THE CRESTON REVIEW

Vol. XIV. CRESTON, B. C., FRIDAY, SEPTEMBER 15, 1922 No. 32

Lister

Jos. W. Bell and Stewart A. Evans have gone to Kimberley, where they are working on the new concentrator building at that point, and will probably be away all winter.

Mr. and Mrs. J. Filmer and Frank Alexander have just returned from Spokane, where they took in the Interstate fair.

Messrs. Wilson and Atkinson of the Dominion Soldier Settlement Board, are here on an official visit at present and, we understand, are making an appraisal of all the improved places in the area.

Road making operations commenced on Monday with John Bird in charge of a small crew of men. At present but one team is employed.

E. Langston, sr., of Yahk, was a week-end visitor at his home here.

Ladies Entertain

Mrs. Mallandaine entertained at the tea hour last Friday afternoon in honor of Mrs. Floyd Rodgers, a recent bride. Mrs. F. H. Jackson presided at the tea table, and Miss Effie Arrowsmith assisted the hostess in serving. Mrs. C. B. Garland rendered some piano selections, and Mrs. H. B. Downs favored with some vocal numbers. Those present were Mrs. Floyd Rodgers, Mrs. C. O. Rodgers, Mrs. J. Arrowsmith, Miss Effie Arrowsmith, Mrs. W. K. Brown, Mrs. C. G. Bennett, Mrs. Jas. Compton, Mrs. Jas. Cherrington, Mrs. H. B. Downs, Mrs. C. B. Garland, Mrs. C. F. Hayes and Mrs. F. H. Jackson.

Mrs. C. O. Rodgers entertained informally on Wednesday afternoon in honor of Mrs. H. B. Downs, who is leaving shortly to reside permanently in England, and Mrs. Floyd Rodgers, an August bride. The home was prettily decorated with roses and cut flowers, Mrs. F. H. Jackson assisting the hostess with the refreshments, whilst Mrs. Downs' vocal and Mrs. Rose's piano selections were also features of a very pleasant afternoon. The guests were Mrs. Watchel, Mrs. Rose, Mrs. Compton, Mrs. F. H. Jackson, Mrs. Bevan, Mrs. Hayes, Mrs. Speers, Mrs. Henderson and Mrs. Brown.

Have YOU Done Your Duty to Yourself and Your Family!

Join the Creston and District Fifteen Hundred Club!

Send application to Secretary, Creston, B.C.

Women's Institute

The Women's Institute had the September meeting on Friday afternoon, but due to the attendance not being large the report of the conference was held over till next month, as there were many interesting points to bring up. Dr. H. E. Young, provincial officer of health, forwarded a copy of a resolution passed by the Dominion Council of Health at Ottawa last June which strongly urges every perron to submit themselves to an annual medical examination, and in that way help toward the prevention of disease.

Engineer Visits Arrow Creek

Mr. Newell, engineer of the Spokane Cement Pipe Company, Ltd., the firm that installed the irrigation system at Grand Forks, arrived on Sunday, and is busy this week looking over the proposed route and intake of the Arrow Creek system. About a month ago Mr. Gallipeau, manager of the same firm, spent a couple of days here investigating the same proposition. Mr. Nowell, on reaching Nelson, will have access to the report Mr. Biker made on the project, and the firm will submit the Arrow Creek trustees an estimate of the cost of putting in the system on the survey made by Engineer Biker.

"Bob" McLeod Leaves

Mr. and Mrs. R. B. McLeod left yesterday for their new home at Trail, where Bob is taking over the management of the grocery department of the Trail Mercantile Company. He has been on the staff of the S. A. Speers store for the past three years and was one of the most efficient and popular salesmen ever seen in the local retail trade, as well as being prominently identified with athletic activities. On Tuesday afternoon Mrs. McLeod was guest at a farewell tea given in her honor by the Methodist Ladies' Aid at the home of Mrs. R. B. Staples. Both will be greatly missed from Creston, and the best wishes of all go with them for health and prosperity in their new home.

FOR SALE—Colony of bees. Mrs. Crosthwait.

The biggest fine ever levied in the history of Creston's police court was collected on Saturday last when the Dominion Export Liquor Company was mulcted in the sum of $1000.00 and costs for selling liquor contrary to the export trade regulations.

CANADIAN PACIFIC

SPECIAL FARES

TWENTIETH ANNUAL
Nelson Fruit Fair
SEPT. 20—SEPT. 22

GOING DATES:—Kootenay Landing, Field and west, Sept. 18th to 22nd. East to Field and Kootenay Tanding, Sept. 18th to 21st.

RETURN LIMIT—Sept. 24.

Information and Tickets from A.R.SWANSON, Ticket Agent, Creston.

VICTORIA EXHIBITION
Sept. 18—Sept. 23

GOING DATES
September 16 to September 23

RETURN LIMIT
September 26.

Information and Tickets from A.R. SWANSON, Ticket Agent, Creston.

Omitted from Prize List

In the prize list for this year's fall fair there are a couple of omissions to which the attention of intending exhibitors is called. They are:

Class 1, Section 56—Plate of pears (5).
Class 4, Section 93—Barred Rock Pullet.

In Class 1. Section 68, this should read basket or plate of fruit for table decoration.

Rod & Gun Club Loose Pheasants

Creston Valley Rod and Gun Club had a very busy and useful session at the August meeting with a full turnout of members, and President Mallandaine occupying the chair. Two new members were enrolled in T. Lauder of Camp Lister, and L. W. Kyle.

In connection with the request to the fishery department that Goat River between the Canyon and Kitchener be closed for two years petitions for the signatures of those favoring the policy are now at the office of President Mallandaine, Mawson Brothers store, and one will be placed at the McLeod store at Erickson. Quite definite assurance has been given that if the necessary number sign these lists the department will make the closure effective in April and continue it in force until April 1925, and will at once stock the stream with steelhead trout.

The special committee that this spring planted a number of the sloughs on Kootenay Flats with wild rice reported that in every case most satisfactory growth was shown, and the club ordered the purchase of another lot of rice, which will be planted on other sloughs in the same area.

Report was made of the turning loose of a couple of dozen Mongolian pheasants that had been supplied by the game conservation board. Of these four were cock birds and this makes the second lot of pheasants thus to be set at liberty in this section. About nine years ago the old Fish and Game Club put out about a dozen of them, and while they seem to have done well never as yet have there been enough of them in evidence to warrant the establishment of an open season.

The club desires to call attention to the bag limit in the grouse season this year. Although a daily kill of twelve is permitted, sportsmen should note that not more than six willow grouse may be taken in one day—the other six to be of any other variety or varieties. The local club is particularly well pleased with the extended grouse season. A year ago it was restricted to three weeks, and although this club asked for a six weeks' season the five weeks' open season for 1922 is eminently satisfactory. The meeting endorsed a resolution to prosecute all persons reported to them as having exceeded the daily or season kill of any class of game bird or animal.

The chairman of the game conservation board will be wired to appoint a deputy game guardian for this area until at least the close of the deer season. Last year an official of this sort was on duty for the closing two weeks only. A letter will also be written in this connection explaining in detail the necessity for such an appointment. To speed up the collection of 1922 dues the secretary will notify all in arrears that unless the membership fee is paid within thirty days the names of all then delinquent will be dropped from the membership roll.

