Fort Vaux Has At Last Fallen To The German Forces

Germans Are Still Supressing Details Of Naval Losses

Russian Gains Continue Along Eastern Battle Front

Naval Battle Of Jutland Described By British Paper

A summarized report of the naval battle of Jutland is published in Old Country papers.

Describing the battle the report quoted says:

Whole German Fleet.

"Admiral Beatty, with battle cruisers and supporting battleships, had before him the whole of the German battle fleet, and Admiral Jellicoe still some distance away. The opposing fleets were moving parallel to one another in opposite directions, and but for the master manoeuvering on the part of Admiral Beatty the British advance ships would have been cut off from Admiral Jellicoe's grand fleet.

"In order to avoid this and at the same time prepare the way so that Admiral Jellicoe might envelop his adversary, Admiral Beatty immediately also turned right around 16 points, so as to bring his ships parallel to the German battle cruisers and facing in the same direction. As soon as he was round, he increased to full speed to get ahead of the Germans and take up a tactical position in advance of their line. He was able to do this owing to the superior speed of our cruisers.

Three Vessels Lost.

"Just before the turning point was reached, the Indefatigable sank, probably from striking a mine, and the Queen Mary and Invincible were also lost at the turning point, where, of course, the high seas fleet concentrated its fire. A little earlier, as the German battle cruisers were turning, the Queen Elizabeth had in similar manner concentrated her fire on the

Jury Disagreed In Gosden Case Which Comes Up Next Assizes

Victoria, June 8.—The jury in the Gosden trial has disagreed and has been discharged by the presiding judge.

The jury, it is believed, lined up along political lines. There were nine for conviction and three for acquittal.

The case was traversed to the next assizes.

This trial was the one of Robert R. Gosden for perjury on an information, sworn to by M. A. Macdonald, M. P. P., based on the sworn evidence of Gosden that Macdonald paid him $50 in connection with the plugging scheme of the by-election in Vaincouver.

Before the case closed in the court, evidence of a sensational character was given for the defense.

W. K. Courtenay a well known Victoria barrister, and law clerk of the Legislature, said that on Tuesday after Easter M. A. Macdonald had come to him to ask for an advance on his sessional indemnity immediately after the House arose, but Mr. Courtenay could not make the advance, as only Mr. T. Fell, K. C., clerk of the House, was the one who could make the advance. Mr. Fell was away at that time, so Mr. Macdonald came to him. The incident was not a usual one for him, he said, as Mr. Fell usually received such applications.

Miss A. M. Allen, cashier at the Empress Hotel, produced her petty cash book. By referring to it she was able to say that she loaned Mr. Macdonald $50 on April 25. He repaid the money the next day by paying $100, the balance to go on his account. There was an I. O. U. for the $50 loan and it was returned the next day. She said the money was paid out at about 2 o'clock in the afternoon.

Mr. Macdonald had never borrowed any money from her before, and he could not very well have borrowed from any other official of the hotel, she said.

OFFICIAL REPORT ON LOSS OF HAMPSHIRE

ADMIRAL JELLICOE ACQUAINTS ADMIRALTY WITH FACTS CONNECTED WITH IT

Warship Went Down With Kitchener Not Far From Land.

Admiral Jellicoe's report to the Admiralty, relative to the sinking of H. M. S. Hampshire and the loss of Lord Kitchener follows:

"I have to report with deep regret that His Majesty's ship Hampshire, Captain Herbert J. Savill, R.N., with Lord Kitchener and his staff on board, was sunk last night at about 8 o'clock to the west of the Orkneys, and by a mine or a torpedo.

"Four boats were seen by observers on shore to leave the ship. The wind was north-northwest and heavy seas were runnng. Patrol vessels and destroyers at once proceeded to the spot and a party was sent along the coast to search, but only some bodies and a capsized boat have been found up to the present. As the whole shore has been searched from the seaward I greatly fear that there is little hope of there being any survivors.

