REPORT OF THE SUPERINTENDENT OF INSURANCE.

DEPARTMENT OF INSURANCE,
VICTORIA, B.C., July 2nd, 1938.

The Honourable Gordon S. Wismer,
Attorney-General, Victoria, B.C.

SIR,—I beg to submit, pursuant to the "Insurance Act," the Twenty-seventh Annual Report of the Department of Insurance covering the year ended December 31st, 1937.

At that date there were 291 insurers licensed under the "Insurance Act" to transact business, nine new companies having been licensed during the year, namely:—

Bankers and Shippers Insurance Company of New York.
Commerce Mutual Fire Insurance Company.
Eagle Fire Company of New York.
Economical Mutual Fire Insurance Company.
Federal Fire Insurance Company of Canada.
Gore District Mutual Fire Insurance Company.
Loyal Protective Life Insurance Company.
National Security Fire Insurance Company.
Wellington Fire Insurance Company.

The National Security Fire Insurance Company was previously licensed in the Province but ceased its operations here in 1935, and its licence was merely revived.

Seven companies ceased to do business in this Province during 1937, as follows:—

The Federal Fire Insurance Company of Canada, Gore District Mutual Fire Insurance Company, and Wellington Fire Insurance Company, all incorporated in the Province of Ontario, were acquired by the companies of the same names, mentioned above, which were incorporated by special Acts of the Parliament of Canada.

The General Casualty Insurance Company of Paris, France, whose outstanding business was cancelled.

The Loyal Protective Insurance Company, which was merged and consolidated with the Loyal Life Insurance Company into the Loyal Protective Life Insurance Company above mentioned.

The Merchants Casualty Insurance Company, whose business was acquired by the Economical Mutual Fire Insurance Company.

The National Surety Company, which is making arrangements for the reinsurance or discharge of its outstanding business.

The Eagle Star & British Dominions Insurance Company, Limited, changed its name to Eagle Star Insurance Company, Limited.

A complete list of the various insurers licensed as at December 31st, 1937, will be found on page 9. The following summary indicates the origin of the companies, how many hold only Provincial licences, and how many have Dominion registration in addition to a Provincial licence:—

Where incorporated.	Provincial Licensees.	Dominion Registration.	Total.
British Columbia	2	-----	2
Other Provinces	8	14	22
Canada	-----	60	60
Great Britain	3	67	70
Australia	-----	2	2
China	-----	1	1
France	-----	8	8
Hong Kong	-----	3	3
Carried forward	13	155	168

SUMMARY—*Continued.*

Where incorporated.	Provincial Licensees.	Dominion Registration.	Total.
Brought forward	13	155	168
Japan	.....	1	1
Switzerland	.....	2	2
United States	.....	120	120
Totals	13	278	291
The comparative figures are for :—			
1936	19	270	289
1935	20	266	286

On analysis the list shows that 40 companies are licensed for life insurance, 217 for fire insurance, 166 for automobile insurance, and 68 for marine insurance. These figures cover only the major classes of insurance, and it will be understood that the same company may be licensed, for example, for fire, automobile, and marine insurance.

The annual statements of the companies holding Provincial licences only are set forth at length on pages 57 to 66 as in previous years.

Only two fraternal societies are licensed, the Grand Council of Canadian Order of Chosen Friends and the Sons of Scotland Benevolent Association. The last-mentioned association was during the year granted registration under the "Canadian and British Insurance Companies Act, 1932."

Ten underwriters' agencies, a list of which will be found on page 56, were licensed.

The Britannic Underwriters, representing the Employers' Liability Assurance Corporation, Limited, did not renew its licence.

Eight reciprocal exchanges held permits under section 194 of the "Insurance Act." A list of exchanges appears on page 56. Inter-Insurers Exchange and Underwriters Exchange were merged, the new exchange being entitled Underwriters Exchange.

