A MUCH ABUSED MAN.

The Opposition people are full of vituperation over some disturbance at the MacIntosh banquet in Rossland where the Hon. Jos. Martin was insulted for saying that if he had been an American at the opening of the war of Independence he would have shouldered arms against England. It appears that some of the sham swells of Rossland seized upon this as an opportunity to insult Mr. Martin, and he naturally resented the insult. Mr. Martin only expressed a sentiment similar to that of Britain's most eminent statesman, the Earl of Chatham, when he said: "If I were an American as I am an Englishman I would never lay down my arms, never, never, never!" In taking the course of protest which they did, the hoboes of Rossland, who were the prime cause of the disturbance, only showed their gross ignorance of views held and justified by men the latchet of whose shoes they were unworthy to unlose, and when the Attorney-general reminded them that the horney-handed miners were the backbone of the country, and the men whose friendship he esteemed most, he struck an attitude which will be reechoed in the hearts of the people.

Lord Strathcona is no narrow-minded citizen of the Dominion of Canada. As a practical expression of his appreciation of the splendid services rendered to the Dominion by Sir Wilfred Laurier, Lord Strathcona has sent a cheque for $10.000 as his subscription towards the testimonial fund of $100,000 with which the Liberal party propose to present Sir Wilfred.

The C.P.R. deserve great credit for the excellent manner in which they have established the Imperial Limited. Sharp on time as a rule, prompt in despatch, and efficient in its service the Imperial Limited is probably a world-beater, considering the length of road it has to traverse.

The workers of Rossland have announced their intention of giving a grand reception and banquet to the Hon. Jos. Martin, evidently by way of showing the relative values placed on the Attorney-General and those who insulted him at the McIntosh banquet. The ale they brew at Rossland was too strong on that occasion.

The Laurier Government has been notable for one thing, and that has been its laudable desire to improve the condition of the settlers, and to lessen the difficulties under which they labor. Another boon which has been conferred is the right of settlers to the full and free use of the timber on their holdings.

Colorado has adopted an 8-hour day similar to that which is causing so much trouble in British Columbia. The eight-hour day for miners is a recognised institution in Britain and the Australian colonies, and there is no trouble there over it because it is considered and found by experience to be the best system of labor in a mine.

COUNTY COURT.

First Sitting in Golden.

The first sitting of the County Court in Golden was held at the Columbia Hall on 21st inst., Judge Forin presiding. There was a budget of cases and a large attendance of the public, to whom the first sitting supplied ample entertainment, by its many comical features, the Judge being in the best of humor and proving himself a good rival of Mark Twain by his ready wit.

The following cases were heard:—Stewart & Co. vs. McDermot, remitted from Supreme Court at Vancouver, claim $147. G. S. McCarter for defendant, who, disputed the quality of the goods and the arrangement, and His Honor gave judgment for plaintiffs for the amount claimed and costs, less $50, amount of Starforth & Bligh's goods.

McDermot vs. Atcheson, claim of $254.64. G. S. McCarter for plaintiff, J. M. Scott for defendant. Judgment for plaintiff for claim and costs, less $50 credits previously omitted.

Love vs. Wild, claim for $22 balance of account. Mr. Scott for plaintiff for whom judgment was given with costs.

H. G. Parson vs. Greene, claim of $364.62 for gas machine supplied. G. S. McCarter for plaintiff, J. M. Scott for defendant, who contended the machine was not up to representation. Judgment for plaintiff less $20 and costs.

A. Grainger vs. Cartwright and H. G. Parson, praying for an order for Cartwright to return claim, which plaintiff had instructed him to stake, and $1000 damages against H. G. Parson for sale of claim to third parties.

Same vs. H. G. Parson and London & Vancouver Finance and Development Company. G. S. McCarter for defendants in both cases. The first case was dismissed with costs against plaintiff and in the second case an adjournament was granted with withdrawal of action against the Company.

Several judgment summons cases were also heard.

TETE JAUNE CACHE

RETURNED PIONEERS.

What They Think of the Country.

Another party from Tete Jaune Cache arrived in Golden on Friday last and will again outfit in Golden and return at an early date. The party consists of G. B. McLaughlin, F. A. Jackson, and P. R. Neal, and they were accompanied by T. Plunkett who went in last fall from Donald. These pioneers went in from Edmonton last fall. Jackson accompanied the Dominion Geologist. Mr. McEvoy, on his tour of exploration in the Yellowhead Pass and it was what he saw on that expedition that determined him to return to the Cache last fall. He is the writer of the famous letter which has caused the stampede from Edmonton, and he says he wrote that letter in perfect good faith, believing every word he wrote from what he was told by the men in the camp

The party were 12 days on the trip out from Tete JauneCache, but lost some time on the way. The fact that Edmonton people come out to Golden to outfit and make this their head-quarters shows what we have along contended for, that Golden affords the key to the northern country and provides the best land or water route to be got.

The party brought out nine packhorses and two mules with them but had very bad luck at Donald, where two mules and three of their horses were killed on the railway track by a passing train and fresh horses will have to be bought before the return journey can be begun. The party found the trail from the Cache to Golden in excellent condition with the exception of thirty miles at Kinbasket Lake, where the ground is soft and marshy, and some corduroy work is urgently wanted to put the trail in good shape. The trail also requires clearing of fallen timber, and some of the bridges are in a dangerous state.

The party met Archdeacon McKay at Starvation Camp, where he was on his way along the Fraser with a view to prospecting Baptiste river.

At Wood river they met the parties from Golden and W. Dainard and F. Holliday had succeeded in finding an excellent site for a bridge over Wood river, and were about to start to put it in as they left.

Frank Fulton was well and was assisting the parties from here to pack in their supplies.

The party consider the Tete Jaune Cache country an excellent country to prospect in and they found the prospects favorable. They consider, however, that the true gold value of the placer ground cannot be ascertained till they can strike bed-rock, but they are so satisfied with the rim-rock prospects that they have decided to return as soon as possible and believe they have every reason to hope to find something good.

Archdeacon McKay expressed to them the opinion that the better gold would be found along the Fraser north of Tete Jaune Cache than at Swift Current, and this opinion is generally shared by the most experienced placer miners now on the ground.

This party confirms the reports of free-milling gold quartz to be found in the district and they brought in some good samples which were sent forward for assay.

GOLDEN PUBLIC SCHOOL.

The following is the school report for month of June:

Fifth Class—1 Laura Kenny, 2 Walter Houston.

Fourth Class—1 Willie Houston, 2 Ernest Sutherland.

Senior Third—1 Lottie Woodley, 2 Salma Johnson.

Junior Third—1 Tom Stephens, 2 Roy Hanna.

Second Class—1 Allan Hanna, 2 Katie Pughe.

First Class—1 Bertie Miller, 2 Harold Tom.

II. Primer—1 Maggie McIntosh, 2 Louisa Marsan.

I. Primer—1 Louisa Antoya, 2 Vivian Nattrass.

Tablet Class—1 Ethel Pughe, 2 Ethel Stephens.

Attendance—58.

Honor Roll for the year—Deportment, Jack Parsons; Punctuality and Regularity, Katie Kenny; Proficiency, Walter Houston.

The school closed on Friday till August 14th.

Working Night and Day

The busiest and mightiest little thing that was ever made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by all Druggists. 3

WEDDING BELLS.

Aylmer-Lang.

On Wednesday morning an interesting event was celebrated at the residence of Mrs. Lang when the Rev. H. B. Turner performed the marriage ceremony, uniting in wedlock the Hon. F. W. Aylmer and Miss Lang. The wedding was a strictly private affair and the friends of the bride and bridegroom were taken completely by surprise when the news spread. Both Mr. Aylmer and his bride are widely known and popular throughout the district and their many friends will unite with us in wishing them a long and happy wedded life. The Hon. F. W. and Mrs. Aylmer left for Banff on their honeymoon trip, immediately after the ceremony.

Warner-Evans.

