REPORT

OF THE

MINISTER OF PUBLIC WORKS

OF THE PROVINCE OF

BRITISH COLUMBIA

FOR THE

FISCAL YEAR 1915-1916

THE GOVERNMENT OF
THE PROVINCE OF BRITISH COLUMBIA.

PRINTED BY
AUTHORITY OF THE LEGISLATIVE ASSEMBLY.

VICTORIA, B.C.:
Printed by WILLIAM H. CULLIN, Printer to the King's Most Excellent Majesty.
1917.

To His Honour FRANK STILLMAN BARNARD,

Lieutenant-Governor of the Province of British Columbia.

MAY IT PLEASE YOUR HONOUR:

Herewith I beg respectfully to submit the Annual Report of my Department for the fiscal year ended 31st March, 1916, in compliance with the provisions of the "Public Works Act."

J. H. KING,

Minister of Public Works.

Works Department,

Victoria, B.C., January, 1917.

Raft River Bridge: Requires painting.

Rattlesnake Bridge: Covered with round timbers adzed for wheel-tracks.

Reserve Trestle Bridge: Completely repaired.

Rose Hill No. 1 Bridge: Double bents.

Ross Creek Bridge: Filled all cribs with rock; built breakwater up creek, 70 feet long, 12-foot face, 6 feet deep.

Salmon River Bridge: Has necessary guard and hand rail.

Sorrento Bridge: 3 sets of fir stringers, 12 inches at small ends.

Tunbridge Bridge: Rebuilt, 1913.

Unnamed Bridge: Cribbed 8 feet on each end and 8 feet high.

KASLO DISTRICT.

Highland Bridge: New.

Cedar Bridge: Elevated and new abutments.

Wilmot No. 1 Bridge: New.

Bridge No. 13A: Redecked with 4-inch plank.

Bridge No. 14A: New.

Bridge No. 14B: New.

Deer Creek Bridge: New.

Bridge No. 15A: New.

Lardeau River Bridge: Protection-work.

Battery Bridge: Redecked.

Poplar No. 1 Bridge: Redecked with split cedar.

Kaslo (South Fork) Road Bridges generally: Snow service.

Woodbury Creek Bridge: Snow service.

Trout Lake Bridges generally: Snow service.

Gerrard Bridges generally: Snow service.

Poplar Bridges generally: Snow service.

LILLOOET DISTRICT.

Eastern Division.

School-house Bridge, over Bonaparte River: 10 piles, 339 feet long; clearing away drift from piles and the following repairs: 6 sill blocks 12 x 12 x 4; 1 plank 3 x 12 x 14; 1 plank 2 x 12 x 12; 2 posts 8 x 10 x 9; 1 plank 2 x 12 x 12; 4 sway-braces 2 x 6 x 16; 2 spans, 20-foot centres, raised to former level.

Scotty Creek Bridge, over Bonaparte River: 1 span straining-beam truss 55 feet; rocking up abutments to keep water from cutting.

Hat Creek Bridge, over Hat Creek: 1 span 35 feet long; cut out ice to open passage for water.

Bridge over Clinton Creek: 1 span 20 feet, 2 abutments, 4 stringers, covered with 4-inch lumber.

83-Mile Creek Bridge: To rebuilding bridge over 83-Mile Creek, 30 x 16 feet, 4 stringers, 2 abutments and sills, and covered with hewn poles.

Bridge at Price Meadows: Rebuilt bridge over slough 15 feet long near Price Meadows on North Bonaparte Road.

NOTE.—The remainder of the bridges were examined and found in good condition for the season.

Western Division.

Bridge River Bridge, over Bridge River: 1 span semi-Howe truss 85 feet; trussing it up and putting in extra bolts through chords.

Big Creek Bridge, over Big Creek: 1 span 50 feet; put on side-timbers on abutments and some new flooring.