Local and Personal

Anglers will please take notice that Mawson Brothers have extended their prize competition for the largest trout and char caught this season to close on October 1st. In the trout class the entry list does not as yet show any overly large specimens.

Sunday was quite a notable day in the way of baptisms. In the afternoon Pastor Knox, assisted by Mr. Rogers of Lethbridge, had a service on the flats when half a dozen candidates were immersed in Goat River, whilst in the evening there was both an adult and infant baptism in Christ Church.

LOST—Between Lister and Creston on August 26th, black astrachan neckpiece. Reward to finder on leaving same at Review Office.

August weather shows the hottest day of the month to have been the 2nd when the mercury rose to 97 in the shade, while the coolest touch was on the 25th when it went down to 43. The total rainfall for the month was three-fifths of an inch.

Service in Christ Christ Church at 7.30 Sunday evening when Rev. F. B. Atkinson of Invermere will be the preacher. Those who heard him on a previous visit about a year ago will welcome this opportunity to again hear one of his practical talks.

Bridge foreman J. P. Johnston with a crew of about three men started work at the first of the week on some needed repairs to the bridges at Goat River Crossing, and will also give some attention to the Arrow Creek bridge, as well as the old bridge at Canyon.

Showery weather that prevailed most of last week limited haying operations to about half a day for the whole week. Since Saturday, however, Indian summer climatic conditions have prevailed and the haymakers are more than making up for lost time.

The new Union warehouse was housewarned on Saturday night when about fifty couples tripped the light fantastic until about midnight to excellent music furnished by T. Trevelyan on the accordeon, the town band, as well as A. R. Swanson's wonder phone, with W. Truscott officiating as floor manager.

With the exception of putting in the windows and doors construction work on the new Union warehouse is complete and it is expected the grading machines and staff of packers will be at work in the new structure early next week. The grading for the spur track is also finished and tracklaying can start any day now.

Monday was receiving day at the primary room of the public school, when Miss Creighton enrolled about fifteen brand new scholars. All the school rooms are pretty well filled and by the time the apple picking season is over it would look as if the attendance at the high and public school would run to a total of 240.

The first real break in the dry spell that has prevailed since the first week in June came on Thursday night and Friday morning last when a sod soaker of a rain yielded at least an inch of wetness which was most welcome for the spuds and other root crops. In the sunny weather that has prevailed since the apples are taking on color rapidly.

Capt. Forrester of Kitchener was a week end visitor with Creston friends. He has been busy the past two months in charge of one of the crews fighting fires in the Kitchener section, which the heavy rains of last week put out for the present season. About the only individual fire sufferer was the Kitchener Timber Company who had about 4500 poles go up in smoke.

For the first time in its history Creston will entertain the deanery of East Kootenay which will meet here in three-day session on Monday, Tuesday and Wednesday next, at the Parish Hall. Clergy from Fernie, Golden Invermere and Cranbrook are expected to attend as well as Archdeacon Graham of Nelson. The deliberations will be presided over by Rural Dean Harrison of Cranbrook.

A quiet wedding was solemnized on the evening of Labor Day at the home of Mr. and Mrs. Joe Atkinson, when Miss Grace Doris of Cranbrook was united in marriage with Arthur E. Atkinson, warehouse manager for Creston Fruit Growers Union, Ltd. The couple were unattended and only the immediate relatives witnessed the happy event, which was solemnized by Father Bessette. For the present they are making their home with Mr. and Mrs. Joe Atkinson, who are occupying the Tunsted home on Victoria Ave.

Kitchener

Mr. Lloyd, who had his leg injured a couple of weeks ago and had to be taken to the Cranbrook hospital, has returned to Kitchener.

The very heavy rain on Thursday night last effectively put out the forest fires for this season, and the men who have been engaged at fire fighting have now all been laid off.

School was opened on Tuesday with Miss Hunter of Silverton in charge. She is a daughter of William Hunter, M.P.P. for the Slocan, and comes highly recommended as a teacher. The school has been painted inside and Kitchener now has one of the best one-room schools in the district.

Miss Hagen of Wynndel arrived this week to work for B. Johnson.

Dr. Henderson of Creston was here between trains on Tuesday, having been called here due to the illness of Clara Hunt.

Kitchener Timber Company have started logging operations already, and from all appearances will have a very busy winter.

Friends of Miss Irene Schmidt will hear with satisfaction that she is coming along nicely after her operation for appendicitus in the Rossland hospital at the end of August, but it will be a couple of weeks yet before she can take the school at Sirdar.

Pushing Irrigation

The joint irrigation committee consisting of F. H. Jackson, representing the Ratepayers' Association; Jas. Adlard, Creston Board of Trade; Mrs. H. B. Downs, Women's Institute, and L. T. Leveque and Chas. Moore of the Erickson and Creston locals of the United Farmers, had a meeting on Saturday night. Various features of the irrigation situation were discussed and in addition to making arrangements for handling Engineer Newell of Grand Forks, who is here looking the project over the meeting also drafted a pointed letter to the minister of lands stating the urgency of the present situation and appealing for immediate action in the matter of getting an independent engineer's report as warranted under the terms of the act and the petition sent in some months ago by the property owners interested.

The Presbyterian Ladies' Aid announces that they will serve their usual Thanksgiving Day supper again this year, and the date will be definitely announced as soon as Thanksgiving Day is officially announced.

The Public Suffers And Pays

A newspaper despatch from Detroit on August 27 reported Henry Ford as saying that, as a result of the coal shortage caused by the strike of the miners, 105,000 employees of the Ford Motor Company throughout the United States would be thrown out of employment on September 16, and that in addition several hundred thousand other workers employed in industries furnishing materials for the Ford plants would be forced into idleness. In other words, the means of livelihood of between one and two million people would be cut off.

These hundreds of thousands of men and their families are to suffer through no act of their own, nor because of any dispute with their employers—because it is well-known that the Ford employees are well paid and well treated—but solely because of a labor conflict between the coal operators and the miners, and the attempts being made to settle thir differnces of opinion by the waging of an industrial war, instead of endeavoring to reach an amicable settlement through an arbitration conference.

Why should these people be made the innocent victims of the unreasonableness and greed of others? Is our boasted civilization such a poor thing that leaders in public life, in finance and industry, and in the direction of organized labor, cannot devise any better method of settling their disputes than by a resort to war? Are these leaders so devoid of commonsense and intelligence, so lacking in an appreciation of what constitutes right and justice, that they are ready and willing to inflict loss and suffering upon hundreds of thousands of absolutely innocent men, women and children? In their refusal to see any side to the questions confronting them but that in which is bound up their own selfish interests they are surely guilty of a criminal intent far surpassing many acts punishable by severe penalties under the law.

The coal strikes in the Canadian Maritime Provinces and in Western Canada have been settled and the miners have returned to work, but only after enormous and quite unnecessary losses have been inflicted upon both parties to the disputes, which might just as well, and ought to have been, settled by conferences before the strikes took place instead of after the strikes. Miners and mine owners alike have lost money, the public exchequer has been put to heavy and unwarranted expense—all of which the public must, in the final analysis, pay.

And now, with what is generally admitted to be the second heaviest grain crop in the history of the Dominion to be transported by rail and boat to the markets of the world just beginning to move, our transportation systems will likewise be called upon to handle an enormous volume of coal traffic in order to fill up empty coal sheds and bins which ought to have been handled during the slack months in grain movement. Instead of our transportation systems being enabled to spread the freight movement over a long period, they must cope with two peak loads at one and the same time.

