# THE CRESTON REVIEW

Vol. XIV. CRESTON, B. C., FRIDAY, OCTOBER 6, 1922 No. 35

## Kitchener

Geo. Beggs has returned to Kitchener and resumed his position as bush foreman for Paulson-Mason, Ltd.

Mrs. Spring of Nelson is visiting her husband here for a few days. He is employed here with Paulson-Mason, Ltd.

Kitchener people were greatly shocked to hear of the death of Mrs. John McLeod (nee Alice Lythgoe), which took place at Cranbrook hospital the latter part of the month. Mrs. McLeod. before her marriage, was sales lady in the G. A. Hunt store for a number of years, and had a great many friends in Kitchener.

Mr. and Mrs. E. Driffil have returned from Creston and will be resident here for the winter.

H. Spence of the Sash & Door Company, was a business visitor in Cranbrook this week.

Mr. and Mrs. G. A. Hunt were at Cranbrook the fore part of the week attending the funeral of the late Mrs. McLeod. Quite a number of our citizens sent flowers, the coffin being heavily covered with these floral tributes from friends in Cranbrook. Yahk and Kitchener.

## Erickson

Mr. and Mrs. J. S. Peck and children of Edmonton, Alta., are here this week on a visit with Mrs. Peck's parents, Mr. and Mrs. G. Cartwright.

Mr. and Mrs. W. Percival of Yahk were week-end visitors with the latter's parents, Mr. and Mrs. R. Dodds.

Frank Staples was home from Grand Forks for the week-end, returning on Monday. He will probably be away until the first of November.

Mr. and Mrs. H. McKinnon of Silverton are visitors here at present, guests of Mr. and Mrs. G. P. Smith.

Due to the absence of frost ripe tomatoes are still on the shipping list, this being about the latest date in any year that a freeze has not put in an appearance.

It is expected that the regular monthly sessions of the United Farmers local will be resumed next month. During October Church of England services at the schoolhouse are also cancelled.

Now that the Wagners are reaching the packing houses apple shipments are heavier than ever. According to the horticultural census this variety of of apple constitutes at least two fifths of the entire Valley orchard plantings.

As yet no effort is in sight to make the necessary fill to take the hard surface road clear through to the depot, and is likely the good roads will terminate at the Co Operative store for this year.

Heartiest congratulations are extended Postmaster R. M. Telford on the occassion of his marriage to Miss Edith Sandford, the happy event taking place at Medicine Hat, Alta., the latter part of the month. Mr. and Mrs Telford returning here on Wednesday of last week.

Hendren & Watson have just completed the erection of a new packing shed on the R. J. Long ranch, which for size and general accommodation is hardly equalled in the Valley. The structure is 60 x 32 feet—two stories and basement. The top flat gives ample accommodation for taking care of boxes, crates, etc., while the basement has a frostproof storage capacity for at least 5000 boxes of apples.

## Lister

Harold and Lena Frampton are making headquarters at the R. J. Long ranch at Erickson, where they are assisting with the apple harvest.

C. Williams who has been working all season out of Crawford Bay as Forest patrol, was here for a few days last week, doing some fall work on his ranch here.

Peter McKay and Fred Weston are on the apple picking staff at the W V. Jackson ranch at Creston.

Mr. and Mrs. Tom Bundy of Erickson were motor visitors here on Sunday, guests of Mr. and Mrs. Jory.

A subscription list is about to be circulated to secure funds to purchase a joint recreation and picnic grounds of about five acres of the Deschamps camp site near the Huscroft school. It is an ideal spot for such a purpose with running water handy, plenty of shade and good baseball grounds.

Jas. Jory, who has had charge of forest fire patrol work in the Valley this year, will make the last of his rounds this week, as the open season for burning commenced on Sunday, and has been going strong on the new clearing since Sunday.

The Lister postoffice is now located in the Trading Company store, the transfer being made on Monday morning. Miss Nellie Chalmers, who has been in charge of the office since its inception almost three years ago, has resigned, and is leaving for Trail at the end of the week.

Mrs. Rowbury was a visitor with Cranbrook friends a few days this week.

Pastor Knox was here for service in the church on Sunday morning, being greeted with quite a large attendance. At the close of the service opportunity was taken to pass a resolution of appreciation of the good work done by Miss Nellie Chalmers as teacher in the Sunday school.

A farewell party was held in the schoolhouse on Saturday evening, the guest of honor being Miss Nellie Chalmers, who leaves shortly to reside in Trail. All the members of the Sunday school were present and during the evening Miss Chalmers was presented with an ivory manicure set with leather case, Miss Bessie Frampton making the presentation.

## C.P.R. Agent Leaves

A. R. Swanson left yesterday by auto via Porthill and Spakane, on the trip to Vancouver, where he will make his home in future, Mrs. Swanson accompanying him. Mr. Swanson has resigned as C.P.R. agent here and for the present will be with the company working out of Vancouver, where the family now resides. He has been C.P.R. agent here for the past 5 years, and both officially as well as personally has filled the position to the satisfaction of all, and his removal will be very generally regretted.

The October meeting of the Women's Institute is announced for Friday afternoon next, the feature of which will be the reports of the delegates to the recent Kootenay-Boundary conference at Nelson at the end of August.

## Rainy Weather Mars Exhibition

Creston Valley's fifth annual fall fair is now a matter of history. Favored with the finest kind of weather for the receiving of exhibits on Tuesday residents from all points of the Valley piled the main building full almost to overflowing—the entry list being fully 25 per cent. larger than any former year, and the increase nicely spread out over all the departments, except fruit.

Although rain fell during Tuesday night, even up till 9.30 a.m., there was promise of the weather clearing, but just before ten the heavens clouded over and from then until at least early afternoon it rained steadily, whilst throughout the remainder of the day it was showery, decidedly cold and no end to the mud and general disagreeableness of the whole day. In consequence the attendance fell off almost half, the outdoor exhibit, with the exception of poultry, was away below standard, and the line of outdoor amusements had to be abandoned, although Jimmy Lockhead, and his Indian riders introduced some of the wild west features, much to the satisfaction of those who witnessed them despite the inclement atmospheric conditions.

The interior of the main building never looked better, special attention having been given to the decorating throughout. Brief opening speeches were made by President W. V. Jackson and Col. Fred Lister, M.P.P., while the formal opening address was by L. W. Humphrey, M.P. for West Kootenay.

In the hall display there was a gratifying increase in the display in every class with the exception of fruit, but this well maintained the high standard set last year. Vegetables were almost double the show of a year ago, while in fancy work, cooking, canned goods, dairy products and plants and flowers the building did not provide ample space to do full justice to the big showing, the flowers being altogether too crowded. Prizes were quite evenly divided amongst all the exhibitors, a particularly gratifying feature being the successes of the Lister farmers in the poultry and vegetable classes.

Due to a shortage of space and the fair coming so close to publication day the Review is compelled to withold till next week a more extended reference to exhibits and exhibitors generally.

## Local and Personal

Miss Dobbin of Invermere is a fair week guest of Mrs. C. G. Bennett.

Auctioneer Frank Rose had a most successful sale of the H. B. Downs household effects on Wednesday last. With the exception of half a dozen pieces of high-class mahogany furniture all the articles brought exceptionally high prices.

For the first time in a number of years Creston is this year supplying a couple of men to serve on the grand and petit juries at the assizes now under way at Nelson with Justice Hunter presiding. H. S. McCreath and S. A. Speers are the local jurymen.

C. E. Robinson, of Nelson, the Kootenay fishery inspector, was here on an official visit the latter part of the week. He states that the bass which became numerous in the Kootenay river last year are now being caught down Kootenay Lake as far as Crawford Bay.

Harold Gobbett is announced the winner of the fishing basket given by Mawson Brothers to the angler catching the biggest char this season with tackle purchased at the Mawson store. The basket was captured with a 12½ lb. specimen taken at Cultus Creek the latter part of July.

