THE CRESTON REVIEW

VOL. XIV. CRESTON, B. C., FRIDAY, OCTOBER 20, 1922 No. 37

Erickson

Miss Lethwitch, who has been a visitor here with Mrs. Kemp for a couple of weeks, left a few days ago for Vancouver.

Mr. and Mrs. W. Percival of Yahk were week-end visitors with Mr. and Mrs. Dodds.

Mr. Peck returned to Edmonton last week, but Mrs. Peck intends spending the month out with her parents here.

Miss Marguerite Clark is again attending the high school at Cranbrook, leaving for that town about ten days ago.

Potato harvest is in full swing in this section at present, with the yield averaging at least nine tons to the acre.

The forest fire seassn re-opened on Saturday when a blaze was noticed in the Mallandaine timber on the mountain back of the Attwood ranch. A small crew of men are on the job seeing to it that it does not spread.

Mr. and Mrs. Bothomley, who are motoring from Calgary to Longbeach, Calif., spent a few days here last week with the former's sister, Mrs. Geo. Hobden.

Mrs. H. Kemp was a visitor with Spokane friends a few days last week, her son, Tony, undergoing a tonsils operation while in that city.

The hard surface road is about completed to the co operative store, and work will be halted there until spring, when a fill will be made in the ravine and the road take a short cut to the station.

Mr. and Mrs. Agler and Mrs. Drury and son, of Prince Albert, Sask., who are motoring through to Los Angeles, Calif., to spend the winter, were visitors with Mrs. McKelvey on Monday and Tuesday.

Apples are still strong on the shipping list, the exports to date showing just over 90 straight cars of this fruit having already rolled east.

Mr. and Mrs. G. A. Hunt and Miss Hunter of Kitchener, were week-end visitors at the ranch here.

Canyon City

Vance Brothers are the first of our citizens to secure a supply of venison this year. They bagged quite a fine deer while hunting on the Huygens place one day last week.

Mr. Helquist a Norweigan church missionery from Cranbrook, was here last week, and held a well-attended service in the schoolhouse on Thursday evening.

E. Lasher of Glenlilly is here on a visit this week, looking over the property back of the Wearmouth place, which he purchased from the Land Settlement Board last year. As soon as he can sell his Glenlilly property he will move here to reside.

This year's yield of apples is so heavy that the packing shed at the siding has not sufficient capacity to take care of the packing and some of the fruit is being hauled to the Union warehouse at Erickson. From present appearances Canyon ranchers will ship at least twenty carloads this year.

Members of the United Farmers are reminded of the regular meeting at the schoolhouse on Saturday.

Ted Swanson, who has been living at Wasa and Penticton the last two years, is back to Canyon, and will remain for the winter. Mrs. Swanson is at present visiting with her sister at Sirdar.

The social season will be officially opened on Friday night next with a Ladies' Aid chicken supper at the schoolhouse, the proceeds to go to the church building fund.

The delightfulness of Canyon City climate is demonstrated with a Wagner apple tree in full bloom on one of the local ranches. Spraying operations will likely commence on it next week.

Mrs. Kemp got back from the hospital at Cranbrook a few days ago where she earlier in the month underwent an operation for appendicitis. She continues to make a satisfactory recovery.

R. Hurl left this week for Vanguard, Sask., to look after his property interests in that section.

W. G. Wearmouth has just demonstrated that tobacco can be successfully grown in the Valley. The plants show excellent growth and are now being cured for pipe use.

Alice Siding

Fred Taylor is absent on a business visit to Vancouver and coast points.

Miss M. Wadds of Crawford Bay was a visitor with Mrs. Stace Smith a few days last week.

Mrs. J. H. Webster is slowly recovering from her runaway mishap of June last, and is now able to get about with the aid of crutches.

The first deer shot in the Creston section of the Valley was got on Saturday by J. W. Vaness.

Alice Siding does not take its hat off to Kuskanook in the matter of season-round strawberry production. As late as last week this fruit figured in the menu at the Alderson (Andy Miller) ranch.

Ralph Clarke, J. Vaness and Tom Anderson are daily pilgrims to Creston these days. They are on the apple packing staff at the new Union warehouse.

The Alice Siding potato crop is now pretty well harvested, and although the summer has been dry the yield will average at least seven tons to the acre.

Apple picking is pretty well completed in this section, and all the available storage room will be required to hold the winter varieties, much of which will not go out until after Christmas.

Women's Institute

There was quite a good turnout of members of the Women's Institute for the October meeting on Friday afternoon, the chief feature of which was a talk on the "Origin of Music" given by Mrs. Mallandaine, and at which it was decided that the next monthly meeting will be held a week later than usual—on November 17th—and will be held in the Parish Hall, as there will be some music to vary proceedings. At this meeting there will be a sale of some very useful and pretty bags for the benefit of the Institute treasury. The Institute have appropriated the evening of November 10th, when there will be a whist drive starting at 8 o'clock in the Parish Hall, and after supper there will be either a dance or more novel entertainment if the performance can be secured for that night. Institute members are asked to bring refreshments in the form of a dozen sandwiches and a cake, so as to ensure a sufficient quantity of each. Those bringing lunch will be charged only 50 cents, with the general admission at 75 cents. Prizes will be given the lady and gent making the highest scores.

Send application to Secretary, Creston, B.C.

HELP THE FALL FAIR

While the intake in connection with this year's fall fair was enough to pay the prizewinners in full, and meet the other actual running expenses of the exhibition, there was no surplus at all to take care of the interest payment due on the grounds this fall.

Due to wet weather and the consequent small attendance the directors find themselves at least $150 short of the amount required to take care of this latter debt.

To raise this amount Geo. Powell, Cranbrook, agent of the Singer Sewing Machine Campany, has very generously given the directors a Singer sewing machine.

This will be raffled at once, the drawing to take place on Saturday evening, Oct 28th, at Norris' bakery, after the picture show.

Raffle tickets are now on sale at 50 cents each, and from this source the directors are confident the necessary funds will be derived to wipe off this year's debt.

No town anywhere in B.C. had a fair that equalled Creston's 1922 exhibition. It is YOUR fair, and YOUR help in this emergency will assure a bigger and better 1923 exhibition.

Buy a raffle ticket—NOW.

Lister

Jack Johnston is home for a week from the Continental mine at Porthill, where he is now working.

BIRTH—On Oct. 12th, to Mr. and Mrs. Horace Wright, a daughter.

Mrs. Rowbury got back last week from Cranbrook, where she had been for a couple of weeks.

Rev. G. Knox was here on Sunday morning for the fortnightly united church service. The ladies' aid at Canyon are having a chicken supper on the evening of the 27th, and a number from here are planning to attend.

Roadmaking operations have been in full swing here for the past five weeks came to a stop at the end of the week. The main Lister-Creston road that was stumped last year has now been graded and is in fine shape for travelling. We understand an appriation of $1000 has been expended on the work.

A. H. Bernhard retired from the management of the Lister Trading & Supply Co. store at the end of the week, and is succeeded by John Bird who assumed the management on Monday morning.

Mr. and Mrs D. Chalmers and family left last week for Trail, where they will make their home in future, Mr. Chalmers having joined the smelter staff. They were amongst the first settlers in Lister and have been prominent in the camp life generally and will be much missed by a wide circle of friends.

Although the summer has been quite a dry one the potato crop now being harvested in Lister is the best on record, a particularly good showing coming from the Filmer ranch, where from 200 pounds of seed sown a yield of 2400 pounds of spuds is reported. John Huscroft is about the most extensive potato grower, with a total crop estimated at 50 tons.

HELP THE FALL FAIR!

RAFFLE

of a

Singer Sewing Machine

Donated by G. POWELL, Agent, Cranbrook. To be drawn for SATURDAY, OCT. 28th, at Norris' Bakery after the picture show.

BUY EARLY AND OFTEN!

A Correction

In connection with the heated car freight service the Review is asked to correct a wrong impression that seems to have gotten abroad.

From reading last week's notice it might be inferred that the C.P.R. would not ship perishables by freight except in a heated car.

Provided the shipper prepays the freight, and accepts full responsibility for the goods reaching destination in right shape, the railway will transport fruit, vegetables, etc., in the usual way any day freight is moving.

Overseas Presentation Fruit

Manager Constable of the Fruit Growers Union has just been advised that a car of Christmas presentation apples is to be shipped from Vernon the first of next month, and that residents of the Valley who wish to remember Old Country friends with apples can freight their own fruit to Vernon and on payment of the $2.50 overseas carrying charge the apples will go forward without further expense, shippers being requested to have all boxes strapped and plainly marked with the name of the party the fruit is going to. Delicious at $2.50 a box are available at Vernon ready to be placed in car, with Spy, Spitz, Winter Banana, Winesap, and Yellow Newtyn at $2, and McIntosh, Jonathan and similar varieties at $1.75. All information concerning this car can be had by calling at Creston Fruit Growers Union office.

