## ANANIAS OVERHAULED.

Editor News—As I told Mr. Carney that I should do, I went to the meeting Monday night with the distinct purpose of hearing him admit or deny the reports of his Sandon speech re the Lardo-Duncan country and the men at work there.

Mr. Carney did "deny in toto"---those were his very words---the report, but as he was immediately contradicted flatly by three such well and favorably known gentlemen as Messrs. Retallack, Buchanan and John McDonald, who were actual witnesses present at the Sandon meeting, I, together with almost every man who heard him, have no belief whatever in his denial.

With his usual insinuations and underhand methods of speech, Mr. Carney tried to make his auditors believe the majority of the Lardo-Duncan people are themselves greatly dissatisfied with the way the work is being handled, but could mention no name except James McK. Anderson's as being dissatisfied with the work. We of that country, however, do not consider that Mr. Anderson, who came to the Lardo-Duncan country for the first time last year, and brought in with him a lot of boys (good, nice boys, I freely admit) to prospect for $15 per month and a one-fifth interest, and who located everything in sight, from granite to grass roots, we do not, I say, consider him a truly representative man of us, nor that he has shown sufficient valuable properties to be in his possession to fairly demand any extension of favors, already great, which have been granted him by the Government.

# ADMIRAL SAMPSON SENDS FOURTH OF JULY PRESENT

## Madrid Says Admiral Cervera's Fleet Showed Americans a Clean Pair of Heels.

## Santiago Still Stands Out as a Result of Changed Conditions Owing to the Destruction of the Spanish Fleet.

Washington, July 5.—Admiral Sampson has sent the following despatch:

"Playa del Este, via Hayti, to the secretary of the navy: The fleet under my command offers the nation as a Fourth of July present the destruction of the whole of Admiral Cervera's fleet. It attempted to escape from Santiago Harbor at 8:30 a. m., and at 2 p. m. the last of the fleet, the Cristobol Colon, had run ashore sixty miles west of Santiago. The Infanta Maria Teresa, Almirante Oquendo and Vizcaya were forced ashore, burned and blown up within 20 miles of Santiago. Our loss was one killed and two wounded. The enemy's loss was probably several hundered. We have about 1,300 prisoners, including Admiral Cervera.

### How They Tell it in Madrid.

Madrid, July 5.---One statement from Santiago de Cuba is as follows:

"When Admiral Cervera found that it was certain Col. Escario's reinforcements were in proximity to Santiago, the admiral held a council with the commodores of his squadron disclosing to them a plan to force the blockade in broad daylight. The commanders responded unanimously.

"It was then arranged that the torpedo boat destroyers should take the lead, feigning an attack and discharge their topedoes against the enemy's ships, the Cristobal Colon protecting their advance, sheltered by the batteries of Morro castle and distracting the enemy's attention while the remainder of the squadron sailed out of the harbour. The Americans at first were taken by surprise. They opened a tremendous fire against the torpedo boat destroyers, which Admiral Cervera had instructed to steer in an opposite course to the squadron. The Americans were descried and maneuvered toward the supposed course of the Spaniards, while Admiral Cervera went full steam ahead, maintaining a continuous fire until clear of the American lines, and then steamed away to the westward pursued for some distance by the swiftest American vessels, until they were lost sight of from Morro castle. In the meantime the torpedo boat destroyers sank under a rain of shell from the numerous American warships. It is probable that part of their crews were saved by the enemy, or swam ashore.

### Santiago Still Holds Out.

Playa del Esta, July 5.—General Shafter's demand for the surrender of Santiago on the pain of bombardment, was made at 7:30 o'clock Sunday morning, and one hour later Admiral Cervera made his suicidal exit from the harbor, resulting in a complete transformation of the naval and military conditions. Instead of a menacing Spanish fleet within the harbor, the way has been cleared, save for the short batteries, for the entrance of the American fleet up to the very wharves of the city. Owing to these changed conditions no further attack on Santiago will be made by Gen. Shafter's land forces until supported by the fire of Admiral Sampson's fleet.

## LOCAL AND GENERAL MENTION.

### Items of Interest to the Citizens of Kaslo, Occurring Here and There.

Harry Hughes is in iown from Salmon River.

A nice chicken dinner will be served at the Queen Restaurant, Sunday at 4 o'clock p. m. *

The St. Pancras Inn is being refitted and furnished by Mrs. Blackman who will make a homelike boarding and lodging house of it.

W. J. Twiss, first lieutenant of the Kaslo Rifles has received samples of the new uniforms, which members of the company are invited to inspect.

W. E. Sutton, representing the Everett smelter, is pumping out the old Skyline mine at Ainsworth, with a view to the Smelter Company leasing it.

