Report of the Superintendent of Education, 1962/63

EDUCATION OFFICE,
VICTORIA, B.C., January, 1964.

To the Honourable Leslie Raymond Peterson,
Minister of Education.

SIR,—I beg to submit herewith the Ninety-second Annual Report of the Public Schools of British Columbia for the school-year ended June 30, 1963.

ENROLMENT

The enrolment in the schools of the Province increased during the year from 340,290 to 358,905, and the average daily attendance increased from 312,173 to 332,584. The percentage of the regular attendance was 92.7.

The number of pupils enrolled in the various classes of schools is shown hereunder:—

Type of School	Number of Pupils Enrolled		
	Municipal	Rural	Total
Senior secondary	2,326	190	2,516
Junior-senior secondary	51,383	383	51,766
Junior secondary	14,180	478	14,658
Elementary-senior secondary	39,000	3,620	42,620
Elementary-junior secondary	37,914	1,647	39,561
Elementary	203,233	4,551	207,784
Totals	348,036	10,869	358,905

In addition to the number given above, there were enrolled:—

In the High School Correspondence classes, regular students (exclusive of the 6,481 officially registered in other schools)	2,490
In the Elementary School Correspondence classes, regular students	1,084
Under section 20 of the *Public Schools Act,* pupils receiving instruction	69
	3,643
Adult education—	
Canadian Vocational Training Programme	7,566[1]
Night schools	70,405[2]
Vancouver School of Art	232
Vancouver Vocational Institute	5,814[3]
High School Correspondence (adults only)	8,694
Elementary School Correspondence (adults only)	305
Carried forward	96,659

[1] Day, 3,206; night, 4,360.
[2] Includes 56,008 non-vocational.
[3] Day, 3,108; night, 2,706.

Brought forward		96,659
Adult education—*Continued*		
Number of participants in recreational programme		1,197,960[4]
Vocational teachers-in-training (summer session)		31
Victoria College, regular credit courses—		
Arts, Science, Commerce	1,278	
College of Education	571	
Evening division	331	
Summer session	866	
		3,046[5]
University of British Columbia		4,861[6]
		1,302,567

[4] This figure does not include Vancouver.

[5] This figure does not include an enrolment of 956 in the non-credit evening classes and 97 in the non-credit summer session.

[6] This figures does not include the following enrolments: 1962 summer session, 5,101; 1962/63 extra-sessional classes, 1,421; correspondence courses, 1,520.

DISTRIBUTION OF PUPILS BY GRADE AND SEX

The following table shows the number of boys and girls enrolled in each grade for the school-year 1962/63:—

Grade	Boys	Girls	Total
Kindergarten	4,173	4,179	8,352
Grade I	19,582	17,697	37,279
Grade II	18,310	16,993	35,303
Grade III	17,792	16,618	34,410
Grade IV	16,943	15,510	32,453
Grade V	15,923	14,955	30,878
Grade VI	15,099	14,377	29,476
Grade VII	14,983	14,102	29,085
Grade VIII	15,629	14,363	29,992
Grade IX	15,037	14,104	29,141
Grade X	12,938	12,481	25,419
Grade XI	10,054	9,718	19,772
Grade XII	7,646	6,895	14,541
Grade XIII	1,818	986	2,804
Totals	185,927	172,978	358,905

DISTRIBUTION OF TEACHERS AND PUPILS ACCORDING TO THE DIFFERENT CLASSES OF SCHOOLS

The number of teachers employed in the different classes of schools, the number of pupils enrolled in each class of school, and also the average number of pupils per teacher are shown in the following table:—

Type of School	Number of Teachers			Total Enrolment	Percentage of Total Enrolment	Average Enrolment per Grade Teacher
	Grade Teacher	Special Instructor	Total			
Senior secondary	85	23	108	2,516	.70	29.60
Junior-senior secondary	1,667	639	2,306	51,766	14.42	31.05
Junior secondary	482	176	658	14,658	4.08	30.41
Elementary-senior secondary	1,393	426	1,819	42,620	11.88	30.60
Elementary-junior secondary	1,310	341	1,651	39,561	11.02	30.20
Elementary	6,364	452	6,816	207,784	57.90	32.65
Unclassified	.....	213	213	.....	.....	.....
Totals	11,301	2,270	13,571	358,905	100.00	31.76

TEACHERS' CERTIFICATES

The following table shows the number of teachers employed and also the number with or without university degrees:—

Type of School	Number of Teachers		
	With Degrees	Without Degrees	Total
Senior secondary	97	11	108
Junior-senior secondary	1,726	580	2,306
Junior secondary	396	262	658
Elementary-senior secondary	1,137	682	1,819
Elementary-junior secondary	819	832	1,651
Elementary	966	5,850	6,816
Unclassified	125	88	213
Totals	5,266	8,305	13,571

COMPARISON OF ENROLMENT AND EXPENDITURE FOR PUBLIC EDUCATION

The enrolment in the schools of the Province for the various years since 1877/78 and also the cost of maintaining them are shown in the following exhibit:—

School-year	Number of Teachers Employed	Number of School Districts	Aggregate Enrolment	Average Daily Attendance	Percentage of Attendance	Government Expenditure for Education	Total Expenditure for Public Schools
1877/78	56	45	2,198	1,395	63.49	$48,411.14[1]	----------
1882/83	69	59	2,693	1,383	51.36	60,758.75[1]	----------
1887/88	128	104	6,372	3,093	48.54	113,679.36[1]	----------
1892/93	267	169	11,496	7,111	61.85	174,775.43	$215,056.22[2]
1897/98	429	213	17,648	11,055	62.64	290,255.26	425,555.10
1902/03	607	268	24,499	16,357	66.76	473,802.29	604,357.86
1907/08	816	189	33,314	23,195	69.62	544,671.60	1,220,509.85
1912/13	1,597	359	57,608	43,274	75.12	1,663,003.34	4,658,894.97
1913/14	1,859	374	62,263	49,377	79.30	1,885,654.11	4,634,877.56
1917/18	2,246	575	67,516	54,746	81.09	1,653,796.60	3,519,014.61
1922/23	3,118	744	94,888	77,752	81.94	3,176,686.28[3]	7,630,009.54[3]
1927/28	3,668	788	108,179	91,760	84.82	3,532,518.95[3]	9,261,094.98[3]
1928/29	3,784	792	109,588	94,410	86.17	3,765,920.69[3]	11,149,996.27[3]
1929/30	3,854	803	111,017	96,196	86.65	3,743,317.08[3]	10,008,255.66[3]
1930/31	3,948	811	113,914	99,375	87.23	3,834,727.19[3]	10,061,387.99[3]
1931/32	3,959	830	115,919	103,510	89.29	4,015,074.37[3]	9,719,333.81[3]
1932/33	3,912	821	116,816	104,978	89.86	2,849,972.02[3]	8,941,497.34[3]

Unclassified	.....	213	.....	.....	.....	.....
Totals	1,341	13,571	358,905	185,927	172,978	332,584.90

TEACHERS' SALARIES BY TYPE OF SCHOOL

The following table shows the highest, lowest, and average salary (in dollars only) paid to teachers in each type of school, grouped into grade teachers, supervising principals, and special instructors. Teachers earning less than $1,000 are excluded.

Grade Teachers

Type of School	Number Employed	Low Salary	High Salary	Average Salary
Senior secondary	85	$4,300	$10,587	$7,620
Junior-senior secondary	1,667	3,100	13,532	6,748
Junior secondary	482	3,100	9,340	6,049
Elementary-senior secondary	1,393	3,000	10,608	6,388
Elementary-junior secondary	1,310	2,700	10,538	5,938
Elementary	6,364	3,000	11,315	5,103

Supervising Principals

Senior secondary	4	$10,587	$13,392	$12,159
Junior-senior secondary	69	1,387	13,676	11,308
Junior secondary	27	9,383	12,976	10,996
Elementary-senior secondary	58	7,050	14,007	11,131
Elementary-junior secondary	51	7,550	13,176	11,260
Elementary	155	7,160	11,845	10,232

Special Instructors

Senior secondary	19	$4,640	$11,217	$8,515
Junior-senior secondary	570	1,554	12,780	7,270
Junior secondary	149	2,200	12,408	6,814
Elementary-senior secondary	368	1,628	11,532	7,103
Elementary-junior secondary	290	1,410	11,500	6,996
Elementary	297	1,200	11,877	4,766
Unclassified	213	1,250	14,568	6,119

SALARY CLASSIFICATION

Distribution of teachers by $100 salary-groups, including principals, supervising principals, and part-time teachers:—

Salary Range	Number of Teachers
Under $1,200	230
$1,200–$1,299	4
1,300– 1,399	2
1,400– 1,499	7
1,500– 1,599	5
1,600– 1,699	5
1,700– 1,799	6
1,800– 1,899	10
1,900– 1,999	5
2,000– 2,099	5
2,100– 2,199	4
2,200– 2,299	12
2,300– 2,399	12
2,400– 2,499	10
2,500– 2,599	4
2,600– 2,699	6
2,700– 2,799	4
2,800– 2,899	15
2,900– 2,999	11
3,000– 3,099	108
3,100– 3,199	88
3,200– 3,299	87
3,300– 3,399	62
3,400– 3,499	47
3,500– 3,599	209
3,600– 3,699	308
3,700– 3,799	190
3,800– 3,899	277
3,900– 3,999	164
4,000– 4,099	348
4,100– 4,199	176
4,200– 4,299	273
4,300– 4,399	186
4,400– 4,499	338
4,500– 4,599	222
4,600– 4,699	293
4,700– 4,799	194
4,800– 4,899	432
4,900– 4,999	267
5,000– 5,099	304
5,100– 5,199	266
5,200– 5,299	237
5,300– 5,399	342
5,400– 5,499	331
5,500– 5,599	435
$5,600 $5,699	593
5,700– 5,799	351
5,800– 5,899	290
5,900– 5,999	172
6,000– 6,099	293

BUILDING FOR THE FUTURE

Every aspect of education, in a sense, is building for the future. In no case is this more obvious than in the field of technical and vocational education. The changing conditions of employment, technology, and production in our economy have in recent years stimulated the expansion of technical and vocational programmes as never before. Everywhere at the present time our country is concerned on the one hand about providing education and training for youth and adults that will make them eligible for immediate employment and on the other for retraining the present work force to cope with new conditions in the future.

To meet this challenge, education and training must be combined in a technological age. In the past, from our secondary schools there have been too many drop-outs not adequately prepared for jobs and too few top students entering the University. In today's world it would seem necessary to develop a new perspective with a sound educational programme and an effective system of training appropriate to the needs of all young people. Only in this way will the future needs of this Province and the country as a whole be adequately fulfilled.

APPOINTMENTS

Three District Superintendents were appointed in May, 1963, one as a replacement and two as additions to staff, as follows: Mr. Charles Alfred Bruce, principal of the Kelowna Senior Secondary School; Douglas Norman Weicker, principal of the Duchess Park Junior Secondary School, Prince George; and Mr. Alexander John Longmore, principal of the Summerland Senior Secondary School.

Other senior appointments made by the Department of Education included Mr. J. H. Knight, formerly of J. Lloyd Crowe Senior Secondary School, Trail, as principal of the British Columbia Vocational School at Nelson; Mr. William R. Brown, formerly principal of Stanley Humphries Secondary School, Castlegar, as principal of the British Columbia Vocational School in Kelowna; and Mr. George Cook, formerly of the Penticton Secondary School, as principal of the British Columbia Vocational School at Prince George.

Mr. John Church and Mr. Larry Thomas, of the Vancouver and Burnaby school systems respectively, have been seconded to the Department of Education to assist in the work of curriculum development during the school-year 1963/64. These two outstanding teachers succeed Mr. A. J. Longmore and Mr. R. B. Knowles, who served most effectively in a similar capacity as curriculum consultants during the school-year 1962/63.

DEPARTMENTAL CONFERENCE

A successful two-day Departmental conference was held during the Easter vacation of 1963, mainly for the purpose of clarifying policies within the Department of Education. Current matters relating to school reorganization and to legislation formed the basis of the discussions. Once again the major responsibility for directing this conference fell to the lot of Mr. E. E. Hyndman, Chief Inspector of Schools.

LEGISLATION

During the 1963 Session of the Legislature several Bills were presented for enactment. These included amendments to the *Public Schools Act,* the most important of which provided for the establishment of district and regional colleges; the new *Universities Act* created three public universities in the Province—The Univer-

sity of British Columbia, University of Victoria, and Simon Fraser University; a new private university was constituted by special charter—the University of Notre Dame at Nelson. These advances in the field of higher education were based upon the recommendations of the Macdonald Report on Higher Education, published in December, 1962. A Bill to amend the *Victoria College Foundation Act* was also passed; the *Education of Soldiers' Dependent Children Act* was amended to provide financial assistance in certain cases not previously covered.

RETIREMENTS

Mr. C. E. Clay, District Superintendent of Schools at Penticton, retired in June, 1963. Mr. Clay had a long and interesting career in the school system of the Province as a teacher and later as a vice-principal and principal. He was appointed to the Department of Education in 1946, serving at Grand Forks until 1958, when he was transferred as District Superintendent to Penticton. Mr. Clay has always shown a great interest in community affairs and was at various times a member of the Rehabilitation Committee at West Vancouver, a member of the Consultive Committee on Doukhobor Affairs, secretary of the Board of Trade in Armstrong, and president of the British Columbia School Superintendents' Association during 1960/61. He has been a worthy representative of the Department of Education for many years. His outstanding leadership among teachers and colleagues throughout his career has been of the highest order. As he leaves us he carries the good wishes of his many friends and colleagues for a long and happy period of retirement.

I should also like to record the retirement of Mr. T. Quayle and the transfer of Mr. Howard Clement from the Provincial to the Federal service in vocational education. Both of these men are to be commended for the contribution they made to industrial arts and to vocational education in this Province. (Details regarding their work in the Department is provided in another section of this Report.)

ACKNOWLEDGMENTS

The school-year 1962/63, like the previous one, was an exceptionally busy period, not only because the reorganization of the secondary-school programme was continued, but in addition plans were laid for higher education both at the university and at the junior college level. Important decisions were reached which will affect secondary and higher education in this Province for many years to come. I am deeply indebted to everyone in the Department for the immense amount of work accomplished and for the co-operation which has been displayed by every member of the staff.

I have the honour to be,

Sir,

Your obedient servant,

J. F. K. ENGLISH,

Superintendent of Education.

ADMINISTRATION BRANCH

REPORT OF G. W. GRAHAM, B.A., ASSISTANT SUPERINTENDENT OF EDUCATION (ADMINISTRATION)

Provincial legislation places the operation and maintenance of the public schools under the jurisdiction of the locally elected Boards of School Trustees of the school district. There are 84 large school districts in the Province; these include 73 classified as municipal school districts because they include a municipality within their boundaries, and 11 classified as rural school districts. In the more isolated sections of the Province there are 17 small rural school districts commonly referred to as unattached school districts. These small districts usually contain only one school, and the administration is often under an official trustee who is appointed by Order in Council.

A School Board may be composed of three, five, seven, or nine trustees, as determined by the Minister of Education. There are at present 15 Boards with nine trustees, 38 Boards with seven trustees, 28 Boards with five trustees, and 4 Boards with three trustees. A trustee is elected for a two-year term of office.

The election of trustees within a municipality is in accordance with the *Municipal Act,* and the election of trustees within the rural area of a school district is in accordance with the *Public Schools Act.* This allows rural trustees to be elected at large in the rural area of the school district or in an attendance zone, or to be elected by representatives who were elected at annual meetings of attendance areas. There has been no appreciable trend toward election at large, and, as in previous years, the Minister of Education has been called upon to appoint many attendance area representatives because of the failure of voters to elect representatives.

The new large School District No. 83 (Portage Mountain) was created in November. It extends throughout the watershed of the Finlay and Parsnip Rivers, from Sifton Pass (approximately 58° north latitude) to Tudyah Lake (approximately 55° north latitude), and eastward along the watershed of the Peace River to Hudson Hope. While this is a large district in keeping with policy of establishing large administrative units, at present schools are operating only at Hudson Hope, the site of the hydro-power project.

The school construction continues throughout the Province on the trend which has been established over the past decade.

The Province meets at least 50 per cent of the capital costs of that which it considers as essential for school-sites, buildings, and equipment. While the essential requirements for schools have been determined for the sharing of costs, a School Board may, when planning its building, add features and details which the Department does not share in the additional cost due to such features. Because capital funds are provided by the sale of school district debentures, two types of referenda are submitted to the electors: those which are eligible for Government grant and those which are not eligible for Government grant. Funds provided under the resepective classification are commonly referred to as shareable and non-shareable capital funds.