Timely Thougdtfulness

Rev. H. Varley very fully appreciates the practical thoughtfulness of the people of Sirdar, who made him the recipient of all the garden and orchard products used for decorative purposes at the harvest thanksgiving service in that town on Sunday night. In addition he was presented with a generous lot of pantry commodities that came in at the Guild social the day previous, and which also formed part of the church decorations Mrs. Varley was suitably remembered by the Guild who presented her with a quilt which had been raffled at the social and returned to the Guild by the winner. Population considered Sirdar has the most active lot of church people in the whole Valley—both as workers and contributors.

Royal Household Flour is going strong
My neighbors say 'twill not be long
Till every lady in the land
Bakes with Royal Household brand.
This wondrous flour is truly great,
Toothsome, wholesome, clean and light;
Sold to the world oer the Seven Seas—
High tribute to the Ogilvie's.
This flour marks the highest score—
No lady then could ask for more.
And for another week I'll try
To sell this flour for $2.00.

—T. M. EDMONDSON.

Sirdar

Mr. and Mrs. Jack Cameron left at the first of the week by auto for a week's visit with friends in Cranbrook.

Miss Myrtle Goodman is also a visitor with Cranbrook friends at present.

Mr. and Mrs. Sid McCabe left this week for Spokane, where they will visit with Sid's brother, who is in business in that city, and will be away a couple of weeks.

Mr. and Mrs. R. Dennes and son, Dick, are back from a two weeks' holiday visit with friends at coast points.

Walter Boyd is now in charge of the yard engine, replacing Mr Neil, who has gone to Cranbrook and is now running out of the divisional city.

The different ranchers in the Sirdar area are still heavy apple shippers to prairie points, Messrs. North, Pascuzzo, Mannerino and Cherbo having the heaviest crop on record.

Sirdar Ladies' Guild had a very successful tea, pound social, and a raffle of a quilt on Friday afternoon, with 100 raffle tickets disposed of. The lucky ticket was held by Mr. McFadden, master mechanic of Cranbrook, who gave it back to the Guild, and the ladies presented it to Mrs. Varley.

Miss Schmidt of Rossland, the new principal of Sirdar school, took charge on Monday.

Miss Murray of Rossland, who has been substituting at the school since its opening in September, left for her home on Monday. During her short stay she made herself quite popular with many of the citizens who were rather sorry to see her depart.

Mrs. Jones was in from Kuskanook for the Guild social on Friday, and was here for the harvest thanksgiving service on Sunday evening.

The harvest thanksgiving service on Sunday evening was well attended, with the schoolhouse most appropriately decorated with vegetables, fruit and flowers. The vicar, Rev. H. Varley of Creston delivered an appropriate address and the music was in keeping with the occasion. Mrs. Varley accompanied the vicar on his trip.

C. M. Goodman had the misfortune to lose a valuable Jersey cow on Monday. The animal had been sick for only a few days, and as a milk producer could not be excelled in this part of the country.

Chicken Supper at Canyon

The Ladies' Aid of Canyon City will hold a chicken supper and entertainment on Friday, October 27th. Supper will be served at 7 p.m. prompt and concert to start at 9. Admission to supper and entertainment 75 cents to adults, and 25 cents to children of school age. Children under school age, free. Proceeds in aid of church building.

The Man Who Works Hard Should Follow This Advice

Perseverance and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from bilious fits. The occasional use of Dr. Hamilton's Pills keeps a man feeling fit and fine, keeps him always at his best. Headaches, indigestion, poor color are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine for men is better than Dr. Hamilton's Pills, 25c, all dealers or The Catarrhozone Co., Montreal.

MY CANADA

Bar B Ranch,
September 19th, 19—.

I went to church on Sunday, for the first time since I left Winnipeg. It was a beautiful morning, and at breakfast Mrs. Bingham suggested that we should all go to evening service at the Indian Mission on the Reserve, twelve miles away. Ever since coming here I have wished to visit the Reserve, so I was greatly pleased when Mr. Bingham and Mr. Livingstone fell in with Mrs. Bingham's proposal.

We had luncheon early, for we wished to be at the Mission in time to call on some of the Indian celebrities before tea, as the service was directly afterwards.

Half-way between the Bar B and the Mission we came to the "dip," and I got out to see it, with Mr. Livingstone as showman. I don't suppose you know what a "dip" is, so I shall describe it as best I can.

At first I thought that the wooden structure I saw was a bridge. It certainly looked like one, but why build a bridge over dry land? And why build it so narrow? To add to my mystification, when I reached the end of the sloping approach I found myself looking down into a reservoir full of water. Mr. Livingstone evidently enjoyed my astonishment—I believe he would have enjoyed it even had I fallen into the water—and after waiting in vain for me to speak and display my ignorance, he told me quite seriously that most of the Bar B cattle were shipped to England, and that the British authorities would not allow them to land until assured that they had been given a bath! I refused to laugh, so he finally told me that ranchers were compelled by law to "dip" their cattle in an antiseptic solution before shipping them, this to prevent the spread of mange or other similar diseases. The cattle are driven up the approach, and when they come to the water there is nothing for them to do but got into it; both approach and reservoir are too narrow for them to turn in. There is a gradually sloping floor in the reservoir, and before they know what is happening to them the bewildered cattle find themselves in water too deep to wade in, and are therefore forced to swim. In this way the chemically-treated water covers them all but their heads. Quite clever, is it not? And wouldn't it be a perfectly lovely way to bathe refractory small boys?

A hill around which the road winds hid us from the Mission until we were within half a mile of it. To my surprise, the many buildings connected with the Agency and the Mission made a good-sized village, and—to my greater surprise—a very picturesque one. They are situated in a fan-shaped hollow amidst the hills, are all painted white, and—greatest surprise of all—are surrounded by trees and gardens.

We drove directly to the residence of the Indian Agent. His wife, a friendly little woman of forty or so, met us with a hearty welcome. In five minutes she was calling me "my dear," and telling me how lonely she found life on the Reserve. She was a governess, so Mrs. Bingham tells me, who came out from England to teach the children of the man who owned the ranch where Mr. Paget now lives—and within a year she married the Indian Agent! Single women in Alberta have need to be wary indeed.

By the way, an Indian Agent is not an Indian agent. He is the man appointed by the Government to look after the temporal affairs of the Indians, and is usually—this may be merely scandal—a person of firmly rooted political convictions in favour of the ruling party.

At the first opportunity Mrs. Bingham told Mrs. Davidson, our hostess, that I wanted to see "some real Indians," but it was not until after we had promised to return for tea that Mrs. Davidson would let us go. Mr. Livingstone came with Mrs. Bingham and me, and Mr. Bingham and Sunny stayed with the Davidsons. Mr. Bingham does not enjoy "wandering around like a party of Cook's tourists."

The largest of the Mission buildings is the school. It would need to be large, for there are nearly a hundred children in attendance.

As "real Indians" the children were rather disappointing. The boys wear smart dark blue uniforms. The girls, too, are all dressed alike, though not to as good advantage as the boys; but the feminine love of adornment finds expression in hair-ribbons of every colour of the rainbow and a few never seen in any rainbow. The girls are not at all pretty, but they have very sweet voices, and a half-shy manner that is altogether charming. All the children go to school half of each day. During the other half-day the boys are taught carpentering and farming, and the girls learn to cook and sew and "keep house" generally. They all seemed to be as healthy and happy as children could well be.

A deaconess with a sanctimonious way of talking, and an unsanctimonious way of looking at Mr. Livingstone, showed us the school. I detest goody-goody people. She is young and not by any means plain, and I suppose her enthusiasm to be of some use to suffering humanity is beginning to grow cold. But I really do not think that she should waste her arts on Mr. Livingstone; he is scarcely the sort of man to be taken in by the purring type of women. Of course one never knows; he may like to be purred over. I was rather glad to get away from her; she rubbed me the wrong way until I felt like contradicting everything she said, even if she expressed what had been my own opinion a moment before.

Once outside again we walked around the gardens and looked at the outside of the other buildings, they, of course, being closed for the day.

And then we made two calls.

The first celebrity to whom I paid my respects was a dear old lady—I use "lady" advisedly—who is called Ellen Prince of Wales. She had another surname once, but upon learning that she was of the same age as the late King Edward, she changed to the more distinguished title. With her son and his wife and children she had come to spend the week-end at the Mission. Their tent was pitched just outside the school fence.

Ellen and Mrs. Bingham are fast friends, so I had little to do but listen to them and keep the dogs from carrying me off bodily. Like all self-respecting Indians, Ellen's son travels with a retinue of dogs of all ages and sizes. I counted nine and then gave up—of course some of them may have been visitors.

(To be continued)

Headaches Gone

Perhaps you can imagine what this means to one who had suffered terribly with headaches for ten years.

Read about it in this latter.

