RATEPAYERS ARE OPPOSED TO HAVING THE CITY DIVIDED INTO THREE WARDS

It Was Pointed Out to the Mayor Last Night That New System Will Give Sections One and Five a Total of Six Aldermen, and Only Three Aldermen Between Sections Six, Seven and Eight

It was W. H. Montgomery, who, at the Property Holders' meeting last night asked the mayor directly why the proposal was now made to divide the city up into three wards. He took it that the proposal was against public opinion judging from expressions he had met with in the city.

The Mayor's Statement

To the question the mayor replied that it was doubtful in the minds of the present council whether the Municipal Clauses Act had been properly complied with when the ward system was adopted as a legal necessity last year. The Act required equal representation for each ward and the two wards created last year had not an equal number of representatives in council. The system proposed provided for three wards with three representatives for each. He said that his idea was now to get the best that could be got out of the ward system. For himself it didn't amount to a hill of beans whether the ward system prevailed in the city or not.

Will Make It Unfair

With all the manner of his council attitude to the mayor, Ald. Douglas rose to express positively the opinion that it would be far better to leave the wards as they are at present, and take up the question of whether or not a ward system for Prince Rupert at the Municipal Election. He showed that under the triple system proposed the effect would be to get still further away from the ideal of equality of representation held up by the mayor, since the centre and west wards proposed being the Section One and Section Five side of the ctiy, would have a representation between them of six, to the three of the sections to the other side of McBride street.

Meeting is Opposed

..No discussion followed, but the chairman briefly expressed his idea that the Property Holder's Association as at present constituted is opposed to the alteration of the present ward system, and the expression was heartily applauded.

BUILDING PERMITS

Handsome New Residence and a $3,200 Store Are Planned.

Building permits for the week consist of a $3,200 store which is being built on First avenue by Julius Le Blanc, and a handsome new residence on Fifth avenue by Mr. L. Bullock Webster.

Mr. C. Tosland is building a residence on Seventh avenue costing $200.

Fire at Dr. Tremayne's

A small fire broke out this morning in the residence of Dr. Tremayne, but the prompt arrival of the fire brigade soon had it extinguished. Dr. Tremayne contributed a small purse to the fireman's fund, for which the fire men desire to express their thanks.

HAYS CREEK RESIDENTS DEFEND THEIR ATTITUDE TOWARDS THE SEWER SCHEME

Had a Heart to Heart Talk With the Mayor and the City Engineer Last Night—Meeting Wanted to Have a Complete, Not an Incomplete Scheme Submitted—Money for Plankways Promised for Spring

A rediscussion of the Hays Creek sewer question was the principal question at the Property Holders' Association meeting in the Presbyterian Hall last night. Mayor Manson and the City Engineer were present, and the Mayor expressed the opinion that the residents of Sections 5, 6, 7 and 8 were foolish to have turned down the bylaw. This gave rise to several vigorously expressed opinions from the audience in defense of the people's attitude. The Mayor's ground was principally that the sewer might now have to be constructed by local improvement method instead of as at first proposed out of the general fund, and this would result in greater expense for the people interested in the sewer.

Bottled-Up Sewer.

In defense of the electors' action Mr. Le Blanc replied, likening the city to a bottle which the G. T. P. could very easily cork by refusing an outlet to this or other sewers. He wanted the city to be sure of the outlet and to tell the people plainly where it was to be before going ahead with the sewer.

Archdeacon Collison, as a resident very directly concerned with the lack of outlet for the sewer, said that on sanitary grounds alone the electors were justified in turning down the bylaw. From his house, overlooking Hays Creek basin, he had ample opportunity of seeing how the incoming tide closed the basin. Even if the city assured the electors that it would be quite sanitary, it certainly would not be pleasant.

Not Even a Sewer Outlet.

J. S. Cowper caught up Mr. Le Blanc's simile and proved to the hilt that the G. T. P. has already corked the bottle, there being not a foot of accessible waterfront available to the citizens without permission from either G.T.P. or Provincial Government at the present moment. He applied the argument positinvely to the sewer problem, saying the sewers as at first proposed looked rather too much like a pig in a poke for the electors.

Plankways Wanted

..Others speakers gave equally decided views against the scheme and the meeting passed on to consider the question of plankways, and other improvements desired. The fact that Section Two owners are talking about seeking improvements made the meeting determined to see that their rights are attended to in proper order.

Funds Next Year.

