, and that it is only now when one by one the monarchical and aristocratic nations are becoming eclipsed by the great American Republic, the fact at last comes out boldly before them; and it is rather discreditable that this fact should be only recognized in the capacity to destroy. So long as the ingenuity of the United States was confined to the reduction of manual labor, so long as it was sending abroad its triumphs in the arts and sciences of peace, dissipating drudgery, and giving to the laboring classes positions less derogatory and more comfortable than they had previously held, the nation got little credit beyond that of being "smart" and "cute." Now, however, when it sends its Monitors across the Atlantic, with their guns of unequalled calibre, astonishing and even terrifying, if we might judge by the English press, the monarchies of Europe, the grandeur of the Republic looms up, and the old powers are awe-struck. In all this there is a noble retribution; it is the triumph of despised oppressed labor. We see the struggling artisan, the weary mechanic, the despised inventor, elbowed out of England—sent across the Atlantic to obtain that livelihood and that recognition of manhood which were denied to him in the land of his birth. We see the talent and the industry of these men lost to the mother country and given to that power which opens wide its avenues to emolument and position for men in every capacity. We see this great strength, which the narrow-minded policy of Great Britain had forced from her shores, coming back in monsters that make "monarchs tremble in their capitals." Nothing in the history of the world has ever given such a blow to hereditary and exclusive rule as this. Nothing has more completely exposed the danger as well as injustice of looking upon the great bulk of the population as machines that may do very well for the support of the Government, but must be kept out of its pale and patronge. Nothing shows more clearly that while the United States has, through its system of government, been utilizing all the talent which its population possesses, the English Government by its aristocratic assumption and exclusiveness has been cheating the nation out of nine-tenths of its intellectual power. What a sad commentary on our boasted institutions! While the Government of the United States has been inviting and encouraging the artisan from every country—while it has been doing its utmost to get the greatest amount of usefulness out of every class of the population, and while it has been putting out its gigantic arm to grasp the supremacy of the seas, the wise statesmen of England have been engaged for the last year in haggling and quarreling over the dreadful question of whether a few hundred thousand of the unenfranchised British millions shall be allowed to vote—shall be taken from the degradation of irresponsible waifs and made responsible men. The danger to the constitution of so alarming a proposition was too imminent, and the working man was again thrust down to his political piggery. The mighty contest is however over, and the victors, with the smile of noble triumph on their brows, proceed to turn their attention to the defences of the nation. In doing so they are naturally horrified to find that after the millions spent on ironclads, armaments, and fortifications, and after all the poetic tributes to the "meteor flag of England," the British fleet is dwarfed and her rule of the seas has vanished like a morning mist. The Monitor Miantonomah, the result of unfettered American genius, glides into the English harbors, and the British press as well as the British statesmen confess that England has now no floating bulwarks—that "her home" is no longer "on the deep!" "How have the mighty fallen!" In a few short years the whole power of the greatest nation is shaken, and the organ of its Government declares that "our safety at the present moment is found more in the good will of the American Government than in any preparedness of our own." Surely, such a confession, and the tones of general alarm throughout the English press, will awaken the nation to the conviction that if England is not to descend rapidly to a second or third rate power, she must get rid at once of the effete aristocratic rule which is throttling the genius of the country, and, borrowing a lesson from the Republic of the United States, throw every position open to merit and merit alone. No nation can now compete with the American Republic that does not take advantage of the talent of its people, and no nation can utilize this talent by following the exclusive internal policy which Great Britain is at present carrying out.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

Prepared by Dr. J. C. AYER,
PRACTICAL AND ANALYTICAL CHEMIST,
LOWELL, MASS.

AND SOLD BY

Moore & Co., Victoria

AND ALL DRUGGISTS.

The Discovery of Chloroform.