On Thursday, June 22nd, the remaining few of the inhabitants of Donald witnessed the union of two young people at St. Peter's Church; Mr. Lyman Warner and Miss Louisa May Sinclair Evans. The proverbial sunshine blessed the happy bride, as she drove to the church accompanied by her brother-in-law, Mr. Penzer, who gave her away. The bride was tastefully attired in a grey travelling dress, and was attended by her bridesmaid, Miss Dunne, and her youthful neice and nephew Miss Alice and Master Seymour Penzer, dressed in white, and carrying beautiful baskets of flowers. As she entered at the west door, probably the last bride to walk up the aisle of St. Peter's Church; while it remains at Donald, the hymn, "The voice that breathed o'er Eden," was sung by the assembled congregation. At the chancel step, where the bridegroom, attended by his best man, Mr. Elson, awaited her, the beautiful marriage service of the Church of England was said, and the new untried life was begun. At the conclusion of the service the pair, now united, retraced their steps, to the strains of Mendelssohn's Wedding March, to the west door, where their carriage was waiting to take them to the residence of Mr. Penzer, where lunch was partaken of. Mrs. Penzer held a reception in the afternoon, giving an opportunity to the ladies of Donald to offer their congratulations to the happy pair, who left on the evening train for the coast.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at any Drug Store. Every bottle guaranteed. 3

ATHALMER NOTES.

(From our Own Correspondent.)

Lots are coming into demand at Athalmer. Mr. Hunter, from West Kootenay, who was on a visit to the district last week with a view to picking up a good location selected Athalmer, and paid $100 for a lot, double the price at which the lot was acquired from the owners of the Townsite, two months ago.

Hon. F. W. Aylmer has let the contract for clearing the main street from the bridge site to the bench and has also arranged to clear a street to the south so as to give a view of Windermere Lake. These improvements show the confidence of the owners in the future of their townsite.

A petition has been forwarded to the Government by residents and prospectors in and about Athalmer, asking that an officer be appointed at Athalmer to receive papers and documents for the Mining Record office and also with power to issue miners licenses. The petition was signed by over 60 persons, including several residents of Windermere.

F. Dargis has added a commodious bar-room to Athalmer House.

The sawmill building is now well in hand and a roof has been built to protect the machinery. The boom is also full of logs, and the mill is running full time.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for consumption. Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and $1.00. Guaranteed to cure or price refunded. 3

To Advertisers and Subscribers.

The GOLDEN ERA is published every Friday evening. It is the best advertising medium in the East Kootenay district.

Subscription Rates: $2.00 per annum IN ADVANCE.

While all reasonable care will be taken, the proprietors will not be responsible for any omission or error in any advertisement.

All accounts to be paid to the Managing Director, or his authorized agent, from whom the company's receipt will be obtained.

Advertising rates: Display ads. ($1.5) per column inch; Legal ads., 10 cents per line for first insertion, 6 cents for each additional insertion; Reading notices, 12 cents per line each issue. Land and mineral (Crown Grant) notices same as Government Gazette $7.50.

All business communications should be addressed to the Managing Director, and all literary communications, letters for publication or news items should be addressed to the Editor.

Correspondence is invited on matters of public interest, but to secure publication such letters must be brief. In the case of anonymous letters the name and address of the writer must be enclosed, not for publication, but for the private information of the editor and as a guarantee of good faith. Any letter received later than Wednesday will have to stand over till the following issue.

A circular announcing new official positions has been issued from the C. P. R. freight department.

Professors Luggar and Fletcher gave a description of their visit to southern Manitoba to the locust haunts.

The Dominion government has appointed three commissioners to go to England on the Pacific cable project.

A LONG CROOKED ROAD.

Love has a long way to go to reach the heart of the modern up-to-date young man. When he looks for a wife, he expects a good deal. Probably he expects more than he deserves.

He wants good looks, good sense, good nature, good health. They usually go together. An observing man learns that a woman who is physically weak and nervous and incapable, is likely to be ill-natured too. The sweetest temper is ruined by continual sickness.

A woman whose nerves are constantly racked and dragged by debilitating drains and inflammation, cannot be a genial companion or happy wife; and she is totally unfitted to be a mother.

These troubles prevail almost universally among women largely because of carelessness and neglect. There is no need of them. Dr. Pierce's Favorite Prescription is a positive specific for the weaknesses and diseases of the feminine organism. It cures them radically and completely. It heals, strengthens and purifies. It is the only scientific remedy devised for this special purpose by an educated, skilled physician. It is the only medicine that makes motherhood easy and absolutely safe.

Its sale, through dealers in medicines exceeds the combined sale of all other medicines for women. It acts directly and only on the child-bearing organism. It allays inflammation, soothes pain, heals ulceration and gives the tortured nerves a rest. It does away with the discomforts of the expectant period and makes baby's coming easy and comparatively painless. Thousands of women have testified to its wonderful virtues. All good druggists sell it and honest dealers will not offer inferior substitutes for the sake of a little extra profit. Dr. Pierce has been for thirty years chief consulting physician of the famous Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. His reputation as a skilled specialist in woman's ailments is world-wide.

Miss Lauretta McNees, of Reno (P. O. Box 723), Washoe Co., Nev., writes: "I have discontinued taking the 'Prescription' and will not take any more (at present). Last month I had no pain at all and worked every day without any inconvenience whatever. It was the first time I never had pain during that period. I cannot say too much for your medicines especially the 'Favorite Prescription' and 'Pleasant Pellets.' I know of a lady who took *one* bottle of your 'Favorite Prescription' and she says she was not sick like she was with her first baby. This was her second baby. She thinks it a grand medicine. So do I."

"I had suffered untold misery for a number of years, with ovarian trouble, an exhausting drain, constipation, painful periods and other annoying troubles,' writes Mrs. Annie James, of No. 27 Seventh St., Memphis, Shelby Co., Tenn. "Thank God, my health has been fully restored and I can gladly say I am a well woman to-day. I used six or seven bottles of your 'Favorite Prescription,' and also used the lotion which you advised in the 'Common Sense Medical Adviser.'"

"For years I had been failing in health and kept getting worse and more nervous all the time," writes Mrs. Annie Dulan, of East Stroudsburg, Monroe Co., Pa. "I doctored with two different doctors and they told me that my system was run down and my nerves were weak. I had ulcers of the uterus which were so painful at times that I was afraid that they must be cancers. Indeed I felt discouraged with the treatment, and did not get any better until my nurse advised me to write to you and I did so.

"In May I commenced taking your 'Golden Medical Discovery' and 'Favorite Prescription' and followed your advice as closely as I could. I took twelve bottles in all, six of each. Thanks to God and the right kind of medicine I feel myself cured and a well woman. I have no bad feeling whatever and can do the work for a family of eight, and feel better than I have for years."

Dr. Pierce has had a life-time of experience in this particular field. His 1000-page illustrated book, "The People's Common Sense Medical Adviser" contains several chapters devoted to woman's special physiology. A paper-bound copy will be sent free on receipt of 31 one-cent stamps to pay the cost of customs and mailing only. World's Dispensary Medical Association, Buffalo, N. Y. For a cloth-bound copy send 50 stamps.

Murderous Strikers.

Evansville, Ind., June 22.—The local miners' strike assumed a serious aspect here this morning. The operators of the Sunnyside mine had imported thirty negro miners from Kentucky and were delivering them at the mine at 1.30 a.m., when unknown parties concealed in bushes near the mines opened fire on the negroes. It was very dark and a stampede followed. Some non-union men responded with revolvers and many shots were fired. Six of the men were badly wounded. Jas. Moore, a stockholder in the mine, was shot in the back and will likely die. Henry Smith and John Phillips both colored, are probably fatally wounded. Ed. Geiger, a merchant, Chase Smith, colored, each badly wounded. A riot call was sent to police headquarters and a response given. The attacking party all disappeared. The negroes are huddled in a building, and another assault is expected.

Wellsboro, Pa., June 22.—A big strike of coal miners is on at Arnold, this county. Trouble has been brewing for some time and today 800 miners quit work demanding 15 cents a ton.

Released From Prison.

Paris, June 23.—Comte de Dion and Comte D'Aubigny, who were sentenced June 16 to two weeks' imprisonment and to pay 100 francs fine after having been conviced of complicity in the disturbance at Auteuil, were released from prison this morning. A few of their relatives and friends awaited them at the prison door. The two men apparently have not suffered from confinement. They went to the automobile club, where a luncheon was given by the members in honor to their release. Comte de Dion afterward visited the automobile exhibition which was warmly greeted.

A BAD ACCIDENT.

W. HILL FALLS FROM A LADDER AT THE C. P. R. SHOPS.

Lost His Balance and Fell Backward Striking His Neck on a Heavy Iron Roller.

Winnipeg June 23.—A bad accident occurred in the C.P.R. machine shops yesterday morning at 9.30 which will probably prove fatal. W. Hill a machinist who has been in the employ of the C.P.R. for a number of years and who now resides at 317 Flora avenue, had a nasty fall from a ladder whilst fixing a pulley; he was about ten feet from the ground reaching up when he lost his balance and fell backwards to the ground his neck striking on a heavy iron roller. Those who saw the accident immediately ran to his aid supposing that he had been killed, but upon taking him into the reading room of the library it was found that he still breathed. Dr. R. J. Blanchard was sent for and he ordered him to be conveyed to his home at once. With the help of Constable McKinnon of the C. P.R. and two other employeees, he was placed on a mattress and removed to his home in a wagon.

