THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT.

The effect of the Ointment on the System.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hands, as salt disappears when rubbed upon meat. The unguent performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abcesses, cancers, old wounes, and, in fact, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course, and permanently cured without danger by rubbing in this inestimable Ointment.

Bad Legs, Bad Breasts, Sores, and Ulcers.

In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores, and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier, and emigrant.

Imprudencies of Youth;—Sores and Ulcers.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove only hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

Piles, Fistulas, Strictures.

Blotches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient vigorous and healthy being. It will require time, aided by the use of the Pills, to ensure a lasting cure.

Diptheria, Bronchitis, Sore Throats,

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest, and neck of the patient. The unguent will soon penetrate the pores and give immediate relief. To allay the fever and lessen the inflamation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

Both the Ointment and Pills should be used in the following Cases:

Bad Legs	Corns (Corns)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throat
Bite of Moschetoes and Sand-Flies	Fistulas	Skin diseas
Coco-bay	Gout	Scurvy
Chiego-foot	Glandular Swellings	Sore heads
		Tumors
Chilblains	Lumbago.	Ulcers
Chapped Hands	Piles	Wounds
		Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY, 244, Strand, near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines through out the civilized world, at the following prices 1s. 1½d 2s 9d. 4s 6d., 11s., 22., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of Patients in every disorder are affixed to each Pot.

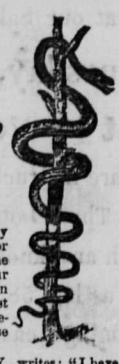
AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.



BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, ESQ., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, ESQ., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

Relief for the Afflicted.

THE INTRODUCTION OF

Perry Davis'

Vegetable Pain Killer

To the Suffering Humanity of this Age has relieved more pain, and caused more real joy than any other one thing that can be named.

IT IS AN

Invaluable Remedy.

Our first Physicians use it, and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a medicine of great merit and virtue is fully and permanently established, and it is the great

Family Medicine of the Age.

Every Volunteer should have a bottle, in case of sudden attacks of Disease.

Taken Internally, cures

Sudden Colds, Coughs, &c.,
Weak Stomach,
General Debility,
Nursing Sore Mouth, Canker,
Liver Complaint,
Dyspepsia or Indigestion,
Cramp and pain in the Stomach,
Bowel Complaint,
Painters' Colic,
Asiatic Cholera,
Diarhœa and Dysentery.

Taken externally cures

Felons, Boils, and Old Sores,
Severe Burns and Scalds,
Cuts, Bruises and Sprains,
Swelling of the Joints,
Ringworm and Tetter,
Broken Breasts,
Frosted Feet and Chilblains,
Toothache,
Pain in the Face,
Neuralgia and Rheumatism.

PAIN KILLER,

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a COUGH and Bronchitis, a few drops on Sugar, eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

☞ It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use.

Prices 25 cents, 50 cents & $1 per bottle.

Ebening Telegraph.

WEDNESDAY EVENING, OCT. 10, 1866.

A DREADFUL FAMINE.