"No report has yet been received from the search party on shore.

"H. M. S. Hampshire was on her way to Russia."

PERIOD OF PUBLIC MOURNING TO BE OBSERVED FOR KITCHENER

Ottawa, June 8.—All the officers of the Canadian Forces will wear mourning and all flags on military buildings in the Dominion of Canada will remain at half-mast up to and including the 14th of June, in memory of Lord Kitchener.

GERMANS KEEPING BACK NEWS REGARDING LOSSES IN NAVY

Berlin, June 8.—For military reasons the loss of the battle cruiser Litzow and the cruiser Rostock has not yet been made public, although it is known in official circles that both sank while proceeding to harbor for repairs following the naval fight.

MAJOR HAMILTON GAULT IN CRITICAL CONDITION FROM WOUNDS

London, June 8.—The condition of Major Hamilton Gault is critical. He has gunshot wounds in both thighs and is less seriously wounded in the shoulder.

FRENCH TROOPS DROVE BULGARS FROM POSITION IN GREECE

Saloniki, June 8.—The French and Bulgarian forces are engaged in a violent encounter at Cupa Hill in Greek Macedonia. The Bulgarians are said to have withdrawn.

SERGT. J. NEVILLE BACK FROM FRONT

WELL KNOWN LOCAL MAN RETURNED YESTERDAY AFTER BEING WOUNDED

He Says Major Peck And All The Men From Here Made Good.

Sergt. James Neville, of the 16th Battalion, is home after "doing his bit" at the front. He arrived yesterday dressed in the kilts, which he says he has been wearing ever since they were first assigned to a Highland Brigade. He is well satisfied with that style of uniform. While he looks well, he says he is still suffering from the results of the war. He was injured in the head and also suffers from his heart, which was affected. Private W. Gayner, of Hazelton, accompanied him.

Sergt. Neville says Major Peck has proved himself second to none as an officer. His consideration for his men has given him the respect of all. Sergt. Neville was with him through the fight for the orchard and the house, and he says Major Peck certainly did his work well. The same could be said of Capt. Moore, who was killed there. In fact, he says, all the Prince Rupert boys made good.

The British Columbia soldiers are second to none among the Canadians, which gives them excellent standing. With respect to the attention paid to the wants of the men at the front, he says there is nothing to ask for more.

He has a rich store of experiences at the front and was kept busy all day telling the story.

RECRUITING SERGEANT HERE FOR AMERICAN LEGION

Sergt. Rayner Is Here To Look After Enlisting For The Regiment.

Young men are again given a chance to enlist in the American Legion—the 211th Battalion C. E. F. expects to leave Hastings Park, Vancouver, for Calgary at the end of June.

Sergt. Chas. Rayner, who went overseas with the 72nd Highlanders, 1st Contingent, who is well known in Vancouver for his success in recruiting, has arrived here to attest men for the Legion which will leave for the east. Any man found fit, as soon as he signs up his pay will commence then and free transportation will be given to the camp at Hastings Park, Vancouver. No finer battalion than the American Legion, which is made up to a large extent of ex-army and navy men from the United States, says Sergt. Rayner, who adds:

"Now men it is up to you to join and help your country."

Canadian Casualties Last Week Upwards Of Six Thousand

Ottawa, June 8.—Upwards of six thousand Canadians had fallen last week stated Major General Sir Sam Hughes, Minister of Militia, addressing the 77th Overseas Battalion. The great majority of these, he said, were wounded and were anxious to return to the front.

The London Times correspondent in writing of the fighting at Ypres last week, where the Canadians distinguished themselves says:

"It is considered by competent judges that the character of the bombardment here during the last two or three days represents the high water mark thus far attained on the western front. It certainly has been, and continues to be, of the most terrific severity. It has been so marked as to almost create a new phase in the war. The scale on which guns and ammunition were used is almost incredible, judged by any standard of experience.