During the school-year, to provide capital funds for school construction, 20 school districts placed referenda totalling $12,000,000 before the electors. The total of contracts awarded for school construction during the school-year was $13,500,000. The majority of these contracts were awarded during the period of March to August.

School districts have become more conscious of the development of their school-sites since the Government has shared in the cost of such development. Throughout this year the expenditures for site and development have been approved as shareable under two categories: one included the cost of clearing, grading, and ditching the area of the site required by the school, and the other included an allowance of 4 per cent of the construction cost of current building for playground development and site beautification.

The School Planning Branch continues to provide Departmental plans for elementary schools to those Boards which desire them; while the majority of these schools are of wood construction, some are constructed of concrete blocks. The contract amount of the work included in 44 projects planned by this division was $1,900,000.

ASSISTANCE TO ISOLATED AREAS

All pupils who live in isolated areas where neither school accommodation nor transportation is available may apply for correspondence work from the Correspondence Branch of the Department. In conjunction with the Correspondence Branch, and under section 20 of the *Public Schools Act,* if four or more pupils in Grades I to X, inclusive, are assembled for the regular school hours and are tutored by a qualified instructor, the Province may make a grant of $15 per month toward the salary of the instructor for each pupil doing satisfactory work. There were 13 classes enrolling 68 pupils in operation this year. While it is required that instructors of elementary grades must have completed secondary school and instructors of secondary grades must have a teacher's certificate or two years of university training, it is very difficult to attain this standard.

CURRICULUM AND GENERAL EDUCATIONAL SERVICES

Instructional Services

REPORT OF F. P. LEVIRS, M.A., M.S.(Ed), ASSISTANT SUPERINTENDENT OF EDUCATION (INSTRUCTIONAL SERVICES)

Instructional services include the work of the following divisions, each of which has its own director and submits its own annual report: Curriculum; Tests, Standards, and Research; Secondary School Correspondence; Elementary School Correspondence; Visual Education; School Broadcasts; Home Economics; Jericho Hill School; and the Textbook Branch. In addition, there are aspects of instructional services that do not readily fall under any of the above-named divisions; these form the substance of this report.

Staff

Two changes have occurred in senior staff appointments. Mr. N. M. Henderson, Assistant Director of Visual Education, resigned to become Director of Curriculum for Vocational and Technical Education, and Mr. Ean Hay, Assistant Director of School Broadcasts, resigned to enter private business. Both of these gentlemen had contributed greatly to the work of their respective divisions. The former was replaced by Mr. Roger Kerkham, promoted from within the division; the latter by Mr. A. L. Lazenby, whose experience in the field of television will be of particular value.

Adult Education

On the interrupted general programme for adults, the offering of secondary-school courses for credit was approved in various night schools and adult day schools as follows:—

Year	School-Districts	Schools	Courses
1962/63	25	27	221
1961/62	27	29	226

Accreditation of Schools

The Accrediting Committee considered 82 applications for accreditation, accrediting 31 schools as follows: 2 for four years, 8 for three years, 10 for two years, and 11 for one year. Four schools were accredited for the first time, and four were dropped from the accredited list. The total number of accredited secondary schools is 103, the same as in the previous year.

Teacher Qualifications

The shortage of fully qualified teachers at the senior level continues, but the efforts to improve the situation are showing some limited success. The number of persons with elementary certificates teaching academic subjects at the Grade X level or higher increased slightly to 143, from 140 in the previous year, but of these, 67 had elementary advanced certificates, as compared with 56 in the previous

year. Of the 143, 109 had improved their university background within the last five years while 63 had taken courses within the last year.

Grade VIII and the Occupational Programme

September of 1962 saw the introduction of both the new Grade VIII regular programme and the first official year of the occupational programme. Some schools continued experimentation into the second and third years of the latter.

As at September 30, 1962, reports on Form K showed 27,850 pupils enrolled in the regular programme in Grade VIII and 2,457 on the first year of the occupational programme.

Since this is the first year of instruction in French at the Grade VIII level, and since provision was made for exemption of certain students at the request of their parents, it is interesting to note that 25,695 of the regular Grade VIII pupils were registered for French 8.

Most Frequently Chosen Advanced Electives

The 10 advanced electives most frequently chosen by students were, in order of rank, Biology 91, Mathematics 91, Chemistry 91, English 91, Physics 91, Geography 91, English 93, History 91, Home Economics 91, and French 92. Mathematics 91 and Chemistry 91 changed places since last year, as did English 93 and History 91, while French 92 got into the first 10 by pushing out Industrial Arts 91 from that position. The last-named course dropped to 12th, behind Law 93.

Grade VII Departmental Examinations

Most school districts supplied their own examinations at the Grade VII level. Voluntary use of examinations prepared for the Department by experienced teachers and supplied on request to districts was greater than last year, except in social studies and science. Numbers of Departmental examinations written were as follows:—

Subject	Number of Papers Written 1963	1962
English—		
Reading and literature	9,718	7,765
Grammar, usage, composition	11,083	8,760
Vocabulary, dictation, word study	10,114	8,411
Mathematics—		
Computation	11,103	8,062
Problems	10,255	8,033
Social studies	7,454	7,838
Science	7,532	8,210

Organization of Secondary Schools

1962/63 was the first year of the new secondary-school organization, to be completed by 1967. As might be expected, many schools retained their old organization temporarily; nevertheless, an encouraging number organized on the new pattern completely or partially. Of 264 schools enrolling more than one secondary grade, the distribution was as follows: Senior secondary, 4; secondary, 78 (43 enrolling Grades X to XII, 6 enrolling Grades IX to XII); junior secondary, 24 (6 enrolling Grades VIII and IX); elementary and secondary, 81 (34 enrolling Grades VII to XII, 1 enrolling Grades V to XII); elementary and junior secondary, 77 (16 enrolling Grades I to IX, 7 enrolling Grades I to VIII, 13 enrol-

ling Grades VII to X, 24 enrolling Grades VII to IX, 1 enrolling Grades VI to IX, 1 enrolling Grades IV to VIII).

As new schools are built, the deviations from type shown in parentheses should gradually disappear.

About 1 per cent of the Grade VIII pupils, 256 in all, were enrolled in small elementary schools.

Of Grade VII, 12,902 pupils were still housed in secondary schools, a major reduction from last year. The total number of elementary pupils housed in schools also enrolling secondary pupils dropped to 26,647 from 30,652.

The hypothetical median secondary school of the Province enrolls 375 pupils and has an instructional staff of 17. Corresponding 1955 figures were 268 and 12. Secondary schools have grown in size, but the ratio of pupils to teacher has remained approximately the same.

Grade XIII Enrolments

In September of 1962 the University of British Columbia ceased to enrol students who had failed to complete their Grade XII in June, thus increasing the number of students registering in Grade XIII classes. As at September 30th, there were 2,732 pupils enrolled in Grade XIII, as contrasted with 1,974 in the previous year. Of these, 1,852 had full Grade XII standing.

Kindergartens

Growth in kindergarten enrolments was also evident. Figures reported in the fall of 1962 as compared with the fall of 1961 are as follows:—

	1962	1961
Number of districts	14	13
Number of schools with kindergartens	99	85
Number of pupils enrolled	7,206	6,276

Schools for Trainable Retarded Children

In spite of the increase in the number of special classes for trainable retarded within the public schools, the number of children in schools operated by local chapters of the Association for Retarded Children of British Columbia also increased. Thirty-three districts operated 36 schools, enrolling 439 children for whom grant was received and 43 others. In the public schools there were 332 children in special classes for the trainable retarded. The total in day schools, public and association, was therefore 814, as compared with 684 in the previous year.

Retention of Pupils

The steady increase in retention rates of the school systems continues. Expressing the number of pupils enrolled in Grade XII as a percentage of those in the Grade VII class from which they came, the following are the comparable figures since 1953/54:—

(1) Grade VII	1956/57	1955/56	1954/55	1952/53	1950/51	1948/49
(2) Grade XII	1961/62	1960/61	1959/60	1957/58	1955/56	1953/54
Percentage, (2) of (1)	63	61	58	53	52	48

Special Classes in Public Schools

Enrolments as reported on September 30th are as shown in the following table:—

Type of Class	Number of Teachers		Number of Pupils	
	1962	1961	1962	1961
Slow learners[1]	210	211	2,971	3,190
Remedial training	30	18	441	293
Home instruction[2]	6	6	—	—
New Canadians	10	15	158	213
Rehabilitation centres	6	5	61	51
Hospitals	13	13	273	289
Visually handicapped	2	2	16	18
Preventorium	2	2	23	17
Detention home	2	2	15	11
Emotionally disturbed	5	6	55	66
Mentally retarded	32	23	332	232
Speech[2]	2	1	—	—
Hard of hearing	2	1	19	11
Pre-employment experimental[1]	—	3	—	56
Totals	322	308	4,364	4,447

[1] Some of these classes were absorbed in 1962 into the Occupational Programme.
[2] Enrolment varies.

School Population Growth

The percentage growth in school population in certain periods is shown below:—

Period	Percentage Growth
1956/57 to 1961/62	31
1955/56 to 1960/61	34
1954/55 to 1959/60	37

The 10 school districts showing the greatest percentage growth over the period 1956/57 to 1961/62 were: Muchalat, 131 per cent; Chilcotin, 119 per cent; Peace River North, 114 per cent; Merritt, 106 per cent; Delta, 106 per cent; Fort Nelson, 102 per cent; Coquitlam, 85 per cent; Golden, 79 per cent; Quatsino, 77 per cent; and Richmond, 70 per cent.

Local Supervisory Personnel

The following table shows the number of district teachers employed in supervisory and special capacities as at September 30th:—

	1962	1961
Directors of instruction	19	12
Supervisors of instruction	75	68
Teacher consultants	15	22
Special Counsellors	34	33
District teachers, other than relieving teachers	32	31
Totals	175	166

Entitlement of Teachers

The total number of teachers within entitlement for purposes of grant, as at Septemebr 30th, was 13,278.73, as compared with 12,442.8 in the previous year. In addition, 237.27 teachers beyond entitlement were employed by school districts, as compared with 273.3 in the previous year. These numbers represent the total

of all full-time and part-time teachers, not the actual number of persons engaged in teaching as given elsewhere in this Report.

New Legislation Affecting Instruction

1. In addition to the new *Universities Act,* amendments to the *Public Schools Act* made provision for the establishment of school district colleges under the direction of Boards of School Trustees and regional colleges under the direction of Regional College Councils.

2. Amendments to the Rules of the Council of Public Instruction set up procedures for establishing these two-year colleges.

3. The teacher entitlement for Grade XIII classes was changed to correspond to staff entitlement for the new colleges.

Additional Activities

1. Following extensive planning by the Profesisonal Committee on Secondary Curriculum, a tentative "Administrative Bulletin for Secondary Schools—The Junior Secondary Grades " was issued, establishing general procedures for the reorganized junior grades of the secondary school.

2. Details of the school reorganization to the end of Grade IX were completed.

3. The second year of the Occupational Programme was outlined in a curriculum bulletin issued to schools.

4. Planning for the reorganization of senior grades of the secondary school was continued.

5. General planning for new patterns of elementary education was continued within the Professional Committee on the Elementary Curriculum.

Division of Curriculum

REPORT OF J. R. MEREDITH, B.A., B.Ed., DIRECTOR

The year 1962/63 was a year of intensive work in the revision and reorganization of the Provincial curriculum. As noted in the Report for 1961/62, most of this work stems directly from recommendations which arose from the most comprehensive survey ever made of the schools in this Province.

Two special consultants, Mr. A. J. Longmore and Mr. R. B. Knowles, were engaged on a temporary basis with the co-operation of the Boards of School Trustees of Summerland and Kelowna. The two consultants gave invaluable assistance and made it possible to extend revision work into fields of greatest need and to give more thorough attention to all revisions. Details of particular curriculum changes may be reported as follows:—

(1) A new course and text were prescribed in elementary-school arithmetic for Grade IV as an extension of the revision in Grade III in 1962.

(2) A major revision was begun covering reading, writing, spelling, and composition in all elementary-school grades and including textbooks and courses of study. Plans were made for work on this revision to be undertaken by a committee of experts on a full-time basis during the summer.

(3) A revision of the organization and administration of elementary schools was begun.

(4) Work was continued on the preparation of a modified curriculum for slow-learning pupils in elementary schools.

(5) A revision of the course and text in Grade IX mathematics was completed as an extension of the Grade VIII revision.
(6) Revisions of the courses and texts in French and Latin were completed as extensions of the revisions made in earlier courses in these subjects in 1962.
(7) A revision of the course and text in English for Grades VIII and IX was completed in part as an extension of previous revisions.
(8) New courses were developed in the fields of industrial education and home economics.
(9) A new course in botany was developed, which, along with zoology, enables schools to offer Grade XIII pupils courses comparable to those in university.
(10) Work was continued on the development of the Occupational Programme for pupils in secondary schools.
(11) Intensive planning was undertaken for the development of appropriate vocational courses and programmes for pupils in senior secondary schools. Details of this work were developed by a committee of experts working on a full-time basis during the summer.
(12) Experimental work was continued in the fields of mathematics, science, and French.
(13) A study of the place of history in the secondary-school curriculum was undertaken.
(14) A study of the music programme in elementary and secondary schools was begun, and sample lessons in the teaching of music were developed for trial use in primary grades.

When they are considered together, all of these particular revisions make up a significant programme of curriculum improvement. Among the factors common to all or most of them are the need for up-to-date and valid course content and Canadian texts, the need for an increased emphasis on the intellectual aspect of education, the need for more attention to the fundamentals as preparation for continuous learning, and the need for more effective selection and organization of significant subject material to meet the needs of today's world.

Acknowledgment

The programme reported above represents some very basic and extensive changes. These could not possibly have been made without the assistance of a great many individuals and groups. The importance of curriculum is attested to by the fact that in one way or another all officials of the Department of Education, including the Assistant Superintendent (Instruction), the Chief Inspector of Schools, the District Superintendents of Schools, and the Directors of the various divisions, have been directly concerned with the programme and have given invaluable direction and assistance to this Division.

The two Professional Advisory Committees organized on a trial basis in 1961 have more than justified their existence by the soundness of the advice they have given on a whole range of curriculum matters. These Committees, under the chairmanship of the Assistant Superintendent (Instruction), were convened for 18 meetings during the year 1962/63. The agenda included such things as report cards, examinations, school libraries, promotional policies, time allotments, subject requirements, and textbooks, as well as all the revisions in particular subject fields. Grateful acknowledgment is extended to the members of these Committees and to the groups of teachers, principals, superintendents, and university professors whom they represent.

In addition, sincere acknowledgment is extended to the more than 200 persons who served on the Department's committees and undertook advisory work in egneral fields and course revision work in particular subjects.

Related Services

In addition to the programme of curriculum improvement, this Division also carried on certain related work, including the preparing and distributing of directives and materials for schools, recommending of school library books, preparing and presenting information to teachers and groups, and participating in educational discussions with Provincial organizations.

A significant and relatively new development is seen in the co-operation and consultations with the curriculum branches of other Provincial departments of education. During the year the Department of Education was host at the annual meeting of the Directors of Curriculum of the four Western Provinces. These meetings are primarily devoted to an exchange of information and the planning of co-operative projects designed to promote curriculum improvement in all Provinces and a reasonable measure of curriculum uniformity. The problems of the " transfer pupil " have occupied a considerable portion of the time of these meetings, and certain practical steps have been taken to offset or at least alleviate these problems for the pupils and their parents.

In summary, the year under review has been one of intensive activity. While many problems remain to be solved, there is some reason to believe that considerable progress has been made, and that the changes undertaken have done much to increase general confidence in the strengths of the public school system in this Province.

SPECIAL SERVICES

REPORT OF WILLIAM A. PLENDERLEITH, M.A., D.PÆD., F.R.S.A., F.C.P., CO-ORDINATOR OF SPECIAL SERVICES

THE CONVEYANCE OF SCHOOL-CHILDREN

The following statistics indicate details connected with the conveyance of school-children during the school-year 1962/63:—

Items		1962/63
1. Number of large school districts providing transportation		80
2. Number of unattached districts providing transportation		2
3. Total number of vehicles		557
(*a*) District-owned	412	
(*b*) Contract	140	
(*c*) Other (water taxis, etc.)	5	
4. Total daily approved mileage		37,219
(*a*) Average distance per vehicle (miles)		66.8
(*b*) Average number of trips per vehicle		2.1
5. Total number of daily trips by all vehicles		1,151
Average distance per single trip (miles)		16.1
6. Total number of pupils carried daily		47,032
(*a*) Elementary	22,830	
(*b*) Secondary	24,202	
7. Average number of pupils carried per vehicle		84.4
8. Average number of pupils carried per route		48.6

TRANSPORTATION ASSISTANCE

In addition to the operation of regular school transportation services, each School Board is empowered to make a grant to parents who provide their own transportation for their children. These grants are given in cases where there are insufficient pupils beyond Departmental walk limits to establish a regular bus route.

