AT LAST

The Arctic Regions and the Sunny South

Connected by Telegraph — First Wire Goes Through on the 24th inst.

An epoch in the history of this northern extreme of "Greater Britain" was reached this week: the telegraph line between Dawson and the trans-continental line of the Canadian Pacific Telegraph Company was connected. After two years of laborious work the gigantic undertaking has been pushed to a successful termination. The line was thrown open to the public on Wednesday morning last. It is, and will be, one of the greatest aids to the development of the camp from a business stand-point, and as an indication of the utility of the "wires," it is understood that over $200 in tolls were taken at the local office by noon on Wednesday.

It may be mentioned that Atlin has become, from a telegraphic point of view, one of the most important offices on the system. In all long distance telegraph circuits automatic repeaters are required at distances of say every six hundred miles in order to give increased force and clearness to the signals passing between the terminal stations. On the Dawson-Ashcroft line, repeaters of the Weiny-Phillips patent have been installed at Atlin and Hazelton, those at the local office having been recently put up by Mr. Dowling (late of the Bennett office), who has been transferred to the Atlin office and will remain here in charge of these important instruments.

The rates established between Atlin and Ashcroft are $3.50 for the first ten words and 17 cents for each additional word. The cable tolls have not yet been definitely fixed, but it is probable that a rate of 35 cents a word to Ashcroft will be adopted and this, with a toll of 37 cents on the main line, gives a rate of 72 cents a word to all the main centers of Great Britain and Europe. The local rates from Atlin to White Horse Dawson and other interior points are unchanged.

Considering the efficiency of the new service, the rates above named appear to be very moderate, and bear a very favorable comparison with the old rate to the outside, via Skagway.

As an indication of what the new service means to us, it may be mentioned that the International Yacht Race was reported from Vancouver at 4.30 p.m. on the 26th inst., was in the Dawson papers and for sale on the streets at 5 p.m. There is little fear about difficulty about breaks during the winter, as every precaution has been taken.

THE MOTHER LODE.

A Geological Description of The New Find.

Its Magnitude and Richness Without an Equal on the Coast—Development Work Begun.

The country rock from the N.-E. shore of Atlin Lake to a little north of Boulder creek and east and west from McKee to Monro mountain belongs to the magnesian order, principally the hard, green intrusive diorite. This hard diorite seems to be cut diagonally by a belt of soft, decomposed magnesite interlaced by bands of serpentine, the width of this belt has not yet been determined, but its course seems as follows: Beginning at Boulder, it runs south, cutting Birch, crops again at Pine, keeping the valley, down to Stevendyke, where it seems to leave Pine, crossing Spruce in the vicinity of 100 below, and here heads for McKee creek. In crossing the divide from Spruce to McKee, coming from the direction of Boulder, the same rocks may be found and followed across McKee, about 30 above, losing itself in the slate formation, east of the creek.

This mineral bearing magnesite is cut diagonally by quartz veins, which seem to have a N.-E.ly strike and dips 60.20 east. The country rock for many feet on each side of the vein seems to be impregnated with mineral with values in free gold sufficiently high to pay handsomely for milling. So far as the prospecting work has been done on Pine, rich bodies of rock have been shown, and in cross-cutting the ledge matter the extent of the pay has not yet been determined although the cuts have been run some 30 feet. The strike and dip of the new find on Pine is the same as that of the Yellow Jacket and the vein has the same characteristics. Above the Yellow Jacket the same rock has been found carrying values and here seems undoubtedly to strike in the direction of Gold Run. Although no vein has been discovered as yet in this vicinity we believe some will be during the winter while drifting for placer, as quite a proportion of the placer gold taken from Gold Run is sharp, having in many cases the same quartz attached.

One cannot help but observe that wherever a creek has cut through the above-mentioned body of magnesite rich values have been found in the adjoining placer claims, showing plainly that the wear and tear of the water has simply done the milling of the rock, depositing the gold below: v. g. McKee, below Eldorado, Spruce, Pine, etc. New

SATURDAY, SEPT. 28th, 1901.

WE reprint the following from a recent issue of the Vancouver PROVINCE, which speaks for itself and requires no comment:

"Instructions have been issued from Victoria, in consequence of the recent visit of Premier Dunsmuir to Atlin, requesting Gold Commissioner J. D. Graham to cancel certain waterpower rights on various of Atlin creeks.

