VOLUME III. NORTH VANCOUVER, B. C., FRIDAY, NOVEMBER 16, 1906. NUMBER 13

EDITORIAL.

THE FRUIT INDUSTRY.

The Provincial Government has issued an illustrated pamphlet dealing with British Columbia's fruit industry and points out that the fruit industry of British Columbia is in its infancy, but the results so far secured are convincing as to its future importance. The acreage planted in fruit trees has trebled in five years; in 1891 the orchard acreage was 6,437 acres; in 1901 this acreage had only increased to 7,430 acres; in 1905 it had increased to 22,000 acres: 250,000 fruit trees were planted in 1903; 700,000 in 1904; over one million in 1905.

Ten years ago British Columbia did not grow enough fruit to supply her own population. In 1902 the fruit shipments amounted to 1,956 tons; in 1903, 2,544 tons; in 1904, 3,025 tons, valued at $240,000; in 1905, 4,350 tons, valued at $350,000. The value of the fruit crop of 1905 exceeded $1,000,000.

COST OF AN ORCHARD.

The cost of making a twenty-acre orchard in British Columbia is variously estimated from $2,500 to $3,500, according to the first cost of the land and local labor conditions. The care and maintenance of the orchard for five years, or until it begins to bear, would cost about $2,500, less the value of small fruits and vegetables planted between the trees and the fifth year's return of fruit, which, in all, should pay the original cost of the trees. In the sixth year the orchard should produce $850 worth of fruit, in the seventh $3,200, and in the ninth $5,800, after which it should pay a net annual profit of $125 to $150 per acre—an assured income for life of $2,500 to $3,000 a year.

Athletic Club.

The athletic club held its regular monthly meeting in Athletic hall on Monday. President McKenzie presided, Secretary Green was in his place, and there were present about 50 members.

After some business had been disposed of it was found that there was a surplus of about $100. It was announced that the wrestling mat and horizontal bar would be in place this week.

It was decided to postpone to an extraordinary general meeting the question of holding a banquet or other entertainment, proposed to be held on New Year's night.

The committee stated that the by-laws and membership books were now in the printer's hands.

Those desiring invitations to the Tuesday night's hop may obtain same from members.

The secretary was instructed to communicate with the general manager of the B. C. Electric Railway Company regarding proposed athletic grounds on Twenty-first street.

Members are requested to attend next meeting.

The meeting then adjourned.

Church Notice.

ST. ANDREW'S PRESBYTERIAN CHURCH
SIXTH STREET.

Service will be held in the church on Sunday as usual at 11 a. m. and 7:30 p. m.

Sunday school, 2:30 p. m.

Service at Moodyville school on Sunday at 4:30 p. m.

The mid-week service will be held in the church on Thursday at 8 o'clock until further notice.

A cordial invitation is given to all.

Pastor: Rev. J. D. Gillam, M.A.

ELECTIONS DEC. 15TH.

Special to THE EXPRESS:

VICTORIA, B. C., NOV. 16.—It is learned on reliable authority that the provincial general elections will take place on Saturday, December 15th. The McBride government will be allowed an appeal to the people by Lieutenant-governor Dunsmuir.

MASS MEETING.

A mass meeting will be held in the municipal hall, North Vancouver, on Monday, November 19, at 7:30 p. m., for the purpose of completing the formation of a ratepayers association.

GEO. J. PHILLIPPO,
Secretary pro tem.

LOCALS.

R. H. Byrce has gone up to Harrison Hot Springs for a few days.

J. W. Horne has been confined to his room the past week at Hotel North Vanconver with a severe cold.

J. J. and Mrs. Godfrey have left the Hotel North Vancouver and taken up their residence at English Bay, Vancouver.

W. H. Burnett and F. J. W. Coutts, of the Bank of British North America staff, have decided to winter at the Hotel North Vancouver.

The Hotel North Vancouver is being fitted throughout with steam-heating apparatus, which will be completed by next week.

D. Bourdon, harness maker, who recently lost the sigh of one eye, has sold out his business at Vancouver, and has started poultry yards at the First narrows. He will pay special attention to turkeys and ducks.

E. J. Mitchell, Pincher Creek, Alberta, was a guest this week of his brother, Harry, manager for the Brackman & Ker Milling Company here. He left on Wednesday for Victoria.

Leo Wilke, an old-time cigar maker of this place, is branching out for himself at Vancouver. His many friends wish him success.

Anyone wishing Mr. M. J. Henry's autumn catalogue of nursery stock, bulbs, roses, etc., can get same at this office.

On Monday almost a fatal accident occured to a stranger, who fell into a hole filled with water, on St. George's road, between Fourteenth and Fifteenth streets. Holes in the back streets this weather fill with water, and it is impossible to tell the difference between them and puddles.

The board of trade will hold its regular monthly meeting on Tuesday night in municipal hall.

The Capilano road is in very bad condition.

W. H. Ker, manager Brackman Ker Milling Company, was here to-day.

Just because a well-known guest at the hotel asked the simple question: "Have you good butter, now?" He was told to get out by the waitress. Awful, isn't it?

Several weeks ago a Mr. Roy was sent by the federal government to investigate and report on certain charges or complaints made against Capt. Newcombe of the government steamer Kestrel. Up to date nothing has been done by the said commissioner, who has been laid up in the hospital for several weeks, owing, it is alleged, through his own fault. It was alleged, that the captain, in ordering his supplies, purchased such stuff as caviar, chutney, olives, and last, but by no means least, champagne; and further, that he (the captain), asked a certain firm for a ten per cent. rakeoff as his bit. R. G. Macpherson, M. P., enquired about the ten per cent. allegation, and was informed that there was nothing in it, and that it was false. As to the luxuries, it may be stated that the captain didn't buy them for his own particular use, but for the guests of the government officials and their friends who were entertained on the boat. As far as we can learn, these charges have been made through petty jealousy, emanating in certain nautical quarters at Victoria. As all kinds of jobs have been put up to darken the captain's reputation, it looks like a piece of blackmail to us.

Among those mentioned as candidates in Richmond riding for the nest provincial election are: D. G. Dick, Alex. Philips, ex-Reeve Gill, Reeve Kealy, North Vancouver; ex-Speaker Higgins, Hon. Mr. Cotton, Alex. Gilchrist, Ald. Baxter, Vancouver City; J. W. Weart, Central Park.