Mr. and Mrs. H. B. Downs got away on Monday for England where they will make their home in future, a host of friends being at the train to see them off. Both have been valued residents of the Valley for the past ten years and universal is the regret that they are leaving permanently.

At the annual meeting of the Liberal Association of West Kootenay at Nelson on Friday last, R. B. Staples was the unanimous choice for president, with Nels. Winlaw chosen vice-president and Eric P. Dawson of Nelson secretary. The executive consists of the president of each of the six district associations in West Kootenay.

Norman Moore, of Cranbrook, in charge of forestry work in East Kootenay, was here on an official visit the fore part of the week, accompanied by Mrs. Moore. He states that though the expense of forest fire fighting this year will be almost a record, the loss to standing timber is not nearly so serious as might be supposed from the amount expended in fire prevention.

The Grand Theatre ballroom was taxed almost to capacity for the fall fair night dance on Wednesday, which proved to be the most enjoyable of the year. The excellent hour's first-class music by the Creston orchestra and Caterer Norris' fine supper provided an entertainment combination that could hardly be beat. In the large crowd were many outsiders, Bonners Ferry being quite prominently represented in the gathering.

## Instals Radiophone

With the installation of a complete receiving set at the end of the week in the residence of C. O. Rodgers Creston can justly claim to be about the first East Kootenay town to install the radiophone. The equipment at the Rodgers home is the well-known Colin B. Myer product with a total wave length of 630 metres. Already musical programmes have been listened in on as far south as Oakland, Calif., whilst on Sunday night a speech delivered by Senator Poindexter at Seattle, Wash., was distinctly heard.

## Alice Siding

Owing to the illness of Mrs. J. Johnson, Principal Lallemond is now making his home with Mr. and Mrs. Paul.

Miss Teresa Churchhill left on Monday for a visit with Nelson friends.

John Churchill arrived on Tuesday last from Vancouver, and is spending a few days with his parents, Mr. and Mrs. M. Churchill.

Misses Ethel and Thelma West, Marie Vaness and Elva Kelly are on the packing house staff of Creston Fruit Growers Union at present.

Reed & Mather had the misfortune to lose one of their Hereford cows, which while pasturing on the flats succumbed to bloat or from the effects of eating some poisonous weeds.

Mr. and Mrs. Alderson of Hosmer are here at present taking charge of apple harvesting operations on their ranch.

Reed & Mather are busy on the haul of pipe for quite an extension to their present irrigation system.

The ranchers started in this week on the picking of their Wagner apples, and from all reports the crop will be much heavier than anticipated earlier in the season.

## Wynndel

T. Slingsby, manager of the Co-Operative Trading Company, spent a few days in Fernie last week on business.

Mrs. J. P. Brooke left last week for Grand Forks to join her husband, where they expect to make their home for the present.

Mr. and Mrs. Gillespie of Vancouver are staying here for a few days, at the home of Mrs. J. J. Grady. Mr. Gillespie is connected with the Excelsior Life Assurance Company, and is busy writing up insurance.

The United Farmers dance in the M. Wigen packing house on Saturday night, was a most successfull affair. Andestad brothers orchestra supplied a line of first-class music, and the floor was well filled all evening.

E. F. Post of Cranbrook was a week-end visitor here, returning to the big city on Sunday morning.

Wynndel is certainly becoming a commercial centre. Last week we had calls from the representatives of the Simon Cigar Company, as well as a traveller for Bovril

Several of the farmers here are taking a great interest in the fall fair, and we are expecting to see quite a fine assortment in the many lines open to competition.

E. Butterfield left on Saturday afternoon for Grand Forks to spend a few days holidays with his daughter, Mrs. J. P. Brooke.

Monrad Wigen unloaded a car of lumber on Tuesday, and once more has the box factory running full strength to keep up with his orders for boxes.

A. H. Piggott was home for the week-end, returning to Cranbrook on Monday morning.

Miss Borghill Hagen spent Saturday night at her home here, taking in the dance. She returned to her home at Kitchener on Sunday morning.

## Bank Officials Visit

Manager Allan of the Imperial Bank entertained a galaxy of head office officials the latter part of the week, when he had a call from General Manager Phipps, Assistant General Manager Jaffray, and Industrial Inspector Billings, who were accompanied by Manager Benson of the Nelson branch of the bank, with Mrs. Phipps also a member of the party. This is the first official inspection the general manager and his assistant have made of the Creston branch, and they were greatly impressed with the present and future prospects of the town and district.

A Shampoo that Removes Dandruff

Germicidal Soap not only cleanses the hair and scalp, but removes dandruff and destroys the tiny parasites that cause it.

Merely shampoo with Germicidal Soap. Rub the lather well into the scalp with the ends of the fingers. Continue the massage from two to ten minutes. Then rinse with warm water.

Germicidal Soap is the ideal shampoo. It leaves the hair soft, fluffy, clean and free from excess oil and dandruff. It keeps the scalp healthy. Price 25 cents. Get a cake today!

Bar B Ranch,

August 31st, 19—

On Monday, August 29th, at 6.30 p.m., peace was declared. Even more important is the fact that I won, and that Mr. Livingstone plays the part of the humble vanquished to perfection.

Mr. Bingham had intended to come into town with us on Monday, but at the last minute something occurred to change his plans and Mr. Livingstone came instead. Imagine the joys of a twenty-mile ride with a person whom you do not feel free to talk to!

We made an early start and reached the town just in time for luncheon, spent the whole afternoon shopping, had dinner and a half-hour nap afterwards, then started for home again, reaching the ranch shortly before midnight. What do you think of that for a strenuous day? Sunny slept nearly all the way home, and I wanted to but did not.

Carbon City's largest shop, where we spent the most of our time, is just like the Elba General Store, only bigger. There is the same incongruous variety of goods, the same group of loungers, and the same friendly interest in customers' affairs on the part of the clerks. I needed nothing but glycerine and rose-water, of which I use quarts, so when I had laid in a good supply of this, I wandered to the other end of the store, on picture postcards bent, leaving Mrs. Bingham to continue her search for Sunny-proof gingham and sandals.

A very obliging young "salesman" assisted me to pick out several dozen postcards of the wild-and-woolly variety that I affect for my British correspondence—the people at home expect cowboys and Indians, so why disappoint them?

Just as I was turning away he leaned across the counter and said in a confidential whisper, "Beg your pardon, Madam, but there's something I'll bet you never seen in the Old Country."

I followed his pointing finger until my eyes rested on a tea-table presided over by a smartly dressed woman.

"Are you serving tea in the shop?" I asked.

"No," he explained, also confidentially; "she's what we call a 'demonstrator.' It's really a Yankee advertising dodge. You see, that lady represents a big manufacturer of canned goods and jelly-powder, and she goes around to the different cities and serves samples of the stuff in the principal stores, and takes orders too. Better go over and sample the things; they're a real good brand. Miss Montgomery will be only to glad to let you see the way we run things over here—that's her job. I don't suppose Montgomery is her name; demonstrators are like actresses, they change their names for the good of the trade."

Thanking my instructor, I proceeded to follow his advice. There were several people standing between me and the table, and it was not until I was close beside him that I noticed Don Livingstone sitting opposite the demonstrator and calmly consuming a dish of peaches!

"You here!" I stammered awkwardly.

"Sure," he replied. "Didn't you know that I never could resist a peach?"

The demonstrator giggled appreciatively.

"Them gentlemen are all alike, ain't they?" she sympathized. "But they are different once they've been married a while. I should know, for I've had four."

From the look of her gay and roving eye I imagined that a fifth would not be unwelcome. She was one of those conspicuously blonde blondes, and she looked as if she had been upholstered rather than clothed in the usual way. In fact, she made me think of the girl that Mary told me about who had to put on her dress with a shoehorn.

