THE CRESTON REVIEW

VOL. XI. CRESTON, B. C., FRIDAY, JUNE 20, 1919 No. 19

Institute Women Have Busy Session

Although the attendance was hardly up to standard the June meeting of Creston Women's Institute on Friday afternoon last was one of the busiest sessions the organization has ever had —at least in the way of putting through business of considerable importance locally.

During the visit of the Advisory Board member, Mrs. Chalmers of Thrums, last month, among the things she had to suggest as tending to improve the institute's usefulness was the recommendation that the Institute should interest at least one of its members to offer for election as school trustee. The idea was broachen at this meeting, but after a very full discussion the members decided that for the present the better plan would be to appoint members to visit the different schools from time to time, and the following were selected for the work: Erickson, Mrs. E. E. Cartwright; Canyon City, Mrs. Con. Hall; Alice Siding Mrs. M. B. Long. Creston, Mrs. St. Jean, Mrs. Lyne. In the educational department effort the Institute went on record as favoring the establishment of a normal school at Nelson, the show of heads being quite unanimous, although some present did not vote either way.

The ladies went unanimously on record as favoring the holding of the 19-20 Kootenay Women's Institute conference at Creston. The resolution was put through at this session so as to have the matter settled in ample time to prepare the formal application for the conference at the 1919 meeting which is to be held at Nakusp, possibly in August. Creston Institute also went on record as favoring the re-election of Mrs. Chalmers to the provincial board. No move was made, however, to endorse a suggestion from Nelson that the Creston ladies go on record as favoring the perpetuation of the 54th Battalion by making it a permanent militia corps with headquarters at Nelson. Other points in Kootenay are urging similar recognition for other regiments, so it was decided to let the matter stand for the present till at the others are heard from.

A letter was read from Lieut. R. Sinclair-Smith outlining the aims and objects of the Woman's Auxiliary of the Great War Veterans' Association, which went into some detail as to the obligations of those joining it. Preliminary arrangements were also made for the expected return visit of Miss Hayes, the household science expert, who will be here probably in November for a four-or six-day stay. It was decided to have her specialize in demonstrations on canning meats and vegetables, as well as on dry cleaning.

Three papers were read. Mrs. Mallandaine giving a timely talk on child welfare; Mrs. Ebbutt a discourse on home decorating, while Mrs. Thurston's effort was on the ideal dining room. Throughout the afternoon there was considerable activity at quilting, twenty-five blocks being finished—almost enough to finish out the fifth comforter the ladies have made for the new Nelson hospital.

Since the last session six new members have been enrolled, which brings the membership list up to 61. The usual tea was served, by Mesdames Maxwell, Cook, Hamilton and Lyne, and the customary offering for Red Cross effort totalled $2.75.

Canyon City

D. Rogers, who has been a patient at the Nelson hospital for some weeks past, got home again on Wednesday, considerably improved in health, and by taking things easy hopes to be shortly feeling his old time self.

Strawberry shipping started at this point on Monday, when the Huygens & VanAckeran, Knott, Hall and Pochin ranches each had a crate or two for export. The crop is a dandy one but a heavy shower of rain is needed at once to ensure even a 75 per cent. crop.

Mrs. Con. Hall has been asked to act as district visitor at the Canyon school by the Women's Institute. Other points in the Valley are also having an official visitor named.

Word arrived the fore part of the week that Mrs. Pochin and little Miss Helen had arrived safely at Liverpool after a very pleasant trip across the Atlantic. She left here about three weeks ago.

A combination Creston and Canyon crowd of young people are having weekly hops in the Olmstead residence this month, with the music in charge of Mr. Chorlton of Creston.

The mill is due to commence operations before the end of the month. The box factory is running to capacity and from the present appearances will utilize at least half a million feet of lumber alone.

Things were a little mixed up in the ranch sale last week. It was the North property that was sold, and the buyer was Mr. Jemmer, master mechanic at the Greenhill mines at Blairmore. There is 23 acres in the place, and the sale was made at $800 we hear.

A couple of the Helme boys have arrived from Vancouver with the intention of starting clearing operations on some bush land their father has in the Huscroft section. Both are overseas veterans—with four birthdays spent in France to their credit, too.

Alf. Nelson of Taber, Alta., who recently purchased the Saffron Petroschuk place, arrived this week to take possession. He brings with him Mrs. Nelson and a family of eight children. Petroschuk has changed his mind about migrating to the prairie and will most likely buy another property here

Dolf Johnson is another old-timer now at Dome Creek, who is renewing old acquaintances in this section.

No word yet as to when operations will start on the new bridge. Engineer Ramsay was a Valley visitor last week but so far no one has been heard from that has heard anything about the bridge in connection with his visit.

Wynndel

The sawmill commenced the season's cut on Monday with a crew of a dozen men employed. There are about 300,000 feet of logs in the yard, but that that will hardly be sufficient to take care of the business already in sight for the box factory.

Messrs. Dewar and Ofner were at Sanca over the week-end trying out the fishing, but had a very light catch —just enough for eating purposes while away.

Cecil Moore, who has been at Birchbank for the past few months, has joined up with the mill and box factory staff for the year.

Dave Dow and Clark Moore of Creston arrived this week, and are working at the M. Wignen sawmill—the former handling the yard team.

Chas. Fass of Creston has a couple of men here busy at land clearing operations on a 30-acre tract he owns adjoining Uri brothers.

Clem. Payette is handling the mill boarding house, which opened this week. Already about a dozen men quartered there.

Edward Butterfield got back from service in Siberia a few days ago after spending a couple of weeks in quarantine at Vancouver, due to a few cases of mumps developing on the trip home. He and Douglas were at Proctor for a dance on Monday gight.

Mr. Sutherland of Nelson, the provincial boiler inspector, was here last week taking an official look over the boiler at the Wigen mill, as well as the boilers that have just been installed at the Winlaw sawmill.

About twenty couple were in attendance at the first of the season dances at the clubhouse on Saturday night. The music was furnished by Messrs. Ringheim, both of whom are violinists and a fine time was had by all. A number autoed down from Creston.

At Kaslo present indications are that the 1919 cherry crop will be considerably lighter than last year.

Erickson

Erickson lands are still in demand. This week R. Lamont put through a cash deal for two five acre lots south of the station on the river bank. The buyers are two Smith brothers, who come from Bellvue, Alta.

Mrs. Ryckman was a visitor at Cranbrook a few days the latter part of the week. She is expecting her son, Pte. John Ryckman, and bride from overseas any day now. He arrived at Halifax over a week ago.

Mr. Willson of Calgary, who purchased the ten acres next the Penson ranch last week, is here and as soon as his effects arrive will be busy at clearing. He is a cabinet maker by trade.

An official school visitor has been named for Erickson by the Valley Women's Institute, and Mrs. E. Cartwright has been asked to act this capacity. The idea is to have a visitor instead of a lady trustee.

The June drop is not seriously thinning out any of the apples, and from present appearances there will have to be a lot of hand work. McIntosh, Spies and Kings all indicate a very much heavier yield than in 1918.

The M. R. Palmer ranch is awarded the 1919 diploma for having new potatoes for dinner, the noonday spread yesterday featuring new spuds of excellent quality and size for the middle of June.

Announcement is made that commencing this week Erickson will have a resident express agent in the person of Miss Marion Swanson of Creston who will attend to all details of shipping express this season. The office will be open from 10 a.m. until the departure of the afternoon train. If the company is agreeable a wire will be placed in the station and telegraph business handled as well. This is a convenience Erickson has long wanted, and they are sure to find in Miss Swanson a capable agent. With this office open it is likely considerable of the Canyon City shipping will be done here.

NEWS OF KOOTENAYS

Presbyterian pastor Lyon of Cranbrook is shouting for a woman school trustee in that town.

The moonlight waltz has struck Silverton. There they call it the serpentine waltz by moonlight.

The Kettle Valley Railway employees located at Penicton are organizing to start a co-operative store in that town.

The provincial government has given $750 to help defray the expenses of the mining convention at Nelson this week.

Trail Italians, who are leaving for sunny Italy these days, are reported to be cashing in on their Victory Bonds.

The Great Northern is considering tearing up the rails on its Grand Forks-Phoenix branch, according to the Gazette.

New Denver supplied 18 men for the great war, none of whom were killed, though several of them were wounded and gassed.

Out of a class of 27 taking the first aid course of instruction at Trail this spring, it is expected 20 will obtain pass standing.

The Kootenaian says that only a few and small gangs are busy at the north end of Kaslo riding on road work this year.

After four years at the helm W. B. Willcox has sold the Trail News to two of his staff of compositors, Messrs. Clark and Hall.

Last week Kaslo Presbyterians presented their organist with a purse of $50, as a slight token of appreciation of several years services.

At Trail the government gathered in $60 via the amusement tax process during May. Nearly all of it was from the moving picture theatres.

T. Padgett was the first Grand Forks rancher to cut alfalfa this year —on June 5th. This is almost three weeks earlier than last year.

At Bonners Ferry crude oil is being placed on all the sloughs and water holes adjoining the town with a view to abating the mosquito nuisance.

Another government cheque for $5000 has been received by the new hospital at Nelson. This makes $32,500 paid of a $40,000 government grant

Rossland's lady high school principal was not a distinguished success, and at June 1st the trustee had to bring in a male teacher to finish out the term.

After paying all expenses in connection with the banquet to C.P.R. president Beatty at Nelson a credit balance of $3.60 remains. The spread cost $396.

Teachers salaries at Cranbrook received a generous boost at the June trustee meeting. The principal of both the high and public school will each receive $2000 next year, while all the other teachers on the staff were raised $100.

On top of a light yield of cherries Kaslo is worrying because the quantity of driftwood coming down the lake this year is also light and visions of increased fuel bills is already disturbing the slumber of many of the retired citizens.

Sirdar

Our old friend Sam Bysouth is keeping the town fairly well supplied with dairy butter this season. At his ranch near Kuskanook he has five cows milking and is turning out a fine sample of butter in generous quantities.

Mrs. Jones was through here on Monday en route from Nelson on a business trip to Creston. She reports having green peas and new potatoes almost ready for use, while new turnips have been on the bill of fare since early in the month.

Mr. Collett, a returned soldier from Vancouver, has been looking over Lot 2636 and, we understand, has made application purthase the same, with the intention of going into cattle raising pending the development of an orchard.

Kuskanook boasts two motor boats this season, the newest one being a real speeder, the property of Sam Bysouth. It is a 22 h.p. craft and can readily negotiate the trip from Boswell to Kuskanook—about 18 miles—in an hour.

Provincial engineer Ramsay, Nelson, and road superintendent Moore of Kaslo, were visitors here the latter part of the week looking over the roads in this section. It is stated that Mr. Ramsay is urging the works department to sanction the making of a good road from the tower to Kuskanook, including the replanking of the bridges and widening them about 20 inches. Mr. Ramsay expects that if the much-discussed trans-provincial highway is gone on with it will be from here to Kuskanook by bridging the canyons and putting in a pier at the latter point so that autos can run onto C.P.R. steamers.