Assessor Woods went out to Eagle Harbor and other western points of the municipalty to-day on assessment work.

The ferry North Vancouver will be ready for service in a fortnight.

Go to Bates' for stoves, chairs and crockery.

J. Fogg has returned from San Francisco.

Rev. Mr. Fraser has arrived from Toronto to take charge of the Presbyterian work in Lynn Valley. He will conduct the services on Sunday at Moodyville and Lynn Valley. In addition to this work he will visit the Britannia mines and the Squamish alternate Sundays. Mr. Fraser is a young man and an earnest worker.

Rev. Robt. McKay, the pioneer Presbyterian missionary in the Bulkley Valley, was a guest of Mr. Philip, Second street, this week. Last night he addressed the prayer meeting of St. Andrew's church, regarding his work in the Bulkley Valley. He will preach at Mission City next Sunday. Mr. McKay speaks of Bulkley Valley as a land of splendid possibilities, awaiting the advent of the railway for its development. In the meantime, it is very sparsely peopled. There are as yet only two white women living there, one of them went there as a bride last spring. The two reside about forty milesapart.

The average romance is like a practical joke: More enjoyable at the expense of the other fellow.

It is hard for a college youth to understand how the average man worries along without a sweater.

Compressed air is being used extensively in the building of the large scows at the Wallace ship yards here. At present there is in use an automatic boring machine and an automatic hammer. These appliances greatly facilitate the work.

Every once in awhile the world has a piece of luck. For instance: It is said that letter writing is a lost art.

Contractor Snider has started work on St. George's avenue, from First street to St. George's road. The length of this piece of road is 2,160 feet.

Tenders will be called for building a road on St. Andrew's, from Second street east to Keith road. The length of the proposed road will be 1,830 feet.

Askew & Kennedy, contractors, will build the road on Fifth street east, from St. George's to St. David's avenues.

J. C. Williams has finished the 12-foot sidewalk on the east side of Lonsdale avenue, from the wharf to Third street. The work is very creditable.

The proposed four-foot sidewalk on North side of Fifteenth street, from Lonsdale to St. Andrew's avenues, was started yesterday by contractor J. C. Williams.

Work of grading Queensbury drive will be started tomorrow by the B. C. Electric Railway Company for the track.

If a shiftless man in a country town doesn't keep greyhounds, he usually plays a "fiddle."

The municipal council met last Monday night to draft an agreement with the ferry company re an improved service. Those present were His Worship the Reeve, Councillors May, Allen, Morden and Cornish and Mr. Hamersley. After considerable discussion it was decided to appoint Reeve Kealy, Clerk Philip, Solicitor Taylor to draft a by-law and submit same at a meeting to be held on Monday next.

Go to Bates' for anything yo need in the furniture line.

The police investigation was held in the municipal hall on Tuesday evening before His Worship the Reeve and Councillors. There were no specific charges made, but evidence was taken, which went to show that last summer a girl had been found drunk and unconscious at Lonsdale gardens, and that Chief Dick broke quarantine to iuvestigate the affair. The enquiry was laid over for an early date.

Mr. Geo. A. Skene, of Third street, received the sad intelligence this week of the death of his father, William Skene, at his home in Shigawake, Bonaventure County, Que., on the 11th instant. There is left to mourn his loss a family of ten, Mr. Geo. Skene being the third oldest. The late Mr. Skene had passed the alloted span of life, and up to the time of his death had enjoyed comparatively good health.

We read the other day of an old maid who never could "hang" on to a man long enough to get married. Eventually she hung herself up to a beam long enough to get chocked.

The much needed bridge on Third street east, over Lonsdale gardens' ravine, near Mr. Hamersley's and Dr. Jordan's property, will be erected forthwith. Mr. Balmain, the engineer, has taken the levels and prepared the plans and specifications. Tenders will be called for right away.

It is reported that the government road at Moodyville is again in a dangerous condition. Horses are liable at any time to break a limb by breaking throug a plank.

While the Vancouver building inspectors are going their rounds we would suggest that they examine the cement being used in building the new post office.

An adjourned meeting of the city incorporation committee will be held in the municipal hall on Thursday, 8:30 p. m., to consider draft bill for amendment of the city incorporation act and relative agreement, and to make such other arrangements as are deemed necessary. It is of the utmost importance that there be a full attendance of the members.

Remember the 'Xmas edition.

Plans are being prepared for the proposed bridge over Sister creek, on the Keith road, west of the Capilano river. And tenders are being called for for the half-mile of road, laid out by surveyor A. C. Ross, to connect the Capilano and Sister creek bridges.

A crossing should be put across Lonsdale avenue on the Esplanade, to accomodate pedestrians from the post office to the street cars.

Contractor Snider is going on with the work of reconstruction of the Keith road west, between Sister creek and "Navvy Jack's" ranch. The distance is one mile and three-quarters. When this road is completed to the Capilano bridge, there will be a driveway from the Lonsdale avenue wharf, five miles westward to English bay, where an hotel should be established. This is the best location we know of for a summer resort.

WANTED.—Young lady desires music pupils. For terms, apply box X.

LOST.—Pair of gold-rimmed eye glasses, between First street and the wharf, Lonsdale avenue. Finder please return to this office.

FOUND—A small valise. Apply at this office.

NOTICE.

Burrard, New Westminster Boundary Railway and Navigation Company.

NOTICE IS HEREBY GIVEN THAT application will be made to the Parliament of Canada, at the next session thereof, for an Act to Incorporate a Company under the name of Burrard, Westminster Boundary Railway & Navigation Company, with power to construct, equip, maintain and operate a line or lines of railway, of standard or other gauge, with steam, electric, gasoline or any other kind of motive power, for the conveyance of passengers and freight, from a point or point at in or near the following localities:

A.—Commencing at a point on the North side of False Creek, thence crossing False Creek by a bridge, and running in a South Easterly direction through the City of Vancouver, Hastings Townsite and the Municipality of South Vancouver and Burnaby and the City of New Westminster to the Fraser River Bridge, thence North Easterly through the City of New Westminster, the Municipality of Coquitlam to Port Moody, thence in a Westerly direction to a point at or near the proposed location of the Vancouver, Westminster & Yukon Railway Bridge at Second Narrows, Burrard Inlet, thence continuing Westerly through Hastings Townsite to place of commencement in City of Vancouver.