During the school-year, 1,998 pupils from 68 districts utilized this means of conveyance at a total cost of $306,346.

TABLE OF TRANSPORTATION COSTS

The following table indicates the relationship between the total district expenditure and the total conveyance costs over the past eight years:—

Calendar Year	Total District Expenditures	Conveyance Costs	Conveyance Costs as a Percentage of District Expenditures
1955	$62,238,464	$1,812,353	2.9
1956	69,234,423	1,918,902	2.8
1957	80,966,873	2,104,443	2.5
1958	91,279,662	2,236,918	2.4
1959	105,044,901	2,340,813	2.2
1960	118,269,991	2,477,202	2.1
1961	127,616,486	2,611,370	2.0
1962	136,432,687	2,721,510	2.0

School Dormitories

In many isolated rural sections of the large school districts it is impossible for the School Boards to provide transportation services for secondary pupils who desire to attend centralized secondary schools. In order to enable these pupils to attend secondary schools that offer a full high-school programme, authority to operate school dormitories is given to School Boards.

The following table provides data respecting the dormitories that were in operation during 1962/63:—

School District Number and Name	Capacity		Occupany, 1962/63		Staff		Grade Limits Accommodated	
	Boys	Girls	Boys	Girls	Full Time	Part Time	From	To
24. Kamloops	15	14	15	14	1	1	VIII	XIII
27. Williams Lake	23	25	20	18	1	1	IX	XII
28. Quesnel	18	18	23	15	2	(1)	VIII	XII
29. Lillooet	10	10	23	10	2	----	VIII	XII
56. Vanderhoof	20	22	12	6	2	1	VIII	XII
57. Prince George	45	45	25	28	3	1	VIII,[2] IX	XIII
58. McBride	16	16	10	7	2	----	VIII	XII
59. Peace River South	32	34	25	33	4	1	VIII	XIII
60. Peace River North	50	50	50	39	4	2	VIII	XII
Totals (9)	229	234	203	170	21	8	VIII	XIII

[1] Four days. [2] Grade VIII special classes.

Boarding Allowances

For pupils who are unable to take advantage of transportation or dormitization, the School Board is empowered to provide a boarding allowance. Under this arrangement a pupil can receive up to $30 per month on a basis shared by the Department of Education. During the past school-year (1962/63), there were 523 pupils from 52 school districts who received a total of $154,100 in such boarding allowances.

Jericho Hill School Advisory Board

This Board consists of representatives from the Deaf and the Blind Parent-Teacher Association, the Vancouver School Board, and the Department of Education.

The Advisory Board met once each school month during 1962/63 and provided monthly reports to the Department respecting the operation of the Jericho Hill School.

The accompanying report of Dr. C. E. MacDonald, the superintendent of the Jericho Hill School, contains the pertinent statistics relating to the enrolment in the school.

DIVISION OF TESTS, STANDARDS, AND RESEARCH

REPORT OF C. B. CONWAY, B.Sc., M.S., D.Pæd., DIRECTOR

The work of the Division during 1962/63 was primarily directed toward the production and mechanical processing of large numbers of tests and examination scores. Increases in total enrolment since the Division was established (from 135,000 in September, 1946, to 358,000 in June, 1963) and in the number of matriculation examination papers scaled (from 26,000 in 1953 to 72,000 in 1963) have made it imperative that steps be taken to mechanize procedures for handling data. Unfortunately the experimental procedures designed for the 650 computer during the past two years must now be revised to suit the 1620 and 1401 computers that recently have been installed, and this project happens to coincide with the tremendous upsurge in matriculation candidates expected in 1964 and 1965.

Programmes that were brought into operation during 1962/63 included the following. All of them were the result of intensive effort, writing, testing, and revising by Mrs. Janice Andrew, research assistant in the Division. Valuable assistance in the processing and scaling of examinations also was given by Dr. J. I. Macdougall and Mr. W. Burgess in July.

(*a*) An identification programme which converts pupils' and parents' birthdates into code numbers. For example, the letters and numbers punched as Dec. 31, 1949, Jan. 23, Jun. 17 automatically become 049, 366, 023, 169. The purpose of this code is to trace the future progress of pupils through the grades irrespective of division, school, and even name changes that may occur. Over 600 transfers and additions occurred during the Grade VII testing period in 1963, and out of 30,534 pupils, 252 twins, 3 triplets, and 12 unrelated duplicates were identified.

(*b*) Programmes to produce distributions of scores, chronological ages to the nearest month, mental ages from test scores, and I.Q.s from age and score tables.

(*c*) A 1401 programme to print test data and calculate averages for divisions, schools, and school districts.

(*d*) A programme to determine eligibility for U.E. and S.M. scholarships, select subjects meeting scholarship requirements and calculate their average, and one to tabulate results by scholarship area, school district, and school.

The new school and district code was adopted by the Registrar in 1963 to provide a basis for the numerical identification of matriculation candidates and thus eliminate a tremendous amount of hand tallying. Additional mechanization will be necessary in 1964 and 1965.

The Grade VII testing programme consisted of the following:—

	Mean Score	U.S. Equiv.
Lorge-Thorndike Intelligence Test, Level 4, Form B (Feb. 13–15)	54.3	110.1
British Columbia Social Studies VII Test (Mar. 27–28)	30.9	———
British Columbia Science VII Test (Mar. 28–29)	28.8	———
Metropolitan Achievement Test, Advanced Partial, Form B (Mar. 25–27)—		
Vocabulary 37.1 Reading 31.6 Spelling	39.8	9.8 9.2 8.8
Language (usage, punctuation and capitalization, kinds of sentences, grammar)	52.9	8.5
Language study skills (dictionary and sources of information)	18.2	8.6
Arithmetic computation 32.6 Problem-solving and concepts	31.3	8.7 8.6
Social Studies study skills (sum of two scores)	25.8	10+

Tests were administered to Grade VII pupils in Indian schools, the Yukon Territory, some private schools, and all British Columbia public schools, and 117,675 booklets produced by 30,534 pupils were marked. Forty-two markers produced 579,633 sub-scores from 1,251,894 test pages (41 per pupil), and 17 clerks added, check-scored, entered, and proof-read over 2,284,000 data entries.

B.C. numerical equivalents were produced for mental ages, I.Q.s, and 10 achievement scores. Some 292,975 of these were tabulated by computer and averaged by division, school, and school district. A mean equivalent was produced for each of the 28,794 pupils who wrote five or more achievement tests. The value of such Provincial norms in grading pupils recently has been verified experimentally by Dr. Robin Smith, of the University of British Columbia.* Their value also is emphasized by the apparent mean I.Q. of 110 and by the differences between the B.C. grade level of 7.7 at which this year's tests were administered and the U.S. grade equivalents averaging over 9.0 that were obtained. Increases in the differences between B.C. and U.S. norms which recently have become evident are very gratifying, but may be quite misleading. Recent use of stratified census samples in the United States include racial and economic groups that previously may have been omitted. There is evidence that B.C. standards of achievement for Grade VII are increasing, but perhaps not as rapidly as the comparison with U.S. norms would indicate. The importance of Provincial standards, revised at periodic intervals, with which current standards may be compared, is evident.

Data and estimates of emigration recently obtained from the Dominion Citizenship Branch have made refinements of estimates of child population possible. When foreign emigration is subtracted from foreign and interprovincial immigration, it is noticeable that the net gain, which has been very low during the past five years, has again turned sharply upward. Although births have levelled off temporarily just below the 40,000 mark, and emigration to the United States has increased, there seems to be no end in sight for the expansion of our educational facilities.

Migration of Children Aged 0–15.99 to and from British Columbia (Calendar Years)

	1956	1958	1960	15-year Average, 1946–60	1961	1962	Estimate, 1963
Net interprovincial immigration	9,831	—128	1,132	3,756	216	2,891	4,000
Gross foreign—							
Immigration	4,187	3,219	2,197	2,998	1,667	1,745	1,700
Emigration	2,040	1,930	2,200	1,727	2,210	2,200	2,200
Approximate net gain	11,978	1,161	1,129	5,027	—327	2,436	3,500

* Smith, R. N.: "Standards of Achievement in Local Examinations," British Columbia Educational Research Council, Report No. 4, 1963.

HOME ECONOMICS

REPORT OF MISS MILDRED C. ORR, B.A., B.S., DIRECTOR

The total number of pupils enrolled in Home Economics courses in the public schools of British Columbia during the 1962/63 session was 38,335, showing an increase of 2,263 pupils (6.3 per cent) over the total number enrolled the previous year.

The enrolment by courses is as follows:—

Home Economics 8	13,011	Home Economics 32	86
Home Economics 10	8,019	Home Economics 91	2,763
Home Economics 20	5,965	Home Economics 11	105
Home Economics 21	596	Home Economics 23	329
Home Economics 22	233	Home Economics 24	555
Home Economics 30	4,820	Home Economics 26	338
Home Economics 31	123		
Occupational, domestic, and related skills			1,187
Vocational (tailoring)			87
Special, remedial, or slow learners			84
Jericho Hill School			34

In addition to the above, some senior Home Economics classes and some senior individual pupils in public schools were enrolled in Secondary School Correspondence Home Economics courses.

In the reorganized Grade VIII programme, which came into effect in September, 1962, Home Economics remained a required subject for girls but on a reduced time allotment. A new introductory and exploratory Home Economics 8 Course, which had been prepared during the 1961/62 school-year by the Home Economics Curriculum Revision Committee, was used.

This year additional school districts established the Occupational Programme, and in many of those districts where this programme had been offered previously, the second-year level was introduced. To meet the needs of the pupils taking this programme, a second-year outline of the Domestic and Related Skills Unit was included in the Secondary School Occupational Programme First and Second Year (Preliminary Edition) bulletin.

The number of public schools in the Province with Home Economics departments (formerly referred to as Home Economics centres) increased from 204 in 1961/62 to 209 in 1962/63. Home Economics was offered for the first time at Golden, Clearwater, and Fort Nelson.

A new Home Economics department was opened in each of the following school districts: No. 15 (Penticton), No. 18 (Golden), No. 26 (Birch Island), No. 36 (Surrey), No. 38 (Richmond), No. 39 (Vancouver), No. 43 (Coquitlam), No. 45 (West Vancouver), No. 81 (Fort Nelson), and No. 62 (Sooke). Four older Home Economics departments in School District No. 39 (Vancouver) were closed, and their Home Economics classes were absorbed into Home Economics departments in newer schools in the district. Two Home Economics departments in School District No. 45 (West Vancouver) were amalgamated.

The total number of Home Economics rooms in use in schools was 403. The Home Economics departments in operation varied in size from one to six Home Economics rooms, the greatest number containing two Home Economics rooms.

There were 370 teachers of Home Economics employed in public schools, showing an increase of four over the total for 1961/62. The percentage of Home Economics teachers holding degrees in Home Economics has increased slightly in each of the past two years and was 58.3 per cent in 1962/63.

The need for fully qualified Home Economics teachers continues to exceed the number available.

The Director and Inspectors of Home Economics co-operated with the Division of Curriculum by serving as consultants on the Home Economics Curriculum Revision Committee, which was set up in September, 1961, and continued its work throughout 1962/63. The revision of Home Economics courses to be introduced in Grade IX in September, 1963, and in Grade X in September, 1964, was completed in June, 1963.

The use of group conference-workshops was resumed and increased in 1962/63, one of the purposes being to orient teachers to the revised and updated philosophy and objectives of the secondary-school Home Economics programme and to discuss the implementation of and some ways of organizing the revised Home Economics 8 course. Conference-workshops were held for Surrey, Chilliwack, Coquitlam, North Vancouver, Prince George and Vanderhoof, Dawson Creek, Prince Rupert, Courtenay, Trail and Castlegar, Kamloops, Nanaimo.

Several of the workshops were attended by a representative from local secondary-school administrative staffs and by girls' counsellors, as well as by Home Economics teachers.

Besides those workshops initiated by the Division of Home Economics, members of this Division attended and participated in regional Home Economics workshops and conventions at Prince George, Abbotsford, and Langley, and in the Occupational Programme conferences held at Kamloops and Duncan.

The School of Home Economics and the College of Education, University of British Columbia, continued to co-operate by offering emergency summer session teacher-training for Home Economics graduates. In addition, the programme for certificated teachers working toward their Bachelor of Education, major in Home Economics, was continued at the summer session at the University of British Columbia.

CORRESPONDENCE SCHOOLS

Secondary School Correspondence Branch

REPORT OF DR. EDITH E. LUCAS, B.A., D. ès L., DIRECTOR

Enrolment

The total enrolment in the Secondary School Correspondence Branch during the year 1962/63 was 17,665. This shows a decrease of 2,098 students or 10.6 per cent over 1961/62, when the enrolment was 19,763.

1. *Number of Students.*—The enrolment by age over the last four years and the per cent increase in the total enrolment is shown in the following table:—

	1959/60	1960/61	1961/62	1962/63
School age (under 19 years)	10,120	10,192	9,804	8,971
Adult (19 and over)	7,184	8,777	9,959	8,694
Total enrolment	17,304	18,969	19,763	17,665
Increase by year	915	1,665	794	2,098[1]
Per cent increase by year	5.6	9.6	4.2	10.6[1]

[1] Decrease.

2. *School Students by Grade.*—Students who could properly be called school students (those registered in a school or taking a full grade by correspondence) were classified by grade as follows:—

	Number	Per Cent
Grade VIII (French 8)	184	2.9
Grade IX	866	13.4
Grade X	1,514	23.2
Grade XI	1,839	28.4
Grade XII	2,078	32.1
Totals	6,481	100.0

3. *School Students Registered in a School.*—A large number of school students were registered in a school and took one or more courses by correspondence.

	Number	Per Cent	Per Cent of Total Enrolment
Small high schools (fewer than 140 students in Grades IX to XII)	1,868	28.8	10.6
Large high schools (more than 140 students in Grades IX to XII)	4,154	64.0	23.6
Private schools	467	7.2	2.6
Totals	6,489	100.0	36.8

Students registered in a school enrolled in correspondence courses for the following reasons:—

	Number	Per Cent
Course not offered in school	3,433	52.8
Time-table difficulties	999	15.4
Failure in the course	793	12.2
Continuing from previous year	1,262	19.6
Other reasons	2	.....

4. *Students Taking a Full Grade by Correspondence.*—A total of 527 students enrolled in a full grade by correspondence for the following reasons:—

	Number	Per Cent
Living too far from a school	337	64.0
Too ill to attend school	150	28.4
In receipt of social assistance	2	0.4
Needed at home	15	2.8
Other	19	3.6
Correctional institution	4	0.8
Totals	527	100.0

Classification of Students by Fees

Students may be classified by the fee they paid for each course.

	Number	Percentage of Total Enrolment
1. *School-age students charged no fees:*		
Not in attendance at school—		
Because of illness	309	1.8
Because of need at home	22	0.1
Because of distance factor	358	2.0
In receipt of social assistance	57	0.3
In correctional institutions	197	1.1
Unemployed	61	0.4
Other	76	0.4
Totals	1,080	6.1
2. *Adult students charged no fees:*		
Because of illness	115	0.7
Because in receipt of social assistance	165	0.9
Because in a correctional institution	580	3.3
Enrolled in preparation for Canadian citizenship	194	1.1
Unemployed	237	1.3
Totals	1,291	7.3
3. *Students attending a high school* ($10 per course)	4,773	27.1
4. *Non-school students taking academic and technical courses* ($15 per course)	3,975	22.5
5. *Grade XIII students:*		
Attending school ($25 per course)	315	1.8
Not attending school (B.C.) ($30 per course)	632	3.6
Totals	947	5.4

	Number	Percentage of Total Enrolment
6. *Students resident outside British Columbia:*		
Temporarily resident outside British Columbia ($15 per course)	104	0.6
Enrolled in courses under the Federal-Provincial Agreement ($15 per course)	227	1.3
Enrolled in courses not under the Federal-Provincial Agreement ($20 per course)	217	1.2
Enrolled in Grade XIII courses ($35 per course)	30	0.2
Totals	578	3.3
7. *Students continuing courses from a previous year* (no fee)	5,906[1]	-----

[1] This figure also includes some students who at the same time enrolled in and paid for new courses.

Completion of Papers

The number of papers marked over the last five years and the per cent increase per year is shown in the following table:—

	1958/59	1959/60	1960/61	1961/62	1962/63
Number of papers marked	178,246	196,618	199,802	217,314	203,513
Per cent increase (per year)	12.7	10.6	1.6	8.7	—4.5

[1] Decrease.

