Boundary Creek Times.

PUBLISHED WEEKLY IN THE INTERESTS OF THE BOUNDARY CREEK MINING DISTRICT.

Vol. VI. GREENWOOD, B. C., SATURDAY, AUGUST 19, 1899, No. 16

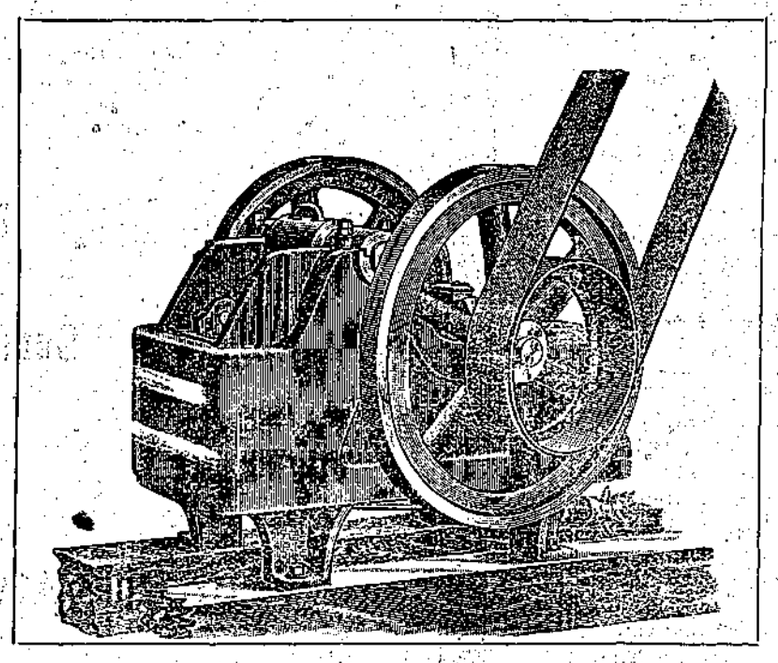
The Wm. Hamilton Manufacturing Co. Ltd.

BUILDERS OF

MODERN MACHINERY. MINING

Contractors for the design and construction of complete Stamp Mills, Concentration, Chlorination, Cyanide and Smelter Equipments.

Sole Agents for British Columbia for John Bertram & Sons' Iron Working Machinery; MacGregor, Gourlay Co.'s Wood Working Machinery.



Sole Agents for British Columbia for R. Hoe & Co.'s Celebrated Inserted Tooth Saws, M. Beatty & Sons' Dredging Machinery.

Head Office and Works: PETERBORO, ONT.

Branch Offices: Vancouver, B. C., Rossland, B. C., And Greenwood, B.C. HARRY HOWSON, Agent.

Put up in 400 Barrels and 200 lbs. Sacks.

PORTLAND CEMENT.

Manufactured by the B. C. Portland Cement Co. at Vancouver and guaranteed equal to any imported cement in the country

Agents for British Columbia BOYD BURNS & Co. Vancouver, B.C Wholesale Dealers in Plumbing and Engineering Supplies

HARRY HOWSON Local Agent GREENWOOD, B. C.

Used Largely by C.P.R. and by Contractors Generally.

..CAULFIELD & LAMONT..

DEALERS IN SHELF AND HEAVY HARDWARE

... GRANITE WARE, ETC., ETC. ...

Dowsnell Washers, - Ajex and Royal Canadian Wringers, - Wire Screen Cloth, - Screen Doors.

The Imperial Hotel

IS THE BEST HOTEL IN GREENWOOD. A New Building, well furnished. First-class Service in all departments. Choice, Wines, Liquors and Cigars. Headquarters for Mining and Commercial Men.

Copper Street, Greenwood.

A BIG SMELTER.

MR. PAUL JOHNSON, M. E. IS HERE

Will Erect a Big Smelter for the British Columbia Copper Company, Owning the Mother Lode—Accompanied by Mr. John Norborn of the Union Iron Works Who Supplies the Plant—The Location of the Smelter.

Mr. Paul Johnson is here. He is the smelting Messiah who is to deliver the people from any disappointment because of the installation of the Graves' smelter at Grand Forks. Mr. Johnson means business, and evidently means to stay. He is armed with half a dozen trunks and as many valises, a million dollars or so, and an enviable reputation as a successful smelter expert. He is here representing the British Columbia Copper Company, Limited, of New York and as an earnest of his intention to erect a smelter he brought with him Mr. John Norborn the mining machinery expert of the Union Iron Works San Francisco. Mr. Johnson is the heavy weight among the experts. He carries around some 300 odd pounds daily and still remains a genial, jovial gentlemen.

Mr. Johnson was not desirous of making public the details of his plans, but he stated positively that he was here to build a large smelter. Questioned as to the location, Mr. Johnson stated that he would make a thorough inspection of the district. When asked regarding a water supply he laughed. "That does not need to frighten any one," he said. "Water is not a serious consideration with the latest methods for taking care of the slag. Any of the small streams in this locality has sufficient water for a big smelter."

Mr. Johnson has been in consultation with Mr. Keffer, of the Mother Lode, several times since his arrival. It is understood that Mr. Keffer believes the most convenient and suitable site for a smelter to treat Mother Lode ore is up Copper creek, near Scott McRae's ranch. The company took the precaution to secure a site here some time ago. When Mr. Johnson has an opportunity to look over the ground he will be in a position to give more definite information. He has had a long and successful experience as a smelter expert. He built the Hall mines smelter at Nelson, smelters in Mexico and has just completed the erection of a smelter in California for the principals in the British Columbia Copper compony. He is a graduate of the Royal Technical School and Mining Academy of Stockholm, Sweden.

Mr. Norborn is here to arrange for the installation of the plant, which will be supplied by the Union Iron Works of San Francisco. This company supplied the plant for the smelter erected by Mr. Johnson in California.

MINING NOTES.

This week the committee of the board of trade sent to Ottawa for transhipment to the Paris exhibition, an exhibit of Boundary creek ores. The shipment includes specimens from the different camps and Camp McKinney. The mines represented are Lexington, Lincoln, City of Paris, Mother Lode, Morrison, Buckhorn, Gold Bug, Knob Hill, Ironsides, Brooklyn, Stemwinder, War Eagle, Winnipeg, Golden Crown, Jewel, Enterprise; Lakeside, King Solomn, Big Copper, Summit, B. C., and the following Camp McKinney properties, Cariboo, Anchor, Minnehaha, Waterloo, Fonteroy and Sailor.