Just what this means in further loss cannot accurately be estimated, but anyone at all familiar with the subject knows that the loss will be considerable because the business must be cared for in the most expensive instead of in the least expensive way. So, here again, the public must pay. The loss falls upon them. This is clearly revealed in present and prospective coal prices and also in the warnings being issued of the probable difficulty of obtaining adequate supplies of coal when they are needed.

Apart altogether from any question as to whether the miners or the mine owners are primarily responsible for these huge losses and inconvenience to the public there is the much greater issue of the rights of people generally. Politicians must stop pussy-footing and abandon their attitude of timidity in dealing with the two opposing forces of Capital and Labor. Each is a great force and power in the nation. Each is essential to the well-being and prosperity of the country. Neither can get along without the other. But great and important as they are, there is a still greater force and power and one which constitutes a much more vital factor in the commonwealth—that is the whole people; in other words, the nation itself.

Politicians, instead of striving to gain the support of this particular group or that, or rather endeavoring not to antagonize either, must take a decided stand and tell both that this suicidal strike nonsense must cease, and that labor disputes must be settled in a sane and intelligent manner through processes similar to those provided by courts of law for the settlement of all other civil disputes.

For Acidity or Bile

When your stomach is upset Take

Beecham's Pills act as a splendid tonic to the digestive organs. They remove acidity and fermentation and excess of bile from the stomach and bowels and promote the secretion of the gastric juices. In thus correcting morbid conditions and stimulating the digestive processes Beecham's Pills naturally have an excellent effect upon the general health. If you have lost your appetite or are suffering from nausea, sick headache, constipation, or giddiness

Beecham's Pills

Sold everywhere in boxes

25c—40 pills
50c—90 pills

British Capital May Open Branch Plants

Manufacturers Eager to Have Goods Produced in Canada

F. W. Field, British Trade Commissioner, who returned to Toronto after two months in England studying trade conditions there, states that there is every cause for optimism. Generally speaking, he said, the outlook was brighter than it was a year ago, and there was a better feeling among the business men of Britain.

One of the most hopeful features, said Mr. Field, was that hundreds of representatives of British businesses were at present travelling about the world seeking markets and investigating conditions. Many of these men, he said, would visit Canada, where their capital was again beginning to seek an outlet.

British manufacturers, he explained, were anxious to enter into co-operative relations with Canadian factories and distributors. Not only were they eager to place their money in Canadian enterprises, but they were also seeking to make arrangements for the manufacturing under joint directorates, of their products in Canadian factories already established.

While it was true that British capital, in many instances, contemplated investment in Canada through the establishment of branch plants, the general tendency was to make use of the manufacturing facilities already established in Canada for the production of their goods.

WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache, headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womankind. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. 25c all dealers or The Catarrhozone Co., Montreal.

Healthiest Year

Figures compiled by thirty-seven life insurance companies show that 1921 was the healthiest year for Canada of which there is any record.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

How They Do It In Europe

Revert to Barter System to Overcome Exchange Problem

Barter, or the exchange of goods, as against the transfer of actual cash has figured in recent international loans, according to the Geneva correspondent of the London Observer. In this way the difficulties of exchange have been overcome.

Rumania wanted a loan of 45,000,000 gold francs from Switzerland. The Swiss said it was impossible unless they know how the money was to be spent. Rumania replied: "We need to replenish railroad rolling stock, particularly engines."

"Fine," said the Swiss bankers, "we have these for sale. Take them; and pay for them in cereals and petroleum, both of which you produce and we need." Thus were the arrangements concluded.

Similar borrowing and paying by barter also has taken place with Czecho-Slovakia. Here, again, Czecho-Slovakia is receiving Swiss manufactured goods and is to pay for them with truck loads of sugar. Therefore, the question of exchange and the comparative values of the Czecho-Slovakian krone and the Swiss franc does not arise.

OLD CHUM
The Tobacco of Quality

New Stock Feeding Plan

Finish Sheep and Hogs on Cleanings Of Western Elevators

A Vancouver syndicate is being organized to finish sheep and hogs on cleanings of western elevators. Cleanings contain a large percentage of noxious weeds, which still make good fattening for food. The danger in selling promiscuously is that the seeds might become scattered and create a noxious weed danger. The plan is to centralize the flock in feed centres where no danger of spread of noxious weeds could exist. The plan is receiving very serious consideration by elevator and packing plant men.

Choked for Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Must Grab Fast

"Yes," said the timid passenger to the airplane pilot, "I understand I'm to sit still and not be afraid, and all that, but tell me, if something happens and we fall, what do I do?"

"Oh, that's easy," said the pilot. "Just grab anything we're passing and hang on tight."

Radium Institute

Quebec Government Prepares For Opening in Montreal

The Quebec Government has now everything set for the opening of the radium institute in Montreal, in accordance with the announcement made by Premier Taschereau.

At a meeting of the cabinet held at Quebec it was decided to purchase one grain of radium from the United States Radium Company of New York, at the rate of seventy-seven dollars per milligram.

EAT SOM-MOR BISCUIT TODAY

IN THE STRIPED PACKAGE

NORTH-WEST BISCUIT COMPANY LTD

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

BAYER

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Practical Effort Made In Manitoba To Assist The Farmers

Winnipeg.—The appointment of an official, who would act as an advisory referee where farmers who are hard pressed financially want an extension of time, will probably be made as the result of a conference between the Government and business interests in Manitoba, it was learned officially.

This is the first practical effort in the Dominion to set up business machinery whereby the rural population can appeal from their creditors and it is expected this will prevent the glutting of the wheat market by forcing farmers to sell their grain too soon after harvest. The plan has been approved by the business men who attended the conference, but a further meeting will be held before the appointment is announced. The referee, while having no legal power to stay the foreclosing of a farmer, will be able to bring strong pressure to bear on the creditor to allow an extension of time, if it is considered advisable.

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentry, colic, cholera, cholera morbus, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

Mrs. Roy Keith, Charlton, Ont., writes:—"I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children."

Price, 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Trade Agreement With Belgium

Brussels.—Negotiations for an economic agreement between Belgium and Canada are expected to open here in the near future. Hon. W. S. Fielding will conduct the negotiations with Premier Theunys and Foreign Minister Jaspar.

Montreal Population Grows

Montreal.—An estimated population of 863,188 for Greater Montreal is made by the publishers of a local directory. The population of the city proper is placed at 797,888.

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when she would have the pains in school she would have to be carried home. Besides the pains and the irregularity she also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy-shop now and seems well and strong. I give you permission to publish this letter as a testimonial."—Mrs. I. P. Clarke, 76 Walnut St., South, Hamilton, Ontario.

Over 300 Are Drowned

Great Loss of Life When Vessel Sinks Off Chilean Coast

Santiago, Chile.—Only six persons, including two passengers, out of a total of 322 on board the Chilean steamship Itata were saved when the vessel sank off the Chilean coast near Coquimbo.

The steamer sailed from Coquimbo with 250 passengers aboard. Of these 90 were laborers proceeding to Antofagasta.

Heavy cross seas damaged the rudder of the vessel, which was overloaded. In this helpless condition and caught in a strong southwest gale, the steamer was swept time and time again by the enormous waves. She listed badly and in a short time sank by the bow.

The Chilean warship Chacabuco, which sped to the rescue, found only scores of drowned floating on the ocean and remnants of wreckage. One boat carrying 20 persons capsized and 17 perished.

