Also under section 41—

City of Courtenay Volunteer Firemen	January 1, 1963

As at March 31, 1963, there were 269 active employer accounts in the Fund.

Section 5.—A statement of all moneys received and paid out under the provisions of this Act, and the assets and liabilities appertaining to the granting of superannuation allowances under its provisions, is given in the statement of revenue and expenditure and the balance-sheet appended.

Section 6.—Basic employee 5-per-cent contributions amounted to $4,282,-248.06, and employee voluntary and special agreement contributions amounted to $739,928.22. As at March 31, 1963, there were 19,235 active contributors.

Section 8.—(1) Employer contributions amounted to $4,289,756.05 in respect of current service and $1,564,546.08 in respect of past service. An amount of $2,884.12 was refunded to sundry employers to adjust contributions made in error.

(2) Extra employer contributions totalling $2,766.03, being one-half of 1 per cent of salaries for Victoria firemen, were made under a special agreement with this employer. In accordance with the provisions of individual special agreements with 48 employers under the Act, a total of $260,857.65 was paid out in supplementing superannuation allowance payments. Of this amount, $138,045.59 was reimbursed to the Fund by the 48 employers and $122,812.06 was paid from the Reserve Account, derived from interest earnings of the Fund in excess of 4 per cent, as authorized by section 10 (6) and Order in Council No. 1502, approved on June 7, 1962. The amount payable for a full year derived from excess interest earnings will approximate $165,000.

Section 10.—(1) The Minister of Finance paid $80,000 into the Fund, which payment was in lieu of interest on the certificates of loan under the former Act.

(2) The net rate of interest earnings of the Fund for the year was 4.57 per cent, and after charging administration expenses, 4.47 per cent; therefore, no payment was required by the Minister of Finance under this subsection.

(3) An amount of $321,136.81, being the excess of the interest earnings over the required 4 per cent, was transferred to the Reserve Account, which totalled $895,900 as at March 31, 1963.

Section 13.—Superannuation allowances were granted to 173 contributors who attained retirement age. For analysis, *see* schedules of comparative statistics appended.

Section 16.—Superannuation allowances were granted to three contributors under the total and permanent disability provisions.

Section 17.—Superannuation allowances were granted to the dependent in the case of 19 contributors who died while still in service. Refunds totalling $40,716.91 were made in the case of 35 contributors who died while still in service.

Section 18.—Refunds totalling $880,644.06 were made in the case of 1,941 contributors who left the service of their employers.

Section 22.—Actuarial and administration expenses paid from the Fund amounted to $64,804.93. The total administration expenses of the Superannuation Branch are distributed among the various funds administered on the basis of contributors and pensioners. A comparison of the annual unit cost per contributor and pensioner for the last six years is as follows:—

1957/58	$2.94	1960/61	$2.77
1958/59	2.92	1961/62	2.72
1959/60	3.18	1962/63	2.73

Section 27.—The securities held by the trustees on March 31, 1963, are set out in Schedule No. 2 of this Report. During the year $21,741,200 par value bonds were purchased, the average yield being 5.50 per cent; $8,010,500 par value bonds were sold at an average yield of 5.31 per cent; and $2,402,250 par value bonds were redeemed, resulting in a net increase of $11,328,450 par value bonds held by the trustees between April 1, 1962, and March 31, 1963. As the average holding yield rate on the $8,010,500 par value bonds sold was only 4.55 per cent, the sales resulted in a book loss amounting to $321,302.42, which it was necessary to charge against 1962/63 interest earnings, reducing the net rate of interest earnings for the year from 4.94 to 4.47 per cent. However, the proceeds were reinvested in bonds with an average coupon rate of 5.23 per cent to yield 5.50 per cent, which will more than offset the book loss in future years. The prices paid for securities bought or sold are determined by market conditions at the time of transfer. Every effort is made to invest the funds as soon as they become available at the maximum yield possible at the time of purchase.

LEGISLATION

The *Municipal Superannuation Act Amendment Act, 1963,* includes the following changes:—

1. Provided for the extension of the plan by Order in Council to an improvement district incorporated under the *Water Act.*

2. Established a fourth retirement group for female hospital employees and female employees of other employers under the Act, who by resolution place their female staff in Group Four. Under Group Four the maximum retirement age is 65 years and the minimum retirement age is 60 years, with employer contribution rates of 2.5 per cent of salary up to age 50 and 5 per cent thereafter. This exten-

sion of the maximum retirement age enables some employees to participate who could not formerly meet the service requirements. Provision was made to allow female contributors who had attained age 50 on April 1, 1963, to retire at or after age 55 if they so desire.

3. Increased the maximum temporary annuity an employee may select at retirement age from $55 per month to $65 per month.

Commissioner of Municipal Superannuation.