The mayor pointed out that the problem was a financial one, but that funds would be available by next May.

The city engineer was asked a number of questions relating to the sewer outlet and the Morse Creek water supply, the result benig no absolute assurance of the location of the outlet, which depends on the G.T.P. engineer, but the assurance of Col. Davis that Morse Creek woter is suitable for domestic purposes, and can be kept so.

MAY HAVE LINE CONNECTED BY THE END OF NEXT YEAR

FOLEY, WELCH & STEWART HAVE RECEIVED INSTRUCTIONS TO COMPLETE THE ROAD BED FROM TETE JAUNE CACHE TO ALDERMERE WITHOUT DELAY.

Vancouver, Dec. 9.—Now that any possible misunderstandings have been cleared up between the G. T. P. and the Government, work on the completion of the line is to be rushed with all possible speed. It is expected to accomplish very extensive work on the British Columbia sections next year.

Messrs. Foley, Welch and Stewart for the Pacific sections have been asked to complete the road bed between Tete Jaune Cache and Aldermere, a distance of 415 miles, with the least possible delay. Mr. Patrick Welch is now on his way to Edmonton and Winnipeg, where he will award the sub-contracts for the eastern half of the work at once.

VICTORIA CONSERVATIVE PAPER ATTACKS MR. H. S. CLEMENTS' FIRM

In an Article Headed "Bogus Townsites," The Week Says that His Firm is Representing Lot 882 as the Official Hazelton Townsite, "Well Knowing That It Is Not So"—A Scathing Article

In an article headed "Bogus Townsite" the Victoria "Week," which is well known as a staunchly Conservative paper, has the following to say editorially upon the question of certain townsite propositions:

"British Columbia has had just about enough of bogus townsite and bogus townsite companies, but judging from advertisements now running in the Vancouver papers it looks as if we shall have to tolerate a little more of this kind of thing.

"A Vancouver firm advertising themselves as Clements & Heyward, advertise New Hazelton as the Grand Trunk Pacific Railway Company's townsite; the "real" townsite. They put forward a plan in support of their claims certified by Mr. E. J. Chamberlin, vice president and general manager, and B. B. Kelliher, chief engineer. On this plan is plainly shown the station grounds of the G. T. P. and the lot number, 882. They print in their advertisement a letter dated Nov. 17th, 1910, and signed by Charles H. Manser, assistant solicitor. Yet upon the same advertisement appears a letter signed by G. U. Ryley, land commissioner, dated Nov. 6th, 1911, stating that the Grand Trunk Pacific townsite of Hazelton is situate on lot 851.

"Lot 851 is a mile and a half southwest of the old town of Hazelton; whilst lot 882 is at least three miles northeast. Moreover, in the same issue of the Vancouver papers appears an advertisement of the Grand Trunk Pacific Railway Company, signed by Mr. G. U. Ryley, their land commissioner, announcing that the company's official townsite is at South Hazelton on lot 851 and that an auction sale of the lots will shortly take place. Following this the Provincial Government has officially announced that such sale will take place in December, when the Government lots as well as the Grand Trunk Pacific lots will be sold by public auction in Victoria and Vancouver.

"This undoubtedly clinches the matter, yet the firm of Clements & Heyward continue to represent lot 882 as the official townsite, well knowing that it is not so and knowing also that the attempt to foist this onto the public is being engineered in the interests of Mr. Bob Kelly, who is the principal owner of the lot.

"Now the principal partner in the firm of Clements & Heyward is Mr. H. S. Clements, member for Comox-Atlin. He cannot have any knowledge of what is being done by his firm, because he is too honorable a man to tolerate it for a moment, but by this time he has probably been made acquainted with the circumstances by many of his irate constituents, and in the interests of public decency it is to be hoped that he has taken steps to withdraw the objectionable and misleading advertisement.

WILL BUILD RAILROAD FROM PT. ESSINGTON TO THE ARCTIC

NORTHERN TERRITORIAL RAILWAY IS APPLYING FOR A CHARTER AT OTTAWA—LINE FROM VANCOUVER TO PEACE RIVER DISTRICT ALSO PLANNED.

(Canadian Press Despatch.)

Ottawa, Dec. 8.—A railway from Port Essington on the Skeena River, running northward from the river crossing up through the rich interior country right to Fort Churchill within the Arctic Circle, is the project for which Government sanction is being sought. The applicants have formed a company to be known as the Northern Territorial Railway with a view of tapping the wealth of the great north. Their application for a charter for the road was entered with the Minister of Justice this morning.