Another boat with many passengers and sailors aboard, and in which Captain Caldera, who had been grievously injured, was placed, also capsized near the beach. Only two passengers and one sailor of this group escaped.

The Way They Have In Ireland

Man Charged With Betraying Collins Is Shot By Armed Band

Cork.—Charged with having driven the automobile in which Michael Collins rode to his death, Edward Isherwood, an Englishman, was taken from his residence by an armed band and shot. His wounds were not mortal, however, and after feigning death for several hours Isherwood escaped and made his way to a hospital. Pinned to his breast was a tag inscribed: "Convicted spy, I.R.A., beware."

What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unsolicited testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs and, of course, like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: "I will rub them with some liniment I have." "Go ahead," I said, just to humor her. "Well, in she comes with a bottle of Minard's Liniment and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so."

(Signed) FRANK E. JOHNS, Montreal.

Britain Will Pay Debts

Wants Moral Support of U.S. But Not Financial Help

London.—Prime Minister Lloyd George in conversation with Col. E. M. House, reiterated Great Britain's intention to discharge her present debt to the United States to the last farthing, Col. House told the Associated Press. Col. House said the Premier begged him to tell those at home that Great Britain was not seeking financial assistance from the United States, but desired very earnestly her continued moral support.

Red Troops Occupy Jap Mines

Tokio.—The Japanese have evacuated the Suchang Mines which the Red troops immediately occupied, thus menacing Vladivostok economically and financially, according to a despatch published by the Jiji Shimpo.

Prohibition Defeated in Sweden

Stockholm.—A majority of 44,545 against prohibition is shown by the unofficial tabulation of the vote cast in Sunday's referendum throughout Sweden. These figures show: Against, 942,129; for 897,594.

Cotton Shed Burns

Winnipeg.—The cotton shed of the Alaska Bedding Co. (Simmons, Limited) was gutted by fire Aug. 28, the damage amounting to between $15,000 and $50,000. The shed contained twenty carloads of cotton.

WESTERN EDITORS

David Bradley, Editor and Proprietor of The News, Radville, Sask.

When Overtaken by Nausea Try This Simple Remedy

When you don't know whether it's going to stay down or come up, when you look like thirty cents, and feel even worse, what you need is twenty drops of Nerviline, in sweetened water. Almost like magic is the change you experience. Those feelings of vomiting disappear. Thousands of homes rely on Nerviline in case of sour stomach, gas bloating, nausea and upset stomach conditions. Get it to-day, large 35c bottles sold by all Dealers.

British Preparing For Unemployment

Industry Reviving But Many Will Be Out of Work

London.—Heretofore the Government Committee which is dealing with the unemployment problem has only succeeded in laying down broad lines of policy. The official advisors of the Government report slow but steady improvement in trade and express the belief there would be a marked revival of industry this fall.

Nevertheless the committee anticipates that the total number of unemployed persons during the coming winter will not be less than 1,000,000, and plans are being considered for dealing with the evil directly by providing relief work and indirectly by promoting trade.

May Scrap Old Warships

London.—The Times understands that arrangements have been made for sending a number of old British warships to Germany to be broken up. As the admiralty's policy of late has been to refuse Germany offers for old vessels as scrap, it is assumed those to be sent are among a group sold several months ago.

Wainwright Buffalo for London Zoo

Ottawa.—A pair of buffalo from the great Canadian herd at Wainwright, Alta., will be shipped to England this fall, it is announced by the Dominion Parks Branch, for the purpose of introducing new blood into the Zoological Gardens, London.

Difficult Days Are Still Ahead In Ireland Before Coming Of Peace

Dublin.—Political writers forecast that Sean Collins may consent to stand for the seat of his dead brother in Cork County, and say that he is certain to receive practically unanimous support from the southern admirers of the late leader.

General Richard Mulcahy now holds the combined posts of Minister of Defense, Chief of the General Staff and Commander-in-Chief of the National Army. Should he relinquish the office of Chief of Staff, it is expected that General O'Connell, Assistant Chief, will be promoted.

The Evening Press largely devotes itself to details of the guerilla warfare which has been resumed in Cork County. At Blarney several engagements have occurred and many irregulars are reported killed or wounded. In Mayo successful operations have been carried out by the National forces, which have taken prisoners with arms and ammunition.

Discussing the general situation, the Evening Mail declares that it was never an easy task to predict the future in Ireland and at the present hour it is an impossibility.

"Dark and difficult days lie ahead," says the paper, "and no man can say what the next hour may bring forth. In its endeavor to fulfill the work begun by Arthur Griffith and Michael Collins, the Government will require all the sympathy and support the public can give."

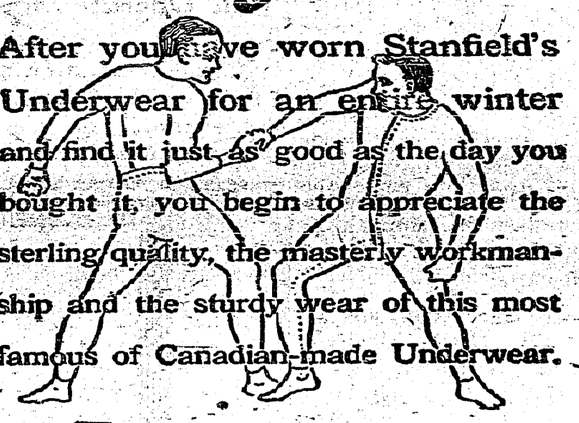
Daring Bank Robbery

Bandits Make Big Haul From Union Bank at Foremost

Lethbridge.—Six masked motor bandits held up the Union Bank of Foremost, about 80 miles southeast of Lethbridge on the Canadian Pacific Railway, Lethbridge-Weyburn line, bound and gagged two clerks sleeping in quarters over the bank and forced the junior clerk to open the outer door of the vault, and completely ransacked the vault and safety deposit boxes, getting $12,000 in cash and $70,000 in securities, mostly registered. They made their getaway by automobile. The yeggs blew the inner door of the safe.

Police here believe the job was done by professionals. They entered the town, cut the telephone cables at the exchange and the C.P.R. telegraph wires at the depot. Then they cut the wires on the ignition system of all the cars standing about on the main street.

Sturdy Wear



After you have worn Stanfield's Underwear for an entire winter and find it just as good as the day you bought it, you begin to appreciate the sterling quality, the masterly workmanship and the sturdy wear of this most famous of Canadian-made Underwear.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, SEPT. 15

Should Have Stipend

The largest fine ever collected in Creston's judicial history was levied at the sitting of the police court on Saturday when the Dominion Export Liquor Company was assessed the total of $1000.00 for contravening some of the sections of the export liquor regulations.

The case lasted two days and one night, and for their part in proceedings we fancy the legal counsel engaged got no less than $100 each and their expenses. For presiding at the court and seeing to it that the scales of justice were always evenly balanced, and finally handing down a decision, Stipendiary Magistrate Mallandaine received the munificent sum of $2.50.

This case, of course, was longer drawn out than the average police court trial, but at that it will be at once realized that in almost any case he has to handle the magistrate to all intents and purposes loses a half day, and for his time in court as well as some study of the law before going on with the different cases the statutory remuneration—like the laws of the Medes and Persians—altereth not from the two and four bits.