"Won't you try some jelly?" she asked sweetly. "The peaches are some richer than ladies usually like, but they are always what the gentlemen asks for."

"I'm not keeping house," I began, "so it is not likely that I can give you an order. But I should like to try your jelly."

And once more the lure of the unknown led me into mischief.

"Just boarding, are you?" my hostess asked with interest, as she served me a generous portion of pineapple jelly and passed a plate of wafers. "I always think that's a mistake for young people just starting up. I'm sure Mr. . . . will agree with me—a man always wants a home of his own, don't he, now?"

"Nothing would suit me better," agreed Mr. Livingstone heartily, "than to see my wife opening a can of these peaches in our own kitchen."

The demonstrator turned to me. "I'm old enough to be your mother, even if I don't look it," she said impressively, "so I'm just going to give you a word of advice. If you've got a good man that wants a home of his own, don't make him live in a boarding-house—and they've mostly got Chinese cooks in this town, ain't they? I'll be back here in the spring again, and I hope by that time you'll be able to give me a good big order. Not that I'm so dead set after commissions, you understand, but because I hate to see a likely young couple make a mistake."

Mr. Livingstone choked on his last piece of peach, and I blushed furiously—not because I was embarrassed, but because the woman's blunder had given me an inspiration, and inspirations always affect me in that way.

"There was a house that we passed this morning," I began shyly, "and someone said it was for sale. And it's awfully good of you to take an interest in our affairs, isn't it, Don?"

"Don" gasped a confused assent, and I rejoiced inwardly as inspiration followed inspiration.

"I'll tell you what we might do," I went on. "I have become very much interested in the little hospital here—wouldn't it be just lovely to send over a box of jelly and preserves? Let me see, a dozen tins of peaches and two dozen packages of the jelly-powder will be enough, I think. You pay for them, Don, while I go for my other parcels."

And with this I escaped.

I did not see Mr. Livingstone again until we met for dinner. He was in the dining-room when Mrs. Bingham and Sunny and I went in, and as I entered the door he came towards me with his hand out. "You win, Miss Eliot! The matron wishes me to thank you for your very welcome donation."

Then with a return of the old time twinkle, which is really not so unpleasant when one becomes used to it, he finished, "There's a livery-stable in town—just say the word and I'll order a pair of saddle-horses; I don't feel as if I could wait until to-morrow!"

(To be continued)

Patronize your local Printer. It is poor policy to send your job printing out of town. It does not pay, no matter which way you look at it.

## Appetite Good, Gained 20 lbs.

### Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts, Loverna, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, become very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being restored by Dr. Chase's Medicines and after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

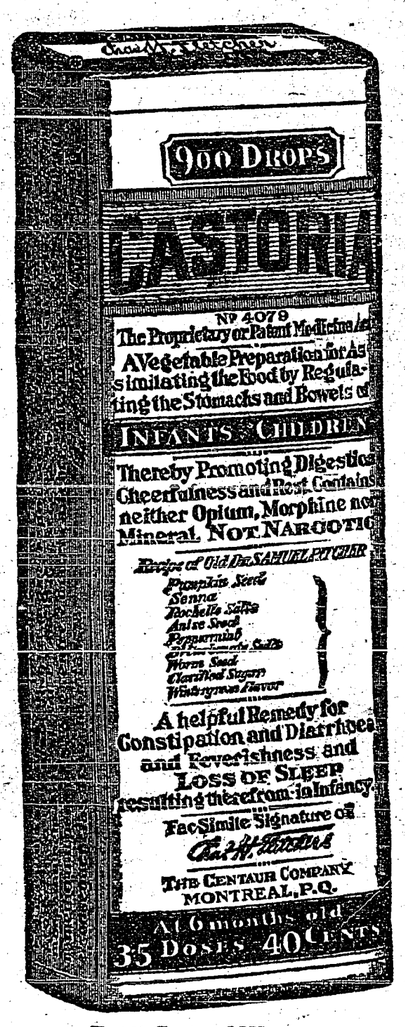
Dr. Chase's Nerve Food, 50c a box; Dr. Chase's Kidney-Liver Pills, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

# Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love well knows, and mother-love can not be deceived.



Exact Copy of Wrapper.

## Children Cry For Fletcher's CASTORIA

### What is the Matter with Baby?

It cries fretfully, is restless and does not sleep well, its bowels do not move or it has diarrhoea, it does not eat or it has flatulence and vomits easily. You know baby is sick. You want to help baby get well safely and quickly.

If you are wise you will use Fletcher's Castoria, the wonderful remedy for babies' ills, that was discovered by a family doctor and that has been used for over thirty years.

When you have learned the value of Fletcher's Castoria you will never be without it, you will tell other mothers what a useful remedy it is. You will be able to keep baby well and happy by using it to keep its stomach sweet and its digestive organs acting naturally. You will call Fletcher's Castoria the Children's Comfort and the Mother's Friend.

Don't say tomorrow — try it today. And above all things don't try to relieve baby with a remedy that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

THE CENTAUR COMPANY, NEW YORK CITY.

### Not Exclusive

Nettie (aged five).—Our family is awfully exclusive. Is yours?

Elizabeth (aged four).—No, indeed! We haven't anything to be ashamed of.

## She Has Raised A Family Of Ten

## DR. FOWLER'S EXTRACT OF WILD STRAWBERRY NEVER FAILED HER

Mrs. Ervin W. Stairs, East Waterville, N.B., writes:—"I have raised a family of ten children and have always used Dr. Fowler's Extract of Wild Strawberry for summer complaint, and it has never failed.

Four years ago, when the cholera was about, some of my neighbors called in the doctor, but could get no relief. I told them about 'Dr. Fowler's,' and after taking it they were soon well again. I also used it for two of my own children at the same time when they were passing blood, and a few doses soon made them well."

If you want to be on the safe side ask for Dr. Fowler's Extract of Wild Strawberry, and insist on getting what you ask for. There are many imitations on the market, so be sure and get the original "Dr. Fowler's"; price, 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

A bridge spanning Snake River, Idaho, 345 feet from floor to stream, is the highest in America.

*After Outdoor Sports*

Summer's piercing sunshine tires and irritates the eyes. After bathing and other outdoor sports, use Murine. It soothes and beautifies. Sold and recommended by druggists everywhere.

MURINE for your EYES

## Beginning of Life Insurance

### First Company Was Formed in London In 1706

Life insurance originated in 1706 in London. In that year there was formed the first life insurance company. It was called the Amicable Society for a Perpetual Assurance Office. It was a mutual benefit concern.

Each member, without reference to age, paid a fixed admission fee and a fixed annual charge per share on from one to three shares, and at the end of the year a portion of the fund accumulated was divided among the heirs of those who had died, in accordance with the number of shares each dead person had held. Out of this company, with its crude and imperfect methods, life insurance as it exists today has grown.

**Asthma is Torture.** No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

### A Chance for Profiteers

It is rather surprising that the English profiteer, anxious to invest some of his money, does not turn his attention to Austria. For three milliard kronen he could obtain possession of a baronial castle with both ancestral portraits and a hot water supply. The figure sounds large, but it means an expenditure of only £500. Complaint is made of the high rentals of shooting in Scotland. A magnificent "shoot" in Austria, extending over innumerable square miles, may be rented for the modest sum of £30.—Liverpool Weekly Post.

Keep Minard's Liniment in the house

### Had the Opposite Effect

Her father (discouragingly).—Do you know, young man, that my daughter is accustomed to getting everything she wants?

Jack Poore.—I'm glad to hear that, for I know she wants me.

Rural Route No. 1, Mascouche, Que.

