THE CRESTON REVIEW

VOL. XXII. CRESTON, B. C., FRIDAY, JULY 4, 1930 No. 18

Term-End Report Creston School

Complete List of Promotions in All Divisions—Winners of the Honor Rolls—June Attendance Figures Highest of Year.

Division 1—B. B. Stallwood, Principal.
Per cent. attendance, 95.3.
Passed to Grade 8, names alphabetically arranged: Irene Bourdon, George Collis, James Downes, Robert Dickson, Harry Johnson, Lucille Davis, Harold McLaren Molly Moore, Dorothy Palmer, Nellie Payne, Clifford York. On trial—Hesper Lewis, Bert Morrow.

HONOR ROLLS; Attendance—James Downes, Clifford York.

Division 2—Miss Meldrum, teacher.
Per cent. attendance, 97.7.
Proficiency: Grade 6—Eleanor Spratt, Ethel Sutcliffe, Charlie Taylor. Grade 5—Irving Ferguson, Ruth Spencer, Gerald Phillips.

Promoted to Grade 7 (names alphabetically arranged)—Douglas Alderson, Raymond Bevan, Frank Brady, Lily Brixa, Dorothy Collis, Arthur Dodd, George Dodd, Bill Ferguson, Ruth Hare, Margaret Henderson, Nila Hintz, Emmett Johnson, Hughena McCreath, Lloyd McLaren, Stuart Spiers, Eleanor Spratt, Ethel Sutcliffe, Charlie Taylor.

Promoted to Grade 6 (alphabetically arranged)—Bill Bourdon, Charlie Bush, Jean Donaldson, Irving, Ferguson Norman Nickel, Gerald Phillips, Margaret Torchia, Ruth Spencer, Robert Willis, Frank North.

HONOR ROLLS: Grade 6, Proficiency—Eleanor Spratt. Grade 5, Proficiency, Ruth Spencer. Deportment, Frank Brady. Regularity and Punctuality—Bill Bourdon.

Division 3—Miss Wade, teacher.
Per cent. attendance, 97.25.
Proficiency: Grade 5—Theo. Tompkins, August Morabito, Everett Walker, Grade 4—Beryl Palmer and Clara Paulson equal, Iona Hills, Leona Schmidt.

Promoted to Grade 6 (in order of merit—Theo. Tompkins, August Morabito, Everett Walker, Stuart Hilton, Treasa Torchia, Clara Schmidt, On trial—Einan Kjenstad, Edward Brady, Rachel Morrow.

Promoted to Grade 5—Beryl Palmer and Clara Paulson equal, Iona Hills, Leona Schmidt, Gordon Martin, Gladys Davies, Ruth Davis, Billy Weir, Maisie Ferguson, Doris Ferguson, Jessie Spratt, Billy Craig, Richard Trevelyan, Doris Beninger, Jean Ryckman, Billy Kernaghan, Norman Phillips, Helen McCreat, Irwin Nickel, Doris Hendy, Tom Lewis Edith Walkey, Edra Walkey. On trial—David Armitage, Maggie Brady.

HONOR Rolls: Proficiency—Theo. Tompkins. Deportment—Treasa Torchia. Reguarity and Punctuallity—Gladys Davies and Helen McCreath.

Division 4—Miss Holmes, teacher.
Per cent. attendance, 97.56
Promoted to Grade 4—Francis Bourdon, James Bourdon, Irene Brady, Elsa Foerster, Charlie French, Russel Gabelhei, Marguerite Grant, Stanley Hendren, Egon Hollm, Willie Krygsveld, Billy McFarland, Robert Moore, Ruby Palmer, Georgina Paulson, Eva Phillips, Mary Ross, Ariel Schade, Jean Speirs, Elmer Walkey, Mary Watson, Compbell York. On taial—Irene Pridham, Gustav Steiner.

Promoted to Grade 3—Bernard Connatty, Vernon Donaldson, Ernest Hills, Betty Kernaghan, Tinus Krygsveld, Olive Ryckman, Rose Stewart, Thelma Stewart, Phyllis Wiltse. On trial—George Crawford.