The short details given in the telegraphic news of the famine in India are terrible in their import. From Calcutta and Bombay the accounts are truly appalling. In the latter city according to the correspondent of the London *Times*, 900 bodies are to be picked up each morning. The last returns put down the number of deaths during the week at over 7000. This, however, gives but a small idea of the calamity, as a very much larger number die in the jungle unknown and uncared for. The total number per week in and around Bombay, is therefore put down by the *Times'* correspondent at 21,000. As Bombay with its immediate surroundings has a population of about 700,000, we have 3 per cent. of the inhabitants cut down by starvation every week—a rate of mortality that would clear out the city and its vicinity of every soul in about eight months. The number of deaths is not so great in Calcutta, although this city is a little larger than Bombay, but the mortality is sufficiently horrible to make us wonder at the administration of affairs that proves itself so incompetent to prevent or alleviate catastrophes, which seem to be periodical. In a tropical country, where nature is so lavish in her productions, and where the wants of man are so easily satisfied, it does seem strange that the wisdom of those who have the unobstructed management of affairs should be unable to avert these direful visitations either by timely precautions, or by a system of irrigation that would counteract to a great extent the effects of the droughts to which certain portions of India are so subject. The area of the Presidency of Calcutta is nearly double that of Great Britain and Ireland, being over 221,000 square miles, yet its population is only one-third greater. The Presidency of Bombay where the greatest destitution prevails, covers over 131,000 square miles, nine thousand greater than Great Britain and Ireland, and only contains a population of 11,000,000. England has done much for India, but her administration, it is evident, has yet heavy work before it. The land system in many places, is still a curse, and the ryot still a wretched creature with no perpetuity of tenure at a fixed rent. The greatest opportunity that ever presented itself to any country for accomplishing good, says Mill in his history of British India, was presented to England on her assuming the direction of Indian affairs —that of giving the immediate cultivators of the soil the greatest interest in the soil. "A measure," continues the philosopher, "worthy to be ranked among the noblest that ever were taken for the improvement of any country, might have helped to compensate the people of India for the miseries of that misgovernment which they had so long endured. *But the legislators were English aristocrats; and aristocratical prejudices prevailed.*" It is not in India alone, however, that aristocratic stolidity and prejudice have revelled to the country's detriment. In the government of every British colony the same supercilious ignorance prevailed, until one colony after another came down to that flourishing condition which characterises Vancouver Island and British Columbia at the present time, and men from the very necessity of their position, were forced into a war of aristocratic, or rather would-be aristocratic extermination. We are afraid with all the recent improvements in the government of India, there is still too large a leaven of aristocratic assumption and incompetence in the general management.

GRATITUDE.

The officials and those who have received substantial and honorary favors from Governor Kennedy, are about to get up a dinner for the especial laudation of His Excellency before his departure. We admire gratitude even in the breasts of the parties alluded to; we believe besides that it has been well-earned; for no Governor ever stood so warmly by his subordinates and his parasites, as His Excellency Governor Kennedy, but we would advise those gentlemen who are so desirous of showing their thankfulness for favors conferred, or who are anxious by their feasting adulation to bespeak favors to come, to confine their demonstrations to a purely social entertainment. We have as much respect for Governor Kennedy personally as any of his creatures, and have no objection to see any portion of the public show some little return for gubernatorial hospitalities; but we have no idea of witnessing without a protest, political capital, as is proposed, being made out of this retiring banquet. Governor Kennedy politically has lost the confidence of the people and their representatives; let the former be careful that they do not show that vacillation and inconsistency with which they have been charged by endorsing even by implication his Excellency's administration.

According to a correspondent of the London *Telegraph*, in Garibaldi's army all 'Daughters of the regiment' are not bewiching persons: 'She was the daughter of the regiment, but she might have been its grandmother. A fussy, gray-haired, sun-burned, wrinkled virago, with arms as muscular as those of a prize-fighter, and an astonishingly copious vocabulary of horrible oaths.'

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &C.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have *cured* with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

PORT OF VICTORIA, VANCOUVER ISLAND.

ENTERED.

Oct 10—Schr Thorndyke, Thornton, San Juan

CLEARED.

Oct 10—Schr Black Diamond, McCulloch, Nanaimo

THE FIRE ALARM was again sounded last night about 12 o'clock, the flames having broken out in the ruins of the house burnt yesterday. The Hook & Ladder Co. were promptly on the spot, and pulled the burning timbers apart, and the engine companies after obtaining a small supply of water with some difficulty, effectually quenched the flames. Mr. Mallandaine had again to turn out his furniture and obtain shelter from a neighbor

POLICE COURT—The only case before the stipendiary magistrate this morning was that of a Fort Rupert Indian for threatening a man named Wm. McCormick with a knife. The culprit who is one of a band of Fort Rupert siwashes who have been somewhat demonstrative in town during the last few days, was fined $20 or 2 months' imprisonment.