Instructional Staff

An inside staff of 4 course-writers and an outside staff of 91 instructors were employed during the year. The outside instructors were paid on a piecework basis.

New and Revised Courses

New and revised courses offered during the year were as follows: French 8, Chemistry 101, and Latin 10.

Courses

The number of students who enrolled in each of the high-school subjects during the year was as follows:—

	School Age	Adult	Total
English Literature 10, 20, 30, 40, 100	998	1,238	2,236
English Language 10, 20, 30, 31, 40, 101	1,047	1,575	2,622
Social Studies 10, 20, 30, 32, 33	1,021	512	1,533
Health and Personal Development 10, 20, 30	533	27	560
Mathematics 10, 20, 12, 30, 91, 101	1,898	2,651	4,549
Science 10, 20	562	203	765
French 8, 10, 20, 91, 92, 110, 120	957	483	1,440
German 10, 20, 91, 92, 110, 90, 120	491	209	700
Latin 10, 20, 91, 92, 110, 120	563	107	670
Spanish 10, 20, 91, 92, 110	246	123	369
Agriculture 10, 20, 38, 39	213	38	251
Art 10, 20, 39	283	104	387
Homemaking 10, 20, 30, 91	547	42	589
Record-keeping 11	297	90	387
Typewriting 10, 20	651	209	960
Mechanical Drawing 10, 20	179	89	268
Bible Literature 10, 20, 30, 40	38	33	71
Extramural Music 11, 21	9	20	29
English and Citizenship 19, 29	13	410	423
Electricity 20	92	88	180
Business Fundamentals 24	188	75	263
Frame-house Construction 20	17	37	54
Auto Mechanics 20, 30	627	163	790

Mathematics for Steam Engineering, Second Class	.....	74	74
Spherical Trigonometry	.....	4	4
Steam Engineering, Fourth, Third, Second, First	5	462	467
Steam Heating for Plant Operators	2	65	67
Preparation for Citizenship	1	193	194

English for New Canadians

During the year this division supplied 1,100 students with new material from our course in English and Citizenship I; 320 students were supplied with material from the English and Citizenship II and 76 with English and Citizenship III; 194 students took the course in English 19 and 229 students took the course in English 29 by correspondence. In addition, 194 students were enrolled in the Preparation for Citizenship courses. Classes in English were held in about 50 night-school centres, and material was supplied for other classes and individuals in about 76 small isolated places throughout the Province. Since volunteer instructors no longer make yearly reports, it is impossible to estimate how many students have been using books already supplied.

ADULT EDUCATION

Enrolment

	1961/62	1962/63
Total enrolment	19,763	17,665
Adult enrolment (19 years and over)	9,959	8,694
Per cent adults	50.5	49.2

Adult Students Completing on the Interrupted Programme

A total of 951 students was completing the University Entrance requirements under the Interrupted Programme.

Enrolment in Courses

The number of adult students enrolled in each course will be found under my report of High School and Vocational Courses.

Elementary Correspondence School

REPORT OF ARTHUR H. PLOWS, B.ED., DIRECTOR

During the school-year 1962/63 there were 1,084 pupils enrolled in Elementary Correspondence School. Of these, 943 were enrolled at Victoria and 141 at Pouce Coupe in the Peace River District.

ENROLLED AT VICTORIA

Month	Grade I	Grade II	Grade III	Grade IV	Grade V	Grade VI	Grade VII	Grade VIII	Total
September	88	67	73	82	87	41	69	71	578
October	93	80	87	101	96	54	83	104	698
November	97	82	97	112	96	58	90	121	753

June	27	15	20	21	20	9	16	13	141

The number of papers marked at these two centres was as follows: Victoria, 119,073; Pouce Coupe, 18,093; total, 137,166.

Adults enrolled in courses Grades III to VIII, inclusive, totalled 305, and 6,962 additional papers were marked.

The average number of papers marked per instructor was 9,939. The average number of papers submitted per pupil was 133, as compared with an average of 108 in 1961/62.

As additional services, kindergarten kits were supplied to 148 pre-school-age children, and instruction kits for teaching illiterates were sent in 36 cases.

Authorized under section 20 of the *Public Schools Act,* correspondence instruction classes were established at 13 centres, with a total enrolment of 69 pupils.

During the year minor revisions were carried out in lesson material, and attractive covers were designed for instruction booklets.

The Victoria staff consisted of a Director, 13 instructors, and a clerical staff of 5; at Pouce Coupe, 1 instructor and 1 instructor-clerk.

DIVISION OF SCHOOL BROADCASTS

REPORT OF MARGARET A. MUSSELMAN, B.A., DIRECTOR OF SCHOOL BROADCASTS

Programmes Presented

Radio

Provincial programmes (planned, prepared, production supervised, and results evaluated)	103
Western regional programmes (planned and prepared content, supervised production, and evaluated results)	32
Western regional programmes (analysed scripts and evaluated results)	36
National programmes (gave suggestions and advice in planning, and evaluated results)	40
Total number of radio programmes made available for classroom and home student participation	211

Television

Western regional (British Columbia was responsible for 5 of the 13 programmes)	13
National (assistance was given in advice, in distributing teacher guide material, and in evaluating the programmes)	77
Total television programmes available	90

The number of radio programmes decreased because of the shorter broadcast term enforced by changes in the network. Television programming is increasing.

Manual and Guides (Prepared and Distributed)

British Columbia Teachers' Bulletins	10,000
Pictures in the Air	3,500
Junior music	25,000
Intermediate music	44,600
Ecoutez	12,000
Calling Young Canada (distributed only)	7,000

Increased supply of the above were again inadequate for the demand.

Demonstration Classes

Classes were conducted during winter and summer courses in the Victoria and Vancouver Colleges of Education.

Extent of In-school Participation in British Columbia

	Number	Per Cent
Schools reporting	1,221	88.67
Schools using radio broadcasts	787	64.45
Divisions using radio broadcasts	3,736	34.45
Students using radio broadcasts	115,764	33.86
Schools using television broadcasts	118	9.67
Divisions using television broadcasts	392	3.61
Students using television broadcasts	12,353	3.61

Increase in use from 1961/62 to 1962/63 is indicated as follows:—

	Radio	Television
Schools using	55	56
Classes using	393	225
Students using	8,033	6,862

Award

The British Columbia Department of Education won a first award for " Pictures in the Air," an art programme with social studies and language value. The Institute for Education by Radio-Television, Ohio State University, rated this series the best in-school educational radio programme on this continent.

DIVISION OF VISUAL EDUCATION

REPORT OF J. R. POLLOCK, B.A.Sc., DIRECTOR

Submitted herewith is the circulation report of the Division of Visual Education covering the period September 1, 1962, to August 31, 1963.

The library contains 3,456 motion pictures and 6,695 filmstrips.

One thousand one hundred and thirty-one out of 1,378 public schools in the Province registered for service.

TEXTBOOK BRANCH

REPORT OF BASIL R. WILSON, DIRECTOR

During the school-year 1962/63, a total expenditure of $581,625.93 was required to complete 5,047 requisitions for free books and supplies for students in Grades I to VI in the elementary schools of the Province. Though the number of requisitions increased by 1½ per cent, from 4,972 to 5,047, the value of books supplied decreased by $48,978.96. The decrease can largely be attributed to the exemption of the social services tax for prescribed school textbooks.

The number of purchase orders received during the year amounted to 22,605 orders received, valued at $1,045,860.95, a decrease of less than 1 per cent from last year, when 22,932 purchase orders, valued at $1,052,841, were received and serviced.

On the Rental Plan, 2,987 requisitions were received for textbooks to be issued to students as required in Grade VII through Grade XIII, an increase in the number of requisitions received and completed of 68 requisitions or 2.33 per cent over the previous year.

Collections for rental fees, lost and damaged books paid for by students, and remittances covering fire losses showed an increase of 5.74 per cent to $786,503.02

Rental refunds to students who left the British Columbia school system decreased to $9,062.45, which was 2.13 per cent less than the amount refunded to students who left the British Columbia school system during the school-year 1961/62.

During the year the Library Service Division received and serviced 645 purchase orders for 28,267 library books, supplementary reading material, wall maps, and globes. These orders were received from the various school districts throughout the Province. To carry out this part of the operation, four people are employed on a permanent basis. These people are assisted by other members of the staff from time to time and as conditions demand.

The Shipping Division employs four men on a permanent basis, who are assisted by an additional 23 men employed during the peak periods.

The total weights and quantities shipped via various general shipping agencies are shown on the following tabulation:—

Report of Shipping Division

	Freight		Express		Mail		Cost
	Pieces	Weight (Lb.)	Pieces	Weight (Lb.)	Pieces	Weight (Lb.)	
July	9,638	479,570	13	323	1,425	2,922	$438.27
August	14,602	818,750	40	892	2,680	6,474	968.05
September	3,679	171,100	49	1,455	4,753	13,485	2,022.73
October	1,282	59,530	40	933	5,910	15,793	2,369.07
November	397	15,550	36	671	3,916	8,738	1,310.00
December	616	24,130	16	225	1,867	3,672	553.85
January	635	27,680	26	416	2,289	4,806	720.88
February	292	11,380	9	234	1,733	4,040	596.68
March	181	7,420	3	94	2,191	4,024	593.52
April	317	12,740	7	148	1,515	3,335	500.21
May	217	8,480	19	298	1,429	2,571	385.58
June	600	27,830	6	200	3,727	4,431	664.68
Totals	32,456	1,664,160	264	5,889	33,435	74,291	$11,123.52

Total pieces, 66,155; total weight, 1,744,340 pounds; total cost of mail, $11,123.52.

Each year, principals and teachers teaching in the schools of the Province are encouraged to send in any books that are damaged or beginning to show signs of wear, to be repaired. During the year 1962/63, books to the value of $390,060.71 were sent in on this programme, and of these, books to the value of $317,279.07 were recovered at a cost of $136,061.51, and were reissued to the schools.

Once again I wish to take this opportunity to express my sincere appreciation for the willing co-operation that I have received from each member of the staff, without which the Branch could not possibly maintain the reputation of efficiency that it presently enjoys, and also I would like to express my thanks for the help and consideration we have all enjoyed from school authorities throughout the Province.

INSPECTION OF SCHOOLS AND SCHOOL SERVICES

REPORT BY E. E. HYNDMAN, B.A., B.PÆD., CHIEF INSPECTOR OF SCHOOLS

From September, 1962, to July, 1963, there were 13,850 teachers under the supervision of 53 Provincial District Superintendents of Schools, and six officers of equivalent rank employed by the Vancouver School Board. These teachers include all employed in the public schools of this Province, as well as those in the Indian day schools and some in Provincial institutions. In addition, a few teachers in private schools were observed for purposes of certification. The number of formal written reports issued was 3,652, resulting from 13,193 reported inspections.

Five District Superintendents were appointed to staff on August 1, 1962. Two of these replaced Messrs. K. B. Woodward and C. J. Frederickson, who were superannuated on July 31st, and three were additions to staff. All five appointments were highly qualified by academic standards and by their successful experience as senior principals or directors. Mr. R. E. Flower, principal of the Williams Lake Secondary School; Mr. E. E. Lewis, principal of the Mission Secondary School; Mr. D. E. McFee, principal of the Dawson Creek Secondary School; Mr. F. T. Middleton, director of instruction in Kamloops; and Mr. D. H. MacKirdy, principal of the Brooks Junior Secondary School, were assigned to positions in Dawson Creek, Victoria, Kitimat, Kamloops, and Smithers respectively. Transfers of District Superintendents to the larger districts were made only after consultation with the School Boards concerned. These School Boards chose the District Superintendents who were experienced in the more remote areas of the Province and had established reputations in educational circles. It is this opportunity for promotion that encourages outstanding principals and directors to apply for appointment as District Superintendents even though they may serve several years in remote parts of the Province.

All the District Superintendents were appointed as executive officers by the School Boards in accordance with section 11 of the *Public Schools Act* and received administrative allowances. The duties assigned by the School Boards varied according to the needs of the particular area. In many of the larger districts the administrative assignments make it necessary to delegate many supervisory responsibilities to directors, supervisors, and consultants. In the rural areas the supervisory and the administrative duties are carried out by the District Superintendent.

IN-SERVICE EDUCATION

In no period in the history of this Province have there been so many changes in the curriculum and in the organization of schools as during this past school-year. These changes, all of which have been justified, have nevertheless placed extreme demands on the resources in leadership of the professional organization of teachers and the supervisory staff of both the districts and the Department. The ready acceptance of change by teachers has been in a large measure the result of endeavours by the In-service Division of the British Columbia Teachers' Federation. At the same time, members of the Department in curriculum and in supervision have willingly shared in projects over the entire Province to bring understanding, appreciation, and even enthusiasm for the new developments, as follows:—

(1) The biennial conference for principals was held in August, 1962, under the joint sponsorship of the Department of Education, the British Columbia Teachers' Federation, the British Columbia Trustees Association,

and the College of Education. Since the theme of the conference was "The Principal and the Developing Curriculum," there were major addresses by several members of the Department of Education. The conference was most successful in providing an understanding of the new trends.

(2) The annual conference of the Department of Education was held in April, 1963. The theme of the conference was the "Junior Secondary School." This intensive study for two days prepared the District Superintendents more adequately for their duties in the districts and, at the same time, brought an awareness of local problems to the Department.

(3) The zone meetings of District Superintendents held in six regions of the Province provided a means for explanation and discussion on the changes in curriculum and school organization. The District Superintendents were thus better prepared to give the leadership which is so essential in the modern interpretation of supervision. Representatives from headquarters attend these meetings to bring effective co-ordination of endeavours.

(4) Fall and spring teachers' conventions provided opportunities for explanation and discussion of new developments. Members of the Department played a significant role in these meetings.

(5) Conferences of principals and administrators held regularly in areas of the Province asked for and received assistance from Department officials.

(6) In co-operation with the In-service Education Division of the British Columbia Teachers' Federation and the publishers, institutes were arranged for teachers of Mathematics 8 in 10 regions of the Province. Two of the text's authors, Professor Blumfiel and Mr. Eicholz, spent afternoon and evening sessions explaining the programme to teacher groups. This was the terminal event in a whole series of in-service education projects introducing the new mathematical concepts. As a result of these efforts, which were fostered jointly by the British Columbia Teachers' Federation and the Department of Education, the teachers of the Province were quite adequately prepared to teach the new Mathematics 8 course.

(7) Workshops for the teachers in Occupational Programmes were held in three areas of the Province—Kamloops, Burnaby, and Duncan. Each of these drew teachers and administrators from a wide area and proved the willingness of professional staff to spend time and effort to prepare themselves adequately for new developments. So revolutionary are the concepts of this new programme to teachers prepared under traditional academic courses that it is a major challenge to bring understanding and appreciation of the philosophy and procedures in the Occupational Programme. The influence of these workshops was significant, but there remains much still to be accomplished.

(8) On request of the Secondary Professional Advisory Committee, an evaluation of the French 8 programme was undertaken co-operatively with the In-service Education Division of the British Columbia Teachers' Federation. Separate questionnaires were answered by District Superintendents, principals, and teachers of French 8 classes. They were then compiled and statistically analysed by groups of teachers. In addition, approximately 35 classes were visited for periods up to 1 hour. Two very useful purposes resulted from this evaluation: it indicated, first, that the new French 8 course was being well taught and well accepted by

principals and teachers; the second useful product of the evaluation was its effectiveness in emphasizing to principals and teachers the objectives of the course and the worth-while procedures in organization and instruction which were being developed in various centres.

(9) A team evaluation of the A. W. Neil Junior Secondary School was undertaken as a co-operative endeavour rather than as an exercise in inspection. With the approval of the Alberni School Board and the full support and assistance of Mr. R. W. Lawson, principal, a study in depth was made of the school organization, the supervisory programme, and the instructional procedures. Seven District Superintendents each studied in his own special area and discussed philosophy, instructional material, and procedures with the administrators, the Department heads, and the subject-area teachers. A final report was prepared jointly, with copies to the School Board, the principal, and the Department of Education. The exercise proved to be valuable to the District Superintendents who participated, since it gave insight into significant elements of the new school organization and programme. It was also useful to the principal and his staff, who gained from their own participation and from discussions with other experienced specialists.

(10) As a result of a request by the Music Curriculum Committee, a district evaluation of the music programme in both elementary and secondary schools was made in School District No. 43 (Coquitlam) under the chairmanship of Mr. R. B. Stibbs, District Superintendent of Schools. Evaluation instruments were prepared jointly by members of the teaching staff and the Curriculum Committee. The results of the evaluation were then returned to the Music Curriculum Committee in the anticipation that they would influence future curriculum development in this subject area.