Mr. Michael Shick, the well know prospector, is in town from the Burnt Basin section. He reports that there are 14 feet of quartz on the Topic, a property which he recently acquired. The ore from this, near the surface, runs from $12 to $14 to the ton in gold and six ounces in silver. The intention is to put a force of men to work on this property in the immediate future. The shaft on the Mother Lode, he says, is now down 60 feet, and crosscutting will soon be commenced. There are 250 tons of high grade ore on the dump of the Mother Lode and 500 tons in sight. A force of men is to be put at work on the showing of ten feet of copper ore on the Mother Lode.—Rossland Miner.

James Wilkes, organizer for the Western Federation of Miners, is in the city for the purpose of organizing the miners. He holds a meeting of miners in Phoenix this (Friday) evening and a meeting in Greenwood probably tomorrow (Saturday) evening. Mr. Wilkes has been busy during the past two months in the Slocan district where the union have held out for a $3.50 rate for eight hours. He believes the wage question will adjust itself in a short time, but that the eight hour law has come to stay.

Gilbert Mahon, managing director of the Jewell Gold Mining company, returned from Rossland on Wednesday. On Thursday he and Mr. Norborn went up to the Jewel. Mr. Norborn examining the ground with a view to selecting a suitable site for a cyanide plant. This does not mean that the plant is to be installed immediately, but Mr. Norborn was anxious to look over the ground so that he would be in a better position to figure on the plant as soon as required.

F. H. Oliver, manager of the Morrison Gold Mining company was in the city this week. He visited the mine and was naturally pleased with the big showing in the face of the tunnel. The tunnel encountered a large body of ore from which gold values as high as $33 have been secured.

Jay P. Graves, his son Claude M. Graves, Jno. P. Whitney and W. B. Rulon were in the city this week. Mr. Whitney is vice president of the City of Paris company, and Mr. Rulon represents Mr. Graves' many interests in the Quaker City.

Mackenzie & Mann.

It pains us to learn that Mackenzie & Mann are looking for railway contracts in China. This enormously enlarges the area of the Toronto Telegram's vigilence. The Telegram's circulation is not large in China, and it is unfair for Dan Foo and Bill Choo to thus change the venue without the Telegram's consent. They have no senate in China to keep these bold men in check, and the work of blocking their projects over all the wide stretches of the Chinese empire is more than ought to be imposed on any one newspaper.—Toronto Globe.

REID WILL OPPOSE HENDERSON.

Opposition in New Westminister for the Attorney-General.

VANCOUVER, B. C., Aug. 16.—It has been decided by the caucus committee that Jas. Reid, lawyer, of New Westminister, is to oppose Alexander Henderson in his fight for the retention of his seat which he is to contest since being appointed to the portfolio of attorney-general. It is considered in New Westminister that Reid has a stronger following than Munn. A very hot campaign is being looked for. Joseph Martin will speak in Reid's behalf.

DUNCAN ROSS, Rec. Sec.

M'LEOD M'KENZIE.

Mr. J. P. McLeod and Miss McKenzie Married at New Westminister.

Mr. J. P. McLeod, B. A., the well known barrester, and Miss Kate M. McKenzie were married in St. Andrew's church, New Westminister, Friday, Aug. 10, the officiating clergyman being Rev. Thos. Scouler. Both are well and popularly known throughout the district. Mr. McLeod has been practising here for the past two years, making Midway his headquarters. Miss McKenzie was principal of the Midway school for some time. They will reside in Midway.

The Times joins their many friends in extending hearty congratulations. The New Westminister Columbian says regarding the marriage:

The affair was quite devoid of any ostentatious display, the services of bridesmaids and groomsmen being dispensed with, and only a few personal friends being present.

The bride recently retired from a position on the teaching staff of the Westminister public school, which profession the groom also adorned at one time, having been principal of the Victoria high school. Retiring, he took up law, finishing his term in the office of Mr. Aulay Morrison, M. P., this city, and subsequently commencing his practice at Midway.

After the ceremony, the newly married couple left for Vancouver, en route for Midway, where the bride will also be welcomed by the many friends whom she made while mistress of the public school of that place.

THE IMPERIAL HOTEL.

Will Be Taken Over by D. W. Morgan on September 1st.

The Imperial hotel which was recently purchased by F. J. Finncane, will be conducted by D. W. Morgan, of Rossland, after September 1st. Mr. Morgan has leased the premises and intends running a first class hotel and restaurant. His manager will be Max Karter who ran the Clarendon before it was burned down. Max is bound to break the hoodoo which appears to have associated itself with Mr. Morgan's hotel ventures in the district, so he went to Victoria last week to secure a mascot in the shape of a wife. The happy couple will spend their honeymoon in the coast cities and then come direct to Greenwood.

Messrs. Graham & Perry have not yet fully decided to build, but in all probability a large brick hotel will be erected by them on their property at the corner of Copper and Deadwood streets.

A CHATAM VISITOR.

Mr. Douglas, Q. C., is Visiting His Son in This City.

W. J. Douglas, Q. C., a prominent barrister of Chatam, Ont., is visiting his son in this city. Mr. Douglas had rather an exciting trip on the Columbia & Western railway. He and several others rode on a work-train to the summit near Gladstone. From there a hand-car was used. As it is down grade all the way to Cascade, the trip required no effort on the part of the passengers. Unfortunately, however, the grade ceased at the bridge and the car stopped in the center thereof. It was late at night and very dark. On account of luggage, it was impossible to use the handle, so that the passengers disembarked to find that the bridge timbers were, some of them, two and three feet apart. Naturally Mr. Douglas felt nervous travelling 180 feet above terra firma, but all got over without accident. Mr. Douglas visited the province seven years ago. He sees some wonderful improvements. He is deeply impressed with the possibilities of Boundary Creek as a mining country.

FOR SALE—An organ nearly new. A bargain. Apply A. Palmer, Greenwood, B. C.

ANNUAL MEETING.

Firemen Elect Officer's and Arrange for Ball.

The annual meeting of the Volunteer Fire department was held at the court house last Friday evening. The following officers were elected for the current year, pres., W. S. Keith; vice-pres., J. C. Goupil; secretary, J. Ehrlich; Treas., Ed. Mortimer. The department recommended the following four to council as suitable candidates for the position of chief: W. E. Henton, A. Hallett, F. Wilson and R. H. Palmer. The department is in a flourishing condition. It has 32 active members who are enthusiastic in their work. Meetings will be held every Friday evening in the court house. The department decided to give a grand ball in Barrett's hall on the evening of Labor Day September 4th.

FIREMEN'S WANTS,

Attended to by Council—W. E. Fenton Appointed Fire Chief.

Aldermen A. Fisher and David Beath having taken their oath of office, sat at the council board for the first time on Monday evening. Mayor Hardy was in the chair and all the members save Alderman Wood were present. Messrs. Pringle & Whiteside solicitors for Miller Bros., notified the council that they intend taking action for damages because of the wrong grade having been given for their building on Copper Street. The letter was referred to the city solicitor.

