ESTEVAN FOUND NO TRACE OF THE ONWARD HO

GERMANY BUSY SOUNDING SENTIMENT FOR PEACE

Contention Put Up That British Ship Is Illegally Held

Great Bodies Of Kaiser's Troops Move Through Belgium

Reported Germany Is Busy Sounding Peace Sentiment

New York, Feb. 19.—A despatch to the Tribune states that un-officially Germany has been exceedingly busy sounding the sentiment regarding peace amongst the Allies. Feelers are being sent out to practically all the countries except Great Britain.

The un-official overtures made to France within the last two weeks led to nowhere.

GERMAN LAID PLOT WAS FEARED AT VANCOUVER

Vancouver, Feb. 19.—At South Vancouver last night, a concert which had been arranged by the children of soldiers and sailors in aid of the Patriotic Fund, was prohibited by the police, who had received word that there was a plot to blow up the Kalenburg Hall while the concert was in progress.

SHIPBUILDING PLANT TO BE ERECTED AT PORTLAND

Portland, Ore., Feb. 19.—The building of a ship-building plant costing a million and a-half dollars for the construction of steel steamships has been announced.

The Williamette and Northwestern Steel Works are behind the project. Orders are on hand for the building of two 8,800-ton vessels just as soon as the plant is completed. It is expected that the dock construction work will employ fifteen hundred men.

Remember the Oddfelolws Leap Year Ball, to be held on the evening of February 29. The proceeds go to aid of the Patriotic Fund.

For Cash, Tite's Home Furnishing prices cannot be excelled.

ROCHER DE BOULE WORKING STEADILY

THE ORIGINAL COMPANY IS OPERATING THE MINE NOW

This Makes No Difference In The Arrangements For Working.

The Rocher de Boule mine is shipping steadily, as has been the case all winter. Last fall the company in charge put in a distillate plant, so that there should be no stopping of the works there should the weather become so cold that the water supply would be cut off. In spite of the very severe winter, the need of working the distillate plant has been very limited and the water supply has been sufficient in nearly every instance.

J. E. Oppenheimer, who is responsible in large measure for the carrrying out of the proposition at the Rocher de Boule mountain, is in the city, on his way south after an inspection of the property. He says that the work is going along very much as usual. The ore bodies are similar to what they have been and the property shows up well.

The operations at the mine are now being carried out by the Rocher

NO TRACE FOUND OF ONWARD HO

STEAMER ESTEVAN OF CANADIAN SERVICE ARRIVED LAST NIGHT

Fruitless Search Was Made All Around Queen Charlottes.

The Dominion lighthouse tender Estevan, Capt. Barnes, arrived last evening at the Marine Station at Digby Island. She has made a cruise about the Queen Charlottee Islands in the hope of finding some trace of the fishing vessel Onward Ho, belonging to the British Columbia Packers' Association, which it is feared has been lost. No trace could be found of her.

The owners of the Onward Ho were of the opinion that the steamer might have been disabled and in a helpless condition been carried out to sea. Skippers of other fishing boats have expressed the same views, and in consequence the Estevan has been conducting her search to the west of the Queen Charlottes.

After covering the whole ground, no trace of the vessel could be found.

Fancy Cups and Saucers, to clear at 25c, 35c and 40c. Tite's The Home Furnisher.

SEVENTEEN TONS OF HERRING IN

W. SELIG BROUGHT A GOOD CATCH AND SOLD TO FISHING BOATS

Will Go Out Again—Expected To Soon Arrive In Harbor Here.

The long expected and hoped for run of herring seems now to be here. W. Selig, who has been untiring in his efforts to get herring, arrived in port yesterday with a catch of 17 tons, taken off Port Simpson. This was at once disposed of to the fishing boats that were in the harbor and ready to get out to the banks. The shortage of bait has been felt all along the coast this season, and it would appear that this is about the only place where herring bait can be obtained.

Capt. Selig will get out again early this morning, in order to get more of the fish, as the demand is at its height.

The Canadian Fish & Cold Storage will take steps to put up a plentiful supply for bait at once. It is expected that the fish will be appearing in the harbor here at any time now.