Application is also being made for legislation incorporating the Vancouver and Peace River Railway. The project will be to build a line from Vancouver to the Fraser River, in the vicinity of Lillooet, thence following the Fraser River to Fort George, then through Pine Pass in the Rockies to Dunvegen and Vermillion chutes in Northern Alberta.

MUCH TEDIOUS TECHNICALITY

Case of Watson vs. City Still Being Threshed Out in Supreme Court—Proceedings in McIntyre Hall Today.

Full of technicality was the evidence of Engineer A. E. Oakley, who occupied the witness box during the whole of this morning's hearing of the case of Watson vs. City. The Supreme Court was held in the McIntyre Hall. Mr. Peters' examination of witness brought out evidence to the effect that the city's operations on retaining walls did not hinder the contractor. Delay in a certain culvert, for which three days was allowed, was caused by Bob Ross, not the city.

One little comment of His Lordship's enlivened an otherwise oppressively technical phase of the hearing. That was when witness denied giving Watson instructions to dump his cars sidewise. He had asked him if he could not dump them sidewise to oblige the city.

The Judge: "And Watson now thinks that you ought to oblige him by paying for it." (Laughter.)

Questioned regarding the culvert in dispute, witness said that he did not think Watson had to lay off his men at all. He denied that he told Watson to shut down at that end. He had allowed three days extra on this for the inconvenience of shifting track.

Court then adjourned until 10:30 Monday morning.

MAY IMPLICATE LABOR LEADERS

Effort Is Being Made to Connect Labor Men on Pacific Coast with Unlawful Handling of Explosives—McManigal Testifies.

Los Angeles, Dec. 9.—An effort is to be made by the State to show that certain labor leaders on the Pacific Coast are implicated in a conspiracy to transport explosives unlawfully.

McManigal is continuing to give evidence before the Grand Jury. Both McNamaras continue to appear unwilling to testify, but it is thought a term in prison will affect the labor leaders to want the matter cleared up and will induce them to divulge any information at their disposal.

A SAILOR'S FUNERAL

TWO BIG MILLS ARE DESTROYED

Epidemic of Serious Fires Breaks Out in Western Canada—Two Flour Mills and One Bank Are Destroyed.

(Canadian Press Despatch.)

Winnipeg, Dec. 9.—Two flour mills in Western Canada were destroyed by fire yesterday. They are the Adamson & Scott mill and elevator, which was filled with wheat, at Glenboro, Manitoba, entailing a loss of $50,000, and the Union Supply Company's mill at Rosthorn, Sask., with a loss of $20,000.

The Imperial Bank of Canada at Rosthorn was also destroyed, with a loss of $15,000.

HAS LAW BEEN ENFORCED

Rev. F. W. Kerr Will Speak on Liquor Problems Tomorrow.

ARE SATISFIED WITH COAL TEST

Special "Weighing-in Session" Was Held by the Council Yesterday on the Coal Wharf with Satisfying Results.

Yesterday the test agreed on at the famous coal investigation was carried out at the wharf. The identical wagons used by Messrs. Rogers and Black were recommissioned and filled with coal weighed out by the sack, as for the first contract supply, in the presence of members of the Council and those persons otherwise concerned in the investigation.

It was shown to the satisfaction of the city's representatives that the wagons held full weight when loaded fairly, and that the smaller wagons, over which special complaint had been made, when loaded with their registered load of 5,600 pounds could easily hold 400 pounds more. Evidence had been given by at least two witnesses that these small wagons were like the big one, always well loaded, and the Council representatives announced themselves satisfied that there was no shortage.

INAUGURATING THE WARD SYSTEM.

Following in the footsteps of every reactionary and ward-bossed city on the continent, instead of in the footsteps of those progressive cities which have discarded the ward system, the Council of Prince Rupert has announced its intention, before going to the voters, of dividing the city up into three wards. The ward boundaries proposed are as follows:

West Ward—All westward of a line drawn from the water up Sixth street to Fraser street; thence easterly to Fifth street and along the line of that street produced and Fulton street to Fifth avenue; thence along that street westward to Taylor street; along that street, crossing block 27, section 5, in a straight line to rear of blocks 30 and 31; thence along that line, crossing to Comox avenue in line with the eastern boundary of the Government reserve and taking in all the remainder of the platted portion of the city west of that line.