Reports of District Superintendents

Local In-service Education Projects.—As would be expected, the reports submitted by the District Superintendents reflected the local interest in in-service education programmes. It is without doubt that professionally minded educators, in whatever capacity they are employed, have closed ranks to meet the challenge of preparing for the new programmes. All reports indicate a variety of activities, but some of the more unusual efforts included the teacher retraining and television programmes in Vancouver, the Trail workshop in English, the off-campus University courses in Abbotsford and Burnaby, the Nelson workshop in physical education, the resident professor in Prince George, the Campbell River workshop in arts and crafts, and the educational television programmes by CKOK. In Richmond a successful programme functioned under the direction of a committee composed of elected and appointed officers.

Non-academic Classes.—The reports this year reflected, as a significant trend of education in the Province, an increased emphasis on special education, both in the elementary and secondary schools. Most districts reported the establishment of classes on the Occupational Programme, and many also initiated or extended the organization of special classes in the elementary grades. Vancouver reported classes on the Occupational Programme in 12 schools, whereas Burnaby reported favouring the centralization of these classes in two schools. Districts reporting the establishment of new or additional special classes included Surrey, Maple Ridge, Mission, Chilliwack, Merritt, Terrace, Prince Rupert, and Delta.

Continuing Education.—Developments in adult education are described enthusiastically in the Vancouver report, but the spectacular expansion in this district

is by no means an isolated incident. Significant expansion in adult education is reported also by Burnaby, Chilliwack, North Vancouver, Victoria, Maple Ridge, Vernon, Kelowna, Penticton, and Kamloops. Directors of adult education have recently been appointed in Langley, Penticton, Courtenay, and Creston.

Experimental Projects

Even though the energies of teachers and administrators have been directed toward the demands of the new programmes, there have nevertheless been several significant experiments reported during the current year. A few of these are:—

Internship.—The report for the Trail School District described an experiment on the use of teacher interns.

Major Work Programme.—The Kelowna report commented favorably on a project at the Grade V level.

Elementary Acceleration Programme.—Chilliwack reported a project on continuous promotion without " skipping."

Programmed Learning.—Vancouver reported an extensive survey of teaching-machines and programmed learning, of team teaching, and of the new experimental courses in science.

Television.—Television sets have been purchased by the Langley School Board, and an assessment of their use has been made during the past year.

Segregated Classes.—Burnaby District reported on an experiment with segregated classes for boys and for girls in Grade I.

Direct Classroom Supervision

As in previous years, opportunities were utilized to visit many classrooms in various parts of the Province. In addition to the areas of special education, such as provided by the Jericho Hill Provincial School, studies were made of the classes on the Occupational Programme, the teaching of French 8, and the organization for instruction in Grade VIII. While travelling extensively throughout the Province, it was possible to attend a number of meetings with School Boards and many with groups of teachers and principals. These direct lines of communication have served a useful purpose, not only to bring a liaison between the Department and teachers, but also to influence the decisions made by a number of committees, such as the Professional Curriculum Advisory Committee, the Accrediting Committee, and the Occupational Programme Curriculum Committee.

Two schools were examined thoroughly under the direction of this division following complaints to the Superintendent of Education. In each instance constructive proposals were made which would improve the conditions in these institutions.

Conclusion

To an even greater degree than in other years, this division is indebted to both School Boards and to teacher groups for many of its achievements. During this period of major changes in school programmes and organizations, all the energies of supervisory officers have been directed toward bringing understanding and purpose to the teacher in her classroom. This has been possible to the degree in which Boards and teachers have been willing to co-operate. There is a great satisfaction in reporting the interest, goodwill, and whole-hearted co-operation by those responsible for education at the local level.

May I also express my appreciation for the many courtesies and kindnesses by the teachers, the trustees, and District Superintendents during my visits in their areas.

TEACHER RECRUITMENT

REPORT OF PHILIP J. KITLEY, M.A., CO-ORDINATOR

This Branch aims at the promotion of teacher recruitment and the co-ordination of the efforts of all interested agencies toward this end. It has also the responsibility of directing the guidance services of the Department of Education. In addition, it takes care of the editing and distributing of all Departmental press releases.

FUTURE TEACHERS CLUBS

During the year there were 108 clubs operating in the senior secondary schools of the Province, with a total membership of 1,826 members. This was slightly less than the previous year, possibly a reflection of the population " plateau " in Grades XI and XII. On the basis of incomplete annual reports from clubs, it can be estimated that at least 72 per cent of the membership have made definite plans to enter the teaching profession.

A revision of the Handbook for the Future Teachers Club was sent to all clubs. This year for the first time a sponsor's kit, containing a variety of informative and programme material, was compiled and sent to all club sponsors. In addition, four newsletters were prepared and sent to clubs. Another innovation this year was the commencement of a small resource library from which clubs could borrow.

Talks were given to five clubs, and a number of others were visited. This Branch also participated in two or three local conferences, including the Future Teachers Conference at the University of British Columbia, and organized one or two local conferences for sponsors.

ADVISORY COMMITTEE ON TEACHER RECRUITMENT

This Committee held three meetings during the year, the last one in the new Education Building at the University of British Columbia. Prominent among the topics discussed were supply and training of specialist teachers and recruitment projects.

CERTIFICATION OF TEACHERS

A survey of teacher certification revealed steady improvement in level of certification, particularly in elementary schools. Some comparisons are given in the following table:—

Certificate	Total Number in Active Use 1961/62	1962/63
EC	929	836
EB	4,632	4,794
EA	1,538	1,729
PC (SC)	864	1,018
PB (SB)	2,701	3,021
PA	1,901	1,863

During the summer months the Co-ordinator was available for counselling for several days at the University of British Columbia and at Victoria College. Nearly a hundred teachers and teachers-in-training were interviewed, most of them with problems in programmes or certification.

PROMOTIONAL ACTIVITIES

Addresses were given to various groups and conferences. At the University of British Columbia 24 separate groups of Arts and Science undergraduates were addressed on the subject of teaching as a profession.

This office continued throughout the year to act as a source of general information for those inquiring about possibilities in teaching.

United Kingdom Recruitment

In co-operation with the Registrar's office, informational material was again prepared for transmission to the United Kingdom relative to available teaching positions in British Columbia.

Teachers' Scholarships

In the Minister of Education's continuing programme of scholarships for teachers of distinction, the following were awarded: P. Butterfield, Henry Hudson Elementary, Vancouver; Mrs. G. M. Dick, Eric Hamber Secondary, Vancouver; G. Walsh, Hamilton Junior Secondary, North Vancouver; and, J. T. Walsh, Lord Byng Secondary, Vancouver.

Provision of Guidance Material

Material concerning vocational and other aspects of guidance was provided to secondary schools, 112 separate items being distributed. A new policy was worked out with the Federal Department of Labour which will result in making occupational information available to schools in larger quantities in future. A mimeographed bulletin was prepared and sent to schools on four occasions.

Roughly 400 separate individual inquiries for vocational information were dealt with.

Guidance Evaluation

During the course of the year, visits were paid to 20 secondary schools for the purpose of discussing guidance and counselling programmes and procedures. Addresses were given and discussions held with several groups of guidance teachers and counsellors.

Guidance Records

With the assistance of a committee of guidance personnel, the set of record forms in use now for over 15 years was completely revised.

Revision of Grade VII Guidance

As a result of the inclusion of Grade VII as an elementary-school grade, it was felt that a revision of its guidance programme was needed. This was accomplished with the assistance of a teachers' committee.

Workshop

A summer workshop for those new to the guidance field was conducted during two weeks in July at Victoria College.

Vancouver Board of Trade Projects

In co-operation with the B.C. Products Bureau of the Vancouver Board of Trade and the Pacific National Exhibition, another job-study competition was arranged, over a hundred final entries being received and judged.

Discussions were held with a view to developing a new kind of project which will involve active co-operation of school and business personnel to effect more complete liaison for purposes of vocational guidance.

The appreciation of this Branch is extended to all those who contributed so well to the success of this and other of the year's activities.

TECHNICAL AND VOCATIONAL EDUCATION

REPORT OF J. S. WHITE, DIRECTOR OF TECHNICAL AND VOCATIONAL EDUCATION AND REGIONAL DIRECTOR FOR CANADIAN VOCATIONAL TRAINING.

The rapidly expanding features of this branch of education as reported in previous years continued without any slackening of pace throughout this school-year.

School instruction, provision of equipment, operational expenses, and student assistance necessary to provide the many and varied courses offered are met through the Federal-Provincial Training Agreement.

Construction of several training centres reached various stages of completion during the year and is outlined as follows:—

(*a*) British Columbia Vocational School—Prince George: First phase completed and courses in welding, auto mechanics, diesel mechanics, and heavy-equipment operation commenced in the fall of 1962; addition to open September, 1964.

(*b*) British Columbia Vocational School—Kelowna: To open September, 1963.

(*c*) British Columbia Vocational School—Nelson: To open January, 1964; to incorporate the present Kootenay School of Art.

(*d*) British Columbia Vocational School—Nanaimo: The addition to this school to open September, 1963.

(*e*) Vancouver Vocational Institute and School of Art: Additional units opened in the spring of 1962.

(*f*) British Columbia Institute of Technology: Opening planned for the fall of 1964.

(*g*) Additional vocational training facilities were completed at high schools in Burnaby and Vancouver. Further construction was in process at other centres in Vancouver, and planning is under way for similar facilities in Trail, North Vancouver, Penticton, and Vancouver.

Tourist Services Training

During the school-year a Restaurant Training Clinic was conducted at Lillooet; 5 Catering Management courses at Vancouver, Penticton, and Kelowna; 16 Waitress Training courses at Victoria, Penticton, Kelowna, Vernon, Hope, Terrace, Vancouver, Nanaimo, Kamloops, and Duncan; and 5 Room Maid classes at Vancouver, Victoria, and Penticton. A single course in Oriental Waiter training was offered in Vancouver, and Career Expositions at Campbell River and Courtenay. Number of persons trained: Waitresses, 155; room maids, 64; total, 219. Associations supporting and actively assisting: National Employment Service, British Columbia Hotels Association, Canadian Restaurant Association, Auto Courts and Resorts Association, British Columbia Government Travel Bureau, Department of Indian Affairs, and School Boards of Vancouver, Penticton, Nanaimo, and Duncan.

Recruiting and Placement.—Victoria: Job placement here appeared very limited, and as a consequence only one course in each category was conducted.

Vancouver: No problems with either recruitment or placement.

Penticton, Nanaimo, and Duncan: As this was a trial programme in smaller cities, courses were limited to the estimated number of jobs available.

In general, all persons trained under the programme have been placed in either seasonal or full-time employment. This programme appears to have gained complete acceptance by the industry.

Course Writing Workshop.—Revision was made of senior secondary schools' General Programme for Grades XI and XII. Publications completed during the year: "Quantity Recipes" for restaurant industry; "Catering Management Manual"; "Cook's Course—Nanaimo," through Curriculum Development Division; "Waitress Training Manual," revision and reprinting.

Supervisory Training

Fundamentals of Management

Training in the management field has been offered to management supervisors by the British Columbia Department of Education since 1957. The response from industry and small individual companies has been excellent. Large corporations, smaller companies, contractors, manufacturers, retailers, and service industries alike have continued to send their key people for specialized training in Management Communications, Human Relations, Accident Prevention, and Work Study.

All programmes continued to draw full registration for the one-week 40-hour seminars, but the outstanding response was to the new programme, Work Study. Over-registration occurred in each of the Work Study courses offered, and the results obtained by represented companies was equally interesting. Some representatives found they were able to make sweeping changes in the economy of operations, while all in attendance found some immediate profitable use for the course and the principles of work study.

Work study is a combination of method study and work measurement and is so flexible that it can be applied to a business of any size. The techniques are as applicable to an office routine as they are to a production-line. The stress in this course is placed on making more effective use of machines, materials, and manpower. It is not aimed at reducing staff, but in better and more profitable utilization of present resources.

Summary of attendance for 1962/63 follows:—

	Number of Courses	Attendance
Management Communications	5	107
Human Relations	4	130
Accident Prevention	5	104
Combination programme—three above courses in one	2	51
Work Study	6	160
Company-operated programmes	12	134
Totals	34	686

In addition to scheduled programmes, a number of short appreciation sessions were held during the year.

A one-day seminar on Work Study was held for one of the largest complexes in British Columbia.

It might be noted that some companies are setting up work study departments of their own following these Provincial Government courses.

Municipalities, Provincial and Federal Governments continued to participate in all Management Series training.

Business Management Training Programme

An entirely new programme will be offered to businessmen in British Columbia during the fall, winter, and spring of 1963/64. This programme will include four courses: Keeping Records in a Business, Marketing and Sales, Merchandising and Selling, and Management Accounting. The objective of this programme will be to stress the financial side of business, with special emphasis on business failures and ways of keeping a business solvent.

Courses under Development

Preliminary work was undertaken in the development of courses in rock drilling and diamond drilling, draughting, horticulture, and garment-manufacturing.

Vocational Instructor Training

A total of 31 vocational instructors attended the 1962 summer session operated under the auspices of the Technical Branch, Department of Education. Two of this number were from Alberta and one from Yukon Territory.

Course	Enrolled	Completed
Educational Psychology	23	22
Curriculum in Vocational Education	27	26
Supervisory Training	26	25

During the 1962/63 school-year, as a result of meetings between the University of British Columbia and Department of Education officials, arrangements were concluded to offer the Vocational Instructor Teacher Education Programme under the auspices of the College of Education.

Minor changes in the courses constituting the programme and an increase in unit requirements from 15 to 18 were instituted, with July 1, 1963, being the official date of the change. The outcome of the new programme will be that vocational instructors who are qualified academically and wish to proceed to Bachelor of Education degree status will receive university credit for the courses they complete successfully. It would seem that this is the final act in bringing all technical and vocational teacher training under the auspices of the College of Education.

Report of Inspectors of Technical Classes

It should be noted that during this past year the term " Industrial Arts " was changed to " Industrial Education."

New facilities for teaching Industrial Education have been provided in Slocan, Golden, Birch Island, Kamloops, Surrey, Richmond, Saanich, Fort Nelson, Penticton, Williams Lake, Coquitlam, West Vancouver, Vanderhoof, Prince George, and Vancouver.

Thirty-two qualified and five unqualified teachers were required to fill new Industrial Education teaching positions. The increase in the number of occupational classes is placing a severe strain on our teacher-training facilities. The amount of shop time required by the occupational classes is going to tax our shop accommodation. Indications point to the need for shops designed to meet the needs of training the occupational classes.

The revised Grade VIII course was late in reaching the schools, but the opinion of experienced teachers favours the revision.

The total number of Industrial Education teachers employed to staff our schools during the past year was 487.

Automotive Air-brakes Course

In March, 1963, 25 mechanics successfully completed the Automotive Air Brakes Course, sponsored jointly by the Department of Education and the Department of Commercial Transport. Certificates were awarded to graduates of the programme. This course was offered in the Department of Commercial Transport offices in Vancouver under the instructorship of Mr. Kirkland.

Forest Rangers

Commencing April 1, 1962, a programme was arranged in co-operation with the British Columbia Forest Service to train new Assistant Forest Rangers and to upgrade Assistant Rangers to Forest Ranger category in the Forest Service.

The training was carried out at the forestry school at Green Timbers, North Surrey. The arrangement made was that the Forest Service would provide buildings, heat, light, power, lodging, and transportation for the field trips.

The number of students trained was as follows: Two-month basic course, 40 students; one-week lookout course, 13 students; three-day course for Correctional Officers, 30 students.

Kootenay School of Art

The Kootenay School of Art has already been in operation for three consecutive years, and our first diploma graduates are now leaving us to take up the pursuit of art in their chosen fields.

At the original enrolment in 1960/61, we started with 10 full-time students.

Out of these, only four completed the first year (with one more student transferring to another art school and completing his training there afterwards).

In the second year of our operation, 1961/62, the four students who completed the previous year continued on, and two new students joined them in registering for second-year classes. There were also 18 new students for first-year courses. Ten of the first-year students and all six of the second-year students completed their courses (one of the latter is now working as an independent artist with her own studio).

In 1961/62 our first-year enrolment was 10, and six of these have now completed the course. The 10 students who had successfully finished first-year classes in 1961/62 registered for second-year courses, and one student transferred from the Vancouver School of Art into this class. Of these 11, seven have completed the year and have been awarded their immediate certificate.

Of the five third-year students in our diploma courses, one left in April as he had obtained employment with a university department of fine arts in the United States. The remaining four have now completed their diploma course and have received their diplomas.

In the three years of work in these premises, the Art School has seen many changes, and since its recognition and taking-over by the Department of Education, it has received a number of transfer students from the Vancouver School of Art. Some of our students have transferred to other schools in Canada, and one to the art department of the University of Oregon. Another is continuing at the Ecole des Beaux Arts in Montreal, and yet another is studying ceramics at a technical institute in Germany.