Mrs. Tena A. Smith, Country Harbor Cross Roads, N. S., writes:

"I feel that if anyone can recommend Dr. Chase's medicines I certainly can. I suffered for ten years from severe headaches, and although I took all kinds of headache powders they just relieved me at the time. I became very nervous and run-down, and everything seemed to trouble me. I have taken eighteen boxes of Dr. Chase's Nerve Food and it has made an entirely new person of me. I felt that I could not have lived without it. I do not have one headache now for every hundred I used to have, and my nerves are good and strong. I just weighed 109 pounds when I began using Dr. Chase's Nerve Food, and now I weigh 121. Knowing what this treatment has done for me, I cannot too highly recommend it to others."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Alberta Coal Production

Coal production in the Drumheller fields has mounted to 6,825 tons daily and will shortly be increased to between 8,000 and 9,000 tons. All the coal camps in Alberta and Eastern British Columbia are now working, and much of the product is being shipped to Saskatchewan and Manitoba. It is expected ample coal will be mined to meet all the requirements of Western Canada.

Keep Minard's Liniment in the house

Keep Them Growing

Children who are over-thin, listless or delicate, should take

Scott's Emulsion

regularly every day as an aid to growth and sturdiness. *Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age.*

Scott & Bowne, Toronto, Ont. 20-06

Divided By Earthquakes

"How is the earth divided?" asked the teacher of the class.

"By earthquakes," replied one boy promptly; and the teacher passed on quickly to another scholar.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Eclectric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Alberta Coal for Quebec

The longest distance that Alberta coal has been shipped was recorded at Edmonton when a local colliery company forwarded a carload of egg coal to Levis, Quebec.

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Women seldom mean the pleasant things they say to other women or the unpleasant things they say about men.

Livestock Receipts At The Leading Markets

Heavy Increase Shown In Western Shipments of Livestock

According to the Dominion Livestock Branch weekly report, some of the principal livestock markets of the Dominion show considerable decreases in cattle receipts from the first of the year to early in September, as compared with the receipts during the same period of last year. The important yards at St. Boniface, Manitoba, however, is reported as showing heavy increases, the numbers marketed during the present year to date as compared with last year being greater by 7,000 head, when compared with offerings of the same period of 1921. The increases in cattle marketings in the western provinces are duplicated by the calf, sheep and hog marketings and more than offset any decreases in marketings in the eastern provinces. The result is that the combined receipts at all yards in the Dominion are in every class in excess of those of the same period of last year. The Toronto and Montreal markets are behind in cattle receipts, Montreal is off in calves and Toronto in sheep, but the combined receipts to September 7th at Toronto, Montreal, Winnipeg, Calgary and Edmonton, as compared with the receipts of the same period last year are: 451,597 cattle, against 377,620; 156,476 calves, against 138,200; 510,953 hogs, against 403,777; and 253,467 sheep, against 239,461.

Top prices on September 14th show as 25c to 75c per hundredweight lower on cattle than on the same date of 1921, excepting at Calgary where the market appeared to be 25c stronger. Calves showed a relatively sharp decline. Hogs were higher at Toronto and Montreal but lower at Winnipeg, Calgary and Edmonton. The prices on choice sheep and lambs were higher at all markets excepting Winnipeg, where the quotations for lambs were on a somewhat weak basis.

Honey Production in Manitoba

Within the past two years Manitoba has developed practically a new industry in beekeeping, which this year will bring to the province a revenue of $400,000, according to the provincial apiarist Floyd. Next year, declares this official, if the present development continues, this figure will be doubled. Approximately 1,000 beekeepers in Manitoba have produced 2,000,000 pounds of honey this year.

Automobile Export Trade

About thirty-four per cent. of the automobiles now being used in India are made in Canada, according to a report from H. A. Chisholm. Owing to the British preferential tariff Canada is rapidly becoming the centre for the export of motor vehicles, and each year sees new companies from the United States establishing plants in Canada to take care of their export business.

Money Thrown Away!

Specialist charged $13½ a week. $1 worth of Zam-Buk Saved Her Leg.

"I had only one week of the 'special' course of bad leg treatment supplied in my own city, and it cost me $13½ in coarse ointments. It was simply money thrown away," writes Mrs. James Elsworth, 902, Selkirk Ave., Winnipeg.

"The ulcers first appeared on my left ankle, and they spread from the top of my foot up to the knee. Laid up in bed helpless with pain, *I was treated by five different doctors.* I persevered with their lotions and ointments until I felt positive there could be no cure.

"Then one day I was brought a sample of Zam-buk. Even this small quantity was decidedly soothing, and it encouraged me to get a supply from the druggist. Perseverance with Zam-buk proved wonderfully and thoroughly effective. The irritation and the pain were speedily subdued; the ulcers were thoroughly cleansed of poisonous matter and the leg permanently healed."

Zam-buk, the magic herbal balm, is equally good for eczema, ringworm, poisoned wounds, pimples, boils, abscesses, piles, cuts, burns, scalds and all skin injuries. 50c. all dealers.

Decrease in Debt of Dominion

A further decrease in the net debt of Canada amounting to almost five million dollars, is shown in the statement for August issued by the Finance Department. The net debt August 31 was $2,387,676,265, as compared with $2,392,542,628, at the end of July.

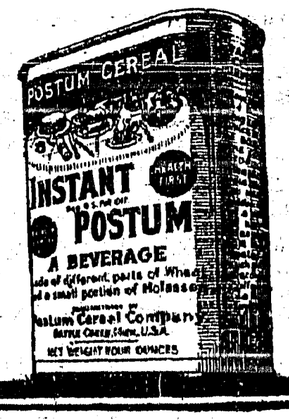
PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gas, Indigestion or Sour Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for a few cents.

London's women police cost the city $150,000 a year, although they have no real authority to make arrests.

Make Bondage a Thing of the Past!



EVERY man or woman who has come to depend upon the morning cup of tea or coffee is a slave to the use of Caffeine.

Caffeine, the irritant in tea and coffee, often robs the system of the joy of living—the priceless blessing of bounding, spontaneous, *natural* health.

It is easy to snap the bonds and feel the surge of rich, red blood through your veins and arteries. Thousands of sufferers from the effects of caffeine have found quick and permanent relief in Instant Postum—the healthful cereal beverage made from roasted wheat.

Start TODAY. You'll find the flavor and aroma both delightful and satisfying.

Sold by grocers everywhere!

Instant Postum FOR HEALTH

"There's a Reason"

OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 94% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities, and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

WORLD HAPPENINGS BRIEFLY TOLD

The Government of India has removed all restrictions on the export of wheat and other grains which have been enforced since 1915.

On Oct. 3 the Parliament at Dublin passed by a large majority the clause of the new Irish constitution containing the oath of allegiance.

All possible co-operation will be given by the Provincial Government in the settling of prospective Dutch farmers in Alberta.

Members on the Vancouver Trades and Labor Council unanimously passed a resolution calling upon the Trades and Labor Congress of Canada to adopt an attitude of opposition to war.

The Cabinet has authorized the Italian delegation to the Geneva conference to accept the proposal before the League of Nations regarding a loan to Austria, this signifying Italy's participation in the loan.

Hon. Charles Murphy, Postmaster-General, received the first parcel sent C.O.D. by the service inaugurated recently. It was a large basket of roses, the gift of the conference of Dominion Postal Officials. The carrier, in delivering the parcel, gravely collected 7 cents from Mr. Murphy to cover the presumed cost.

BEAUTY OF THE SKIN

is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample free if you mention this paper.

Dr. Chase's Ointment

Canada-U.S. Treaty Ready

Provides for Control of Lake of the Woods Levels

The proposed treaty between the United States and Canada providing for control of the levels of the Lake of the Woods will in all probability be widened to include Rainy River and Rainy Lake, as a result of the round table conference between representatives of the interested groups held at Ottawa in the Prime Minister's office recently. The conference has been adjourned until November 15, when it is hoped final arrangements for settlement of the difficulties will be made.

At the conclusion of the conference the Prime Minister intimated that a tentative treaty had been drafted, which he thought would satisfy all those interested.

THAT DRY COUGH IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the healing soothing vapor of Catarrhozone. Its action is magical, every congested spot is healed, irritation is soothered away, phlegm and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappear. Catarrhozone is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months treatment. Prepared by the Catarrhozone Co., Montreal.

315,000 Visitors Saw The Passion Play

Some 315,000 visitors witnessed the Passion Play this season. The gross receipts of the play itself were some 20,000,000 marks, the sale of books and souvenirs netting another 4,000,000 marks. In addition, other millions were spent in the village shops and restaurants.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Dairy Products From Canada to Britain

Canada Exported 1,646 Tons of Butter and 58,674 Tons of Cheese

Statistics published in the News Letter of the Dominion Dairy and Cold Storage Branch show that Canada exported to Britain during the year ending June 30th last, 1,646 tons of butter and 58,674 tons of cheese. Exports of butter to the Mother Country from Australia, New Zealand, Denmark and the Argentine all exceed Canada's exports in quantity, but New Zealand alone exceeds our exports in cheese. In the month of July, this year, Canada's exports of butter to the United Kingdom were 44,964 long hundredweights compared with 2,347 hundredweights in the corresponding month last year and 907 hundredweight the year before. The export of cheese fell off considerably, being 139,868 hundredweight compared with 214,568 hundredweight in July last year.