German Attack On West Front Proved Unsuccessful One

Paris, Feb. 19.—The Germans attempted an attack north of Blangy, in the Artois district, but were repulsed.

MOVING TROOPS.

Amsterdam, Feb. 19.—During the last few days great German troop movements have occurred in southern and central Belgium. Long trains of artillery and infantry have been running along the railroads to the west and the south.

EMBARGO ON FRUITS.

Amsterdam, Feb. 19.—An embargo has been placed on the export of fruits from Holland into Germany.

CUT OFF COFFEE.

Stockholm, Feb. 19.—The exportation of coffee has been prohibited by Sweden.

DENIAL MADE THAT LORD KITCHENER WILL GO TO EGYPT

The report that Lord Kitchener is soon to leave the War Office and is to be succeeded by Lord Derby has been denied in well known circles. It was stated that no changes in the Ministry are being contemplated. It was also denied that Kitchener will go to Egypt in the near future.

Open Wednesdays and Saturdays until 9 p.m. M. M. Stephens.

PRINCE RUPERT LOOKS ALL RIGHT

ROBERT KELLY SAYS HE FINDS CITY BETTER THAN EXPECTED

Paid Visit Also To Anyox, Which Is Making Good Showing.

Robert Kelly, of the firm of Kelly, Douglas & Company, who is now in the city, expressed the opinion last night, that after getting well about the City of Prince Rupert, he was bound to feel very much encouraged with respect to the place. He said that it was better than he had expected to find it and the citizens did not need to complain.

He made a trip to Anyox and spoke well of the signs of industry there. That camp had become a real hive of industry, and was a decided advertisement for this part of the country.

MACDONALD HOTEL MANAGER RESIGNED AFTER TWO YEARS

Putting Up Fight Before Court For The Liner Appam

Norfolk, Feb. 19.—Federal Judge Waddil has issued the usual libel process as to the British liner Appam, seized by the Deputy United States marshall. The counsel for the British owners claims that under the provisions of the Prussian-American treaty, under which Germany claims the vessel, the ship must be brought to port convoyed by a warship, which was not done in the case of the Appam.

PRINCE RUPERT AS A PORT HAS TO BE CONSIDERED

Seattle, Feb. 19.—The transcontinental railroads, having their terminals here, announced today that through fares from Alaskan points to the east have been reduced by $14 to meet the competition over the Grand Trunk Pacific via Prince Rupert.

The railroad companies and steamship lines have agreed to absorb the reduction proportionately.

The officials of these companies have met several times in Seattle during the last two weeks to try and arrive at some arrangement by which the competition of the G. T. P. might be met, but, until today, the railroad companies would not agree to accepting a proportionate share of the reduction.

ONTARIO CITY OF BERLIN MAY NOW CHANGE ITS NAME

The resolution concerning the name "Berlin" adopted by a meeting of 150 representative citizens, held in the City of Berlin, Ontario, was:

"Whereas: it would appear that a strong prejudice has been created throughout the British Empire against the name Berlin and all that the name implies, and whereas, the citizens of this city fully appreciate that this prejudice is but natural, it being absolutely impossible for any loyal citizen to consider it complimentary to be longer called after the capital of Prussia; be it therefore,

"Resolved, and it is hereby resolved, that the city council be petitioned to take the necessary steps to have the name of Berlin changed to some other name more in keeping with national sentiment."

DONATION MADE TO PATRIOTIC FUND BY J. E. OPPENHEIMER

J. E. Oppenheimer, President of the Montana-Continental Development Company, yesterday made a donation of $100 to the Patriotic Fund here. At the time the campaign was conducted here to raise funds for this cause, Mr. Oppenheimer was not in the city. He yesterday got in touch with the organization and very

GRANBY SMELTER IS AGAIN ACTIVE

BLISTER COPPER IS BEING TURNED OUT SINCE WATER INCREASED

For Some Time Matte Has Been Shipped Out To Kootenays For Treatment.