PUGET SOUND CUSTOM HOUSE.—The Seattle *Weekly* says the instructions to the Puget Sound Collector of Customs to transfer the Port of Entry from Port Angelos to Port Townsend are now on their way from Washington by mail, and the change will be effected immediately upon their arrival.

TELEGRAPHIC.—R. R. Haines, Esq., Assistant Superintendent of the California State Telegraph Co. is conducting the Victoria office during the temporary absence of Mr. Henderson, who has gone to New Westminster to relieve the local operator there, the latter being sick.

A RIFLE MATCH between six non-commissioned officers and six privates of Rifle Co. No. 1, will take place at the range to-morrow, if the weather is fine. The firing will commence about half-past eleven o'clock, and will be at 200, 400, 600, and 800 yards.

GOVERNOR KENNEDY will, we believe, leave this colony either by the next trip of the Active or by a man-of-war. His Excellency expects Governor Seymour to arrive here between the 5th and 10th of November.

A FINE HOMESTEAD.—Mr. J. P. Davies will sell to-morrow one of the finest residences in the colony, *viz* the house on Fort street built by Mr. D. A. Edgar, and at present occupied by Mr. Pickett.

H.M.S. SCOUT sailed to-day for San Francisco carrying a mail and letter express. She will go down under steam.

FOR SAN JUAN.—The steamer Diana sailed this morning for San Juan Island, carrying U. S. Colonal Foster and party.

THE JEWISH SYNAGOGUE is to be sold at auction to-morrow by J. P. Davies & Co.

Protection from Fire.

EDITOR OF THE EVENING TELEGRAPH.—SIR:—I think the fire of yesterday ought to teach the public the great want of tanks at the junctions of the principal streets; had there been a tank at the corner of Cook and Yates streets, I am sure my brother firemen will agree with me that nearly the whole of the house might have been saved, only the roof being on fire when the engines arrived, and it was only the delay caused by having to change the engines from well to well which gave the flames the chance of gaining on us, and caused us to turn out again last night.

FIREMAN.

TELEGRAPHIC.

India.

FEARFUL MORTALITY.

NEW YORK, Oct 7th.—The reports of famine in India are confirmed, especially in the region around Calcutta. A correspondent of the London *Times*, writing from that city under date of August 11th, says:—The city was being so crowded with paupers that the municipal commissioners and merchants had organized a relief. On Monday a public meeting of all classes was held in the town hall to raise subscriptions. Reports were read giving statistics which, completed to date, show that at 22 Plateabs, 11,475 people are daily fed in addition to the sick in the hospital. This number is increasing at the rate of about 25 a day. It may be said that 20,000 persons are now subsisting on charity daily in Calcutta. Reports from Bombay are even more appalling. The same authority: think of 900 dead bodies being picked up in the streets of Bombay each morning. Half the truth has not been told. The last returns show 7030 deaths in that one station during the week ending July 31st. If you treble that number for the many who become the food of jackals and vultures in the lonely jungle or ditch, you will not go beyond the sad truth. It is obvious that the board of health has ceased to report the deaths.

Europe.

FARTHER POINT, Oct 8th.—The Hibernia passed here with dates to Sept. 28th.

The Lord Mayor of London had determined to entertain the promoters and layers of the Atlantic cables at a grand banquet at the Mansion House early in November.

The infant daughter of Tom Thumb died at Norwich, Sept. 26th, of inflamation of the throat.

Eastern.

CHICAGO, Oct. 7—The New York papers are full of complaints that the wires across Newfoundland are getting out of repair too often. They are now connecting Newfoundland with Nova Scotia, and the line will be soon open. The New York, Newfoundland and London Telegraph Companies will place in thorough repair immediately all their telegraph lines, and build an entire new line from Port Hood to Heart's Content as soon as it can possibly be done, meanwhile, Craig telegraphs to the agent of the Associated Press that if at the end of the month it should be found that less than fifty-two reports were received during the month, it will not be expected that the papers will be charged the full price as heretofore, but only in proportion to what we receive.

NEW YORK, Oct. 6—The New York *Times* to-day comes out distinctly for Governor Fenton, the regular Republican nominee, and says the Democrats deserve and will receive a severe drubbing.