Trusting to Luck

Reports Show Motorists Are Careless at Grade Crossings

Railroad companies of the United States made observations at 300 unprotected grade crossing on July 15 and 16. There were more than 306,000 automobiles passed over these crossings and the observers reported that 156,607 drivers failed to look in either direction. Most of them, however, slowed down to less than twenty miles, a proportion, looked in one direction, but not in the other, and a few, a very few, stopped before crossing the tracks. There are still many motorists who trust to luck.

A MOTHER'S DUTY TO HER DAUGHTER

Health Must be Guarded as She Comes to Womanhood

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give her girl the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills. No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W. H. McIntyre, Gananoque, Ont., tells what these pills have done for both herself and her daughters. She says:—"I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of girls of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. Whenever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Marketing Education

University of Saskatchewan Students To Write a Thesis on Marketing

Mr. W. Waldron, Acting Commissioner of Co-operation and Markets, is pleased to learn from Professor Swanson, Professor of Economics at the University of Saskatchewan, that a part of the course for his students is to be the writing of a thesis on marketing, the major part of which is to be devoted to co-operative marketing. Marketing education, in two words, forms one of the main lines of activity of the Co-operation and Markets Branch, so that anything which tends to the increase of knowledge along these lines must make for the great ultimate advantage of the producers.

Dye Blouse Or Baby's Coat In Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless color into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Hen Establishes World Record

A world record for egg-laying has been established at Ottawa. At least this is the belief of Experimental Farm officials. Up to September 20 last, a White Leghorn had laid 107 eggs in as many days or consecutively every day for 15 weeks.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions.

All Druggists. Circulars free.
F. J. Cheney & Co., Toledo, Ohio.

Water Relieves Blood Pressure

Blood pressure being one of our most popular ailments, it should assist the "drink-water" campaigns of some of our water companies to have it known that the experiments of two London physicians, Orr and Innes, as described in the British Journal of Experimental Pathology, seem to demonstrate that blood pressure can easily be relieved by copious draughts of water.

Ask for Minard's and take no other

The "City of Flowers"

In Florence, Italy, the famous orris-root perfumes are produced from the roots of the large purple iris or flag which is grown extensively throughout the surrounding districts.

Externally or Internally, it is Good.—When applied externally by brisk rubbing, Dr. Thomas' Eclectric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

No Cause for Alarm

The minister was visiting the MacDonalds and was asked to stay to dinner. The party sat down, and before beginning his meal the minister bowed his head over his plate to say grace.

Master Eric, seeing this remarked: "It's all right, parson; the meat's quite fresh."

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Weston the Walker

Edward Payson Weston, the famous walker, takes a hike between Buffalo and New York. He moves fast and the trip doesn't fatigue him, though he is 84, at which age most old men have to use a cane to totter to the front porch.

Weston's vitality in advanced years illustrates the lasting benefits of sensible living and plenty of exercise in youth and middle age. In 1870, when 32 years old, Weston walked 100 miles in 282 hours.—Buffalo Times.

Minard's Liniment Lumberman's Friend

Says It Made A New Person Of Her

"Since I have been taking Tanlac I not only feel better in every way, but I am gaining weight right along," declared Mrs. Mary Gillette, 141 Third Ave., Calgary, Alberta.

"For two or three years I suffered from a bad case of indigestion and a terribly nervous, run-down condition. I fell off from a hundred and twenty pounds to only a hundred and five, and my nerves were so shattered I often felt like I would go to pieces entirely. I didn't have energy enough hardly to do my housework. I had scarcely any appetite, even the little I ate would not digest properly and I was bothered all the time with gas on my stomach.

"But Tanlac has already made a wonderful improvement in my condition, and I have only taken three bottles so far. I have a splendid appetite, never suffer any more indigestion and that tired, exhausted feeling I used to have is all gone. My nerves have calmed down till I feel almost like a new person and am simply stronger and better in every way. Tanlac is a grand medicine and I cannot recommend it too highly."

Tanlac is sold by all good druggists.

Lions Called Affectionate

Trainers say the lion is the only wild animal that is capable of affection.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, OCT. 20

Imperial Fruit Show

No word to the contrary having been received it would seem quite safe to assert that the shipment of Valley fruit destined for the Imperial Fruit Show at London, England, has by now reached the Englis metropolis, and with arrangements for its display at the Crystal Palace entrusted to H. B. Downs it seems equally certain that the local orchard product in both the competitive and non-competitive classes will be staged to the best possible advantage for the judging which commences next week.

That this year's overseas exhibition effort will give Creston Valley most effective advertising is at once apparent when it is remembered that Creston fruit will be the only British Columbia orchard product in the big British exhibition, and regardless of what prizes may be won Creston is assured of a place in the sun with the thousands of fruit buyers and the many prospective B.C. fruit growers who will throng the big fair building.

For their effort to so auspiciously sustain the reputation of the Valley in this empire wide exhibition effort too much cannot be said of the enterprise of Robert Stark, W. G. Littlejohn and J. W. Hamilton, all of whom are exhibiting in the competitive classes—the two former in both the overseas and British Empire sections.

Between them they will account for well over 100 boxes of show fruit, carefully selected, and packed with the same painstaking effort—and all this done at a season of the year when "time is money" in the truest sense of the term with the man on the ranch.

No matter how successful they may be at prizewinning their intake from that source cannot possibly reimburse them for their time and expense incurred. Their energy thus may well be classed as community effort, and as such it is certainly about the best bit of work of the sort ever attempted, and for the doing of it so well on so large a scale these gentlemen well deserve the community's commendation that has been in good measure accorded them.

Equally worthy to be praised is the concession made on behalf of the whole Imperial fruit show exhibit by the Canadian Pacific Railway in giving such prompt and otherwise highclass express shipping accommodation at freight rates, without which a show of Creston fruit would have been entirely out of the question—and as things have since turned out British Columbia's exhibit at this all important fair would have been conspicuous by its absence.

Full credit for the good turn thus done the Valley would seem to belong to Vice-President Coleman at Winnipeg who was appealed to by President Constable, of the Fruit Growers Union, when all the lesser officials of the C.P.R. had turned an unsympathetic ear to the plea of the Union president for service and rates that would enable the Valley growers to compete at Britain's premier horticultural show.

In view of some criticism of our old friend the C.P.R. it is only right that credit should be given where such distinguished service is so ungrudgingly rendered. Nor is this the first time on which Mr. Coleman has shown practical interest in Creston by conceding smaller but none the less appreciated favors. Whilst located both at Nelson and Cranbrook less than a dozen years ago Mr. Coleman, doubtless, acquired considerable firsthand information of the possibilities of this section, and this latest incident would indicate that Creston is still green in his memory, particularly when his attention is so efficiently called to the Valley and its aspirations by such a persuasive old time acquaintance as Union Manager Constable.

Were it needful many other kindly things might be written in connection with the Imperial fruit show, not the least of which would be an extended reference to the satisfaction that comes to all from this splendid exhibition of Creston's determination to let the world know that the Valley is in the fruit business—and at a time when one might least expect such a progressive manifestation of faith in the community and its foremost industry.

Mixed farming parlance has it that when everyone is going out of hogs is the best time to go in for them. This observation works out just the same with exhibition effort; when the rest of B.C. is quitting such excellent publicity work it is certainly a pleasure to see Creston Valley going after it stronger than ever. It pays to advertise.

The Lister Appraisal

Announcement that a couple of representatives of the Dominion Soldier Settlement Board have been at Camp Lister making a valuation of the farms in that area on which improvements have been made is about the most satisfactory bit of news that has come from that section in many months.

While no definite information is to hand as to what is back of this move by the S.S.B., it would seem likely that the federal authorities have at last decided to live up to the guarantees given the provincial Land Settlement Board when Camp Lister was started, which were that the S.S.B. would make oans to the soldiers taking up these farms, and in that way the province would get back the money spent in developing the farms so taken up.

Our recollection is that there are some sixty soldier agriculturists at Lister. If the necessary loans to purchase these five dozen places were made the money thus made available to the Land Setttlement Board would come in very handy in financing further development of the area.

Just what the department's policy will be regarding Lister has not yet been disclosed, but the prevalent local idea is that the bulk of the land held should be developed to some extent and sold as improved property. The big demand at present is for the improved place, and in addition to providing the great majority of the prospective buyers with what they want, the development process would provide employment for the soldiers who have already settled on the land and have their places planted to orchard and otherwise producing.