B.—From a point at or near the South end of the proposed Vancouver, Westminster & Yukon Railway Bridge at Second Narrows, Burrard Inlet, thence across said bridge to a point North of the Municipality of North Vancouver on Howe Sound, and to a point North of the Municipality of North Vancouver on the North Arm of Burrard Inlet.

C.—From a point at the North end of the Fraser River Bridge at New Westminster, thence across said bridge (leave to cross which will be applied for to the Provincial Government), thence Southerly to a point on the International Boundary, between Semiamo Bay and Sumas.

D.—From a point on the South side of False Creek, thence westerly through the City of Vancouver and the Municipality of South Vancouver to a point at or near Point Grey, thence returning in a South Easterly direction by the most feasible route to a point at or near the North end of the Fraser River bridge in the City of New Westminster.

E.—From Port Moody easterly to Dewdney trunk road, thence following generally the said trunk road through Coquitlam, Maple Ridge and Mission Municipalities to Stave River and the East boundary of Mission Municipality. All in the Province of British Columbia.

And to construct, equip, maintain and operate branch lines and all necessary bridges, roads, ways and ferries, steamship barges and vessels, theatres and other places of amusement, and to construct telegraph and telephone lines in connection with said railway and branches, and to transmit messages for commercial purposes, and to charge tolls therefor, and to generate electricity for the supply of light, heat and power, and to enter into agreements with any electric or power company for the purpose of obtaining the transmission of electricity, and to acquire and hold stock in other companies, and to acquire and develop water power for the purpose of generating electricity; to sell and distribute the same, and to expropriate, buy, hold, lease and sell land for the purposes of the company and for other purposes, and to levy and collect toll from all persons using and for all freight passing over said railway and branches and to connect with or make traffic or other arrangements with railway, steamboat, or other companies, and to construct, maintain and operate the said railway and branches, and the said telegraph, telephone and electric power lines across, along or upon streets or highways within any Municipality, subject to the regulations of the said Municipality; and to cross navigatable rivers or streams, and to arrange for the use of bridges therefor, and to connect with and interchange traffic over other railways, and to purchase, take over, lease, or otherwise acquire the property, rights and franchises of any other company or companies, and to lease, sell or otherwise dispose of the undertaking or any part thereof, and for all other necessary rights, powers privileges in that behalf; and that all of the above works may be declared to be for the general advantage of Canada.

TUPPER & GRIFFIN,
For the Applicants.

Dated at Vancouver, this 15th day of November, 1906.

District of North Vancouver.

TENDERS ARE INVITED BY THE Council for the following public works, namely:

1. Grading Esplanade, east of St. George's road.
2. Grading Fromme, Westover and Hoskin's roads per revised specifications.
3. Grading approaches to Capilano bridge.

Specifications can be had at the municipal hall, where tenders, with deposits, must be lodged before 7:30 p. m., on 21st instant.

4. For clearing and grading St. Andrew's road, from Second street to Keith road.

VIBRATION.

Designs In Sand Formed by the Production of Sounds.

Did you ever hear that you can make drawings by sound, or, rather, that the sound vibrations will cause designs to be made with the proper implements at hand? Here is the way to do it:

At a hardware store get a piece of sheet brass one-eighth of an inch thick and six inches square. The sheet should be perfectly flat, or if it is not it should be hammered so and the edges rounded off. In the center of the sheet cut a hole three-sixteenths of an inch in diameter. If the sheet has been hammered it must now be heated in a redhot stove and cooled slowly.

Now cut a six inch piece from a broom handle and fix one end of it firmly in a block of wood. The other end you must round off and screw the plate of brass on it.

If you draw a violin bow over the edge of the brass plate a tone will be sounded. Practice this until the tone is quite clear and strong. Now sprinkle some sand on the plate, and the grains will dance about while the note is sounded, showing that the plate is in vibration.

Now put your finger on the edge of the plate in the middle of one side. At the corner of the side at an angle of forty-five degrees draw the bow, and the sand will form in two lines at right angles, starting from your finger. This is because the plate now vibrates in parts, one part moving up, while the other moves down, and the lines between these parts have no motion. Therefore the sand settles in them.

By drawing the bow at regular distances from the finger or by touching the plate in more than one place at a time while some one else draws the bow a variety of sand figures will be made.

If you will mix a little lycopodium powder with the sand when the plate vibrates it will form curious little heaps and whirlpools, which add to the moving effect of the designs.

Instead of a brass plate you may use one of glass six or eight inches square, and its sharp edges you may smooth down with a file moistened with turpentine.

To prove to yourself that the plate is still or almost so at the sand lines make a cardboard cone about ten inches long, two and a half inches in diameter at its larger end and small enough at the other end to fit into a rubber tube, which should be about two feet long. Let one person cause the plate to vibrate, while another holds the large end of the cone over the plate, applying the rubber tube to the ear. When the middle of the cone is exactly over a sand line scarcely any tone at all will be heard, and the nearer the cone is to the sand line the weaker the sound will be, while it will be clear and strong at the farthest points from the sand lines, proving that the sand falls into lines, and as the parts of the plate move in opposite directions on each side of the sand lines their effect is equalized or destroyed, causing no sound in the air in the cone balance when directly over those lines.

Tragedy in a Moment's Chat.

"How easy it is to lose your friends in this great New York!" the woman was saying. "Yesterday I stood next to a pretty creature I thought I recognized. She turned around and exclaimed at sight of me—I hadn't seen her for years, both of us right in the city all the time:

"'You don't even know what I have been through, do you? I married. Then did you know about my little baby? A girl. Here is her picture.' She opened a locket and showed the pictures of her husband and baby. 'Isn't she a precious little beauty?' She sighed as she shut the locket with a soft click. 'She is dead,' she told me. 'She lived three months.' That was all."

Spoons.

Spoons are stamped by a piece of machinery which takes the sheet of silver and in one stroke cuts out the spoon.

Bricks of 1612.

The first bricks made in this country for building purposes were manufactured by colonists in Virginia in 1612. They were used in the construction of a church edifice at Jamestown and the residence of the governor of the state.