On Willow creek and other places, in which Mr. Thomas Dunn and other local capitalists are interested, work has been very much impeded this summer because of water rights granted further up the creeks to other persons, and the result is that, while partial cleanups have been satisfactory, it has been impossible to get at the real amount of the returns.

When the premier recently visited the district, the position was explained to him. Earth washed away by the monitors was carried in to the bed of the streams and made it much more difficult for the working of the creek by ordinary placer methods. As a result, Mr. Irving, an engineer, is now on the way in to arrange for the carrying out of a reform."

By telegram, dated the 25th inst, Mr. J. D. Graham received instructions to allow the Sunrise water to be turned on, but, at the eleventh hour, when men, seeing no immediate prospect of accomplishing anything further this year, have pulled out and left camp, the news comes too late, and the damage done, both to the individuals and to the camp, is such as cannot be easily repaired. The presumable policy of every government, "the greatest good to the greatest number," seems to have been sadly overlooked in this instance. The government has gained nothing and Atlin has lost much by the interference or furtherance of strictly personal ends.

THE recent quartz strike, described in our last issue as "The Mother lode," upon further investigation gives us reason to hope that one of the most important mineral discoveries on the Pacific Coast has been made. If the record the Atlin Camp has made for itself in having too much "law," is held in abeyance in this instance, it is safe to predict that a scene of the greatest activity for many years to come will be ours. It would be impossible to predict what that discovery will produce but the indications as described to us suggest that mere words and figures would not convey any idea of a tithe of the richness of the find.

Placer Act, 1901, consolidated, for sale at this office.

NEWS OF THE WEEK

Some Important Deals Consummated.

The Consolidated Spruce Creek Placers Co. Acquire Control of Lower Spruce Creek---The Stevendyke Co. in the Trade.

Some weeks ago it was announced in these columns that Capt. Martin of Spruce creek had sold out his interests on that creek to the Consolidated Spruce Creek Placers Co., Ltd., of Seattle. This week the Company has acquired two and a half miles of the creek, from the falls up, and about 600 acres of valuable bench ground. Most of this bench ground has been prospected and has been proved to be highly auriferous. By the acquirement of the creek leases ample dumping ground has been secured. It is understood that satisfactory arrangements have been made for water privileges, and that surveys, levels, etc., would indicate that the Company's prospects for successful hydraulic operations cannot be beat in the district.

The Manager, Mr. W. M. Brook, accompanied by Mr. C. L. Blackmore, of California, the Company's Mining Engineer, left on Thursday for the outside. The necessary arrangements will be made during the winter towards securing and shipping in the most complete hydraulic plant which money can buy and it is anticipated that work will be in active operation early next summer.

In conversation with Mr. Blackmore, we learn that from the developments carried out this summer, under his direction, it is his opinion that the Company has acquired property on Spruce the prospects of which are away beyond his most sanguine expectations. Mr. Blackmore is a comparatively young man, but before the ground owned and acquired is all piped out, he will be old and gray.

The Stevendyke Hydraulic Partnership, which had considerable interest in the property acquired by the Consolidated Co., has traded all its interest on Spruce creek to the Company, and they now become entirely separate and distinct propositions, with no conflicting interests between them. Messrs. Frank Weir and D. Todd Lees, both well known "stayers" of the camp control the Stevendyke and its consolidations on Pine.

It is to be regretted that the closing down of the Sunrise ditch prevented the Stevendyke Company from realizing on their hard season's work just when the pay was in sight.

The good news was brought to town this week that bedrock had been struck on the hydraulic property of the De Lamare Syndicate, as it is familiarly known, on Boulder creek, at a depth of 45 feet. Unfortunately for this Company, the water supply has become too low to realise on the excellent prospects this season, but there is that

satisfaction in knowing exactly upon what the Company will begin operations next year. The pay on bedrock, from panning, goes as high as $5 to the pan, and the gold is very coarse. When the water was shut down, the pit was cleaned out and a cut of about ten feet made in front of the upper box, when the bedrock was uncovered, about two feet below the level of the sluice. It was intended to have made a clean-up, but beyond possibly one or two riffle sets, this will be left over until spring. Work is now being begun upon the construction of an immense flume to carry the high water next year, so as to protect the workings from damage by the flood. This will entail an outlay of several thousand dollars, but it is deemed absolutely necessary and advisable. There is now no question but this Company will be on a big revenue producing basis from the commencement of operations next season, as the experimental stage is passed and a pay channel, almost without a peer in the country, is exposed and ready to give up its gold to man's enterprise.