Why These Inspections

The appearance last month of the engineer of a cement pipe company, preceded as was his visit by a call from the manager of the same company a month previous, may or may not indicate that something is about to happen in connection with Arrow Creek irrigation, but when these incidents are considered along with the fact that this same pipe company is just finishing up an irrigation system pipe line at Grand Forks in which the provincial government has invested by way of loan a sum in excess of $100,000, the backers of the local irrigation scheme at least have some justification for their optimism that these are straws which show that the wind may be blowing in a favorable direction.

The landowners within the proposed Arrow Creek district have by a substantial majority in value obtained legal right to have the preliminary engineering work done and cost of installation definitely ascertained, and after a succession of dry summers are not likely to long hesitate at going ahead if cost is not absolutely excessive.

With all the outward and visible signs indicating that a very definite move is about to be made in the project townspeople should again wake up to the fact that the Arrow Creek undertaking offers a domestic water supply for the town as well as an electric light and power proposition, and that it will be much cheaper to acquire these facilities at the same time the big irrigation system is installed than it will be afterward—or from any other source, possibly.

In at least this respect the townspeople may, or may not, be interested in Arrow Creek, but if so municipilization or some other move that will place the town residents in a position to talk business definitely with the Arrow Creek directors should be got afoot.

Chicken Supper at Canyon

The Ladies' Aid of Canyon City will hold a chicken supper and entertainment on Friday, October 27th. Supper will be served at 7 p.m. prompt and concert to start at 9. Admission to supper and entertainment 75 cents to adults, and 25 cents to children of school age. Children under school age, free. Proceeds in aid of church building.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Christmas in England

A visit to the Old Country is something that a great number of people are giving thought to at this season of the year, and many have already made plans to reach their friends in time for the Christmas and New Year Season.

Canadian Pacific Steamships are deservedly popular for this trip and to give extra special accommodation for those who are going overseas this season, the Canadian Pacific Railway has arranged for a special train to connect with the S.S. "Montcalm" sailing St. John, Tuesday, December 12th. Through tourist sleepers will be operated from Edmonton at 10 p.m. Thursday, December 7th and from Calgary at 1.35 a.m. Friday December 8th, making connection with this special train leaving Winnipeg 9.20 a.m. December 9th.

Special tourist sleepers from Calgary, Edmonton, via regular trains will also be operated in connection with the sailings from St. John of the S.S. "Montrose" on December 1st. S.S. "Victorion" December 7th. S.S. "Melita" December 9th. S.S. "Metagama" December 15th.

All these tourist sleepers run right to the ship's side no changes, no inconvenience. They are the gang plank to the steamer.

Two Kinds of Women

A story that bristles with thrilling incident and glows with the warmth of romance gives Pauline Frederick a splendid vehicle in "Two Kinds of Women," showing at the Grand, Saturday, Oct. 21st.

"Two Kinds of Women," based upon Jackson Gregory's novel, "Judith of Blue Lake Ranch," is a Western story and one of the most engrossing that ever flowed from the facile pen of Mr. Gregory, who has to his credit a long list of notable stories laid in Western settings.

"Two Kinds of Women" introduces Miss Frederick in a role that fits her as snugly as a rubber cap fits the head of a bather. She is the verile, efficient wholesome type without losing a bit of the feminine charm that makes her beloved of motion picture audiences the world over. She finds, for example, that the welfare of the big ranch her father has left her is jeopardized by a group of culprits headed by one of the employees, and the plot revolves chiefly about her fight to outwit the gang.

Through the story of advepture that moves swiftly from the outset is woven a romance that does much to heighten the dramatic appeal of this most interesting narrative.

ECZEMA IN RASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching.

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Stares, Blenheim Rd., Galt, Ont.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

World Happenings Briefly Told

Rats are doing damage to Richmond dykes on Lulu Islands, B.C., by working under and through them.

According to information received in Calgary, a small flow of oil has been struck at Walsh, Alta., just east of Medicine Hat.

The loss of a nickel cost the life of 13-year-old John Martin, of New York. He opened a subway grating to recover it, and fell to the tracks underneath in the path of a train.

Information gathered by the Northwest Grain Dealers' Association was that farmers in the three western provinces have 31 million bushels of wheat left to market.

Jerome Napoleon Bonaparte, great-great-nephew of the famous Napoleon, declared in New York that he was not giving serious consideration to an invitation to ascend the throne of Albania.

Announcement was made by the Provincial Government that Colin Groff, a member of the staff of the Calgary Albertan, has been appointed publicity commissioner for the province of Alberta in succession to the late James McCaig, whose death took place some time ago.

Word was received by the Canadian Government Merchant Marine of the arrival at Novoroossk, Russia, of the steamer Canadian Seigneur with the first consignment of the 500 tank cars, manufactured for the Russian Soviet Government by the Canadian Car and Foundry Company, of Montreal.

A well-defined earthquake was registered at Gonzales Observatory, Victoria, on Dec. 18th, commencing at 7.40 a.m., the maximum vibration being registered at 7.51 a.m., and the vibration lasting two hours. The distance is estimated at 1,200 miles, or in Northern Mexico.

A Whistling Mouse

Only One Known That Can Mimic Birds

The town of Ocie in Ozark County, Mo., makes a bid for fame with a whistling mouse, the first of its kind.

Whether this mouse has been imbibing too freely of Ozark "corn licker," or whether it thinks it is a mocking bird, is not clear.

It was discovered in the home of W. H. Hampton, a merchant at Ocie, and apparently had wandered in from the woods for the winter.

The mouse can mimic a quail, mocking bird or any other bird, according to the Rev. Walter E. Fish, missionary for the American Sunday School Union of Springfield, who vouches for the authenticity of the story. It keeps up a continuous whistle and chatter all day and night, ceasing only when it hears strange voices in the building. Fortunately, the Hamptons are not superstitious, and attach no significance to the mouse's performance.

POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to. If her cheeks are hollow and pale, if she is tired and nervous, her system needs a good regulating with Dr. Hamilton's Pills a real medicine that is noted for restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills tone up the entire system. Complexion quickly becomes rosy, spirits rise, strength increases daily. Health, vigor and good looks will soon return to a faded woman, if she uses Dr. Hamilton's Pills. Sold everywhere, 25c per box, or from the Catarrhozone Co., Montreal.

Crerar Re-Elected President

United Grain Growers Elect New Officers for the Year

Hon. T. A. Crerar was re-elected president of the United Grain Growers, Limited, at a meeting of directors held at Winnipeg. C. Rice Jones was re-elected first vice-president and general manager. J. J. McLellan, Purple Springs, Alta., F. J. Collyer, Welwyn, Sask., and John F. Reid, Arcadia, Sask., were elected to the executive. John Kennedy, of Winnipeg, was elected second vice-president.

E. J. Fream, Calgary, and F. M. Black, Winnipeg, were re-appointed secretary and treasurer respectively.

Dyed Her Sweater And Silk Stockings

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

New Idea

The waiter had been very slow in serving dinner, and the diner was exasperated to the point of sarcasm.

"Now, waiter," he said, "bring me a coffee and liqueur, and while you're away you might send me a postcard now and then."

A "balanced diet" may sound confusing to many people

The facts, as explained here, are simple.

The secret of a "balanced diet" is to have food containing all the elements needed for proper nutrition. These elements are protein, to nourish the tissues; starch and sugar to furnish energy; fat to supply heat; and mineral salts to provide the material necessary for building nerves, brain, and tooth and bone structure.

Grape-Nuts, the nourishing cereal made of whole wheat flour and malted barley, served with cream or milk, is a complete food for young and old alike.

Go to your grocer today and get a package of Grape-Nuts. Eat it with milk or cream for breakfast; or with stewed fruit, jelly or jam, as a delicious dessert for lunch or dinner.

Every member of the family will relish this palatable and nourishing food—

Grape-Nuts—the Body Builder

RHEUMATIC ACHES QUICKLY RELIEVED

THE racking, agonizing rheumatic ache is quickly relieved by an application of Sloan's Liniment.

For forty years, folks all over the world have found Sloan's to be the natural enemy of pains and aches.

It penetrates without rubbing.

You can just tell by its healthy, stimulating odor that it is going to do you good.

Keep Sloan's handy for neuralgia, sciatica, lame back, stiff joints, sore muscles, strains and sprains.

At all druggists—35c, 70c, $1.40.

Made in Canada.

Sloan's Liniment (Pain's enemy)

The Newspapers Win

Results Show There Is No Better Advertising Medium

Value of newspapers for advertising has once more been demonstrated by an extensive survey made by United States army officers of all means of publicity used last summer to secure candidates for the citizens' military training camp at Plattsburg. Each candidate who attended the camp was asked how he learned of the camp and the responses from these answers have been carefully checked. In the drive for candidates every possible means of publicity was used, including show cards, addresses in public gatherings and personal solicitation. The survey of results of these means of publicity shows that newspapers informed nearly 50 per cent. of all candidates.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Natagan River, Que., writes:—"I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Attack of Liver Complaint

The telephone rang and the bookkeeper answered it, as the Boston Transcript tells it. "Yes, madam, this is Wilkins' market." "This is Mrs. Blank. I want you to know that the liver you sent me is most unsatisfactory. It is not calf's liver at all; calf's liver is tender and—". "Just a moment, madam, and I'll call the proprietor." "What is it?" Wilkins asked. The bookkeeper surrendered the phone. "Mrs. Blank," he said, "Liver complaint."

