Mayor Stewart stated later that he would certainly return the resolution to the council for reconsideration.

THE MEDIUM.

Did you ever notice that 95 per cent. of the big successful firms are firms who advertise? They figure advertising as an investment not an expense. The secret of advertising is the selection of a medium which reaches those people who are or will be the most likely "purchasers of their product." If you are in the building supply or machinery line don't select a moving picture publication in which to do your advertising. Because of the fact that the RECORD is the only paper published in the province devoted exclusively to the contracting business it is read by practically every one you would like to sell your products to. Your ad. where they will see it will put a capital C in your cash.

MINING.

LADYSMITH—To look into the question of the reopening of the Tyee Smelter near here, W. Gardner, of London, Eng., is here to inspect the plant with Manager Watson, of the Tyee Copper Company.

AINSWORTH—Rapid progress is being made instaling the new equipment at the Florence Mining company's property near here, and 70 men are now employed in construction and development work.

Grading for the hydro-electric station has been completed, and the concrete foundations have been placed. The equipment for the plant already is on the ground, except the water wheel and the wire for the transmission line and these will be delivered soon. The building for the 250-tons daily capacity mill is about half completed and some of the machinery is already on hand and ready to be installed. The Broderick & Bascom Rope Co. of St. Louis, has been awarded the contract for constructing the 1400-foot two-bucket aerial tramway that will connect the main lower tunnel and the concentrator. The carrier will cost about $10,000 and will have a capacity of 20 tons of ore an hour.

NABOB COFFEE

—is strictly high-grade—a combination of Mocha and Java.

From the plantation to the cup, all the processes through which "Nabob" passes are strictly sanitary.

The blending—the roasting—the grinding—follow an exact scientific formula which ensures absolute Coffee perfection.

And it also ensures absolute uniformity—an exceedingly important point—day in and day out.

A user of "Nabob" knows this—those who are not drinking "Nabob" are surely missing one of the Joys of the culinary art.