We extend our congratulations to Mr. De Lamare and his associates on their having overcome the trying period of "opening up," and getting their property into its now profitable stage.

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897."

(1.) This is to certify that the "Pine Creek Power Company, Limited," established with the object of carrying on the business of a "power company" within the meaning of Part IV, of the "Water Clauses Consolidation Act, 1897," in the Atlin District, Province of British Columbia, and incorporated on the 28th day of June, 1901, has submitted its undertaking to the Lieutenant-Governor in Council for approval, and that the said undertaking, as shown by the documents and plan filed, has been approved, and that the same is as follows:—

To make available water for the working of a large area of placer mining ground which is at present unworkable. Beginning at a point approximately 18,000 feet above the Discovery Claim, on Pine creek, to be known as "point of diversion of water," and proceeding thence westerly along Pine creek to its mouth, and extending laterally on either side of Pine creek so as to embrace the Pine creek watershed; the Sunrise Gulch, Twin Gulch, and the lower portion of Spruce creek below the Discovery Claim, embracing that part known locally as the "Stevendyke."

That for this purpose the Company will require by purchase three thousand five hundred miners' inches of water, to be diverted from Pine creek, using the present channel of Pine creek to the point of diversion, 18,000 feet above Discovery Claim, and thence by ditch and flume along the north side of Pine Creek to and below the Sunrise Gulch, and thence by a system of steel pipe line to reach Pine Creek at and along parts approximately 9,500 feet below the intake, and again at the Discovery Claim 18,000 feet below the intake, and again at Sunrise Gulch 26,000 feet below the intake. To siphon across Pine Creek with a 30-inch steel pipe line approximately 8,000 feet above the Discovery Claim, and thence by ditch and flumes along the south side approximately three miles and to return all of the said water into Pine Creek at an elevation below the intake varying from 85 feet to 400 feet.

(2) And this is further to certify that the Company propose to begin their undertaking by extending the ditches and pipe lines.

(3) And this is further to certify that the amount of the capital of the Company, which will be duly subscribed and paid up before the Company commences the installation of additions, or exercises any of the powers of the "Water Clauses Consolidation Act, 1897," Part IV, in that behalf, is hereby fixed at the sum of one hundred and fifty thousand dollars ($150,000.00), and the further amount of capital to be subscribed and paid up, above the cost of the first mentioned portion in respect of the remainder of the undertaking, before the same is commenced, shall be fifty thousand dollars ($50,000.00).

(4) And this is further to certify that the time within which the said capital, namely, fifty thousand dollars ($50,000.00,) is to be subscribed is fixed at three months from the date hereof, and the time within which the said undertaking and works are to be commenced is fixed at six months from the date hereof, and the date by which all the proposed undertaking shall be in operation is fixed at two years from the date hereof.

Dated this 29th day of August, 1901.

J. D. PRENTICE,
se 28-1m Clerk of the Executive Council.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA PROVINCIAL COMPANY.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Societe Miniere de la Colombie Britannique" has this day been registered as an Extra Provincial Company, under the "Companies' Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in Paris, France.

The amount of the capital of the Company is 600,000 francs, divided into 6000 shares of 100 francs each.

The head office of the company in this Province is situate in the Town of Atlin, and Emile Jaime de Lamare, explorer, whose address is Atlin aforesaid, is the attorney for the company.

The time of the existence of the company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 17th day of August, one thousand nine hundred and one.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The following are the objects for which the company has been established:—

Exploration, options and purchase of all mineral concessions, gold or otherwise, in Alaska and the Klondike, and more particularly in the Atlin District, British Columbia: the development of the said concessions: the option by concession or purchase of all industrial enterprises, commercial or agricultural, the sale or exchange of said concessions or properties; the publication and sale of circulars, reviews or papers treating interesting questions in the above named regions: the organisation of affiliated societies for all undertakings of the above-mentioned nature: the sharing the said societies, or in others to be formed or already existing; the sale, purchase and exchange of all minerals or gold-bearing mineral matter, silver, copper and other metals: the forming of the means of transport of merchandise or passengers in Alaska Klondike and British Columbia: and all other industrial, commercial, agricultural or financial operations which could directly or indirectly be incident to the principal objects of the Society.

