Dearest Rosy

If you write to Sarajevo, please not to mention what I told you about the possibility of Miss Toby going to Rapusa for a week. I do not know why it should be a secret. But I find it is.

Seriously hope Miss Toby will soon be better.

Please let me know if you hear.

Do you know how long she had been in bed?

2. I want to adorn Barbarina's

garden. But this is a bad time of year.

Could we anyhow get her a Geranium & Rose-tree, & "plant them out" in her garden?

Next year, if she is there, we must begin betimes, & give her bulbs & cuttings. When ought hyacinths & tulips bulbs to be put in the ground?

Ever dearest Your loving

Aunt Florence
