1932	5,197	3,708	1,489	5,017	2,442	2,575	4,064	704,000	5.77

DEATHS.

There were 6,150 deaths in the Province for the year 1932, and of these 3,708 were males and 2,442 females. The rate per 1,000 population was 8.7, as compared with 8.8 for the year 1931.

INFANT MORTALITY.

The number of deaths of children under 1 year of age was 477, and of these 264 were males and 213 females. The rate per 1,000 living births was 46.7, as against 49.7 in the year 1932. British Columbia continues to have the lowest infant-mortality rate in the Dominion. The number of premature births was 125.

MATERNAL MORTALITY.

The number of deaths attributed to maternal mortality was 54; the rate per 1,000 living births being 5.2, as against 6.3 for the year 1931.

TUBERCULOSIS.

Deaths from tuberculosis during the year 1932 numbered 565—males 323, females 242—as against 642 in the year 1931. Deaths among the different races were as follows:—

Indians, 189 deaths; estimated population, 24,599; rate per 1,000 population, 7.60.
Chinese, 30 deaths; estimated population, 27,139; rate per 1,000 population, 1.10.
Japanese, 32 deaths; estimated population, 22,500; rate per 1,000 population, 1.42.

By deducting the deaths from tuberculosis among the above-mentioned races the rate per 1,000 population for the Province would be reduced from 0.80 to 0.49.

CANCER.

Deaths from cancer during the year 1932 numbered 762—males 424, females 338—as against 724 for the year 1931; the rate per 1,000 population being 1.08, as against 1.04 for the year 1931.

MARRIAGES.

There were 3,604 marriages in the Province during the year 1932, as compared with 3,879 in the year 1931; the rate per 1,000 population being 5.1, as compared with 5.6 the previous year.

ORIENTAL RACES.

Chinese.—The total number of registrations of Chinese births during the year ended December 31st, 1932, was 162—males 75, females 87—as against 177 registrations in the year 1931. Chinese children born alive and registered in the year 1932 numbered 136—males 65, females 71—the balance, 10 males and 16 females, being born prior to the year 1932. There were 3 still-births—males. The total number of Chinese deaths registered during the year 1932 was 207—males 192, females 15—as against 218 the previous year. Deaths from tuberculosis, 30—males 27, females 3; from cancer, 24 males. Deaths under 1 year of age, 10—5 males, 5 females.

Japanese.—The total number of registrations of Japanese births was 760—males 380, females 380—as against 1,342 in the year 1931 and 1,570 in the year 1930. The number of children born alive and registered during the year 1932 was 670—343 males, 327 females—as against 784 in the year 1931. Still-births registered, 10 males, 5 females. Registrations of Japanese deaths numbered 156—males 95, females 61—as against 187 in the year 1931. Deaths from tuberculosis, 32—males 15, females 17; from cancer, 7—males 6, female 1; deaths, children under 1 year of age, 40—males 16, females 24.

INDIAN RETURNS.

The total number of registrations of births of Indians for the year ended December 31st, 1932, excluding 18 still-births, was 645—males 323, females 322—and of these 510 were registrations of children born in the year 1932. Excluding 19 still-births, there were 491 deaths of Indians registered in the year 1932—233 males, 258 females. Deaths from tuberculosis numbered 167—males 81, females 86; from cancer, 13—males 2, females 11. There were 76 deaths of children under 1 year of age. There were 167 registrations of marriages.

"ADOPTION ACT."

Particulars of birth relating to 119 children adopted under the "Adoption Act" were received and filed in this office during the year 1932.

GENERAL REMARKS.

The Report of the Inspector of Vital Statistics follows the tabulated statements and forms a useful supplement to this report. In conclusion, I desire to express to all officers connected with this branch of the Health Department, and to the members of my staff, my appreciation of their unfailing courtesy and co-operation.

I have, etc.,

HERBERT B. FRENCH, M.A.,
Deputy Registrar of Births, Deaths, and Marriages.

REPORT OF INSPECTOR OF VITAL STATISTICS.

VICTORIA, B.C., November 30th, 1933.

H. E. Young, M.D., C.M., LL.D.,
Registrar, Births, Deaths, and Marriages, Victoria, B.C.

SIR,—I have the honour to submit my fourth report as Inspector of Vital Statistics for this Province, covering the period January 1st to December 31st, 1932.

FRAUDULENT REGISTRATIONS.

The investigation into fraudulent registrations still continues. The manner in which the reports from the Royal Canadian Mounted Police are prepared has greatly assisted the Vital Statistics Branch, and the thanks of the Provincial Government is due to all officers of that Force in the Province. Owing to the fact that we have to carry some of our investigations to other parts of the world, the work in this connection is necessarily slow, as in accordance with your instructions the investigation into each and every case is fully carried out before any action is taken—a vital necessity as a protection to the Government.

REGISTRATION DISTRICTS.

NORTH BEND CLOSED.

On October 15th, 1932, the Provincial Police Department closed the office of the detachment at North Bend. The constable in charge held the appointment of District Registrar of Vital Statistics and Marriage Commissioner for the Registration District of North Bend, as constituted under the "Vital Statistics Act."