NEW YORK, Oct. 7—The steamer Geo. Cromwell, from New Orleans, arrived today having on board the crew and passengers of the steamer Daniel Webster, and also the crew of the schooner Minnehaha. The Webster was bound from this port for Mobile, and encountered a heavy gale causing her to founder.

NEW YORK, Oct. 3—The London *Review* has the following: The flow of gold into the United States continued on a somewhat larger scale than had been looked for. The most satisfactory feature in the movement is the confidence it shows in the permanency of peace in America, that so far as investors are concerned, a renewal of the civil war is considered in the highest degree remote.

The headquarters of Santa Anna continue to be thronged with visitors. Gen A. Buckley, President of the Knights of the Golden Circle, has offered his services and sympathy in the cause. General Sweeny had a long interview with the old chieftain yesterday on the subject of Fenian enlistments. The adherents of General Ortega, the rival claimant to the distinguished honor of delivering the Mexican Republic, exhibit bitter hatred of Santa Anna. They claim that he is a spy of the French Government, and that they have documents to prove it. Gen. Ortega will leave the city soon for Mexico.

NEW YORK, October 8.—Commodore Stockton died last night at ten o'clock p. m.

NEW YORK, October 8.—Advices from San Antonio via Galveston, state that quite a number of Santa Anna's agents are at work recruiting for a raid on Matamoras; there is but little sympathy shown them there, it being fully understood that Santa Anna is pledged to Napoleon to acknowledge the French government if he succeeds in gaining a footing on Mexican soil. Large quantities of arms and supplies have reached the Mexican frontier for Juarez's army, at Monterey and other places.

California.

SAN FRANCISCO, October 5.—Messrs. Newman & Meyer have just completed the first silk pattern ever made in California. It is 38 inches wide by 12 yards in length; is strong, substantial, soft and glossy. The manufacturers have made arrangements for conducting the business of silk manufacturing on an extensive scale from raw material imported from China and Japan, as well as that produced in California.

A writ of habeas corpus has been taken out and will be argued this evening before Judge Dwinelle, on the case of Thomas Donahue, charged with killing Patterson. It is understood that argument for his release will be the insufficiency of parol testimony as establishing the fact that he is a fugitive from justice.

Thomas Newman, of the firm of Newman Brothers, dealers in wooden and willow ware, who failed on Saturday last, together with Samuel Light and Frank Happersett, two of his clerks, has been arrested on a charge of having set fire to their store on the 15th ult., for the purpose of recovering $50,000 insurance. Newman was released on $5,000 bail, and the clerks on $1,000 bail each. The appearance of the premises bear unmistakable proofs of their being set on fire.

The Academy of Music was opened last evening by the minstrels, having among their number Billy Sheppard, the Ethiopean performer who killed Ben Ballou at Virginia City some time since. A large number of Ballou's friends were in the gallery, and the appearance of Sheppard on the stage was the signal for a row, the occupants of the gallery hooting and shouting murder, and for a short time a serious difficulty was feared. A large brickbat was thrown at Sheppard by some one in the crowd, and the demonstrations were assuming a serious character, when policemen were procured and the gallery restored to order, and the performance proceeded without interruption.

Voltaire said of Mademoiselle de Livry:—"She was so beautiful that I raised my long, thin body, and stood before her like a point of admiration."

THE STENOGRAPHIC TELEGRAPH—We learn from the *Illustrated London News* that two English gentlemen (Captain Bolton and George Snell, official shorthand writers to the Court of Bankruptcy, London) "have been found to abbreviate even electric telegraphy, and seem each to have been busied in inventing a code of telegraphy which will enable the company to meet the demands put upon them by their success," and that "Cyrus Field is desirous of applying Snell's scheme to the vast and almost interminable land wires of the American telegraphs." If this be true, says an Eastern exchange, and there seems no good reason why a single sign or signal should not represent a word as well as a letter, the whole system of telegraphy will undergo a great change; less time will be occupied in the transmission of messages, and it ought to follow that less money will be paid for telegrams. When an arbitrary sign represents a word, much time and trouble will be saved. It should be remembered, too, that this stenographic action will be applicable to submarine as well as to land telegraphs. Should Field succeed in adopting it in the Atlantic telegraph, it must follow ere long that the tariff of prices will be greatly reduced. At present the price is a dollar a letter, but when a single letter represents a whole word there will be full room for reducing the charge to the public.