Upon examination Dr. Blanchard discovered that the blow had affected the vital chord and had caused complete paralysis in his left arm and leg and he was scarcely able to make use of the other members of his body. At a late hour last night he was in a very precarious condition and but little hope can be held out for his recovery and if he gets better he will in all probability be a cripple for the rest of his life.

Mr. Hill better known as "Birney" Hill is a middle aged man and has a wife and several children, and is most popular with those who know him.

A BIG PARADE.

Grand Army Men Salute the Victoria Statue at Montreal.

Montreal, June 23.—The Vermont department of the Grand Army of the Republic, which is holding an encampment here, marched down town this morning, headed by its bands to witness the St. Jean Baptiste procession. As the veterans passed the statue of Queen Victoria, on Victoria Square, they did not salute the statute as is customary on all regimental parade occasions. The crowd manifested its displeasure at this in a pronounced manners, whereupon the Grand army men marched around again and this time did the needful amid the vigorous applause of the crowd.

The St. Jean Baptiste parade today was the largest ever held in this city, taking two hours to pass a given point. Notre Dame church was crowped at a subsequent servicie, and a number of fine allegorical cars were in the procession.

Startling Evidence.

London, June 23.—The Vienna correspondent of the Daily Telegraph says: The Austrian war office has learned that the evidence of M. Casimir Perier upon the Dreyfus trial will be startling. It will be shown that he holds the key to the affair which hitherto has been withheld in order to prevent a serious conflict between France and Germany.

M. Casimir Perier will depose that a German official, of high social and military rank, confidenially gave the French government information which led to the arrest of Dreyfus, but stipulated for silence as to the informant's name. Now, M. Casimir Perier will declare all.

Halifax June 23.—The British flagship Crescent arrived this morning from Bermuda.

Lake Winnipeg Breeze.

West Selkirk, June 22.—The steamer Lady of the Lake, arrived this afternoon and reports that about 8.30 p.m., on the 19th inst., the north end of George's Island was struck by a cyclone from the southwest, blowing off the roofs, the sides and the end form Sigurdson's large ice houses, demolishing the buildings on the dock. The wind also carried three cattle into the lake The damage is estimated at $500. No lives were lost. The storm passed within ten feet of dwelling houses.

Indian Chiefs Elected.

Cornwall, Ont., June 22.—Twelve Indian chiefs were elected at St Regis yesterday for a period of three years. Anticipations of a disturbance were not realized, but when the red men learned that the election was for three years only, and not for life, in accordance with the tribal custom, and that the government had carried the point for which it has been contending, they were sadly disappointed and crestfallen.

Berlin, June 22.—The reichstag today passed the third reading of a bill providing for the prolougation of the Anglo-German commercial treaty. Baron Heylza Herrnsheim, National Liberal, previously withdrew the amendment of which he had given notice, June 17, "that the most favored nation treatment shall apply only to those parts of the British Empire which grant to the subjects and products of Germany the same advantages as are granted to the subjects and products of most favored nations."

Montreal, June 23.—Mr. J. I. Tarte sailed for England this morning on the Elder-Dempster steamer Montfort. With Lord Strathcona and Sanford Fleming he will represent Canada at the cable conference.

AT THE HAGUE.

The American Demand for Protection to Private Property at Sea Will Be Opposed by Britain.

The Hague, June 23.—the American demand for protection of private property at sea has not yet been presented to the peace conference. Mr. Andrew D. White, head of the American demand for protection of private property at sea has not yet been presented to the peace conference. Mr. Andrew D. White, head of the American delegation, on Tuesday requested the president of the conference M. De Staal, to submit the question to the conference at the same time suggesting that the proper way to bring the matter up for discussion would be to assembly a plenary conference, submit the question and have it referred to a commission for examination. M. De Staal has not yet arrived at a decision, a the American proposal has not been translated into French. It is the general opinion that the delegates of the great powers are absolutely opposed to raising this question, arguing the incompetence of the conference to do so under the terms of Count Muravieff's circular, M. De Staal having declared at the opening of the conference, with the approval of the delegates, that under no circumstances would the conference discuss any question not contained in the circular.

Several delegates declare there is little chance of the question being discussed, but if it is discussed America will be opposed with the utmost energy by Great Britain and the great power.

A number of delegate are suffering from a mild form of malaria caused by the emanations of the canal which receivethe sewage. Mr. Hollis, wife of Frederick Hollis, secretary of the American delegation, has been obliged to go to Dusseldorf for change of air.

two girls drowned

Charlottetown, P.E. I., June 23.—Summerside was the scene of a tragedy which involved the loss of five lives. The victims were five little girls, the eldest was 11 years of age, and the youngest 6 years who were drowned within sight of their homes. There were six in the party which had gone clam digging; the names of the little ones being Bell and May Frazier, Laura Aggie and Janie Callant and Daisy Perry. These girls had wandered along the sand bars about the shore for several hours and before they noticed it the tide came in and surrounded them. They immediately started to wade ashore but only one Aggie Callant, succeeded in reaching a place of safety. Before help could reach the spot all the others had perished. Three bodies have been recovered.

Hamilton, June 23.—D. A. Sherk, a carriage salesman, died suddenly from an injury received in an apparently trifling accident. He tripped descending the stairs in his house and fell four steps. A blood vessel burst in his brain.

Cardinal, Ont., June 23.—Fred Mathews, aged 40, a steam driller employed on the canal here was killed this morning by being struck on the head by falling timber.

The Khalifa Defeated.

Cairo, June 23.—It is announced that the Khalifa has been defeated with heavy loss, by natives friendly to the British. It is added that he had fled to the woods with a few followers and his capture is imminent.

Brussels, June 22.—Advices received here from the Congo state that the Khalifa has recruited 30,000 men and crossed the White Nile, below Khartoum, capturing the Island of Abia, in that river.

London, June 23.—The Daily Mail says this morning that the Imperial government has practically decided upon a gradual re-enforcement of the British troops in South Africa up to a total increase of 40,000 men.

FATAL ACCIDENT.

WILLIAM HEALD, OF TORONTO, SHOOTS HIMSELF.

Was Cleaning a Revolver When the Weapon Exploded, the Bullet Piercing His Breast.

Winnipeg, June 22.—Wm. Heald, of Toronto, who came to Winnipeg a short time ago from Toronto, lies cold in death at Thompson's undertaking rooms. Early last evening he was in his usual genial mood and spoke to his acquaintances of his intended departure for the Crow's Nest Pass railway, where he expected to secure a contract on that road between Kootenay Landing and Nelson. He went to his room at the Queen's about 7 o'clock and half an hour afterwards a bell boy smelled smoke in the vicinity of his room and gave the alarm. An investigation was made by the night porter and on entering Mr. Heald's room he was horrified on discovering Mr. Heald lying on his bed breathing heavily. A doctor was summoned immediately and on examination a bullet wound was found in Mr. Heald's body just above the heart. Mr. Heald was perfectly conscious and said that he had accidentally shot himself while cleaning one of his revolvers. He talked with those who called on him and explained how the accident had occurred. He intended to leave today for Kootenay Landing and preparatory to starting out thought it would be advisable to clean up a couple of revolvers which he had in his trunk. He put on an apron, covered the weapons with a burnishing composition, and was in the act of polishing one of them, when it discharged, and the bullet entered his body just above the heart, and lodged in the back from where it was easily extracted. Mr. Heald lingered until about 11 o'clock when he expired. He was conscious until the last and spoke freely of the unfortunate occurrence. He realized that his wound was serious, but did not expect that it would prove fatal so soon. All the circumstances connected with the sad affair bear out his explanation. The weapons were found to be coned with the burnishing composition; he still wore the apron and all the cleaning apparatus was lying on a table beside him. In addition to the above circumstances, supporting the probability of accident is the fact that yesterday Mr. Heald paid his bill at the hotel and stated that he would leave for the west today, and would not likely be here again until Christmas. During his stay here he became a general favorite among the guests at the Queen's, and also among the many citizens whom he met, and the news of his tragic death was a great shock to all who knew him. Mr. Heald leaves a wife and two daughters in Toronto. His body has been removed to Thompson's undertaking rooms, pending instructions from Toronto regarding their disposition.