With the world getting worse rather than better in the matter of law observance it is time that the authorities at Victoria set about revising upward the scale of police court costs to at least $5 a day, or any part thereof, that a magistrate has to devote to strictly court appearance, and in centres like Creston where this sort of judicial business is on the increase and daily becoming more intricate immediate steps should be taken to provide the magistrate with something more tangibly akin to a stipend than the mere name.

In his quite long connection with magisterial work Major Mallandaine has shown aptness at dispensing justice and at this time it is most desirable that a man of his calibre should be retained for the work, but if this is to be brought about certainly there will have to be a speedy effort made to provide more adequate remuneration for the satisfactory service rendered.

Letters to the Editor

With a somewhat abundant supply of letters to the editor from such verile penmen as "Hopeful" "Champion," "Water Lou, Jr.," et al, comes criticism of the Review policy of giving space to contributors who are averse to revealing their identity or whereabouts by signing their names to their contributions.

With this view we do not entirely disagree. Where newspaper letter writing takes on what may be termed a more or less personal aspect it is only fair that each participant should know who his opponent is, as well as the public generally being aware of the personality of the ink slingers.

But in such matters as the high school situation, or the irrigation problem, we cannot see that it is necessary for those who use newspaper space discussing such issues to do it over their own signatures. After all it is the argument that must be refuted; not the occupation or character of the correspondent. In the annals of British journalism no more effective national work was ever accomplished that that of "Junius," and even until to day his identity has never been definitely revealed.

In connection with letters to the editor it might be well to correct an impression that prevails in some minds that a paper is a community proposition and should open its columns to the discussion of any matter a fancy-free public might wish to discuss.

This notion is entirely erroneous. The Review is the personal property of the writer and while, as yet, we cannot recall ever refusing space to a correspondent on any subject whatsoever, it might be well at this juncture to state that we have no intention of accommodating epistles that we believe are not in the public interest, or which may prejudicially affect our best interests. The community's interest in the Review does not extend to the point where it will make good deficits an open door policy in letter-publishing might produce, to say nothing at all of leseended friendships and general ill will.

Too, coorespondents should know that when the Review columns are placed at their disposal they are accepting a personal courtesy from the editor and this must in good measure be respected. Social hospitality forbids on the-spot criticism or complaint of your host's bed or board or other attention shown; the editor insists on the same consideration insofar that motives shall not be questioned even, nor personalities indulged in.

In newspaperdom the common theory is that the paper that can show the most letters to the editor is the paper that the people are reading and paying some attention to. So far we have had our fair share, and the more the merrier. Come on in; the water's fine.

Will Operate Independently

No more of government control for the women's Institutes within the confines of the Kootenay-Boundary area. This was the decision arrived at the annual conference at Nelson last month when, by a unanimous vote, the accredited delegates decided that the organizations they represented would severally and jointly operate independently of supervision from Victoria.

The change will not come as a a surprise. In fact the wonder is that it did not come long ago. Now that the women have the franchise and are taking quite a prominent part in public affairs it was inevitable that being tied to the apron strings to some extent of the powers that be at the provincial capital would prove inconvenient and in due course be severed.

But while the ladies are to be congratulated on the move they made we trust they will not too earnestly expect the new order of things in institute circles to work out as satisfactorily as some of its advocates predict.

From reading the reports of the discussion on this matter it would appear that great things are expected of the quarterly, or less often, meetings of the small groups of institutes into which the Kootenay-Boundary district will be divided.

This same idea permeated United Farmer circles when five locals of that organization in Creston Valley decided to have monthly central meetings, but after holding about three of them they were abandoned altogether.

In G.W.V.A. history the same thing was tried over the East Kootenay area where some nine locals of the soldiers organization expected to accomplish much by quarterly get-togethers at different centres, and after about the fourth attempt they also let the thing go by the board.

Far be it from the Review, however, to predict that the women will do no better, but no harm can come of holding up the unfortunate example of the cases just cited. After all there is just so much work for any organization to accomplish, and one is not so liable to weary of well doing when operations are conducted along the line of the maximum of accomplishment for the minimum of effort—and travelling expense. Too much of a good thing may well be more disastrous than too little.

Liqaor Company Fine $1000

After a Friday afternoon and evening as well as Saturday morning sessions of the police court, decision was handed out Saturday afternoon in the cases against the Dominion Export Liquor Company. On the charge of selling contrary to the export trade regulations Magistrate Mallandaine imposed a fine of $1000.00 and costs, but dismissed the second charge of having liquor unlawfully in the company's possession. The prosecution was in the hands of A. I. Fisher, K.C., of Fernie, whilst ex-attorney general Farris of Vancouver appeared for the defense, and court stenographer Perry of Fernie took down the full evidence, as there is probability of the case being appealed. In handing down judgment Magistrate Mallandaine did not hesitate to express his disapproval of the action of the Liquor Board in employing "spotters" from across the line to secure evidence, particularly when it was policed most efficiently by the local provincial officer. The case attracted a large number of spectators the courtroom being filled to overflowing at each sitting.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Canyon City

John and Otto Johnson left at the first of the week for Kitchener, where they have taken a pole skidding contract with the Kitchener Timber Company, and will probably be away all winter.

Geo. Leach, who is still taking treatment for his eyes at Spokane, was a week-end visitor at Canyon, motoring up with the Crabbe brothers, who formerly worked at the mill.

Guy Browell is now in charge of the Federal truck on the goods roads operations at Erickson, replacing his brother, Roy, who has returned to Watrous, Sask., taking a car of Valley apples which he will dispose of at that point.

Although some of the pupils are still absent the school attendance is already near the 60 mark, Principal Kolthammer having 28 and Miss Wood 26.

The whist and concert at the schoolhouse on Saturday night, Sept. 2nd, netted $16 for the U.F. piano fund. The affair was a splendid success socially, the prizewinners at cards being Miss Nissie McRobb and Jock McKay of Lister.

Canyon district is now Pat Burnsless, Alf. Nelson and family having moved to Creston the first of the month where for the present they will make their home in a residence they have leased on Shaugnessy Heights. C. Burgess of Lister, who recently purchased the Nelson place, will move into the house at once.

Canyon has one representative at the high school at Creston this term in Miss Annie McRobb, who makes the round trip by horse and rig every day.

The ladies' aid of the Methodist Church are arranging to serve a chicken supper at the church the latter part of October.

Mr. and Mrs. F. Knott and family were motor visitors to the fair at Spokane last week, leaving on Tuesday and getting back on Thursday, and had a splendid trip and visit. Whilst in that city they ran across A. Speaker, who is now living there.

Seven Swedish citizens of Yahk were business visitors here over the week-end in quest of land. Four of them were the Bergenstrom brothers who are anxious to acquire the 40-acre property known as the Quail and Gowans place in the New Sweden area. The party will be back again in two weeks, by which time they will know whether the land they are after is availale, and if not they will pick other locations.

Harry White, who has been in charge of the Company portable mill at Camp 3, has resigned that position, and this week, with Mrs. White starts on a motor trip to the coast, where he will probably remain.

Since the Winlaw mill closed at Wynndel, Leslie McInnes has been in charge of the edger at the portable mill.

The Wealthy apples are moving out this week, practically all of them going domestic pack, and the Union handling the bulk of the crop.

Foreman Harris and Dad Browell have done some useful road repair work in this section since the recent rains, and it is hoped the good work will be extended to the siding as the roads there are very poor and with the apple crop moving better travelling would be appreciated.