What is the difference between an editor and a wife? One sets articles to rights, and the other writes articles to set.

A national convention of tailors iis n session in New York.

Special Notices.

REMOVAL.—Messrs. Solomon Bros. have removed to the two-story brick building on Government street, opposite the St. Nicholas Hotel. They have received, ex ship Mohawk, from London, a fine assortment of men's clothing and underclothing, which they will sell lower than any house in town. Give them a call. *

MR. DIGBY PALMER requests that orders for teaching, playing and tuning Pianofortes, and for instruction in Singing, may be left with Messrs. Hibben & Carswell, Stationers and Booksellers, Government street, or at his residence, near the top of Fort street. *

ALEXANDRE'S GLOVES—Messrs. J. H. Turner & Co., London House, have received to-day, by Express from Paris, a full assortment of Alexandre's famous kid gloves, for which they are the sole agents in Vancouver Island and British Columbia. *

FRENCH MILLINERY—The millinery department at London House is now under the management of a lady who arrived by last steamer from Paris.—J. H. TURNER & Co. *

HOLLOWAY'S PILLS.—Diarrhœa and Bowel Complaints.—These maladies are ever present, and if left unattended frequently terminate fatally. It should be everywhere known that both cholera and diarrhœa depend on the presence of some undigested substance in the stomach or bowels, or some deleterious matter in the blood, and that Holloway's Pills can expel either with ease and expedition. They concentrate in a surprising degree purifying, alternative, regulating and strengthening qualities, and thus exert over every internal organ the wholesomely controlling influence so necessary for subduing excessive action in the human frame. Holloway's medicine may be advantageously taken as a means of keeping the blood pure and the body cool—the only practicable plan of maintaining health in youth, manhood, and old age.

A NEW AND GRAND EPOCH IN MEDICINE!—Dr. Maggiel is the founder of a new Medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctors are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are no of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic** and **Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cts per box.

BANK OF BRITISH COLUMBIA.

LONDON, 3d August, 1866.

FROM AND AFTER 25TH SEPTEMBER, 1866, MR. DAVID MARSHALL LANG will cease to be Manager of this Bank in these Colonies, and MR. WM. CURTIS WARD is authorised to perform the duties of Principal Officer of the Bank in these Colonies, signing all documents as Acting Manager.

By order of the Court of Directors,
JAS. D. WALKER,

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

Miscellaneous.

FLOGGING GARROTTERS.—The *Manchester Courier* gives the following account of the flogging of several men who were convicted at the late assizes of robbery with personal violence:—The prisoners were stripped to the waist, their legs fastened in a kind of box, and their arms secured by straps at the wrist, leaving their hands free to clutch two rings to which the straps are attached. The first brought to the post was Michael Flaherty, aged 18, who was to receive 18 lashes. The prisoner had fortified himself with a piece of leather, which he rolled in his mouth, and at every fall of the 'cat' compressed between his teeth. He writhed and howled piteously, and at the twelfth stroke cried, 'Oh dear, oh dear, tell me whether that is eleven or twelve.' The stolid and stalwart gaoler who handled the whip vouchsafed no reply, but repeated his blows at the signal from the surgeon, with about half a minute's interval between each infliction. The suspense between the strokes seemed to add to the agony of the torture, leaving time for the dreaded apprehension of the renewal of the stroke. On being released, the prisoner, who had howled so fearfully before, turned round, and said, with the most consummate impudence, 'Thank you, gentlemen, my mother often gave me worse with her apron strings.' The next mounted was Peter Kelly, who was a youth of about 20 years, tall in stature and muscular in frame. He had been convicted of highway robbery with violence, and of an attempt to 'choke and strangle' an old man. He bore the first three or four strokes with perfect composure, but throughout the rest of the castigation groaned repeatedly at every stroke. Once, turning round, he said, 'I'm innocent of this, gentlemen;' and when taken down he repeatedly protested his innocence of the offence for which he had been condemned. He also received 18 lashes. He was brought into the yard as Kelly was taken away, and turning round, he saw the unsightly lacerations on his companion's back, and shuddered at the anticipated pain of undergoing a similar disfigurement. Though he uttered no cry or groan, every muscle and fibre of his frame shook throughout the operation. On being removed, he also declared his utter innocence of the crime imputed to him. A refractory youngster, who had refused to work, was next hoisted. At the first stroke he howled, danced, and shrieked, and continued to do so throughout, protesting that he would do any work if allowed to go.