"Whatever the outcome of the present fighting may be, you must be prepared to hear that the Canadian losses have been very heavy. As compensation for their losses, the Canadians have the satisfaction of knowing that no troops could have shown finer gallantry than themselves. Their spirit is splendid."

A party of officials of the Granby Company were passengers by the steamer Prince George yesterday. It included General Manager Sylvester, O. B. Smith and E. Davis, the Purchasing Agent.

Russians Continue To Gain Advantages On The Austrian Front

Petrograd, June 8.—The capture of Luisk and also a series of powerfully organized Austrian positions is announced in an official communication.

In addition to the 40,000 Austrians previously captured, there have been 58 officers and 11,000 men captured by the Russians in yesterday's fighting, a large amount of war material was also taken.

Against Turks.

On the Caucasus front, where large bodies of Turks have been determinedly attacking the Grand Duke's army in the vicinity of Ehbinan, the Russian artillery has been successful in stopping the offensive of the enemy.

ARRIVALS OF HALIBUT WERE VERY LIGHT YESTERDAY

Only 22,000 Pounds Was Offered For Sale—The Borealis Went South To Meet Demands.

Only 22,000 pounds of halibut changed hands on the waterfront yesterday, and the greater part of that was delivered by Japanese fishermen, who are filling in the time until the sockeye season opens. There was 17,000 from this source, and 4,000 from the Unity, all of which was taken by the Cold Storage at seven cents a pound.

The schooner Fram with 12,000 is holding over in the hope of getting a higher price. The schooner Borealis, of the New England fleet, arrived with 18,000, but was ordered to Vancouver where there is a shortage of fish.

NAVAL BATTLE.

(Continued from Page One.)

turning point, and destroyed a new German battle cruiser believed to be the Hindenburg. Admiral Beatty had now got round and headed away with the loss of three ships racing parallel to the German battle cruisers. The Queen Elizabeth followed behind, engaging the main high seas fleet.

"The Queen Elizabeth now turned short to port, 16 points, in order to follow Admiral Beatty. The Warspite, jammed her steering gear and failed to get round, and drew the fire of six of the enemy, who closed in on her. One is not surprised that the Germans claim her as a loss, since, on paper, she ought to have been lost, but as a matter of fact, though repeatedly straddled by shell fire, with water boiling up all round her, she was not seriously hit, and was able to sink one of her opponents. Her captain regained control of his vessel and brought her round and followed her consorts.

Skilful Manoeuvering.

"In the meantime the Barham, Valiant and Malaya turned short, so as to avoid the danger spot where the Queen Mary and Invincible had been lost ,and for an hour, until Admiral Jellicoe arrived, fought a delaying action against the high seas fleet. The Warspite joined them about 5:15, and all four ships so successfully manoeuvred in order to upset the spotting corrections of their opponent that no hits of a seriously disabling character were suffered. They had speed superior to their opponents by fully four knots, and were able to draw away from the part of the long line of German battleships, which almost filled up the horizon.

"At the time the Queen Elizabeth was steadily firing at the flashes of the German guns at a range which varied between 12,000 and 15,000 yards, especially against those ships which were nearest them. The Germans were enveloped in mist and only smoke and flashes were visible.

Left Out Of Range.

"By 5:45 half of the high seas fleet had been left out of range and the Queen Elizabeth was steaming fast to join hands with Admiral Jellicoe.

"Now return to Admiral Beatty's battle cruisers. They had succeeded in outflanking the German battle cruisers which were therefore obliged to turn at full right angle to starboard to avoid being headed. Heavy fighting was renewed between the opposing battle cruiser squadrons, during which the Derfflinger was sunk, but towards 6 o'clock the German fire slackened very considerably, showing that Admiral Beattly's battle cruisers and the Queen Elizabeth had inflicted serious damage on their immediate opponents.

Grand Fleet In Sight.