Churn Creek Bridge, over Fraser River: Main span 340 feet; repairs to inverted cable-tower, and raising same.

Gunn Creek Bridge, over Gunn Creek-Bridge River Road: 1 queen truss 76 feet; repairing and fixing channel and abutments for ice and cleaning out snow and ice from under bridge.

Gaspard Creek Bridge, over Gaspard Creek, Churn Creek-Hanceville Road: Repairing flooring and new bent under end of span of the new posts in trestle-bent; built over Gaspard Creek 1 king truss 54 feet, 3 frame-bents, with 2 piers and 1 bank-sill, 20-foot caps, 136 feet in length by 18 feet wide; 3-inch flooring throughout with side-rails and handrails.

South Fork Bridge, over Mouth of South Fork, Bridge River Road: 1 Howe truss, 125 feet; tightening up truss-rods and putting in 1 new brace.

Ward's Ferry Bridge, over Bridge River, Bridge River Road; 2 queen-truss spans 80 feet each, length 160 feet; repairs, cutting away drift-logs, and repairing south approach.

Lillooet Suspension Bridge, over Fraser River, Lillooet-Lytton Road: Repairing flooring; 1 span 340 feet.

Vedan Bridge, over Chilcotin River, Gang Ranch-Riske Creek Road: 1 span 80 feet; repairing bridge, approach, handrails, etc.

Bridge over Cayoosh Creek, Road to Ample Mine: 30 x 12 feet; repairing and partly rebuilding bridge.

Hanceville Bridge, over Chilcotin River: 4 king-truss spans 63 feet each; remainder pile-bents 550 feet long; whitewashing and bracing up some bents; also 1 round of planking on bottom of piers.

Desault Bridge, over Desault Gulch: Built; 4 frame-bents, 2 bank-sills, 26-foot caps, 8 rows 4- x 12-inch stringers, 3-inch flooring throughout, guard and hand rails; length 98 x 16 feet; highest bent 27 feet.

Gason Creek Bridge, over Gason Creek, Pemberton Portage Road: Building bridge, 2 abutments 6 x 20, 4 stringers 30 feet long; covered with 3-inch lumber; length 30 x 14 feet.

Cayoosh Creek Bridge, over Cayoosh Creek, Lillooet Station Road: Completing 1 Howe truss 64 x 20 feet wide, with approaches; total length 200 feet; tightening rods and bolts all over Howe-truss span.

Birkholder Bridge, over Bridge River (North Fork), on North Fork Trail: Rebuilt bridge, 4 stringers 35 feet long, hewn-pole covering, guard-rails, handrails, and braces complete; approach 10 feet; total length 45 x 7 feet wide.

Anderson River Bridge, over Anderson or Gates River near D'Arcy, Pemberton Portage: Building bridge pier, 1 32 x 12 x 7 feet deep, 1 14 x 12 x 24 x 7 feet deep abutment, and 1 14 x 16 x 30 x 7 feet deep; cribbing timbers of peeled fir; stringers are hewn, 12 x 14 x 50 feet long; 4 pieces for main span, covering peeled and hewn logs; 1 span 50 feet; 1 span 35 feet; total length 120 feet.

Alexandria Creek Bridge, over Alexandria Creek-Bridge River Road: Built bridge, 1 span 40 x 14 x 5 feet deep, 2 abutments, 4 stringers, and covered with hewn logs.

NOTE.—Remainder of bridges were examined and found in good condition for the season.

Nanaimo District.

No. 1, Harewood Bridge: Now filled in and replaced by culvert 50 feet long, 4 feet wide, 3 feet deep, with 700 lineal feet hewed cedar.

No. 2, Harewood Bridge: Now filled in and replaced by culvert 53 feet long, 4 feet wide, 3 feet deep, with 792 lineal feet hewed cedar.

No. 2, Chase Bridge (Gourley's): Repaired by 1 new bent, bracing 2 bents, repairing handrail, and removing 1 large windfall.