THE HERCULES.—During the short interval which has elapsed since the keel of this vessel was laid down she has made the most rapid progress, and although the first piece of iron for her construction was lowered into the dock so recently as the 21st of June last, the vessel is now almost entirely in frame, and a considerable portion of her double cellular-bottom is already completed—a rate of progress, it was remarked, which was without a parallel in iron ship-building. The Hercules is being built on the broadside principle, while her designs, as produced by Mr. Reed, show that she will surpass every other vessel of her class in the elements of strength and offensive and defensive powers. She is to be constructed of 8in. of exterior armour plates, laid on a backing of 12in. of teak, behind which will be worked plating of 1½in. in thickness over 26in. of teak and the ordinary ¾in. inner iron skin. Some idea of the enormous strength may be formed by a comparison of the Hercules and the Warrior, the latter having a *maximum* weight of 427lb. per square foot; while the weight of the former will be 737 lbs. per square foot. It is intended that the Hercules, which will probably be the last of that class of broadside ships the present Admiralty will sanction the construction of, shall be ready for sea within a couple of years.

FACTS vs. THEORIES.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Billious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr. Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

An Appeal to the Citizens of Victoria, V. I.

THE CONGREGATION EMANU-EL OF Victoria, V. I., in meeting assembled, this day, Saturday, Sept. 22d, 1866,

Resolved, That the aid of our Fellow Citizens of all Denominations be solicited through the following authorized and duly appointed Committee. And that such Committee endeavor, by every means in their power, to raise funds whereby part of the debt or mortgage on the Israelitish Synagogue may be cancelled. Knowing the liberal views and generosity of the citizens of Victoria, the congregation has not the slightest doubt (making due allowance for the dullness of the season) that their appeal will meet with that response which the exigency of the case requires.

A Triumph of Science

—AND—

THE LIGHT OF THE WORLD

DR. MAGGIEL'S

PILLS & SALVE.

These Life-giving remedies are now, for the first time, given to the public to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re invigorates the ailing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the wasting energies to their pristine state. To the young and middle aged they will prove most invaluable, as a speedy, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact the magic that made it fair.

THESE FAMOUS REMEDIES

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that militate against the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

For Billious Disorders

Nothing can be more productive of cure than these Pills—Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably cure the following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,
Dropsy,
Debility,
Fever and Ague,
Female Complaints,
Headache,
Indigestion,
Influenza,
Inflammation,
Inward Weakness,
Liver Complaint,
Lowness of Spirits,
Ringworm,
Rheumatism,
Salt rheum,
Scalds,
Skin Diseases.

☞ NOTICE.—None genuine without the engraved trade-mark round each pot or box, signed by DR. J. MAGGIEL, 43 Fulton street, New York, to counterfeit which is felony.

☞ Sold by all respectable Dealers in Medicines throughout the United States and Canada—at 25 cents per box or pot.

BRITISH PERIODICALS.