BENEFITS THE WORLD.

Bileans, that great gift which Canada has received from her sister colony across the Pacific, is being more and more keenly appreciated here. The fact that Bileans are being looked up to as the safest and surest and most perfect family medicine of the day is due to the many distinctions existing between Bileans and old fashioned medicines. Bileans occupy the foremost place as a cure for biliousness, constipation, piles, sleeplessness, indigestion, headache, dizziness, and all stomach and bowel complaints.

First, Bileans are purely vegetable. They contain none of the mineral poisons (mercury, calomel, bismuth, etc.,) such as are found in the older pills. They are prepared from a formula altogether unique, and possessing a strictly natural action on the system. They do not gripe, weaken or purge. They suit young and old. They promote digestion—give tone to the walls of the stomach and bowels brace up the tired nerves and stimulate the liver. Equally to the housewife in the home, the daughter engaged in the office or store, and the farmer, Bileans are an indispensable boon. If you have not already tried this successful medicine the proprietors want you to do so at their expense. Read the coupon below.

Sluggish Liver, Constipation and Indigestion Cured.

The liver rules the body—Bileans rule the liver. "A sluggish liver in my case led to constipation and indigestion," says Mrs. Frances Greene, of Earl St., Kingston (Ont.) "I felt dull and sleepy, had no energy whatever for work, and every now and again I had a bad attack of biliousness. The food I ate seemed to lie heavy on my stomach and did me no good. I had wind and cramps in the stomach and bowels from the food decomposing. The constipation was so bad that my bowels had to be forced at each passage. All kinds of medicines I tried, but nothing did me any lasting good until I got Bileans. I have never found anything to equal them for constipation, liver and stomach troubles. They soon began to do me good and in the end cured me. Since then I feel like a different woman. I am bright and buoyant in spirits, not dull and sleepy as I used to be. I have got my energy and activity back; and, in fact, all my ailments have yielded to Bileans."

BILEANS

BILEANS ARE A CERTAIN CURE FOR:

Headache, indigestion, buzzing in the head, dizziness, fulness after eating, anemia, loss of ambition, piles, ulcers, debility, liver trouble, pimples, bad breath, eruptions, rheumatism, constipation, female ailments and all liver and stomach disorders. Obtainable from all druggists at 50 cents a box, or upon receipt of price postpaid from the Bilean Co., 58 Colborne Street, Toronto. Six boxes for $2.50.

FREE

Send this coupon and a one cent stamp to the Bilean Co., 58 Colborne St., Toronto, at once for a sample box of Bileans. Don't miss this.

W. N. U. No. 510

Spencering Niagara.

If you didn't buy a red glass tumbler, with your name written on it in Spencerian characters while you wait, you'd forget all about ever having been to Niagara. As it is, when people ask you, "Have you seen the falls?" you inquire: "Niagara falls? Niagara falls? Name sounds familiar somehow. Mother, were we ever at the falls?' And she answers: "Why, yes, dear. Don't you remember? You got that red glass cup there." And you say: "Oh, yes, yes, yes! Why, certainly. Very pretty view there, as I recall it." I stick up for souvenirs.—Eugene Wood in McClure's.

"Thought it meant death sure."—Mrs. James McKim, of Dunnville, Ont., says of her almost miraculous cure from heart disease by Dr. Agnew's Cure for the Heart: "Until I began taking this remedy I despaired of my life. I had heart failure and extreme prostration. One dose gave me quick relief and one bottle cured me. The sufferings of years were dispelled like magic."—3

The savings deposits in Canada amount to $300,000,000, or $100 per head.

We believe MINARD'S LINIMENT is the best—

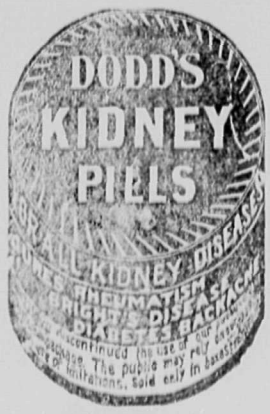
Matthias Foley, Oil City, Ont.
Joseph Snow, Norway, Me.
Charles Whooten, Mulgrave, N.S.
Rev. R. O. Armstrong, Mulgrave, N.S.
Pierre Landry, sr., Pokemouche, N.B.
Thomas Wasson, Sheffield, N.B.

Watch Wheels.

If kept going the wheels of a watch travel 3,558¾ miles in a year.

Caps.

Caps of linen, wool, straw, bark of trees and leather were extensively worn in Egypt and Arabia in early times and were usually of a pointed or peaked shape. The variety of headdresses used by the Egyptian ladies was very great.



A Gorky Fable.

The Berliner Tageblatt, in an article on Gorky's poverty, says:—"Gorky and Madame Andrejewa sailed under the name of Mr. and Mrs. Peshkow. He was too proud to accept the financial aid that was offered him, and consequently lived in New York in poor style. His literary efforts were absolutely unremunerative. He and Madame Andrejewa got along as best could on the money she earned as a waitress at St. Huberts, a summer resort near Erwart, the fashionable colony where Gorky lived."

Where is Ewart? Where is St. hall.—New York Tribune.

Minard's Liniment Cures Dandruff.

Many persons die of alcoholic disease from the steady use of small doses of alcoholic liquor taken as medicine, according to Mrs. Martha M. Aller, of New York, in an address before the national W.C.T.U. convention.

Do not let a cold settle on your lungs. Resort to Bickle's Anti-Consumptive Syrup at the first intimation of irritation in the throat and prevent disease from lodging in the pulmonary organs. Neglected colds are the cause of untold suffering throughout the country, all of which could have been prevented by the application of this simple but powerful medicine. The price, 25 cents, brings it within the reach of all.

Chocolate.

Most of the world's chocolate is made in Switzerland, though Germany is a good second.

Carrier Pigeons.

Carrier pigeons in calm weather can travel at a speed of 1,200 yards a minute. With a brisk wind prevailing and blowing in the direction of its flight, a pigeon has been known to make 1,900 yards a minute.

Rental Value of Grouse Moors.