No. 2, Millstone Bridge: New bridge.

Slough Bridge: Now filled in and replaced by culvert 50 feet long, 6 feet wide, 6 feet deep, with 1,003 lineal feet hewed cedar.

Newcastle District.

Street's: New bridge.

Haslam Creek Bridge: Repaired by trussing and tightening bolts in 1915.

Okanagan District.

Grindrod Bridge: Cleared away driftwood from the piers throughout the year.

Unnamed Bridge: Built new bridge.

Enderby Bridge: Cleaned off bridge; tightened up bolts; cleared away driftwood.

Tompkins Bridge: Renewed supports to north-east corner.

Ashton Creek Bridge: Renewed bridge.

Unnamed Bridge: Renewed bridge.

Horner's Bridge: Protected bridge with double cribbing 280 feet long; filled in with rock and gravel; corduroyed portion of approach.

Kempton Bridge: Finished cribbing to bridge; filled in both ends of bridge and completing bridge.

Shorts Creek Bridge: Renewed bridge.

Dunwater Bridge: Renewed bridge.

Eight-mile Bridge: Renewed bridge.

Brown's Bridge: Renewed bridge.

Third Street Bridge: Renewed bridge.

Fourth Street Bridge: Renewed bridge.

Unnamed Bridge: Renewed bridge.

Revelstoke District.

Big Mouth Bridge: Loading pier with rock.

Capenero's Bridge: Repairing deck.

Columbia Bridge: Repairs to deck of approach and watching during high water.

Carnes Creek Bridge: Crib-work for pier-protection.

Camp Creek Bridge: Removing driftwood, etc.

Downie Creek Bridge: Rods overhauled; deck repaired.

Eight-mile Creek Bridge: New bent in centre of span, protection-crib.

Fish River-Mammoth Bridge: Removing driftwood and rock-slides from approach.

Goldstream Bridge: Rods overhauled; bank and pier-protection work.

East Illecillewaet Bridge: Repairs to deck; pier-protection work.

Halcyon Springs Bridge: Deck respiked; repairs to handrails.

Lower Illecillewaet Bridge: Repairs to approach; mattress and pier-protection.

Mica Creek Bridge: Mattress-work for pier-protection.

Pool Creek Bridge: New deck on approach; approach partly filled.

Power-house Bridge: Repairs to crib pier; crib-work sheathing.

Sand-slide Trestle: Repairs to deck.

Slough Bridges: Repairs to decks and approaches.

Sable Creek Bridge: Removing driftwood; repairing approach.

Salmon Creek Bridge: Cleared mud-slides from approaches.

Tum Wata Bridge: Repairs to deck; pier-protection.

Upper Illecillewaet Bridge: Decking repaired.

Deep Creek Bridge: Repairs to approaches; new guard-rails.
Greeley Creek: New bridge, 4 stringers and deck.

RICHMOND DISTRICT.

Bridges Nos. 131-146: Built complete.
Sea Island Bridge: Redecked.
Lulu Island Bridge: Redecked part and repaired.

SIMILKAMEEN DISTRICT.

Daly Island: Building new bridge.
Ashnola Bridge: Putting on caber truss under lower chords and clamps.
Webster Street Bridge: Riprapping pier.
Similkameen Bridge: Putting in pieces between main braces and general repairs.
Okanagan Falls Bridge: Repairs to railing.
Siwash Creek: Building new bridge.
Shuttleworth Creek Bridge: Painting bridge.
Okanagan River Bridge, Penticton: Trussing up bridge.
Keremeos Creek: Building new bridge.
Osoyoos Bridge: General repairs to bridge—flooring, rail, and bents.
Five-mile: New bridge built.
Penticton Bridge: General repairs to floor and railing.
Fairview: Building new bridge.
Sawmill Creek Bridge: Putting in diversion crib 30 x 6 x 10 feet and riprap.
Strawberry Creek: Building new bridge.
One-mile Creek: Building new bridge.