East Ward—All east of a line drawn from the waterfront along McBride to the lane in the rear of Ninth avenue, including all the platted portion of the city southerly; thence westerly to opposite the alley between blocks 41 and 42, and thence southerly to the bounds of the city.

Center Ward embraces all the territory between these two bounds.

The full intent of the division of the city cannot be understood until the boundaries are traced off on the map. Then it will be seen that while East Ward embraces all the territory east of McBride street, the rest of the city has been gerrymandered until Center Ward in its effort to comprise the Comox avenue district has been carved up to look more like a duck's foot than a city ward. The boundary line is taken up and down lanes, and across lots in some places to secure the desired effect. The News entirely accepts the Council's word that the fixing of the boundary lines is the result of a very great deal of careful thought and study.

The possibilities of the gerrymander are quite well known to any "practical" politician. The Ross government in Ontario was credited with keeping itself in power for thirty-three years by a judicious altering of the boundary lines of the various constituencies so as to hive the Grits. But whoever was the gerrymandering genius of the Ross administration, he might sit at the feet of the genius who planned Prince Rupert's proposed three wards and learn something in the art of juggling with boundary lines.

At its best the contour of the new wards is a joke. At its worst it is a menace. The circumstances under which it has been brought about make it appear much more a menace than a joke.

A PRESENT OF A CORNER LOT TO ALD. HILDITCH.

For eighteen months the ratepayers and business men of Second avenue have been hindered in their business by the impassible nature of the street. Even after spending thousands of dollars on it for a graded roadbed, the surface of the road was left looking like a rock-strewn shore. So noticeable was it that many unkind people said Second avenue was being deliberately sacrificed in order to help those streets on which the aldermen and their friends are located. This was probably an unjust accusation. It was probably just a coincidence that the steam roller started outside the Mayor's house, and has stayed round about Sixth street ever since.

* * * * * * * *

A few weeks ago Alderman Hilditch moved his place of residence from Hays Creek into the heart of the proposed new Center Ward. He also bought an old building on Center street to move to a lot on Third avenue, near The News office, the city kindly loaning him necessary timbers for the job. It was while the moving was in progress that the irate deputation of Second avenue ratepayers swooped down on the City Hall.

The Chairman of the Board of Works heard their grievances for awhile and assured them that he would see that the road was cleared of boulders to permit of the road being opened for traffic. Then he added words something like this: "You need not be afraid that the work will not be done, gentlemen. I had already instructed the City Engineer to clear away the boulders to let me get my house along."

* * * * * * * *

The News is very anxious to see that building put in place, but in a spirit of self-sacrifice it is willing to forego that pleasure. The News instead proposes that a public subscription be taken up from all the lot owners from Center street to Seal Cove to present Alderman Hilditch with a fine corner lot at Seal Cove on condition that he place his old building on it. In this way at a comparatively small expense we would quickly get the roads placed in order from Center street to Seal Cove, and our good neighbor would be richer by a fine corner lot.

The News would be the only sufferer, but we would gladly make that sacrifice to get those roads in order.

WHAT IS DOING IN THE SPORTING WORLD

JOE BAYLEY IS SOME BOY

Clever Victoria Lightweight Looks Like Coming Champion.

Joe Bayley, the clever Victoria lightweight who put Oscar Nelson out in two rounds before the Kaien Island Club a few weeks ago, is having a victorious trip in pursuit of Billy Lauder and the lightweight championship. Bayley recently scored an easy victory over Harry Lombard in five rounds under straight Marquis of Queensbury rules.

Bayley is a Victoria West boy and is justly styled "the pride of the Wests." His early training was given him by Sammy Dufty and other well-known exponents of the fistic game in that city.

He has never been defeated nor lost a decision in his life. That statement has been made by many a fighter before this, but in Joe's case it is authentic. The worst he has ever received is a draw and has won the most of his mills by the knockout route.

Joe has all sorts of confidence that he will be the coming lightweight champion of Canada.

Bayley was born in Victoria, B. C., and is therefore a Canadian. It would be interesting to Canadian sports to see a Canadian win the Canadian honors.

PLENTY OF THIS SORT OF WORK MAKES VARSITY PLAYERS.

He Is Not Trying to Hug Himself.

