VOLUNTEERS WANTED.

If you have not pledged your subscription to the Victory Loan—GO NOW to your bank or Victory Loan Headquarters and sign your application blank. It will bring COURAGE to our boys, DEFEAT to our enemy, HONOR to your town, and DISTINCTION to ourselves.
If you need inforatimon or details—come and get them. EXCUSES ARE NOT IN ORDER.

This space is devoted to this use by Shilvock Brothers.

CALL FOR TENDERS SOON FOR WHARF AT CLAYQUOT

Extensive additions and improvements are now being carried out at Clayquot to the wharf, saltery and curing plants of the Clayquot Cold Storage and Canning Company, which was recently acquired by the Defiance Packing Co., A. H. Sherman, manager of the Defiance Packing Co., announced to the Record yesterday that his firm proposed to spend a total of $150,000.000 in the extensions to the wharf and additions to plant. The principal item in the way of improvements was a new wharf, 250 feet long by 40 feet wide and of extra solid construction. It was intended to call for tenders for the construction of this wharf in a short time now. Meanwhile the other improvements are being or will be, carried out by day labor.

Chief among the other improvements to the Clayqout plant is a new saltery and curing factory which will cost about $50,000. The capacity of the existing cold storage plant there will also be doubled at a cost of about $35,000. Several smaller buildings for additional members of the staff and employees will also be erected.

NEW DOCKS TO BE PACIFIC TERMINALS OF NATIONAL LINE

VICTORIA—Victoria is on the eve of extensive port developments. The future disposition of the Outer Harbor Docks, it is said, is now being determined by the Dominion Government, the prediction being that the new harbor scheme sheltered by the breakwater at Ogden Point is to become the Pacific Ocean terminals of the Canadian National Railway System.

The pending developments are taken to be the outcome of the recent investigations of Dominion Cabinet Ministers while on the Coast. The scheme of government operated docks ahs become more definite since the Canadian Northern Railway system came under the control of the Dominion Government.

AWAITS FILLING IN TO START PLANT AT MARKET

There are other people besides the city council and the residents in the vicinity of what was formerly the upper basin of False Creek who are getting decidedly impatient at the tardiness of the federal government in completing the filling in operations at the head of False Creek, now that the Canadian government has taken over the Canadian Northern Railway. And one of the most impatient individuals over this delay is A. H. Sherman, lessee of the city market, who is under contract with the city to erect a fish cold storage plant in the rear of the city market. The projected cold storage plant, specified in the agreement, must cost at least $30.000, but Mr. Sherman has decided to considerably enlarge the original plans and will erect a plant that will cost at least $60,000. and have a capacity of about 1,5000,000 pounds of fish.

The non-completion of the sea wall with the consequent delay in the completion of the filling in operations behind the much-fought-over sea wall is preventing Mr. Sherman from starting work on the big cold storage plant. The foundations for the plant cannot be very well put in and any superstructure erected on them until the filling in has been brought up to grade under the rear portion of the city market property where the new plant is to be erected. Mr. Sherman is anxious to get the plant completed this winter so as to have it ready for fish storage as soon as the warm weather comes again. In fact, he needs the cold storage facilities for fish at the market right now, and has been anxiously enquiring from the civic authorities when the government is going to live up to the long overdue contract which it took over from the C. N. R.

FIRE LOSS IN CANADA.

Toronto—The Monetary Times estimates Canada's fire loss during October, 1918, at $5,119,145, compared with the September loss of $917,286, and $704,605 for October, 1917.

WILL BUILD THIRTY NEW HOMES

SEATTLE—A contract has been awarded to Contractor E. W. Baeder, 1410 Minor Ave., by the Mutual Construction Co., Central Bldg. for the construction of 10 four-room modern colonial cottages at 33rd Ave. N. W. and Elmore St. near the Lawton school from plans prepared by Architects Ivey & Riley, Boston Block.

The homes will cost $2,300 each and Contractor Baeder will begin construction work at once. Architects Ivey & Riley are now planning the second group of 10 homes upon which bids will be accepted when plans are completed. It is proposed by the Mutual Construction Co. to build 30 new homes in all in this locality before spring.