A. S. Black representing the Greenwood Waterworks company asked for an extension of time on account of the franchise granted to install an electric light system throughout the city. Messrs. Campbell & McGregor were present and addressed the council. They pointed out that they had only just acquired the character and the sixty days remaining of the life of the franchise did not allow sufficient time to install the plant they were purchasing. The question of granting the extension was deferred for one week.

The council went into committee to discuss the requirements of the fire department. They decided to purchase 1500 feet of hose, a hose cart, fire alarm duty trumpet, hose and ladder straps, 18 helmets and 18 mackinaws. Extra hydrants will be placed under the direction of street superintendent. W. E. Henton was elected fire chief at a salary of $100 a month and use of two rooms in fire hall. His duties will commence September 1st. Mr. Henton was a member of the Salt Lake City fire department and comes well recommended.

Ald. Sutherland gave notice to amend water rate by-law so that rates shall be payable in advance. The clerk will be allowed three per cent for collecting water rates.

A NEW TELEPHONE LINE.

The Spokane Northern Extended Into the Boundary Country.

Mr. J. M. Hayden, manager of the Spokane Northern Telegraph company of this city, announces authoratively that his line will be completed to the Boundary country by the October 15th; and will touch every town of consequence in that section, including Cascade City, Grand Forks, Columbia, Curlew, Greenwood and Midway. Mr. Corbin, ever alive to public interests and wants, would have built this line a year ago, had he been able to secure his charter, which has been hanging in the house at Ottawa until now. This is a long felt want and should be appreciated by the people of this country as it will give them direct communication with these important camps. Mr. Corbin has great faith in the future of this country and he should be congratulated upon the enterprising way in which he backs his faith in constructing this expensive line.

He has secured the corner basement room of the new Montreal bank building in this city for his quarters, which is the finest business location in the city.—Rossland Miner.

Mrs. Foreman and Mrs. Nichols, Teachers of Dancing and Physical Culture.—Office Hours 11 a. m. to 1 p. m. Residence in School House.

Fighting Joe.

Joe Martin is still alive. The News-Advertiser had the temerity to state that Mr. Martin was responsible for the effort to remove the land registry office from New Westminister after the fire. The reply came in the following letter to F. C. Cotton:

VANCOUVER, Aug. 10, 1899.

Hon. F. C. Carter-Cotton, Finance Minister, Victoria—Dear Sir: Enclosed I send you a cutting from the News-Advertiser of today, headed "Opposition Weak."

I beg to call your attention to the very improper, false and misleading statements contained in the latter part of the same, with reference to the government's action with regard to New Westminister. I would not trouble you with this matter were it not for the fact of your well known connection with this paper. I leave it to you to take whatever steps you see fit to contradict the statements made. As you are well aware, everything that has been done with regard to New Westminister has been done by the government as a whole, and it seems to me a very pitiable attempt on the part of the News-Advertiser to gain some support for the government candidate at the coming election by making statements containing inuendos against me and praises for Mr. Semlin and yourself, which are absolutely without any foundation whatever. Yours truly,

JOSEPH MARTIN.

SILVER-LEAD QUESTION.

Mr. Buchanan's Views of the Situation—What He Advocates.

Mr. Buchanan said: In the early part of the winter of 1898, the subject of the necessity of doing something to relieve the difficulties under which the silver-lead industry of Kootenay was laboring came before the Kaslo board of trade, and I was appointed upon a committee formed to investigate and report upon the subject. The Dingley tariff had come into operation on the 1st of July, 1897. Prior to that, under the Wilson tariff, we had entry for our ores into the United States markets, upon the payment of a duty of $15 per ton or ¾ cent per pound upon the lead contents of the ore, and we also had entry into that market for lead in bullion at the rate of 1 cent per pound. The Pilot Bay smelter had closed down before the Dingley tariff was adopted, and before there was any certainty that it would be adopted. The Dingley tariff added $1 per ton to the duty upon ore making the duty one and a half cents per pound. This immediately closed a great many of our mines. To a greater or less extent, lead has been produced in British Columbia for the past 11 years. The number of silver-lead claims that have been recorded must amount to many thousands. Out of these, hundreds have undoubtedly good showings, and have, in fact, been developed to the extent that they have been made shipping properties. But how many of these properties have existed and persisted up to the present time? Out of these hundreds of claims comparatively few closed down for the want of ore, and yet very few exist now as shipping mines. This, of course indicates that there was some difficulty in their way. They would not pay, and they had to close down on that account. The majority of these mines are closed down on a question of a few dollars per ton, and a few dollars additional value per ton would set them working again. The Kaslo board of trade considered that the creation of a home market in Canada would in some measure alleviate the difficulty. Finally the duty devolved upon myself, of going to Ottawa, which I did in the winter of 1898. With others, I interviewed committees of ministers, and ministers individually, also the various departments, in fact, all who had an interest, direct or indirect in this particular question. They were loth to make any promises, and we were at length informed by Mr. Patterson, commissioner of customs, that it was the intention to immediately begin preliminary negotiations with the United States, in regard to a treaty covering all points in dispute between the countries, and in connection with this, it was proposed to arrange for a measure of reciprocal trade. We were informed that the administration were unwilling, pending the result of these negotiations, to take any steps to amend the tariff on lead productions. There were numbers of mineowners in Ottawa at the time, and we came to the conclusion that if under reciprocal arrangements, the duties on lead going into the United States could be taken off, it would answer the purpose, and the American market would undoubtedly be the best market we could hope to find. There are only two lead markets—one the United States and the other the world. London prices prevail in all countries outside of the United States, that have free trade relations with Great Britain. We presented our memorials to the Canadian commissioners, asking that they would endeavor to obtain such terms as would make lead in all forms free, as between the two countries, and particularly lead bullion and lead ores. Mr. J. B. McArthur went east last summer, and we appointed him as our representative, and with our requests, he appeared before the conference in Quebec, and in his report, made to us, he assured us thaat the commissioners would use every effort to comply with our wishes, and it was believed that they would secure, not only free admission of ores, but also free admission of bullion. You are told that these are concessions that will never be obtained. They will be opposed by the lead mining interests on the other side, they will be opposed by the lead trust, and we fully agree with that. There will probably be opposition on both sides of the line against any proposal for reciprocity. However, as you all know, a very great deal of progress was made by the commissioners at the conference, and a scheme of reciprocity was actually arranged. We were not asking the Americans for something, with nothing to give. We knew that to obtain favors, we must give favors. Sir Richard Cartwright and Sir Louis Davies, who no doubt shaped the policy of the Canadian commissioners, are men who have been trying to get reciprocity for the last 30 years. It was only at our earnest solicitation that lead ores were put upon the list at all. It was liberal on the part of the commissioners to take the stand they did, in deference to our wishes. Up to the last moment of the session of the conference, on their adjournment last winter, the matter stood in this position, that the commissioners had pretty nearly come to the conclusion that it was hopeless to apply for free admission of lead bullion or manufactured lead, but they still maintained that position, as shown in a letter from Mr. Charlton, dated from Washington, on the 14th of January, and a telegram to the Kaslo board of trade from Mr. Bostock. A memorial had been obtained from the shippers of lead ores in the Slocan camp, from Ainsworth and Kaslo, and the resolution of the Kaslo board of trade has been obtained and Mr. Bostock himself had copies of them, and so we replied to him in this way: "This matter was fully considered in June last, miners unanimous that free ores should be considered, if free bullion cannot be obtained."