LOST—Between Lister and Creston on August 26th, black astrachan neckpiece. Reward to finder on leaving same at Review Office.

The Old Swimmin' Hole

"How pleasant was the journey down the old dusty lane, where the tracks of our bare feet were all printed so plain. You could tell by the dent of the heel and the sole, there was lots of fun on hand at the old swimmin' hole." So sang the poet James Whitcomb Riley and now Charles Ray has caught the haunting lilt and transferred it to the screen, and will be shown at the Grand, Saturday night, Sept. 16.

In "The Old Swimmin' Hole,"—showing at the Grand Theatre, Saturday Sept. 16, Charles Ray, that master of rustic roles, imparts a naturalness to that of Ezra, the mischievous boy, which makes you forget that you are a spectator. It lifts you out of yourself so completely that once again you are reenacting the scenes of your own childhood and are wending your way through the meadows of memory. Seldom does a picture so delight one as does this. There are laughs aplenty and an occasional tear and that choky feeling that only the art of the true artist can create. You watch with ever increasing interest how Ezra falls in love with the heartless little girl who loves to break boys' hearts; how the sincere and devoted Esther finally wins him away; how his friend "Skinny" plays him false; how he is caught robbing the apple orchard; how "Whiskers", his dog, follows him to school and breaks up the class; how—well, why relate in detail the many delightful whimsicalities of this masterpiece? It is safe to predict that Ray has found an ideal vehicle in the "Old Swimmin' Hole."

Maple Nut Cake and Chocolate Layer

THIS unusual, economical Maple Nut Cake will keep fresh for several days, and the Chocolate Layer Cake, made in a little different way with Dr. Price's Cream Baking Powder, is a family favorite too. Try one or both of them today!

(*All measurements for all materials are level.*)

MAPLE NUT CAKE

½ cup shortening
1 cup light brown sugar
2 eggs
½ cup milk
1½ cups flour
¾ teaspoon salt
2 teaspoons Dr. Price's Baking Powder
1 cup chopped nuts—preferably pecans
1 teaspoon vanilla extract

Cream shortening, add sugar slowly and yolks of eggs and milk and beat well; sift flour, salt and baking powder together and add chopped nuts; fold in beaten whites of eggs; add flavoring. Bake in well greased loaf pan in moderate oven 35 to 45 minutes. Cover top with maple icing and sprinkle with chopped nuts while still soft.

MAPLE ICING

½ teaspoon butter
2 tablespoons hot milk
1½ cups confectioner's sugar
½ teaspoon Dr. Price's Baking Powder.
½ teaspoon maple flavoring

Add butter to hot milk; add sugar slowly to make paste of the right consistency to spread; add flavoring, and baking powder and spread on top and sides of cake.

DR. PRICE'S CREAM Baking Powder

Made from Cream of Tartar, derived from grapes. Raises the dough perfectly, giving the food fine texture and rich flavor.

MADE IN CANADA

CHOCOLATE LAYER CAKE

½ cup shortening
1 cup sugar
1 egg
1 cup milk
1½ cups flour
4 teaspoons Dr. Price's Baking Powder
¾ teaspoon salt
1 teaspoon vanilla extract

Cream shortening; add sugar gradually, beating well; add beaten egg, one-half the milk and mix well; add one-half the flour which has been sifted with salt and baking powder; add remainder of milk, then remainder of flour and flavoring beat after each addition. Bake in greased layer cake tins in moderate oven 15 to 20 minutes. Put together with

CHOCOLATE FILLING AND ICING

3 cups confectioner's sugar
boiling water
1 teaspoon vanilla extract
2 ounces unsweetened chocolate (2 squares)
½ teaspoon grated orange peel

To sugar add boiling water very slowly to make a smooth paste; add vanilla, melted chocolate and orange peel. Spread between layers and on top of cake.

Entirely New Treatment For Bronchitis, Catarrh

No Internal Medicine to Take

Years ago the profession fought Catarrh by internal dosing. This upset the stomach and didn't remove the trouble. The modern treatment consists of breathing the healing, soothing essence of Catarrhozone, which goes instantly to the source and the trouble. Catarrhozone is successful, because it penetrates where liquid medicines can't go. The balsamic vapor of Catarrhozone drives out the germs, soothes the irritation, relieves the cough, makes Catarrhal troubles disappear quickly. For bad throat, coughs, bronchitis, Catarrhozone is a wonder. Two months treatment one dollar. Small size 50c. Sold everywhere or The Catarrhozone Co., Montreal.

MY CANADA

— BY —

ELINOR MARSDEN ELIOT

Published by Special Arrangement with the Author

(Continued)

Bar B Ranch,
August 3rd, 19—.

The Bar B Ranch is bounded on the north by Lawrence Paget, on the south by the United States of America, on the east by a barbed-wired fence five strands high, and on the west by the Banshee River. Across the river is the Indian Reserve on which Mr. Bingham "runs" his cattle.

The house is built quite close to the river, and at night I can hear the Banshee whispering over the submerged island which serves as a ford. I am not at all sure that I like the Banshee; it is too swift and too deep and too cold. Each person I have asked tells a different story to account for the river's name. The most probable one is that it is a corruption of the Indian name; but the most romantic one, and therefore the one that I prefer, is as follows.

Years and years and years ago a young Irish prospector camped here one night in the early spring. Just at the witching hour he wakened his companion with the blood-curdling declaration that he had heard the Banshee. The companion, a hard-headed Scot, laughed at his friend's earnestness and traced the sound, to his own satisfaction, to an uneasy pack-mule or a suddenly awakened eagle. But the Irishman, true to his blood, was not to be convinced. And now comes the point of the story. When the two young men reached civilization again all doubts vanished for a letter awaited them announcing the death of the Irishman's eldest brother on the very day on which the Banshee had been heard! Of course our friend succeeded to the title, married one of the girls whose photograph he carried under his cartridge belt, and lived happily ever after.

The Bingham house is absolutely perfect for its purpose. It is a big square place, painted white with green trimmings, and has a ten-foot veranda almost all the way around it. On the south side there is a balcony which can be closed in by windows—greenhouse fashion—during cold weather, and it is here that Mrs. Bingham intends to sleep all the winter through.

Entering the house by the front door, one comes directly into a large room which is hall and living-room combined. An immense open fireplace, built of water-worn stones from the Banshee, and an open staircase go a long way towards furnishing the room. One would expect the piano and the other impedimenta of civilization to look out of place in such unconventional surroundings, but they do not, so skilfully have they been chosen. There is not an inch of plaster in the whole house; every room is panelled from floor to ceiling with British Columbia fir. Can you not imagine how suitable a background this is for mounted heads and antlers, Indian bead-work, and the right sort of pictures? In the hall and in the bedrooms there are "skins of bear and wolf and bison" instead of carpets; the other rooms have bare floors.

We are twenty miles from a town, but we have a real bathroom, thanks to a very ugly modern windmill—I shall have a wide-winged Dutch one on my farm. And the house is lighted throughout with gas generated by an evil-smelling plant in the basement.

My bedroom is in the west side of the house, and from my windows I have a glimpse of the mountains. It is perfectly lovely to be able to drive a nail whenever and wherever the spirit moves one, and when I had hung my pictures and scattered my various belongings around the room in what the novelists call "studied disorder," I began to feel very much at home.

The animals inhabiting the region of the Bar B are more numerous than might be imagined.