With the change in the weather there is now abundance of water at the Granby smelter at Anyox for the full operation of all parts of the works there. For some time past there has been a shortage of water, and it was found necessary to ship the product of the smelter out in the form of copper matte instead of as blister copper.

The converter is now in operation and the blister copper is going direct to the refinery in the east. The first of the finished product, as blister copper that has been turned out there for some time, was brought south on the last trip of the G. T. P. steamer for shipment east over the line of the G. T. P.

While the matte was being shipped the product went to the Kootenays to the smelter to be finished into blister copper.

Proceeds Of Sale.

The proceeds of the sale of home cooking, held this week for the Red Cross Fund, netted $32.

KEEPING FACTS HIDDEN.

There has been a great deal of unreasonable clamor in British countries about keeping back "the truth" regarding the war. Censorship methods have now and again been fairly open to criticism, but on the whole they have been only what we should expect under the circumstances. How little warrant there is for complaint is brought home when we learn how different the conditions have been in Germany. A former teacher at Upper Canada College, Toronto, Mr. W. A. Neilson, who has been for some years a professor at Harvard, has just returned from Germany where he was acting as exchange professor at one of the universities. The other day he told of the difficulties he had experienced in learning what was actually happening. For instance, the wreck of the Lusitania was reported in Germany as "the sinking of a large English auxiliary cruiser, armed on its upper deck with fifteen big guns." It was always difficult to secure dispatches "their teeth were always drawn before they were published." It was September 29 before Prof. Neilson learned of the battle of the Marne. Is it possible to believe that a people for whom the facts regarding the war have been so skilfully doctored will fight indefinitely with their backs to the wall when once it becomes absolutely clear that the tide has turned against their armies?

Capt. Bill Selig, who for months has been cruising in search of the elusive herring, might now be expected to be happy now that he has located them, but he still has another ground for fear and complaint, and that is that they will not come into the harbor here. He says he knows they are not going to come in.

PROVINCE IS COMING INTO ITS OWN NOW

Professor Odlum Is Optimistic In Regard To Future.

"The world knows that Canada is an Empire," said Prof. Odlum in his address to the Vancouver Chamber of Mines on Friday evening. "She has done better than millions of dollars of advertising would do. She has made a name for herself and is going to take part in the great work of the world."

"British Columbia," he continued, "has a population of about 400,000. Our children will see the time that she will have 4,000,000. The people of the world have seen what her men can do; now they are going to come into the country and see what the country contains. British Columbia should not worry then, for she has the stuff in her."

Up to the present year, he stated, British Columbia has produced $154,000,000 worth of gold; $38,000,000 in silver; $31,500,000 in lead; $87,000,000 in copper; coal and coke, $149,000,000; building stone and such, $24,000,000, and zinc, $2,000,000. He claimed there was a great future for zinc mining in this Province.

Prof. Odlum then went on to tell of the rapid way in which mining was progressing. In 1894 the mining product was $4,227,000. Ten years later it was $18,972,000 and in 1914 it had mounted to the sum of $26,588,000.

ESTIMATED MINERAL PRODUCTION OF 1915

Provincial Mineralogist Submits His Preliminary Review Of The Year.

A preliminary review and estimate of the mineral production of the Province from the pen of W. Fleet Robertson, Provincial Mineralogist, has just been issued from the king's printer's office. This, as Mr. Robertson points out in the letter of submission to the Minister, is a preliminary estimate for the year 1915, with some notes on the progress of the mining and metalliferous industries during the year.

The object of this preliminary estimate and review, he says, is to give, as promptly as possible after the close of the year, an approximate statement of the condition of the mining interests, without waiting for the official returns from the mines, and without the delay that of necessity takes place in the preparation of the detailed information given in the annual report of the Mines Department.

The estimated mineral production of all sorts for 1915 is put at $29,299,584, which is an increase on the total production of 1914 of $2,910,730. On the metalliferous mines the showing is better, as there was a considerable decrease in the coal output. The estimated increase from these mines in the year is $5,105,635. Considering the times, Mr. Robertson remarks, this must be regarded as a very encouraging showing.