This is how matters stood at the adjournment of the conference. The Toronto Telegram congratulated the Kaslo board of trade on being the one body that was going to get what it asked for.

There is now no date fixed for the resumption of the conference. However, we feel that a proper authoritative expression of opinion from this convention will carry more weight than any other kind of memorial that could be placed before the commissioners.

The greatest amount of lead ever produced in one year in Canada was some 19,200 tons, in 1897, and during part of that year the mines had the benefit of the Wilson tariff. Last year, although a good one in may respects showed a considerable fall. In British Columbia we produced about 34,000 tons of ore. We are told that this could be disposed of at home, without reference to the American market. The Canadian market for lead in all forms, will amount to about 12,000 tons per annum. By far the greatest proportion of this will be in the form of paint.

About three of the high grade mines in the Slocan can continue to work at the present time, and they can pay any charges that can be imagined. All the other mines are engaged at the present time in development work. It is desirable that this state of things should continue? Shall our production be restricted for all time to 19,000 or 20,000 tons of lead, as a maximum, or is it desirable that we should make every possible effort to open up about 200 lead mines in British Columbia. I maintain that there is no basis for the argument that our mine owners would not benefit, and benefit largely by the removal of this duty upon lead ores. The only other country except Canada that is shipping lead ores into the United States is Mexico, and in the year that the United States got 16,000 tons from us, they 60,000 tons from Mexico.

This is our case, Mr. Chairman, and you may be sure that we are supported in this contention by all those who are engaged in lead mining in this country.

Rossland is rapidly becoming the financial headqnarters of Southern British Columbia. Prosperity in the silver-lead mining districts will mean additional prosperity in the districts of commerce and finance, such as the Rossland district. (Applause.)

SATURDAY, AUGUST 19 1899.

THE GREENWOOD SCHOOL.

MONDAY, the 14th day of August, the public schools of the province were re-opened after the midsummer holidays. Greenwood occupied the unfortunate position of having no public school to open and no immediate prospects of securing one. The hundred school children in the city must be taught privately or not at all. The city is without a school building, teacher or trustees. Greenwood is an incorporated city in the province of British Columbia—a province of which it has been said that it possesses the most liberal and advanced system of education in the world. Greenwood did not spring up in a day. Its growth has been gradual, giving plenty of time to meet any requirements of the public. There is no excuse for the absence of educational facilities. It is simply the outcome of a government divided against itself and a consequent neglect of public duties.

In 1896 a public school was established in Greenwood. In order that there might be no delay in securing for the small number of children then in the city, a building was provided by Mr. Robt. Wood. This building was used until the close of the school term this year—not because it was suitable, but because the government never could appreciate the importance of the city and never took the steps necessary to provide a more suitable building. This building was rented by the owner after the last school term. For two years the trustees urged upon the education department to do something. At last the government called for tenders for the erection of a school building. Nearly all the local contractors sent in tenders. After examining the tenders the government decided that the cost would be too great and that the building contemplated could not be erected. The board of trustees gave up in disgust and resigned. Now the government have mutilated the plans and want contractors to tender on a cheap basis.

Even if the members of the government take the desperate plunge of expending a few dollars on a cheap school building in the city, two or three months will elapse before the building is available. In the meantime, the children can enjoy the beauties of nature and become more perfect in that higher education which comes from the associations of the street, and the parents may trust in God and tell their friends in the east all about that perfect system of education in vogue in this province.

A HEALTHY GROWTH.

THERE is no sign of strength in frantic efforts to tell the people how prosperous we are and how much more prosperous we are going to be. It shows weakness when a city makes a mad plunge to save its existence and then goes into hysterics because it does exist. Too much publicity cannot be given to the advantages possessed by a city, but this publicity should be given in a manner that will win confidence and respect. A city occupying a natural position, with mining camps surrounding it and tributary to it, is bound to grow. Men's expedients may encourage this growth, but it will grow anyway.

Greenwood has grown, not because of any hothouse treatment or any frequent display of fireworks, but because it was and is in a position to command and secure the trade. This year the building operations involve an amount greater than the value of all the buildings which were heretofore in the city. Without any special effort, without plunging the city heavily into debt, financial men are perfecting plans to carry on undertakings that will still closer cement the relations existing between the city and surrounding camps. Backed by $3,000,000, the British Columbia Copper company has its expert in the district with a view of selecting the best site on Boundary Creek for a large smelter. Another big company intends utilizing the power of Boundary Falls to generate electricity to light the city and operate a tramway between Greenwood and surrounding camps. These are only a few of several undertakings that are backed by capital and will soon be accomplished facts.

DOMINION COPPER COMPANY.

UNLIMITED space precluded an extensive reference to the visit of Messrs. Jaffray Cox and Pallatt last week. The gentlemen are largely interested in the Dominion Copper company which was organized for the purpose of acquiring and developing McKenzie, Mann & Co's large and valuable mining interests. The gentlemen are wide awake business men, ready to engage in any legitimate enterprise that is likely to prove profitable. They were most favorably impressed with Greenwood and showed a strong anxiety to invest their money in these undertakings necessary to secure for the city all the advantages to which she is entitled by the position she occupies. The Dominion Copper company is a strong and enterprising institution which can do much for Greenwood and it is indeed fortunate that some of the principals are so favorable impressed with the city.

THE NEW ATTORNEY-GENERAL.

WHATEVER may be the result of the New Westminister bye-election, there are good prospects of stormy political times in the province. Alex. Henderson brings no strength to a weak government. He is not the man for a position that carries grave responsibilities because of the hasty experimental legislation passed at the last session of the provincial parliament.

What the province needs is an attorney-general with Joe Martin's strength without his weakness. Henderson possesses neither.

MINERAL EXHIBIT FOR PARIS.

THE exhibit which the committee of the Greenwood Board of Trade sent to the Paris Exposition cannot but be of the greatest benefit in advertising the mineral resources of the district. The exhibit is not very large, but it gives a very good idea of that wonderful variety of ore which is to be found in the district. There will be numerous mining men at the Paris Exposition, and no man could examine the Boundary Creek exhibit without coming to the conclusion that the ore came from a district worthy of the expert's attention.