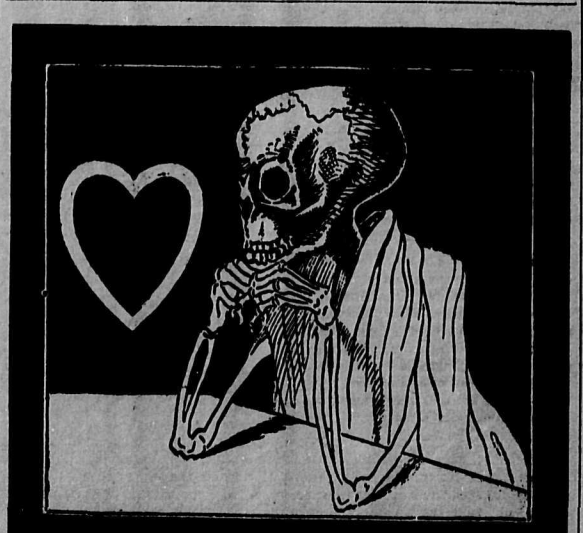
Colombo, Ceylon, June 23.—The United States cruiser Olympia, which arrived here at 6 this morning, saluted the port at and the forts replied. Admiral Dewey landed at 11 o'clock and proceeded by special train to Dandy. He will remain at Ceylon about a week. The admiral says he had a good voyage from Singapore and his health is fair. His reception here was not marked by any official ceremonies.

Bucharest, Roumania, June 22.—In a conflict yesterday between peasants and police arising out of election riots at Slatina, on the Alcona river, about 100 miles west of this city, the troops were called out and fired upon the mob, several persons being killed and many others wounded.



You'd Never Die

If your heart never stopped beating. You would never be sick if your heart was always able to carry rich, healthy blood in sufficient quantity to every organ and tissue of your body.

When your heart, through weakness or the strain due to worry and overwork, is unable to supply the necessary amount of rich, healthy blood, every part of your body begins to show signs of weakness and disease.

DR. AGNEW'S HEART CURE

Strengthens the heart and purifies the blood. It positively gives relief in thirty minutes and effects a speedy, permanent cure. It cures nervousness, sleeplessness, neuralgia, headache, despondency, female diseases, and all other ailments that spring from diseases of the heart and blood. If you suffer from palpitation, weak or irregular pulse, shortness of breath, fainting spells or a lack of normal strength and vigor in any part of the body, you should secure DR. AGNEW'S HEART CURE.

DR. AGNEW'S CATARRHAL POWDER is endorsed by Canada's greatest ministers and statesmen. Try it. DR. AGNEW'S OINTMENT is without a peer in cure of skin diseases. Relief in a day. 25 Cts. Use DR. AGNEW'S PILLS, 25 Cts.

SOLD BY C. A. WARREN

MILLIONS FOR DEFENCES.

Strategic Harbors of Refuge to Be Defended by Heavy Guns.

London, June 22.—When the house of commons went into committee today on the military works loan bill, the parliamentary secretary of the war office, Mr. Geo. Wyndham, moved a resolution, authorizing the introduction of a bill providing a loan of $20,000,000, repayable in yearly intallments, for defence works, barracks and rifle ranges at home and abroad. He explained that this was merely a continuation of the policy laid down by the military works loan act of 1897, and pointed out that all British seaborne commerce converged at a point between Cape Clear and Ushant, necessitating strategetic harbors of refuge, all of which must be defended by heavy guns. In this manner and on other works, he explained, it was proposed to spend $5,000,000 and on barracks the sum of $13,850,000 was to be spent, of which sum 3,375,000 would be expended on the present barracks. The balance would be devoted to the expenses of the new situations and Wei Hai Wei would absorb $650,000.

Toronto, June 23.—The liquidators of the Farmers' Loan company have now on hand the sum of $85,000 to distriubte among the boudholders and depositors of the company and will declare a dividend shortly. All holders of twenty per cent stock today accepted in the office of the master in ordinary the agreement that they should pay 65 cents of the 80 per cent due.

Condensed News by Wire.

Scranton, Miss, June 22.—Daniel Hatrick, the negro who assaulted Miss Bessie Ireland near here on Monday, was lynched this morning.

Belleville, June 22.—Robert Richardson, formerly for many years local manager of the Bank of Montreal, died this morning, aged 71.

London, June 22.—Dr. Chauncy M. Depew was hurriedly summoned to Brussels, where his son was taken ill yesterday.

Elmira, Ont., June 22.—The wife of Chas. Zeitz, of the Stanley Piano Co., of Toronto, committed suicide by hanging while on a visit to friends at Floradale. Insanity is given as the cause.

Oswego, N.Y., June 22.—The Eagle Hotel in this city was destroyed by fire this morning. Mrs. Rachel King, an old lady whose home is in Newhaven, this county, was suffocated, and others were seriously injured.

London, June 22.—The international congress called for the purpose of taking steps to suppress the so-called "White slave traffic," otherwise the international traffic in girls, opened here today under the presidency of the Duke of Westminster.

Kingsville, Ont., June 22.—Two barns and a portion of the warerooom and contents of Richard Gregory's furniture establishment were burned last night, together with a valuable carriage horse. The loss is estimated at $3,000 and is fully insured.

Oconto, Wis., June 22.—A tornado swept this vicinity last night doing great damage. Conillardville, Pensaukee and Brookside suffered much from buildings being blown down or unroofed. A fierce wind storm struck the village of Pemoine doing considerable damage.

Queenston, June 22.—White Star liner Teutonic, Capt. Cameron, from New York, June 14, which arrived here at 8.55 a. m. today, experienced strong gales and heavy head seas during her passage. The health of Rudyard Kipling, who was among the passengers, improved during the voyage. Mr. Kipling spoke highly of the kindness he received in America. The Teutonic proceeded to Liverpool.

Fire Bugs at Work.

Kingsville, Ont., June 23.—Incendiaries last night attempted to destroy the entire business portion of the town, fires being started in the rear of two buildings situated right in the centre of the district. The fire department succeeded in getting the flames under control before much damage had been done. Last night's was the third incendiary fire here within four weeks.

THE BULLFROGS.

If you live out in the suburbs,
You will always know when spring
Has assumed control of weather
By the way the bullfrogs sing.
There is something wierdly mournful
In the music from the bog,
The low drumming and shrill whistling
Of the versatile young frog.

If the nightingale's wan spirit
Haunts the bullfrog, as they say,
There's no wonder that the froggie
Pipes a sorrow laden lay.
But to any one that's homesick,
Or is feeling rather glum,
He will wish the whole swamp chorus
Had at once been stricken dumb!

There are frogs that are quite harmless,
Such as railroad frogs and those
Whose hind legs we see before us,
Fried and crispy, minus toes,
But you often hear, or think so,
And it makes your cold blood creep,
When the legs are served, still twitching,
A most lamentable "peep!"

When you're coming from the clubroom
Or the dance quite late at night,
Those amphibious young croakers
In a jolly take delight
And along the lonely stretches,
Ere you reach the well known gate,
They will make you see gaunt specters—
Or will try at any rate.

There's the cricket's chirp of autumn
And the locust's monolude,
There's the "whooing" of the owlet
In the forest's solitude,
There's the hum of the mosquito
And the whistle of the quail,
But suburbanites hear oftenest
The green bullfrog's woful wail.
—Boston Globe.

Proof of It.

"So you think there really is something in heredity, after all?"

"I do. Young Mundsley, who is trying to get up a north pole expedition, is the son of a woman who used to be an inveterate house hunter, not because she could have used a house if she had found one, but for the mere love of the thing."—Chicago News

Prince in the Circus Ring.

The career of Prince Ghika, a scion of an old Roumanian family, is a somewhat remarkable one. The Prince at an early age showed a marked tendency to Bohemian tastes. Before attaining his majority he emancipated himself from parental influences and married a circus artiste. He was disowned by his father, but on subsequently inheriting the family estates he speedily ran through his money. He then took lessons from his wife and obtained an engagement in the circus. He has now bettered himself by obtaining the post of manager.

All Roads Lead to the Dressmaker.

Mr. Hornbill—Do you know, darling, I could pick you out of a crowd of women just by your style!

Mrs. Hornbill—I don't wonder, and me with this same old dress for the last two years!

Safe Hail Insurance.