The demand for copper, lead and zinc created by the war has much stimulated that branch of mining, and the prices obtainable are very much higher. Mr. Robertson says, however, that these being war conditions and their duration not being known, mines not prepared for production could not expect to profit, and the amount of capital available for development was very slight. The result was that actual producers increased their outputs but few new ones began production, so that the amount of development during the year was less than normal.

The estimated recovery of placer gold was $145,000, practically all in the Cariboo and Cassiar districts, an increase of $180,000, but the production of silver fell off by $255,803, the price having declined by ten cents over three years. The amount of lead produced is estimated at about 45,990,372 pounds, worth $1,917,779, a decrease in quantity of 4,634,676 pounds, but an increase in value, owing to the higher market price, of $145,922.

The amount of copper estimated to have been produced during the year is the largest in the history of copper mining in the Province, being 57,905,488 pounds, worth $10,006,068. The figures for 1912 are the nearest approach, 51,456,537 pounds and $8,408,513. The market price increased steadily during the year, opening at 12.7 cents a pound in New York and closing at 22.25 cents, with an average price for the year of 17.275 cents as against 13.6 cents in 1914.

There was a remarkable increase in the estimated production of zinc, the quantity being 13,817,808 pounds and the value $1,554,503. The highest figures heretofore were 8,500,000 pounds and $400,000 in 1909.

The estimated gross production of coal was 1,960,804 long tons, of which 414,140 tons were converted into coke, the figures showing a decrease on 1914 of 205,624 tons gross and 264,303 tons net. The net coal production will thus be less than it has been for the past eight years. The gross output of the Vancouver Island collieries was 1,009,799 tons, about 62,000 tons less than in 1914.

TAX NOTICE.

Prince Rupert Assessment District.

Notice is hereby given in accordance with the Statutes that all assessed taxes, income and school taxes, assessed and levied under the "Taxation Act" and "Public Schools Act" are now due and payable for the year 1916.

All taxes collectable for the Prince Rupert Assessment District are due and payable at my office, situated in the Provincial Land Registry Building, in the City of Prince Rupert, B. C.

This Notice in terms of law, is equivalent to a personal demand by me upon all persons liable for taxes.

Dated at Prince Rupert, B. C., January 8th, 1916.

C. W. HOMER,

Assessor and Collector for the Prince Rupert Assessment District.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior

Royal Naval College Of Canada.

The next examination for the entry of Naval Cadets will be held at the examination centres of the Civil Service Commission in May, 1916, successful candidates joining the College on or about the 1st August. Applications for entry will be received up to the 15th April by the Secretary, Civil Service Commission, Ottawa, from whom blank entry forms can now be obtained.

Candidates for the examination in May next must be between the ages of fourteen and sixteen on the 1st July, 1916.

Further details can be obtained on application to the undersigned.

G. J. DESBARATS.

Deputy Minister of the Naval Service.

Department of the Naval Service, Ottawa, January 10th, 1916.

YOUR KING AND COUNTRY NEED YOU

85 Recruits Wanted For 102nd Overseas Battalion C. E. F.

Training Camp Now Opened At Prince Rupert, B.C.

WHEN A MAN IS THINKING OF ENLISTING, THERE ARE FIVE QUESTIONS THAT HE WANTS ANSWERED. THEY ARE:

How Long Am I To Serve?

Until the end of the war and six months after, if required.

What Pay Shall I Receive?

Your pay as a private will be $1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.

What Will My Wife Receive During My Absence?

Every month there will be paid her a separate allowance of $20.00 (also a part of your pay), and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.

What Will Happen If I Am Wounded Or Sick?

You will be cared for by the Government and your pay continued until you are discharged. If you are permanently disabled, an allowance will be paid you, varying according to the extent of the injury or disability.

What Will Be Done For My Wife And Children Il I Die On Active Service?

The Government will provide an adequate pension, that will enable the family to live comfortably until the children are old enough to look after themselves. The widowed mother of a single man, if the son be her sole support, is treated in the same way as a wife.