JNO. R. REAVIS is now proprietor and manager of the Grand Forks Miner. Grand Forks is getting a good many good things these days.

THE Cascade Record was published in red last week in honor of the arrival of the engine in that city.

A TELEGRAPH LINE.

WILL BE BUILT BY D. C. CORBIN

To Greenwood and Other Boundary Creek Points. Work Will Begin at Once and Rushed to Completion. Supplies all Purchased. The Line Will Connect With Corbin and Other American Telegraph Systems.

A private dispatch from Spokane announces that all the supplies necessary for the construction of a telegraph line from Marcus to Boundary Creek has been puchasred and active work will begin immediately. The line is being built by a company who were granted a charter at the recent session of the Dominion parliament. The moving spirit in the company is Mr. D. C. Corbin of Spokane and the other incorporators are John Dean of Rossland and Duncan Ross of Greenwood. The line will be operated in connection with the Corbin system along the Spokane Falls & Northern railway which was retained when the railway itself was sold to the Great Northern company. Already a branch is in operation between Meyer's Falls and Republic but this will be abandoned as soon as the line to Boundary creek is completed.

The intention of the company is to build from Marcus, Wash., following the Kettle river to Grand Forks. From here the line may be built to Greenwood direct and on to Midway and Curlew or it may continue along the Kettle river to Midway and thence up to Greenwood. In any case the Republic branch will start from Curlew creek as it is to expensive keeping the present Republic line in repair.

As the construction of the telegraph line is to be rushed there is no good reason why it should not be completed to Greenwood within sixty days.

The extension of the Corbin system into the city will be a decided advantage. It not only assures competition but as it is to be constructed along a different route to the C. P. R. line there is a possibility that one line may be up when the other is down.

CIRCULAR LETTER.

To Shippers, Consignees, and all Concerned, Cascade, Grand Forks, Greenwood and Midway.

For your information I would advise that our track is now being laid across the Kettle River bridge at Cascade and we expect to commence forwarding freight for above points by the end of this week. The chief engineer advises me that it should not take more than ten days longer to reach Grand Forks, when the track reaches that point freight for Grand Forks and points west will be forwarded there. Owing to our limited storage facilities, for the present consignees are requested to arrange to take prompt delivery of their goods after arrival at Cascade or Grand Forks. It is also imperative that properly signed orders for the delivery of all freight are forwarded to our agents at above points as no goods will be delivered to freighters unless they present such an order. All goods remaining on our hands after the receipt of advice by the consignees will be entirely at owners risk.

F. W. PETERS,
Asst. General Freight Agent.

PRESBYTERAN CHURCH.

To Be Erected Immediately — Congregational Meeting.

A meeting of the Presbyterian congregation was held in Rendell's hall on Monday evening. The following trustees were elected: T. A. Garland, Arthur Mowat and W. Graham, Managers as follows: For three years, Geo. N. Naden, A. M. Whiteside; two years, F. McLean, L. A. Smith; one year, D. A. Cameron, C. F. Alston. The following building committee was appointed: C. F. Alston, A. M. Whiteside, Geo. McKenzie, A. B. Campbell, D. Ross, H. B. Munroe, T. M. Gulley. A meeting of the congregation will be held on Monday evening to consider plans for church building, which are being prepared by A. B. Campbell.

Rev. Mr. Fortune leaves on Saturday for his home in Alvisnton, Ont. His stay here was shortened by the illness of his wife. Rev. J. M. Wallace, of Grand Forks, will conduct the services in Rendell's hall next Sunday.

Mr. Theo. Kruger of Osoyoos, died last week after a prolonged illness. Mr. Kruger was one of the pioneers of the district, having settled at Osoyoos lake over 40 years ago. He was well known and greatly esteemed by the numerous travellers who enjoyed his hospitality. He leaves a wife and a large family.

BOUNDARY CREEK WANTS.

Mr. H. C. Shaw Tells Coast People What We Want.

Mr. H. C. Shaw, of the law firm of Hallett & Shaw, Greenwood, was welcomed back to the city on Monday by his many friends. He is here on important business for clients in the Boundary Creek country. He will also go to Victoria to interview the provincial government in regard to several matters in connection therewith. Mr. Shaw is very enthusiastic about the prospects of Greenwood and the Boundary country. Viewing the mining interests from the standpoint of future development, he regards them as of the greatest importance to the province as a whole.

In an interview with a News-Advertiser representative, Mr. Shaw said: "With the promised advent of the Canadian Pacific Railway, the economic aspect in Boundary Creek district has greatly changed within the last six months, both in business and mining. The big properties have been installing new machinery and are getting ready to ship. In each of the numerous mining camps surrounding Greenwood, there is one or more of such mines. In Greenwood camp, for instance, there are five or six practically on shipping basis, and the railway company is building spurs into all the camps. This means that the working force of the men will be greatly increased in each case, and that cottages for operatives, boarding and bunk houses, etc., will be necessary. In other words, the mine owners require facilities for carrying on the work of the mines.

"Under these circumstances the question of surface rights becomes one of very material consequence, and at the present time is agitating the minds of the mine-owners in no small degree. The possibility of others acquiring these rights for speculative purposes is ever present, and naturally the mine-owners do not feel like undertaking extensive improvements without a certainty as to the title. This is also a consideration of importance with those acquiring or seeking to acquire claims for mining. It is retarding operations now and will continue to retard them if not definitely settled. Most of the mineowners, in fact all of them, prefer men with families if they can get them, It is vastly better in the interest of the mining camps; and without proper housing it is not possible to get such a class of miners.

"There is a large number of mining men and investors in the district looking out for suitale properties, and any uncertainty as to matters affecting investments has a decidedly prejudical effect, more especially all along the Washington side of the line—at Republic, Meyers creek, Oro and elsewhere—good mining properties are being discovered, and the inducements to Canadian and British capitalists to invest there are daily becoming greater. Many of them are going over to that side of the line, who should, if possible be retained on our side. Hitherto, or until recently, all the mining was being done in British Columbia.

"Now that the political situation has cleared somewhat, the people of the Boundary district are hopeful that certain of the matters affecting the mining, and their interests generally, the consideration of which has apparently been held in abeyance, will have attention. They are, I may say, greatly pleased with the new turn of affairs so far.