The Minard's Liniment People,

Sirs.—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again till about three months ago I had one as large and shaped like a lady's thimble on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

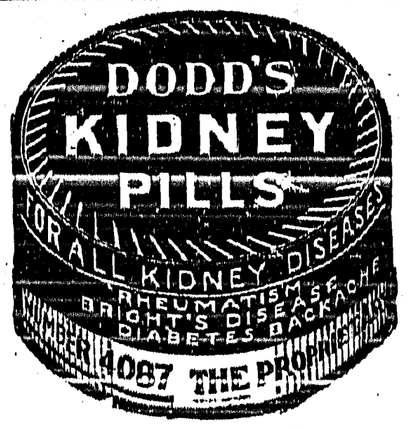
(Signed) FRED C. ROBINSON,

P.S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results.

FRED C. R.

### Water Power Resources Listed

A new French estimate of the world's water power resources credits the United States with 30,000,000 available horsepower; Canada with 25,000,000; Norway with 7,500,000; Sweden with 6,750,000 and Italy and Spain with about 5,000,000 each.



**CONQUER WEAKNESS**

by keeping your powers of resistance at highest peak. It is as natural for

**Scott's Emulsion**

to strengthen as it is for your food to nourish the body. *If you would conquer weakness—increase your resistance—take Scott's Emulsion often.*

Scott & Bowne, Toronto, Ont. 19-7

## WORLD HAPPENINGS BRIEFLY TOLD

Thieves stole over £540 worth of platinum while it was being heated in crucibles over a furnace in a temporarily vacant Paris laboratory.

King Albert of the Belgians has accepted an invitation to take part in New York in 1924 in the third centenary celebration of the founding of that city.

A floating mine of German construction has been discovered by the fishermen of Antibes right across the route of the steamers plying between Marseilles and Nice.

Lord Reading, the Viceroy of India, sent to the Dalai Lama over the new telegraph line to Tibet, recently opened, the King's thanks for his friendly greetings.

The Combined Court of British Guiana has, by resolution, authorized the Colonial Government to take over and maintain the wireless station established in the colony by the Admiralty some years ago.

George Salem, an Egyptian student, fired a shot at an automobile in front of the Palace of the Elysee, Paris, believing the car to be President Millerand's. The shot went wild. President Millerand was at his country residence at Rambouillet at the time.

The Ford Automobile Company has bought a large tract of land on the outskirts of Antwerp, where an assembling plant will be erected, the plant will be ready for operation early next year. Automobile parts will be sent from Detroit to Brussels and the cars assembled there.

Sir Lee Stack, the Governor-General of the Sudan, has been negotiating in London for further financial support for Sudan irrigation schemes. It is understood that matters have been so arranged that it will be possible to resume during the autumn, work on the Blue Nile dam, Wakwar, which was suspended last winter.

A proposal is made to establish an aerial line of communication between Tullelar, on the South-West Madagascar coast, and Antsirabe, in the interior, which is shortly to be in railway communication with Antananarivo. The line will reduce to two days a journey which at present takes one month.

## Short Crop in France

### Whole Wheat Bread to Replace the White Loaf

Whole wheat bread will replace throughout France the pure white loaves and rolls that since the war have received such a warm welcome back to the French dinner table. This is due directly to the fact that this year's wheat harvest in France is estimated much below the yield of last year when there was a bumper crop of 88,000,000 quintals.

It is feared that before the 1923 wheat crop can be reaped the country will have to buy some 20,000,000 quintals of foreign grown wheat to meet the requirements of the population.

## Unfit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, it must pass out, drop off, if Putnam's Extractor is applied to corns and warts. Use the old reliable "Putnam's," it never fails, 25c at all dealers.

Birmingham, Ala., claims the largest Sunday school attendance in proportion to population of any city in the world.

## Dye Skirt, Coat, Draperies With Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

A man of seventy has renewed his finger nails 186 times and has grown 7 ft. 9 in. of nail on each finger.

## CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Circulars free. All Druggists.
F. J. Cheney & Co., Toledo, Ohio.

A truckload of hay was one of the wedding presents given to the bride of a Newmarket trainer in England.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

The electric eel, found in Brazil and Guiana, can administer quite a severe electric shock, sometimes strong enough to overcome a horse.

### Right You Are

"Running a business," says someone, "is a good deal like riding a bicycle. You have to keep on going or fall. There are darned few men who can stand still and maintain their balance in the store, or on a wheel.—Better Business.

## PALE AND SICKLY GIRLS AND BOYS

### Need All the Strength That Rich, Red Blood Can Give Them

Youth is the time to lay the foundation for health. Every girl and every boy should have plenty of pure, red blood and strong nerves. With thin, impure blood they start life with a handicap too great to win success and happiness. Rich, red blood means health, full growth, strong nerves, a clear brain and good digestion. In a word pure blood is the foundation of health.

The signs of weak, watery blood are unmistakable. The pale, irritable girl or boy, who has no appetite or ambition, is always tired out, short of breath and does not grow strong, is a victim of anaemia—the greatest enemy of youth. There is just one thing to do for these girls and boys—build up the blood with Dr. Williams' Pink Pills. You can't afford to experiment with other remedies, for there must be no guesswork in the treatment of anaemia. Dr. Williams' Pink Pills act directly on the blood, giving it the elements it lacks, thus developing strong, healthy girls and boys. Mrs. R. Kinch, Hepworth, Ont., tells as follows what these pills did for her daughter:—"I think it a duty to let others know the benefit which Dr. Williams' Pink Pills have been to my daughter, and I hope this may be the means of inducing some other sufferer to try them. She was weak, nervous and badly run down. She took medicine from the doctor but got no benefit, and finally she was not able to walk to school. I was advised to give her Dr. Williams' Pink Pills, which I did, and after taking them for a time she was restored to perfect health. I cannot speak too highly of these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

After London, in point of population of British cities, come Glasgow with 1,000,000 inhabitants, and Birmingham, with 800,000.

## A Simple Little Gown for the Pretty Little Miss

Here is an evening gown of gray chiffon, whose charm lies in its delicacy of color and its simplicity of line. The flowers at the belt are its only trimming.

## Red Cross Nursing Outposts

### Extending Nursing Facilities to Outstanding Sections in Saskatchewan

The Red Cross will establish one of its Nursing Outposts at Kelvington, thus bringing the total of hospitals and outposts operated by the Red Cross in Saskatchewan to eight, located at Paddockwood, Carragana, East End, Robsart, Bengough, Cut Knife, Meadow Lake and Kelvington.

The Red Cross has also decided, working in co-operation with the Rural Municipalities of Souris Valley No. 7, and Lomond No. 37, to place district nurses at Colgate and Bromhead, the cost of such service to be divided equally between the Red Cross and the municipalities.

This decision was reached at a recent meeting of the committee on Medical and Nursing Services. Reports presented to the committee showed that during the six months of the year, nursing days in the six outposts in operation for a whole or part of that period totalled 1,435, and that 35 babies were born.

The Council of R.M. of Bengough No. 40 are so well satisfied with the work being done in the Red Cross Outpost there that at a recent meeting it was decided to make important alterations and extensions to the present building, or build a new, larger and more modern one.

The two years for which the Red Cross agreed to operate the outpost at Paddockwood expire in October, and the people there have petitioned for a renewal agreement, and in so doing refer in terms of high praise to the splendid services rendered to them in their isolated location, far removed from all other medical or nursing help.

The Red Cross has also authorized the establishment of an outpost at Medstead on condition that a suitable building is provided, but steps in that direction have been deferred until next spring.

Eleven graduate nurses are now employed permanently by the Red Cross in Saskatchewan. The expenditure for the past twelve months in equipping and operating outposts and maintaining district nurses in the field has been approximately $20,000, while donations for this work have amounted to about $4,000.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

### Editorial Apology

The editor of a small paper in a remote district of Southern California found himself unable to insert his usual column of births, marriages and deaths. Thinking that some apology was needed for such an untoward circumstance, he inserted the following, in clear, black type: "We regret that owing to pressure upon the space several deaths have been inevitably postponed."