Welding tests, A.S.M.E., 68; pipe welding tests, 7; total, 75.

Placement figures are known placement; others may have found employment and not notified the school. Heavy-equipment operators disperse across British Columbia and Western Canada and do not always notify the school of placement.

BRITISH COLUMBIA VOCATIONAL SCHOOL—PRINCE GEORGE

General Review

British Columbia Vocational School—Prince George came to life during the month of July, 1962. The principal, along with three service staff, reported to the site for duty. On the 23rd of July a partial release was granted by the contractor on the automotive shop, and equipment was removed from storage and brought to the school for unpacking and sorting. The month of August was devoted to setting up the shops and organizing the administration of the school.

The school officially opened its doors September 4, 1962, with a staff of nine, and offered instruction in the following trades: Automotive Mechanics, Heavy Duty Mechanics, and Heavy Equipment Operation.

On October 15th a small class in General Welding was started, in a section of the Heavy Duty Mechanics shop, with an enrolment of six students.

April 22nd saw the permanent welding-shop ready for occupancy. Immediate steps were taken to move out of the temporary quarters in the Heavy Duty Mechanics shop.

On May 30th the administrative offices were moved to permanent quarters in the administrative classroom block.

Heavy Equipment Operators' Course Projects

1. Department of National Defence, R.M.R. firing range: Constructed two roads, cleared out range area, and built up firing points.

2. Department of Highways, V.L.A. subdivision: Clearing of right-of-way, grading and shaping of roadways.

3. British Columbia Forest Service, McBride Timber Reserve, forest access road: Clearing of right-of-way and moving of timber.

4. Prince George Rod and Gun Club, new range: Cleared, graded, and constructed firing points, cleared and graded parking areas and access road.

5. Retarded Children's School, new addition: Excavated and backfilled foundation.

Acknowledgments

I would like to take this opportunity to express my thanks and appreciation to the members of the Technical and Vocational Branch, the administration of the Vocational Schools at Nanaimo and Burnaby, and the staff of the Vocational School at Prince George for their co-operation this past year.

COMMUNITY PROGRAMMES BRANCH

REPORT OF J. H. PANTON, M.Sc., DIRECTOR

The first major organizational changes in the Community Programmes Branch since its inception in 1953 were implemented in the fiscal year 1962/63. The growth of Recreation Commissions was marked by extended programme rather than numbers as we have reached the point where most of the communities in British Columbia now have Recreation Commissions. A change in the boundaries of regions was effected to provide better service in the northern areas and to equalize the work load of the Community Programmes Branch field staff. All phases of work in the Community Programmes Branch are steadily increasing as recreation and adult education continue to evidence greatly increased interest and expanded programmes.

Growth chart for Recreation Commissions in British Columbia to March 31, 1963, follows:—

1954	86	1959	266
1955	140	1960	281
1956	183	1961	307
1957	216	1962	332
1958	250	1963	351

Services extended by the Community Programmes Branch to British Columbia communities are as follows:—

(1) Advice to public agencies and individuals on recreational matters by a staff of regional recreation consultants.

(2) New office of fitness and amateur sports to provide special service to sports organizations, communities, and schools.

(3) Adult Education Division—grants, consultation, clinics, and conferences to School Board adult education divisions.

(4) Aid in recreation to the blind through White Cane Clubs organized by staff member Mr. Joseph Lewis.

(5) Large and comprehensive library of books, booklets, films, and filmstrips on innumerable recreation topics.

(6) Drama library—materials and advisory services.

(7) Leadership training through workshops, conferences, clinics, and regional schools.

(8) Regular grants to Recreation Commissions who conducted summer swimming and playground programmes.

(9) Responsible for educational sessions and resource personnel at Annual British Columbia Recreation Conference.

(10) Special grants to those Recreation Commissions who conducted summer swimming and playground programmes.

Recreation Commissions

The following is a list of Recreation Commissions in British Columbia and the annual Provincial Government grant allocated for the year:—

* Commissions receiving grants for directors' salaries.
† Inactive Commissions during year with actual amount received shown in parentheses.

Recreation Commission	Annual Grant
Abbotsford	$480.00
Adams Lake	300.00
Ainsworth	300.00
*Alert Bay	1,200.00
Alexandria	300.00
Alexis Creek	240.00
Argenta-Johnsons Landing	300.00
Armstrong	600.00
Arrowhead-Sidmouth	180.00
Arrow Park West	240.00
Ashcroft	300.00
Avola	240.00
Balfour	540.00
Bamfield	420.00
Barnhart Vale	240.00
Barnston Island	No grant
Bear Creek	240.00
Beaver Creek	480.00
Beaverdell	240.00
Birch Island	240.00
Black Creek	480.00
Blue River	144.00
Bonnington-Corra Linn	240.00
Boston Bar	300.00
Boswell	420.00
Bouchie Lake	180.00
Bowen Island	240.00
Bralorne-Pioneer	600.00
Bridesville	240.00
Brisco	180.00
Britannia Beach	480.00
Brocklehurst	300.00
Brookmere	240.00
*Burnaby	3,600.00
Burns Lake	480.00
Burton	240.00
*Campbell River	1,800.00
Canal Flats	300.00
Canyon	300.00
Cape Mudge	420.00
Cawston	360.00
Cedar	420.00
Central Saanich	480.00
Chase	300.00
Chehalis Crossing	420.00
Chehalis Reserve	240.00
Cherry Creek	540.00
Cherryville	480.00
Chetwynd	300.00
†Christian Valley	----------
Christina Lake	300.00
Clearwater	300.00
Clinton	300.00
Comox Community	420.00
Connought Heights	180.00
Coombs	240.00
*Courtenay	1,800.00
Cowichan Indian Band	540.00
*Cranbrook	2,100.00
Crawford Bay	300.00
Crescent Valley	$360.00
*Creston	900.00
Cultus Lake	480.00
Cumberland	600.00
Comox	600.00
Dawson Creek	600.00
Decker Lake	300.00
Deep Cove	300.00
*Delta	1,020.00
Denman Island	300.00
Departure Bay	420.00
Deroche	360.00
Dewdney	420.00
*District of Coquitlam	1,800.00
District of Matsqui	600.00
District of Mission	480.00
District of Salmon Arm	600.00
Doe River	240.00
†Dragon Lake	----------
Eagle Valley	240.00
East Kelowna	420.00
East Wellington	420.00
Edgewater	420.00
Elko	180.00
Elk Valley	240.00
Emerald Mines	180.00
Enderby	300.00
Erickson	420.00
Errington	300.00
*Esquimalt	900.00
Falkland	300.00
Fanny Bay	480.00
Ferndale	300.00
Field	600.00
Forest Grove	300.00
Fort Fraser	300.00
Fort St. John	420.00
Francois Lake	300.00
Franklin River	300.00
†Fraser Lake	----------
Fruitvale	480.00
Gabriola Island	360.00
Galloway	600.00
Genelle	540.00
Gibsons	420.00
Gillies Bay	300.00
†Giscome	----------
Glenmore	360.00
Glenora	420.00
Golata Creek	180.00
Golden	600.00
Grand Forks	600.00
Great Central	300.00
Greenwood	420.00
Gray Creek	240.00
Grindrod	300.00
Groundbirch	300.00
Haida Masset	240.00
Halfmoon Bay	300.00
Happy Valley-Glen Lake	300.00

Recreation Commission	Annual Grant
Harrison Hot Springs	$480.00
†Harrop	----------
Hatzic Prairie	300.00
Hazelton	300.00
Hedley	240.00
Hixon	420.00
Holberg	300.00
Hope	600.00
Hornby Island	300.00

Three Commissions became totally or partially inactive during the year. A Commission usually becomes inactive due to poor leadership; however, in most cases they return to regular activity. Very often inactivity is the result of lack of interest in seasonal activities or heavy seasonal work on farms and orchards.

The information taken from Recreation Commissions quarterly reports indicates the magnitude of energy and expense which goes into community recreation in British Columbia. The figures below are not a picture of all recreation in British Columbia as they do not include private agencies, clubs, commercial recreation, and

all activities not under the jurisdiction of Recreation Commissions; these run into many millions. The number of participants is also misleading as this includes many who participate in several activities, where they are counted each time. Although we realize there are many discrepancies in reporting, the over-all picture does emphasize the importance of community recreation and the necessity for good organization and administration on the municipal level.

Number of activities reported	6,931
Total number of participants	1,197,960
Income of Recreation Commissions	$958,355.84
Expenditure of Recreation Commissions	$988,790.75

Twenty-two Recreation Commissions applied for and received increased grants during the year. Twenty-one new and reactivated Commissions applied for and received grants.

Community grants are based on such factors as size of community, type of programme, activity of the Recreation Commission, and financial contribution by the Recreation Commission.

Staff

The Community Programmes Branch professional staff was increased by one and the clerical staff by two during the year. Two new positions were established as Assistants to the Director: Adult Education—Mr. A. L. Cartier, office in Victoria; Physical Recreation—Mr. K. K. Maltman, new office at 501 West 12th Avenue, Vancouver.

The field staff of seven recreation consultants underwent several changes. Mr. J. M. MacKinnon moved from Cranbrook to Kelowna.

Mr. R. C. Davis was appointed to Quesnel in November, and Mr. D. J. Gillies was appointed at the same time to Nelson to serve the combined Kootenay regions. Mr. Gillies resigned in March.

During the year the Kootenays were unfortunately subjected to several changes due to staff resignations; this made it very difficult to maintain adequate service for several months.

Mr. D. M. McCooey was transferred from Quesnel to a new office in Smithers, and the north region was divided into the north-east and north-west regions. The new office in Smithers will enable the Branch to give much better service to the northern half of British Columbia.

The regional areas of the Community Programmes Branch have now been equalized so that each recreation consultant has a similar number of Commissions. In the North great distances are compensated for by fewer Commissions to serve.

The seven members of the field staff of the Community Programmes Branch cover large areas. Their duties require many week-end meetings and much night work. A recreation consultant is required to travel considerable distances, and the growth of Community Programmes Branch services is a tribute to the effective way they are discharging ever-increasing duties.

The Community Programmes Branch staff and their locations are as follows:—

Consultant	Office	Region
A. L. Cartier	Victoria	Adult Education
K. K. Maltman	Vancouver	Fitness and Sports
Miss A. E. Adamson	Victoria	Drama
Field Staff		
T. Ruben	Abbotsford	Fraser-Sechelt
E. W. Mayers	Kamloops	Central British Columbia
G. J. Pynn	Victoria	Vancouver Island
D. M. McCooey	Smithers	North-west British Columbia
J. M. MacKinnon	Kelowna	Okanagan-Similkameen
R. C. Davis	Quesnel	North-east British Columbia
D. C. Gillies (resigned March 15th)	Nelson	Kootenays

LEADERSHIP

The Community Programmes Branch provides its most important service through leadership activities. This was greatly expanded through the Adult Education and Fitness and Sports offices (*see* report p. 89). The necessity for skilled leaders, both volunteer and paid, cannot be overemphasized. The Branch has developed a Provincial system of regional workshops and clinics; there are numerous local clinics and conferences designed to discuss and promote leadership. During the 1962/63 year it was decided that the Branch should sponsor a Provincial Summer School for Recreation Leadership. Assistance was again given to the in-service training course for recreation leaders in Greater Vancouver.

Recreation leadership training is the most important area of Branch responsibility, and it requires the attention of governments at all levels. The Community Programmes Branch continued to give priority to the development of these services.

Workshops	Number Attending	Number of Commissions Represented	Number of Courses Given	Cost
Burns Lake	96	16	5	$673.30
Nanaimo	100	25	7	511.00
Williams Lake	57	13	8	443.50
Kelowna	92	25	10	738.62
Dawson Creek	24	7	9	501.40
Totals	369	86	39	$2,867.82

Attendance	492	154[1]	——
Number of Commissions attending	120	67[1]	——

[1] One conference.

Special grants to communities conducting playground programmes and swimming instruction and water safety totalled $11,570. One hundred and forty-two communities received this aid. One hundred and thirty-three aquatic and 36 play-

ground programmes were assisted. These grants are provided to encourage community activity in these extremely important aspects of recreation.

The Nelson Summer School of Fine Arts received a grant of $200. This aid is an effective way to ascertain where the Branch can procure future leaders in the fine arts.

The Annual Provincial Recreation Conference is also a major project for the Community Programmes Branch. The Branch is responsible for the educational sessions and the resource personnel. The conference is also part of the B.C.R.A. annual meeting and provides excellent learning opportunity for professional people, Recreation Commission personnel, and municipal Councillors with recreation responsibilities. The 1962 conference was held in Vancouver as part of the National Recreation Association's Pacific North-west Conference.

Library Services

The film library is now located in Vancouver, and this move has resulted in a much more efficient service to communities and excellent maintenance by the Visual Education Division. The book library was kept up to date with 250 new additions.

Library Statistics

New books purchased	250
New films purchased	55
Number of books circulated	682
Number of films circulated	300

Publications

The Community Programmes Branch bulletin, which is published quarterly, has become an important reference source and provides a very good medium of communication with Recreation Commissions. Six hundred copies of each issue are published and distributed to each Recreation Commission, School Superintendents, Adult Education Directors, and a mailing list of over 75.

There were no new publications or revisions of old ones during the year.

Provincial Advisory Board

The members of the Provincial Advisory Board on Adult Education and Recreation are as follows: Mr. B. W. Baker, Kelowna (Chairman); Dr. B. E. Wales, Vancouver; Mr. A. T. Alsbury, Vancouver; Mrs. W. Saxton, Ucluelet; Dr. A. W. Mooney, Vanderhoof; Mr. P. F. McIntyre, Victoria; Mr. L. J. Wallace, Victoria; Mr. R. H. Reeve, Victoria; Prof. R. F. Osborne, Vancouver; Mr. E. Whitehead, Vancouver; Dr. J. F. K. English, Victoria.

The Board was appointed by the Minister in May of 1962 and met three times during the fiscal year—on July 12th, September 27th, and March 22nd.

The Board was appointed to act in an advisory capacity to the Department of Education concerning policy and procedure as related to the Community Programmes Branch. The Board meets periodically to hear reports from the Community Programmes Branch, which outlines problems and requirements, and the Board then discusses any aspect of the Branch it deems necessary and submits recommendations to the Deputy Minister.

Drama

The drama services of the Community Programmes Branch continued to be taxed to the limit. Between eight and nine thousand books, including plays, pamphlets, magazines, etc., were sent out to interested groups, schools, teachers, etc. Equipment, including curtains, lights, and rheostats, was in constant demand for productions, concerts, special events, and festivals of all kinds.

Over 200 active drama groups with a minimum of 15 members produced from one to five full-length plays during the season, with one-act and workshop plays completing the programme. Play-reading groups, as well as night-school courses on drama, show an increase.

Drama festivals play a major role in the cultural life of British Columbia. Last spring 31 drama festivals were held throughout the Province. Of these, 9 were for schools only, 10 for adults only, 1 included both school and community groups, 4 combined drama with speech arts, and 7 contained music, dancing, drama, and speech arts.

Kamloops played host to the British Columbia region of the Dominion Drama Festival. Entries came from Victoria, New Westminster, Williams Lake, and Kamloops. Prince George unfortunately had to withdraw at the last moment. Adjudicator Essee Ljungh, of Winnipeg, chose Kamloops to represent British Columbia at the Dominion Drama Festival finals in Kingston. Their play, " A Taste of Honey," was directed by Mr. Tom Kerr.

The One-act Final Festival took place in Penticton, with Mrs. Norma Springford, of Montreal, adjudicating. Eight regional festival winners plus Penticton competed, and first-place honours went to the Emerald Players of Vancouver for their presentation of " The Moon Shines on Kylenamoe," directed by Miss Christine Best.

The Community Programmes Branch appointed adjudicators for the festivals exclusive of the Dominion Drama Regional, as well as providing assistance, financial and otherwise, to the committees in charge. Workshops continued to be important to the groups, and the Branch provided leadership and other financial assistance.

The British Columbia Drama Association elected Mr. W. J. Zoellner, vice-principal of the Grand Forks Secondary School, as president. The association is the parent body of all drama groups in the Province. Our Drama Adviser, Miss Anne Adamson, in her capacity of corresponding secretary, gave invaluable assistance to drama groups throughout the Province.

Adult Education Division (Night Schools)

(A. L. Cartier, M.A.)