Mr. and Mrs. Perine and Mrs. McKinley of San Jose, Calif., who arrived early last week, equipped with fishing tackle and other paraphrenalia, intending to spend the next three months with Mrs. Jones at Kuskanook had to alter their holiday plans due to the fact that Mr. Perine found the altitude too high for him, and after but three days' stay had to start on the return trip. The ladies are cousins of Mrs. Jones, who accompanied them to Nelson.

Mr. and Mrs. Loasby and Mrs. Dennen and Richard left on Monday for a visit at Creston and Kaslo on Tuesday.

Mayor Daly has been selected as the Sirdar delegate to the big Liberal convention at Ottawa in August. He and Conductor Jackson are in semi weekly conference on the matter, and among other things will insist on an Irish leader. Lemieux was a good man in his way, but these stirring times demand a fighting Irishman at the head of national affairs.

30,000,000 Feet To Log, 3 Years

With the return of C. O. Rodgers, manager of the Canyon City Lumber Co., Ltd., who got back from Victoria on Sunday, complete details of the sale of the 7000-acre tract at Canyon City to the provincial Land Settlement Board are available.

The buy includes all the unsold portions of Block 812, with the exception of the present sawmill site and yards, and the 320 acres which Mr. Rodgers is developing as a stock farm. Practically speaking the land starts at the top of the hill, but also takes in any unsold ten-acre blocks scattered through the settled part of the district.

2500 acres are taken over at once—the agreement of sale dating from June 12th—and a like area will be taken June, 1920, and the balance in June 1921, at which date all lands must be logged off by the Company, though they are under no obligation to have the logs manufactured into lumber.

As storage space at the mill is limited it will be necessary for the Company to get busy at sawing operations at once. In addition to the logs in the mill yard, it is figured there is still 30,000,000 feet of standing timber on the 2000 acres of bush.

In discussing matters generally Mr. Rodgers gathered the impression that the Land Settlement Board proposed to open the whole intial 2500 acres to soldier settlement in 40-acre blocks, under the generous terms previously outlined, and that the surveyors would be leaving Victoria before the end of the month to start subdividing so that the five-acre clearing on each ranch holding could be proceeded with immediately.

Alice Siding

Jas. Compton left on Sunday for Vancouver, where is attending the 1919 session of Masonic Grand Lodge, which opened on Wednesday.

Mrs. M.B. Long is enjoying her visit at Washington state points so well that she has decided to prolong it another month. The Women's Institute has just appointed her district visitor at Alice Siding school.

W. A. Pease, who was away the latter part of the week looking the Windermere country over, got back on Monday.

A couple of coyotes are making things lively at nights for the residents west of the C.P.R. tracks. The animals, apparently, came over from the Corn Creek country before the flats flooded, and so far they have been unable to make the return trip.

J. A Vaness and family arrived the middle of last week, and has taken possession of the Walters ranch, which he has purchased. The place is badly grown up but he is already getting things a little more presentable. His car of effects came on Monday.

The eastbound train commenced the stop at the Reed & Mather and Smith depots on Wednesday, though as yet berry shipments are light. This year the Union have Frank Staples handling the billing along the line from the Wyndel to Canyon. Morgan Pease is in charge of loading operations at Smith's crossing.

Not being quite so conceited as the Wyndel young people, but being better judges of real dancing, the Alice Siding delegation were wise enough to stay out of the waltzing contest at Porthill. If Wyndel takes any pride at being placed in the awkward squad on occasions of the sort no one at Alice Siding, at any rate, will envy them their their notoriety.

G. H. Bohlee got back on Monday from Swift Current, bringing an almost new King car with him. His partner, Harry Farrell, got as far as Wardner with a McLaughlin which Mr. Bohlee is also bringing in, but was hung up there for repairs but should be here any day now.

Mr. C. [illegible] with Creston friends on Monday.

Cures Dizziness Prevents Headaches Insures Health

Puts Vim, Snap, Vitality and Briskness Into Run-down Men and Women

You who are nervous, tired and played out can quickly get back the best of health by purifying and enriching the blood with Dr. Hamilton's Pills. This wonderful medicine will make you feel better the first day. A real assistant to nature, full of toning-up power — these are health-renewing principles in Dr. Hamilton's Pills that accomplish so much good.

Your liver will work right if toned with Dr. Hamilton's Pills. The bowels will move out of the system all wastes and impurities. Your stomach will be put in order, digestion will be perfect, and as a result your health is bound to be permanently improved.

To be always in good spirits, to enjoy your meals, to sleep well and have lots of energy to work with, use Dr. Hamilton's Pills regularly. No medicine for general family use so good. Sold everywhere in 25c boxes.

Serial Story Unavoidably Omitted

We are obliged to omit the serial story this week, but same will appear again in an early issue.

High Praise For Canadians

Troops of Dominion Took the Lead in War's Sternest Battles

The report of the overseas military forces of Canada tabled in the house of commons at Ottawa last week by Sir Edward Kemp, overseas minister of militia, contains 533 printed pages. It is a comprehensive history of the activities of the Canadian forces during the war period with definite data as to the strength of the personnel of the various organizations at the time of the signing of the armistice.

"I welcome," says Sir Edward Kemp, in a preface to the report, "this opportunity of expressing to the forces who have served in all theatres in all capacities my heartfelt appreciation of their magnificent achievement. Wherever a stern or difficult task had to be performed, wherever the fight was fiercest, Canadian troops were in the forefront, by their valor, patience, and skill upholding and increasing a renown which will endure for all time."

"Further, I would express my thanks to those in charge of the administration and training of our forces, both in France and in England. By their efficiency and wholehearted endeavor our victories were made possible, and they conclusively proved to the world that the citizen soldier, imbued with the spirit of loyalty and [illegible] could be the equal of those [illegible] war a life-long study."

[illegible] pages which tell in [illegible] the story of the inception, organization and record of the [illegible] of the Canadian [illegible] are replete with information [illegible] the report practically a [illegible] A large portion [illegible] operations [illegible] forces [illegible] 1,476,

The report also shows that on armistice day the total strength of the Canadian forestry corps was 31,447, including 13 companies of prisoners of war numbering 5,021. At the time the armistice was signed over 70 per cent. of the total timber used by the allied armies on the western front was supplied by the Canadian forestry corps.

The number of Canadian officers attached or seconded to the imperial troops or other forces outside the military forces of Canada was 1,281 at the date of the armistice. Of these 824 were seconded or attached to the Royal Air Force. Also on November 11, 1918, 384 officers were seconded to the war office for military duties.

"It is gratifying to record," says the report, "that since the overseas military forces of Canada first went into action they have been awarded upwards of 17,000 medals, honors and awards, including 61 Victoria Crosses, 1,182 Military Crosses, 19 Distinguished Conduct Medals, and 6,610 Military Medals."

"The discipline of the overseas military forces of Canada for the year 1918," states the report, "was distinctly satisfactory, and this was largely due to the efficient administration and discipline by commanding officers, and to the esprit de corps which had been nourished and developed among all ranks of the Canadian forces."

Germans Using Stolen Machinery

Belgian Engineer Says Factories Are in Full Swing

The process of extracting from Germany the machinery she has stolen is an arduous one.

An engineer who has just returned from a quest in the neighborhood of Cologne found four out of the eighty machines removed from his works between Jan. 8, 1915, and Dec. 7, 1917. He discovered incidentally that eight others had been worked to death in Germany, and knows that four more are still in Belgium. The whereabouts of the remaining sixty-four are unknown to him.

This observer reports that not only are the German factories in full swing, but that they have been considerably enlarged during the war and show abundant signs of prosperity, largely owing to the machinery stolen from Belgium and France which has been sold to them by the German Government for almost nothing. But what is particularly exasperating is that the Germans have been keeping their own machines for use after the war and have been making munitions almost entirely with stolen machines, which, having been working night and day with inferior oil, which alone is available, are now mostly only fit for the scrap heap.

Not only does one see the German machines resting while similar Belgian and French machines by their side are at work, but stores and German machine tool works are full of brand new machine tools.

This state of things, coupled with the extreme difficulty, because of German mendacity, of tracing machines or missing parts, and with the enormous amount of red tape involved in claiming machines, makes the Belgians, whose works are idle and whose workmen are unemployed, more than ever resent their not being allowed to take German substitutes in place of those worn out or destroyed.

The engineer suggests as the only solution that the Germans should themselves be obliged to produce all missing parts which are often hidden in obscure store house, each factory should be made to furnish a list showing where its stolen machines came from, and for machines not found within three months and for machines [illegible] work, and machines destroyed, equivalent machines should be handed over to the Belgian industries, these to be taken from German machine tool makers and industries.

The right of stolen raw materials [illegible] the one thing, after ma[illegible] Belgium most sorely needs [illegible] the Belgians al[illegible] the right of their [illegible] of the enemy.

[illegible] you have heard of the [illegible] at a baptism, who, [illegible] heard the godmother answer "[illegible]" to the question as to the [illegible] name, broke forth: "For the [illegible] of bread! The whole calendar is full of the names of blessed female [illegible]"

Shock Left Her Weak and Nervous

COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak, and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling all over.

"I had hot flushes and fainting spells. When I was on the second box of your Heart and Nerve Pills, I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person.

"I am never without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Machine Guns Alarm Berlin

Shooting Due to Wounded Men Insisting on Parading

Berlin. — Down town Berlin was thrown into a state of wild excitement by machine gun firing in the Unter den Linden. Some persons in the neighborhood fled for safety, but others swarmed to the scene. The shooting was due to a large group of wounded men insisting on parading, despite the order of Gustave Noske, minister of national defence, prohibiting processions during the period of martial law.

Government troops broke up their demonstration by firing in the air.

PALE AND WEAK DESPONDENT PEOPLE

Owe Their Condition to Weak, Watery Blood — How to Regain Strength

Every woman's health is peculiarly dependent upon the condition of her blood. Far too many women suffer with headaches, pains in the back, poor appetite, weak digestion, palpitation of the heart, a constant feeling of weariness, shortness of breath, pallor and nervousness. Of course all these symptoms may not be present in any particular case. They are merely a warning that the blood is out of order, and that it is thin and watery, and if you note any of these symptoms in your own case, you should lose no time in taking the proper steps to enrich and purify the blood. Anaemia — poverty of the blood — is a most insidious disease, and if allowed to run will end in a complete breakdown of the system. Dr. Williams' Pink Pills are, beyond doubt, the greatest blood-making tonic offered the public today. For more than a quarter of a century they have been the stand-by of hundreds of thousands of people in all parts of the world. No other medicine has ever achieved such world-wide popularity, and the reason is that this medicine does what is claimed for it, enriches and purifies the blood, thus bringing new strength to every organ and every nerve in the body. In this way Dr. Williams' Pink Pills bring new health to weak, despondent people. Among the many who speak highly of this medicine is Mrs. Louis D. Larsh, Windsor, Ont., who says:—"It would be impossible for me to recommend Dr. Williams' Pink Pills too highly. Some years ago I was very thin and pale; I suffered many of the symptoms of anaemia, and always felt tired, depressed and weak. I had tried several medicines, but they did not seem to help me. Then acting on the advice of a friend, I began taking Dr. Williams' Pink Pills. Before I had used half a dozen boxes I was actually feeling like a new person and had gained nine pounds in weight. I continued taking the pills until I had taken a dozen boxes, and from that time I have always enjoyed the best of health. I freely write you this letter in the hope that some woman in need as I was will see it and be benefited as I have been."

