Mr. H. B. Haight

Dear Sir

I have received your letter of 24th Ins.t and have to call your attention to my letter of 7 Dec. as to B/L of "Prince Victor" that vessel having come in here no trouble has occurred.

In bills of lading it would be well always to insert the kind of feet of lumber I think the words "board measure" when they are superficial feet would answer the purpose.

I take stock at 31st December at the Camps and the Mill, take an estimate of the logs in the Mill pond, lumber on the wharf and on board ships &c,

Yrs

If you will not

work yesterday it should be considered as a sunday and not counted as one of the ships lay days

I am

Dear Sir

Your Truly