"There are many things we want up in the Boundary district which would give general satisfaction, if their necessity were conceded. We need a local supreme and county court registrar, preferably in Greenwood; we want a local mining recorder with the powers of a gold commissioner; we want a definite decision as to the right of claim owners to secure surface rights, as would appear to be the intention of the law as it exists; we require greater expedition in the recording of title deeds, and the issuance of crown grants; and we want more justices of the peace and county constables. Down here you cannot be expected to appreciate the inconvenience, delay and uncertainty that are caused sometimes by the lack of such facilities. Of course the people up there are not unreasonable as a class, nor are they 'kickers,' moreover, they do not in a new district expect to get everything in a day, and it is, too, generally understood that the government, as a whole, is largely guided in such matters by the legal adviser of the crown; but as the situation changes they see no good reason why these grievances—and they are grievances—should not be remedied, and as I said before, they are hopeful that their representations will have full and fair consideration.

"It is expected that passenger trains will be running into Greenwood by the 1st of October, when very considerable activity will result. For some time merchants have been holding back orders, and heavy consignments of machinery and other material are dated so as to come in by rail. That together with the fact that the prospectors and mining men are out on the hills during this season, has made business quieter than it would otherwise have been, but in a month or two at the outside the Boundary will be a very busy district, particularly around Greenwood. There are numbers of enterprises depending upon the arrival of the railway to take definite shape.

"Greenwood is bound to be a big and important place. It is surrounded by mining camps, and being very solidly built and developed. Its business men are all on a good footing, with a reputation for sound business methods, a fact which will be verified by any traveller or financial man who knows the district. It has three banks and already does a large wholesale trade. The country is opening up in every direction, and it is quite out of the question to keep track of the new strikes and discoveries that are being made. Greenwood, with the start it has will largely control the business of the new camps and the smelter towns. A board of trade has been started and promises to have an active and useful career.

"It is a striking feature of the Boundary district that there has not been, so far as I know, a single wild-cat proposition put on the market, and every property so far developed has improved in values with depth, and promises success. That speaks volumes for the people who have come into the district, and we wish to maintain that reputation if we can, and to obtain conditions as favorable as possible for carrying on the industry so successfully inaugurated."—News-Advertiser.

F. W. GROVES.

License Authorizing an Extra-Provinicial Company to Carry on Business.

"COMPANIES' ACT, 1897."

CANADA
PROVINCE OF BRITISH COLUMBIA.

No. 156.

THIS IS TO CERTIFY that the "Jewel Gold Mines, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at 15, Philpot Lane, London, England.

The amount of the capital of the Company is £80,000, divided into 80,000 shares of £1 each.

The head office of this Company in this Province is situate in Rossland, and Gilbert Mahon, agent for the Company, whose address is Rossland aforesaid, is the attorney for the Company.

The objects for which the Company has been established are:—

(1.) To purchase, take on lease, or otherwise acquire any mines, mining rights and metalliferous land in British Columbia or elsewhere, and any interest therein, or to acquire any options to purchase the same or any interest therein, and to explore, work, exercise, develop, and turn to account the same, and in connection therewith to enter into and carry into effect, with or without modification, the agreement referred to in clause 3 of the Articles of Association of this Company:

(2.) To search for, prospect, examine and explore mines and ground supposed to contain minerals or precious stones and to obtain information in regard to the same:

(3.) To search for, crush, win, get, quarry, calcine, reduce, amalgamate, dress, refine, manipulate and prepare for market, auriferous quartz and ore, and other mineral substances (whether auriferous or not) and precious stones, and generally to carry on any metallurgical operations which may seem conducive to any of the Company's objects, and to buy, sell and deal in bullion, specie, coin and precious metals:

(4.) To buy, sell, manufacture and deal in plant, machinery, implements, conveniences, provisions, articles and things capable of being used in connection with metallurgical operations or required by workmen and others employed by the Company:

(5.) To carry on all kinds of promotion business, and in particular form, constitute and promote companies, syndicates or associations with objebts similar or akin to the objects or some of the objects of the Company, and to take or otherwise acquire, hold, deal in, traffic with or underwrite any shares in the capital or any debentures, debenture stock or other interests of or in such companies, syndicates or associations:

(6.) To carry on business as financiers and concessionaries, and as underwriters of shares and securities of companies:

(7.) Generally to undertake and carry out all such business and operations (except the issuing of policies of assurance upon human life) as may be legally underteken by an individual capitalist:

(8.) To purchase or otherwise acquire and undertake all or any part of the business property and liabilities of any person or company carrying on any business which this Company is authorized to carry on or possessed of property suitable for the purposes of the Company:

(9.) To construct, carry out, maintain, improve, manage, work, control and superintend any roads, ways, tramways, branches or sidings, bridges, reservoirs, canals, docks, wharves, water-course, hydraulic works, gas works, electric works, factories, warehouses and other works and conveniences; which may seem directly or indirectly conducive to any of the Company's objects, and to contribute to, subsidize or otherwise assist or take part in any such operations:

(10.) To enter into any agreement with any Government or authorities, supreme, municipal, local or otherwise, and to obtain from any such government or authority all rights, concessions and privileges that may seem conducive to the Company's objects or any of them:

(11.) To enter into partnership, or into any arrangement for sharing profits, union of interests, joint adventure, reciprocal concessions or co-operation with any person or company carrying on, or engaged in, or about to carry on or engage in, any business or transaction which this Company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company, and to take or otherwise acquire and hold shares or stock in or securities of, and to subsidize or otherwise assist any such company, and to sell, hold, re-issue with or without guarantee or otherwise deal with such shares or securities:

(12.) Generally to purchase, take on lease, or in exchange, hire or otherwise acquire any real or personal property, and any rights or privileges which the Company may think necessary or convenient with reference to any of these objects, or capable of being profitably dealt with in connection with any of the Company's property or rights for the time being, and in particular, any land, buildings, easements, licenses, patents, ships, barges, rolling stock, and stock-in-trade:

(13.) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other company having objects altogether or in part similar to those of this Company:

(14.) To invest and deal with the moneys of the Company not immediately required, upon such securities, and in such manner as may from time to time be determined:

(15.) To lend money to such persons and on such terms as may seem expedient, and in particular to customers of and persons having dealings with the Company, and to guarantee the performance of contracts by members of, or persons having dealings with the Company:

(16.) To raise or borrow or secure the payment of money in such manner and on such terms as may seem expedient, and particular by the issue of debentures or debenture stock, whether perpetual or otherwise, and charged or not charged upon the whole or any part of the property of the Company, both present and future, including its uncalled capital:

(17.) To draw, accept, indorse, discount, execute and issue bills of exchange, promissory notes, debentures, bills of lading, and other negotiable or transferable instruments or securities:

(18.) To remunerate any parties for services rendered, or to be rendered, in placing or assisting to place any shares in the Company's capital, or any debentures, debenture stock, or other securities of the Company, or in or about the formation or promotion of the Company or the conduct of its business:

(19.) To do all or any of the above things in any part of the world, and either as principals, agents, trustees, contractors, or otherwise, and either alone or in conjunction with others, and either by or through agents, sub contractors, trustees or otherwise:

(20.) To distribute any of the assets of the Company in specie among the members, or any class of members, or any individual members of the Company;

(21.) To procure the Company to be registered or recognized in British Columbia or elsewhere abroad:

(22.) To sell, improve, manage, develop exchange, enfranchise, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any part of the property and rights of the Company:

(23.) To do all such other things as are incidental or conducive to the attainment of the above objects, and so that the word "Company," "Syndicate," or "Association," in this clause shall be deemed to include any partnership or other body of persons, whether incorporated or not incorporated, and whether domiciled in the United Kingdom or elsewhere, and the intention is that the objects specified in each paragraph of this clause, shall, unless otherwise expressed in such paragraph, be in nowise limited or restricted by reference to or inference from the terms of any other paragraph or the name of the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 1st day of August, one thousand eight hundred and ninety-nine.