Most of the troubles that affect mankind are due to impoverished blood, and will promptly disappear if the blood is built up and renewed. If you are ailing, give this greatest of tonic medicines a fair trial and it will not disappoint you. Dr. Williams' Pink Pills can be procured through any dealer in medicines, or will be sent by mail at 50c a box or six boxes for $2.50 by writing The Dr. Williams Medicine Co., Brockville, Ont.

SUNDAY SCHOOL LESSON

LESSON FOR JUNE 8

OBEDIENCE

I. A Notable Example of Obedience (Gen. 12:1-4).

At the command of God Abraham went out not knowing whither he went (Heb. 11:8). His was not the obedience of convenience or prudence. To separate from home and kindred and take up the life of a pilgrim was not easy. Abraham did not stop to ask why, or what he would get out of it. The obedience that asks why is not obedience at all.

II. The Motive of Obedience (John 14:21-24).

The grand incentive of obedience is love to God. The obedience that is the result of fear or the hope of reward is not true obedience, therefore has not the approval of God. Only the child who reverences his father and affectionately strives to obey him enjoys his loving favor. The obedience which springs out of a heart of love issues in a life of joy and friendship with God (John 15:10-14).

III. The Solemn Obligation of Obedience (Matt. 7:16-29).

1. Warnings against false prophets (vv. 15-20).

(1) Their real existence. Ever since God has had a people false prophets and teachers have appeared among them. This need not surprise us, for Christ predicted that such should be the case.

(2) Their nature (v. 15). (a) Hypocritical. The devil does his most successful work by masquerading as an angel of light (II. Cor. 7:14, 15). His ministers appear in this way and turn people from the narrow to the broad way. (b) This is suggested by their being "ravening wolves." It is when the wolf is in sheep's clothing that he does his most destructive work. The enemies of Christ posing as his ministers are most destructive.

(3) The unfailing test (vv. 16-18). Their fruits. If one gives sufficient time for development the fruit can be discerned. Every tree bears its own kind of fruit. Nature is inexorable in her law as to this. You may search the universe in vain for an exception. It is equally true in the spiritual world. There is a vital connection between the faith of a heart and the fruit of a life. That which comes out in the conduct was first in the heart. A right heart is essential to right conduct. Give the false teachers sufficient time and observe closely and you will find that their lives will prove the teaching.

(4) Their end (v. 19). All false teachers shall finally be punished by being cast into the fire. Although God bears long, he will see to it that this wickedness does not go on for ever.

2. The dangers of empty profession (vv. 21-23).

Calling Christ "Lord" will not answer for disobedience to his will. One may even be a Sunday school teacher or preacher, and even perform many mighty works, as casting out devils and healing the sick and yet hear the awful declaration of Jesus Christ, "I never knew you," "depart from me."

3. The one and only safe way (vv. 24-29).

(1) Hear the sayings of Christ. To do this, one must prayerfully attend to reading the Word of God and meditate upon the same.

(2) Do what Christ commands. Hearing and doing the teachings of Christ is building upon solid rock. Such building can never be destroyed by flood and storm. Hearing and not doing Christ's sayings is building upon the sand which in time of the storm of God's wrath and judgment will be utterly destroyed. Obedience must follow hearing Christ.

Coast Veterans to Support Law

Vancouver.—The Great War Veterans of Vancouver at a recent meeting pledged themselves on the side of law and order with respect to the present industrial unrest throughout the Dominion and passed a resolution stating that the members opposed any insurrectionary or riotous attempts that might imperil the safety and security of fellow citizens. The resolution was carried practically unanimously, there being less than half a dozen who voted against it.

'Twas Ever Thus

"Back to the farm," the young man cried;
"Back to the farm for me."
So he put his back to the farm and tried
Him on to see 'twas [illegible]

Nerves Shattered by Operation

A Most Extraordinary Case of Extreme Nervous Exhaustion and Keenest Suffering From Headaches—Now Entirely Cured

Mrs. George Hall, Meadow Brook Farm, Westasta Valley, Sask., writes: "It is with great pleasure I say a few words of praise for Dr. Chase's Nerve Food.

"Five years ago, while living in Montreal, I suffered terribly with a severe pain in the right temple. For four months I could not even bend or stoop down to do anything without holding the right side of my head with my hand, the pain was so severe. Besides the headache, there was a discharge from my right ear also, but it caused no pain — only the constant pain in my temple. I could not sleep, and if I lay down at night I could not get my head up off the pillow without my husband putting his hand underneath the back of my neck to lift me up. I could not bear it any longer. Some of my friends persuaded me to go to one of the hospitals and consult a doctor, so I went to the Royal Victoria Hospital in Montreal; there they examined me and told me that it would have to be an 'indoor case,' that I would have to be operated on. After I had been there four days they operated, and found that I had a clot of blood on the brain. They said it was marvellous that I pulled through after the operation, as they had given me up for over four days. I was in the hospital 10 weeks, and my doctors said I would always suffer with my nerves, because the operation was such a serious one it shattered my nerves all to pieces. After I came home I could not bear any noise or excitement, if the children would shout or bang the door I would jump and give a sharp cry, and my hand would fly to my head. My nervous system was completely exhausted and I had no appetite whatever. Two months after this I had to follow my husband to the Northwest, where he had gone previous to my illness. The doctors told me I was running a great risk to go so soon. However, I came, and, after I reached my destination in Saskatchewan I was in bed for some weeks with a nervous breakdown. I was going nearly crazy with my head. A friend asked my husband to try Dr. Chase's Nerve Food. He went to town (which is fifteen miles from here) and bought two boxes. I commenced taking them, and certainly felt much benefitted. I took six boxes in all, and I now feel like a different woman. I have no pain in my head, my system is built up, and I can sleep like a top. My appetite is splendid, the children can make as much noise as they like, and it does not bother me. I am certainly cured, and I want to express my heartfelt appreciation of your wonderful medicine. I shall always recommend it and tell others about it."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Street Cars and Rule of the Road

Electric Railway Company Has Approached Government on Question

Victoria, B.C.—The change in the rule of the road, so as to make driving to the right effective in this province, which is to become operative at the beginning of 1920, has aroused strong objection from the British Columbia Electric Railway Company, the only tramcar system in British Columbia. The company has approached the government on the question, and explains that a very large sum of money will have to be expended in the alteration of existing rolling stock in order to conform to the requirements demanded by a change from the present rule of turning to the left.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at about the cost [illegible] for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

France and Italy Remain United

Paris.—On the occasion of the anniversary of the entrance of Italy into the war, the French chamber of deputies and senate adopted unanimously a resolution asserting the continued fraternity of the two nations and declaring they would remain united in a just and durable peace. The government associated itself with the resolution.

BUY CANADIAN GOODS BUT BUY THE BEST CLARK'S PORK AND BEANS

W. CLARK LIMITED MONTREAL

Canada's Immigration Bill

Ottawa. — The new Immigration Bill for Canada has been reported from the committee in the House of Commons, with some slight amendments. One of these prevents the bringing into Canada of concealed weapons, and another provides for the reporting direct to the minister by immigration officials when an immigrant advocates the overthrow of constitutional government by force.

Minard's Liniment used by Physicians

London and the Diamond Industry

Although large numbers of Belgian refugees have returned to their native land, the diamond cutters and polishers intend to remain in London. London will be both the Antwerp and Amsterdam of the future. London will be the hub of the diamond universe—not only for selling the gems, but for preparing them and finishing them for the markets generally. Round about Hatton Garden large factories have been established by Belgian diamond merchants, and considerable numbers of refugees have been employed.

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmelee's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

Villages Wiped Out By Volcano

Amsterdam.—The volcano of Kalnut, in Java, has burst into eruption, wiping out twenty villages in the district of Bretmat and in the vicinity of Bilitair, and causing deaths estimated at 15,000, according to a Central News dispatch received here.

It Is In Demand.—So great is the demand for Dr. Thomas' Eclectric Oil that a large factory is kept continually busy making and bottling it. To be in demand shows popular appreciation of this preparation, which stands at the head of proprietary compounds as the leading Oil in the market, and it is generally admitted that it is deserving of the lead.

Trouble

Never bear more than one kind of trouble at a time. Some people bear three — all they have had, all they have now, and all they expect to have.

There may be other corn cures, but Holloway's Corn Cure stands at the head of the list so far as results are concerned.

Thrilling Experiences

Sailor Had Many and Varied Experiences During the War

Eighteen days in the bowels of a hostile submarine was one of the wartime experiences of Captain Evans, of the transport Trewellard, which touched at Sydney recently for bunker coal, en route from Black Sea ports to Montreal, where she will load general cargo. The captain's former vessel was sunk a few months before the armistice was signed, and the U-boat, on which he was a captive, had several adventures, among them a collision with an Italian steamer. Before he was landed at Heligoland, after confinement in a prison camp at Bradenburg, he was set free by the armistice and has since gone back to sea. The Trewellard, before crossing the Atlantic, was engaged in carrying munitions to General Denekine's Russian

No More Troops for Russia

Allies Would Furnish Munitions and Money

New York.—The Associated Press issues the following:

Anti-Bolshevik factions in Russia, headed by Admiral Kolchak and Gen. Denekine, are to receive conditional recognition by the Council of Four, according to a report in circulation in Paris. The condition is said to be that the government of the leaders are to convoke and accept the verdict of a genuine constituent assembly, which is to determine the future form of government for Russia.

Such action by the Council of Four would enable the allies to assist in the struggle against soviet rule in Russia by furnishing Kolchak and Denekine with arms, munitions and money and food on a larger scale than previously. No troops would be furnished the anti-Bolshevik leaders, according to the report.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Aviator's Daring Feat

Atlantic City.—Lieut. Omer Locklear, formerly with the air army, gave a demonstration which is said to be one of the greatest in annals of flying, of catching a dangling rope ladder from a second airplane and climbing into the craft from which it was hung. The feat was done at a height of 2,500 feet. He has leaped from one plane to another in the air before, but never made an ascent from one plane to another.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 30c.

German Populace Revile Wilson

Paris France. — Describing recent demonstrations before the Adlon Hotel in Berlin, a dispatch to The Temps says the crowd shouted: "Down with France, England, America, Clemenceau, Foch and Wilson." It says that the shouts against President Wilson seem to indicate that he is particularly reviled by the German populace, public opinion "not pardoning him for interpreting the fourteen points at variance with the German interpretation of them."

Tommy: "Oh, mother, I've just broken the bathroom window."

Mother: "Don't come worrying me now. I'm busy washing. Remind me later on, and I'll see about punishing you then."

