BUILDING MATERIAL TENDERS ARE INVITED

The Vancouver and Districts Joint Sewerage and Drainage Board are inviting tenders for the supply of sand, gravel, brick and cement. Notice of tender appears on page 4.

FIRES

It is understood that repairs will be made immediately to the building occupied by T. A. Walsh & Co., at 7 Alexander street, which was destroyed by fire Thursday night. Johnson & Reeve, 407 Hastings St. W., are the agents for the property.

THREE SCHOOL BUILDINGS ARE TO BE ERECTED SHORTLY

Tenders will be called for soon by the school board for the erection of three temporary school buildings. A four-roomed school building will be erected at Laura Secord School, a one-room building at Florence Nightingale School, and a two-room building at the Macdonald School. As soon as the plans are completed a notice of same will appear in the Record.

EXTENDING WATER SERVICES

Several extensions to the city's water services in residential sections of the city were approved by the civic water committee at its meeting last Tuesday. One instance was where a gap of some 300 feet existed in the main in the 800 block on Fourteenth avenue west. In order to provide a couple of new houses in that block with water service, a 300-foot extension of 2-inch pipe was authorized, to cost $135. A number of residents on Howard street, between Tenth and Eleventh avenues, who had been temporarily deprived of water through their small main getting choked up with a deposit of oxidized clay, had the trouble remedied by the city engineer ordering the small pipe to be replaced with 2-inch, at a cost of $90.

FEDERAL BUILDING PROPOSED FOR TRAIL

TRAIL.—Last week's decision by the Trail Board of Trade to make an active campaign for the erection of a federal building in this city—now that the war is over and the readjustment period is beginning, when it will be public policy to give work to returned soldiers and others—was right in line with what many persons have been wishing for a long time. The time has arrived for a government building in Trail, and if the people will back up the board of trade in their efforts for it, it will be one improvement that should and will take place during the year 1919.

PERMITS OF LARGEST CITIES

Building permits issued by the largest cities of the country for the past year were as follows:

New York	$49,743,873
Chicago	34,792,500
Cleveland	16,385,800
Detroit	18,194,145
Pittsburg	15,452,670
Seattle	10,899,000

INSTITUTE MAKES VERY TIMELY SUGGESTION

At last Tuesday's meeting of the civic board of works a communication was read from the Architectural Institute of British Columbia drawing attention to the encroachments made on public property by many residents in various parts of the city. The most common form of these encroachments, as pointed out by Secretary Fred L. Townley, of the Institute, was that of enclosing the parking strips or boulevard on either side of the cement sidewalks in many streets in the residential sections without permission to do so. In other cases makeshift fences were put up to protect boulevard lawns and left standing long after the grass had grown to the stage where it did not need protection. All these instances, it was pointed out in the communication, tended to reduce the available space for children to play in. Consequently many children were forced to play out in the roadways, to their own imminent danger as well as that of motorists and vehicle drivers generally.

The communication was referred to City Engineer Fellowes for report at the next meeting of the board. It is understood that action in regard to these practices had been suggested by city hall officials several times in the past. The city engineer's department is already reported to have a list of encroachments made without any permission.

NEW COUNCIL TAKES FIRM STAND ON OLD BUILDINGS

Judging by the action of the civic health and building committee of the city council at its initial meeting of the year last Monday, the new city council intends to take a firm stand now in regard to the utilization of various old buildings in the city which have not only long since outlived their usefulness, but also no longer comply with the provisions of the city's building bylaw. The new city council had a chance to show its readiness to back up the city building inspector and other departments concerned when a second application was made by the owners of the old laundry building at 733 Powell street for permission to use the premises for a laundry. The application had previously been turned down by City Building Inspector McKenzie, and the 1918 council endorsed his stand on the matter.

In his second report on the building in question, in reply to the renewed application of the present owners, the British America Trust Company, Building Inspector McKenzie stated that the building did not comply with the present building bylaw in regard to structural and sanitary require-

OFFICIAL ORGAN
The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada, and The Engineering & Technical Institute of British Columbia, and as such is used by them as the medium through which to make their official announcements to the general public.
By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

A NATION QUITS WORK

The experience of Russia under her present anarchistic existence is showing, as perhaps has never been seen so vividly in the world before, the fallacy of stopping the production of wealth. There we see a nation that has quit work. There has been a general walk-out, and somebody has plugged the whistle. In many cases this did not seem sufficient, so the former employer has been shot and the factory burned. Now there is no place to work, no work to do, and no one knows how to find work and organize it.

It does not pay to throw the captain and mate overboard unless someone aboard can navigate the ship. We must all keep sailing along in orderly fashion or the world will starve to death in the mid-ocean of life, much the same as Russia has prospects of doing right now unless the Allies at the peace conference can agree on some rapid-acting measure of relief.

Surely with the assurance dawning of peace among the nations, we are not going to be such fools as to cut one another's throats at home!

MINING

Rock Candy operations on the North Fork, eighteen miles from Grand Forks, are now employing 82 men, and good progress is being made in development work, according to Supt. D. Matheson.