Sam Schwander will give a gold ring, worth $20 to any one who can produce a watch that he cannot put in perfect order. He can be found at the Kaslo Drug store. Call and see him. *

Howard Long is suffering from a fractured collar bone resultant upon being thrown from a pony at Nelson on Dominion Day. The little fellow bears up bravely and is around on the streets as usual, except for his bandages.

## AS SEEN FROM NELSON.

### Evidences that Unsportsmanlike Actions are Causing Some Discomfort.

Monday's Nelson Miner says editorially:

"The most successful Dominion Day celebration that has ever been held in Nelson has come to an end, and, with the exception of the Kaslo fire team incident, nothing has occurred to mar the harmony of the proceedings."

In its news columns, referring to the attempted hose reel race, the same paper says;

"The Kaslo team was on the ground but did not compete. As there has been some misunderstanding as to how they came to be barred out, it will be better, perhaps, to give the facts as they occurred. Before the races took place a draw was held to decide in what order the teams should compete. Nelson and Rossland drew, but Kaslo declined to do so. Mayor Houston, chairman of the committee, thereupon gave them five minutes in which to decide whether to draw or to be barred out. They declined to draw, and the contest proceeded without them. Nelson ran first in comparatively slow time, and the Kaslo team immediately demanded to be allowed to compete, and Mayor Houston very properly refused. There has been considerable feeling aroused over the action of the mayor, but all fair-minded people must acknowledge that, regrettable though the whole affair undoubtedly was, no other course could, under the circumstances, have been adopted."

The Economist says:

"Those who came to participate in some of the leading events on the program of sports, protest that they were not fairly treated, especially the Kaslo contingent. However this mav be with the hose reel contest, Kaslo should have no kick coming as to the treatment accorded her sprinting champion Dill. This gentleman's challenges were freely accepted and the Nelson runners were prepared to meet him on ordinary terms, but Dill insisted on making his own terms, and these were so unreasonable that the race was called off."

The Tribune, although published Saturday, has not a line of any kind about the celebration.

The above clippings from the Nelson papers concerning the treatment our boys got at Nelson on Dominion Day show that there are people who are by no means proud of the affair, that has shown up their city in such a bad light for hospitality and true sportsmanship. As to the Kaslo incident being the only unpleasant one, ask the Rossland firemen if Nelson did not try to evade the payment of the prize money, on the technicality that there were but two entries, after they had unjustly barred out Kaslo from making the third entry. Kaslo did not refuse to draw as stated. As to Dill's race, the "unreasonable" thing that he asked was to run it according to the terms of his printed challenge. Thompson was simply afraid to meet him. Mayor Houston's attitude throughout the whole affair was disgraceful, but what might naturally be expected, if the reports about his inebriated condition are true.

## THE CHARGES MADE BY A. CARNEY.

"God made him. Therefore let him pass for a man."

The reptile that attempted to publicly traduce the News and its staff from the public platform Monday night evidently supposed that long-suffering and forbearance were among the cardinal virtues of this office. There is a limit to all things, however. The lives of the editors of this paper are open books, and they have no cause to be ashamed of a page of their histories. Can this slanderer say as much for himself?

Within the past 48 hours portions of his history have come to our knowledge that make us blush to think that we ever met him on terms of civility or treated him like one gentleman should treat another.

At the time that he and others were running after us to try to influence us to support Mr. Green, certain conversations of his own soliciting were held with him in this office—which any gentleman would consider as confidential—but which he has distorted and twisted almost entirely out of a semblance to their original meaning, and then has tried to trumpet them in that form from the public platform.

In this connection we do not hesitate to say that we considered, and do still consider Mr. Green to be a gentleman. We were and are favorably disposed toward him as a man and were seriously considering supporting him as a candidate. The doubtful element lay in the nature of his candidacy, which we assured his lieutenants would have to be favorable in the main to the Government. They assured us that it would be so.

The News has from the start been a Government supporter, although maintaining an independent attitude on minor points. We concluded to await the results of the Sandon convention and see what sort of a platform it would give Mr. Green to stand upon, before deciding between him and Mr. Retallack. It gave him no platform and its entire aspect was so decidedly Opposition that we dropped the whole affair. Time has justified our decision. Mr. Retallack has made a remarkably good impression on the people as a prospective legislator, while Mr. Green's fits of temper and discredited associates with their vicious methods have nearly undone him.

It is a mystery to us why Mr. Green will permit a man like A. Carney to drag down his cause by championing it. It is a mystery why the public will permit a man of A. Carney's lack of character to defile a public platform by his presence. Is it possible that his smug hypocracy and pharisaical cant have blinded them to the dark pages of his history in Calgary and Nelson? How is it possible for self-respecting men like Wm. Houston of Kaslo and Jas. Bell of Whitewater, both of whom he has wronged, to work upon the same side with him? These are questions that are mysteries.

