NORTH VANCOUVER NOTES.

The city waterworks committee will shortly make a trip to the intake on Lynn Creek to determine how best to improve the dam. A few big logs constitute the present dam, and it is proposed, if possible, to put in a more permanent and stable structure.

SOUTH VANCOUVER NOTES.

In a telegram to J. W. Weart, M.P.P., Commissioner Gillespie, who is now in Ontario, states that he has been camping closely on the trail of the minister of public works regarding improvements to the north arm of the Fraser river in this district, and says that Hon. Mr. Carvell has promised the most careful consideration of the claims of the municipalities concerned on his visit to the coast the second week in October.

POINT GREY NOTES.

Engineer Creig has been instructed by the council to assist the municipality of Richmond in engineering work in connection with the construction of the section of hard surfaced road on Lulu Island proposed to be built with the government grant recently made.

The finance committee of the municipal council has decided to advance $5,000 to the Vancouver and districts joint sewerage board to facilitate the meeting of interest charges on debentures due this month. The other municipalities are also assisting the board to this extent, as it only means paying the money a little earlier than the annual levy is made, and the board is allowing interest for the difference in dates.

VICTORIA NOTES.

In view of the ceremonies incident to the inauguration of works of great public importance on Monday, the 9th inst., in connection with keel-laying at the Cholberg Shipyards and the laying of steel rails on the up-Island route of the Canadian Northern Railway, and the keel-laying and ship launching programme of the Foundation Company, Mayor Todd has requested the citizens to observe the afternoon of that day as a half-holiday.

PLAN AFTER WAR MEASURES

Colonel Dennis Thinks the Situation in Dominion Like That in North America After Civil War—200,000 Munition Workers Now Engaged.

Canada is already beginning plans for the reorganization of industry after the war, according to Col. J. S. Dennis, second in command of British and Canadian recruiting in the United States.

He compares conditions in Canada now with those that existed in the United States during the civil war, and holds the view that the farm-labor problem will be the most serious matter to contend with after hostilities have ceased. He expects a considerable number of immigrants to seek farms in Canada, but points out that a comparatively small number of men may be available for farms among the returned soldiers, because most of the soldiers were laborers from the industrial centres. Only 12 per cent. of the soldiers enlisted from the farms.

There are 200,000 munitions workers in Canada, for whom provision will have to be made in the after-war plans. Farm labor, the great need of Canada, must be obtained, he declares, for now Canada's population is half urban and the Dominion consumes more than it produces.

The Canadian Government's war policy, a series of admonitory but not mandatory regulations, provides that there shall be no strikes or lockouts during the war, and concedes the right of workmen to form unions and of employers to form associations. These regulations conform to those of the Taft-Walsh board, a part of the department of labor.

Where union shops now exist, they are to continue; where open shops exist, organized workmen are not to consider the employment of non-union labor a grievance. Women should receive the same pay as men for the same work. Minimum wage scales should be arranged, it is suggested.

B. C. INCORPORATIONS.

SHIPBUILDING AND MARINE NEWS

FIRST CONCRETE SHIP AT VANCOUVER TO BE LAUNCHED

VANCOUVER, Wash.—Rapid progress is being made at the Great Northern Concrete Shipbuilding plant in Vancouver, and the first hull of this material will be launched soon. The ways are so constructed that three hulls can be built or "poured" in each and the vessels will be launched sideways.

The company has a contract for the construction of five vessels, 100 feet long, 12-foot beam and 10-foot depth of hold, at an aggregate price of $399,990. They are for the use of the engineer corps. The first ship is to be ready by January 1 and one a month is to be delivered after that date. Contracts for installation of twin engines of 250 horsepower have been let to the Standard Gas Engine Company.

LAUNCHINGS.

NEW WESTMINSTER. — Monday, September 23, is the date set for the launching of the War Ewen, the last of the four I. M. B. type ships constructed at Poplar Island yards. The company is now taking over the yard from the board and will shortly commence work on the construction of five vessels of 1,500 tons for the French Government. The keel timbers are already coming in, and the first keel will be laid next week. These vessels are for the French coasting trade and will be equipped with steam engines and twin screws.

FOUNDATION COMPANY LAUNCHES 13th HULL

PORTLAND—The Foundation Company at 6 o'clock Wednesday launched the 13th hull built at Portland yard, the General Serret and a more successful floating has not been witnessed at that plant.

"Another launching in two weeks and then one ship sent into the water every week until the last of the 20 French hulls is floated is to be the schedule," said Superintendent Thompson. "With just seven more to put overboard we are naturally preparing for construction that is to follow.

British Columbia Yards

Following is a list of the Shipbuilding companies of British Columbia now actively engaged in ship construction or recently organized:

Steel Shipbuilding Plants.
Coughlan Shipbuilding Co., Vancouver.
Wallace Shipyards, North Vancouver.

Wood Shipbuilding Plants.
Cameron Genoa Mills Shipbuilders Ltd., Victoria.
Foundation Company of B. C., Ltd., Victoria.
Lyall Shipbuilding Co., North Vancouver.
New Westminster Eng. & Const. Co., Poplar Island.
Pacific Construction Co., Ltd., Port Coquitlam.
Standard Shipbuilding Co., Vancouver.
Wallace Shipyards Ltd., Vancouver.
Western Canada Shipyards Ltd., Vancouver.