GEE, I'M HAPPY MY CATARRH ALL GONE

Suffered Like a Boob for Years—Got Relief in Ten Minutes

Catarrhozone Did Cure

That's the way hundreds of the boys around town are talking since Catarrhozone got into the drug stores. Nothing on earth like Catarrhozone to really cure Catarrh, Colds or Bronchitis.

"Catarrhozone"—it isn't a drug — it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and [illegible] that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. All dealers sell Catarrhozone, large size which lasts two months price $1.00; small [illegible] sample size 30c.

Coldest Village

For generations popular conception pictured the North Pole as the coldest place on earth, although scientists and explorers have proved otherwise. In fact, Nansen and other explorers said that 45 or 50 degrees below zero was cold weather for the 75th to 80th parallels. Birches, Alaska, however, 55 miles below Fort Gibbon, has several times hit the 87 and 88 mark below zero, and is therefore believed to be the coldest spot in the north, if not in the world.

$100 Reward, $100

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. $100.00 for any case of Catarrh that HALL'S CATARRH MEDICINE fails to cure.

Racial Bogie Raised

Attack on League of Nations From New Point of View in U.S. Congress

Washington. — An attack on the League of Nations as offering grave dangers to the future was made in the senate by Senator Reed, Democratic, of Missouri, who declared that under the convenant in its present form nations governed by other races would have the predominating voice.

The senator presented statistics to show that of the total population of the countries opposing the league, 811,425,500 would be of black, yellow, brown and red races, with only 289,488,800 of the white race. In the assembly which is to be the governing body, he said white nations would have fifteen representatives and other nations seventeen representatives.

Hawker Stopped By Small Affair

Escape of Aviators Is Regarded as Miraculous

London.—The dramatic news of the safety of Harry Hawker and Lieut.-Commander Grieve came as a complete surprise to London, after all hope was abandoned, when twelve destroyers returned to Ireland after having fruitlessly scoured the area of 300 miles. The special editions of the newspapers were snapped up by thousands. The scenes on the streets were comparable to a national rejoicing. There were similar scenes in the provinces.

Hundreds of holiday makers journeyed to Surbiton, where they besieged Mrs. Hawker's residence. The police had to be called to regulate traffic.

Mrs. Hawker in an interview said she had never lost hope. "Sunday is our lucky day," she said.

The escape of the aviators is regarded as miraculous, as the steamer Mary herself was taking an unusual course and there was not a single ship within fifty miles.

Experts pay tribute to the fine navigating of Hawker's machine as the airplane kept in a dead straight line more than half-way across the Atlantic. The opinion is expressed that the accident was so slight, that if the machine had been a seaplane Hawker could have repaired it and completed the course.

After two thousand experiments, John Drew, a British scientist, announced that he had discovered the German secret of making mother of pearl.

Ideal SILVER CREAM

This new polish is a great boon to the housewife. It entirely cleans dirt and tarnish, or stains from gold and silver, yet it will not scratch or mar the finish in any way.

Ideal Silver Polish is unlike any other preparation. Ideal contains no minerals, acids or poisons —it is purely vegetable and perfectly harmless.

Try Ideal at once. Ask your dealer or write us if he can't supply you.

Huns Forming New Government

Zurich.—A military oligarchy is being formed in Germany, according to Dr. Richard Grelling, the author of "J'Accuse," who has just returned here from Munich. The oligarchy is more powerful than the Scheidemann government, he declared, as the government only manages to remain in power with the support of the military caste and of mercenary troops.

Nature and the Indian

The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he *dug papoose root for her*, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

WOODSTOCK, ONT.—"I cannot say enough in praise of Dr. Pierce's Medicines. I had nervous prostration and was completely worn out. I was so bad the doctors considered mine a hopeless case. I was not in discouraged and was ready to give up when I began taking the 'Favorite Prescription' and the 'Golden Medical Discovery.' These medicines put me on my feet again and gave me the only real relief. Being a nurse I have recommended Dr. Pierce's Medicines to many, especially the 'Favorite Prescription' [illegible] I have recommended 'Favorite Prescription' that has been wonderfully helped.

"I am glad to lend my name in connection with Dr. Pierce's Medicines, knowing how good they are. Mrs. A. E. Miller, 346 John Street.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2 a year in advance; $2.50 to U.S. points.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, JUNE 20

Should be Busy

With the sale of 7500 acres of Valley land to the Land Settlement Board and assurance that part of it at least will be very shortly occupied, along with a considerable influx of newcomers that undoubtedly presages an ever increasing tide of new arrivals, it strikes THE REVIEW that it is high time consideration was being given to the matter of proper school accommodation for our new friends.

Already a majority of the schools in the Valley have attendances that are ample, and a little more so, for the staffs employed, and certainly the number graduating constitutes a hopeless minority as compared to the pupils in sight for enrollment in all the classes.

At some points buildings will have to be enlarged, and one does not need to be unduly optimistic to foresee that very shortly new buildings will have to be provided in the newer districts that are due to open up.

All of which brings to the fore the question of whether it is better to proceed with enlargements and new buildings, or combine and go in for the erection of a thoroughly modern consolidated school at some central point.

The advantages of the consolidated school are too numerous to to require mention. They have been tried out in other provinces and have never been a failure. The only thing that has ever been urged against them elsewhere was the hauling of the pupils to school in the cold weather. But that contingency does not arise here, because we have hardly the minimum of really disagreeable climatic conditions at any season of the year.

That consolidated schools are advantageous is indicated in the encouragement the education department holds out for their establishment, by guaranteeing to pay half the pupils' transportation charges.

As has been remarked before—and a view that has been concurred in by the education authorities at Victoria—the Creston Valley lends itself admirably for the inauguration of the consolidated school. In view of development already here and the unmistakable signs of much greater and almost immediate expansion if ever there was an accepted time for all parties interested to get together this year of our lord, 1919, would seem to be the time for decision and action.

A Wise Action

In the way of general business the June session of Creston Women's Institute was a decidedly busy one, and on at least two of their decisions the ladies are deserving of special commendation. We allude to the resolutions declining to back a woman candidate for the school board, and the desire to have the 1920 conference of Kootenay Women's Institutes at Creston.

While, doubtless, Mrs. Chalmers acted in good faith in urging the Institute to action along the line of having a representative lady citizen aspire to school board membership at the same time it is equally apparent that on small boards such as direct the affairs in assisted school districts such as Creston the scope for good work by a woman trustee is limited indeed.

A good male teacher, after all, takes unkindly to official calls from inexperienced educationists, and no [illegible] female teacher dislikes it relaying another woman coming around proffering suggestions—preferable to them by far would be these official attentions from the gentlemen of the board. And rightly so in most instances.

Both have made teaching a special study and naturally imagine they know their own calling a little better than inexperienced visitors. If they are not getting results it is plainly evident in the progress of the scholars, and the respect or lack of that quality that the pupils display toward their instructors, on and off the school grounds.

If satisfactory eervice is not being rendered it is entirely due to lack of ability on the part of the teacher and no end of timely council from eitaer a woman or a man trustee can remedy the defect.

As to the routine work a trustee board has to perform about once in a blue moon something crops up where a woman's advice would be specially beneficial, and never is the emergency so great that the matter cannot stand over until representative ladies could be called in consultation.

In the matter of hiring teachers trustees are between the devil and the deep blue sea. The excellent references some teachers who are in the profession for a few years are packing around with them is astonishing, and after a couple of years on the board most trustees are quite willing to agree with the prophet of old who remarked that all men are liars, particularly when it comes to giving certificates as to ability to importunate instructors of the young idea.

As to the staging of the Institute conference here next year the ladies can rest assured of the financial support of the citizens, and we fancy that is all there is any occasion to worry about. In the Institute membership there is ample material of the right sort to handle such a project, and if it is put on at the right season of the year certainly Creston is just about as attractive a spot as the Kootenay women could foregather in.

Action, Not Talk

While not exactly in what one might term the B.C. fruit belt, Cranbrook is not entirely lacking in some of the physical features common to the bailiwick of the big red apple, luscious pear and juicy plum. With these products of the orchard we have the good and the bad year in most every ranch. At Cranbrook the thing breaks out differently. There they have the on and off years in respect to law enforcement and moral conditions generally one might almost say.

Generally speaking it has been customary to adjure the citizens to flee from the wrath to come about that season of the year when the inhabitants are wondering where their summer wages are gone, or else just prior to the municipal elections which come early in January, thus fitting nicely into the season of the year for making good resolutions.

But this trip the expected self reproachment has broken out before good old summer time has got rightly started. Possibly it the after effects of that $25,000-in-new costumes charity ball, or possibly the coming of some new C.P.R. officials has started the leaven of righteousness working, or some other equally innocent cause, but certain it is that things have come to a pretty pass in the divisional city as the situation is observed through some clerical spectacles.

Both the Presbyterian and Methodist pastors had a round out of the matter on June 8th, the former getting it off his chest in the morning on that day and [illegible] the Methodist house of worship at night and hearing the matter threshed out again—and then go home as usual and say, "But outside of that I guess we are not too bad."

Methodist pastor Lee deserves commendation in at least speaking out quite plainly. A characteristic observation, as given in the Herald follows: "It may not matter much to you, men and women, how many bootleggers or houses of prostitution there are in the city, but it does matter to our children. Within a few yards of the public school there is a very questionable abode which has to be passed by the children, who often make jests and jokes about the matter."

In concluding his address Mr. Lee demanded a clean up of the city observing that "we will support you in every legitimate way possible." And right here is where, it seems to us, he put his foot in it. If the state of affairs is as Pastor Lee says they are, and he knows just where to place his hand on at least a few of those who are bedevilling the good name the city ought to bear, why in the name of all that is sensible does he not lay an information against even a few of the offenders and let the law, which he says is an excellent one, do the rest.

If the moral reformation Mr. Lee yearns for is to be accomplished someone must set the ball rolling, and who should be more to the fore in such an effort than the man whose mission in life is to champion the cause of morality and righteousness in high places. Why not lead the way instead of this "we will support you."

When the money changers and those who sold doves had to be cast out of the temple Christ did not hunt up the chief of police to do the job. He went at the house-cleaning Himself. And when the devils and unclean spirits had to be told to depart hence the apostles never found it necessary to bring in the constabulary or the health department to even assist at a painful but necessary operation.

In so bodly parading the fact that he is possessed of inside information THE REVIEW believes that it is up to Mr. Lee to at once pass the intelligence on to the authorities, and failing action on their part to immediately assume the role of prosecutor. He is dealing with a very serious state of affairs, not a theory that an academic discussion could fizz on.

Having gone so far he must either prosecute or in future share the fate of the storied youth who shouted wolf, wolf, not always wisely, but too well. In such a crisis in the moral history of Cranbrook the spectacle of Mr. Lee passing the buck would be laughable were it not fraught with such momentous consequences.

Dangerous Camp Fires

In almost every part of Canada the camp fire of picnic and fishing parties continue to destroy more of public-owned timber than could be grown by the planting of scores of millions of trees.