HONOR ROLLS: Proficiency—Irene Brady. Deportment—Vernon Donaldson. Regularity and Punctuality—Campbell York and Francis Bourdon.

Division 5—Miss Brown, teacher.
Per cent. attendance, 96.59.
Promoted to Grade 3—George Cartwright, Lorna Donaldson, Corinne Donneau, Jack Hall, Lillian Hendren, Kenneth Hester, Teddy Hewitt, Olga Hurack, Ethel Morrow, Bert McFarland.

Promoted to Grade 2a—William Edwards, Hobby Kernaghan, Fred McKay, Maud Ross, Hanna Steiner, Vivian Walkey.

Promoted to Grade 2—George Bourdon, Charlie Brunham James Edwards, Kenneth French, Iky Krygeveld, Agnes Lovestrum, Ellen Morabito, David McFarland, Victor McKay, Ethel McLaren, Eileen Pendry, Dorothy Schmidt, Hazel Spiers, Zola Walkey, Vera Watson, Charlotte Wilks, Edna Willis.

Promoted to Grade 1a—Russel Biccum, Harley Brady, Connie Brunham, Helen Dzvigola, Grace Lewis, Leslie Tooze.

HONOR ROLLS: Proficiency—Ethel Morrow. Deportment -Maud Ross. Regularity and Punctuality—Olga Hurack.

Hascroft School Report

Honor Roll winners for the year were: Proficiency, Margaret Huscroft. Marjorie Tedford. Attendance, Alex. Demchuk.

Promoted to Grade 7—Margaret Huscroft, Waddy Huscroft. Marjorie Tedford.

Promoted to Grade 6—Thomas Tedford, Burton Huscroft, Alex. Demchuk.

Promoted to Grade 5—Vergene Bohmer' Rupert Bohmer, Randolf Smith.

Promoted to Grade 4—Aloha Bohmer.

Promoted to Grade 3—Warren Huscroft, Albert Tedford, Bernice Baker.

Promoted to Grade 2—Kenneth Huscroft, Robert Huscroft, Dennison Bohmer.

Pupils receiving Writing Certificates: Senior—Minnie Huscroft, Arthur Hurry, Margaret Huscroft. Marjory Tedford. Junior—Vergene Bohmer, Alex. Demchuk, Thomas Tedford. Progress—Aloha Bohmer, Randolf Smith, Rupert Bohmer.

Death Summons H. W. McDonald

Quite an Early Manitoba Farmer Later at Pincher Creek, Alta. —Resident Here Since 1922—Enjoyed Deserved Popularity.

Creston has lost another estimable citizen in the death of Hugh W. McDonald, who passed away on Friday evening last, at his home at Glencoe Ranch, at the age of 66 years.

Deceased was born at Walkerton, Bruce county, Ontario, in 1864, and at the age of 25 years came west, taking up land at Russell, Manitoba, in 1889, and eight years later was wedded to Miss Emma L. Macdonald, also from Walkerton, the marriage taking place at Russell. For a matter of thirteen years deceased continued to follow agriculture in Manitoba, until 1910, when he moved to Pincher Creek, Alberta, where he spent another dozen years on the farm, and then removed to Creston in 1922, purchasing the former Mike McCarthy orchard property on Grandview Heights, where he resided until the time of his death.

The funeral took place on Monday from St. Stephen's Presbyterian Church, with the pastor, Rev. P. McNab, conducting the last rites, and members of the church session and board of managers, W. H. Watcher, John R. Miller, M. J. Boyd, John Sherwood, H. W. McLaren and Geo. Johnson, officiating as pallbearers, with a large turnout of neighbers and friends to pay a last tribute of respect.