Minard's Liniment Lumberman's Friend

## OIL LIGHT BEATS ELECTRIC OR GAS

### BURNS 94% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

### Launches Glider 4,000 Feet Up

Herr Klemperer, celebrated German gliding champion, had a narrow escape from death at Zurich. He launched his diminutive motorless glider from a balloon at 4,000 feet and dropped like a plummet toward earth, falling in fifteen seconds, but averting a fatal crash.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

The world's nut trees are said to be capable of supplying nourishment to its entire population.

*It's a fine thing to keep out of trouble—*

but it's a finer thing to know how to get out of trouble after you have gotten into it.

Many people thoughtlessly get into trouble by loading up with heavy, indigestible foods which fail to supply the essential elements for repairing the daily wear on their nerves and body tissues.

It is well to know that Grape-Nuts with good rich milk is a highly nourishing food, providing all the necessary nutritive and mineral elements in proper form for ready assimilation by the system.

When you make Grape-Nuts a substantial part of your regular daily diet, Nature will quickly assert herself and build healthy nerve cells and sound body tissues.

Crisp and crunchy Grape-Nuts, made from wheat and malted barley, is a satisfying food for breakfast—a welcome answer to the call of appetite.

The familiar Yellow package contains more nourishment in less bulk than any other cereal food.

## Sirdar

Mrs. Geo. Cam is a visitor with friends in Nelson at present.

B & B Foreman Sid McCabe is busy with the pile driver on the trestle near Attabara

Mr. and Mrs. W. D. Touhev and sons Bob and Bill, returned on Friday from an extended visit with friends at Seattle, Victoria and Vancouver.

Mr. and Mrs. R. Dennes expect to get away this week for a ten days' trip to the coast and will also spend a few days at Revelstoke on the return trip.

E. W. Payne has about completed the addition to P. Lombardo's residence, and when it gets a dress of paint it will be quite the equal of the best of them here.

Mrs. Jones was in from Kuskanook for the week-end, attending church service. Green peas and strawberries and cream are almost daily features on the menu at the Jones home.

Mesdames North and Loasby were Creston callers on Saturday for the English Church raffle and tea at the vicarage, making the trip to the metropolis with C. M. in his Ford roadster. Report has it that Mr. Loasby held the lucky raffle ticket and has since received the centrepiece which was raffled.

Messrs. Leadbeater and Henderson of Cranbrook have just completed painting a sign on B. J. Whiteside's new store, which will be known as Sirdar Mercantile. The sign is certainly a good one.

Jas. Mannerino is harvesting his crop of grapes at present most of them going to points in the Crow. Both the North and Mannerino ranches are moving the first of their winter apples this week.

All the local gates through the company's right-of-way fence on the north side of track have been closed, and there is now only one regular or authorized gate now available to get to the station or postoffice, and it is about opposite the Pascuzzo ranch. Surely the next move will be to put the station on the north side of all the tracks.

C.P.R. President Beatty and party arrived at Kootenay Landing Sunday evening by barge and at 7.30 the yard crew had the special made up and it departed immediately for Cranbrook.

## Safe and Convenient When Remitting Money

**There is frequent necessity in business and personal affairs for remitting money by mail. The safest and easiest mediums for this purpose are Bank Drafts and Money Orders.**

**You can secure these at any branch of the Imperial Bank — drafts for the larger amounts, and Bank Money Orders up to fifty dollars.** 816

CRESTON BRANCH, C. G. Bennett, Manager.

# NELSON ASSESSMENT DISTRICT

I HEREBY GIVE NOTICE that, on Thursday, the 12th day of October, 1922, at the hour of 10 a.m., at the Courthouse, Nelson, B.C., I will sell at public auction the lands in the list hereinafter set out, of the persons in said list hereinafter set out, for delinquent taxes unpaid by said persons on the 30th day of June, 1922, and for interest, costs and expenses, including the costs of advertising said sale, if the total amount due for period ending December 31st, 1920, is not sooner paid.

The Collector will be pleased to receive any information respecting the following list where the owner was a member of the Allied Forces and entitled to the benefits of Section 29 of the "Taxation Act Amendment Act, 1918."

## Canyon City

Dr. Rutledge of Cranbrook was here on a professional visit last week, making his monthly inspection of the Company horses.

Mrs. C. H. Kemp was taken to Cranbrook hospital on Thursday, where she has since successfully undergone an operation for appendicitus, and is making a very satisfactory recovery.

Mrs. Bateman of Calgary, Alta., is here at present on a visit to her son, Jim, at the Bateman & Pepperdine ranch.

Mr. Neil, mill foaeman, who is also an appendicitus patient at Cranbrook hospital, is making a splendid recovery, following operation about two weeks ago.

Huygens & VanAckeran are supplying twenty boxes of the fruit that will make up the Union's 220-box non-competitive display at the Imperial Fruit Show at London this month. They are sending Northwest Greenings.

The October meeting of the United Farmers will be held on Saturday night, when it is expected there will be something definite reported on the new postoffice as well as by the committee on moving pictures.

Many of the people of this section were at the Hickey home on Saturday night last, when Mr. and Mrs. Hickey were treated to a largely attended surprise party, a feature of which was the presentation of an easy chair to Mrs. Hickey.

This part of the Valley is almost as smoky as during the summer months. Burning without a permit commenced on Sunday and many here have since put a match to their slashings and stump piles.

The health of Canyon City is not quite as robust at present as is usually the case, more than a few of the residents complaining of an illness that is heavy to billiousness and colds.

### CANCELLATION OF RESERVE

Notice is hereby given that the Reserve covering Lot 491, Group 1, Kootenay District, situated in the vicinity of Creston, B.C., by reason of a notice published in the British Columbia Gazette on the 27th December, 1907, is cancelled for the purpose of disposing of the subdivision of same by public auction on a date to be later fixed by the undersigned.

G. R. NADEN,
Deputy Minister of Lands.

Victoria, B.C., August 7, 1922.

### CANCELLATION OF RESERVE

Dated at Nelson, B. C. this 16th day of September, 1922.

H. R. TOWNSEND,
Provincial Collector.

In the shack, in the farm house, and in the city house, RED ROSE TEA is the standby.

RED ROSE TEA "is good tea" 18

## Help The New Immigrant

In announcing Canada's new immigration and land settlement policy, Hon. Charles Stewart, Minister of Immigration and Colonization, made it plain that the cardinal features of that policy would be (1) careful selection of immigrants in country of origin, and (2) wise direction after settling in Canada.

The importance of these two things can hardly be over-estimated. In the past Canada has lost tens of thousands of immigrants who, after coming to this country, have drifted away to the United States or returned to the land from which they came. The reason is not far to seek. Many in the first place were not of a type or class at all likely to succeed in this country. Others, and probably a much larger number, became discouraged because, through lack of knowledge and "wise direction" they made fatal mistakes, resulting in loss and ultimate failure.

Careful selection of immigrants in the country of origin will operate to prevent men and women wholly unfitted by previous environment and training from succeeding in a new coutry like Canada from ever embarking on such a venture. For example, it is but inviting failure to send a man to Canada who all his life has followed, say the occupation of silk weaving. He knows silk weaving thoroughly, but is qualified to succeed at that and nothing else. To send such a man and his family to making a livelihood in Canada at farming, or lumbering, or mining, is to invite trouble all round. He has neither the training, the physique, or the adaptibility required to succeed.

What Canada needs and must have are the average sturdy men and women and boys in their teens who have the physique to stand hard work and can adapt themselves to manual labor. People who can work, and are willing and desirous of working on the land itself, are the type having the best possible chance of making a success in Canada.