SKEENA DISTRICT.

Interior (North) Division.

Two-mile Bridge: Replacing old bridge with new one at same site.

Skeena Slough: New bridge; 1 pier 8 feet high, 8 x 16 feet; 2 piers 5 feet high, 8 x 16 feet; 16 stringers 22 feet long; 80 feet covering, 5 inches thick, 16 feet wide; 1-foot guard-logs, 160 lineal feet.

Kispiox Canyon Bridge: Blasting rock and filling around pier.

Kispiox Bridge: Took out old angle-blocks, made new ones, put them in; took out all main and counter braces, recut them; trussed bridge up again to 2½ inches camber; also raised end of approach 2 feet, filled in with earth at end of same; put protection timber on nose of pier.

Interior (South) Division.

Burns Lake Extension Bridge: Blocked up centres of stringers.

Portland Canal Division.

Bear River Bridge: Driving 84 new piles and filling in piers with rock.
Bitter Creek Bridge: Building wing-dams of rock; general repairs.
Georgia River: New bridge.
Siskinnisht Bridge: New decking; general repairs.
Salmon River Bridge: Repairing 4 bridges washed out.
Illiance River Bridge: General repairs after wash-out.
Nass River Bridge: General repairs after wash-out.

Upper Skeena Division.

Copper River Bridge: Replacing piers and strengthening bridge.
Lorne Creek Bridge: Putting in wing-dam.
Kitwanga River Bridge: General repairs.
Fiddler Creek Bridge: Riprapping and filling in rock at piers.
Fiddler Creek Overhead: New bridge.
Usk Foot-bridge: Suspended from the main ferry-cable.

Bella Coola Division.

Bella Coola Bridge: Spans tightened; log cut out from pier; planking and handrailing repaired.

Grant's No. 1: New structure.

Necleetsconnay Bridge: Spans tightened.

Snootly No. 1 Bridge: Replanking; replacing handrail.

Clayton Bridge: Spans tightened.

27½-Mile: New structure.

28-Mile: New structure.

Boulder Creek: New structure.

Lower Skeena Division.

Bohler's Bridge: Renewal.

Hall Creek Bridge: General repairs.

Spring Creek Bridge: Renewal.

Alwyn Creek Bridge: New.

Lapple's Bridge: New.

Thornhill Creek Bridge: Renewal.

Braun's Bridge: Renewal.

Bohler's No. 3 Bridge: New.

Queen Charlotte Islands Division.

Irwin's Bridge: New.

Sangan Bridge: General repairs; lengthening bridge 14 feet; driving piles to stop sea from washing away approach to bridge.

Swan Creek Bridge: Cribbing and filling in approach to bridge to prevent flooding at high water.

Lawn Hill Bridge: Renewal.

SLOCAN DISTRICT.

Carpenter Creek Bridge: Rebracing handrails.

McCormack Bridge: Returning pile-driver.

Slocan City Bridge: Rebuilt pier and replanking.

Silverton Bridge: Replanked.

Passmore: New bridge.

Cariboo Bridge: Tightening span.

Holmes Bridge: General repairs to covering.

Inanocklin No. 4 Bridge: Raising bridge and repairs to approaches.

Whatshan Falls Bridge: Replanking.

West Demars: New bridge.

YALE DISTRICT.

Ashcroft Bridge: Installing water-barrels for fire-protection; repairs to handrailing.

Tingley: New bridge, 2 spans 18 feet each, 16 feet wide, bent trestle.

Lytton Bridge: Installed water-barrels for fire-protection.

Carrington Bridge: Repaired flooring.

Flood's Bridge: Repaired foundation and handrailing.

Lorenzetto Bridge: Renewed deck; new caps, stringers, floor, and handrailing.

Jones Bridge: Put new flooring on approach.

Leamy Bridge: Two new bents.