Falling on the ball is part of the daily drill of a football team. Coaches drill the players until they dive for the elusive leather instinctively when they see it rolling in the mud. In this picture one of the Toronto varsity players has just "hit the grass" with the football clasped securely. He is in danger of biting off his tongue though, as the camera shows.

HOW YALE COACHES WHIP MEN INTO SHAPE.

McDevitt Practicing Place Kick. Captain Howe Holding Ball.

The recent defeat by the Army eleven was a blow to the Yale coaches, but they took it with that spirit which has male Yale famous and buckled down to work. As a result the varsity material has been drilled and drilled relentlessly in an effort for better team work. It is evident that dependance is to be placed on McDevitt's kicking, for the big guard has spent hours in practice with Captain Arthur Howe holding the ball for him to boot.

THE GREAT FOOTBALL GAME IS NOW IN PROGRESS

COAL—LADYSMITH—COAL

The Westholme Lumber Co., Ltd., expects their first shipment of Ladysmith coal to arrive Tuesday of next week. They desire to thank the public for the flood of orders that have been booked, and to assure each purchaser of the quickest delivery possible under the circumstances. They desire to remind the public that they will need to exercise a little patience until this first large list of orders has been caught up with and that thereafter they may expect prompt delivery.

The company is handling this coal at almost actual cost, and have therefore found it necessary to make some very reasonable rules, which, however, will have to be lived up to to the letter by every purchaser, be he friend or foe.

First, proper coal receptacle must be provided by purchaser, as NO SACKS WILL BE LEFT, unless sacks as well as coal are paid for on delivery.

Second, all coal to be CASH ON DELIVERY. ABSOLUTELY NO EXCEPTIONS. The company claim they cannot afford to make invoices and send a collector for coal accounts when they are giving the public all the profit there is in the coal. The public must show their appreciation of the price by having COAL BIN and CASH READY.

See their display advertisement in this issue for delivery districts.

"PAT" ON THE JOB

Contractor Says He Threatened to Put Him Under Arrest.

Describing the police protection accorded by the city during the strike, Frank Kelly yesterday afternoon in the city case declared that Sergeant Phillipson had threatened to arrest him if he moved. "I couldn't work for fear I'd get pinched," said Kelly.

Sergeant Phillipson, present in the court room, smiled.

POLITE POLICE COMMISSIONER

Witness Says Com. Stephens Threatened to Whip Him.

"I didn't fare very well with Police Commissioner Stephens," said Frank Kelly in evidence in the city case the other afternoon. "I asked him for police protection over the phone. He threatend to whip me and said I was a bluffer."

Cosmopolitan and Dickens

CHARLESE DICKENS is still a "best seller." Publishers don't argue pro and con over his books—they just order a new carload of paper, oil the presses, and let them speed on. And it has been over forty years since, one morning when the yard was filled with scarlet geraniums and the breath of syringa was heavy in the air, the great author followed little Nell. Now that the centenary of his birth (February 7th), 1812), approaches and everybody is thinking of Dickens. We have secured several articles which will tell many things about him that have hitherto been unknown. In the January Cosmopolitan his son, Alfred Tennyson Dickns, will tell you some of his own personal recollections of the great novelist. Later, probably in February Mary Angela Dickens, his granddaughter, will give an intimate view of Dickens as she remembers him. In fact, in these and other articls on Dickens which will follow—fully illustrated, of been publishd of thee human—course—we shall aim to give you a more vivid picture than has yet the home—side of the great master, written by those who knew him best. Read the articles—they will surely arouse a new interest in the "best beloved" author in your library. Subscriptions to Cosmopolitan will be accepted until Dec. 10th, at the special low rate to Canada of $1.50. Cosmopolitan Agency, Box 851, Winnipeg.

Prevention of Eye Trouble

Prevention is better than cure. It is cheaper. It is possible when cure is impossible. Eye trouble may be avoided by the timely use of glasses, averting discomfort, suffering and permanent impairment of sight. We are properly equipped to adjust glasses and guarantee satisfaction.

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

YOUR CHOICE IN HUSBANDS

Women Never Marry the Men of Their Girlish Dreams.

It would be hard to say when a girl first draws an imaginary picture of the man she shall love and marry. Generally, long before she knows even the meaning of love, and assuredly years before she has outgrown hair ribbons and a passion for caramels!

Of course, he varies with the temperament and surroundings of the particular dreamer, but always is he a painfully faultless individual, quite unfitted for human nature's daily food.