It has been estimated that something like £450,000 is paid yearly as rental for the 2,400 grouse moors of Scotland. Rental of a grouse moor varies from 10d. to 2s. 6d. an acre, and one of 10,000 acres, with shooting lodge attached, fetches as much as £500. Perthshire is the great county for this form of sport.

Roast Donkey.

Having tasted the flesh of various animals, a Northampton (England) gentleman declares that a donkey makes the most excellent eating of any animal, the flavor resembling that of a young turkey.

Eliot's Indian Bible.

It is asserted by typographical authorities that the first Bible printed in America was "John Eliot's Indian Bible," in 1663. The language into which this Bible was translated is extinct, and it is said only one or two persons are able to read it.

SUNLIGHT SOAP

$5,000 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

is equally good with hard or soft water.

If you use Sunlight Soap in the Sunlight way (follow directions) you need not boil nor rub your clothes, and yet you will get better results than with boiling and hard rubbing in the old-fashioned way.

As Sunlight Soap contains no injurious chemicals and is perfectly pure, the most delicate fabrics and dainty silks and laces may be washed without the slightest injury.

Your money refunded

by the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

State Laws.

"If you should have your choice whether to die in the Empire State or in good old New Jersey, don't fail to select Jersey," remarked a Hoboken lawyer the other day. "Over there" said he, "we still do business on lines laid out by the common law. For example, under the laws of New Jersey a husband is entitled to all the personal property left by his deceased wife. Across the river the case is quite different, because under the laws of the state of New York half of a deceased wife's personal estate goes to her children and the residue reverts to her husband. Only where there are no children is the hubby the whole thing."

Mohammed's Mare.

The mare which conveyed Mohammed from earth to the seventh heaven was named Borak. She was milk white, had the wings of an eagle and a human face with horse's cheeks. Every pace she took was equal to the farthest range of human sight. This was one of the ten animals admitted to the Mohammedan paradise.

IN A DEADLY DECLINE.

Saved Just in Time by Dr. Williams' Pink Pills.

"Before my daughter Lena began taking Dr. Williams' Pink Pills she looked more like a corpse than a live girl," says Mrs. Geo. A. Myles, of South Woodslee, Ont. Her blood seemed as though it had all turned to water. Then she began to have bad spells with her heart. At the least excitement her heart would beat so rapidly as to almost smother her. She grew very thin, and had no appetite, and what little food she did eat did not seem to nourish her. She was treated by one of the best doctors in this part of the country, yet she was daily growing worse and her heart got so bad that we were afraid that she would die. She slept but very little, and would frequently awake with a start and sometimes would jump right up in bed. These starts would always bring on a bad spell, and leave her weak and exhausted. We had almost given up all hope of ever seeing her well again when we decided to try Dr. Williams' Pink Pills. After taking a couple of boxes she began to sleep better at night, and color began to return to her lips. From that on she kept right on gaining and after taking eight boxes of the pills she was again in good health. She is now fifteen years of age, the picture of health, and since beginning the pills has gained about forty pounds in weight. Only those who saw her when ill can appreciate the marvellous change Dr. Williams' Pink Pills have brought about in her condition. I believe that had it not been for the pills she would be in her grave to-day, and it is with feelings of deep gratitude that I write you in the hope that it may benefit some other sufferer."

And Dr. Williams' Pink Pills can do just as much for the weak, ailing, pale-faced young woman who is slipping from anaemia into a deadly decline. Dr. Williams' Pink Pills actually make new blood. In that way they strike straight at the root of all common diseases like anaemia, headaches and backaches, heart palpitation, indigestion, neuralgia, rheumatism and the secret ailments and irregularities of girls and women. Sold by all dealers in medicine or by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams Medicine Co., Brockville, Ont.

Manitoba is as large as England and Scotland.

Minard's Liniment Cures Burns, etc.

Painting Tinware.

Paint will stick to tinware if the surface is scratched with a piece of rough pumice stone or coarse sandpaper and a thin coat of shellac varnish applied before the paint is put on.

A Strange Animal Friendship.

Sometimes animals which are by nature deadly enemies, such as dogs and cats, strike up a very strong friendship. I have known a cat adopt a puppy and nurse it tenderly, but as a rule they prefer to bite and scratch. A sculptor of animals, a Mr. Harvey, had two pets, a pigeon and a cat, who lived together in great friendship, and had their photograph taken while eating out of the same dish. The pigeon was named Pidgie and the cat was called Toddie. They ate, slept and played together, and when Pidgie died Toddie was nearly broken hearted, and would never again eat or drink from the dishes from which she and her little playmate used to eat together.—Home Notes.

W N U No. 610

Papyrus.

The papyrus used by the ancient Egyptians was made from the stems of a peculiar water reed growing in all parts of Egypt. The outside layer of the plant was removed, and beneath this there were found a number of layers of a delicate, pithy membrane. These, being separated, were placed in layers. A second layer was laid at right angles to and above the first and sometimes a third over the second. Heavy pressure was then applied, and the layers were firmly cemented into a fair article of paper. No gum other than what was contained in the plant itself was used in the process. The papyrus was very much stronger than the average paper made by the modern machines. The sheets were commonly made from six to twelve inches square.

A General Favorite.—In every place where introduced Dr. Thomas' Eclectric Oil has not failed to establish a reputation, showing that the sterling qualities which it possesses are valued everywhere when they become known. It is in general use in Canada and other countries as a household medicine and the demand for it each year shows that it is a favorite wherever used.

With a capital of $6,000,000, the Trans-Alaska-Siberia Railway company has been incorporated. The company will construct a railway between Alaska and Siberia, with a tunnel underneath the Behring straits.

..Itch, Mange, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion.

Mrs. McKay of Toronto Junction has been given a verdict for $10,000 damages against the Wabash railway at St. Thomas, for the death of her husband.

Holloway's Corn Cure is a specific for the removal of corns and warts. We have never heard of its failing to remove even the worst kind.