Spences Bridge: Installed water-barrels for fire-protection; replaced planking on piers.

Hope Bridge: Built new bent approach 462 feet long, 18 feet wide, averaging 14 feet in height.

McRae Bridge: Renewed deck; new stringers, deck, and handrailing; length of bridge 302 feet, bent trestle.

YMIR DISTRICT.

Corn Creek Bridge: New structure.

Duck Bridge: General repairs and bracing.

Forty-nine Bridge: Putting on new cover and rail.

Goat Creek Bridge: New structure.

Goat Falls Bridge: New stringers.

Inanocklin No. 4 Bridge: Covering; repairs to approaches.

King Creek Bridge: New structure.

Pass Creek Bridge: Placing intermediary bents under each span; new stringers where required; riprapping.

Reclamation Farm No. 2 Bridge: New structure.

Reclamation Farm No. 3 Bridge: New structure.

Reliance Road Bridges: General repairs to several small bridges.

Silver King No. 1 Bridge: Putting in a few new planks.

St. Patrick's Slough Bridge: New structure.

Trail-Columbia Bridge: Painting superstructure.

Trail-Rossland No. 2 Bridge: Riprapping.

Yellowstone No. 1 Bridge: Tightening span and riprapping.

Freight, unperishable, per 100 lb.	10	20

Subsidy, $3,500. Mr. W. McGrath's tender accepted.

REPORT OF INSPECTOR OF DYKES.

Office of Inspector of Dykes,
Victoria, B.C., December 31st, 1916.

Hon. J. H. King,
Minister of Public Works, Victoria, B.C.

Sir,—I have the honour to submit the following report relative to the management and maintenance of the Chilliwack, Matsqui, Maple Ridge, and Coquitlam Dyking Districts for the current year:—

On account of the cool weather that prevailed during the early summer months, the freshet season in the Fraser did not begin this year until a much later date than usual. The first rise of sufficient height to close the sluice-gates occurred on May 8th, when the gauge at Matsqui pumping-station recorded 11.85. Contrary to the general action of the freshet during that season of the year, the water then fell gradually until May 14th, when it reached a point 3 feet lower than that recorded on the 8th, and did not rise above that elevation until June 12th, when the gauge-reading was 11.85. From June 12th the river continued to rise rapidly until June 27th, when it reached its maximum height for the season—viz., 20.75 on gauge. This sudden rise was due almost entirely to the melting snow caused by the hot weather which prevailed over the watershed of the Thompson.

The river continued at a high stage, but little below the maximum height, until July 3rd, the water falling gradually from that date until August 19th, when the gates opened.

On account of the light run-off during the early part of the summer, and the unusually heavy accumulation of snow in the mountains and foot-hills, the indications were all favourable for a high flood. That such did not occur was due to the continued prevalence of cool weather over the area tributary to the upper reaches of the Fraser.

The following table shows the maximum freshet heights in the Fraser River for the seventeen consecutive years from 1900 to 1916, inclusive, as recorded at Chilliwack, Matsqui, and Pitt River; also for purposes of comparison that of 1894, the highest flood on record. The datum adopted for these readings is low-water mark in Pitt River near its mouth, and is approximately 6.80 feet above low water at the Sand-heads.

Year.	Chilliwack.		Matsqui.		Pitt River.

STATEMENT SHOWING THE TOTAL AMOUNT OF ASSESSMENTS DUE FOR THE YEAR 1915 IN THE DIFFERENT DYKING DISTRICTS, THE AMOUNT PAID UP TO DECEMBER 15TH, 1916, AND THE AMOUNT OUTSTANDING EACH FOR THE YEARS 1915 AND 1914.