It often seems as if Master Cupid took especial pleasure in thwarting these dream desires. If the dream husband is tall and masterful, the reality is almost certain to belong to the meek and lowly of the earth. It he was learned, the reality will be practical and commonplace. Never—never in any circumstances is he all her fancy painted him, and yet if her choice proves to be a man—straightforward, honest in word and deed, kindly, and gentle toward women—who can wonder that she "loves what she has"—a something infinitely more likely to make her happy than all the handsome, impossibly flawless heroes of whom she once dreamed dreams.

SWEET POTATO RECIPES

Here Are Four New Ones Well Worth Trying.

Sweet Potato Stew—Slice potato half an inch thick, stew with chops or pieces of tenderloin, and take up all together when done. Season the gravy with cream, salt and pepper and a little parsley minced fine.

Scalloped Sweet Potatoes—Parboil about one and one-half peel them. Slice thin and put in layers in buttered pudding dish, sprinkling each layer with bits of butter, a very little salt and a tablespoonful of brown sugar. Dot the top layer with bits of butter and brown sugar. Bake forty minutes, covered for the first half of the time.

Sweet Potatoes — Boil four large sweet potatoes and when done peel, cut in two lengthwise, put in pie tin with a little bacon fat, sprinkle a little sugar over them and brown in oven. Serve with roast fowl.

Molded Potatoes — Boil and prepare potatoes the same as for mashing, either sweet ones or Irish, being careful not to make them too soft to handle. Form into balls the size of a small apple, make a depression in the top of each with the tip of the finger and fill this with butter or a small bit of cheese. Place the balls in buttered baking dish and brown in oven nicely. Serve very hot, with a whole clove stuck in the depression made by the finger tip—this is the stem of the imitation apple.

THE KIDDIES' KOLUMN

Some Jokes to Learn for Your Christmas Party.

What best represents a pretty girl bathing? — A diving bell (belle).

What did Adam plant first in the Garden of Eden?—His foot.

Why is a jest like a fowl?—It contains a merry thought.

Why is a benevolent man like a rogue?—Because he takes poor people in.

Why is a gate post like a potato?—Because they both propagate.

Why is a chicken pie like a gunsmith's shop? — Because it contains fowl-in-pieces.

What are the most unsociable things in the world?—Milestones, for you never see two of them together.

What fish is an engaged young lady fond of?—Her-ring.

Why is a clock always bashful?—Because its hands are always before its face.

What letter in the alphabet is most useful to a deaf old woman?—The letter "a" because it makes her rear.

A MAN SEAMSTRESS

Crippled Harry Benstrom Can Do the Finest of Fine Needlework.

Bernard Shaw says that men can do everything better than women, even to washing dishes. Harry Benstrom is a man who can do fine needlework that is fit for exhibition. He was injured by an accident at Montreal several years ago, and with a crippled spine has to live in his bed. He had been a sailor, and, like many sailor men, was clever with his needle. Starting by taking in plain hand sewing for a living, he has made sewing an art, and can accomplish the most intricate stitches. His work is greatly sought after by the leading dressmakers, and cripple Harry Benstrom now plies a very profitable livelihood.

Even if Watson Lost Million Dollars Over Contract.

"Has Watson made anything on his contract?" asked Mr. Williams, examining Thomas McClymont, bookkeeper to Watson Bros., in the city case yesterday.

"It doesn't matter what he has lost," said City Solicitor Peters. "I object to the question. I don't care if he has lost a million dollars."

The question was disallowed as irrelevant.

LEGAL LIMITS WANTED

A Time Limit on the Lawyers Is Suggested by the Court.

"There ought to be a time limit on cases," said City Solicitor Peters with a long drawn sigh as Mr. Williams' examination of City Clerk Woods on a question of contract time limits grew prolonged yesterday afternoon.

"The Court will retort by putting a time limit on counsel," said the Judge.

"It's the same thing, your lordship," remarked Mr. Peters.

THE WAY OF AN OCTOPUS

Will Canada Stand for the Exploitation of Her Timber and Natural Resources as the States Have Done?

Charles Edward Russell has made for the Cosmopolitan a thorough investigation of lumber trust methods—he has followed the slippery trail of the lumber octopus literally from coast to coast—and he has the "goods." You will be surprised at his revelations—that the tremendous power of the trust, its brazen indifference to all but its own interests, its hold upon legislators, its highway methods of national pocket picking. It will be a great series of articles—vitally interesting to every one who has ever bought any part of a tree. The first article will appear in January. Subscriptions to Cosmopolitan will be accepted until December 10th at the special low rate to Canada of $1.50. Cosmopolitan Agency, box 851, Winnipeg.