The tram line being built by the company to convey the ore from the mine to the bunkers for shipment, is now nearing completion and will be ready for operations next month. At the bunkers a mill is being built for the purpose of grinding the ore to almost flour-like consistency, in which form it will be shipped to the various chemical plants.

The site of the mill is about two miles north of Lynch creek, to which an extension of the Kettle Valley railway is now being built. Work on this railway is now making good progress, a bridge across Lynch creek now being built and the right-of-way got in readiness, though it will take a couple of months at least to put the extension in shipping shape.

BUSINESS ITEMS

B. C. INCORPORATIONS.

During the past week certificates of incorporation were granted to the undernoted concerns: British American Land and Trading Company, Limited, capital $25,000, head office at Victoria; Howards, Limited, $50,000, Vancouver; Railway Porters' and Waiters' Association, $10,000, Vancouver; Sterling Oil Company, Limited, $250,000, 000, Vancouver; Dairy Products, Limited, $100,000, Vancouver; Firs, Limited, $15,000, Vancouver; Pioneer Water Power Development Company, Limited, $50,000, Vancouver; Ocean View Development Company, Limited, $25,000, Vancouver; Sam Scott, Limited, $50,000, Vancouver; Scandinavian Press, Limited, $25,000, Vancouver.

PRICES LOWER

Slight reductions in the price of lumber and Manila rope are noted in the building trade today. Lumber now quoted at $17.50 per M, is reduced from $19.50, in December, while the price per pound of ¾ to 1½-inch Manila rope has dropped 10 cents, the price today being 24 cents, as compared to 34 cents December 18. Wood paving block, 16-lb. treatment, has been withdrawn from the market. Prices on cement, sand and gravel, paving and common brick, sewer pipe and hollow building tile remain the same as last month.

SHIPPING AND FOREIGN TRADE

CONSTRUCTION NOTES OF INTEREST FROM CHILE

Harbor Works, Valparaiso

According to the official report of the government director of the Valparaiso harbor works in construction, considerable progress has been made during the past month of October, in the Punta Duprat mole, the custom house wharf, the drainage collector, the government pier, the mooring wharf and sea wall.

During the year the contractors, Messrs. Pearson and Son, has produced 363,640 tons of concrete. The total amount of work done to date amounts to a value of $16,876,214.24 gold of 18d., or say 52.14 per cent. of the total value of the contract.

A bill is before Congress soliciting power to "authorize the president of the republic to contract by public tender, in conformity with the designs and conditions prepared by the Coromission de Puertos, for the termination of the breakwater of the port of Valparaiso together with the complimentary works.

Tenders are to be invited in Chile and abroad, within the next six months. The contract is not to exceed £1,170,000 sterling.

Sea Wall at Coquimbo

The government is asking for tenders for the construction of an esplanade and sea wall at Coquimbo, of reinforced concrete.

This is a portion, 120 metres in length, to fill the gap between the existing wharf and the Tenkin pier. The depth of water here is 4½ metres. The cost is estimated at $369,000.

Government to Buy a Railway

The government is petitioning Congress for the sum of £1,800,000 sterling, for the purpose of buying out the interests of the English company in the line in course of construction from Lebu to Los Sauces, and the subsequent construction of the Port of Lebu.

The minister of war is offering a troop of 300 sappers for assistance in the railway completion works.

Construction of a Port at Constitucion

A group of deputies are energetically pushing forward a bill in Congress, to authorize the construction of the Port of Constitucion, together with the necessary regional railway lines to complete the zone of attraction.

Amongst these latter are the following: Prolongation of the Hualane to Lincanton line to Constitucion; union of the Curico to Hualane with that of San Fernando to Pichelemu, connecting the stations of parranol and Perallilo; and the construction of the lines from Curico to Lo Quenes, towards the east of Curico. These will be all one-metre gauge. It is also proposed to lay a light railway from Lincanton to Las Juntas, for the service of Las Salinas.

FOREIGN TRADE OPPORTUNITIES

Additional information regarding these inquiries may be obtained from the Secretary of the Board of Trade, Vancouver, or upon application to "The Commercial Intelligence ranch of the Department of Trade and Commerce, Ottawa."

Correspondents are requested to quote the number of the "opportunity" when asking for additional information. Renest for each opportunity should be on a separate sheet and state opportunity number. The Bureau does not furnish credit ratings or assume responsibility as to the standing of foreign inquiries; the usual precautions should be taken in all cases.

LATEST ENQUIRIES.

The following inquiries are the latest received. For rapid perusal the reader may know at a glance items of interest by noting the class of goods mentioned at the end of each inquiry.

IMPORTANT—Quote the number of the "Opportunity" in your correspondence.

37. Box and Willow Calf.—A firm of London leather merchants wish to get in touch with a Canadian manufacturer of box and willow calf.

38. Representation in the United Kingdom.—A British firm of manufacturers' representatives, with headquarters in London and arrangements for the marketing of goods throughout the United Kingdom, wishes to get in touch with Canadian manufacturers of the following articles, with a view to representing them as sole agents, either on a commission or buying basis: Malleable iron iron steam fittings, electrical plant and equipment for all purposes, including shipbuilding, brass fittings, pumps, forgings, machine tools, etc., tools of all kinds, wood manufactures, chemicals, household laundry machinery, toys, metal fittings for fancy goods.

