ON THE WESTERN FRONT THE GERMANS ARE HELD

Fierce Fighting Is Marking Progress Being Made On Western Front

Paris, June 12.—An official report says:—"In the region of north Arras, there have been artillery engagements today. These were particularly violent on the plateau of Lorette The enemy in that sector sought by continuous bombardment, to impede the organization of those positions, which we have gained from them. Our artillery replied against the trenches, and the batteries of the Germans.

"In the region of Toutvent Farm, the enemy delivered this morning a counter attack, which was easily checked.

"There has been nothing to report on the rest of the front, except an artillery action of a somewhat lively nature, in the sector east of Rheims, on the Perthes-Beausejour front."

CANADIAN RED CROSS IS ACTIVE

FRIENDS OF WOUNDED ARE KEPT INFORMED AS TO CONDITION

Local Resident Received From Hospital In Rouen Information.

There seems to be marked activity on the part of the Canadian Red Cross organization, not only in the way of looking after the wounded, but in notifying friends as to the condition of the wounded.

E. H. Shockley has received a letter from the Canadian Red Cross Society at Rouen hospital in France, giving information relative to one of the first contingent from here, Corporal Salter. The letter is partly printed, leaving spaces to be filled in, and gives very complete information.

It states that he was wounded by shrapnel in the hip; that he is in the hospital at Rouen; and that he is making very good progress.

C. P. R. Steamer From Skagway Called Here South Bound.

Yesterday afternoon the C. P. R. steamer Princess Alice arrived in port from Skagway. She left again in the evening for the south.

The steamer had on board a number of passengers who were making the round trip to Alaskan ports.

Two More Local Men Wounded

The latest casualty lists issued, contain the names of two more of the local contingent that went to the front under the command of Major Peck. These are Donald Yelf and Albert Allett. They were both in the Seventh Battalion. Both of these have their next of kin in England. Don Yelf was well known here. He was about 22 years of age, and had lived here for some years, following the trade of carpenter. A. Allett was a resident of the city for some time. He had just before leaving for the front, opened up an undertaking business in the city.

Montreal, June 12.—Thirty-five thousand more men are wanted to go from Canada to the firing line in France, as quickly as they can be trained and equipped. Major-General Hughes made the announcement here. This new force is to be composed of 27 regiments of infantry and six batteries of artillery. CHET NEFF TO MEET ROUGH-HOUSE BURNS

Seattle Lightweight Signs Articles For Bout At Vancouver Athletic Club.

Chet Neff, the Seattle lightweight, will be the opponent of "Roughhouse" Charlie Burns, the Canadian lightweight champion, at the next tournament at the Vancouver Athletic Club, which will be held on Friday night, June 18. Dan Salt, who handles Neff's affairs, wrote yesterday stating that the terms submitted to him were acceptable, says the Vancouver Province. His first request almost took the matchmaker's breath away, but when it was pointed out that this was wartime, Dan saw the light and was reasonable.

The bout will be the headliner of an all-star card which will bring out all the best of the local boxers. Neff will not be required to make better than 138 pounds, so that it will not be, strictly speaking a championship battle, but it will give a good line on the merits of the pair. They have met several times before and each claims to be the better.

G. H. COLLINS HAS GONE TO INSPECT

HE WILL EXAMINE A MINING PROPOSITION NEAR PRINCE RUPERT

The Location Of The Discovery Is At Present Not Made Known.

George H. Collins, whose work in organizing the Cold Storage plant of the Canadian Fish & Cold Storage Company, is a mining man as well as having wide knowledge of the fishing industry. As many of his friends know, he was engaged actively in mining for years in the Kootenays.

His visit to Prince Rupert this week is in connection with mining enterprises nearly altogether. Last night he started off with one interested in a discovery. The location of the prospect is not made known, and it is questionable whether Mr. Collins himself knows "where he is going, but he is on the way."

ENJOYABLE PICNIC OF PUBLIC SCHOOL CHIDREN

Three Of The Rooms In King Edward School United.

Yesterday the children from three of the rooms in the King Edward school, held a picnic to Tugwell Island. The three rooms are those under the charge of Misses Taylor, McGregor and Mekirson.

In addition to the pupils and the teachers of the rooms, Principal Hunter and Mrs. Hunter, and Mr. Macdonald of the school staff also accompanied the children.

The trip was made by the launch Eleanor Mac, two trips being required to carry all the pupils. The children enjoyed the excursion to the fullest, in spite of the fact, that the day was not the best.

ALLIES ARE PROGRESSING AGAINST TURKS IN GALLIPOLI REGION

London, June 12.—The Allies have captured two hills overlooking Maidos and dominating the forts. There is fierce fighting in the vicinity of Gallipoli. Rumors are current that the Turks have opened negotiations for a separate peace.

Military experts believe that the sharp turn of events in Galicia will prevent any considerable transfer of German troops to the Italian or west front.

HOW ZEPPELIN WAS DESTROYED

DETAILS OF FEAT PERFORMED BY YOUNG CANADIAN AVIATOR

Daring Shown By Sub-Lieut. Warneford In Wrecking German Airship.