I shall name, classify and otherwise dispose of, the quadrupeds first, because I can wait no longer to describe . . .

Cupid, the horse of my dreams, who is to be mine to have and to hold so long as I am on the Bingham ranch. He is a beautiful little sorrel, with a cream mane and tail, a cream star on his forehead, and a truly angelic disposition. I very nearly hugged the dignified Mr. Bingham when he told me that he had given the foreman orders to the effect that Cupid was to be considered my special property! Of course I cannot ride very well as yet, but Mr. Livingstone says that I am "doing as well as could be expected"—one would think that I was recovering from a severe illness. He looks with unconcealed scorn upon my riding-habit, and advises me at regular intervals and in a grandfatherly manned to have it changed for a divided skirt. I shall not have it changed, and I will not be advised in a grandfatherly manner by the handsomest Canadian living! This is not to say that Mr. Livingstone is the handsomest Canadian living—but I must admit that he is the handsomest one I have seen.

To return to the quadrupeds. There are, on the Bar B Ranch, several thousand cattle and one cow. For obvious reasons the cattle are not named, but the one cow, a thoroughbred Jersey, is called Kathleen, reason unknown. Kathleen is kept "picketed" on this side of the river and is milked night and morning by the devoted Lee. Mr. Livingstone says that the first summer she was here the cattle used to line up across the river and watch the milking process with breathless interest, the younger ones saying in effect that they'd like to see themselves treated in such a way! This seems to be the place to explain that "cattle" are beef-cattle, and that "cows" are a grade lower in the bovine social scale—merely the producing end of a dairy business.

"We" have about a hundred horses. These are mostly "cow-ponies," tough, wiry, half-broken creatures, not to be compared with Cupid.

David has already mentioned, but I almost forgot Thomas a Becket. If ever a cat was a born hermit, Thomas is that cat. He shuns human habitation, unless he wishes to steal something—that is not meant as an insinuation against hermits in general—and he is notoriously careless of his appearance. His tail has been broken and in consequence has a most melancholy droop, his ears are ragged from frost-bites, and he bears the scars of many wounds gained in honourable conflict with David and David's predecessors. I feel sorry for Thomas, but I am afraid to confess my partiality—may it not be the spinster's instinctive fondness for cats?

Last, but not by any means least in importance, comes William. William is a sanctimonious-looking billy-goat who was given to Sunny a year ago by her well-meaning but badly informed godmother. Fancy a goat in the cattle country! Early this spring Sunny promoted herself from William and the governess-cart to a real, if somewhat undersized, horse. William shows no resentment at being so summarily superannuated, and he takes quite kindly to his present free and easy existence. If there is one thing that I dislike more than a parrot it is a goat, and when William fixes me with his glittering eye I quake inwardly. He is very popular among the cowboys, who have taught him to chew tobacco! Needless to say, the juice dribbles down his beard and detracts considerably from his otherwise venerable appearance.

The bipeds, while not so numerous as the quadrupeds, are equally interesting.

Just now there are only six cowboys, a cook, and a foreman, but in the busy season this number is doubled. The men live in the "bunk house," a few hundred yards from the "ranch house," and are soldom seen by anyone who rises as late as I do. They have a gramophone—just like the cowboys in Rex Beach's "Going Some"—and their favourite selection seems to be a cheerful ballad which announces to the world, all through the calm summer evenings, that

"Since I first met you-oo-oo,
Since I first met you,
Each flower has a new perfume
Since I met you."

The tone of the gramophone is more to be commended for quantity than for quality. But it is never played when I play the piano—on the principle of honour among thieves, I presume.

I was greatly shocked when I rose Sunday morning to see that the men had a good-sized washing hung out on the fence. It appears that Sunday is their regular wash-day!

I fear that I shall find Sunday very strange here; it is not at all like our home Sundays. Mr. Bingham and Mr. Livingstone are around the house the greater part of the time, and in the evening we have sacred instead of secular music, but this is all that distinguishes it from other days. Of course it would be unreasonable to expect people to drive twenty miles to church, but I feel that Mr. Bingham might at least read Morning Prayers. I have not told Father about this; I am sure "t'parson" would be scandalized. There, I set out to describe the ranch and its inhabitants, not to criticize my hosts!

Lee, our cook, is not beautiful either to look upon or to listen to; but he is a marvellous cook, a fairly competent seamstress, and if he cannot make bricks without straw he can raise vegetables without rain—and that is next thing to a miracle in this dry climate. I used to think that I should not like to have Chinese servants, but I have changed my mind. Lee does as much work as three women, and does it with a third of the fuss of one. He wears a pyjama suit, blue denim in the morning and white duck in the afternoon, and when he brings us afternoon tea I feel so luxurious and oriental!

There are twelve more bipeds who must be mentioned, one cock—"rooster" as the Canadians call them—and eleven hens. There were twelve hens, but one died of acute nostalgia and gopher poison. The Binghams have a harmless and amusing mania which takes the form of giving names to all their belongings. The cock is Brigham Young—the original Brigham Young was, I learn, a prominent Mormon—and the hens' names range from Elaine to Emmeline and Christabel. The last two, formerly Jemima and Mary Ann, were re-christened quite recently. I am to have the privilege of looking after the poultry, "just to keep my hand in," and that reminds me that Christabel gave me a nasty peck to-day. Mr. Livingstone says——; but I must not form the habit of quoting him—he is worse than Mary.

(To be continued)

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta., writes:—

"I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. After I had taken one box I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

E.W.GILLETT COMPANY LIMITED
WINNIPEG TORONTO, CANADA. MONTREAL

Niagara Grapes

Fifteen hundred cars of grapes will be handled by the Niagara Grape Growers' Association this year, almost double that of last year. The season has been one of the most successful for many years, with weather conditions ideal throughout. The 1,500 cars the company will handle represent about 94 per cent. of the production of all the peninsula vineyards.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Expect Good Whaling Season

The Consolidated Whaling Corporation of Vancouver is again operating this year. It is stated that the mammals appear to be plentiful this season, and it is expected that an average catch will be made, probably about 1,000 whales.

Girls Forgotten in China

Of so little account are women considered in many parts of China that a father, if asked the number of his children, will probably leave out the girls in his reckoning.

YOU CAN BE WELL

You can be free of coughs and colds—free of stomach trouble, indigestion and constipation—free of pimples and boils—free of headaches and nervous spells—*only* if your whole system is free of catarrh.

PE-RU-NA

Practically every ordinary ill comes from a catarrhal condition of the membranes—and PE-RU-NA will always restore the membranes to a healthy, vigorous condition. PE-RU-NA has been making people well and keeping them well, for lo! these fifty years and more. Thousands and thousands owe their continued good health to this wonderful home remedy.

Try it yourself. Sold everywhere. Get a bottle today. 5

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

WORLD HAPPENINGS BRIEFLY TOLD

The Commonwealth battleship Australia will immediately be dismantled and scrapped.

Alderman Joseph Hoskin died at Vancouver recently. He took an active part in the first Klondike gold rush.

About 250 "Friends of Soviet Russia" recently took part in a demonstration in Winnipeg, which terminated in a street parade.

To teach the food value of milk, a World's Dairy Congress will be held at Philadelphia in October of next year.

Mrs. Harry Payne Whitney, New York society woman, has been commissioned to design a heroic equestrian figure of the late W. F. (Buffalo Bill) Cody.