## EDITORIAL OUTCROPPINGS

As Mr. Buchanan was remarking in his speech Monday night, "He that is unfaithful in private life, how shall he be trusted in public?", it was amusing to see the haste with which a certain rotund individual left the hall. Truly, the guilty flee when no man pursueth.

## MR. RETALLACK'S ACCEPTANCE

To the Electors of the Slocan Riding of West Kootenay Electoral District:

Gentlemen—At the request of a large proportion of the community representing every section of the Riding, I beg to announce myself as a candidate for your suffrages in the coming elections.

In respectfully soliciting your votes and support, I declare myself a supporter and follower of the Hon. J. H. Turner as the leader of the only party in this Province with a defined policy and coherent existence.

During my eight years' residence in this district I have been a consistent supporter of his party in recognition of their attitude in meeting, and in cases anticipating the requirements and expansion of this great mining region.

I am in favor of the following reforms:

1. The abolition of the tax upon working miners.
2. The abolition of the Mortgage Tax.
3. The distribution of seats in the Legislature in direct proportion to population.
4. I do not approve of the policy of the late Legislative Assembly in using their influence to exclude foreign railroads, such as the proposed railroad to Boundary Creek.
5. I favor certain revisions in the Mineral and Land Acts, particularly some easy plan by which the holders of claims can advertise out their defaulting co-owners.
6. In filling all government appointments I am in favor of appointing bona fide residents of the district in all cases where such can be found competent to act.
7. I believe that the Provincial Legislature should bring all the aid and influence at its command to the assistance of the lead mining industry, especially in the direction of obtaining stronger recognition from the Federal Government at Ottawa of the importance of this industry and the disadvantages under which it now labors.

If you do me the honor to elect me as your representative, I will at all times endeavor to protect and further the interests, not only of the prospector, but also of all those employed in and around our mines, recognizing that our entire community is dependant upon the mining industry.

I am, gentlemen, your obedient servant, JOHN L. RETALLACK.

### CHANGES IN MINING LAWS.

The following changes in the British Columbia mining laws should be carefully studied by those interested in mining in this Province:

First of these refers to the location of fractions. In all fractions surveyed from now on, whether staked correctly or not, the surveyor may adopt the boundary lines of the surrounding claims, provided no side exceeds 1500 feet in length. In other words, the locator is entitled to the vacant ground that he claims, even if he does not stake it in such a manner as to include it all, which he seldom does.

By a recent decision of the courts a prospector lost a claim because of inability to secure the post necessary to mark the location. The amendment provides that in cases where claims are staked above the timber line, or the prospector can not secure the necessary posts, he may erect monuments of earth or stone.

In staking an extension the posts are often planted so as to form a wedge-shape fraction between two ends of the two claims. These fractions have often incurred great expense, not only in recording and surveying, but in cases where they carry the lead, and thus become of such value as to promote litigation. The amended act authorizes the surveyor to include such fraction, provided it does not cover more than 51.65 acres, the area of a full claim, and provided further that two location posts are together.

By failure to record assessment work within the required period of one year, either through oversight or the misunderstanding of partnership interests, valuable claims have been lost. Now, if a prospector fails to record the work within a year, he has 30 days' additional time in which to make the record by payment of an extra $10.

Another change regarding the assessment work is in that particular which called for work to the amount of $100 each year. Now, a miner can do and record as many assessments as he pleases in a year by paying the recording fee for each assessment done to the extent of $100.

In case anybody should adverse an application for a certificate of improvement and crown grant, the contestant must have his claim surveyed immediately and file a plan made and signed by an authorized provincial land surveyor with the writ.

To obtain a crown grant in 1896 it was necessary to do assessment work to the amount of $500 and to have the claim surveyed, which meant another $100. In 1897 the act was amended so as to provide that up to May 1, 1898, the cost of such survey should count as work done on the claim, not to exceed $100. In plain English, it counted as an assessment and as work toward the crown grant. A survey generally costs $100. The last legislature extends the time to May 1, 1899.

Hereafter, in adverse proceedings in connection with the title to mineral claims, before any court, each party to the proceedings shall give affirmative evidence of title. Heretofore the burden of proof was on the contestant.

The fee for recording assessment work has been reduced from $2.75 to $2.50. Heretofore the fee for recording assessments has been 25 cents higher than other fees.

Anybody who pulls down a legal post erected to mark a boundary or location of a mineral claim, or any writing by law required to be thereon, is liable to imprisonment for six months or a fine of $250, or both. This is supposed to be directed particularly toward preventing the use of old posts by people who restake a claim and sometimes destroy evidences of a prior location.