From every direction comes urgent suggestions that governments start to re-plant the waste forest areas. This procedure may profitably apply to certain sections of Canada. The main consideration, however, is to stop the destruction of timber requiring a century to grow. Planting is highly expensive alternative to fire prevention. If camp fires were invariably extinguished there would be less need of asking the public treasury to assume the cost of rebuilding the forests by the use of millions of seedlings. Camp fires in Canada have cost a more public wealth than would have transported the guilty campers around the world on a luxurious free trip. Veteran woodsmen always build their fires small and build them in a safe spot, such as along a rocky shore or on a gravel or sand bar, never among leaves, or against a log.

Rev. [illegible] of Vernon is another divine that the Y.M.C.A. is willing to minister to the spiritual needs of a cross country troop train, and in consequence Vernon is enjoying church union for June, both Presbyterians and Methodists taking spiritual sustenance for 30 days from Presbyterian sources.

The hat is on the rounds at Nelson to gather in $2000 to put on the big soldiers' demonstration on July 1st.

Mrs. South is another Cranbrook orchardist who is going to keep down the high cost of fruit at Cranbrook this year. She has 150 apple trees in blossom the Herald states.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of [illegible] parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations [illegible] ment. Free, or partially free permits for settlers, campers or travellers, up to ten head.

Erickson District Outlook Excellent

A trip through the Erickson section from which district comes the greater part of the Valley's export in both vegetables and tree fruits, convinces that 1919 shipping in all lines will be considerably in excess of the 1918 trade. With the possible exception of cherries, which are light in the sweet varieties only; and tomatots, which may show a decreased acreage; in every kind of field and orchard product greatly increased production is in evidence.

Bush fruits such as gooseberries and currants are carrying tremendous crops of stuff this year, which would seem to be only natural due to the excellent climatic conditions of last fall and this spring, as compared with the particularly dry fall that prevailed in 1917. Raspberries are predicted to produce a 50 per cent. increase if the weather is right, and csrtainly strawberries will equal if not excel a year ago.

In small garden stuff peppers are due to be a bigger shipper than ever if there is a sufficiency of moisture to bring them along in average fashion. With the splendid returns Sam Fraser got on his crop of these a year ago quite a number of others are into them fairly strong, and so far everything is going well.

Cucumbers are planted fully as heavy as last year, W. H. Kemp having fully an acre of them coming along and the other growers reporting much the same planting as previously As usual everyone has in a normal supply of spuds, while on the R. J. Long ranch the acreage is considerably increased and Truscott Bros. have planted fairly heavy on the new 20 acres recently acquired from R. Lamont.

With Staples Bros. out of the business it would look as if tomatoes would show a falling off, but information is to hand that their defection will be quite well made up by other individual ranchers who have gone in for them again this year. Yields and prices in 1918 helped to materially hearten some of those who had quit tomatoes after the disastrous years of 1914 and 1915. As a sample of what tomatoes were equal to last year the Littlejohn ranch has the records to show that from a planting of very little more than an acre last year 1600 crates of the ripe sort and at least 200 boxes of green ones were shipped, and Mr. Littlejohn estimates that due to the scarcity of help at least another 10 ton of them were not harvested. This year he has set out in the neighborhood of 4000 plants.

Peaches are expected to at least equal 1918. On some places the leaf curl is again giving trouble while on others the yield is not up to the standard. However, a couple of notable exceptions are the Adlard and Kelsey (Martin) ranches where the crop, though limited, is certainly a dandy one.

As before noted cherries will not exceed 1918. The late frosts have played havoc with sweet varieties, especially the Bings, though the sours in some varieties are heavier, but these are not promising well as to quality and there will be some portion of the crop that selling agencies are liable to refuse to handle. The Fruit Growers' Union is announcing a tightening up of their grading of these for this year.

This is the big year for plums and prunes. From everywhere comes the same report. The fruit is setting abnormally heavy one might say, and for this early in the year the prospect was never equal to 1919.

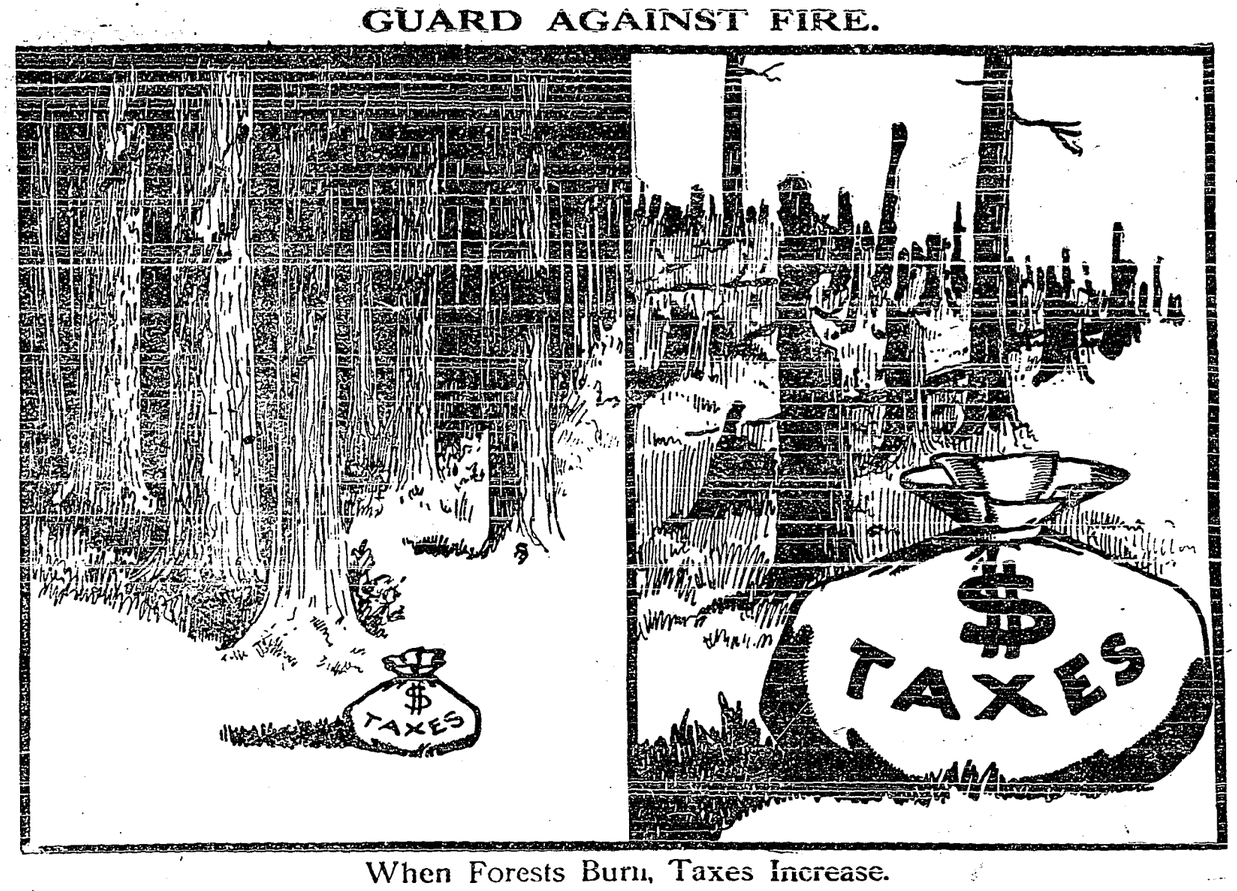
Pears will hold their own with 1918 it is expected. Possibly the best ranch to get a line on this fruit is the R. J. Long place, where, following a fine showing last year, the trees are again carrying fully as heavy a load this season. New trees coming in will make good any falling off at other ranches, the Haskins orchard being one of those where the pear showing is a disappointment.

In apples, if there is a shortage in any variety as compared with a year ago it will only be in the Greenings, and possibly the Wealthy, although young trees of the latter that are coming along should even things up. The increase in McIntosh Reds will be particularly noticeable. A look at the new Truscott orchard, Cotterill's and more particularly McIntosh trees in that quarter will convince of the increase in Macs. Across the road the W. V. Jackson place will show that the Kings are to have a big year, following the off season a year ago, when water core put this variety almost off the shipping list. In Jonathans Frank Putnam expects to have another dandy crop despite the fact that 1918 was also a banner year. Again we mention the Long ranch for a comparison of the Delicious. This orchard is well represented in this variety and while 1918 was the banner year for these 19-19 is looking fully as promising. J. M. Craigie, whose heaviness to Wealthys is well known, reports thas this year the crop is light, following the big yield of 1918, and his orchard reflects the state of affairs in this variety in several other places. For the first time, one might say, Spies will be quite prominent in the export trade if the showing these on the E. E. Cartwright and Duperry places represents the showing on other ranches. On the Spitzenberg the report is invariably that the prospect is for at least a yield up to 1918 standard, and the Palmer orchard unmistakably shows that the Wagner is in for another big year.

For a well balanced yield of apples this year the W. G. Littlejohn place could hardly be outclassed by any. Such varieties as Snows, Cox Orange, McIntosh, Janathan and Wagner are almost as thick as they can hang, while the show of Gravenstein and Spitz is just about right to avoid the necessity of much thinning. Last year we understand, the yields were on the light side, but certainly 1919 is making ample amends for any failure at production a year ago.

The jitneys charge 50 cents for the trip New Denver to Silverton.

GUARD AGAINST FIRE.



When Forests Burn, Taxes Increase.

JAMS

About this time of year the average household finds itself running low on the homemade preserved or canned fruits; just a few jars, lefo and still several weeks to go before the fresh fruits will be available.

Naturally you want the slender supply to carry you through—company may come along unexpectedly and serving canned goods on such an occasion would never do.

The best way out of the difficulty is to lay in a supply of jam or marmalade now—at least sufficient to ensure that with your homemade stock you will be able to pull through.

This week we have something special in

Wagstaffe's King-Beach Empress and K.C. Jams

We offer you any of these brands in the 4-pound tins at $1.35 per tin, and the following flavors to choose from: Strawberry, Raspberry, Black Currant, Peach, and Plum.

We have a lower-priced article—which customers speak highly of—in Climax Jam, Apple and Strawberry, at $1 the 4-lb. tin.

Marmalade

in the 2 and 4-lb. tins at equally attractive prices, quality considered.

The prices factories are paying for fruit this season indicate that Jam prices will be much higher this fall. A word to the careful housewife is sufficient. BUY NOW.

Home Life on the Farm

In solving the problem, now almost universally recognized, of checking the tendency of boys and girls to move to the cities and keeping them on the land, the farm home must play by far the most important part. Even in the cities the right kind of a home is the greatest restraining force in keeping young people from drifting to far away places and pastures new. It is the most powerful of all influences, and nowhere will the influence of a good and comfortable home, and the right kind of home surroundings, be found more potent than on the farm.