In the Designer for November is to be found, in addition to the many designs for winter apparel for ladies and young folks, a special article "For Those Who Wear Mourning"; another on "Riding Habits" and still a third on "Fashionable Furs"; all beautifully illustrated "The Outdoor Baby in Winter" will please not only the mothers but the children, and "Leather Treatment for the Library" offers novel suggestions for the use of the pyrographic needle. There are three capital Thanksgiving stories, and some excellent bits of Thanksgiving verse. Lessons in sewing, millinery, lace-work, embroidery and knitting are given, and there are two pages filled with designs for home-made Christmas gifts. "Fashions and Fabrics," Fashionable Frivolities," "Toilet-Table Chat," "Etiquette Hints" and "Floriculture Talks" are among the many other good things supplied by authentic specialty writers, while the departments edited by The Designer readers—"What Women are Doing," "Helps Along the Way," and the "Mothers' Advisory Club" are fairly tingling with lively personal interest.

A Remarkable Epitaph.

A remarkable epitaph is on a tombstone in Brighton churchyard in England. It reads: "In memory of Phoebe Hessel, who was born at Stepney in the year 1713. She served for many years as a private soldier in the Fifth regiment of foot in different parts of Europe, and in the year 1745 fought under the command of the Duke of Cumberland at the battle of Fontenoy, where she received a bayonet wound in her arm. Her long life, which commenced in the time of Queen Anne, extended to the reign of George IV., by whose munificence she received comfort and support in her latter years. She died at Brighton, where she had long resided, Dec. 12, 1821, aged 108 years."

A Societorial Freak.

"What is a dude, pa?

"A thing that wears gloves in summer and goes without an overcoat in winter.—New York Life.

Pale, sickly children should use Mother Graves' Worm Exterminator. Worms are one of the principal causes of suffering in children and should be expelled from the system.

A Peeress and a Carpenter.

Lady Amherst, of Hackney, England, is very skillful in all kinds of ornamental woodwork, and is a member of the Carpenters' Company.

A modern weapon in the battle for health.—If disease has taken your citadel of health, the stomach, and is torturing you with indigestion, dyspepsia and nervous prostration, South American Nervine is the weapon to drive the enemy from his stronghold "at the point of the bayonet," trench by trench, but swift and sure, it always wins.—4

Proof Positive.

Effie—But, papa, now do you know that it was a stork that brought us the new baby?

Papa—Because, my dear, I just saw his bill.—Woman's Home Companion.

Millers of western and northern Minnesota are experiencing hard times getting wheat to grind. They have wheat bought, but though perhaps only two hundred miles away, are unable to get it. Some of them have flour sold for certain delivery, and cannot get wheat to make it from. Many millers are greatly incensed, and a few threaten to bring suit against the Great Northern Railroad for damages. Railroads are no doubt doing their utmost to move wheat, but taking into account urgency transportation of live stock eastward and the general traffic is enormous, they are seemingly overwhelmed with traffic.—From the Northwestern Miller.

Aromatic Petit Larceny.

"I hope you notice how sweet I am," smiled the girl when they were out on the street again. "While the man was wrapping up the toothbrush I was trying all the perfume on the counter. He looked at me awfully hard."

"I should think he would have had you arrested," remarked her companion severely. "What if everybody tried all the perfumes like that? How much would he have left to sell?"

HOW A PHYSICIAN PROVES

By Analysis of the Urine that Chronic Kidney Disease is Positively Cured by

Dr. Chase's Kidney-Liver Pills.

The case of Capt. Smith is unusually interesting because it proves absolutely by analysis of the urine that Dr. Chase's Kidney-Liver Pills cured him of kidney disease. The doctor himself could scarcely believe it until he had made the second analysis and pronounced the captain a well man.

Capt. Wm. Smith is a veteran of the Crimean war, living at Revelstoke, B.C., and earned his title in the British army. He reported his case in a letter as follows: "I can testify to the benefit derived from Dr. Chase's Kidney-Liver Pills. For years I was a sufferer from kidney disease, and could get no relief for it. The doctor examined me and analyzed my urine and told me I had chronic disease of the kidneys. As his medicine did me no good, I bought a box of Dr. Chase's Kidney-Liver Pills and was benefitted so much that I kept on taking them until I can say I am perfectly cured. I told the doctor that I was cured, but he would not believe me until he examined my urine again. After doing so he stated that I had no trace of kidney disease left. I have recommended Dr. Chase's Medicines to many people."

Should it not be convenient for you to have a physician analyze the urine you can make this test yourself:—Put some urine in a bottle or tumbler and let it stand for twenty-four hours; if there is a sediment in the bottom at the end of that time, or if it is discolored, milky, cloudy or stringy your kidneys are out of order and not doing their work properly.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

MR. ALFRED PLEAU.

Pe-ru-na Strengthens the Entire System.

Mr. Alfred Pleau, an expert machinist, 173 St. John Street, Quebec City, Canada, writes:

"Two years ago, an accident necessitated my confinement for several weeks. The good health I had enjoyed was slipping away and there developed a complication of diseases. My physician said my case was one of general debility.

"Among the many ailments which developed was a serious attack of catarrh, which annoyed me considerably and kept me awake whole nights.

"I decided to give Peruna a trial and soon found it acting as a wonderful tonic to my system. The catarrh grew less severe and shortly afterward disappeared, as did also the various other maladies.

"I attribute my prompt relief and ultimate cure entirely to the use of Peruna and gladly recommend it."

Canada has 100 million acres of grazing land in the west.

Minard's Liniment for sale everywhere

Lake Erie's Fish.

It is claimed that Lake Erie produces more fish to the square mile than any other body of water in the world.

Soap Bubbles.

In the Louvre, at Paris, there is an interesting old vase of Etruscan manufacture, whose age is computed at about 2,500 years. It is interesting as bearing a group of children in relief who are engaged in blowing soap bubbles from pipes.

A Unique Law.

A unique law is still in force at Stratford, in Prussian Pomerania. A paragraph of the police regulations of 1840, which is still being enacted, reads, "Smoking in the streets of promenades of this town is positively prohibited, violators of this law being punished by a fine, or eventually by a number of marks the fine amounts to."

How Would You Like This Laundry?

Prices are high in South Africa, and bills for laundry are frequently exorbitant. Persian, Kaffir and Cape women do the work after a fashion. "One usually pays $5 per month a head," says a woman correspondent, "and the woman who washes for you takes everything for that, but is apt to vanish for a month on end with your clothes. You seek and find her after infinite difficulty and discover her in the bosom of her family, her husband and sons arrayed in the clothes of your mankind, if you have any, and her daughter and herself in yours. I walked in on my laundress one morning after seeking her ten days and found her in my best white silk tea gown, squatting on the earth cooking herself a meal, while her daughter sat near in my valenciennes lace petticoat and tea jacket peeling potatoes."—Chicago News.