But even more important than careful selection is the provision of wise direction after they have arrived in Canada. Many men and women having the qualities necessary to success have failed because of wrong direction, or no direction at all. They have become round pegs in square holes. Some have unfortunately located on land which was not suitable for agricultural operations. Failing where success was practically impossible they have left the country, whereas had wise direction been provided they would have been advised and assisted to locate elsewhere in Canada where success would have attended their efforts.

Therefore, the plan now proposed of keeping close check on every incoming immigrant and assisting him to get properly placed, and with advice and practical help when needed tide him over periods of discouragement and seeming, though only temporary, failure, appears to offer the best possible chance of peopling our vacant lands with men and women who will win out and make a real success in Canada.

Such a plan to succeed must have the cordial support of individuals all over the country, and the plan formulated of creating local community clubs to care for and assist incoming settlers, thus building up a great national welfare organization, is good.

Coupled with this is the other, and sensible plan, of placing these new settlers on lands fairly close to existing lines of railway but which are now held by speculators and absentee owners. These lands, it is proposed, to have listed and sold upon long terms of payment, involving only a small annual payment of principal and interest upon the amortization plan. Settlers so placed will have a much better chance to succeed than those placed scores of miles from any available means of transportation, or located in "colonies" off by themselves.

People now resident in the districts where these new settlers are to be placed should be ready to hlep them, because by their presence local taxation will be reduced and modern services and utilities now denied to them because of prohibitive cost will be made accessible. Placing these people within access of existing railways will operate to wipe out the present staggering debt on our National Railways, and in many ways this proposed more intensive settlement will make for success all round where the old policy of scattering people far apart over immense areas resulted so frequently in discouragement and failure.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

BAYER M.D.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

| | | |
|---|---|---|
| Colds | Headache | Rheumatism |
| Toothache | Neuralgia | Neuritis |
| Earache | Lumbago | Pain, Pain |

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### New Building Material

**Europe Using Discarded Shell Boxes Filled With Cement**

Europe is trying something new and unique in building materials in connection with the great reconstruction movement in the battlefield districts. It is converting the boxes in which shells were transported to the front into building blocks. The boxes are filled with cement allowed to dry and then assembled like hollow tiles. They are said to form walls of great strength. In the present shortage of brick the cement filled shell boxes not only comprise a very acceptable substitute but greatly reduce construction costs.

DO YOU FEEL LIKE THIS WHEN YOU WAKEN?

Do you feel blue, sickly, heavy, too tired to get up? If so, it's probably your liver which is slow, and needs to be toned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of poisonous wastes, they aid the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health bringing medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Catarrhozone Co., Montreal.

### Hungarian Lake is Drying Up

**Volcanic Changes in Bed Responsible Say Geologists**

The biggest lake in Hungary, Lake Balaton, covering 360 square miles, would appear slowly to be drying up. In some places the water has receded a mile from the old shore line within a few years and the shrinking continues.

No one can give an explanation particularly as there has been plenty of rain recently. Geologists say that volcanic changes in the bed of the lake are responsible.

You May Be Ill To-Night Have You a Remedy?

It may be a disordered stomach, perhaps cramps or acute indigestion. If you have no remedy handy, you're bound to suffer. Twenty drops of Nerviline in sweetened water will ease the pain and enable you to get a good night's sleep. Whether it is Neuralgia, Sick Headache, or some other minor ache or pain, Nerviline can be used internally or externally and will be found a true friend for every family. Large 35c bottles sold everywhere.

Seamen have observed the glow of Rio de Janeiro, a city famed for its brilliant illumination, 100 miles out at sea.

**It will Prevent Ulcerated Throat.**—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Eclectric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

The feminine vanity bottle was used thousands of years ago. Several estimated to be 2,000 years old have been found with mummies of Egyptian women of fashion. The Egyptian pots held stibium, a preparation of finely powdered antimony with which Egyption women of fashion darkened their eyelids and pencilled their eyebrows.

Ask for Minard's and take no other

**How Times Do Change!**

The Walkerton Telescope resurrects an article from a Walkerton paper printed fifteen years ago urging the farmers to pledge every candidate for Parliament to use his vote and influence in favor of a law prohibiting automobiles from using the public highways.—Kincardine Review.

**Rub it in for Lame Back.**—A brisk rubbing with Dr. Thomas' Eclectric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

**Practice Makes Perfect**

After a few years of marriage a woman can mentally plan a dinner party, make over an evening gown or redecorate the house while she is automatically kissing her husband goodby, after breakfast.—Helen Rowland.

Minard's Liniment used by Physicians

### Canadianizing Canada

**The Value of Tourist Travel to the Dominion**

Travel is one of the greatest elements in education and is one of the fundamentals of good citizenship. The desire to know one's own country should be inculcated into the system of every Canadian and to obtain any adequate knowledge, how can it be acquired better than by travel? "Canadians, See Canada," and "See Canada First," etc., have been adopted as slogans in the endeavor to create in the minds of Canadians the advantages of national travel and the attractions Canada has to offer.

The purport of this article is not only to give expression to the importance of Canadians seeing Canada that they may have a fuller appreciation of what their own country has to offer them in the way of scenery and interest, but to emphasize particularly the value of tourist travel to the nation, and the duty we owe ourselves in developing our tourist territory—so to speak to capitalize the scenery. Possibly no other country in the world gives up to its people a greater area of country for recreation purposes and these great playgrounds are not confined to any particular section but are spread from the Atlantic to the Pacific. Then again from the seashore resorts of the Atlantic and the lower St. Lawrence to the Pacific Coast the interests are so varied and so distinctly different from one another that our Canadian people may use their vacations for years and find new scenery and new interest annually. From the quiet beauty of the Maritime Provinces to the more rugged scenery of the Province of Quebec, the almost continuous lake and river country of Northern Ontario, the Rocky Mountains so immense, beautiful and wonderful, on to the Pacific Coast, one cannot imagine without personal vision and knowledge what a wonderful asset we have in our widespread playgrounds and national parks.

But to make the most of these wonderful heritages, to realize the fullest amount of profit, they must be developed. The Provincial and Dominion Governments must be keenly alive to what the possibilities are. Good roads to the wonder places and beauty spots are essential so that the way of the tourist may be made easy and attractive.

Much has been done by the railways to advertise our tourist territory, which has resulted in millions of dollars being spent in Canada annually, principally by our neighbors to the south of us, but the fringe has as yet only been touched. The Canadian National Railways have just opened Jasper Park Lodge, in Jasper Park, that largest and most wonderful of all our national parks, 4,400 square miles of magnificent mountainous scenery. There wild life roams unmolested and thousands of tourists from all parts of the globe will gladly assemble annually when the park is fully developed with good motor roads, and the system of lodges so auspiciously opened on June 15th last are extended through the park. Jasper Park is but one of the many feature places to be developed. Mount Robson Park, just fifty miles west from Jasper station, is another. Aside from Mount Robson being the highest peak in the Canadian Rockies, 13,068 feet), the park which is entirely within the province of British Columbia, is an Alpine kingdom in itself, but until such time as it is developed, the glory and majesty of its scenery is denied the tourist who does not choose to ride a cayuse.

By way of comparison it has been stated that tourist traffic in California alone nets approximately a hundred million dollars a year, and the more Northern Pacific Coast States, Washington and Oregon, add fully half that amount to the total, whereas it has been said that tourist traffic in Canada all told, did not net beyond ten or twelve millions.

Again, the provinces of Nova Scotia and New Brunswick have all the advantages of the State of Maine, but comparatively little has been done to develop them. What this development may mean in a measure can be expressed by the fact that Maine last year reaped a harvest of over $40,000,000 in tourist business.

Our wonderful tourist territory is undoubtedly one of our largest assets, and greatest heritages to be developed, and in the opinion of international travellers who have visited us, Canada possesses the finest aggregation of scenery in the world. —Toronto Saturday Night.