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

German Water Flare Found In England

Picked Up In Woods And Sent To Air Ministry

A German water flare has been found in Mar Forest, Deeside. Flares of this type were dropped by Zeppelins to enable the commander to ascertain whether he was flying over land or water.

This particular flare, which was found by a ghillie and handed by him to the Prince of Wales, who sent it on to the air ministry, was no doubt dropped by the ill-fated Zeppelin L-20, which left Germany with nine other airships on the mornings of May 2, 1916. The L-20 crossed the coast of Scotland at Lunan Bay and flew on past Montrose, where it turned inland, and flew past Brechin over the Forest of Mar and within 15 miles of Balmoral. It crossed the Monadhliath Mountains and the Caledonian Canal. It then altered its course and flew east by north and dropped four bombs in the north of Aberdeenshire, they re-crossed the coast near Cruden Bay.

Over the North Sea the L-20 met heavy winds and was driven against high land at Handhaes in Norway, on the morning of May 3. The airship was badly injured and fell into a fjord and sank. Her commander was Captain-Lieutenant Stabert.

Minard's Liniment for Colds, etc.

Lace and Chiffon Grace the Tea Hour

By Marie Belmont

The tea-time hour can find no more charmingly feminine garment than this creation of rose chiffon and gray lace, trimmed in wide bands of Australian opossum. The warm rose tone of the chiffon gives just enough color to the neutral gray, while the flying side panels add their finishing touch of smartness. Speaking of panels, it seems that the straight-line frock will never again relinquish these added bits of extra length, now they have annexed them. Indefinite hemlines, too, remain at the height of the mode, as bespoken in the bit of gray lace which finishes the rose chiffon skirt. For the wearer who desires striking effects rather than softer tones, the same gown is suggested in black lace over white satin, with monkey fur fringe instead of the wide fur bands.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Eclectric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflamamtion. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Arabian Vinegar Best

The vinegar made by the Arabs is said to be far superior to any other.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Bolshevians Eat Clay Sauce

The Bolshevians prepare from clay a sauce that adds relish to their potatoes.

You're Constipated! Take "Cascarets" For Liver, Bowels

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver and delayed, fermenting food in the bowels. Cascarets work while you sleep. They immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels. Get a 10-cent box now and let "Cascarets" straighten you out by morning.

Mother, Quick! Give California Fig Syrup For Child's Bowels

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N.S., Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Dill, now of Windsor, N.S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care.

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Swiss Have Joint Dairies

Switzerland has many co-operative cattle associations, besides joint stock dairies in every village.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Butterfly Farms in England

In England are several farms devoted entirely to the cultivation of butterflies and moths.

Minard's Liniment for Garget in Cows

Before calling a man a liar, be sure you are right—then don't.

RAW FUR COLLECTORS AND TRAPPERS get highest prices for your furs. Ship them to me. I have more than satisfied others. You too are sure of best returns. Write for tags and price list. Reuben Wolff, 114 West 30th St., New York.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callouses, without soreness or irritation.

165

1922 Forest Fires Show Big Increase

Although the number of forest fires reported in the Cranbrook forestry district this year was at least 50 per cent. in excess of the number encountered in 1921, the loss to property and standing timber is 60 per cent. less than a year ago, according to Norman Moore, district forester, who is here on an official visit this week.

The records show that for all this season a total of 235 fires were reported, as compared with 144 in 1921, and but 130 in 1920, and Mr. Moore gives full credit for this year's excellent showing to the splendid co-operation of the citizens as well as a more efficient forestry organization. In addition to the lighter property loss, the district forester observes that 60 per cent. of the fires were handled without loss or cost to the department, with the Fernie district making the best showing in this regard.

In Creston Valley there were what might be called four large fires to handle, and at one time as high as 120 men were engaged at fire control work. This year the fire hazrad in the Creston Valley was the greatest in the entire Cranbrook forestry district, and under all the circumstances Mr. Moore is exceptionally well pleased with the season's work of fire patrol James Jory and his assistants. The loss of timber in the Valley has not been great, while the property loss is nil.

The most serious fire of the season was at Gold Creek, not far from Cranbrook, where a force of 150 men was at one time on the fire fighting job.

Due to the heavy fire patrol effort very little has been accomplished at trail building, but three new camp sites were put in—all of them on the Banff-Windermere road, near Invermere.

Mr. Moore states that there has been quite a healthy demand all season at Chicago and other eastern U.S. points for B.C. larch and fir, at prices superior to those offered at Canadian eastern centres and that the call has also been heavy for yellow pine though poles that were moving in considerable quantities earlier in the year are not now so prominent in the season's shipping.

He states that of the 50 sawmill plants in East Kootenay at least thirty ran for part of the season and that possibly fifteen are still in operation, with the year's lumber cut due to show a 35 per cent. gain over 1921. The outlook is that logging will be much heavier than last winter provided men are available—at present bush workers are decidedly scarce, and will be until after threshing operations on the prairie are completed.

The Presbyterian Ladies' Aid announce their annual thanksgiving dinner for Friday evening, Nov. 3rd, in Speers' Hall, from 6 to 8 p.m. Tickets 50c.

RED ROSE TEA "is good tea" 20

Bovril helps you to "turn the corner"

Our Greatest Asset

The greatest asset of any country is not its accumulated gold, nor its areas of agricultural lands; not vast mineral wealth nor great manufacturing industries; neither is the greatest of all assets to be found in military or naval power, nor even in great universities of learning and strong, influential churches.

The greatest asset of a home is not the dwelling place no matter how fine it may be; it is not a comfortable Bank account which provides a guarantee against want and assures comfort in declining years.

No, the greatest asset of a home, and of the nation which is only as strong as the homes of which it is composed, are the children. Take away the children and the home soon disappears and the nation dies.

Few, if any, people will deny the truth of these statements if faced with the necessity of making answer to them, but how many thousands and millions by their daily actions practically deny their belief in these truths?

The world regards war with horror and deplores the loss of young men in the best years of their life. The taking of life is accepted by the law as the greatest of criminal offences. Yet in this so-called Christian era, and boasted twentieth century civilization, conditions are calmly accepted, even legalized, which in their effect on the race are more deplorable than war, and worse than murder, which only kills the physical body, while the conditions referred to destroy the intellect, ruin the body, and kill the soul of man.

These thoughts are engendered by reading the report of the latest United States census figures which reveal the astounding and alarming fact that approximately 1,000,000 children between the ages of ten and fifteen years, out of a total of twelve million children of those ages, are engaged in work. This is child labor with a vengeance in one of the world's most highly civilized and prosperous countries, and a country which has long boasted of its great national public school system.

What does it mean to the future of the United States, and of the world, to have one out of every twelve of its children between the ages of ten and fifteen engaged in gainful occupations instead of being in school? One aroused United States paper, which admits that statistical figures are cold, uninteresting things, seeks to present the matter in another light. It says:

"One million under-priviliged children, destined to grow to be under-priviliged men and women, to recruit the ranks of the half-witted, the gunmen, the incompetent and the criminal.

"One million voters less capable of exercising the great function of the ballot because of poor equipment for reasoning power and decision.

"One million dwarfed intellects to be the easy prey of prejudice, class consciousness and hatreds. Under-sized minds that will fatten the purses of the crafty and the conscienceless.

"One million prospects for the I.W.W.'s, the Bolsheviki, and the other exponents of half-baked theories of government.

"One million people whose darkened minds will inevitably pull down the standard of art, music, drama, and life in all its ramifications.

"One million little folk, at heart innocent of all these and other dire portents for their country, with a real and just grievance against the one hundred million who permit this immeasurable folly of child labor to continue."

And this paper might have added: "One million prospective fathers and mothers of the next generation weakened, not alone in mind, but in body for the discharge of their great God-given duties and responsibilities."

Fortunately, conditions in Canada are vastly better and in these Western Provinces compulsory school attendance laws, rigidly enforced, operate to largely remove this child labor menace. Nevertheless, cases are by no means lacking where parents strive on one pretext or another to keep their children from school to do work about the farm or home. These short-sighted parents seem to think the immediate and rather puny labor of their children is of greater value than their permanent equipment for life's work and future citizenship.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

BAYER

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. Warfare is now known that aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

France Needs Wheat

This Year's Crop Is Insufficient for Annual Requirements

France's wheat crop for 1922 is more than one-fourth short of last year's production and nearly one-third under the customary annual requirements, according to statistics issued by the Ministry of Agriculture. The rye crop is also insufficient, but oats and barley are more abundant than last year.