Absinth Bonbons.

"Look out for absinth in bonbons," says a large candy dealer. "They are on the market, and they are loaded. I doubt if any are on sale as yet in Philadelphia, but they have been offered to us, and I have seen samples of them. I have no doubt they will soon be seen here. It's likely that their stay will be short, however, for the authorities and the temperance people will surely be after them. Four of the kind of bonbons that were sent to us would make a pretty stiff drink of absinth, and an innocent customer might get laid out cold before he knew it. Those sent to us were from Europe, where, I understand, their manufacture has resulted from certain restrictive legislation concerning the sale of alcohol"—Philadelphia Record.

A Small Pill, but Powerful.— They that judge of the powers of a pill by its size, would consider Parmelee's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency. The remedies that it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and do their work thoroughly.

Lamps Invented by Chinese.

It is supposed that the earliest lamps were made of the skulls of animals, in which fat was burned. Afterward seashells were used, then pottery and metals. The invention of lamps, like so many other implements of present day civilization, has been attributed to the Chinese.

Women and Mirrors.

"We carry lots of women clear to the top floor or at least several floors up and then they take the next elevator down without going three steps away from the elevator," declared the operator of one of the "lifts" in a big office building. "No, it isn't because they like to ride in the elevators particularly. Why do they do it? To get the use of the mirrors, of course. See those mirrors on either side of the elevator? That's what attracts them. A bit of wind will strike them as they turn the corner by a big building and then they imagine that their hair is badly disarranged and make for the nearest mirror, which is in the elevator."

Sold Everywhere. In boxes 25 cents.

Buying Birds to Free Them.

Birds are often purchased in the bird market at Lucknow, India, in order to be set free again. This is done by Hindoos as a work of merit and by Mohammedans after certain rites have been performed as an atonement, in imitation of the Jewish scapegoat. It is essential that a bird used for this purpose should be strong enough to fly away; but that does not induce the cruel dealers to feed the birds, or to refrain from dislocating their wings or breaking their legs. They put down everything to good or bad luck, and leave the customer to choose a strong bird, if he can find one, and to go away if he cannot. The merit obtained by setting a bird free is not attributed to Deity, but it is supposed to come in a large measure from the bird itself or from its attendant spirit, and hence birds of good or bad omen, and especially kites and crows, are in much demand and are regularly caught to be sold for this purpose.

$100 REWARD $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & Co., Toledo, O.

Sold by druggists 75c.

Take Hall's Family Pills for constipation.

The William Snyder took away 380,000 bushels of wheat in one load from the Fort William elevators, the record cargo out of Thunder bay. The cargo was worth $250,000, and the carrying fee was $9,500.

Not a Nauseating Pill.—The excipient of a pill is the substance which enfolds the ingredients and makes up the pill mass. That of Parmelee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their strength. Many pills, in order to keep them from adhering are rolled in powders, which prove nauseating to the taste. Parmelee's Vegetable Pills are so prepared that they are agreeable to the most delicate.

Manitoba was first settled in 1811 by 125 Scotch settlers under Lord Selkirk.

Minard's Liniment Relieves Neuralgia

Worked the Tigers.

Near Perak, in the Malay peninsula, is a prosperous rubber factory run by a long headed Scotchman. In order to obtain the sap from which the rubber is made it is necessary to puncture the bark of the trees. Laborers are scarce in that district, but there is an abundance of tigers. There were not enough men to "tap" the trees, but the Scotch proprietor hit on a brilliant idea. He knew that tigers are fond of valerian, so he gave orders that all the trees should be rubbed with this stuff. The tigers came up and caressingly scratched the bark in the most approved herringbone fashion, after which all that the coolies had to do was to walk around once a day and collect the rubber.

A Good Dog.

"What kind of a dog is that?" asked the inquisitive man.

"I dunno jes' what kind of a dog he is," answered Mr. Erastus Pinkley, "but he's got good stock in 'im. Dat dog is so many kinds of dog dat dar's got to be good dog somewhere."

The Truth.

A teacher in explaining the different kinds of sentences to her class, asked what it would be if she said, "I am looking for a man."

"I don't know," said the boy at the foot of the class, "but I think it would be the truth."

Looking Backward.

Do you ever look back over your ears and think how many times you have made a fool of yourself? We do.—Mancos Times-Tribune.

A Patented Plant.

"One plant at least has been patented," said an inventor. "It is the Abrus precatorius, alias paternoster pea, alias weather plant. John Nowack took out the patent. The weather plant is still believed by many persons to foretell the weather. John Nowack was sure it did so, and he put it on the market along with an indicating apparatus, guaranteeing it to foretell for forty-eight hours in advance and for fifty miles around fog, rain, snow, hail, earthquake and depressions likely to cause explosions of fire damp. Alas for poor Nowack! The experts of the bureau of agriculture took up his patented plant. They proved that the movements of the leaves—to the right foretelling rain, to the left foretelling drought—were not caused by the weather, but by the light. And they proved that the plant's famous downward movement, which was supposed to foretell earthquake, was caused by an insect that punctured the stem, causing the leaf, naturally, to droop. That is the only patented plant I know of, and Nowack lost money on it."

Zam-Buk Wins Workers' Praise.

Marvellous Cure of Burns.

Zam-Buk has been called "the worker's friend" because it brings such relief and healing to workers who suffer from cuts, burns, bruises or any skin injury or disease. Mr. Alf. J. Clark, of Cavendish street, London, (Ont.), tells how Zam-Buk cured him of severe burns. He says: I got my hands very severely burned with lime. The burns were so deep that as I plied my shovel the blood actually ran down the handle. The agony I suffered you may well imagine. I tried several different kinds of salves but the burns were too severe for these preparations to heal.

"I obtained a supply of Zam-Buk and the very first application gave me ease. This pleased me, you may guess, but as I applied the balm each day I was more and more pleased with the effect. The pain was relieved completely.