NOW RESPECT "SCRAP OF PAPER"

The war is over—and WON. There is not the remotest chance for disorganized and beaten Germany—once possessor of the greatest war machine in history—ever even attempting to resume hostilities after the signing of the armistice at midnight last Sunday night. The mandatory, crushing terms of that same armistice so completely preclude any possibility of Germany attempting to continue the the war that even if the official peace negotiations are not yet even commenced, it is safe to say that peace has once more come to this war-torn sphere after over four years of strife such as this earth had never known. And if any further assurance were needed that real peace is here at last—except for such action as is necessary to restore order in revolution-torn Germany, that may be safely left to Marshall Foch, the world's master strategist and victor in the most titanic contest that mankind has ever waged.

(Continued on Page 4.)

Mining News

There has been no official announcement from the Consolidated as yet, although general credence is given the report. With two big companies operating on Copper Mountain with one and probably two concentrators, and with the present development of the district in coal mining, gold and platinum and mixed farming, the Princton area seems destined to a very bright future.

Big things have been expected as a result of the Copper Mountain development of the Canada Copper Corporation, but with two companies working near Princeton, it is reasonable to suppose that the future of the town will assume considerably greater importance than had been supposed. The Consolidated company has not been doing much in copper mining in the past, and apparently the Voigt purchase marks its first extensive step in this direction. In view of the fact that the K.V.R. spur to Copper Mountain is to run through the Voigt property, it can be seen that this expensive branch line will serve a double purpose of affording transportation facilities for both properties.

SHIPBUILDING AND MARINE NEWS

YEARLY REPORTS.

Todd Shipyards Corporation has issued its report for the year ended March 31, 1918, which shows surplus after war taxes, interest charges, depreciation and sinking fund reserves, of $3,943,237, equal to $44 a share on 89,470 shares of capital stock.

The consolidated balance sheet showed total assets of $32,425,149, of which $1,404,150 was cash on hand. The company also has $1,617,565 invested in Liberty Bonds and $57,494 in marketable securities. Consolidated income statement follows:

Net earnings for operation	$11,998,550	
Dividends on capital stock	626,290	
Interest charges	$481,491	
Depreciation reserve	722,553	
War tax reserve	5,865,461	
Sinking fund reserve	985,809	8,055,313
Surplus		$3,943,237
Balance		$3,316,947

PORTLAND TO BUILD A LARGE DRY DOCK

PORTLAND—The charter amendment that will allow Portland to bond itself in the sum of $5,000,000 with which to improve the harbor, was passed by an overwhelming majority. Among the improvements contemplated is the building of a 12,000-ton dry dock, the enlarging of some of the piers already built, and the erection of coal docks. Only such portions of the bonds will be sold as are needed from time to time.

NEW WORK -- CONTRACTS LET

AT YOUR SERVICE.

If you want to reach the man who buys Building Materials, Machinery, Hardware, Electrical and Plumbing supplies, Motor Trucks, Iron and Steel, etc., it will pay you to be represented in the British Columbia Record.

The British Columbia Record is the only building and construction newspaper in British Columbia consulted every other day by Contractors, Engineers, Architects, Building Material Dealers, Shipbuilders, Lumber Mills, and Mining Companies.

REVAMPING OF OLD CARS WILL PROVE PROFITABLE

There is certain to be much work for automobile distributors and dealers with complete service stations during the coming winter—work that will have to do with the overhauling of old cars to make them do for another year.

It would be useless to hazard a prediction on what will be next year's motor production—it would be only a guess.

Motor car makers volunteered to cut 50 per cent. but the war industries couldn't accept this figure. Probably the government will name a maximum of 25 per cent of the 1917 figure. This is an assumption only, however. It isn't unlikely that when the whole thing is threshed out Uncle Sam may permit 32 per cent.

As a sample, it is said Ford officials state that the output is still 700 cars daily, this being about 25 per cent. of normal production.

Car Shortage Sure.

It may be put down in black and white that there will not be enough cars to go around, and it may be certain prices are to mount as metal prices increase and production decrease. So people are forced to conserve if they still want to ride.