In a new country like Western Canada, which is just emerging from the crudeness of the pioneer stage, it is inevitable and altogether natural that in the earlier years of its development the farm home should be small and lacking in those many little comforts and attractive features which appeal so strongly to youth. It was necessary that the land should first be broken, essential farm equipment secured, a water supply made available, some horses and livestock gathered together, and the necessary buildings provided for their care. Usually, therefore, the first farm home was little more than a shack in which to eat and sleep. It possessed few comforts and was the reverse of attractive, and, isolated in many instances, there were few neighbors, with a resultant great loneliness. It is small wonder that it failed so frequently to hold the boys and girls when they reached their later teens and approached young manhood and womanhood.

Too frequently, perhaps, even after [illegible] had reached a certain stage of development, and the farmer was beginning to make headway in a material sense, he had become so absorbed in his farm operations that all his [illegible] and credit was utilized [illegible] more machinery, more [illegible] and erecting far [illegible] buildings, while [illegible] was overlooked. All too frequently, as reared from [illegible] and the growing [illegible] seemed to think [illegible] and the things [illegible] material and in [illegible] It was not [illegible] as to the farmer's absorption and keenness in his farm.

Nevertheless, such a policy is a mistaken one from the farmer's own standpoint. The farmer's family is, after all, his best asset, and it does not redound to his credit to have splendid equipment in the way of farm machinery, great barns, well fenced land, and all labor-saving devices in his own work, while his family lives in a shack or inadequate cottage which is dwarfed into insignificance and shamed by these larger possessions.

The farm home should be made as speedily as possible the most attractive feature of the farm. The wife and mother should be supplied with those little labor-saving devices in the home which so materially assist to convert housework from mere drudgery into pleasure. She will thereby be enabled to give greater attention to her children, while the girls will grow up without that repugnance for farm life which so many farm-bred girls now feel.

A telephone should be installed and thus largely eliminate that feeling of isolation, and bring the whole family circle into closer touch with friends and neighbors. A few good books, pictures, magazines and the district newspaper will help to brighten the farm home, while, if it is possible, a piano or musical record machine will provide the boys and girls with those pleasures at home which lead them to look longingly towards the cities in order to enjoy.

In a word, the farmer should not overlook every opportunity to make farm life attractive to his boys and girls in order to inspire and encourage them to remain on the land and follow what is admittedly the most independent life anyone can lead in these times. And in his effort to make the farm, and farm life, attractive, he will soon discover by a little observation that he has the greatest of all inducements in a happy, comfortable, attractive home. A little money and time spent on flower seeds, trees and shrubs and their care will pay dividends just as truly as that spent on seed wheat.

Make the farm home attractive and the boys and girls will be loath to leave it; leave it unattractive and lacking in comfort and those things which give pleasure and they will be anxious to get away from it and will take the first available opportunity of doing so.

CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion, colds and simple fevers. Concerning them Mrs. Gaspard Daigle, Demain, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him, and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Victory is worth nothing except for the fruits that are under it, in it, and above it.

Ask for Minard's and take no other

Our lives are like buildings going up, and every one who comes to us, whether for a prolonged stay or only for a few moments, puts something into the walls or into the adornment. Our friends, if they are worthy, exert a measureless influence over us.

Are Looked On As Old Tried Friends

Dodd's Kidney Pills Have Earned Their Popularity by Their Cures.

Alberta Lady Who Suffered From Kidney Trouble for Ten Years Is Now Recommending Dodd's Kidney Pills to Her Friends.

Tolland, Alta., June 2nd.—(Special.)—"I can recommend Dodd's Kidney Pills to anyone who needs a remedy for sick kidneys." So says Mrs. Fred Wolters, a well-known and highly respected lady living here. And Mrs. Wolters gives her reasons for making this statement.

"I suffered from kidney trouble for ten years. I felt heavy and sleepy after meals, I was always tired and nervous and I had a bitter taste in my mouth, especially in the mornings. I was often dizzy, my memory was failing, and I was very irritable. Stiffness in the joints, backache, headache, and finally rheumatism were added to my troubles.

"I finally decided to try Dodd's Kidney Pills and I took two boxes. I found them satisfactory in every way. I do not think they can be excelled."

You will notice that everyone who recommends Dodd's Kidney Pills has tried them and found them good. They are recognized as old and tried friends in thousands of Canadian families. Ask your neighbors about them.

Tact

To possess tact it is necessary to have a fine perception, and to be sensitive; for how can we know what will pain another without having some criterion in our own feelings by which we can judge of his? Hence I maintain that our tact is always in proportion to our sensibility. — Lord Byron.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Germany in Favor Of Disarmament

Agrees to Disarm Ahead of All Other Powers

Berlin.—Information has been received from unimpeachable sources that the counter-proposals to be made by Germany to the peace conference will declare in favor of military disarmament, saying that Germany is ready to reduce her forces to 350,000 within two months after the conclusion of peace, and by the expiration of another year to cut the size of the army down to 200,000 men.

It will be declared that in spite of internal disorders and the necessity for defending her frontiers, Germany thus agrees to disarm ahead of all other powers. It is pointed out that this gives adequate proof of Germany's determination to renounce all militaristic and imperialistic tendencies.

Very Quarrelsome Neighbors

Treasure Returned To Belgium

Was Kept for Safety in the Bank of England

The Belgian treasure, consisting of state documents, savings bank securities, bullion, gold and silver, which have throughout the war been in the safe keeping of the Bank of England, have now been returned to Belgium. The [illegible] the savings of the Belgian nation in the peace era, amounting to many millions. The Cockspur Line, Mark Lane, London, were [illegible] of the National Bank of Belgium had been in London for some weeks preparing for the shipments.

The good die young and the other kind live long they don't help it.

Identifying Twins

Reports Only Differed In Initials of Their Names

One of the greatest war problems of the London Scottish Regiment was how to distinguish Ralph Brown (now dead) from his brother Lindsay. They were twins and inseparable, and so strikingly alike in every way that it was hardly possible to distinguish one from the other. Early in their military training their officers were so puzzled that an official order was sent to Ralph commanding him to grow a moustache to distinguish him from Lindsay. After passing through all the grades of non-commissioned rank, the brothers had the distinction of being promoted to commissioned rank together in their famous corps. In all their courses of training equal attainment marked them. Out of a school of 500 officers they were two of four officers specially recommended to the War Office for merit, and they were informed that their reports only differed in the initials of their names.

Airmen Form Provincial Association

Regina, Sask.—Airmen of Saskatchewan have formed a provincial association known as the Air Services Association of Saskatchewan, to which aviators of any of the allied countries are welcomed as members. The object of the association is the promotion of the interests of aeronautics and aerial navigation in this province. Owing to the great distances and the lack of roads and railways in the unsettled parts of the province, it is claimed that aerial navigation can play an important part, especially in the delivery of mails and light express.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to route. Take no substitute.

Appreciates the Compliment

"I wouldn't marry the best man living."

"I'm sorry you feel that way about me, but I appreciate the compliment."—Detroit Free Press.

Cuticura Will Help Clear Eruptions & Dandruff

The Soap to Cleanse The Ointment to Heal

Don't wait to have eruptions, redness and roughness, dandruff and irritation. Prevent them by making this wonderful skin-clearing complexion soap your every-day toilet soap, assisted by touches of Cuticura Ointment to the first signs of little skin and scalp troubles, and dustings of Cuticura Talcum, a fascinating fragrance. In delicate Cuticura medication The Cuticura Trio is wonderful. Sample each free of "Cuticura, Dept. N, Boston, U. S. A."

Rule of Bolshevik

Omsk. — Before their flight from Sarapul, on the Kama, southwest of Perm, the Bolshevik committed great excesses, shooting down the wives of officers and soldiers in the army of the Omsk government. In many cases they did not spare even the children.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Italian Aviator Killed

Captain Palli, one of the best Italian airmen, has been killed while flying in the Mont Blanc region. Caught in a snowstorm, his aeroplane crashed near Bourg St. Maurice, Savoy. He had accomplished one hundred and forty war raids, among them the famous Vienna expedition with the d'Annunzio squadron. His aeroplane had been hit many times by enemy fire. D'Annunzia used to call him "the infallible eagle."

FLEET FOOT

FOR STURDY WEAR

Put the boys and girls in FLEET FOOT shoes this summer. They can have two or three pairs of FLEET FOOT for the price of one pair of leather shoes. The low price of FLEET FOOT and their sturdy wear, make them the most satisfactory and economical summer shoes you can buy for children.

The Best Shoe Stores Sell FLEET FOOT.

DOMINION RUBBER

Germany Makes Counter Proposals

Versailles.—The German counter-claim on the allied powers is based largely on the alleged effect of the blockade upon the life and health of the civilian population. It is argued that a million births were prevented as a direct result of the food blockade upon the vitality of women. Same causes, it is contended, increased the deaths, approximately 800,000. Lack of milk for young children, the absence of rubber and cotton for hospital use and the interruption of supplies of quinine, camphor and other medicaments were further factors in the losses, according to the German argument.

Should the Germans open this field of enquiry, the allies are prepared to reply effectively by reference to the far greater decrease of births and increase of deaths in France, Belgium, Poland, Rumania and Serbia as a direct result of the German war measures.

The allies possess the German official figures showing that the milk production in Germany during the war was never below forty-five per cent. of the normal production, which would have been sufficient to maintain the children had they received it.

The failure of German cities to receive more than 10 or 15 per cent. of the normal milk supplies was through no fault of the blockade, it is pointed out, but was due to the German system of distribution. The lack of rubber and cotton for hospitals, likewise, represented the active choice of the German authorities who devoted to military and other purposes imports of rubber and cotton considerably in excess of requirements. The same argumentation will be applied to the scarcity of synthetic drugs, due to the conversion of German chemical plants to war purposes.

Berlin.—The newspapers comment at great length on the German counter proposals. Theodore Wolff, in the Tageblatt, says that the whole counter draft corresponds to the democratic ideals of right, and in no way to military nationalist conceptions. The demand that the occupation troops shall return home in six months at the latest might also be reckoned as meant to affect the preservation of German sovereignty. The Vorwaerts says:

"Everyone in Germany has read the text with heavy hearts. If sober reason prevailed at Paris, it would jump at this proposal."

The Vorwaerts, however, thinks that the signing of the entente draft will be insisted upon.

$125,000 for Holstein Two-Year-Old

Buffalo.—Raggapple the Great, a two-year-old Holstein bull, was sold for $125,000 at the dispersal sale of the stock farm of Oliver Cabana here. The price is said to be the highest ever paid for a sire. Robert E. Pointer, of Detroit, Mich., was the buyer.

Another record was made when the cow Fairview Mata was sold to John Tesahanan, of Buffalo, for $35,000. About four months ago the cow was bought for $18,000. She is a producer of 47.11 pounds of butter a week.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

German Intrigue in Rhineland

Orders Given to Tear Down Political Posters

Coblenz. — Orders were issued to the military police in Coblenz and to patrols throughout the area of occupation to tear down immediately any political posters should they appear. The soldiers also were cautioned to prevent any meetings of a political character.

At headquarters it was said that no such meetings had taken place. The military authorities, however, have received information of an intrigue, in which several influential Germans are implicated. The object of the intrigue was to launch a demonstration in Coblenz in favor of a separation from Prussia.