"I had often heard of Zam-Buk, but thought before I tried it that it was similar to the ordinary salves you see advertised. In a very short time Zam-Buk healed my wounds completely, and my hands actually felt better — the muscles more firm and the skin in better condition than before I was burned."

Not only for burns, but for cuts, bruises, sprains, etc., Zam-Buk is the best and surest cure. It also cures eczema, ulcers, abscesses, ringworm, boils, eruptions, poisoned wounds, chapped or cracked hands, cold sores, chilblains, bad leg, piles, etc. All druggists sell at 50c a box, or post free from the Zam-Buk Co., Toronto, on receipt of price. 6 boxes for $2.50.

The General conference of the Union American Methodist Episcopal churches has forbidden its clergy to marry divorced persons.

Catarrh for twenty years and cured in a few days.—Hon. George James, of Scranton, Pa., says: "I have been a martyr to Catarrh for twenty years, constant hawking, dropping in the throat and pain in the head, very offensive breath. I tried Dr. Agnew's Catarrhal Powder. The first application gave instant relief. After using a few bottles I was cured. 50 cents—1

A new boat for the department of railways and canals will be built in Peterborough this winter, and will be used next season, it is stated, on the Trent canal.

Two Years Abed.—"For eight years I suffered as no one ever did with rheumatism; for two years I lay in bed; could not so much as feed myself. A friend recommended South American Rheumatic Cure. After three doses I could sit up. To-day I am as strong as ever I was" —Mrs. John Cook, 287 Clinton street, Toronto.—2

The French cabinet has decided to sequester the property and revenues of the rebellious clergy on Dec. 11

Wet Shoes.

To dry patent leather or other shoes, heat a pan of bran in the oven until quite warm, pour this into the shoes, filling to the top, wipe the outside with a dry cloth and rub into the leather vaseline or sweet oil and let stand until dry.

National Flags.

Japan's chrysanthemum flag is probably the oldest national banner in existence. That of Denmark is the oldest among European nations.

Weasel and Rat.

Friendships are not uncommon between the cat and dog and have been known between a dog and a wolf, but the mutual attitude of the weasel and rat is invariably war—war that is waged to the death.

A Profitable Speculation.

One copy of Caxton's "De Confessione Amantis," or "The Confession of a Lover," was one of the most profitable speculations ever made in books. A Dublin bookseller of the eighteenth century bought a number of volumes at secondhand, as he supposed of no great value, paying for them one and sixpence, and found in the package this rare work of Caxton's, which he afterward sold for over $1,500.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 3|4

Japanese Art Symbols.

If a Japanese artist wishes to describe in color and design the anticipation of happiness he draws a picture which is a combination of an April evening, a moon, a nightingale and a plum tree or two. Victory is symbolized by the iris, grace and quietness by the willow tree and the swallow for symbols. Patriotism is sometimes indicated by a spray of cherry blossoms. The almond flower is the flower of spring and symbolizes beauty. The dragon twines and writhes an artistic course through all Japanese art, root and branch. His name is Tatsu, and when you see him pictured as fighting with a tiger it is the symbol of religion fighting against power. A dragon floating about in the clouds means success in life. Tori, the cock, perched upon a drum, signifies good government. Both the Greeks and the Japs use the butterfly to symbolize immortality.

Tree Seeds.

All trees have seeds. In some, however, the seeds are so small in proportion to the size of the tree that they altogether escape ordinary notice.

Sunlight Soap is better than other soaps, but 's best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

Women as Travelers.

As a matter of genuine fact women, in nine cases out of ten, are better travelers than men are. To begin with, if not so stodgily accurate, although that by no manner of means follows, they are more fluent in modern languages. They chatter in them, say the male things. Ergo, they are the more colloquial, the readier to circumvent the wiles and extortions of kellner or of garcon.—London Gentlewoman.

BABY'S FRIEND.

Happiness is a sign of health in babies. Nearly all their troubles vanish when they digest food well and are free from teething pains. Baby's Own Tablets brings happiness to babies by curing stomach troubles, constipation, feverishness, diarrhoea and teething troubles. There's a smile in every dose and the mother has a solemn guarantee that this medicine contains no opiate or harmful drug. Mrs. James Jewers, Beaver Harbor, N.S., says: "I have given my Baby Baby's Own Tablets as occasion required since she was a day old. They have always helped her, and now at a year and a half old she is a fine, healthy child. I think every mother should always keep these Tablets on hand." You can get Baby's Own Tablets from any medicine dealer or by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

The Giddy Professor.

Professor Henry Lee Bowlby, of the University of Washington, has been designated by President Roosevelt to take an examination on Dec. 3 for appointment as second lieutenant in the army. Bowlby was a first year cadet at West Point, and was dismissed with four others, for participation in a student prank, beginning with the throwing of a biscuit across the mess hall New York Tribune.

NORTH VANCOUVER TOWNSITE

AT BEDROCK PRICES

THE G. T. P. AND WHAT MR. HAYES SAYS:

"I suppose," said the reporter, "that it is true that you intend to build to Vancouver also?"

"You may depend upon it," said Mr. Hays, "we will have to come to Vancouver sometime."

There being no location to be had in Vancouver, it is self-evident that **North Vancouver** will be the **terminal.**

The **Vancouver, Westminster and Yukon Railway** now have **survey** parties out making **permanent locations** for their road to the north.

The **car-barns** and **headquarters** of the **B. C. Electric Railway Company** are located in District Lot 273.

NORTH VANCOUVER REAL ESTATE EXCHANGE

General Commission and Insurance Agents, Loans Negotiated, Etc . .

We have a No. 1 List of the best Business and Residental Lots on the market. Also a number of fine Lots, size 50x122 feet, beautifully located, within a few minutes walk of the car line, that will be sure money-makers for you. Price, $125 for corners and $100 for inside lots. Terms $10 down, and $10 a month; no interest.

We also have some very choice Acreage, in 1 and 2¼ acre blocks. The acre Lots are just the thing for beautiful home sites; view of water, etc., unsurpassed. The 2¼ acre Blocks can't be beat for market gardening, fruit culture or poultry raising; close to the best road in the district and handy to the market. See us about prices for same.

If you want to dispose of your property, and your prices are right, we can sell it for you, and we can rent your house.

To intending buyers: We Have the Properties, and Ought To Be Able to Suit You.