"The Grand Feet was now in sight, coming up fast in three directions. The Queen Elizabeth and consorts now altered their course four points to starboard and drew in towards the enemy to allow Admiral Jellicoe to deploy into line. The Grand Feet was perfectly manoeuvered and the very difficult operation of deploying between the battle cruisers and the Queen Elizabeth was perfectly timed. Admiral Jellicoe came up and fell in behind Admiral Beatty's cruisers and followed by the damaged but still servicable Queen Elizabeth, steamed right across the head of the German fleet.

"The first of the ships to come into action were the Revenge and Royal Oak, with their 15-inch guns, and the Agincourt which fired from her seven turrets with the speed almost of a Maxim gun. The whole British fleet had now become concentrated. They had been perfectly manoeuvered so as to cross the "T" of the high seas fleet, and, indeed, only decent light was necessary to complete their work of destroying the Germans in detail.

"The light did improve for a few minutes and the conditions were favorable to the British fleet, which was now in line approximately north and south, across the head of the Germans. Admiral Jellicoe smashed up three of the German ships, but the mist came down and the visibility suddenly failed, and the defeated high seas fleet was able to draw off in ragged divisions."

M. M. Stephens Notary Public.

NAVIGABLE WATER PROTECTION ACT.

R. S. C. Chapter 115.

The Surf Inlet Power Company Limited hereby gives notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry District at Prince Rupert, B. C., a description of the site and the plans of wharves and power house proposed to be built at the head of Surf Inlet, Princess Royal Island, in front of Lot 40, Range 4, Coast District, B. C.

And take notice that after the expiration of one month from the date of the first publication of this notice the Surf Inlet Power Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works, at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said wharves and power house.

HOW APPENDICITIS CAN BE PREVENTED

Prince Rupert people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, often relieve or prevent appendicitis. This simple mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A short treatment helps chronic stomach trouble. Adler-i-ka has easiest and most thorough action of anything we ever sold. C. H. Orme, the Pioneer Druggist. g-5

WATER ACT.

NOTICE BY THE SURF INLET POWER COMPANY, LIMITED.

NOTICE IS HEREBY GIVEN that on the 18th day of May, A. D., 1916, The Surf Inlet Power Company, Limited, filed at the office of the Comptroller of Water Rights plans and specifications of its works for the diversion of water from Cougar Lake at the head of Surf Inlet, Princess Royal Island, and that duplicates of such plans and specifications are open to inspection at the office of the Water Comptroller at the City of Victoria and at the office of the Water Recorder at the City of Prince Rupert.

The date of the filing of the application in the office of the Water Recorder for the approval of its undertakings was the 24th of February, 1916.

The source of the water supply is Cougar Lake—the point of diversion is at the outlet of the lake and the place where the water is to be used is at the head of Surf Inlet and the locality within which the business of the Company is to be transacted is within a radius of ten (10) miles of the head of Surf Inlet.

Dated at Vancouver, B. C., this 26th day of May, A. D., 1916.

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. Chapter 115.

Robert Cecil Gosse hereby gives notice that he has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of Titles at the Land Registry office at Prince Rupert, British Columbia, a description of the site and the plans of a wharf proposed to be built in the North Skeena Passage, at the mouth of the Skeena River, British Columbia in front of Lot one hundred and seventeen (117), Range five (5) Coast District, British Columbia.

And take notice that, after the expiration of one month from the date of the first publication of this notice, Robert Cecil Gosse will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans, and for leave to construct the said wharf.

Dated at Prince Rupert, B. C., this 27th day of May, 1916. m28-j28

ROBERT CECIEL GOSSE.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

LIEUT. GERALD PETERS OF THIS CITY IS AMONG MISSING

Fred Peters, K. C., City Solicitor, has received from militia headquarters the informaition that his son Gerald is among those missing following the fighting which has recently taken place.

He was a member of the Union Bank staff here, but like the rest of the family of Mr. Peters could not resist the call to arms and left for the front. Recently he received a commission as lieutenant and was so serving. There are reported to have been a number of Canadians captured, and there is a possibility that he is among them.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C., — Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