Poland Still Destitute

In Desperate Need of Food, Clothing and Raw Material and Machinery

New York, N.Y. — Present conditions in Poland are described in a statement issued by the American Relief Administration, compiled from authentic sources open to the administration. The statement says in part:

"With all its other difficult problems to meet, Poland is, in addition, actively fighting Bolshevism, not only for its own sake, but for the sake of the world. The Pilsudski Government remains stable, and is worthy of the greatest respect. It is making much progress in setting up a national and economic life for the new Polish nation.

"To fully understand Poland, one must always bear in mind that there is a great gulf between the rich and educated Polish aristocracy, in whose ranks are men of letters, artists and poets in a proportion not equalled in any other country, and the agrarian or peasant class, who are illiterate.

"Every attempt on the part of the Polish aristocracy to better the condition of the Polish peasant was crushed by the great jealous powers which have enslaved Poland for 150 years. The present Polish government recognizes as its first duty a betterment of the conditions of the peasants and the upbuilding of a strong middle class.

"At present, Poland is in desperate need of food, clothing, and raw material and machinery for her stripped and idle factories. Sixty per cent. of her last harvest was carried away by the Germans. Normally Poland is a self-sustaining country as to food, and with some help now she can stand on her own feet. Since the middle of February about 100,000 tons of American foodstuffs have been sent into Poland.

Mounted Police Strengthened

Vancouver, B.C.—The first detachment of the Royal Northwest Mounted Police force which is being established here as the headquarters for British Columbia has arrived in the city. While no official reason is forthcoming for extending the famous corps into this province, the general opinion is that the move is a precautionary measure in the event of any Bolshevist outbreaks. Since the unionization of the Vancouver police force, that body has lost a portion of public confidence.

Dutch Discuss Boundaries

Paris.—The council of foreign ministers continued the discussion of the treaty of 1894, relating to Belgium and Holland. Johnkeer Van Karnebeek, Dutch minister of foreign affairs, who has appeared before the council on the subject, returned to Holland to examine the question with his government. At as early a date as possible he will resume negotiations at Paris with the council.

Retiring from Politics

St. John's, Nfld.—In the assembly former Premier Lloyd, whose cabinet has resigned, announced his intention of retiring from public life, and stated he intended to accept the registrarship of the supreme court at present vacant, and which the incoming ministry had offered him subsequent to the recent crisis.

Claims To Enemy Shipping

Should U.S. Keep Vessels Interned in American Ports

London.—The division of German mercantile shipping, which has been the subject of considerable discussion in England since the announcement that the United States was to receive all vessels interned in United States ports, was raised in the house of commons by Ben Tillet, member for North Salford. Mr Tillet asked Andrew Bonar Law, the government spokesman, what steps the government was taking "to claim a share of enemy shipping in proportion to the losses sustained by us of the vessels detained in American waters."

Mr. Bonar Law said he could not discuss the matter, but hoped the house would trust the British delegates to protect their interests.

Horatio Bottomley, an Independent member, asked whether it was not a convenient opportunity for President Wilson to "prove the sincerity of his idealism by making no claim for these ships and giving them to those who have borne the heat and burden of the war."

Plague Follows War

The Coming Winter May See Typhus Ravage Europe

Paris.—One hundred thousand persons in Poland are ill of typhus, according to advices received by the supreme economic council. Typhus is increasing in Poland and is epidemic. It is epidemic in Hungary and a number of other countries in southwestern Europe.

The spread of the plague in other parts of Europe is feared during the coming winter, cold being more favorable for its propagation than warmth.

The supreme council has appointed a committee of British, French and Italian representatives to confer with representatives of the league of Red Cross, to prepare definite plans to combat typhus and cholera, those plans to be submitted to the respective governments.

Canada's War Expenditure

Ottawa.—According to the Auditor-General of Canada's report, the war expenditures during the year 1918, the last full 12-month period of the war, amounted to $343,836,801. Of this amount, $201,288,628 was expended in Canada by the Militia Department, and $115,381,243 by the Overseas Department of Militia and Defense. The Invalided Soldiers' Commission cost $11,393,654, while the naval defense of the country cost the people $9,668,229.

Food Shipments Limited

New York.—German-Americans in the United States are to be permitted by the War Trade Board to send certain foodstuffs, including condensed milk and sugar, but no perishable articles, to relatives in Germany, by the steamship Thala, chartered by the Balkan-American Express & Navigation Company. No other articles, not even soap, may be sent.

Germany's Demands

Paris.—It is understood that the Germans in their counter-proposals will demand that the allies evacuate territory occupied in Germany within four months of the signature of the treaty. They will consent to a reduction of their army, providing the entente countries reduce their armies proportionately, and will demand a mandate for the administration of their former colonies.

Feed Russia When Bolshe Gone

London.—The allied and associated powers have made arrangements to feed Petrograd and render assistance to the starving population after the expulsion of the Bolsheviki. Herbert C. Hoover, the head of the allied relief, has the details in hand. It is hoped that relief will be in the city within thirty-six hours after the Bolsheviki withdraw.

Cannot Order Strike

Montreal.—"Under the laws of the American Federation of Labor no trades and labor council has the right to declare a strike," said S. J. Konenkamp, international president of the Commercial Telegraphers' Union of America.

Recurrence of "Flu"

Chapleau.—The "flu" has broken out here again. Twenty-six cases are reported and two deaths from the epidemic occurred Monday.

Agreement Reached On Adriatic Question

Bush Fires in North

Telegram From Big River Inspector Says Some Homes Destroyed

Regina.—Information of the devastation caused by the recent bush fires in the northern part of the province has reached the office of A. E. Fisher, fire commissioner for Saskatchewan. In some cases people have lost their homes, and other property has been destroyed by the flames.

The following telegram was received by Mr. Fisher from an inspector, dated at Big River:

"Bush fire around Canwood and Polworth, May 18 and 19. One family homeless. On May 22 a big fire swept west, jumped across Big River and burned five sheds and Ladder Lake Lumber company warehouse; also set a stable on fire. Bush fire coming on Big River from north and southeast. Men out at present back firing. One family homeless in Big River from fire on May 22."

Hawker Has a Record

Has Earned Many Honors as an Aviator

New York, N.Y.—Harry G. Hawker, who started from St. Johns, Newfoundland, on a trans-Atlantic flight in a Sopwith airplane, is an Australian. He began his career as a mechanic and rose to the rank of an aviator under the tutelage of Sopwith, one of the earliest British airmen. He first came into prominence on October 24, 1912, when flying a Sopwith biplane, designed after the pattern of the Wrights' machine; he established a British record of 8 hours and 23 minutes for a duration flight and won the British Michelin trophy for that year.

In 1913, flying a Sopwith equipped with a Gnome motor, he established a British altitude record of 12,900 feet, and on the same day carried aloft two passengers to a height of 10,600 feet. Later he attained the world's altitude record—28,500 feet—which was subsequently excelled. During the war he was an experimental aviator assisting in the development of Sopwith machines.

Canadian Flier in Great Race

New York.—Captain J. E. Boyd, Canadian aviator who was shot down by German anti-aircraft guns while flying over Zebrugge, managed to avoid capture by guiding his plane into Dutch territory, where he was interned October 3, 1915, announced himself here as an entry to the race of the London Daily Mail for the purse of $50,000 for a non-stop trans-Atlantic flight.

Captain Boyd is making final plans for his flight and will leave for Newfoundland by the middle of June.

British Liberals Against Titles

London. The Manchester Liberals include in a program for submission to the National Liberal Federation a section recommending that no new hereditary titles shall be created within the United Kingdom. That all existing hereditary titles with the exception of those of the royal family shall cease at the death of the present holders. It was moved to confine the titles to the King and Queen, but the section as given was passed.

Lloyd George Is Coming

Paris.—Premier Lloyd George, of Great Britain, is considering favorably a proposal from the U.S. peace delegation that he visit America this year. The Premier would go to the U.S. especially to attend the first meeting of the League of Nations in Washington in October.

Aeroplane Trip Over Egyptian Desert

London, England.—Colonel Wilson, one of the commanders of the British forces in Mesopotamia, has arrived in England after an aeroplane trip from Mosul, by way of the Egyptian desert and Cairo. The trip lasted a week.

Over Five Miles High

Paris. — Adjutant Casal, a French aviator, in a flight for altitude, succeeded 31,000 feet. This constitutes a world's record.

Paris.—The question of Fiume and the southern territorial boundaries of Austria has been settled by the allied council, according to the best information here.

An agreement has also been reached, it is stated, on the general Adriatic questions, except regarding economic arrangements. Thus, all territorial questions will be presented to the Austrians Friday in the proposed terms.

The matter of reparations will come up for consideration later.

New York.—The Associated Press issues the following:

The Austrians, who have been clamoring for an early presentation of the peace treaty that has been arranged for them, will be called before the peace congress and handed the document.

This had been made possible through an agreement reached in the Council of Four on one mighty question which has blocked the council in its efforts to settle the issues with the Austrians—Italy's demands that she be awarded Fiume, a seaport town on the northeastern Adriatic, and given other concessions in Dalmatia to which President Wilson and Premier Lloyd George and Premier Clemenceau believed she was not fully entitled. The nature of the settlement has not yet been made public.

Paris.—The states formed from the Austrian empire have virtually agreed to pay part of the Austrian indemnities, not as enemies of the entente, but in recognition of their deliberatio and also to proportionately bear their share of 40 million kronen (Austrian paper currency, still in circulation in these states). Austria's indemnity payment will be about 2,500,000,000,000 kronen. Another 2,500,000,000,000 will be proportioned among Hungary, Czecho-Slovakia, Jugo-Slavia, Rumania and Poland and Italy. A feature of the arrangement is that Italy is sharing the cost of Austria's war against Italy. This results from the acquisition by Italy of Trentino and other sections, which share in the total amount assessed against Austria.

Final clauses of the financial terms of the treaty were concluded at the conference today.

Indian Ruler Loyal to King

London, England.—With characteristic loyalty and devotion to the British Crown, the Maharajah of Bikanir, in view of the Afghan violation of British territory, has, during his recent short visit to London from the peace conference, placed at the disposal of King George his personal services and all the resources of his state. It will be remembered that the Maharajah of Bikanir was the first of the Indian ruling princes to make the same offer to the King-Emperor in the first days of the war, in August, 1914.

Atlantic Trip Not Serious One

London. — Speaking at a luncheon given by the Daily Mail, in his statement to Lieut.-Commander Grieve, Harry G. Hawker deprecated the organization which had won for the United States the honor of the first crossing of the Atlantic by a heavier-than-air machine. He declared that it was not a serious attempt, with a ship stationed at "every twenty yards." Hawker continued:

"If you put a ship every fifty miles, it shows you have no faith in your motor."

Berlin Looking Towards Vatican

Berlin.—Herr Von Bergen, former counsellor of the legation, has been appointed minister to the Holy See for the German empire, succeeding the Prussian representative. Von Bergen is a Protestant Centralist.