A gift that always pleases—beautiful chinaware. Many things from the celebrated potteries of Europe.—Wallace's.

DILATORY CITY

Took Too Long to Come to Scrap With Strikers.

"I don't claim we gave adequate police protection, but I do claim that we did all that was possible under circumstances," said City Solicitor Peters yesterday. "We did all we could peaceably and when we had to fight we fought."

"It took an awful time for you to come to it—six weeks," said the Judge.

The Dream of Boys and the Ambition of Men is to Travel

'ROUND THE WORLD

"Take me somewhere east of Suez
Where the best is like the worst."

How would you like at this moment to be reclining under the awnings of a palatial steamship, sailing through sunny seas to sunny lands? Nothing to do but smoke your pipe and dream. Or in the soft, velvety night, under the southern cross, with the warm land breeze fanning your cheek, gliding along enchanted shores to the music of throbbing engines and the swish of phosphorescent waters.

To the traveler the fascination of the Far East is beyond the power of expression. There is an indefinable charm in the life and customs of a people whose civilization was old before ours was born. The following are just a few of the places to be seen.

JAPAN

JAPAN—The wonder of the nineteenth century, whose achievements in war and peace have won the admiration of the world.

CHINA

CHINA—Like a huge giant slowly awakening from a long sleep. Japan's commotion has disturbed the Flowery Kingdom—the seeds of western civilization have been sown and now we await the harvest.

INDIA

INDIA—"The brightest jewel in the British crown,' 'with its marvelous history of blood and treasure, its black hole of Calcutta, its massacre of Cawnpore, its siege and relief of Lucknow, where "ever on the topmost roof the banner of England flew" and where "Havelock and his Highlanders" went through "blood and fire" to the rescue of the beleaguered garrison.

CEYLON

CEYLON—The isle of spicy breezes and tea plantations.

THE RED SEA

THE RED SEA—Who has not read the story of Moses, the emancipator of his people, leading the Children of Israel from the land of the oppressor? How the Egyptians with their chariots and horses were swallowed up in the waters of the Red Sea.

THE SUEZ CANAL

THE SUEZ CANAL—Through which pass the ships of all nations.

PORT SAID

PORT SAID—"The wickedest place in the world."

EGYPT

EGYPT—The land of the Pharaoh and of the Nile.. The land of the pyramids, from whose height "forty centuries look down upon you" and likewise upon the grave of many a valiant "soldier of the Queen." Aboukir Bay, the scene of the battle of the Nile, immortalised by the famous poem "Casabianca."

"The boy, oh, where was he?
Ask of the winds that far around
With fragments strewed the sea
With mast and helm and pennant fair
That well had borne their part.
But the noblest thing that perished there
Was that young faithful heart."

THE MEDITERRANEAN

THE MEDITERRANEAN—Which floated the navies of Greece and Rome in their time.

GIBRALTAR

GIBRALTAR—The frowning evidence and symbol of British power.

LONDON

LONDON—The world's greatest city.

NEW YORK

NEW YORK—The home of John D. Rockefeller and Christy Mathewson.

Then home again to your own fireside, where on the long winter nights you may in fancy travel again to strange lands and see strange sights.

Admiral Schleys Own Story

A man died the other day, and with his death passed America's most popular naval hero—popular because championed by the people, though officially denied the full fruits of his long and brilliant service. This man was Admiral Schley, hero of Santiago, one of the great sea-fighters of history. Shortly before his death Admiral Schley completed for Cosmopolitan a series of articles giving his personal recollections of his forty-five years in in the navy. He was not anxious to do this for there was at least one old sore that an autobiography must reopen. But we urged upon him the fact that nearly four million readers would see each instalment of his story, and most of these readers believed, with Admiral Dewey, that the men who stood on the deck of the Brooklyn that July Sunday in '98 was entitled to the glory of that great victory. So he consented. Not in the cut and dried way, but unlocking his secret soul as he had never done before. The first installment of the autobiography, the life story of a man worth while in the nation's history, appears in the Christmas number, Subscription to Cosmopolitan will be accepted until December 10th at the special low rate to Canada of $1.50. Cosmopolitan Agency, Box 851 Winnipeg.