The wheat yield is estimated at 64,000,000 quintals, as compared with 88,000,000 last year and the country's normal requirements of 94,000,000. This is due to a reduction of 600,000 acres in the area planted, the small yield per acre and bad weather.

Preliminary purchases abroad already amount to 7,000,000 quintals. These were bought in Canada and the United States at less than the prices prevailing in Paris. For the last month, France has been living on her old reserves because of the late harvest, so actually there is only eleven months to cover. It is estimated, therefore, that the shortage would have been only 24,000,000 quintals and as 7,000,000 were bought abroad, there remains needed 17,000,000 quintals.

But no difficulty is expressed as the wheat exporting countries such as Canada are believed to have a surplus of 50,000,000 quintals above the needs of Europe, where the average shortage is 15 per cent.

If You Have Neuralgia Rub On "Nerviline"

Apply Nerviline to the sore spot. Notice the warm glow that spreads depeer and wider as Nerviline's soothing influence is carried deep into the sore tissue. How quickly the pain is eased. In a little while you have forgotten it, the soreness has actually gone. For Neuralgia, Sciatica, Rheumatism, Nerviline is a boon. Large 35c bottles. Sold everywhere.

Where Learning Is Valued

It is the boast of the Winnipeg Board of Trade that there are more University students in Manitoba, in proportion to population, than in any other province of Quebec, or any state in the United States.

A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Aulaines, Que., writes: "I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Replenishing Forests

Benedictine Monks Plant Tree For Each One Cut

Benedictine monks for 910 years have been cultivating one of the world's finest forests. It surrounds an ancient hermitage, about fifty miles southeast of Florence, Italy. A report in an American forestry magazine says that this forest is as fine as it was nearly 1,000 years ago, though lumber has been taken out of it in great quantities. The monks plant new trees as fast as they cut down old ones. Our forests are rapidly disappearing. Unless we want a treeless America we, too, will have to plant a tree for each one logged. Forest destruction is our greatest waste.—Aurora Beacon-News.

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

OLD CHUM

The Tobacco of Quality

Civilization

What was once the lower class is gradually absorbing and identifying itself with what was once the middle class. Ultimately, as social conditions improve still further, it will proceed to identify itself with the aristocracy. There will no longer be blue blood or green blood or yellow. The only blood that will run in our veins will be the blood of a free and competent citizen of a great democracy. We shall, in other words, have arrived at the exact position reached by Athens twenty-five hundred years ago.—London Daily Express.

Some people mind their own business only when they have nothing else to do.

MINARD'S "KING OF PAIN" LINIMENT

YARMOUTH, N.S.

Fishermen and Campers Quick Relief

PUT A BOTTLE IN YOUR OUTFIT.

AFTER EVERY MEAL

WRIGLEY'S NIPS

This new candy-coated gum delights young and old.

It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

There are the other WRIGLEY friends to choose from, too:

"After Every Meal"

Sir Henry Thornton Appointed New Head Of Canadian National Road

Ottawa.—Major-Gen. Sir Henry Worth Thornton, K.B., general manager of the Great Eastern Railway of England, is the new head of the Canadian National Railways. An order-in-council appointing him and other members of the board, and formally consolidating the Canadian Northern and Grand Trunk lines into the Canadian National Railway System, passed the Cabinet Council and was approved by the acting Governor-General.

Sir Henry was in Ottawa when final arrangements for his appointment were made. He will return almost at once to England to settle up his affairs there, returning to Canada to take over the direction of the National System within about a month.

In introducing Sir Henry to the newspapermen, Premier King pointed out that the act provided that members of the board must not be shareholders in, or connected with companies in any way dealing with the railways in question or selling them supplies. This had been observed, said the Prime Minister, both in regard to the executive board and also in regard to the other members of the board. The Prime Minister also stressed the fact that Sir Henry Thornton would be the man responsible for the administration of the railways. They would be operated without any interference from the Government and must be kept outside of politics altogether.

A contract was signed extending over three years, under which he is to be paid $50,000 per annum. Clauses in the contract, it was stated, give protection to both the Government and the new president and general manager of the railways in the event of either side wishing to terminate the agreement before the end of three years.

The resignations of the existing board of directors of the Grand Trunk System were accepted by the Government and the new board was appointed to administer the joint system. The board consists of the following, in addition to Sir Henry, who is president of the system and chairman of the board of management:

John H. Sinclair, K.C., of New Glasgow, N.S., former member of parliament for Antigonish.

Richard P. Gough, of the firm of Sellers-Gough, Toronto and Montreal.

James Stewart, of Winnipeg, former chairman of the Canada Wheat Board, and now president of the Maple Leaf Milling Company.

Ernest R. Decarry, ex-president of the Montreal civic committee, Montreal.

Frederick G. Dawson, wholesale merchant of Prince Rupert, B.C.

Tom Moore, president of the Canadian Trades and Labor Congress, Ottawa, representing labor.

Graham A. Bell, deputy minister of railways.

Gerald G. Ruel, general managing counsel.

A Divorce Granted

After many years of patient suffering, you can be divorced from corns, you can get rid of them completely by applying Putnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse a substitute and remember "Putnam's" is the only Painless remedy. 25c everywhere.

TIRED AND RUN DOWN

Lydia E. Pinkham's Vegetable Compound Helped Where Other Medicines Failed

Vancouver, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines but nothing did me any real good. While I was living in Washington I was recommended by a friend to take the Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."—Mrs. J. C. Greaves, 771 Hornby St., Vancouver, British Columbia.

Many women keep about their work when it is a great effort because the work must be done. Lydia E. Pinkham's Vegetable Compound has brought relief to thousands of tired housewives by removing the troubles which cause annoying symptoms.

If you are suffering from nervousness, headache and backache, pains in right or left side, tired and run-down feelings, take Lydia E. Pinkham's Vegetable Compound.

Just bear in mind this medicine has been used by women for nearly fifty years. That is a long record of service, and stands upon the foundation of merit.

BANDITS ADD MURDER TO LIST OF CRIMES

MAKE GETAWAY AFTER RUNNING GUN FIGHT WITH POLICE PATROL

Regina—Bandits operating in Southern Saskatchewan added murder and two robberies to the long list of crimes now placed to their credit, when Paul Mattoff, an employee of the Regina Wine and Spirits Company, was shot and instantly killed in the C.P.R. station at Bienfait.

While his companions cowered under the menace of threatening guns, $6,000 in cash was removed from the pockets of the dead man. The murderers fled eastward in a big Cadillac car. On the road between Hirsch and Frobisher they overtook and passed the police patrol car. While the cars passed, shots were rained on the bandits from rifles and revolvers carried by the police patrol, and the running gun fight was continued until the robbers were out of range.

Within a short time the same crew is believed to have held up and robbed a rum running truck at Roche Percee, on the international boundary. It is the same liquor, it is claimed, for which Mattoff was accepting payment when killed.

THRACE HANDED OVER TO TURKEY

SUCCESSFUL ISSUE OF CONFERENCE IS LOOKED FOR

London.—The Allies have agreed to return Thrace to the Turkish army in 30 days.

News received that M. Franklin-Bouillon, the French envoy, and Hamid Bey, the Nationalist representative, has decided to return to Constantinople from Mudania immediately, strengthened the hope of the successful issue of the conference.

The delegates agreed to establish a definite line of demarcation between the British and Kemalist forces in the Chanak zone. The space between the opposing forces will be sufficient to place them out of rifle shot, thus lessening the danger of immediate conflict.

A message from Athens says that the Greek Government has ordered general mobilization of the classes of 1917 and 1918. It has also cancelled all leave.

MAY ADOPT POSTAL AREAS

PLAN FOR DIVISION OF CANADIAN CITIES INTO ZONES TO EXPEDITE SERVICE

Ottawa.—Plans for the division of the larger Canadian cities into postal areas, following the system in vogue in the larger European cities, were submitted at the closing sitting of the conference of Dominion postal officials.

E. J. Underwood, chief of the post office division, postal service branch, Ottawa, who submitted the scheme, argued that by the adoption of postal areas, delivery of mail would be expedited.

Postal officials from Calgary, Vancouver, Winnipeg, London and Hamilton did not think division of their cities into postal areas could be undertaken with advantage at the present time. In the western cities, particularly where development was rapid, it was argued, maps would quickly be out of date and have to be revised.

Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and purgings occur either simultaneously or alternately, and are usually sudden and very violent, and the matter ejected from the stomach has a bilious appearance and a nasty bitter taste.

On the first symptoms appearing, Dr. Fowler's Extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious.

Mrs. Isaac Smith, Campbellton, N.B., writes:—"We have been using Dr. Fowler's Extract of Wild Strawberry for cholera. My husband and I were pretty nearly dead with it until we started to use your medicine, and thanks to it, we have found great relief, and are recommending it to all our friends."

