REPORT OF THE DEPUTY MINISTER OF MUNICIPAL AFFAIRS.

VICTORIA, B.C., August 31st, 1943.

Hon. A. Wells Gray,
Minister of Municipal Affairs.

SIR,—I have the honour to submit herewith the annual report of this Department for the year ended December 31st, 1942.

Assessed valuations show an increase, as will be seen from the following tables. Improvement valuations account for most of this increase.

Totals	$238,180.00	$130,000.00	$368,180.00

All money by-laws before being approved for submission to the electors were carefully examined as to the necessity, the estimated cost, the financial ability of the municipality to repay the loan, and the relation of the life of the works to the maturity dates of the debentures. Wherever possible debentures issued were in serial form. Following your instructions, the Department has continued to advise that works other than those considered absolutely essential be laid over until after the war. This policy has been supported whole-heartedly by the municipalities.

This Department has also advocated that tax rates be maintained at previous levels and any surplus funds be set aside for post-war expenditures. At the 1941–42 Session of the Legislature, at the request of the Union of British Columbia Municipalities, several sections were inserted in the "Municipal Act" granting additional powers to create and set aside reserve funds, and many municipalities are taking advantage of these powers.

I am again glad to report that there have been no further defaults during the year.

As of December 31st, 1942, the powers of the Commissioners for the City of Prince Rupert and for the District of Burnaby were revoked. Arrangements were completed for the holding of the necessary election of a Council and a Board of School Trustees and the usual powers and authority reinvested in such Council and Board of School Trustees. In the case of the City of Fernie, upon petition a similar arrangement for the holding of an election was cancelled and the powers and authority of the Commissioner continued until after the war.

During the year, under authority of an Order in Council, a Public Inquiry was held by me as Inspector of Municipalities into the conduct of the business of the City of Kaslo. The evidence given at the inquiry disclosed a serious condition of affairs. Remedial steps have since been taken to put the affairs of the city upon a satisfactory basis.

Three areas were incorporated as villages during the year 1942, namely:—

The Corporation of the Village of Qualicum Beach (May 5th, 1942).
The Corporation of the Village of Cranberry Lake (June 11th, 1942).
The Corporation of the Village of Westview (June 11th, 1942).

In June of the present year another conference of municipal officials was held and well attended. These gatherings continue to be beneficial to all concerned and are of particular value to the municipal officials in the carrying-out of their statutory duties.

The general steady improvement in the municipal financial situation has been maintained and the Councils who are responsible for this gratifying condition are to be commended.

I have pleasure in recording the appreciation of the Department in the continued co-operation of both Councils and their officials.

E. H. BRIDGMAN,
Deputy Minister.

VICTORIA, B.C., August 28th, 1943.

E. H. Bridgman, Esq.,
Deputy Minister of Municipal Affairs.

SIR,—The report of the Department for the year ended December 31st, 1942, is attached hereto.

Schedule XXIII. and report dealing with loans and debentures under "The Municipal Improvements Assistance Act, 1938," have been omitted.

This Department has been advised by the Deputy Minister of Finance for the Dominion that all half-yearly payments in respect of projects for which loans were approved by the Dominion under such last-mentioned Act due the Dominion, December 31st, 1942, and June 30th and July 1st, 1943, have been received by him.

The note on Schedule VII. for the year 1942 remains unchanged: "Some municipalities have written up to par the value of their own debentures, purchased for the sinking funds, while other municipalities carry corresponding purchases at cost. This makes it impossible to compare the condition of the funds accurately. Showing, at the end of the year, the difference between par and cost of the above-referred-to purchases creates an excess in the sinking fund account. This difference should be spread over the unexpired term of the purchased debenture. Sinking fund computations are not always reflected with exactness. In many cases the requirements are calculated only up to the time of the last tax levy, several months before the end of the year, and allowance is not always made for the accrued interest."

Figures for the City of Vancouver, when comparable, have been shown separately; the required information either having been supplied by the Comptroller on request or taken from the 1942 annual report of that City and sources noted.

As formerly, the source for the Condensed Statement of Assets and Liabilities was the printed audited annual balance-sheet of the municipality.

During the year visits were paid to a number of municipalities and where necessary suggestions offered for the improvement of administrative details. I regret, owing to lack of time, it was not possible to visit more municipalities, for I am convinced that by so doing better effect can be given to the policy laid down by the Minister of rendering practical assistance to all municipalities.

B. C. BRACEWELL,
Supervisor of Municipalities.

Note.—Some municipalities have written up to par the value of their own debentures, purchased for the sinking funds, while other municipalities carry corresponding purchases at cost. This makes it impossible to compare the condition of the funds accurately.

Showing, at the end of the year, the difference between par and cost of the above-referred-to purchases creates an excess in the sinking fund account. This difference should be spread over the unexpired term of the purchased debenture.

Sinking fund computations are not always reflected with exactness. In many cases the requirements are calculated only up to the time of the last tax levy, several months before the end of the year, and allowance is not always made for the accrued interest.