The following table gives particulars of licences issued to insurance agents, insurance salesmen, and insurance adjusters, and for the purpose of comparison the corresponding figures for the year 1936 are shown in the first column:—

1936.	Licences issued during 1937.		Suspended.	Cancelled or revoked.
1,220	Life insurance agents	1,301	*Nil*	*Nil*
1,139	Other than life insurance agents	1,163		
857	Insurance salesmen	904		
47	Insurance adjusters	47		

The number of persons licensed as insurance agents and salesmen continues to grow, but almost as many quit the business as enter it. In 1936, 256 new life licences were issued and 171 licences were not renewed; in 1937 the figures were respectively 271 and 224. The figures for other than life insurance were, for 1936, new agents' licences 110, not renewed 143; new salesmen's licences 256, not renewed 171; and for 1937, new agents' licences 136, not renewed 112, and new salesmen's licences 271 and not renewed 224. It is evident that there is a very high rate of "mortality," particularly among life insurance agents, and that means a degree of wastage in the business involving the companies in considerable expenditure. There is room for marked improvement in this phase of the insurance business.

Tables showing the business transacted in life, fire, automobile, and miscellaneous classes of insurance during the year will be found on pages 68, 70, 74, 77, and summaries for the past five years on pages 70, 73, 76, 87, respectively.

The premiums for life insurance for 1937 show the highest total since 1932, being $2,000,000 more than in 1936. The amount paid in claims, while only slightly larger, continued the upward trend of the last decade—in 1927 the sum was $2,158,000 and in 1937 $4,284.000. The proportion of assets invested in Government securities again rose. The decline in the rate of interest earned on investments is becoming an important problem.

The repercussion on the life insurance companies of a fall in prices on the stock exchanges is again illustrated by the fact that policy loans increased after the crash in the markets last October. The mortality-rate is still favourable, and the experience of the United States seems to be that the health of the public has been better and the death-rate lower during the period of depression. As evidence of the important place which life insurance occupies in the social organization I quote a statement recently made by the Superintendent of Insurance for the Dominion. The report of his remarks states that " for the year 1934, the last year for which the official figures are available, the national income was $1,333,000,000 and the life insurance premiums amounted to $210,000,000, or 18.54 per cent. of the national income." He is also authority for figures which show that in 1936 British Columbia, with 6.8 per cent. of the total population, had 6.4 per cent. of the life insurance in force, the latter being the highest percentage after the Provinces of Quebec and Ontario. The prospects for the present year appear to be bright.

The figures for the fire-insurance business also reflect the improved conditions of last year. As with life insurance, the volume of premiums was the largest since 1932. The companies, however, did not enjoy the very satisfactory experience in losses of the previous four years, and the ratio of losses incurred to premiums earned jumped from 29.45 per cent. to 45.96 per cent. The average ratio for the past five years is 35.95 and for the past ten years 43.49. For the years 1932 to 1936 the ratio for the whole Dominion was 46.45 per cent., the ratio not having been below 50 per cent. for many years. The inference from these statistics is that in general it is not sound practice to raise or lower rates on an experience of less than a five-year period. In view of the length of time between the crest of a wave of prosperity and the trough of a depression or the crest of the next wave, it can be well argued that a longer period should be taken as the test.

The volume of premiums for automobile insurance established a new record, and as the losses did not increase proportionately the companies showed a better result. The ratio fell from 73.51 per cent. to 61.90 per cent., which, although the lowest figure since 1934, is still far too high. It is not sufficiently realized that unless a company draws on a surplus, it cannot continue year after year to do business at a loss. As a general proposition, a company cannot make a reasonable profit if the losses paid exceed 50 per cent. of the premiums. Most companies transacting fire insurance also write automobile insurance, and the profits in the one class have enabled them to make good the deficit in the other class. The time is approaching when the inequity of such underwriting will be realized. The public which wants automobile insurance will have to pay its true price and will not be able to buy its protection at the cost of the fire insurance policyholders. It is to be hoped that the imposition of the 30-mile speed limit in municipalities, and the campaign of publicity on reckless and selfish driving, will bring about a marked improvement in the number of accidents; otherwise rates will continue to rise. In many States of the United States there has been this year put in force a plan for rewarding the " safe driver," in general principle resembling the bonus system which has been tried in Canada and abandoned. Instead of reducing the premium of the driver who has no claim or accident, an alternative method is to make a surcharge on the driver who is responsible for an accident. The number of deaths due to automobiles increased throughout North America and the annual slaughter is a shameful commentary on our so-called civilization.