The theory is advanced that the Zeppelin which was destroyed by the Canadian Sub-Lieut. with an aeroplane a few days ago was the craft which raided the east coast of England the night before, for the fact that it was in the air over Belgium, between Ghent and Brussels at 3 o'clock in the morning, leads to the belief that it was returning from an expedition, not starting. Dawn breaks early these days, and the huge Zeppelin could be sighted far off, and it is presumed that the craft was headed for her home hangar when Warneford came swinging swiftly under the grey skies.

The Zeppelin, which was flying comparatively low, began to mount at once, but the British wasp was speedier and climbed into the air in long spirals, reaching a position, at length, over the German's vast bulk. From this point of vantage Warneford pierced the Zeppelin's shell repeatedly with his incendiary bombs.

Without parallel in this war or any other is the story which the young aviator will have to relate, for many details of the fight have not yet been told. First came the long pursuit, for, according to the admiralty report, the aeroplane was 6,000 feet up. To reach this altitude would require nearly 20 minutes and the Zeppelin, meantime, could drive forward aproximately 15 miles.

Then followed the manoeuvring for position, and finally the dropping of the bombs, from which the dirigible tried vainly to escape. Minor explosions occurred, and, at last, one of terrific force, and the Zeppelin burst into flames.

At that moment Warneford must have been at close range over the dirigible, for almost simultaneously with the outburst his machinee turned completely over, and for a moment he hung head down, with his monoplane, all control of which had been lost, pitching and tossing in the swift currents of air which rushed up to fill the vacuum created.

Then by a desperate effort Warneford righted his machine far above the earth and planed to a landing behind the German lines. He alighted unhurt, set his propeller going again, and flew off to the west.

Whether the Zeppelin's machine guns or rifles were turned on the aviator is not disclosed, but in order to attain such an advantageous position the British lieutenant must have handled his machine skillfully, for this is an extremely difficult feat. Although the target the Zeppelin presents is extensive it can be lifted by its own buoyancy to a great height, while the pursuing aeroplane has to rise in spirals by the power of its engine alone.

As the flight in mid-air occurred over that part of Belgium held by the Germans hopes are raised in London that the Germans will be forced to move their Zeppelin bases eastward, thus making raids on England more hazardous.

Some of the reports say that the non-combatants killed were two nuns and two orphans, and that others were injured; but a Reuter despatch received tonight says that two nurses and two children were killed and many other injured. All versions agree that the Zeppelin and crew perished, and this seems true as the great craft was struck while more than a mile in the air and must have been a roaring torch before it struck the earth.

Is Business Slow?

It probably serves you right

You are not letting the public know what you have

Advertise!
Advertise!
Advertise!

That is the Solution

That manufacturers should increase their advertising appropriations during a period of business depression and curtail during the years of prosperity, was the opinion advanced by Roger Babson, the financial and business statistician, at a meeting of the Technical Publicity Association, held in New York.

"Directors of your company regard advertising as a luxury to be cut down when business is poor," said Mr. Babson. "They give you orders what to do rather than you giving them orders.

"If you solved this advertising problem in a scientific way you would tell them what to do, the same as their lawyers and their bankers tell them.

"In a year of prosperity they are willing to give you a big advertising appropriation, and when the reaction comes they cut down to almost nothing. Take the big appropriation in the fat years and salt it away for use in the lean years.

"If you all did this the business of the country would move along more evenly; the business boom would be less, and the reaction, the area of business depression, smaller."

"99" destroys accumulations of lint, paper, cloths, hair, slime, grease, vegetables, soap, fruit and many others. It is harmless to fines plumbing.
DON'T ARGUE DON'T PUT OFF TEST IT
This preparation has been so generally successful in clearing drains that it is bought over and over again by those who have tried it, but inasmuch as no on can know the actual condition existing within a pipe, it is absolutely impossible for the manufacturer or the dealer to guarantee the result.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

ing place for the order. The lodge is a growing one, and with a large membership it has been felt that a headquarters of its own would be a decided advantage.

CANADA TO SEND

(Continued from Page One.)

cruited from Vancouver, Victoria and Winnipeg; a second from Ontario and two from the Province of Quebec and the Maritime Provinces.

Two infantry regiments from Alberta, two from British Columbia, two from Saskatchewan, one from Manitoba, two from Winnipeg, two from the London division, four from the Toronto division, two from the Eastern Ontario (the district between Kingston and Ottawa), four French-Canadian regiments from Montreal and the Province of Quebec, including the 57th and 60th Battalions, for which recruiting commenced a short time ago; two regiments from the Maritime Provinces.

The six new batteries of artillery, according to the announcement, will be organized as follows:

One from Eastern Ontario and Quebec; one from the London division; two in the Toronto and Hamilton district, one from the Maritime Provinces and one from Western Canada.

General Hughes stated that the militia department is giving opportunity to officers desirous of attaching themselves to these corps to send in their applications to the district or division officers for a course to further qualify them and that thus no officer will be in a position to state that he has been overlooked; in the meantime, temporary commissions in the Canadian Militia will be grated to eligible men not already attached.

Men will be enlisted for overseas service without being attached directly to any one unit. During the summer months parties will be sent to the various training camps every week, and will then be allotted to corps. The corps will be sent overseas, the Minister stated, immediately as they become efficient and not in order of numbers.

Recruiting officers have been and are being appointed all over Canada in organizing centres. They will act continuously from corps to corps and there will be no cessation in recruiting.

The Minister also stated that in future separation allowances will in the first instance be dealt with by the recruiting officers, the allowances then being paid through the regular channels.