Says Tanlac Is Fine To Build Up Weight

Persons suffering from stomach trouble and who are under weight find an ever-ready friend in Tanlac. This celebrated medicine has ended indigestion and increased the weight for thousands of people everywhere. Mrs. M. Sanderson, wife of a well-known grain buyer of 691 Anderson Ave., Winnipeg, Man., says:

"I got so weak and run down the least bit of housework was too much for me. I just dreaded to eat, for my food would sour and keep me in misery for hours. I gained twelve pounds and look better and feel better than I have in years."

Under nourishment is the cause of most cases of under weight. Tanlac enables the stomach to extract the healthy nutriment from the food, build up the whole body and increase the weight to normal. Millions of people have testified to its great benefits. Get a bottle today at any good druggist.

**Company U.S. Is In**

The list of absentees among the supporters of the League (of Nations) is more easily called than the roll of its membership: Abyssinia, Afghanistan, Ecuador, Germany, Hungry, Iceland, Mexico, Russia, Turkey and the United States.—Raymond B. Fosdick in the Atlantic.

KEEP CHILDREN HEALTHY

To keep children healthy the bowels must be kept regular and the stomach sweet. Nine-tenths of the ailments which afflict little ones are caused by derangements of the bowels and stomach. No other medicine can equal Baby's Own Tablets in guarding either the baby or growing child from the ills that follow a disordered condition of the bowels or stomach. They are a mild but thorough laxative and never fail to give results. Concerning them Mrs. W. B. Coolledge, Sarnia, Ont., says: "I have used Baby's Own Tablets for over three years and have found them the best medicine I have ever used for my children. I never have any trouble giving them to my little ones and they have saved me many a doctor's bill. My advice to all mothers of little ones is to keep a box of the Tablets in the house." The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In the government of their East Indian possessions the Dutch have a law which provides that the testimony of one white man will be equal to that of seven natives.

MOTHER SAVES DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumsden, Saskatchewan.—"My mother had taken Lydia E. Pinkham's Vegetable Compound and when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same."—Mrs. Max Retzer, Lumsden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for bear in mind, it has been helping women for nearly fifty years.

Women Tell Each Other

In your own neighborhood are women who know the value of this wonderful medicine and they talk to one another about it. So if you are troubled with pains and irregularities, a tired feeling, nervous and sleepless spells, or have other annoying symptoms caused by some female trouble, you have only to ask some neighbor what she thinks of your taking Lydia E. Pinkham's Vegetable Compound.

America's Pioneer Dog Remedies

BOOK ON DOG DISEASES and How to Feed Mailed Free to any Address by the Author H. CLAY GLOVER CO., INC. 129 West 31st St., New York, U.S.A.

# Strong British Forces Prepared To Deal With The Trouble In Turkey

Constantinople.—The British are mobilizing every available warship, man, horse, automobile, cannon and rifle within reach of the trouble zone. They are preparing to deal a tremendous blow by land, sea and air if provoked by the Kemalist army, which, according to latest reports, is concentrating feverishly around Ismid and Chanak.

All the British barracks in Constantinople have been evacuated, and troops are marching in the streets of the capital, which is having a sobering effect on the exuberant Turks. The British soldiers are headed for strategical points on the Straits.

General headquarters has issued an official order directing the wives and families of British officers and soldiers to prepare to embark at once.

Transports with British cavalry, heavy artillery and supplies are arriving at Saidarpasha, on the Ismid Railway.

The men of the Constantinople garrison are constructing entrenchments at Scutari on the Asiatic side of the Bosphorous, which will be second line of defence, the first being at Yarinja, a small railway station between Saidarpasha and Ismid.

The British police forces in the capital have been greatly augmented, and will probably be assisted by French gendarmes. It is estimated that the present total British strength in Constantinople and the Dardanelles is about 16,000 men, which, when reinforcements, now on the way, arrive, will be increased to nearly 75,000 effectives. These forces will be further strengthened by large detachments from the Atlantic and Mediterranean fleets.

The British are enrolling Russian refugees with military training for auxiliary work, while Russian Kalmuks from Manchuria are being recruited as horse trainers. It is expected that eventually Great Britain will have more than 100,000 men in the disturbed area.

## Had Adventurous Voyage

**Captain and Wife Ninety-One Days On Pacific**

Victoria, B.C.—After being tossed about by the giant waves on the Pacific for ninety-one days, Captain George W. A. W. Waard and his wife arrived here from the Orient with the Chinese junk Amoy. Practically one continuous storm buffeted the little ship and twice in typhoons she lost her rudder. Then while Captain Waard was guiding his craft through a dense fog outside Victoria, a great black form loomed dead ahead. Captain Waard shoved the tiller hard over and the steel hull of a Japanese steamer passed within four feet of the Amoy's stern.

**Large Increase in Wheat Acreage**

London—According to the estimates of the New South Wales Government, says a Reuter despatch from Sydney, the area in the state under wheat cultivation amounts this year to 3,869,000 acres, representing an increase of 170,190 acres over last year's total acreage.

**Determined to Enter Thrace**

Constantinople.—Hamid Bey, the Turkish representative here, informed the Associated Press correspondent that it was certain the Turkish army would declare war on the British if the British attempted to interfere with the movement of Turkish troops across the Straits to Thrace.

**Forestry Student Killed**

Fort William, Ont.—J. E. C. Brennan, a forestry student, whose home is Deseronto, Ont., and who was working in the woods at Flanders, near Fort William, was instantly killed by a falling tree while cutting down timber.

**Will Continue Relief Work**

Geneva.—The International Committee for Russian Relief, it was announced, has decided to continue work under the direction of Dr. Fridtjof Nansen, of Norway. The organization will bear Dr. Nansen's name, its title in French being "Action Nansen."

## Japs Are Ordered Out Of Russia

Chang Chun, Manchuria.—The conference here between Japan, the Soviet Government of Moscow and the Far Eastern Republic of Siberia appeared to have reached a deadlock, with the Russian demand that Japan evacuate the northern half of the island of Sakhalien immediately. Japan refuses to do this until she has been indemnified for the massacre of Japanese at Nikolaievsk in 1920. Adolph Joffe, Envoy from Moscow, laid a flat ultimatum on the conference table when he notified the Japanese delegates that the Moscow Government would refuse to sanction the proposed trade agreement between Japan and the Far Eastern Republic so long as "one Japanese soldier remains on Russian soil." Joffe continued with the declaration that Japan must immediately evacuate Sakhalien as well as Vladivostok.

## RUSSIA WOULD SUPPORT TURKS

**WILL LEND MORAL SUPPORT, IF NOT FORCE OF ARMS**

Mascow.—Russia intends to support the Turks morally, and perhaps will give them munitions if they should be needed; but it is considered in Moscow as extremely unlikely that Russian troops will be sent to assist the Kemalists if they attempt to take Constantinople.

While prefering the Turks to the Allies as the holders of Constantinople, nevertheless it is understood the Soviet leaders have decided to take no steps which might bring them into a real war with Great Britain.

The Russian staff might give advice, either from a distance or on the ground, but no troops will be sent, it is stated here.

Some of the Russian leaders declare Constantinople should be Russian, but next to that they prefer Constantinople Turkish, but strongly influenced from Moscow. Nevertheless, all Russia is tired of war and the leaders are pledged to the task of reconstruction.

## Big Increase In Grain Movement

**Reports Show Considerable Advance On Number of Cars Handled**

Winnipeg.—Resumption of large grain shipments from Manitoba points consequent on dry weather enabling farmers to continue threshing, combined with augumented receipts from Saskatchewan and Alberta points, brought the Canadian National Railway's movement of cars to 1,175 on Sept. 19 against 483 on the same date last year.