Efforts to fill this position proved unavailing, so as a temporary measure the District Registrar of Vital Statistics at Hope was appointed to act in the aforesaid capacities.

GISCOME CLOSED.

During November, 1932, the Provincial Police Department closed the office of the detachment at Giscome. The constable in charge held the appointment of District Registrar of Vital Statistics and Marriage Commissioner for the Registration District of Giscome, as constituted under the "Vital Statistics Act."

Efforts to fill this position proved unavailing, so as a temporary measure the District Registrar of Vital Statistics at Prince George was appointed to act in the aforesaid capacities.

OLD ORIGINAL REGISTRATIONS.

The work of transferring the original registrations of births, deaths, and marriages, filed in the offices of the District Registrars during the period 1899 to March 31st, 1913, to Victoria continues, and many original registrations have been found, of which the transmission of the copies to Victoria—as the Statutes then required—had been neglected. It is hoped to complete the transfer of the birth registrations from every office by the end of February, 1934.

THE NEW BIRTH INDEX.

On August 26th, 1932, the new birth index mentioned in my last report was completed, and proves to be of great assistance in the searching-work, more particularly in cases where delayed registrations have been completed some years after the date of birth, which heretofore entailed many hours of tedious work.

THE MONTHLY BULLETIN.

May I again express my thanks to the members of the staff of the Provincial Board of Health and others for their assistance in making the Monthly Bulletin of the Provincial Board of Health interesting and worth while. During the year we have received some very fine articles, and I feel I should be amiss if I did not at least mention the series written by Dr. Hill, the Director of the Provincial Board of Health Laboratories at Vancouver, on the subject of the Public Health Nurse. During March a special Bulletin dealing with the 1931 census as affecting British Columbia was prepared for the use of the other departments of the Government, while

the smallpox epidemic of 1932 in and adjacent to the City of Vancouver was fully covered, giving the medical practitioners of the Province first-hand information concerning the history of each case. Outside of the mailing-list to meet the requirements of the Statutes the Bulletin is only sent upon request. Such requests have been received from all over the North American Continent.

STANDARD STATISTICAL PUBLICATION AREAS.

That the creation of the Standard Statistical Publication Areas in British Columbia has been one of the biggest advances made in the statistical field in this Province for a good many years must be acknowledged. We feel that we have at last got something of a concrete nature upon which to work. Heretofore it has been practically impossible to publish the results of the census, vital statistics, or strike rates other than for the whole Province, and there should now be no hindrance to the publication of all governmental statistical information based on these areas, whether the different departments use these areas for administration purposes or not.

NEW "VITAL STATISTICS ACT" TO BE SUBMITTED.

The adoption of the Statistical Publication Areas necessitates amendments to the "Vital Statistics Act."

So many changes are needed in the administrative sections of the Act that by your direction we have drafted a new Act, which is to be submitted at the next session of the Legislature.

As a whole, the Act has been drawn up in a much more straightforward manner, with clearer wording and uniformity throughout. The main objects of its provisions are set out in the first section, with the administrative sections following in their proper order. We have included provision for cases where the birth of an illegitimate child has become legitimated by the subsequent marriage of its natural parents; the Registrar upon being furnished with satisfactory evidence may substitute a new registration covering the birth of the child. This will, to a certain extent, do away with the stigma of illegitimacy, which heretofore has been one of the problems confronting the Vital Statistics Branch.

Provision is also made whereby the school-teachers of the Province shall make a return to the Department covering all the children attending school for the first time. It is our intention to check these school lists with the birth registrations on file, and where registration has been neglected, to communicate with the parents with the object of securing the neglected registration.

Similar provision is made for the receiving of returns from those in charge of cemeteries and crematoriums, such returns being checked with the death registrations.

Provision is also made whereby the Registrar may secure the loan of church registers; make certified extracts of the baptisms, such extracts to become part of the Registrar's records.

In drafting the new Act we have had the valued co-operation of the other Provinces and Mr. A. V. Pineo, the Legislative Counsel of British Columbia. It is proposed that the new Act shall come into operation on the 1st day of July, 1933.

REGISTRATION OF MINISTERS AND CLERGYMEN.

The registration of ministers and clergymen under the authority of the "Marriage Act" of 1930 still proves of great assistance to the Vital Statistics Branch, in keeping a close check on the marriage situation in this Province. Registration of marriage continues to be almost 100 per cent., while the close contact between the Department and the clergy themselves enables us all to solve our problems, and gives them the feeling of protection, along with the contracting parties to the marriages.

In the following table is shown a recapitulation of the number of certificates of registration under the "Marriage Act" issued to the ministers and clergymen authorized and cancelled for the period September 1st, 1930, to December 31st, 1932:—

In closing, may I again express my appreciation to the officers of the Provincial Police for their very valuable assistance; to the District Registrars of Vital Statistics for their co-operation; to yourself and Mr. French for the kindly advice and consideration given to all matters and at all times.

I have, etc.,

J. T. MARSHALL,

Inspector of Vital Statistics.