The Department of Marine and Fisheries announces the distribution of 1,000,000 Kamloops trout eggs and fry in British Columbia waters during the current season.

The collection of war trophies owned by the late Major-Gen. Sir David Watson has been presented to the Royal Rifles of Canada by Lady Watson, and has been installed in the Garrison Club, Quebec.

Escorted by the British light cruiser Vindictive, the British submarine H 24, damaged in a collision in the Mediterranean last February, left Gibraltar for England after extensive repairs there.

Until medical or asylum authorities reverse the jury's verdict that Father Adelard Delorme, alleged slayer of his brother Raoul, is insane, the Provincial Government will not interfere in the case, Premier Taschereau declares.

British Columbia House in London was the scene of a daylight robbery August 14, when a burglar succeeded in getting away with a quantity of jewels belonging to Mrs. H. Chrimes, daughter of F. C. Wade, Agent-General for this province in England.

Mail Was Important

Liner Stopped in Mid-Ocean to Take Love Letter

The look-out on the United States liner President Taft, in mid-ocean on the way to New York with mails and passengers, sighted a Portuguese bargue flying distress signals. The liner's course was immediately altered and amid tremendous excitement among the passengers the ship lowered a boat with a doctor, a supply of food and everything requisite for immediate relief. The boat's crew pulled mightily, and finally came alongside the Portuguese vessel to be greeted at the side by a smiling polite Portuguese captain, who said he felt sure the Americans would not mind taking two letters, one to his cousin in New York, and one to the mate's American fiancee.

WORRIED WOMEN NEED RICH BLOOD

If the Blood is Not Kept Pure, Health Will Break Down

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But, at the same time, it is the duty of every woman to save her strength to meet any unusual demands. It is a duty she owes herself and family, for her future health may depend upon it.

To guard against a complete breakdown in health the blood must be kept rich, red and pure. No other medicine does this so well as Dr. Williams' Pink Pills. This medicine strengthens the nerves, restores the appetite and keeps every organ healthily toned up. Women cannot always rest when they should, but they can keep their strength by the occasional use of Dr. Williams' Pink Pills. Among those who have found benefit from this medicine is Mrs. Cora Conrad, Broad Cove, N.S., who says: "My system was very much run down, and my blood poor and watery. I suffered a great deal from headaches and dizziness; my appetite was poor, and I tired easily. I decided to try Dr. Williams' Pink Pills and have every reason to be glad that I did so. Soon I felt better, and under the continued use of the pills the headaches and dizziness were gone, and my blood seemed in a better condition than before. For this reason I recommend Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

False Dostrine

School Examiner.—"What is the meaning of false doctrine?"

School Boy.—"Please, sir, it's when the doctor gives the wrong stuff to the people who are sick."

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Compactness and quick steaming are claimed by the English inventor for an oil fuel burner in which hollow concentric cones for the water are set over a huge burner.

Ex-Sergeant's Hard Luck

Escaped Injury During War, Now Paralyzed From Exposure

Queen Mary's sympathy for those broken in the war was again shown by her purchase of a beautiful four-panel screen from ex-Sergeant Ellis, of Fulham. The screen, which measured 6 ft. by 2 1-2 ft., and is the result of really good taste and artistic devotion, was delivered at Buckingham Palace recently.

Mr. Ellis is a native of Kilmarnock, and was, in brighter days, an accountant. He was a good footballer and played centre (rugby code) for Cardiff Corinthians.

Ellis' fate has been strangely ironical as well as hard. Enlisting in the Gordon Highlanders in August, 1914, he fought at the Marne, Loos, Neuve Chapelle, Hill 60, Verdun, Cambrai, St. Quentin and Ypres. It was his strange luck to come through all these titanic struggles without a scratch, and only a few days before the armistice to fall ill from exposure. He is now paralyzed from the waist downwards and only the ruin of a once fine man.

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Ten Cars of Nickel

During the week ending August 6th, no less than ten cars of nickel matte were shipped from the plant of the International Nickel Company, at Copper Cliff, near Sudbury, and it is expected that the renewed demand will result in the blowing in of at least two furnaces within the next few weeks.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Attends to Business

Ethel.—Does he always drive with one hand?

Clara.—Oh, no; sometimes we have a quarrel!

Keep Minard's Liniment in the house

Livestock From North Country

A trainload of 36 cars of livestock was handled from the Peace River to Edmonton over the Edmonton, Dunvegan and British Columbia Railway in 30 hours, establishing a record for the run. Incidentally this was the heaviest shipment of cattle yet made from the north country.

A Rare Combination in Color and Style.

Distinction and grace are combined in this lovely gown of canton crepe in black with an all-over Japanese design.

If Tormented With Corns Use Good Old "Putnams"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

Mining in Kenora District

The Kenora district of Ontario is being actively prospected for gold and silver, 76 prospector's licenses being issued. Several claims are being stripped, trenched and sampled by engineers, retained by financiers in Toronto and Montreal.

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Circulars free. All Druggists.
F. J. Cheney & Co., Toledo, Ohio.

Threshermen Must Display Card

Comply With Requirements in Reference to Noxious Weed Act in Saskatchewan

Threshermen should take notice, states Mr. M. P. Tullis, Field Crops Commissioner in the Saskatchewan Department of Agriculture, that they are still required to display a card containing the provisions of Section 23 The Noxious Weeds Act, in a prominent place upon the threshing machine all the time that it is in operation.

Some confusion appears to have arisen over the fact that The Threshers' Lien Act was amended at the recent session striking out of Section 2 the words "who has complied with the provisions of The Noxious Weed Act." This section of the Threshers' Lien Act covers those who have a lien upon grain threshed for the purpose of securing payment for threshing. This amendment has no bearing upon the application of Section 23 of The Noxious Weeds Act, which is still in full force and effect. Threshermen therefore are advised to procure without delay the necessary card from the Field Crops Branch, Department of Agriculture, Regina, and affix it to their machines.

Under the name of chaturanga, chess was played in Hindustan nearly 500 years ago.

Minard's Liniment Lumberman's Friend

Relief Is Found From Stomach Trouble

Hope for the millions of unfortunate men and women who are victims of stomach trouble is sounded by Lawrence Grant, 501 Bannatyne Ave., Winnipeg, Man. Mr. Grant was a victim of stomach trouble in its worst form but was completely restored to health by taking Tanlac. He says:

"I began suffering from a stubborn case of stomach trouble two years ago and got into bad shape. The first bottle of Tanlac helped me and soon the stomach trouble disappeared. I gained eight pounds and am now in fine health."

Undigested food ferments in the stomach and soon the entire system is filled with poisons. Tanlac was designed to restore the stomach to a healthy condition and build up the whole body. Millions everywhere have acclaimed its wonderful power. Get a bottle today.

For sale at all good druggists.

Women Losing Little Toes

In support of his assertion that women are losing their little toes, a scientist points out that in the days of ancient Greece women had three joints to her little toe, while it is known that Egyptian women had four. Nowadays normal women have only two joints, while there are many cases in which only one joint is found.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Eclectric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Ontario Gold Mines

During the month of July gold mines of Ontario produced approximately $1,775,000, according to preliminary estimates. This is a new high record so far in the history of gold mining in Ontario, and is an increase of $10,000 over the June production. With the exception of the Kirkland Lake Proprietary all mills were operated at full capacity, and handled an aggregate of approximately 175,000 tons of ore.