Notice.

"SUNRISE" and "SUNSET" Mineral Claims, situated about 2½ miles from Indian Creek.

To D. DARDEN OR OTHER HIS AGENT OR AGENTS:

I, the undersigned, Robert W. Gibbs, part owner of the above mineral claims, hereby give notice to the above-named D. Darden or other his Agent or Agents that I, having purchased the interest of Alexander McDonald in the above claims, do hereby request the said D. Darden to contribute his share of the assessment work done on the said claims, viz: two years' assessment work from the 26th day of July, 1899, amounting to the sum of $205.00. Unless the said amount be paid to me on or before the 10th day of November next I shall proceed, under and by virtue of the powers conferred by Section 4 of the Mineral Amendment Act, 1900, repealing Section 11 of Cap. 45 of the Statutes of 1899.

ROBERT W. GIBBS.

Atlin, B. C. August 17th, 1901. 3m

NOTICE.

"ANNA MABEL" and "VICTORIA" Mineral Claims, situate about 3½ miles north of Atlin.

To J. S. FERGUSON OR OTHER HIS AGENT OR AGENTS:

I, the undersigned, Patrick Donovan, part owner of the above mineral claims, hereby give notice to the above named J. S. Ferguson or other his Agent or Agents, that I do hereby request the said J. S. Ferguson to contribute his share of assessment work done on the said claims, viz: one year's assessment work from 11th August and 8th September, 1900, respectively, amounting to the sum of $200. Unless the said amount be paid to me on or before the 23rd day of November next I shall proceed, under and by virtue of the powers conferred by Section 4 of the mineral Amendment Act, 1900, repealing Section 11 of Cap. 45 of the Statutes of 1899.

PATRICK DONOVAN.

Atlin, B. C., August 24th, 1901. Au24-3m

ATLIN, BENNETT AND CHILKAT MINING DIVISIONS OF CASSIAR DISTRICT.

NOTICE is hereby given that a Court of Revision and Appeal, under the provisions of the "Assessment Act," will be held at office of the Government Agent, at the Town of Atlin, in the Atlin Mining Division, on Friday, the twenty-seventh day of September, A. D., 1901, at the hour of ten o'clock in the forenoon, for the purpose of hearing all complaints against the assessment for the year 1902, as made by the Assessor of the Atlin, Bennett and Chilkat Mining Divisions.

THE MOTHER LODE.

Continued from page 1.

it would seem to us that there is no reason why the gold should not be in the rock not cut by the creek. If this contention holds good we may soon look for the day when we will see one continuous line of stamp mills running from Boulder to McKee creek.

Induction Services Will Be Held in St. Andrews' Church Tomorrow.

The Rev. Mr. Russell arrived in town this morning from Bennett. The Rev. Mr. Wright of White Horse accompanied him.

Mr. Russell succeeds Mr. John Pringle as Pastor of St. Andrews' Presbyterian Church and will be inducted tomorrow. Mr. Wright will conduct the induction services. We are pleased to welcome Mr. Russell to Atlin and trust that his life in Atlin may be a pleasant one.

OVER THE WIRE.

VANCOUVER, B. C., Sept. 1901.—Opinion, both British and American, crystallizes into belief that Shamrock II. will fail to lift the cup. She is clearly outsailed under light airs, while the Columbia demonstrated that a half gale suits her to perfection. Yesterday's incompleted race resailed tomorrow over fifteen miles out and return course.

"Islander" inquiry developing sensational testimony under vigor of E. V. Bodwell, K. C., for Dominion Government. Several witnesses yesterday and today declared that Capt. Foote was intoxicated when he relieved Pilot Leblanc. Investigation promises to produce official action towards insisting on greater precautions being taken for the safety of passengers in the future.

Venezuelan – Columbian affairs have reached such a stage that Venezuela will formally declare tomorrow.

SPECIAL, Sept. 28.—Today's race was a great one. Excitement at fever heat. The Shamrock passed the flag five seconds ahead of the Columbian, but lost on time allowance.

NOTICE.

"ROCK OF AGES" Mineral Claim, situated at Discovery Camp, Pine Creek.