The enrolment in public school adult education classes increased during the past year from 46,548 to 70,405, which amounts to an increase of 51 per cent. This increase is due to a number of changes that have taken place during the year. The appointment of an Assistant Director in Charge of Adult Education has made possible numerous regional conferences for directors of adult education, in which ideas and techniques were developed for identifying local educational needs and for building programmes to meet these needs. Another important factor has been the decision of nine school districts to appoint full-time directors, who now have the time to exercise their organizing skills. Finally, there has been a growing concern upon the part of the public of the need for continuing education in a world that puts a premium on mental skills.

Besides regional conferences for directors in the Kootenays, the Okanagan, the Central Interior, the North-west, the Fraser Valley, and Vancouver Island, a week-long workshop for directors was held this spring at the University of British Columbia under the joint sponsorship of the University, the British Columbia Teachers' Federation, and the Department of Education. Forty-four directors attended this workshop, and we may expect its fruits to be borne next year in the form of better programmes and increased enrolment.

During the past year the areas of greatest development have been in liberal and academic studies, where the increase has been from 12,000 to 18,000. Vocational enrolments have also increased from 9,000 to 14,000. Another interesting development this year has been in parent education. Over 3,000 parents have en-

rolled in courses designed to help them understand the new curriculum changes and to help them to provide a better learning environment for their children.

Adult Day Schools

The Vancouver School Board has been operating day classes in community centres. This year the King Edward Continuing Education School was successfully started. A similar day school for adults was also started at Kamloops. Day schools for adults have also opened at Penticton and Victoria.

Adult Education Statistics

(*a*) Enrolment by school district was as follows:—

Abbotsford	541	Nelson	505
Alberni	1,142	New Westminster	1,419
Alert Bay	15	North Vancouver	2,131
Arrow Lakes	33	Ocean Falls	21
Birch Island	162	Peace River North	193
Burnaby	3,650	Peace River South	347
Campbell River	254	Penticton	1,103
Castlegar	182	Powell River	507
Chilliwack	954	Prince George	615
Coquitlam	752	Prince Rupert	271
Courtenay	896	Princeton	95
Cowichan	302	Qualicum	27
Cranbrook	273	Revelstoke	81
Creston	355	Richmond	1,789
Delta	374	Saanich	353
Enderby	16	Salmon Arm	498
Fernie	142	Sechelt	95
Fort Nelson	35	Sooke	172
Fraser Canyon	99	South Cariboo	193
Golden	90	Southern Okanagan	211
Grand Forks	240	Summerland	142
Gulf Islands	100	Surrey	517
Howe Sound	159	Terrace	230
Kamloops	1,405	Trail	235
Kelowna	1,043	Ucluelet	73
Kimberley	171	Vancouver	32,262
Kettle Valley	50	Vanderhoof	67
Kitimat	450	Vernon	784
Ladysmith	245	Victoria	6,479
Lake Cowichan	241	West Vancouver	237
Langley	1,463	Windermere	240
Maple Ridge	881	Williams Lake	335
Mission	258		
Nanaimo	1,190	Total	70,405

(*b*) The following summary shows trends in number of school districts, instructors, and classes:—

Year	Number of School Districts	Number of Enrollees	Number of Instructors	Number of Courses
1953/54	49	19,969	842	------
1954/55	55	22,280	948	------
1955/56	57	29,335	1,186	------
1956/57	60	33,565	1,328	------
1957/58	62	36,611	1,401	------
1958/59	64	39,108	1,578	------
1959/60	58	40,867	1,796	1,578
1960/61	64	40,917	1,945	2,220
1961/62	65	46,548	2,273	2,219
1962/63	68	70,405	2,949	3,070

VOCATIONAL PROGRAMME

Year	Number of Enrollees	Number of Instructors	Number of Courses
1955/56	9,040	357	------
1956/57	11,582	440	------
1957/58	11,118	477	------
1958/59	10,761	454	------
1959/60	13,539	540	322
1960/61	12,530	552	552
1961/62	9,783	518	512
1962/63	14,317	685	681

NON-VOCATIONAL PROGRAMME

1955/56	20,291	829	------
1956/57	21,983	888	------
1957/58	25,493	924	------
1958/59	28,427	1,124	------
1959/60	27,328	1,256	1,256
1960/61	28,387	1,393	1,648
1961/62	36,765	1,755	1,707
1962/63	56,008	2,264	2,389

(*c*) The following table shows the classification of courses and enrolment:—

NON-VOCATIONAL PROGRAMMES

	Number of Classes	Number of Instructors	Enrolment
Academic (for credit)	397	396	11,081
English and Citizenship	97	96	2,006
Liberal Studies (non-credit)	250	268	6,064
Fine Arts	172	165	3,307
Domestic Arts	474	400	8,562
Hobbies and Crafts	382	331	6,970
Parent Education	103	105	3,218
Miscellaneous	514	503	14,880
Totals	2,389	2,264	56,088

1963 enrolment increase, 52.8 per cent.

VOCATIONAL PROGRAMMES

Commercial	308	291	6,325
Automotive	42	42	853
Machine Shop	43	40	609
Construction Trades	37	36	633
Electronics	43	45	1,079
Lumbering and Forestry	39	30	1,164
Engineering	36	40	607
Service Trades	41	45	902
Agriculture	9	36	244
Vocational Preparatory	4	4	110
Miscellaneous	79	76	1,791
Totals	681	685	14,317

1963 enrolment increase, 46.8 per cent.

Cost of Operating the Adult Education Programme

Since existing facilities are used, there are no capital costs. In the table below we have not included costs of materials, extra janitor services, advertising, and clerical help because such information is not available. However, the table does show that a large programme is nearly self-sustaining.

(*a*) Tuition fees and salaries for the whole Province in school-year 1962/63—

Instructors' salaries	$699,358.25
Administrative salaries	190,146.95
Total salaries	$889,505.20
Less tuition fees	723,002.86
Deficit before grants	$166,502.34

(*b*) Grants-in-aid for the school-year 1962/63—

Vocational	$108,805.37
Non-vocational	118,017.71
	$226,823.08

The adult education programme is operated at an average annual cost of just under $13 per enrollee. It is subsidized by the Department of Education to the extent of under $3 per student. Whereas enrolment has increased by over 50 per cent, costs have risen by only 25 per cent. This means that more skilful organization techniques have resulted in larger classes which can operate at a smaller per student cost.

There is every indication that improved programmes, the growing demand for more highly educated work force, and a growing interest in education upon the part of the public will result in the continuous growth of public school adult education.

Physical Recreation

(K. K. Maltman, B.P.E.)

During the first nine months of operation, the Sports and Fitness office of the Community Programmes Branch accomplished the following:—

1. *Communications.*—A system of communication was established between the Community Programmes Branch, Sports and Fitness Division, and a majority of the sports groups in British Columbia; this was accomplished as follows:—

(*a*) A Provincial Sports and Fitness Conference held February 9, 1963, which was attended by most major sports groups and agencies in the Province.

(*b*) A sports and fitness survey was conducted through questionnaire with the aid of the Community Programmes Branch regional recreation consultants.

(*c*) Had extensive mailing programme to acquaint sports bodies with Bill C-131 and Provincial services.

(*d*) Attendance at 70 sports meetings.

2. *Clinics.*—Short leadership training programmes were run in conjunction with the respective Provincial sports bodies concerned. A total of eight clinics was conducted during the period July 1st to March 31st—field hockey, football, wrestling (two), gymnastics (two), lacrosse, and creative fitness. Total attendance at these clinics amounted to 700. The clinics were run in Greater Vancouver, Victoria, and the Okanagan Valley.

3. *Leadership Training.*—Two projects were assisted — (*a*) Vancouver Y.W.C.A. leadership training study and (*b*) Greater Vancouver fitness project at Richmond High School. Number of leaders participating in these all-winter leadership schools amounted to 30 in each project or a total of 60 candidates.

4. *Conference.*—A Provincial Sports and Fitness Conference was held on February 9, 1963. Total attendance was 250. This conference brought together a majority of the sports leaders in the Province and enabled the Community Programmes Branch to establish communication with many organizations and to study and discuss many problems relative to this work.

5. *Films.*—At the request of the Provincial sports body concerned, special sport films were purchased in gymnastics, swimming, and wrestling.

6. *Books.*—An excellent start on purchasing books for physical fitness research study was made.

7. *Equipment.*—A limited amount of sports equipment was purchased to assist leadership training programmes. The sports affected were track and field, gymnastics, and wrestling. Policy for allocation of this equipment for leadership training purposes was established and forwarded to Provincial sports bodies concerned.

8. *Office Assistance.*—This service was provided for football, wrestling, track and field, gymnastics, British Columbia Recreation Commission, floor hockey, British Columbia Youth Hostels Association, Y.W.C.A., and weight training. Mimeograph aid was provided for the Victoria Community Programmes Branch office.

9. *Research.*—Efforts in connection with fitness research have been directed toward working with the University of British Columbia School of Physical Education and Recreation, plus other Provincial agencies and organizations or individuals demonstrating a desire to co-operate in fitness research. Two fitness research projects were proposed and planned:—

(*a*) Fitness testing programme at the secondary-school level contrasting two schools. Action on this project slated to begin in September, 1963.

(*b*) A long-term multi-disciplinary research study programme aimed at the elementary-school level.

10. *Policy.*—The Sports and Fitness office of the Community Programmes Branch, Department of Education, used as its base policy the proven policies and practice of the Community Programmes Branch. To these policies have been added the evolutionary changes necessary to work with all Provincial sports and fitness groups, agencies, and organizations.

11. Disbursement of funds made available via Bill C-131:—

Project 1—Field hockey	$280.54
Project 2—Wrestling	236.00
Project 3—Football	820.04
Project 4—Gymnastics	199.00
Project 5—Wrestling (Victoria)	30.00
Project 6—Films	2,300.00
Project 7—Books	998.22
Project 8—Equipment	6,331.08
Project 9—Fitness and Sports Conference	2,425.08
Project 10—Y.W.C.A.	262.00
Project 11—Leadership Workshop (Richmond)	300.00
Total	$14,192.80

JERICHO HILL SCHOOL

(A Special School for Aurally or Visually Handicapped Children)

REPORT OF C. E. MacDONALD, LL.B., B.S., LL.D., SUPERINTENDENT

The total enrolment for the 1962/63 school-year was 311. Of this number, 16 blind pupils were from the Province of Alberta, 3 deaf Eskimos were from the Northwest Territories, and 1 other deaf girl came from the Yukon Territory. The attendance was distributed as follows:—

	Day	Resident	Total
Blind and partial sighted	43	59	102
Deaf-blind	5	----	5
Deaf and hard of hearing	86	118	204
Totals	134	177	311

General Remarks

The resident children have been in excellent health over the past year. This has contributed considerably to making it a successful year.

Through the co-operation of the Metropolitan Health Services, new children were routinely examined and others re-examined as required, along with immunizations. All the pupils were examined by the Dental Health Services and given treatments as required. The Children's Health Centre provided valuable assistance in the assessment of all new candidates for admission. The Canadian National Institute for the Blind has rendered valuable assistance in the counselling of parents of pre-school blind children and of teen-age blind students within the School. I am most appreciative of the splendid co-operation afforded us by these organizations. They, too, have contributed to make it a successful school-year.

Miss Valerie Kinney, Henry Vlug, and Wayne Sinclair were accepted by Gallaudet College to full freshmen standing in September, eliminating the usual preparatory year on the basis of achievement tests. Two of these students made the Dean's List at the mid-year, and two others again at the year's end, with averages around 90. Another of our students, Miss Ellen Hughes, successfully passed the entrance examination to Gallaudet College this spring.

Mr. Victor Rickard completed a survey of vocational courses deemed suitable for the deaf in a proposed vocational centre for certain types of handicapped persons.

Six of our teen-age deaf boys built a 9½-foot " cadet " sailboat in the shop during the year. A second boat is under construction. This project fits in well with the swimming and water safety programme, and the boys have taken a keen interest in sailing on English Bay.

Our Blind Department has had a 31-piece band, with Mr. Cliff Bryson as part-time director. They have played at the Queen Elizabeth Theatre and with the Regina Junior Symphony, amongst other notable engagements. Through the generosity of the Kiwanis Club of Vancouver, the band was smartly uniformed with red blazers and white slacks or skirts.

Through the co-operation of the Transcribers Guild, the production of Braille texts for students attending sighted secondary schools has proceeded satisfactorily for all concerned.

The School undertook during the year to instruct parents of blind children in travel techniques employed by the blind. Pamphlets on the subject and demonstrations were arranged for all those desiring assistance.

During the Easter holiday period, Mrs. Corrigan observed the programme for deaf-blind children at the Washington School for the Blind. It afforded an excellent opportunity to discuss our special problems with experienced teachers in the deaf-blind field there.

Work commenced March 11th on the long-awaited and much needed intermediate-senior deaf boys' residence. When completed it will have sleeping accommodation for 60 boys and 6 staff, along with activity rooms and play areas.

During the last week of June, Mrs. MacDonald and I were privileged to attend the International Congress of Education of the Deaf, held in Washington, D.C. It was a most pleasant and profitable experience, with over 1,500 representatives of 51 nations participating.

In concluding this report, I wish to express my sincere thanks to the Department of Education, the Advisory Committee, and all members of the staff for their generous and unfailing support.

OFFICE OF REGISTRAR AND DIVISION OF EXAMINATIONS

REPORT OF HARRY M. EVANS, B.A., REGISTRAR

For reference convenience this report includes data covering a number of years.

Teacher Registration and Certification

I. Each teacher employed in the public schools must hold a valid certificate, and this office must establish certification and classification, maintaining an individual record for each person, including teaching service. The following chart shows developments in the past 10 years, and indicates that the number of individual service records to be maintained has increased by over 91 per cent in this period.

1	1952/53	1953/54	1954/55	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63
2a	7,116	7,560	8,223	8,757	9,482	10,119	10,856	11,547	12,148	12,815	13,624
2b	158	154	229	176	221	297	332	369	327	254	336
2c	494	444	663	534	725	637	737	691	601	667	809
2d	7.5	6.2	8.8	6.5	8.3	6.7	7.3	6.4	5.2	5.5	6.3
3a	829	965	974	(?)	1,135	1,165	1,270	1,357	1,356	1,503	1,562
3b	12.5	13.6	12.9	(?)	13.0	12.3	12.6	12.5	11.7	12.4	12.2
4	.....	.....	.....	287	310	313	348	388	317	385	418
5a	1,323	1,409	1,637	(?)	1,860	1,802	2,007	2,048	1,957	2,170	2,371
5b	20.0	19.8	21.7	(?)	21.2	19.0	19.8	19.0	16.9	17.9	18.5

1. School-year.
2a. Teachers employed, as at October, from district nominal rolls. Includes regular staff of Vancouver Vocational Institute, Vancouver School of Art, and, up to 1955/56, a portion of Victoria College. Includes supervisors, consultants, relieving teachers, etc.
2b. Numbers with temporary certificates or letters of permission for lack of qualifications, or qualified but over age, included in 2a. A change in age regulations occurred for 1955/56 and continued thereafter.
2c. Increase in teachers employed.
2d. Percentage increase in teachers employed.
3a. Numbers who were teaching as at June 30th in previous school-year, not teaching in November of year shown; that is, drop-outs.
3b. Drop-outs as a percentage of numbers employed in previous year.
4. Numbers who left positions during the school-year shown.
5a. Numbers of teachers needed in September of year shown to staff new positions and replace drop-outs from June previous; that is, teacher demand. This does not include replacements for staff changes during the school-year.
5b. Teacher demand for September as a percentage of numbers employed in previous year.

In 1962/63 there was an increase in the number of temporary certificates or letters of permission issued. The number of drop-outs rose to its highest point, but in percentage was less than the previous year. The increase in teachers employed rose significantly.

II. During the period up to the end of 1955/56, teacher-training was carried out in normal schools or in the one-year course for graduates at the University. Enrolments, therefore, in such one-year courses were easy to determine. Since 1956/57 such training has been in the College of Education, and enrolment figures are more difficult to relate to completion of a basic teacher-training programme as enrolments cover all years of training. The following charts, however, covering some 13 years, permit of useful comparisons.

	1949/50			1950/51			1951/52			1952/53			1953/54			1954/55			1955/56

References: M.=male; F.=female; T.=total.

1. Teacher-training enrolments, in all years; (a) elementary training, (b) secondary training, (c) total.
2. Enrolled in training programmes likely leading to a certificate at end of year. (This base changed from previous reports.)
3. Listed by training-college at close of year, and teaching considered likely (includes those who may be considered for temporary certificates, but not those who failed the year or failed practice teaching and a limited number of special cases) prior to summer session and supplementals.
4. Number of those listed in 3 who were teaching as at November in school-year following training; (a) numbers with regular certificates, (b) numbers with temporary certificates, (c) total—after summer session and supplementals.
5. Numbers of those listed in 3; (a) not teaching as at November but certificates issued, (b) not teaching and no certificate issued or requested, (c) total not teaching.