S. Y. WOOTTON,
(L.S.) Registrar of Joint Stock Companies.

LOST—A silver watch between Greenwood and Phoenix, Finder will be rewarded by leaving same at Boundary Creek Times office.

A BIG DISCOVERY OF COPPER.

Spokane Man Strikes Immense Body of Ore on the Yukon.

VANCOUVER, B. C., Aug. 16.—A deal was completed here today whereby the British America Corporation, a strong English company, will commence development work on a bond of $100,000 of a very rich copper mine on the Yukon. The property is four miles inland from White Horse rapids, and was discovered last year by Hebe Porter, a well known Klondyker, whose home is in Spokane. Porter had sold out his Hunker creek interests and commenced prospecting for copper near Bennett. He found it near White Horse in quantities that he had never before dreamed of. One vein was 40 feet wide of an average of $60 to the ton while the other was 30 feet wide. The supply of ore is practically unlimited. On his way back to White Horse Porter fell down a cliff and was found unconscious the same evening by W. Hinde-Bowker. Porter was in the Skagway hospital for a long time and still has a scar three inches long on his forehead. He recently took Bowker, the representative of the British America Corporation, to the claim with the result that a large bond was negotiated today. A tram line will be built from the mine to the river.

CANUCK VS. YANKEE.

Miss Jessie Lang and Mr. Max C. Karter Married at Victoria.

A private dispatch was received in this city last evening announcing the marriage of Miss Jessie Lang to Mr. Max C. Karter, which took place last evening in the new Episcopal church of that city. After the wedding the party proceeded to the residence of the bride's sister at No. 27 Avelon road, where a wedding supper was spread. A number of the friends of the high contracting parties were present and a pleasant time was had, and the health of the bride and groom was heartily toasted. The bride was a former resident of Ontario, and the groom hails from Helena, Mont. He has resided for some time in this city, where he has a host of friends. The happy couple will return to this city on August 20th, and after sojourning here a few days, will proceed to Greenwood, where Mr. Karter will take charge of the Imperial hotel.

Mr. Karter is a member of the Eagles and Knights of Pythias societies and last evening the members of these orders in this city wired congratulations to him and his bride.—Rossland Miner.

Midway Notes.

R. H. Bergman has been gazetted a notary public.

Sam Strong has returned from the West Fork, opposite Corkle creek, where he has been working on a group of claims. He reports good showings.

J. O. Thompson is taking a vacation up near Beaver creek. He and Elmore Collier are working on some of their properties there.

Dan McLaren of Carson was in town last week on his way to the Similkameen country.

School reopened Monday with Mr. McPhail again in charge. There are now 41 scholars on the roll.

Mr. T. A. Winters of the Colville bank was here last week.

Miss Jacobs, a sister of Mr. J. R. Jacobs of the Midway Trading Co., left for her home in California on Friday last. She will stop at Colville for a few weeks on her way home.

Mr. J. P. McLeod, who has been on a trip to the coast, returned on Tuesday evening, accompanied by his bride, formerly Miss McKenzie of New Westminister. It is said there are others contemplating a similar trip shortly.

Upon completion of the building next the Postoffice, it will be occupied by Messrs. Hain & Co. They intend moving the postoffice into it, which they will fit up with lock boxes and other conveniences.

Joe Shuster, one of the old time Midway residents, came over from Republic on Tuesday.

Mr. C. A. Stoess, C. E., leaves this week for Columbia. He has been engaged for the past few months on the Murray addition, necessitated by the C. P. R. right of way cutting through the plotted survey.

Chesaw Notes.

M. D. Hall, of Greenwood, has rented Saul Chesaw's ranch joining the town of Chesaw, for two years. This is one of the finest Indian ranches on the reservation, and with the amount of produce required by the people in the new town, Mr. Hall is bound to make big money.

We learn that other ranches on the creek have been leased within the last few days and Indian farmes on Myers creek will soon be a thing of the past.

A daily stage is now running from the boat landing at Okanagon landing to Chesaw. Another stage is to be put on daily from Rock Creek to connect with the Snodgrass stage line, and the people of Republic are cutting a road over the mountain by Torodo and in a short time daily stages will run between Republic and Chesaw. There is already a big crowd coming in that way on the present pack trail.

COPPER ST. GREENWOOD, B. C.

GREENWOOD AND DISTRICT.

W. T. Smith left this week for Spokane.

Geo. F. Williams has returned from Trail.

Neil Lamont is slowly recovering from his illness.

A. Bourk & Co. have opened a general store at Phœnix.

J. P. McLeod and bride returned to Midway on Wednesday.

W. J. Snodgrass arrived from Okanagan Falls on Tuesday with a load of express.

J. R. Miller, the owner of the Miller block, spent several days in the city this week.

Good progress is being made with erections of the Baptist and Methodist churches in the city.

Rev. B. H. Balderston will conduct services in Rendell's hall on Sunday morning at 11 o'clock.

Drs. Jakes & Oppenheimer have removed to handsomely furnished offices in the new Rendell block.

E. C. Holden of the London and British Columbia Gold Fields company was in the city from Nelson last week.

J. H. Macfarlane business manager for the Montreal-Boundary Creek company is recovering from his recent illness.

Geo. B. Maculey, of Cariboo fame, and E. D. Cowan, a well known newspaper man, were in from Spokane last week.

Messrs. Olson & Phelan have leased the store in the Miller block now occupied by the Pacific bar. They will remove their stock about the 1st of September.

D. C. McRae, of the firm of Smith & McRae, has returned from a week's business trip to Spokane. He was accompanied by his brother who is spending a few days in the city.

The headquarters for the lumber mills for the district is to be found in the Guess building, corner of Government and Copper streets. The mills are doing business under the name of Yale Lumber company.

Fred Hilbert and Peter Lover have returned from Boomerang creek, West Fork. They have been working the Iconoclast, and brought some samples of rich looking ore. There is a 35-foot shaft on the Iconoclast.