39. Representation in the British West Indies.—A former official of the British Guiana government, who has lived in Canada for some years, proposes to make a business trip through the British West Indies and would like to represent Canadian firms.

40. A Jamaican commission agent, located at Kingston, wishes to represent Canadian manufacturers of all lines of manufactured goods.

41. Agencies.—A leading firm of St. John's, dealing in lead, tin, zinc, and manufactures thereof; galvanized iron, sheet iron, trunks, axe and pick handles, etc., spices, jellies, coffee, and other standard grocery lines, tweeds, hessian, etc., desires communication with Canadian exporting firms of these commodities.

42. Agricultural Machinery.—A farmers' co-operative society operating in the Transvaal, are prepared to purchase from Canadian manufacturers gang plows, harrows, drag, cultivators, planters, mowers (cutting only, not binding), shellers and graders.

43. Canned Fish, Fruit and Vegetables.—A French agency would like to secure the representation of Canadian exporters of canned fish, canned fruits, and canned vegetables.

44. Asbestos.—A French commission house would like to get in touch with Canadian exporters of asbestos.

FACT vs. FANCY

PAINT AND PROMISES SELL MANY A MOTOR TRUCK; but PERFORMANCE, rather than APPEARANCE, is what counts in the wear and tear of the daily grind. Paint soon fails to cover up defective construction, and promises have never yet PAID a single repair bill.

LITTLE GIANT MOTOR TRUCKS

are built not for looks but for service—not merely to JUSTIFY but to SURPASS our claims.

LITTLE GIANT TRUCKS are sold in every case where superiority is tested point by point in comparison with other trucks.

The fact that 72% of LITTLE GIANT sales last year were re-sales to satisfied customers is the final proof.

Don't take our word for it—ask LITTLE GIANT owners about the dependability, economy and efficiency of LITTLE GIANT TRUCKS.

INSIST UPON RECORDS OF PERFORMANCE, NOT PROMISES OF PERFECTION.

We guarantee 50% lower operating cost than any other Truck on the market. We vaporize the fuel and Thermo syphon steam into the cylinders.

Your service work on LITTLE GIANT TRUCKS is done every month at night at no Cost to you.

ments for a laundry. It had been originally built for a small laundry many years ago, before there were any very stringent requirements as to buildings erected in No. 1 fire limits. The building at present could not be made to comply with the regulations for a laundry structure, Mr. McKenzie stated, consequently he had been advised by City Solicitor Jones to "assume that the building was no longer fit for laundry purposes."

This ruling of the city solicitor and the recommendation of the city building inspector that a permit be refused for a laundry, was endorsed by the aldermen without any discussion or a dissenting vote. As further evidence of their stand on such matters, the aldermen declined to hear a representative of the owners who was present.

It is understood that a similar stand will be taken by at least a majority of the present council in regard to further extensions of special permits for various old buildings in the city being used for sundry purposes in contravention or evasion of the cit ybylaws. While every allowance was made during war times for the financial stringency and the general disinclination to start any work that would detract from war-winning energies, the aldermen consider that time is past now and there is no longer any excuse for allowing these old buildings to be used for such purposes when they do not meet bylaw requirements.

VANCOUVER AND DISTRICTS JOINT SEWERAGE AND DRAINAGE BOARD

Section No. 8

Tenders are invited for the supply of the following materials:

Gravel, cubic yards	1,200
Sand, cubic yards	750
Bricks	75,000
Cement, barrels	2,500

All tenders must be submitted on or before January 31, 1919, on forms which, together with specifications and conditions, can be obtained from A. D. Creer, engineer to the board, 409-410 Credit Foncier Building.

The right to reject any or all tenders is reserved.

W. HOGG, Secretary-Treasurer.
401 Credit Foncier Building, Hastings Street West, Vancouver, B. C.

PUBLIC WORKS OF CANADA
BRITISH COLUMBIA DREDGING FLEET

Sealed tenders will be reecived by the undersigned until 4 p.m. on Friday, February 7th, 1919, for repairs and general overhaul of the Departmental Dredge No. 303 ("Fruhling").

Each tender must be sent in in a sealed envelope, endorsed "Tender for Repairs to Dredge No. 303 ("Fruhling.")

Specifications can be seen at the office of A. F. Mitchell, Esq., Acting District Engineer, Victoria, B. C., and at the office of C. C. Worsfold, Esq., District Engineer, New Westminster, B. C., and at the office of the undersigned, 710-713 Birks Building, Vancouver, B. C.

Each tender must be accompanied by an accepted cheque on a Chartered Bank, payable to the Honorable the Minister of Public Works, equal to ten Per Cent. (10%) of the amount of tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the contract. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
F. H. SHEPHERD,
Superintendent of Dredges.
Department of Public Works, Canada,
Vancouver, B. C., January 22nd, 1918.

The regular January meeting of The Architectural Institute of British Columbia will be held at 1019 Metropolitan building, Tuesday, January 28th, at 1:00 p. m.