The Manitoba Farmers' Mutual Hail Insurance Company, with its head office at Winnipeg, Manitoba, is an organization every farmer should investigate, as every farmer needs safe and reliable protection to his crops from the destructive hail storms. This company is incorporated under the laws of the Province of Manitoba by some of the leading farmers and business men of the Province. The Company issues to its members a five-year policy with protection of $800 on a quarter section. Every policy holder is a member of the Company and eligible to the election of office at the annual meeting. For further information apply to E. A. Taylor, 503 McIntyre Block, Winnipeg, Manitoba.

PA BECOMES A BOY AGAIN.

What Happened When He Got a Few Goat Sells Thrown Into His Manly System.

When paw come Home last nite He says to maw:

"Well I been up aginst it."

Maw she turned pail and says:

"Hen Moffit, you Don't mean to Say you've went and Spoilt that new seventeen-doler soot of close."

Paw looked like Johnny Pickens Did when the Teacher ast Him How menny is Nine Times Six. But purty soon He says:

"What do you Mean?"

"Have you Been up aginst some paint?" maw ast.

Then paw Laft and says:

"Naw. I mean I Been Up aginst the Cure fer Old age. I Got a Few Goat Sells threw into my systum."

"Well," says Maw, "if you could git to talkin' plane Inglish insted of that Slang what Seems to Be the Diplomatic Langwage in the Surcles where you associate mebby a Person could understand what you mean wunst in a While. What Goat Sells are you Talkin' about, and How on erth Did They throw them Into your Systum?"

"Why Don't you read the Papers?" Paw ast, says The Chicago Times-Herald. "If you Done that Sometimes insted of Spendin' so much time Findin' Out What the Nabers are Doin' mebby a Feller wouldent Haft to Give you a Diagram every Time He Sed ennything about What was goin' on. They are Some Doctors Here what Have discovered How a Person Don't never need to Git into His second Childhood. They Git a Goat and make Him Give up what Sells He can Spair jist as well as not, and Then they take and Squirt Them into a Man's Arm, and the First Thing you no His ness Begins to Git Limber and He Kicks up His Heels and little Brown Hares Begins to Sprout out on the Bald Spot up on the Back of His Hed, and purty soon He's a Boy agin. Jim Thurston Down to the office knows one of the Doctors, so He told me if I would Go with Him we'd Git a Few Sells pumped into us and See How it Would work. It's Grait stuff. They ain't no mistake about That."

Then Paw Grabbed maw and Begin Waltzin' around the room To show Her How young He felt, and She Broke away and when she Was all out of Breth and says:

"I Don't no whether Them Sells Can Turn a Man Back into a Boy or not. But they ain't no mistake that they can make a Good Deal of a Gote out of Him."

Paw he laft, and then He walked under the Chandelleer and Says:

"Do you see this Here Gas Bracket? It's three Inches abuv my Hed. But I'll Bet I can kick it."

So He Hauled Back and let Go, and the rug slips on the Hard floor and I ain't Sure Whether Paw turned one or Two Summer sets Before He come Down. Mebby it might of Been three, But enny way He lit on the Back of His neck, and Dident Seem to take no interest in Ennything for a Long time.

Maw She was Bathin' Him With witch hazel and Camfer and Vinneger and a lot of other things nearly all nite, and Jist Before I went to Bed I thot I'd Cheer Him Up a little, So I stuck my Hed in the Door and said:

"Ba-a-a-a!"

"When I git up agin," paw says to maw, "I'm agoin to Take that Boy and Whail the Livver out of Him but what I'll make Him Lurn to respect His fawther."

I never seen anybuddy That was as touchy as paw. Georgie.

BISHOP QUIGLEY OF BUFFALO.

Popular Prelate Who Was Prominent in the Big Dock Laborers' Strike.

Bishop James E. Quigley, the Roman Catholic prelate of Buffalo who has been

BISHOP QUIGLEY OF BUFFALO.

using all his power as a churchman and a citizen to bring the big strike of the dock laborers to a happy issue, is singularly popular in Buffalo with all classes of men, regardless of wealth or creed. His strength is accentuated because he is a born Buffalonian and was personally known to rich and poor alike while he was still a humble priest. Bishop Quigley is only 44 years old, and he has worn the purple stock but for three years. In the parish of the cathedral he was born and has spent most of his life. His early brilliance attracted the attention of Archbishop Ryan (then bishop), through whose influence he was sent in 1878 to the University of Innsbruck, in Austria, and later to the college of the propaganda in Rome. At the time of his ordination to the priesthood he was given the degree of doctor of divinity. Soon after his return to America he was made the pastor of the Buffalo Cathedral, and in 1896 he was elevated to the episcopacy.

The Italians in London.

The people are largely Neapolitans, a word which has been corrupted by the low English in the neighborhood first into Napletons and finally into Appletons. The men are mostly employed as organ grinders and vendors—in summer of hokey pokey and in winter of roasted potatoes or chestnuts. Others hire themselves out as artists' models, while some are modelers of stucco images, which are subsequently hawked. But the best earnings are made by the knife grinders, who perambulate with a wheel. These are looked up to as a rather superior class, and are, as a matter of fact, generally skilled workmen at their trade. In the organ-grinding line, in particular, the women accompany the men, and are kept in such subordination by their lords and masters that the new woman has not yet made her appearance among them.—Good Words.

In Doubt.

"What is that bit of furniture to which you cling so closely?" asked the tourist.

"I don't know exactly," answered the Samoan. "I'll have to wait till this trouble is over to be sure whether it is a scepter or a piece of kindling wood."—Washington Star.

MEDICAL SCIENCE ADVANCES.

Positive Cure for Asthma Discovered.

It has long been recognized by medical scientists throughout the world that nature has supplied all creation with some remedy in the vegetable or mineral kingdom wherewith all forms of ailments can be cured, but it was not until the discovery by Stanley of the wonderful Kola plant along the Congo River in Africa that asthma was permanently curable. In fact, it was not until the investigations made by Dr. Clarke some years later that this disease was found curable; he found that by combining the extract of Kola Nut with other vegetable extracts that the compound obtained would permanently cure asthma. Clarke's Kola Compound was then tried on over 100 cases in different hospitals, with the marvelous result that over 95 per cent were permanently cured in less than 10 days' treatment. Clarke's Kola Compound is now recognized to be the only permanent cure for this dreaded disease. Sold by all druggists. Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church Street, Toronto, or Vancouver, B. C., sole Canadian agents.

MANITOBA'S HOLIDAY.

The Winnipeg Industrial Exhibition has many ends and purposes and not the least of these is to make a great provincial holiday for all sorts and conditions of people. Whatever may have been the case in old times, or what may now be the case in other climates, certain it is that sloth and laziness is not one of the prevailing vices of Anglo-Saxon civilization in the centre of the North American continent. In this country the danger seems all the other way, and that men and women will go at their work so energetically and stick to it so persistently as not to give themselves a chance to live. This is particularly true of the summer and fall which for the farmers of Manitoba and the west is a busy and rushing time. Between the time however of putting in the last seed and taking off the first thing ready to harvest there is a breathing spell of two or three weeks duration, and fortunately, so far as Manitoba is concerned, this is at the time when there is usually ideal weather for holding a great outdoor exhibition like the Winnipeg Fair. In other provinces there may be sufficient breathing spell after harvest, but in Manitoba, the harvest and threshing which follows hard upon it fill in all the time till the season of wet days and cold nights. The time has been selected then because it is the right time, and the success which has attended the Winnipeg Fair, shows that it is the season when the people of Manitoba want and will take a little relaxation. The people of Manitoba then, with no ghosts of unfinished or neglected work to worry them, come down to spend a day, three days, a week at the fair, and to thoroughly enjoy themselves. It is a provincial gathering of the clans, everybody meets everybody else, and whether they be interested in stock-raising, fine arts, poultry, pigs, ladies' work, horse flesh or business, they can get more in this week than any other six weeks in the year. The big fair, like a great college, offers optional courses to all its students, and anyone who objects to or who has no interest in any one department can find plenty to occupy his attention in the others.

THE MARKETS.