77 years' reputation stands behind "Dr. Fowler's," therefore you are not experimenting with some new and untried remedy when you get it.

Price, 50c bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Prefers Sea to Politics

Paris.—Admiral Coundouriotis has refused the Greek premiership according to a Havas despatch from Athens. When approached in regard to the matter the former minister of marine replied that he preferred to remain in command of the navy.

Turks Withdrawing

London.—A special dispatch from Angora says that orders have been issued to the Turkish military commanders to evacuate the neutral zones in Asia Minor immediately. The Turkish cavalry has already begun to withdraw from the Dardanelles section.

Destructive Forest Fires Cause Immense Loss In Northern Ontario

Disastrous Floods In Bengal

Thousands Are Reported Drowned in Affected Area

London.—A terrible loss of life has been taken by the recent flood in Bengal, says a Reuter cable from Calcutta.

It is impossible to estimate the extent of the disaster at present, but from the fact that an important junction point was for days inundated by five to ten feet of water while crowded with refugees from surrounding villages, which had been completely destroyed, it seems probable that in the whole affected area several thousand people have been drowned.

An outbreak of cholera is adding to the difficulties of the situation.

"Cascarets" 10c

For Sluggish Liver or Constipated Bowels

Clean your bowels! Feel fine!. When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two Cascarets to relieve constipation. No griping—nicest laxative-cathartic on earth for grown-ups and children. 10c a box. Taste like candy.

Bar Women From Pulpit

Will Not Be Permitted to Become Pastors of Methodist Churches

Toronto.—Once again the women have lost out in their efforts to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee of the general conference decided against recommending their admission to the pulpits of the Methodist Church.

There were three women on the committee, and they put up a vigorous fight to allow the women to become pastors.

One of the arguments against women becoming ministers advanced before the committee was that it would tend to "rob the cradle."

Give your local merchants a chance. Buy at home.

Toronto.—Haileybury, North Cobalt and several smaller places north of these points have been wiped out by forest fires, which have reached great proportions. Great destruction has been caused throughout the entire country, according to advices received from Cobalt.

It is understood that Heaslit and Elk Lake, two small mining towns, are among the places destroyed by the flames.

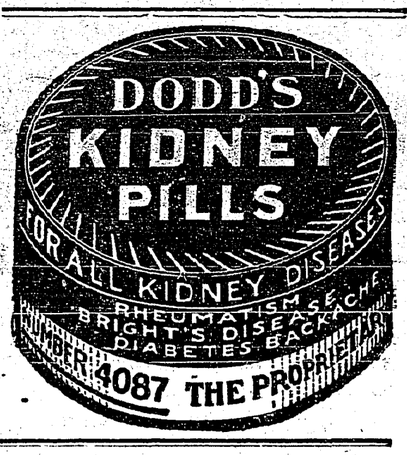
As far as can be learned by telegraph and telephone communication with points within reach of the fire zone, the fires sprang up in the bush within a radius of 60 miles, between Cobalt and Dane, which is 160 miles north of North Bay, and were joined by a strong wind at a point half way between these two towns. Within the territory threatened with extinction are the thriving towns of Cobalt, Haileybury, Englehardt, New Liskeard, Charlton, Uno Park, Earlton Junction and Elk Lake.

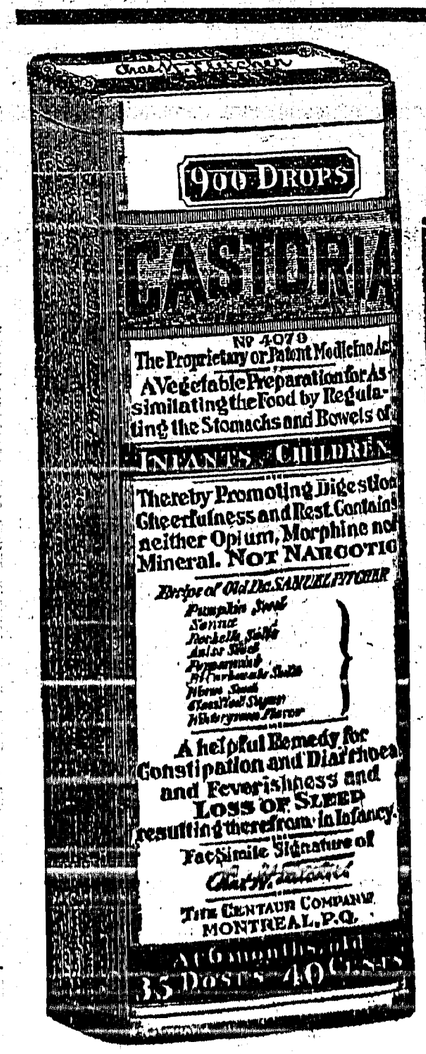
Haileybury has a population of about 4,000; New Liskeard has about 2,000; Englehadrt about 1,500; and Elk Lake about 1,000. These populations, with those of the smaller districts affected, are estimated to comprise a total of 25,000 persons. It is estimated that there is a population of 75,000 north of North Bay.

Over 5,000 people have been rendered homeless. The loss of life is considerable and the property loss will obviously run into many millions of dollars.

Find Lost Document

London.—The Athens correspondent of the Times says that Constantine's act of abdication has been found in the possession of his aide, Col. Nicolaide. It will be published immediately.





Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Strictly fresh eggs are rather a scarce commodity at present and as a consequence the price of hen fruit has risen to 45 cents a dozen. Dairy butter has also advanced to 40 cents a pound.

Blue prints of all the lands to be offered at the sale of of Government lands at Creston on Monday can be seen at the postoffice, at the Review, or provincial police McLaren at the courthouse.

Mrs. Joe Atkinson got back from Cranbrook on Sunday where she had been called to be with her brother who a few days previous had undergone an operation for appendicitus at St. Eugene hospital.

E. Colten, cashier at the Bank of Commerce is back at work after a two weeks' holiday at his home in Fernie.

Indian summer weather conditions still prevail, and even the old timers are hard pressed to recall a fall when climatic conditions were quite as ideal as those obtaining this year.

For the November session the Women's Institute are shifting the place of meeting to the Parish Hall. Now there is no piano in the Speer's Hall musical features are out of the question, hence the shift.

H. Bleumenauer, who until recently was in charge of the Beattie-Oatway drugstore, was married at New Denver on Wednesday, to Miss Alwin. They will reside at Cranbrook, where Henry is now employed at the Beattie-Noble drugstore.

Miss Irene Brown, who has been waitress at Mrs. Hayden's white lunch restaurant, was taken to the Nelson hospital the latter part of the week, where she underwent an operation for appendicitus, and is making a very satisfactory recovery.

The Banff orchestra were unable to play their opening dance engagement at the Grand Theatre ballroom on Wednesday night, but to prevent any dissappointment Creston orchestra took the dance, with quite a good turnout for the event.

Jimmy Lockhead made quite a prominent showing at the running horse races at Bonners Ferry fair on the 7th, riding the winner in both the pony and free-for-all events. Joseph, one of the Creston indians, also rode the winner in the derby race.

According to Norman Moore, district forester of Cranbrook, who was here on official business on Monday, there were 235 forest fires in East Kootenay this year, but fully 60 per cent. of them were handled without loss or cost to the department.

Frank Ebbutt, who has been engaged all summer on geological survey work in the far north, has been offered and has accepted a position on the staff of the B.C. University at Vancouver in the geological section and commenced his duties at the beginning of the week.

September was another busy month with the Kootenay River ferry, the monthly return showing that ferryman Lockhead made a total of 708 round trips, carrying just a few over 1400 passengers. 333 double rigs were transported, as well as 99 single vehicles and 150 autos Sundays being particularly heavy days for motor traffic.

"Two Kinds of Women" is the film attraction at the Grand to morrow night. This is the first Robinson-Cole picture ever presented here and Grand patrons will be introduced to a new list of screen actors of a very high order. The comedy will also be of the same high class, Harold Lloyd being due to appear in his scream, "Get out and Get Under."

The childen's service at Christ Church on Sunday afternoon was well attended, Rev. H. Varley delivering a short practical address and music suitable for such an occasion being provided. The offering was taken in eggs and no less than 17½ dozens of them were contributed by the youngsters, the eggs being sent to the children's ward of the Nelson hospital the following day.

Magistrate Mallandaine on Tuesday finished up the hearing of cases against the Wynndel ranchers charged with setting out fires to burn their strawberry mulch in contravention of the Forest Act. The cases against Paul Ofner and Carl Carlson were withdrawn, but Carl Wigen was assessed $10 and costs. The charge against Peter Andestad, heard two weeks ago, on which judgment was reserved, was dismissed at this week's sitting of the court. The end of the litigation, however, is not yet, as the conviction against Monrad Wigen will be appealed, the case to be argued before Judge Forin at Nelson, early next month.