A school house is to be erected at Phœnix. The residents of this busy burg are contributing the necessary amount for the building. An entertainment will be given in the near future to defray of portion of the expense.

Already freight for Boundary Creek points is arriving via the Columbia & Western to Cascade. The first consignment was a carload of sheep and hogs for P. Burns & Co. As will be seen from Mr. Peters' circular, the C. P. R. intends routing shipments along this line.

J. A. Morgan of Camp McKinney came into the city on Wednesday morning. He was armed with an antiquated revolver which he began to flourish freely after imbibing several jolts of Greenwood whiskey. Chief Maclaren gathered him in and Police Magistrate Hallett fined him $10.

Ex-Attorney-General Martin is in trouble with his brother lawyers. Before a meeting of the benchers in Victoria recently, he admitted the facts in the alleged case of champerty and was suspended until the first week in October. He intends to appeal to the full court as to whether champerty is illegal or not. The trouble arose over Martin agreeing to take half the money involved in a suit if successful.

Cascade celebrated the arrival of an engine in the city on Saturday last. The necessary stringers for the big bridge across the river arrived after considerable delay. They were placed in position, the track laid and the big engine came into the gateway city. Work of track laying is still further delayed by the lack of material for the smaller bridges. The contractors are hopeful however that the road will be here by September 15th.

H. M. Keefer has returned from a six weeks holiday trip to San Francisco and other coast cities. He states that many inquiries are being made about Greenwood and Boundary creek. Mr. Keefer tells a bit of news that will prove interesting to the people of Greenwood. While in San Francisco he saw embarking on an Australian liner W. J. Lee and wife. Mr. Lee's brief newspaper career in the city and his subsequent escapades in Spokane brought him into prominence. He and his wife were bound for Honolulu to begin life anew.

E. Cronyn, of Rossland, was in the city this week.

W. H. Vass, a Montreal commercial man, was in the city this week.

A. Dobell, of Quebec, was among the many visitors to the city this week.

Have you looked at your subscription label? It will tell you whether you are in arrears or not.

W. F. Askew, representing the Kootenay Cigar company, was in the city this week.

Thos. McDonnell, of McEntire, McDonnell & Co., returned on Thursday from Spokane.

J. Schroeder, of the Chesaw Townsite company, spent several days in the city this week.

It is reported that F. S. Barnard has decided to replace the burnt Windsor hotel with a handsome brick block.

Mrs. Foreman and Mrs. Nichols have arranged to repeat Tuesday night's concert in Grand Forks next week.

A. S. Black, C. Scott Galloway and J. H. Macfarlane have applied for the incorporation of Greenwood Lodge, A. F. & A. M.

The Cannon Ball Mines Ltd. and the Victoria Gold and Copper Mining company have been incorporated to develop Christina Lake properties.

Mayor Goodeve, of Rossland, a prominent officer of the Grand Lodge, A. F. & A. M., is expected here shortly for the installation of the local lodge.

T. J. Gorman who ran a road house near English Point, is building an hotel on the New York claim, J. B. McArthur's Greenwood camp townsite.

A report comes from Ymir that Rev. Dr. Robertson, superintendent of Presbyterian mission was ill there. Dr. Robertson was here a short time ago.

An invitation to visit Greenwood has been extended to the Canadian Press Association by the local papers and the board of trade. The members of the association are now travelling westward.

The city is putting on airs since the announcement has been made that the Mother Lode smelter will be built. Chief Maclaren and his officers patrol in all the glory of fashionable uniforms and gold buttons.

Alex. Bannerman, of Victoria, visited his brothers in this city during the week. He has been operating in the Klondyke country during the past two years. Mr. Bannerman left on Friday to visit friends in the east.

A large party of Greenwoodites spent Sunday in Chesaw. They visited the Review and other properties in the camp and returned on Monday. The trip, although marred by the heavy rain, was enjoyed by the visitors.

J. Edwards Leckie, M. E., Ronald Harris, M. E., and W. S. Keith, M. E., are a trio of mining experts who went up the Main Kettle river to Copper creek for the purpose of examining the big strike of rich bornite ore which was reported in the Times last week.

W. F. Anderson, travelling passenger agent for the C. P. R., is making arrangements for passenger traffic on the Columbia & Western to Cascade. It is expected that a large number of passengers will avail themselves of this opportunity to shorten the stage route.

J. C. Keffer and daughter of Cleveland, Ohio, are visiting Frederic Keffer manager of the B. C. Copper company. This is Mr. Keffer's first visit to his son in Boundary creek and he has enjoyed it very much. Mr. Keffer is an old newspaper man. Miss Keffer is Mathematical teacher in the Cleveland high school.

Two enterprising firms are incorporating as joint stock companies. A. H. Sperry & Co., will hereafter be known as the A. H. Sperry Company, Limited. Wynkoop & Stephens, of Phoenix, are incorporating under the firm name of the Wynkoop-Stephens Trading Company, Limited. Notices of incorporation will appear in the next issue of the B. C. Gazette.

William Forrest has been appointed road superintendent for this district, and began work this week with a gang of men. Altogether he is authorized to spend $950, as follows $500 on the main road, between the boundary line and Grand Forks; $300 on the wagon road between Cascade and English Point; $150 on a trail up Baker creek. All of these expenditures are much needed, and will go quite a distance in putting the highways in fair condition. The trail up Baker creek is an improvement that will greatly facilitate the opening up of the Shamrock mountain properties, as well as those on Sutherland creek. While the amount is small, it will put in a fair trail nearly up to the Elmore claim, one of the best properties in that locality, which is surrounded by many other promising claims, with great ledges.—Cascade Record.

THE

Demand for Space

Owing to the rapid manner in which we are putting in stock makes it necessary that we should "get a move" on the goods left over to make room for our fall purchases which are coming in daily.

—:o:—

....OUR MOTTO IN BUSINESS....

Is always to keep abreast of the times, to do so we are offering at a price the goods we wish to clear out.

These goods will be exposed for sale on Saturday with a good large ticket on them marked in plain figures for your consideration. We ask your inspection of the goods if they do not excel in value anything you have seen in the district we do not expect you to purchase,

Some Special Drives will be given in... CLOTHING, PANTS, SHIRTS, UNDERWEAR, ETC.

RENDELL & CO.

Your money cheeryfully refunded if the goods don't suit.

PRESCRIPTIONS

Need special care in compounding as well as pure drugs. "Many a broth is spoiled in the making." Any cook may make rich, light pastry with the same materials that another converts into a soggy mass. A skillful diamond cutter may quadruple the value of a gem by artistic cutting. Care in handling and good material go hand in hand. That is what we assure you of when you bring or send in prescriptions to us.

BRUSHES.

We have a particularly fine line of Brushes from 50c to $5.

Miller Bros.....

DRUGGISTS and JEWELLERS.