A NEW LIGHT

Professor—My geological work keeps me away from home most of the time.
Farmer—Waal, I allus thought it wuz dum foolishness, but I see they be suthin' to it, arter all-dummed ef they ain't!

Advertising, like liniment, does not do much good when applied with a feather. It needs to be rubbed in for results. Apply it through the right mediums to the right people at the right time, and keep on rubbing it in until returns begin to come in. Then still keep on rubbing.

CONSERVE ON TIRES.

In these days of national stress it is imperative that every car owner should conform to the Government's injunction to eliminate waste of every form.

There has been a tremendous extravagance and waste in automobile tires. The amount of mileage lost each year, expressed in money value, runs well into the hundreds of millions. This represents the enormous quantity of tires that were not given an even chance to deliver their full service, because of neglect, abuse or sheer carelessness. Tire experts estimate that last year's tire loss was fully $150,000,000. Figured at $35 per tire, which is a good average price, more than 4,000,000 tires were wasted within the twelve-month period. And only two of our big manufacturers made in excess of this number of tires during the year.

If our rubber manufacturing companies are to have an even chance to supply the tire needs of the 6,000,000 motor vehicles now registered in the United States and Canada and of the new cars that are being turned out every day, and at the same time take care of the rubber needs of the Government, every car owner must make his tires deliver the last possible mile. The needs of the Government are paramount and must be supplied, whether anybody else gets tires or not, and the most patriotic service that car owners can render is to help the enormous waste that has been rife.

Without doubt, an extremely large part of this waste has been caused by a lack of appreciation of the care that a tire must have to deliver its full quota of mileage. No article of merchandise, whether shoes, clothing or anything else can deliver its full service under unfavorable conditions. And tires are no exception.

AUTOMOBILE RECORDS

Keep Your Battery Fully Charged with a Tungar RECTIFIER

All batteries run down even though they are in connection with a generator on your engine. Don't starve your battery and expect it to do good work.

The little Tungar is just what you need. Start your charge and leave it over night—the rectifier will do the rest. Operates from any lighting circuit from 110 to 120 volts.

Ask us to demonstrate

The Tungar Rectifier

developed by the Research Laboratory of the General Electric Company simplifies small-battery charging.

It is designed to change the alternating current, found in most residence garages, into direct current which is required to charge a storage battery.

The TUNGAR will give a starting battery sufficient charge overnight to be assured a starting capacity the next morning, even though the battery be entirely exhausted.

The discovery that has made the TUNGAR possible is really embraced in the small bulb in which the process of changing the alternating current to direct current takes place. This bulb closely resembles an incandescent lamp. It is filled with an inert gas and contains a tungsten filament and an "anode" of graphite.

The bulb is mounted in a black japanned casing with a perforated top. This casing contains a compensator which reduces the alternating voltage without using wasteful resistance, and also excites the filament in the bulb. In addition, the casing contains a fuse to protect against the reversal of the battery and other overloads.

TENDERS.

Tenders are being called for by Matheson & DeGuerre, architects and engineers, 508 North West Building, for the costruction of a one-story bungalow, 24x49 feet in size, to be erected at Colebrook, B. C., for Mr. H. W. Brown. The building will be constructed of Dennison hollow tile with heavy concrete foundations and the exterior will be finished with stucco. This is the first unit of a large home which will probably be erected by Mr. Brown next year. The present home consists of a large living room, dining room, bedroom, bath and kitchenette.

NOTICE TO CONTRACTORS.

SEALED TENDERS, superscribed "Tender for Concrete Sluices," will be received by the undersigned up to 12 noon of Friday, the 13th day of September, 1918, for the construction of two four-gate reinforced concrete sluices in Matsqui Dyking District, at Pumping Stations No. 1 and No. 2, near Gifford Station, B. C. E. Railway.

Plans, specifications, contract and forms of tender may be seen on and after the 29th day of August at the office of the Provincial Government Agent, Court House, Vancouver. Each proposal must be accompanied by an accepted bank check, or certificate of deposit, on a chartered bank of Canada, made payable to the inspector of dykes, for 5 per cent. of the amount of the tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

E. A. Wilmot, C. E.,
Inspector of Dykes.

Office of Inspector of Dykes,
Victoria, B. C., August 27, 1918.

NOTICE TO CONTRACTORS.

Sealed tenders addressed to the undersigned and endorsed "Tender for Wharf at Naramata, B. C.," will be received at this office until 12 o'clock noon on Saturday, 21st September, 1918 for the reconstruction of a wharf at Naramata, Yale District, B. C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department at the offices of the District Engineer at Chase, B. C., and New Westminster, B. C., and on application to the Postmaster at Naramata, B. C.

Tenders will not be considered unless made on forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to 10 p.c. of the amount of the tender.

NOTE.—Blue prints can be obtained at this office by depositing an accepted bank cheque for the sum of $10.00, payable to the order of the Honorable the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
F. W. AYLMER,
District Engineer.

Department of Public Works,
Chase, B. C.