Our own great dead! We neglect even our own great men! There is one alive now whom all men honor, love and bless, but it might rain stars and garters, and statues and pensions, in the heralds-ridden island, before anything worthy of his glorious gift to humanity would be conferred on Dr. James Simpson, of Edinburgh. Science, humanity, and solid, sterling worth, are so scurvily treated, and learn to be so modest, while lucky knavery and good courtiership glitter with rewards, that he will probably not thank us for bringing his name into the light. We shall be even asked by some, "who is Dr. Simpson of Edinburgh?" We answer that Dr. Simpson is the man who gave to the world the grand, the blessed gift of chloroform. Come with us, inquiring public, and a careless star scattering government man, to the operating room of a London hospital. Do you know what this room used to be in 1847? A scene of agony and keen torture unspeakable, to which men were obliged to apprentice themselves, with sickness and fainting fits, ere they could witness it removed. Battle wounds are nothing: pain that comes and goes is nothing; but to have a surgeon's knife slowly searching in the home of life—to have his scalpel parting the living tissue—to feel the saw rasping the bone, and forceps pinching the nerve, and to be held down against the agony till gentle nature took sense and agony away in a sickly swoon—that was once the horrible experience of the operating room. Shall we make the picture complete with a sketch of those cock-pits where the stump of the man of war's man was plunged into hot pitch to stop the bleeding, and when poor Jack had come to again the surgeon's knife was ready to cut and shiver him under his own eyes? Or shall we speak of the sight that Liston and Brodie have seen a hundred times when some unhappy girl accursed with a cruel disease, has been carried white and shaking into the theatre, and has died in agony under the slash of the knife! Ah! others than girls grew white, for generation after generation, at the sight of that awful knife, so necessary and so cruel! Strong men borne from the battle, turned silent and pale, from its dreadful gleam, brave hearts chose death rather than the living anguish of the operating table. Yet for all the years of disease and wounds, and lessons that had afflicted humanity, there was no resource in many a hopeless case but the slow agony and uncertain gain.

What did Mr. James Simpson do? Why—heaven bless him for his gentle work—he sat, and schemed, and read, and labored, experimentalized, and ended by putting himself and his companion, Dr. Keith, under the study table with the fumes of chloroform.

But when their consciousnes returned, the terrors of the operating room were gone.

Science, which gives so slowly, but with both hands full, when she gives at all, has honored his humanity with the dearest and most precious boon that suffering mortality ever received. A sweet and sublime anodyne was found out, which steals the feeling of the frame away, and leaves the patient quiet and the doctor free. Go to the operating room now and mark the glorious difference. The benign vapor is administered anp the knife does its work without a tremor or a spasm; the sufferer wakes up and asks, 'when will it be?'

The deliverence from pain is the boon that Simpson conferred on men and women who suffer from maladies that call for the knife and ligature; and since God proclaimed the law that pain and sorrow, misery and trouble should depart by man's patient works, as by man's faults they came, there have been but few nobler gifts bestowed on suffering mortals. Set up your statue for a great physician, generous people of France, and don't ask what we have done for our great and good living doctor. You made him a member of your Academy, and sent him your Monthmon prize, and King Oscar of Sweden made him Knight of St Olaf.

We who own him, who speak his language, who were the first to benefit by the splendid scientific boon he bestowed on our hospitals and sick rooms, and on the ccuch where motherhood fulfils, in exquisite anguish, the woman's share of the primal curse—we hardly know his name, and did our best some of us to back his discoveries with sober theories that pain was meant for man, and that it was impious to steal the agony from the fainting mother, or stay the death-sweat on the forehead of the weak victim who writhes under the operating knife. We, compassionate at last towards the deepening groan of humanity, are only reminded of him by yon statue which has been raised to Jenner; and when we think of something worth giving him who found out this divine boon for us—this fairy gift of chemistry—we remember that the courtiers and the swells, and the diplomats fill the list of honors, so that we can merely give the Scotch Doctor our barren thanks while we are sound, and our blessings when the surgeons get hold of us, and the case of instruments comes out.
—*London Telegraph.*

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged they will prove most invaluable, as a ready, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills.—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,
Dropsy,
Debility,
Fever and Ague.
Female Complaints,
Headache,
Indigestion,
Influenza,
Inflammation,
Inward Weakness,
Liver Complaint,
Lowness of Spirits,
Ringworm,
Rheumatism,
Salt Rheum,
Scalds,
Skin Diseases.

☞ NOTICE.—None genuine without the engraved trade-mark around each pot or box, signed by DR. J. MAGGIEL, 43 Fulton street, New York, to counterfeit which is felony.

☞ Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).
The Edinburgh Review (Whig)
The Westminster Review (Radical)
The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum
For any two of the Reviews	7	"
For any three of the Reviews	10	"
For all four of the Reviews	12	"
For Blackwood's Magazine	4	"
For Blackwood and one Review	7	"
For Blackwood and any two of the Reviews	10	"
For Blackwood and three of the Reviews	13	"
For Blackwood and the four Reviews	15	"

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "BLACKWOOD," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz.:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any Review.

☞ A few copies yet remain of *all the four Reviews* for 1863 at $4 a set, or $1 50 for any one.

LEONARD SCOTT & CO.,
Publishers, 38 Walker Street, N. Y.

L. S. & Co., also publish the

FARMER'S GUIDE

By HENRY STEPHENS, of Edinburgh, and the late J. P. NORTON, of Yale College. 2 vols. Royal Octavo, 1600 pages, and numerous Engravings.

Price $7 for the two volumes—by Mail, post paid, $8 00. au 23

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and delility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided, for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway' Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½d., 5. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.

PRINTED and Published by McCLURE & Co. at the office, Langley Street.