Wheat prices have shown considerable improvement during the past week. The conditions surrounding the market have not changed except that the news from Russia and Roumania is much worse than heretofore and all of the crops of these countries will show a very considerable reduction as compared with last year. The winter wheat crop of the United States is now being harvested and the yield is turning out about as expected. The governments figure sindicate a total crop of winter and spring wheat of about 180,000,000 bus. less than that of last year and as this estimate is based upon very promising spring wheat conditions, it is, of course, liable to be cut down considerably should anything occur to injure the prospect. Prices do not look high in view of the moderate crop promise and any change should be in the direction of better values. The following review of the foreign crop situation, issued today at Washington, is as complete and reliable as any that can be obtained: The worlds crop is estimated by some authorities at 2,504,000,000 bus. as against 2,748,000,000 bus. in 1898, a reduction of 244,000,000 bus. Other estimates place the shortage at 352,000,000 bus. The Russian crop cannot be a good one and may not exceed that of 1897 which was only 255,000,000 bus. Germany has had imprved weather of late. Australia promises an average wheat crop with rye and oats short. The Hungarian prospect is for 140,000,000 bus., compared with 124,000,000 bus. in 1898. Severe drought has prevailed in Roumania and the wheat crop does not promise over thirty perent of an average. Reports from Bulgaria are not good, Italy sends favorable reports, Spains are improved, although the crop will not be as large as last years. The French area is about the same as in 1898, but the condition is 5 per cent lower, promising a crop 20,000,000 bus. less than last year. The India crop is considerably smaller than in 1898. The outlook in Australia is very favorable.

J. D. O'BRIEN.

Winnipeg, June 15, 1899.

A delegation of the Toronto board of trade interviewed the Dominion government, asking for railway subsidies from Toronto to Sudbury and from North Bay to James Bay.

Mixed Feelings.

"How did you feel when they read your letters in court?" asked the friend whose intimacy was great enough to warrant impudence.

"Well," said the young man who had just emerged from a breach of promise suit, "I was divided between chagrin at the asininity of the ideas and admiration for the literary style."—Indianapolis Journal.

Expert Opinion.

Student—These college authorities are idiotic. They want to know whether they should drop Latin and Greek from the course.

"Well?"

Student—And they consult the professors for advice! Why don't they consult the students?—Le Monde Illustre.

Debate May Be Warm.

"What! You have taken to practicing fencing?"

"Yes; you see, I've been appointed to take part in the discussion at the universal disarmament conference at The Hague, and—well, it is impossible to tell, of course, just what may happen."—Chicago Record.

St. Martin, Que., May 16, 1895.

C. C. Richards & Co.

Gentlemen,—Last November my child stuck a nail in his knee causing inflammation so severe that I was advised to take him to Montreal and have the limb amputated to save his life.

A neighbor advised us to try MINARD'S LINIMENT, which we did, and within three days my child was alright, and I feel so grateful that I send you this testimonial, that my experience may be of benefit to others.

Louis Gagnier.

In the Home of the Muse.

"Things are beginning to look brighter, Molly," said the poet. "This spring lyric will bring breakfast, this summer pastoral will certainly secure dinner, while this quatrain will supply us with supper."

"And have you nothing for lunch, dear?" asked his wife.

"Nothing!"

"Well, be comforted. These old shoes of yours will certainly command a cabbage, when the truckman comes, and we'll feast on cold slaw, if I can just swap your last summer's hat to the grocery boy for a loaf of bread to force it down!"

IMPURITIES IN THE BLOOD.—When the action of the kidneys becomes impaired, impurities in the blood are almost sure to follow, and general derangement of the system ensues. Parmelee's Vegetable Pills will regulate the kidneys, so that they will maintain healthy action and prevent the complications which certainly come when there is derangement of these delicate organs. As a restorative these Pills are in the first rank.

A Little Too Previous.

Chairman (at concert)—Ladies and gentlemen, Miss Discordant will now sing "Only Once More."

Sarcastic Critic—Thank heaven for that!

Chairman (coming forward again)—Ladies and gentlemen, instead of singing "Only Once More," Miss Discordant will sing "Forever and Ever."

Collapse of S. C.—Answers.

Absolutely Safe.

"I wonder how Sindbad the Sailor came to tell such outlandish and improbable yarns," said the man with the practical mind.

"I suppose," said the man who was reading the newspaper, "that he wanted to make sure he was on safe ground, where there would be no risk of saying anything undiplomatic."—Washington Star.

There are so many cough medicines in the market that it is sometimes difficult to tell which to buy; but if we had a cough, a cold or any affliction of the throat or lungs, we would try Bickle's Anti-Consumptive Syrup. Those who have used it think it is far ahead of all other preparations recommended for such complaints. The little folks like it as it as pleasant as syrup.

Was Hanged Over Again.

G. W. Stevens, who traveled extensively in India, tells the following interesting story: A Pathan was being hanged, when the rope broke. The warder bade him go up on to the scaffold again, but he objected. "No," he said, "I was sentenced to be hanged, and hanged I've been."

"Not so, friend," argued the warder, "you were sentenced to be hanged until you were dead, and you're not dead."

It was a new view to the Pathan, and he turned to the superintendent. "Is that right, sahib?"

"Yes, that's right."

"Very well. I didn't understand," and he went composedly up the steps and was hanged again like a man.—Pittsburg Dispatch

B.B.B. Makes Rich Red Blood.

The Best Remedy for Spring Weather Weakness.

The Blood is the very essence of life. As it courses through the system it carries with it, if pure and rich, nutrition to every cell in the body. If impure, it spreads disease. If thin and watery, it fails to nourish, hence we have weakness, debility and decay.

It is the wonderful power B.B.B. has in purifying impure blood, making thin, watery blood rich and red, that is at the bottom of its marvellous success in curing disease.

Those who are pale, thin, weak, troubled with blotches, pimples or eruptions of any kind should take B.B.B.

It makes the pale cheek rosy, the skin clear and smooth, and infuses new energy into weak, worn, run down, shattered constitutions.

Skin Clear. "I beg to state I have used Burdock Blood Bitters for impure blood, pimples on the face, &c., and derived great benefit from it. My skin is now very clear and free from all eruptions. I only used four bottles of the B.B.B. and can strongly recommend it to any person suffering from impurities in the blood or eruptions of the skin."

MRS. G. B. HELMORE,
Spence's Bridge, B.C.

Every Spring. "I have taken B.B.B. every spring now for some years, to purify my blood and keep my system in good order, and can honestly say that I do not know of its equal anywhere." MRS. AGGIE BARNES,
Lunenburg, N.S.

Minard's Liniment Cures Colds, etc.

Refreshing Sleep

COMES WHEN

Milburn's Heart and Nerve Pills

ARE USED.

Miss Margaret Brown, 627 Colborne St., London, Ont., says:—"My mother has been afflicted with nervousness and general debility for a long time. She suffered a great deal with insomnia, and found it almost impossible to sleep.

"I went to W. T. Strong's drug store and got a box of Milburn's Heart and Nerve Pills, which she took, and derived so much benefit from them that I bought another box for her. They have done her a wonderful lot of good, making her nervous system much stronger, giving her restful sleep, and removing many other symptoms which previously distressed her.

"I can truly say that these pills are a great remedy for any one suffering from weak nerves, general debility, sleeplessness or heart trouble."

Milburn's Heart and Nerve Pills are 50c. a box or 3 for $1.25, at all druggists.

Georgia Spring Item.

"Folks never knows w'en dey 's well off," said the old colored citizen. "I was walkin in de bresh wid Br'er Williams yestiddy en what you reckon come ter pass?"

"Dunno!"

"A rattlesnake springed his rattle right at us, en Br'er Williams wuz so confuse he didn't know which way ter jump—so he jumped squar' in de river, into de mouth er a ten foot alligator!"

"En what did you do?"

"Who—me?"

"Yes."

"I jumped in de river, too, but de alligator didn't bother me, kaze he had all he could do ter swaller Br'er Williams. Wid him hit wuz 'fust come, fust served!'"—Atlanta Constitution

SURE REGULATORS.—Mandrake and Dandelion are known to exert a powerful influence on the liver and kidneys, restoring them to healthful action, inducing a regular flow of the secretions and imparting to the organs complete power to perform their functions. These valuable ingredients enter into the composition of Parmelee's Vegetable Pills, and serve to render them the agreeable and salutary medicine they are. There are few pills so effective as they in their action.

The Unpleasant Feature.

"I don't mind digging up your flower beds, Harriet."

"Well, what is it you are making such a fuss about?"

"I don't like your standing around bossing me."—Chicago Record.

Friendly Assistance.

"Can I help you to anything?" asked Boarder No. 6.

"Yes," replied the newcomer at the oot of the table. "You might give me a clue to this hash."—Philadelphia North American

What He Really Owed.

"Doctor," said the grateful patient, seizing the physician's hand, "I shall never forget that to you I owe my life."

"You exaggerate," returned the doctor mildly. "You owe me only for 15 visits. That is the point which I hope you will not fail to remember."

A Great Rheumatic Remedy.