Practically all the miscellaneous classes of insurance exhibit growth in premium income, particularly inland-transportation insurance, marine insurance, public-liability insurance, and property-damage insurance. Excepting marine insurance, those classes offer a wide and varied coverage for the numerous hazards to which life and property are exposed, but which are not within the regular life, fire, and casualty policies. The development of the newer forms of protection has reacted, and will react, on the major classes, which needed to become more flexible and responsive to public requirements. A standardized policy may be good for the administrative economy of the insurance business, but too static for social needs. Nobody wants to be bothered with numerous policies, and it will be to the advantage of insurer and insured when it becomes possible to issue a truly " comprehensive " policy.

The Association of Superintendents of Insurance met last year at Toronto and its conference was attended by nearly two hundred persons. Various problems were dealt with in the reports of its committees, but the stage was not reached where decision in favour of legis-

lative action could be recommended. The conference this year will, for the first time since 1926, be held in Victoria.

The National Convention of Insurance Commissioners of the United States had its summer session last month in Quebec.

For purposes of record I may mention the establishment on April 14th last of the "Insurance Board of British Columbia," pursuant to the amendment to the "Insurance Act" passed in 1936. Its chief function is, briefly, to assist the Superintendent in determining the qualifications and suitability of applicants for licences as insurance agents or insurance salesmen.

I may also recall that amendments to the "Insurance Act" were passed in 1937, which provided for an anglicized form of the name of a foreign insurer, and for the compilation in statistical form of the loss-experience of automobile insurers, and enlarged the authority of the Superintendent to inspect and examine the books and records of insurance companies and agents.

"REAL-ESTATE AGENTS' LICENSING ACT."

The number of agents licensed for the year ended June 30th, 1938, shows 505 while 340 salesmen were licensed. The following table gives particulars, and for the purposes of comparison the corresponding figures for the period ended June 30th, 1937, are also shown:—

1936–37.	Licence-year from July 1st to June 30th.	1937–38.
454	Licences issued to real-estate agents	505
289	Licences issued to real-estate salesmen	340
Nil	Licences cancelled or revoked	*Nil*

I have the honour to be,

Sir,

Your obedient servant,

H. G. GARRETT,

Superintendent of Insurance.

LIST OF INSURERS LICENSED UNDER THE "INSURANCE ACT."

(NOTE.—Owing to changes in the wording of the licences issued this list is for convenience made up to March 1st, 1938, and not December 31st, 1937. Particulars of changes since March 1st, 1938, will be found on page 56.)

Name of Insurer and Head Office.	*Attorney appointed under the Act.*	Class of Insurance for which Licensed.
Acadia Fire Insurance Co., Halifax, N.S.	F. W. Rounsefell, Vancouver	Fire, property-damage (limited to loss or damage to property caused by explosion of natural or other gas, or by bombardment, invasion, insurrection, riot, civil war or commotion, or military or usurped power), sprinkler-leakage, weather (limited to loss or damage to property through wind-storm, cyclone, tornado, or hail), and, if restricted to insurance of the same property as is insured under a policy of fire insurance of the company, aircraft (limited to loss or damage to the property caused by falling aircraft) and property-damage (limited to loss or damage to the property caused by earthquake or by vehicles, or by loss or damage to personal effects).