	Chilliwack.	Matsqui.	Maple Ridge.	Coquitlam.	Pitt No. 1.	Pitt No. 2.
Annual charge, Capital Account	$10,000 00	$6,210 28	$6,369 80	$2,899 40	$ 890 77	$ 852 63
Maintenance charge, 1915	4,048 31	4,827 39	4,923 56	3,967 58	1,424 49	1,417 88
Totals for year 1915	$14,048 31	$11,037 67	$11,293 36	$6,866 98	$2,315 26	$2,270 51
Paid prior to Dec. 15th, 1916.	11,892 43	9,062 44	5,726 49	3,962 28	1,916 56	374 71
Net amount arrears for 1915	$2,155 88	$1,975 23	$ 5,566 87	$2,904 70	$398 70	$1,895 80
Net amount arrears for 1914	795 17	167 17	1,226 70	1,163 33	386 89	1,735 08
Total net amt. outstanding	$ 2,951 05	$2,142 40	$6,793 57	$4,068 03	$785 59	$3,630 88

The accumulation of arrears is due to the fact that there were no sales of land for delinquent assessments during the years 1915 and 1916, the statutory tax sales, which are due to be held annually, having been postponed by Orders in Council. This action was taken on account of the general financial depression prevailing, and in order to afford some measure of relief to the land-owners, who represented that the holding of a tax sale under the conditions existing would entail a hardship.

PUMPS.

On account of the unusual amount of rain during the ordinary pumping season—viz., when the sluice-gates are closed through high-water—the cost of pumping was considerably higher than the average. In addition to the work performed during the freshet season, the pumps were required to operate in some of the districts in winter as well. This was particularly the case in Pitt Meadows No. 2 District, where on account of the exceptionally heavy rainfall, and in compliance with a petition from the settlers in that district, the pumps were in operation during portions of each of the winter months, making the total length of time for the season 1,157 hours, which is the principal cause of the increased cost of maintenance in that district for the year 1916 as compared with the previous year, when the running-time for the pump during the season was 277 hours.

Owing to the decayed condition of the Chilliwack pump-house, including the foundations, which had been in existence for about sixteen years, and was not considered safe for use over another season, it was decided to replace it with a new structure. The pump-house was built on a scow resting on timbers supported by piles in the bed of the Semiault stream.

The plant was steam-driven. Before deciding on the new plant it was necessary to obtain information on the following points, viz.: (1.) The difference in cost of re-establishing the steam plant on the original site, and that of placing it on solid ground on the bank of the stream. (2.) The cost of installing an electric plant in lieu of the steam plant, and the best site to adopt.

As a result, it was found that the cost of installing an electric plant would be about $1,600 greater than that of re-establishing the steam plant, and from prices quoted the cost of operating by electric power would be as great if not greater than the cost of operating by steam.

As the existing plant was in good condition, it was decided to establish it on solid ground at the side of the stream, with a corrugated-iron building to replace the old wooden structure.

In response to an advertisement for tenders to carry out the work, the only bid received was from Mr. Samuel Calbick, of Chilliwack, for the sum of $1,773.20. As Mr. Calbick's tender complied with all required conditions and the price was reasonable, it was accepted.

The total cost of the work was $2,347.93, made up as follows:—

Work included in contract	$1,773 20
Force account and material supplied for extra work, not included in contract	181 92
Chilliwack Water Works Co., connecting pumping-station with city waterworks system	65 30
Engineering and supervision	327 51
Total	$2,347 93

After the work had been completed and before it was taken off the contractor's hands, the plant was subjected to a thorough test for efficiency, the result of which was in every way satisfactory.

As the roofs of the two pump-houses and the caretaker's dwelling at Matsqui were in bad condition through the covering having become rotten, tenders for reshingling these buildings were called for. As a result, bids were received as follows: From Messrs. Heggen & Johansen, Matsqui, $349; from Jacob Rust, Matsqui, $235. Mr. Rust's tender being the lowest, he was awarded the contract, the work included in which he completed in a satisfactory manner for the amount of the sum tendered.

Respectfully submitted.

E. A. WILMOT, *Inspector of Dykes.*