It is expected that a papal delegate will be sent to Berlin, thus departing from diplomatic custom. Monsignor Pacelli, nuncio to the former Bavarian court, has gone to Switzerland and is not expected to return to Bavaria.

New Troops to Russia

Archangel.—The American cruiser Desmoines arrived here simultaneously with transports, bringing new British volunteer army units to relieve the United States and other forces who have been fighting since last August.

CRESTON
Second Hand Store

We BUY and SELL everything of value. Also sells on commission.

Miss A. Doyle of the Fruit Growers' Union staff, was a week-end visitor with her parents at Nelson, returning on Monday.

The Fruit Growers Union has an important announcement for sour cherry shippers in this issue. Look it up, on page 8.

Both morning and evening service scheduled for Christ Church on Sunday next, with a celebration of Holy Communion after morning prayer.

FOR SALE—5 acres choice fruit land slashed and burned. Road and water. All level, ideal homesite. Apply to owner, Mrs. C. Moore, Creston, B.C.

The Presbyterian Ladies Aid tea and sale of cooking on Saturday afternoon in Speers' Hall was very liberally patronized, the intake being just over $26.

Will the parties who borrowed my 7 x 5-foot 'A' tent, 5-foot crosscut saw, grubhoe, peevy, crowbar, etc., kindly return the same, as I am in need of them.—J. A. P. Crompton.

The Methodist Ladies' Aid are entertaining to-night in Mercantile Hall at an ice cream an strawberry social, with tht usual musical features, starting at 8.30. Popular prices.

Miss Phyllis Lyne, who has been at the state ladies' college at QuoValla, Wash., for the past eight months, is home for the holidays with her parents, Mr. and Mrs. H. Lyne.

FOR SALE—A few tons of loose hay; 300 feet of new 1¼-inch rope; disc harrow almost new; John Deere walking plow, near new; wagons, land clearing paraphrenalia. R. Lamont, Creston.

If their new pastor, Rev. G. H. Hamilton, does not show up in time Rev. M. W. Lees of Trail, who is a visitor here, will occupy his old pulpit at the Methodist Church for both services on Sunday.

Section foreman Nicholls has moved into the residence of the late Mike Glazer, which was vacated a couple of weeks ago by W. H. Farrell. Mr. Nicholls is reported to have purchased the property.

Tom, the young son of Rev. and Mrs. McCord, was taken to the hospital at Cranbrook on Friday last, where he is undergoing treatment for ear trouble, and at last reports was making a nice recovery.

This week's change in ranch property is the sale of the Bainbridge place along the K.V., which is reported sold to H. Davis, the sheep man, at a price of $2500. It is a ten acre tract considerably improved.

The first trip to town by team from Corn Creek since the flats flooded was made on Tuesday. The water is now falling quite rapidly. A year ago June 26th saw the water at its highest at points along the lake.

Announcement is made that the Game Act has been amended so as to provide a close season for bears during the months of July and August this year. Hitherto bruin was shootable twelve months in the year.

The old English church site at the corner of Vancouver street and Barton Ave on the Barton estate—has been purchased by Mr. Ropcomer, who proposes to errect a commodious residence thereon this season.

The 1919 graduation exercises at the Nelson hospital were held this week, the name of Miss Amy Ebbutt appearing in the list of those successfully taking third year work. A host of Creston [illegible]

A Speers [illegible] on Monday for Griffin, Sask., summoned there by wire to attend his mother, who is critically ill at the home of one of her daughters. Mrs. Speers had not that [illegible] Friends

Auto owners are reminded of the meeting to-night in Speers' Hall for the purpose of organizing the Creston Valley Automobile Club. There are at least 40 car owners in the Valley and a strong organization should result.

The Presbyterians of Creston and district intend have their annual Sunday School picnic on Tuesday, July 1st at Alice Siding. All who have no way of getting to the grounds are asked to meet at the church at 11 a.m. sharp.

And still another automobile has been purchased locally. S. A. Speers, who recently sold his 1918 Ford to C. Blair, on Monday took delivery of a seven-passenger McLaughlin car, Ron. Lidgate bringing it in from Cranbrook for him.

Creston Women's Institute now nas a membership of 64. At the Jnne meeting last week the ladies decided to make a bid for the 1920 aunual session of Kootenay institutes to be held at Crestod. This year the gathering is at Nakusp.

R. L. T. Galbraith of Fort Steele, the Kootenay Indian agent, was here on an official visit on Friday. The Siwashes are now pretty well scattered all over the Valley for berry picking operations, getting 40 cents a crate for the work this year.

Mr. and Mrs. H. W. Miggott and family of Maple Creek, Sask., are among the newest arrivals in town. They came on Friday, and are occupying the Reid house on Fourth street. He is taking a good look round before investing in a rench property.

Miss Elsie Hendren, who has been in charge of the morning shift at the local central, has joined up with the B.C. Telephone Co., leaving on Sunday for Windermere, where she will relieve for a few weeks, and thence to Golden to remain permanently.

J. Illingworth arrived from Edmonton on Friday, and is opening out in business in Creston in a second hand store, at which he announces a willingness to buy and sell everything. For the dresent he is located in the McPeak building on Speers Ave.

J. T. Bell, who arrived here from Edmonton, Alta., a couple of months ago, has leased the Creston Hotel from Mrs. Mead, and took charge of the business this week. For the past few weeks the number of hotel arrivals has been heaviest for a couple of years back.

R. Binnelson, a Trail plasterer, has a couple of lathers here at present doing a few lathing jobs, including the new Stocks and Speers residences, Mr. Binnelson expecting to be along shortly to follow up with the plastering. A carload of the necessary materials came in on Saturday.

J. A. Gibson, who removed his family here from Windermere early in 1917, prior to going overseas with the forestry draft, and who returned from overseas a couple of months ago, left with Mrs. Gibson and the children on Wednesday, for Olds, Alberta, where has taken up farming.

The provincial grazing commissioner who is touring the province explaining the features of the new Grazing Act, and appointing men to see to its enforcement, is expected here next week to arrange matters in this connection with the 1919 haying and grazing operations on Kootenay Flats.

Strawberry shipping is just nicely getting under way at all points in the Valley, the eastbound train making the stops at Reed & Mather's and Smith's crossing for the first time on Wednesday. So far they have been coming in well but more showers are quite urgently needed if the bumper crop on the vines is to be matured.

There will be at least two new faces on the local teaching staff next term. In addition to Miss Ross, who retires on account of poor health, at the school board meeting on Monday night Miss Kane, teacher in Division III., tendered her resignation, which was accepted with regret. Owing to a lack of space the minutes of the meeting are crowded out this week.

C. P. Hill of Montreal, better known to oldtimers as "Chippy," spent a few days in town the latter part of the week. He founded Porthill, and is also heavily interested in the mines at Hillcrest, Alta. His Valley holdings include some lands near the Canyan, as well as some galena claims in Rolfe mountain on which he states development work will start shortly.

R. Helme of Vancouver, and Fred Smith of Calgary, Dominion Express Co. superintendents, were here the latter part of the week completing arrangements for handling the berry shipping this season. Mr. Helme, who has been a Valley landowner for several years, predicts that development and sale of the Canyon City area by the land settlement board will make a town not less in size than Vernon.

Fruit Inspector A. McL. Fletcher of Nelson commenced his official duties at Creston on Wednesday. This is his seventh year on the work at this point and it is needless to say that after that many seasons of strict but judicious handling of the various growers Mr. Fletcher now has things running where his work gfves the maximum of satisfaction to the department with the minimum of difficulty with shippers.

Creston Boy Scout troop had a big afternoon and evening of it at the picnic at the home of Chas. Moore on Saturday afternoon, when the troop members and their friends were out in large numbers for the doings, which included a bang-up supper. Between the scouts and cubs Scoutmaster Smith has almost thirty boys to handle, all of whom exhibit considerable proficiency in the different lines of effort.

Creston fans had a double supply of baseball on Sunday afternoon, and in both contests Creston was returned winner. The first clash was with Kitchener who went down to defeat by a 20 to 1 score. The second was a five-inning duel with Erickson in which Creston came in front 6 to 5. The batteries were White and Gobbett and Ockey and Telford for Erickson. There was a great crowd out, the collection for the club fund going over $16.

Miss Jennie Arrowsmith, whose marriage is announced for the latter part of the month, was guest of honor at a miscellaneous showef at the home Mrs. Mallandaine on Wednesday afternoon, when a host of friends that filled the spacious home and overflowed on to the lawn, gathered to express their pre-nuptial felicitations, showing appreciation also in a large and varied collection of household usables of every sort. The hostess was assisted by Mrs. G. Young, Mrs. Speers and Mrs. Bidder, while Mrs. Crompton delighted with a number of musical selections throughout the afternoon. The afternoon was highly enjoyable and the guests very much appreciate Mrs. Mallandaine,s thoughtfulness in thus affording them opportunity of so happily extending good wishes to the bride-to-be, who is one of the popular members of Creston's younger set.

Jas. Cook got the biggest surprise of his life on Saturday night last when a party of about two dozen friends foregathered unexpectedly at the Cook home on the occasion of his birthday, to enjoy themselves at a friendly game of cards and incidentally make him a little presentation expressive of the kindly feeling they have toward both he and Mrs. Cook. The gift was a casserole and silver nut bowl, and the presentation speech was nicely done by J. M. Craigie; but capable and all as Jim is at vocally expressing himself he was entirely unequal to this occasion though he managed to pull himself together and return thanks on behalf of Mrs. Cook and himself for the timely remembrance. Five tables participated at whist, the prizes going to Miss Hazel Audrew and Mr. Lasher. Refreshments were served just before midnight, rounding out a brief but none the less enjoyable evening.

Penticton is looking for an open fall. The fall fair dates are set for October 16 and 17.

Revelstoke is one of the few points where the Red Cross workers are still knitting socks.

Up to the first of June the scholars at Nelson school had invested $726 in Thrift Stamps.

The Ledge is demanding that the C.P.R. install a night operator at the station in that town.

Nelson will celebrate in honor of the soldiers and the signing of peace with a big day of sports on July 1st

At Vernon the News wants a shooting expedition organized to kill off a few hundred of the crows that are doing considerable damage, more especially to young poultry, this year.

SOUR CHERRIES

During the last three seasons the Union has been called upon to find sale for a species of fruit that consists of a circular piece of fruit rind drawn tightly around a large cherry stone.

The commercial value of this commodity exists entirely in the mind of the grower, and its shipment at the beginning of the cherry season has a seriously harmful effect on the price of later and better cherries.

This season we are asking the growers to size the fruit up for themselves, and if they have anything to offer in the line of sour cherries that they would not waste sugar on to keep it at home.

Good sour cherries are one of the finest fruits we have and the market for them would steadily increase if it were not for the shipment of a certain number of crates of cherries so small that they are practically useless.

These are usually shipped under the general name of sour cherries early in the season and wherever sold are sure to prevent any further sale. We can handle all the sour cherries you have that are fit for sale, and at a profitable price.