NOTE.—The above do not include those taking emergency Industrial Arts and summer session Home Economics training programme. The discrepancy between the total of 3c and totals of 4c plus 5c arise from the fact that some not included in 3c passed further work to be included in 4c plus 5c.

III. The following table shows the certificate classifications awarded those in the training-college in the year shown, who were teaching in November of the year following; that is, actual supply from the training-college. Note that E-C supply dropped from 211 in 1959 to 129 in 1962, whereas E-B and E-A supply rose respectively from 292 and 68 to 435 and 132. Similarly, P-B supply rose from 155 to 234. (It should be noted that these figures include certificated teachers who may have left teaching to return for further winter session training in the Faculty of Education in the year shown.)

IV. The following chart shows the certificate classification of those in the training-college in the year shown, who were not teaching in November following. E-T and S-T indicates that had the individual taught, a letter of permission would have been required. The figures do not include those who would not have received a certificate or been considered for a letter of permission nor those in programmes not normally leading to certification; for example, first-year elementary, various years secondary. Note that the numbers of persons eligible for certificate who did not enter teaching the September following rose from 201 in 1959 to 452 in 1962, and that in the same period the level of certificate classification of these individuals rose significantly. The figures reflect the decision of trainees to undertake extended training for higher qualifications before commencing teaching, evident in other figures available. The process, temporarily at least, is aggravating numerical supply in terms of demand, but fortunately is creating a pool of longer-trained persons who may be expected to enter teaching within the next year or two, thereby increasing numerical supply and quality supply.

2	1,267	1,323	1,409	1,637	(?)	1,860	1,802	2,007	2,048	1,957	2,170	2,371
3a	57.7	43.9	47.4	33.8	(?)	51.6	33.7	38.7	50.5	63.5	70.2	69.8
3b	55.9	41.0	46.1	31.9	(?)	49.5	29.1	29.9	40.7	48.0	49.1	45.6

1a. Numbers in training-college listed in June previous as likely available to teach in September of school-year shown.

1b. Numbers in training-college in June previous actually teaching in October of school-year shown.

2. Numbers needed in September to staff new positions and replace drop-outs from June previous; that is, teacher demand. This does not include further replacements required during the school-year.

3a. Numbers listed in training-college in June, as a percentage of demand; that is, 1a as a percentage of 2.

3b. Numbers from training-college who taught, as a percentage of demand; that is, 1b as a percentage of 2—actual training-college supply as a percentage of demand.

VI. The employment of teachers with temporary certificates in 1959/60, as at October 31st, was as follows:—

	Temporary Elementary			Temporary Secondary				
	E-T	E-C	Total	S-T	S-C	S-B	V-C	Total
Elementary schools	127	13	140	9	2	-----	-----	11
Secondary schools	82	1	83	83	8	2	8	101
Totals	209	14	223	92	10	2	8	112
Vancouver School of Art	8	-----	8	-----	3	-----	-----	3
Vancouver Vocational Institute	-----	-----	-----	-----	-----	-----	23	23
Grand totals	217	14	231	92	13	2	31	138
All schools	-----	-----	-----	-----	-----	-----	-----	369

Of the 369 persons with temporary certificates (letters of permission) in 1959/60, 335 were in regular public schools. In 1960/61 the total was 327, with 285 in public schools; in 1961/62 the total was 254, with 228 in public schools; and in 1962/63 the total was 336, with 312 in public schools.

VII. Since 1955 the Department of Education has co-operated with School Boards to obtain teachers from the United Kingdom, and in 1955 to 1960, inclusive, sent an interviewing officer in the early spring to select and recommend individuals for appointments. The procedure changed in 1961, and no interviewing officer proceeded overseas. An extensive file of material is provided to each applicant, with information concerning specific vacancies. Certification and experience are recorded and assistance given to applicants and Boards to assist in appointments. The numbers who have arrived under the immigration plan have been as follows:—

	School-year							
	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63
Elementary	21	30	48	61	33	35	20	19
Secondary	41	35	33	30	35	27	9	15
Totals	62	65	81	91	68	62	29	34

VIII. Teacher-exchange applications proceed through this office. The numbers of applications from British Columbia teachers annually exceed the exchange positions available. Exchanges in recent years were as shown:—

	School-year							
	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63
United Kingdom	22	22	23	26	26	28	23	22
Interprovincial	4	4	1	2	2	1	1	1
Elsewhere	3	5	1	1	....	1	1	1
Totals	29	31	25	29	28	30	25	23

IX. Annually several thousand teachers' certificates have been issued to new teachers and to those who have qualified for permanent certificates or for higher certification. Evaluations are completed for many teachers from other Provinces or countries who have submitted credentials for this purpose; a goodly number do not arrive. General inquiries are considered from outside teachers, numbering in the thousands. In addition, there are many inquiries from British Columbia teachers for evaluations, certification or experience changes, and assistance in learning of specific requirements or suitable training programmes.

Since 1958 an individual teacher-docket system has been possible, leading to significant improvement in correspondence handling. There is difficulty in keeping up with significant annual correspondence volume increase.

Division of Examinations

I. There has been a significant increase in examinations over the years. This Division has arranged for the preparation, printing, and distribution of the June University Entrance (Grade XI–XII) and for the June and August Grade XIII examinations. Considerable administrative time is involved. It is also responsible for arrangements for marking, tabulating, and releasing results, appeals, and maintenance of records. The following tables give significant data:—

Number of Markers

	1952/53	1953/54	1954/55	1955/56	1956/57	1957/58	1958/59	1959/60	1960/61	1961/62	1962/63

Totals	5,342	7,247	7,782	7,312	1,315

Number Completed in August

University Entrance	534	882	993	712	.....
Grade XIII	132	161	210	172	189
Totals	666	1,043	1,203	884	189

Total University Entrance and Grade XIII papers for June and August, 1952/53 to 1961/62, were as follows: 1952/53, 26,049; 1953/54, 27,943; 1954/55, 30,894; 1955/56, 32,255; 1956/57, 35,460; 1957/58, 43,184; 1958/59, 52,862; 1959/60, 62,514; 1960/61, 69,926; 1961/62, 73,891; 1962/63, 72,080 (with University Entrance August examinations discontinued).

II. For 1962/63, examinations were prepared for June in 21 University Entrance subjects and for June and August in 18 Grade XIII subjects. In June, 1963, 193 examination centres were established in the Province and 49 outside British Columbia, with the farthest-removed centres being in Australia and Scotland.

II. There has been a very heavy increase in the number of requests for evaluations of academic standing from those who wish to enrol in British Columbia high schools or to take night-school or private-study courses to complete requirements, as well as from those who wish to undertake nurse's training or enter similar professional courses. A very large number of persons has sought evaluations and

permission to follow the Interrupted Programme for Adult Students. These numbers are increasing rapidly every year, with expansion in the number of areas offering academic courses through night schools.

IV. *Scholarship Awards, 1963*

University Entrance.—The 15 General Proficiency Scholarships, each of $500, awarded jointly by the University of British Columbia and the Chris Spencer Foundation, were won by the following:—

Place	Name	School	Per Cent
1st in B.C.	Deborah Marjorie James	Magee Secondary	94.750
2nd in B.C.	Joost Blom	St. George's Private	94.125
Area 1	Monica Frances Nasmyth	Mt. Sentinel Secondary	90.750
Area 2	Paul Julian Roberts	Southern Okanagan Secondary	90.625
Area 3	Judith McDonald Cleaver	Kelowna Senior Secondary	86.125
Area 4	Christopher Paul Bates	Kamloops Secondary	93.500
Area 5	Howard Clark Weaver	Delta Secondary	92.625
Area 6	Heinrich Pold	Vancouver Technical	93.750
Area 7	Carolyn Laura Tate	Sir Winston Churchill Secondary	90.625
Area 8	Ellen Gale Gordon	Magee Secondary	93.250
Area 9	Sylvia Mary Gloria Wallace	Burnaby North Senior Secondary	89.500
Area 10	Ethel Ann Thomas	Argyle Secondary	90.500
Area 11	Robert Bruce Montador	Mount Elizabeth Secondary	88.125
Area 12	Julia Ann Oxendale	Esquimalt Senior Secondary	93.875
Area 13	Eleanor Barbara Wilkinson	Milnes Landing Secondary	92.375

The Governor-General's Silver Medal for the highest standing in the University Entrance examinations was won by Deborah Marjorie James. The Governor-General's Bronze Medal for the second highest standing was won by Joost Blom.

Grade XIII.—The six Royal Institution Scholarships, each of $200, awarded by the University of British Columbia for general proficiency, were won by the following:—

Name	School	Per Cent
Dianne Myrtle Skapple	L. V. Rogers Secondary	91.2
Howard Wright Spence	Salmon Arm Senior Secondary	88.1
Terrence John Metcalfe	Langley Secondary	87.3
Douglas Charles Townsend	North Surrey Secondary	87.1
Roderick William Brookes	Langley Secondary	87.0
William Wilfred Wadge	Penticton Secondary	86.0

Financial Assistance

I. In 1959, for the first time in British Columbia, the Government entered the field of extensive scholarship awards to high-school graduates, Grade XIII students, and to students of the University of British Columbia and Victoria College. To qualify to receive an award in 1963, candidates must be domiciled in the Province, are required to apply, and must undertake a full-year winter session undergraduate programme at the University of British Columbia or University of Victoria or in Grade XIII in public secondary schools of the Province, or approved full-year winter session undergraduate programmes at the Notre Dame University of Nelson entering from Grade XII or XIII. Selection of winners is made on the basis of the final Grade XII or Grade XIII or University of British Columbia or Victoria College examinations. There are two awards—first class, for all students who obtain an average of 80 per cent or higher based on a full year's programme, and second class, available for up to 2,500 top-ranking students with high second-class standing. The

second-class awards are divided among Grade XII (University Entrance), Grade XIII, University undergraduate students, and Victoria College undergraduate students, and among the various faculties and groups roughly proportionate to enrolment. First-class awards amount to one-half the tuition fee of the next year of undergraduate study, and second-class awards similarly to one-third the tuition fee. An average of at least 70 per cent, subject to minimum adjustment for certain groups, is required for a second-class award. Awards vary in amount, depending on the institution and faculty attended.

The plan commenced with those writing examinations at the end of 1958/59, with awards being made to those who would undertake training in 1959/60, and has continued similarly annually with an increase from 2,000 to 2,500 for second-class awards and the new provision for awards for study to be taken at Notre Dame University made this year.

Candidates writing University Entrance or Grade XIII examinations apply through the Division of Examinations, University of British Columbia students through the University, and Victoria College students through that institution. All applications are then considered by the Scholarship Selection Committee, representative of the University of British Columbia, Victoria College, and the Department of Education, chaired by the Registrar. Notification to all candidates is made from the Registrar's office, with cheques issued through the Departmental Comptroller. Figures covering Government of British Columbia scholarships follow, based on applications received:—

Examination Year	Original Applications				Final Awards			
	Number Received	Eligible	First Class	Second Class	Total	First Class	Second Class	Amount
1958/59	2,703	1,860	552	1,308	1,782	531	1,251	$229,175.16
1959/60	3,466	2,300	635	1,665	2,192	612	1,580	276,513.32
1960/61	4,223	2,557	703	1,854	2,437	677	1,760	304.117.00
1961/62	4,488	2,871	771	2,100	2,727	739	1,988	336,472.00
1962/63	4,929	3,210	896	2,314	.....	.....	.....	.....

UNIVERSITY ENTRANCE EXAMINATIONS

	1958/59	1959/60	1960/61	1961/62	1962/63
First class (80 to 100 per cent)	268	298	313	354	399
Second class (70 to 79.9 per cent)	337	492	554	550	557
Ineligible	271	403	506	383	458
Total applications	876	1,193	1,373	1,287	1,414

GRADE XIII EXAMINATIONS

First class (80 to 100 per cent)	26	37	33	37	51
Second class (70 to 79.9 per cent)	104	133	169	213	173
Ineligible	100	170	271	279	261
Total applications	230	340	473	529	485

To assist local school authorities, complete tabulations showing schools concerned and final academic averages obtained by all Provincial Grade XII and Grade XIII scholarship candidates were provided to the District Superintendents of Schools. In 1963, using I.B.M. tabulations, lists were distributed showing all scholarship candidates in the school district, arranged by schools. Successful candidates were arranged in academic rank and non-successful candidates alphabetically.

II. The Provincial Government, with some assistance from the Federal Government, annually provides Government bursaries to assist students to undertake further training. An average of 65 per cent is required, together with evidence of financial need. Assessment is based on the last academic studies undertaken. Awards vary from $50 to $300, depending on academic standing and need, with most awards in the range $100 to $150. These awards may be made available to those undertaking University of British Columbia or Victoria College undergraduate study, recognized nurse's training in the Province, and for recognized university study outside British Columbia in undergraduate courses of training not available in this Province; for example, dentistry, veterinary. In 1963 the awards also became available for certain studies at Notre Dame University.

All bursary applications proceed through the Registrar's office, and Bursary Selection Committees, representative of the University and of Victoria College and chaired by the Registrar, determine awards. Notification to all candidates is made from this office, with cheques issued through the Departmental Comptroller.

Figures covering Government bursaries follow, based on applications received by the deadline. A relatively large number of applications cannot be considered because of late submission.

Year	Original Applications		Final Awards	
	Number Received	Eligible	Number	Amount
1959	821	693	653	$82,650
1960	1,071	904	865	113,465
1961	1,395	1,171	1,125	133,145
1962	1,426	1,199	1,168	140,285
1963	1,886	1,619	.....	.....

III. In 1959 a significant change was made in respect of loan assistance. By amendment to the *British Columbia University Act,* authority was given for establishment of the Student Aid Loan Fund of up to $2,000,000. A joint committee composed of two representatives of the University and two representatives of the Department of Education (at present the Registrar and the Departmental Comptroller) authorizes loans. The Department of Education no longer provides loans. Loan assistance may be provided to undertake undergraduate training at the University of British Columbia, Victoria College, the Vancouver School of Art, or recognized university undergraduate training outside the Province when such training is not available in British Columbia. Loan awards have been as follows:—

For Year	Number of Awards	Amount
1959/60	843	$397,570
1960/61	842	435,130
1961/62	875	475,186
1962/63	694	389,378
Totals	3,254	$1,697,264

Strathcona Trust

For many years the Province has participated in the Strathcona Trust. An annual grant has been received, in recent years approximating $1,600, with the moneys to be utilized to encourage physical fitness in the schools and cadet-training and rifle shooting. Cadet awards have been made to the four leading corps for pro-

ficiency, to the National Cadet Camp, to the annual Cadet Trades Training Camp at Vernon, for cadet rifle-shooting competition, and to British Columbia cadets attending Bisley.

Physical Education Shield awards have been provided for each district superintendency, with four in Vancouver and two in Victoria, for presentation to the schools showing the greatest proficiency or the most significant improvement. These awards were discontinued at the end of 1959/60, with the shield to be retained by the winning school and utilized for internal competition within the school.

To recognize and encourage physical education, Strathcona Trust bursaries have been provided in recent years to teachers wishing to undertake further undergraduate course work in physical education. These bursaries recently have been $125 in value. Five awards were made on 1958/59 standings, five on 1959/60, six on 1960/61, five on 1961/62, and five on 1962/63.

The Local Committee, Strathcona Trust for British Columbia, administers the moneys received, and consists of military representatives and representatives of the Department of Education. The Registrar has continued as Secretary, Local Committee, for some years and is British Columbia representative on the Executive Council, Strathcona Trust Fund.

Certification of Professional Librarians

New regulations for the certification of professional librarians became effective in November, 1954. The Registrar acts as Secretary, Board of Examiners for Certification of Professional Librarians, maintains records, and issues certificates authorized. Since new regulations were introduced, the numbers of certificates issued were as follows: 1955, 57; 1956, 62; 1957, 16; 1958, 18; 1959, 10; 1960, 17; 1961, 10; 1962, 40.

EDUCATION OF SOLDIERS' DEPENDENT CHILDREN ACT

REPORT OF MRS. FREDA KINSMAN, SECRETARY OF THE COMMISSION

During the school-year 1962/63 a total of 319 applications was considered by the Commission. Of these, 76 were turned down, the chief reason being that family income was higher than that set by the Commission for grant purposes.

Two hundred and forty-three applications were approved for grants. Students were distributed by grades as follows: Grade IX, 65; Grade X, 75; Grade XI, 61; Grade XII, 42. During the year 17 students dropped out and grants were discontinued.

The students in the greatest financial need received $92.25 for the year; the balance received $77.25. In addition, 18 students who showed outstanding ability were granted a bonus of $20.

STATISTICAL RETURNS