Mr. H. E. West, Water St., Vancouver, writes: "I had been suffering from a very painful attack of rheumatism in my right shoulder, and could not attempt to raise my arm, so great was the pain. Griffiths' Menthol Liniment was applied, and in less than four hours the pain entirely left it, and I could use my arm freely. It is truly a wonderful remedy."

Conditionally In Favor of It.

"You entirely misjudge me," said the street railway manager. "I am not opposed to municipal ownership."

"You're not?" they exclaimed.

"Certainly not. Indeed I may say I am heartily in favor of it conditionally."

"What do you mean by conditionally?"

"Why, I am in favor of it if the municipality will buy me out at my own figures."—Chicago Post.

Pleasant as syrup; nothing equals it as a worm medicine; the name is Mother Graves' Worm Exterminator. The greatest worm destroyer of the age.

Poison Bottle Ornaments.

At the Metropolitan Museum of Art, in New York city, there is a great collection of ancient jewelry, much of it in gold richly adorned with precious stones. Jewelers in the metropolis frequently visit the museum for the purpose of obtaining suggestions. This collection at the Metropolitan museum is in fact the finest assemblage of antique objects of personal ornaments in existence. Some of them date as far back as 900 B. C. Those of them which are made of silver have been practically destroyed by oxidation, but the gold ones being cleaned are as bright and new looking as they were 2,500 or 3,000 years ago. The jewelry from Cyprus is the work of ancient Phœnicians and Greeks.

One thing very noticeable is the frequency of tiny gold bottles attached to objects of jewelry derived from those ancient times. All evidence points to the conclusion that they were employed to hold poison, for in those days life was by no means secure, and at any time an emergency might arise where a man or woman would be glad to end existence promptly to escape lifelong imprisonment or indescribable torture by the horrible means used by the ancients.

Woes of Millionaires.

An English millionaire has just been adjudged incapable of looking after his property. He imagines himself the Prince of Wales.

Some years ago a rich merchant took the idea that he was penniless. His sons, to stop his worrying, assured him they had rescued his business and was to continue it. They offered him a clerkship at a small salary in his own office. He took it and kept at work nearly 20 years. When he died, he left nearly $15,000,000.

Two English millionaires were noted for their parsimony. One picked up and smoked cigar ends. The other, after fine receptions in his house, would go around carefully collecting candle ends to be used again. Neither of these men was insane. Both were shrewd in business.

Another millionaire imagined for a considerable time that he was a squirrel, and would eat nothing but nuts.

Another was too parsimonious even to buy himself a warm overcoat. Some of his friends made him a present of one, and he promptly sold it at secondhand and pocketed the money.—St. Louis Post-Dispatch.

Safeguards.

"The cashier informed me," said the president, "that he was strongly tempted to skip with the funds, but that he locked himself up with them and prayed over them all night and overcame the temptation."

"I know it," said the chief director. "I had a detective at his door, one at each window and one on the roof—at the chimney fine—while he was praying."

Reciprocity.

"Where do actresses get all their pretty little tricks of high bred manner?"

"They imitate the society girls in the boxes."

"And where do society girls get all their fascinating little ways?"

"Why, they imitate the actresses on the stage."

The Phœnix was the name of the first fire company in England, and it was established in 1682. At that time in the towns squirts or syringes were used for extinguishing fires, and their length did not exceed two or three feet, with pipes of leather.

FOR NINE YEARS.—Mr. Samuel Bryan, Thedford, writes: "for nine years I suffered with ulcerated sores on my leg; I expended over $100 to physicians, and tried every preparation I heard of or saw recommended for such disease, but could get no relief. I at last was recommended to give Dr. Thomas' Eclectric Oil a trial, which has resulted, after using eight bottles (using it internally and externally), in a complete cure. I believe it is the best medicine in the world, and I write this to let others know what it has done for me."

Wouldn't Incriminate Himself.

"Why didn't he get out of the way?" indignantly demanded the scorcher who had been arrested for running down a man.

"Did you ring your bell?" asked the justice.

"Sure," answered the scorcher.

"Before or after you struck me?" inquired the victim meekly.

"I decline to anwer," said the scorcher, who had not read about methods on the witness stand without learning a thing or two.—Chicago Post.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

The Word.

"Do you mean to tell me," said the unfortunate litigant, "that the whole property in dispute has been wasted in costs?"

"I said it had been absorbed, my friend, not wasted," replied the lawyer who got the most of it.

Chase & Sanborn's SEAL BRAND COFFEE

is the kind that housekeepers who want only the best always buy. Packed in pound and two-pound tin cans, it comes into the home with all its natural aroma and strength. **Protected by our Seal,** the consumer knows that its purity and strength have been untampered with. Your grocer sells this kind, but be sure our seal and name is on the can you buy. Chase & Sanborn.

LOCAL AND GENERAL.

The Conservative party are adopting obstruction tactics at Ottawa.

The new C.P.R. hotel at Winnipeg will cost $800,000.

At the meeting held at Golden on Saturday for election of a school trustee, W. L. Houston was re-elected.

The British Government are preparing for war in the Transvaal, having arranged to increase their forces there to 40,000 men.

Complaints are made to us about the state of the C.P.R. crossings. T. Robson had a valuable cow killed on the line on Monday.

Thanks to the services of Mr. Bostock, M.P., the C.P.R. has at length been compelled to recognise Moyie as a station of stoppage and call.

Rev. H. B. Tunner has gone to the Coast for a rest and change for a few weeks and during his absence no services will be held at St Paul's Church.

The Pert has been repaired and fitted up and under charter for use at the Athalmer sawmill in hauling logs across the lake.

A. L. Sifton has defeated Dr. Drett by six votes in the Banff election and there are a lot of protested votes for consideration by the Courts.

S. Barber, formerly of Golden, is arranging with the farmers of Chilliwack to put a steamer on the Fraser River.

The chairman of the C. E. convention about to be held at Montreal forwards us a circular pointing out that this is the first convention of Christian Endeavorers held in the Dominion.

R. W. Patmore, postmaster, of Donald, will remove to Golden next month and will open a stationery and tobacco business in the building belonging to H. G. Parson across the bridge.

A petition has been forwarded to the Government asking that Messrs Hull Bros. be prevented from using the old cemetery as a site for a slaughter-house.

Arrangements have been definitely made by which Mr. Wells M. P. P. will put in hand the different trail and road works, and also the erection of the bridge over the Columbia River at Athalmer.

W. C. Wells's Palliser mills are getting a high reputation for the lumber they turn out, as evidenced by the fact that Mr. Wells has received an order from England for a supply of dressed lumber.

Another shocking accident has occurred in the War Eagle, four men named Lee, Griffin, Sturgess, and Green having been killed by a missed shot. Another man, named Coulson, sustained serious injuries but will live.

The Prospector says the C.P.R. are about to arrange to build from Fort Steele junction to Windermere, and that the English Company will locate on the eastern side of the Kootenay-Columbia valley.

Much sympathy is felt for Mr and Mrs. Malcolm McInnes, of Fort Steele, over the sudden death of their son, who was killed last week by being thrown from his horse by the animal stumbling in a gopher hole.

Mrs. Ross, wife of the Hon. J H. Ross, of the cabinet of the North West Territories, went to Sinclair by the Duchess on Friday on a visit to her father and mother, Mr. and Mrs. J. McKay, of Sinclair. Mrs McKay came to Golden to meet Mrs. Ross.

Next issue of the ERA will contain a write up of the agricultural, ranching and mining resources of Windermere district—in fact it will be a special Windermere number, which we hope will meet with the appreciation of our friends there.

On Saturday Mr. Griffith S. M. committed P. Sebastian to prison for contempt of court, as he had refused to tell where his dog was, a complaint having been made that it had bitten Bessie Brewster. Peter thought better of it after a few hours confinement and told. The dog was destroyed.

The Mill Football Club have got down to business, with credit to themselves and their officers. They have had a ground laid out, ploughed, harrowed and rolled, and judging from the way they are going at it they should clean up everything in British Columbia.

The Selkirk is about ready for her maiden run on the Columbia River. A fine boiler, built in Detroit, has been put in, a cabin is being fitted up on the upper deck for Mr. Foster's private use, and a wheel-house has yet to be built. The Selkirk makes a pretty yacht, and one of which her genial owner and skipper may well be proud.

The International Transportation Company's steamer Gwendoline was wrecked a few days ago by running on a rock in the Kootenay River near Bonner's Ferry. This company has been most unfortunate with its boats. At the time of the disaster the Gwendoline was on the way to Kootenay Lake where it was intended she should join the trading fleet.