During the present crop season, which commenced September 1, 14,319 cars of grain have been moved, this being a considerable advance on the same period last season, when 10,388 cars were brought into Winnipeg from the west.

**Elevator Destroyed by Fire**

Saskatoon.—Fire destroyed Brook's elevator at Mervin with 7,000 bushels of grain, half of which was wheat. Two other elevators were saved by the efforts of the local fire fighters with buckets and chemicals. The property was fully insured and the companies that own it will start building again immediately.

**Germany Paid Allies 10,000,000 Marks**

Berlin.—The Government, according to the newspapers, has paid to the Allies 10,000,000 gold marks, as part of the installment of 28,400,000 due in liquidation of Germany's private pre war debts to the Allied nationals.

**Express Messenger Killed**

Kenora, Ont.—Ralph Flowers, messenger in the employe of the Canadian National Express Company, was killed at Hunter while trying to board a moving train.

## WESTERN EDITORS

Chas. L. Dunford, Editor and Proprietor of The News, Oyen, Alberta.

## Banish Noisy Women

**Interrupters at Sitting of Irish Parliament Are Hastily Ejected**

Dublin.—At a sitting of the Irish Parliament, Maud Gonne MacBride and Mrs. Charlotte Despard were expelled from the strangers' gallery. The expulsion was ordered because of their persistent interruption of the proceedings.

widow of the editor of the Irish Citi- widow of the editor of the Irish Citizen, who was executed in Dublin in 1916, interrupted from the gallery on the question of prisoners, and, together with another woman who had joined in her protest, was ejected.

During the debate on the constitution, Thomas Johnson, Laborite, moved an amendment to omit the preamble and substitute a declaration of Ireland's sovereignty, accompanied by a statement of the right of the Irish people in the future to annul the treaty on due notice being given. Ernest Blythe, Minister of Local Government, in opposing the amendment, argued that such playing with words, and formulas would "only whet the appetites of the anti-treatyites, who revel in such theoretical displays."

## May Winter Again In Arctic

**Crawford Party May Not Be Able to Return This Season**

Vancouver.—According to a message from Nome, Alaska, there is every indication that Allan A. Crawford, of Toronto, leader of the party of Canadians sent to Wrangel Island last year by Vilhjalmur Stefansson, will have to remain there another winter. On August 18 the power schooner, Teddy Bear (Captain Joseph Bernard) left Nome for Wrangel Island to bring out the Crawford party, which had gone there to hold the island for Canada.

**Destructive Typhoon**

Honolulu.—Miyake Jima, one of the seven isles of Izp, in Northeastern Japan, has been swept by a typhoon, one of the most disastrous in the island's history, which destroyed 2,100 homes and damaged 45 vessels, according to advices from Tokio to the Nippo Jiji, a Japanese newspaper in Honolulu. Nine lives were reported lost.

# British Subjects Do Not Change Nationality Within The Empire

## Bolivia and Chile May Have War

Geneva.—The relations between Bolivia and Chile are such that "grave difficulties" threaten unless the mediation of a friendly power of the arbitration of the League of Nations can be secured. This declaration is made in a letter received by the Secretary of the League Assembly from Alfredo Gutierrez, Bolivian delegate to the assembly. He points out that Bolivia has been unable to reach an understanding with Chile by direct negotiations regarding revision of the treaty of 1904.

## WILL WAIT FOR DROP IN COAL

**FORD PLANT SHUT DOWN UNTIL PRICES EASE OFF**

Detroit.—Henry Ford and his executives are working "almost day and night" in an effort to find a way out of the Ford Motor Company's coal problems and the manufacturers is determined to re-open his Detroit plants "at the earliest hour possible," it is learned.

Mr. Ford was represented as being unshaken in his resolve to keep his plants closed until coal prices have swung back to what he considers a fair figure.

While Mr. Ford and his department managers were seeking a way out of the difficulty, the job of reopening the Ford plants was being given serious study by the Detroit Board of Commerce, which is making an effort to obtain coal for the motor concern. Closing of the Ford industries has thrown approximately 25 per cent. of the working men in the Detroit district out of work.

## Says States Should Help Great Britain

**Hamilton Man at Cleveland Touches On Turkish Situation**

Cleveland.—The United States should be prepared to co-operate with Great Britain in handling the Turkish situation that the peace of the world may be maintained, declared Sir John Gibson, of Hamilton, Ontario, at the 110th conclave of the Supreme Council, 33rd Degree, Ancient Accepted Scottish Rite Masonry for the Northern Masonic jurisdiction of the United States.

Sir John touched upon the Turkish problem in conveying the fraternal greetings of Canadian Scottish Rite Masonry to the Council.

**Come North For Game**

Regina.—Over 500 Americans came into Saskatchewan this year to shoot ducks, according to an estimate by Provincial Government officials.

Vancouver.—"I should like to suggest that you abandon these words 'immigration' and 'emigration' in respect of the movement of Britishers to the dominions," urged Major A. E. Belcher, of London, head of the Empire Exhibition mission touring the dominions, in a speech to the Canadian Club here. "These changes of residence are not changes of nationality. They are simply moving from one part of their country to another. I suggest that the word migration be used in future. They are still British subjects anywhere in the Empire."

Imperial unity was declared to be the keynote of the proposed exhibition of products of Great Britain, the dominions and the colonies, to be held in London in 1924.

Discussing land settlement, the speaker stated the dominions could not expect to obtain efficient farm labor from the Mother Country. There is employment at home for more efficient farm laborers than we have," he said. "But a man's previous occupation is not necessarily a vital factor in determining what success he may have in a new country.

"The best dairy farmer I saw in West Australia was eight months previously a tram conductor in Lambeth," he said.

Major Belcher said the Prince of Wales was taking more than a perfunctory interest in his position as chairman of the exhibition general committee, and was attending all meetings and taking a lively interest in the proceedings. He instanced cable communications which he had had from His Royal Highness during his present tour.

**Veterans Ready to Enlist**

Vancouver—Veterans who served in the Near East during the Great War are volunteering here steadily for a possible contingent to Constantinople. Some of these have pointed out to Brig.-Gen. Victor Odlum that the lull in the Turkish advance is characteristic of the Turks' method of warfare. Local veterans of the Mesopotamian campaign expect further trouble, and an extension of the fighting to Mesopotamia, General Odlum says.

**Canadians Reach Malta Safely**

Boston.—The American Board of Commissioners for Foreign Missions received a cablegram from Dr. Alexander MacLachlan, of Kingston, Ont., President of the International College at Smyrna, saying that he and his family were safe at Malta. The message said that James L. Murray, of Ontario, a member of the college faculty, was also at Malta.

**Raids On Liquor Houses**

Windsor, Ont.—More than half a million bottles of beer, ale and porter, are being held by provincial authorities following a series of raids on brewery company warehouses in and near this city. The raids were made under order of Hon. W. E. Raney, Attorney-General of Ontario, who charges the companies with failing to make proper returns of the liquor sent out of the country.

**Prominent Miner Drowned**

Nome.—James Andrews, prominent miner, operating gold mines between Cripple and Rodney Creeks, west of Nome, was drowned while attempting to ford Penny River, nine miles from here.

**$40,000 Winnipeg Fire**

Winnipeg.—Fire caused a loss estimated at $40,000 to the plant and building of the W. J. Boyd Confectionery Company, Spence Street. The loss is covered by insurance.

**Died In 104th Year**

Montreal.—Mrs. James Johnston died here in her 104th year. She was born at Hamilton, Scotland, in 1819.

**Schooner Wrecked**

Nome, Alaska.—The coastwise schooner Olga is a total wreck on the beach at Port Safety, two miles east of Nome.

Patronize your local Printer. It is poor policy to send your job printing out of town. It does not pay, no matter which way you look at it.

PASSING THE "BUCK."

—(Daily Express (London)