Soon the purchase of new cars by those who already have good ones will not be likely for many reasons, main among which is the fact that new cars cannot be obtained in many parts of the country and shortly will be unobtainable to any marked degree, and particularly so should the war industries board shut down on automobile manufacture except on a limited basis.

Steel the Trouble.

Unfortunately the high grade steel—alloys, chrome-nikel and others—most used by motor car makers are those most desired by the government. Of these high grade steels the automobile industry uses a large portion, and it is these materials the war industries board does not feel it can spare for the manufacture of motor cars.

Of other steels the motor car makers use less than 5 per cent, and it has been pointed out that the steel makers are reported to have reached only 95 per cent. of their capacity. The question has been asked regarding that other 5 per cent and its application to the motor car manufacturing trade, but that is not the steel that is real short today.

Must Use Old Cars.

However, the situation will require continued use of old cars until they are totally unfit for use, and cars will last longer when regularly overhauled. The service stations of the large distributors and working facilities of many dealers must be utilized for the making over of these cars at a profit. Used cars taken in purchase or trade will provide profitable work for the people who will take up this work and they will be doing their bit by undertaking the work, and in that way aiding the people to continue their motoring.

CARBURATOR TROUBLES

When the engine runs jerkily the obvious cause is carburator trouble. To locate the trouble prime the carburetor and watch for dripping. If there is no dripping the trouble lies between the tank and the float valve. If there is free dripping, the trouble may be looked for between the float valve and the engine cylinder.

Little Giant Trucks

FACT vs. FANCY

PAINT AND PROMISES SELL MANY A MOTOR TRUCK; but PERFORMANCE, rather than APPEARANCE, is what counts in the wear and tear of the daily grind. Paint soon fails to cover up defective construction, and promises have never yet PAID a single repair bill.

LITTLE GIANT MOTOR TRUCKS

are built not for looks but for service—not merely to JUSTIFY but to SURPASS our claims.

LITTLE GIANT TRUCKS are sold in every case where superiority is tested point by point in comparison with other trucks.

The fact that 72% of LITTLE GIANT sales last year were re-sales to satisfied customers is the final proof.

Don't take our word for it—ask LITTLE GIANT owners about the dependability, economy and efficiency of LITTLE GIANT TRUCKS.

INSIST UPON RECORDS OF PERFORMANCE, NOT PROMISES OF PERFECTION.

We guarantee 50% lower operating cost than any other Truck on the market. We vaporize the fuel and Thermo syphon steam into the cylinders.

Your service work on LITTLE GIANT TRUCKS is done every month at night at no Cost to you.

(Continued from Page 2)

It is doubly pleasing too, amid all the rejoicing that has followed such a momentous event, to consider that the very nation that so contemptuously ignored national treaties as a "scrap of paper," were only too glad to come, hat in hand, broken, beaten, bleeding and disorganized on land and sea, humbly begging the Allies to grant them the respite and relief that would come with the signing of a "scrap of paper." Marshal Foch and his fellow-fighters have nobly done their duty. It can be safely left to the statesmen of the Allied countries to see that the terms of the "unconditional surrender" are carried out as they should be.

TENDERS INVITED.

Architects Gardiner & Mercer, 827 Birks Bldg., are asking for tenders for piling, caping and decking of a wharf, 63x62 ft., on Industrial Island for Watson Bros.

Sealed tenders will be received by the Minister of Lands not later than noon on the 15th day of November, 1918, for the purchase of License X264, to cut 1,101,000 feet of Fir, Cedar and Hemlock on an area situated on Deer Lake, Loughborough Inlet, Range 1, Coast District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Vancouver, B. C.

NOTICE TO CONTRACTORS

Sealed Tenders superscribed "Tender for Whatcom Road School" will be received by the Hon. the Minister of Public Works up to 12 o'clock noon of Tuesday, the 19th day of November, 1918, for a small One-room School and outbuildings at WHATCOM in the CHILLIWACK ELECTORAL DISTRICT, B. C.

Plans, specifications and conditions of Contract can now be seen at the office of the Government Agent, Court House, Vancouver or New Westminster.

Lowest or any tender not necesarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department,
Victoria, B. C., October 30th, 1918.