IF YOU WISH FOR FURTHER INFORMATION ASK THE SECRETARY OF THE BRANCH OF THE CANADIAN PATRIOTIC FUND IN YOUR TOWN.

Apply Headquarters Prince Rupert Company, 102nd Battalion, 3rd Ave.

FISH CONTINUES TO COME TO PORT

SUPPLY OF HALIBUT IS KEEPING UP QUITE REGULAR NOW

Good Prices Being Realized Indicate A Shortage Elsewhere.

The supply of halibut continues to be steadily increasing, and before many weeks pass it is expected that the weather conditions will be sufficiently settled to all the boats to get their full takes. Yesterday there were four boats in.

The Panama, Capt. Martin Johnson, brought in 20,000 pounds of fish. The Albatross, Capt. Linvogm, had 30,000 pounds. The Orient, Capt. Leslie, had the same amount as the Albatross. The Eunice brought 12,000 pounds also.

The price of halibut is keeping up well. The prices yesterday ranged around six cents a pound. It is evident that there is not much halibut getting to the market through any of the other ports of the Pacific. Prince Rupert is evidently the fish port of the coast.

MACDONALD HOTEL.

(Coninued from Page One.)

Hotel, has tendered his resignation to D. B. Mulligan, Superintendent of the G. T. P. Hotel System. It is to take effect at once. The letter of resignation read as follows:

February 15, 1916.

Mr. D. B. Mulligan,

Supt. of G. T. P. Hotels,
The Macdonald, City.

Dear Sir,—It is with a great deal of regret that I tender my resignation as resident manager of The Macdonald Hotel, with which I have been connected for nearly two years, to take effect immediately. In arriving at this conclusion I felt that it is the only course left for men to pursue under the circumstances. These are strenuous times and my presence here might be misunderstood.

Before severing my connection, however, I would like to say that the treatment accorded to me by the citizens of Edmonton, and by the company I represent, has been everything one could wish for. In leaving the city I am leaving behind a great many friends, who have been exceptionally kind to me and to whom I have been devoted, and I want to thank them for their never-failing courtesy and consideration.

Very sincerely yours,
LOUIS LOW.

TAKE NOTICE that an application has been made to register Mitchell Albert, of Prince Rupert, B. C., as the owner in Fee-simple, under two Tax Sale Deeds from the Collector of the City of Prince Rupert, to Mitchell Albert, bearing date the 10th and 15th day of September, A. D., 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert, in the Province of British Columbia, more particularly known and described as: Lots One (1) and Two (2), Block Forty-five (45), Section Seven (7), and Lot Thirty-eight (38), Block One (1), Section Eight (8), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be for ever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Mitchell Albert as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"And in default of a cavet or certificate of lis pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 293 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

Dated at the Land Registry Office, at the City of Prince Rupert, Province of British Columbia, this 3rd day of January, A. D., 1916.

H. F. MacLEOD,
District Registrar.

To Celia Chesterfield, John Hagaman, Fred Kuyath. f-19-1-m.

MINERAL ACT.
(Form F.)
Certificate Of Improvements.
NOTICE.

Blue Bird Mineral Claim, situate in the Skeena Mining Division of Cassier District. Where located: On Glacier Creek, Goose Bay, B. C., about 2 miles from mouth.

TAKE NOTICE that I, J. Fred Ritchie, Free Miner's Certificate No. 90,071B, acting as agent for Arthur C. MINING EXCHANGE EDITOR PASSES AWAY

George Sheldon Williams, Well Known In B. C., Dead.

The death occurred at his lodgings, Esquimalt Road, Victoria a few days ago of George Sheldon Williams, who has been associated with newspaper work in the Province for some years past, and was very well known particularly among mining engineers and others associated with the industry. He was editor for years of the Mining Exchange.

Eye Troubles Corrected
Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.
But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.
We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Corner Third Avenue and Sixth Street

Notice! The Latest!
By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.
Now in use and on exhibition at my shop, 139 Second Avenue.

Quality vs. Imitation
The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble
Budweiser
The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.
Budweiser is bottled only (*with corks or crown caps*) at the
Anheuser-Busch Brewery