The London Quarterly Review (Conservative).
The Edinburgh Review (Whig)
The Westminster Review (Radical)
The North British Review (Free Church)

—AND—

Blackwood's Edinburgh Magazine (Tory)

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the time in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time to Americans, not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war now being written by Col. Von Borke, a German officer, chief of staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4 per annum
For any two of the Reviews	7 "
For any three of the Reviews	10 "
For all four of the Reviews	12 "
For Blackwood's Magazine	4 "
For Blackwood and one Review	7 "
For Blackwood and any two of the Reviews	10 "
For Blackwood and three of the Reviews	13 "
For Blackwood and the four Reviews	15 "

CLUBS.

A discount of *twenty per cent.* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review will be sent to *one address* for $12 80. Four copies of the four Reviews and Blackwood, for $48, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "BLACKWOOD," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz.:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December 1865, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any review.

☞ A few copies yet remain of *all the four Reviews* for 1863 at $4 a set, or $1 50 for any one.

LEONARD SCOTT & CO.,
Publishers, 38 Walker Street, N. Y.

L. S. & Co., also publish the

FARMER'S GUIDE

By HENRY STEPHENS, of Edinburgh, and the late J. P. NORTON, of Yale College. 2 vols. Royal Octavo, 1600 pages, and numerous Engravings.

Price $7 for the two volumes—by Mail, post paid, $8 00. au 23

THE ONE THING WANTED.

HOLLOWAY'S PILLS.

The Blood.

These famous pills are so composed that they operate wholesomely on the stomach, the liver, the bowels, and other organs; by correcting any derangements in their functions whereby a steady supply of pure materials for the renewal of the Blood is furnished, and a constant abstraction of effete products is effected. This perfect circulation thus becomes the very fountain of health and life, and overcomes all form of disease wherever its situation.

General Disorders of the Liver and Stomach.

All who ever indulge at table, either in eating or drinking, should take about ten of these famous pills at bed time, from which will result a clear head and good stomach the following morning. Thousands of Ladies are always complaining of sick headaches, want of appetite, want of energy, and want of strength, to correct all these evils, three or four of these Pills should be taken twice a week, when they would give the invalid the health and appetite of a ploughman.

Females of all Ages and Classes

Obstructions of any kind, either in young or those between forty and fifty—the most critical period of life—may be radically removed by using these Pills according to the printed directions which accompany each box. Young persons with sickly and sallow complexions may have the bloom of health restored by this corrective, which purifies the blood and expels all gross and impure humors from the system. Beware then of the critical age from forty to fifty, as it sends many thousands to premature grave,—these Pills should be taken at that period of life two or three times a week

Want of Strength and Energy.

Persons of sedentary habits, or those troubled in mind, working in Factories or Coal Pits, who cannot obtain that amount of fresh air and exercise which nature requires, suffer from weakness and debility, lowness of spirits and want of appetite. All such should take a dose or two of these Pills every three or four days, as they act gently and effectually on the system and impart vigor and energy to the body, which is always followed by a good appetite, sound and refreshing sleep, and a high flow of spirits.

For the Cure of Dropsy.

The efficacy of Holloway's Pills in Dropsy is extraordinary. They act with such a peculiar effect upon the system, that the fluids causing this direful complaint, are perceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution. It is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts during the whole course of treatment.

Children and their Ailments.

In no country in the world are more children carried to an early grave than in Great Britain. Coughs, Measles, Scarlatina, Fevers, and other diseases attack the little sufferers, and death, but too often, follows at a rapid pace; yet if at the first stage of these complaints, parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels would be gently but effectually cleansed by this mild aperient; the depraved humors corrected and the secretions duly regulated. A perfect cure would soon be effected, and the little patient restored to sound health.

Holloway's Pills are the best known remedy in the world for the following diseases:

Sold at the Establishment of Professor Holloway, 244 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices—1s. 1½., 5. 9d., 4s. 6d., 11s., 22s., and 33s. each box.

Ague	Female Irregularities	Scrofula or King's Evil
Asthma	Fever of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel complaints	Head Ache	Tic-Doloreux
Colics	Indigestion	Tumors
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause
Dysentry	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

*** There is a considerable saving by taking the larger sizes.

Directions for the guidance of patients in every disorder are affixed to each box.

PRINTED and Published by McCLURE & Co. at the office, Langley Street.