Rev. J. P. Westman, who has been appointed pastor of the Methodist Church at Golden, arrived on Thursday and was welcomed by members of the congregation. The Rev. gentleman comes to Golden with a high reputation as a preacher and he will conduct services at the Methodist Church at Golden on Sunday next at 11 a. m. and 7.30 p. m. Sunday school services will be held at 2 p. m.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by all druggists. Henderson Bros., wholesale agents, Victoria and Vancouver.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which the liniment affords. For sale by all druggists. Henderson Bros., wholesale agents, Victoria and Vancouver.

Mr. Robbins, the energetic secretary of the Golden Hospital recently visited Beaver to endeavor to come to an arrangement with the employes of the mill there to renew their contributions to the Golden Hospital. Mr. Robbins's trip was very satisfactory, as he succeeded in arranging with about 30 of the men to again come in and receive the benefits granted by this excellent institution to the lumber camps.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by all druggists. Henderson Bros., wholesale agents, Victoria and Vancouver.

Last Monday the 26th inst. Mesdames Stephens and Pughe gave a party at the Smelter Cottage to celebrate the birthdays of Mrs. Pughe and little Ethel Stephens. Eighteen children sat down to a substantial tea in a tent on the lawn, afterwards scrambling for nuts and candies, and engaging in different games. In the evening about fifteen couples assembled at Mrs. Pughe's and tripped the light fantastic to the harmonious strains of the violin and guitar so well played by Messrs. Forin and Lamontaigne. Mr. Conway well executed the part of "caller off." Dancing was kept up till the "wee sme hours," when all joined hands and sang "Auld Lang Syne," and "God Save the Queen." All expressed themselves well pleased with the evening's enjoyment. Friends came from Field and Rear Creek.

Cupid breaks his bow at the sight of a face full of pimples. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients it enriches the blood and so makes solid, healthy flesh. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood.

ROUND ABOUT THE MINES.

The St. Eugene has closed down as a protest against the eight-hour law.

The Gooderham-Blackstock syndicate have secured an option on the St. Eugene mine.

Messrs. West and Washburn have bonded the White Elephant to Starbird, Collett and Robinson for $50,000.

Many prospectors are now coming into Windermere district over the trail from Argenta.

H. R. Moodie brought into town this week some nice samples of copper ore from a claim which he has located at Field close to the railway track.

W. G. Mitchell-Innes, Manager of the Golden British Columbia, Limited, expects to resume development on the Pretty Girl, at Horse Thief Creek, within the next week.

A. F. Macauley has been doing assessment work on his claim in the Balrath group on the Bugaboo. He expresses great faith in the future of this property.

The Prospector reports that development is being pushed ahead at Perry Creek under the direction of Messrs. Theis and Parker.

A. Allan, the energetic secretary of the Bald Mountain Development Company, was a visitor to Golden last week on his way to the Company's mine with T. Mercier. Mr. Allan will make arrangements on this trip to put in hand the remainder of the Company's development for the current year.

A. F. Macauley has driven the tunnel on the Hidden Treasure at Spillimacheen in a distance of 40 feet further and reports the property looking well. H. Croft, the well-known mining engineer will visit the property shortly to decide on further operations with a view to making this fine copper prospect a shipper.

A. Allan, of Calgary, Secretary of the Bald Mountain Mining & Development Company, visited the Company's property last week to arrange with Mr. Mercier for pushing on further development work. It is proposed to extend the tunnel to cut other leads. Mr. Mercier informs us that the property looks well at the place where he opened out the main lead, the ore body at this point presenting a thickness of four feet.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25 cts. a box. Cure guaranteed. Sold by all Druggists. 8

Remember the Strawberry Festival at Hospital Grounds To-morrow, from 4 to 10 p.m.

Mr. Brown's Opinion of Paine's Celery Compound

It Restored Him to New Health When All Other Medicines Failed.

It is everywhere admitted that the people who testify to the health-giving and restoring virtues of Paine's Celery Compound are men and women who are respected and well known in the towns and cities where they reside.

The high standing of Paine's Celery Compound with the most prominent medical men, and its world wide popularity, is due to the fact that the great medicine accomplishes just what it promises. It saves life after all other medicines fail; it cures when doctors pronounce the patient incurable.

Mr. John H. Brown, Truro, N.S., writes as follows:

"I am truly thankful for the good results I have obtained from the use of your Paine's Celery Compound. For a long time I have been a sufferer from general debility and indigestion and have made use of many medicines, but none have given me the grand results, as far as improved health is concerned, as has your wonderful Paine's Celery Compound. It has done wonders for me, and though I am 75 years old I have been able to do light work for the past six months, and have not lost a day. I give your medicine all the credit for my restoration."

MINERAL EXHIBIT FOR PARIS.

North East Kootenay to be Represented

W. F. Robertson, Provincial Mineralogist, visited Golden last week to arrange to have North East Kootenay represented in the mineral exhibit of the Dominion of Canada at the forthcoming Paris exhibition. Mr. Robertson proposes that Recorder Lang should be appointed to go round the district and collect the specimens, and he considers this will ensure a first class representation of the district as there is no man in the Province who exhibits greater interest and taste in getting together a mineral collection, as evidenced by the fine display at the Golden office.

An Operation Evaded

Mr. R. A. Size, Of Ingersoll, Ont., Tells How It Was Done.

Symptoms of Appendicitis—The Way They Were Relieved—The Sufferer Now Well and Working Every Day.

From the Chronicle, Ingersoll, Ont.

In February, 1898, Mr. R. A. Size was taken very ill, and was confined to his home for several weeks We heard that he was to go to the hospital to have an operation performed, but the operation never took place, and as he has started to work again and in apparently good health, we investigated the case and found that he has been using Dr. Williams' Pink Pills for Pale People. Mr. Size is a highly respected citizen of Ingersoll, having resided here for over thirty years, and has been a faithful employee at Messrs. Partlo & Son's flouring mills for over nineteen years. When asked by a Chronical reporter whether he would give an interview for publication, telling the nature of his disease and his cure, he readily consented. Mr. Size gave the details of his illness and cure as follows:—

In February I caught a heavy cold which seemed to settle in my left side. The doctor thought it was neuralgia of the nerves. It remained there for some time and then moved to my right side, in the region of the appendix. We applied everything, and had fly-blisters on for 48 hours. They never even caused a blister and did the pain no good. The doctors came to the conclusion that the appendix was diseased and would have to be removed. The pain was very great at times, and there was such a stiffness in my ankles, also in my hand, and pain all over my body. The day and date was set for an operation, and I was reconciled to it. About a week before I was to go to the hospital my wife was reading the Chronicle. She read an account of a man who had been cured by the use of Dr. Williams' Pink Pills. The symptoms of the disease were so much like mine that she become interested and wanted me to give the pills a trial. I had little faith in the pills but as my wife seemed to be anxious that I should take them, I consented. The day for the operation had now arrived, and I told the doctors that I did not think I would go to the hospital for a while as I was feeling better. I continued the pills, and was greatly surprised and pleased with the result. I continued to improve, and have long since given up all idea of an operation. When I started to use the pills, I was unable to walk, and suffered something awful with the pain in my side. It was just five weeks from the time that I started the use of the pills, until I was able to walk again and I had been doctoring three months before that, and I have been working ever since. Altogether I have taken sixteen boxes of the pills, and they have done me more good than all the doctors' medicine I ever took in my life. I have now every confidence in Dr. Williams' Pink Pills and think that they are the best medicine in the world to-day. Certainly had it not been for them, I would have had to go through the ordeal of an operation and perhaps would not have been living now. I hope that by making this public it will be of benefit to others, as it was through one of these articles that I first learned of the unequalled qualities of the pills.

The public is cautioned against numerous pink colored imitations of these famous pills. The genuine are sold only in boxes, the wrapper around which bears the words "Dr. Williams' Pink Pills for Pale Pale People." If your dealer does not have them they will be sent postpaid at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

ATHALMER.

Head of navigation on Columbia River.

The most central point in Windermere Mining Division.

Extract from Report of Minister of Mines for 1898: "A waggon road could be built from the 'Salmon Beds' ATHALMER—at a reasonable cost, and will be so built as soon as it is justified by the mining development."

Dry climate, charming scenery, perfect boating on lake and river, and good fishing and shooting in immediate vicinity.

Level surface with gravel sub-soil to build upon; cold, clear water the year round for household purposes, and splendid water power close to town.

Large and complete saw-mill (20 M. daily capacity) on the ground assures cheap lumber.

Terms easy, particularly so to investors wishing to build.

C. D. Lang, Agent.

For a Fine Suit and a Perfect Fit