In addition to a widow, deceased leaves to mourn his passing four daughters: Mildred at Gleichen, Alberta; Florence at Manyberries, Alberta; Annaretta at Skookumchuk, and Marion at home. The late Mr. McDonald was a valued member of the managing board of the Presbyterian Church, and a staunch Liberal in politics. A man of particularly genial disposition his industry and affability won for him the respect and esteem of a very wide circle of friends and acquaintances who very genuinely sympathize with the family in the loss of a devoted husband and father

Amongst the floral remembrances were those from Family, Presbyterian Ladies' Aid, Telephone staff, Mr. and Mrs. W. K. Brown, Mr. and Mrs. S. A. Speers, Mr. and Mrs. Alex. McKay, Mr. and Mrs. L. McInnes, Mr. and Mrs. Ge. Johnson, Mr. and Mrs. Hayes, Mr. and Mrs. J. W. Dow, Mr. and Mrs. John R. Miller, Mr. and Mrs. J. A. Bell, Mrs. Stapleton and Margaret, John and Peggy Blinco, Mr. and Mrs. W. Ferguson, Mr. and Mrs. W. C. McAlpine, W. Cromack.

Sandpoint Wins Sunday, 16 to 5

Locals Handed Worst Beating of Season—All the Visitors Hit Well—Allen's Average is 1000 —Extra Base Hits Numerous

Sandpoint completely outclassed Creston in all departments of the international league game here on Sunday afternoon, finishing eased up to win by 16 to 5. L. Benedetti, who pitched effectively against Bonners Ferry the Sabbath previous started in to hurl for Creston but his fast ball was just what Saedpoint wanted and in the five innings he stayed in the box extra base hits were almost more in evidence than one base blows. Joe Brogan, who replaced him, fared somewhat better due the fact that he was able to mix in a slow one here and there, which the visitors were not so fortunate in connecting with. The one bright spot in Creston's play was the hitting and infield work of Jim Cherrington, who made his first appeanance of the season. The star performer for Sandpoint was Allen who hit safely on five trips to the plate, and who twirled the ninth innings to retire the three Creston batters by strikouts. The score:

SANDPOINT		CRESTON	
Beckstrum, ss.	2	Romano, cf.	0
J. Campbell, 2b.	1	Telford, rf.	0

Olson, p.	1		
	16		5

SANDPOINT 4 1 0 1 4 4 0 0 2—16
CRESTON 0 0 0 1 0 3 1 0 0—5

Hits off Heathershaw, 2; off Olson, 5; off Benedetti, 13; off Brogan 7; bases on balls off Brogan, 1; off Olson, 3; struck out by Heathershaw, 3; by Allen, 3; by Benedetti, 2; by Brogan, 2; left on bases Creston, 10; Sandpoint, 6; hit by pitcher, Telford.

Creston is at Sandpoint on Sunday, and winds up the season at Creston with Troy on the 13th.

Canyon City

Mr. and Mrs. W. H. Kolthammer and children are here from Morrissey, and will spend the summer on their ranch. Mr. Kolthammer is again chief clerk at the forestry office at Creston for the summer.

Mrs. C. Blair and daughter, Eleanor, are leaving this week on a trip to the Old Country, where they will spend the next three months visiting friends.

Mr. and Mrs. E. Langston and children of Coalhurst, Alberta, motored in at the weekend on a visit with Mr. and Mrs. Halstead. Mrs. Langston will remain for the summer, but Mr. Langston left for home on Tuesday.

Myles Hurl is here from Peace River, and with Mrs. Hurl are guests of the latter's parents, Mr. and Mrs. W. Cook.

The first cut of alfalfa has been finally harvested but the rainy weather of the past two weeks has made much of it rather poor quality feed.

Strawberry shipping in this section will finish this week. At present considerable quantities are going to the jam factory at Nelson.

Misses Muriel and Frances Knott, who teach at Silverton and Sannon respectively, arrived at the end of the week for the summer vacation at their home here.

The cherry crop is coming along fast and shipments will commence very early next week. The crop promises to be an aveage one.

A. Hale has work under way on a new poultry house that will be about the largest in Canyon. He has just taken delivery of 700 day old chicks.

At the Forestry Association picture show on Wednesday evening Leonard Bond was named junior warded for this district.

WANTED—Quiet and gentle saddle pony for school girl. Chas. Moore, Creston.

For Sub-Division

6000 Acres in the Goat River Valley

Beginning East of Arrow Creek the Government trunk road traverses this property for 9 Miles to its eastern boundaries at Kid Creek 3½ Miles east of Kitchener, and extends 4 Miles north of Kitchener up the Goat River.

Over 20 Miles of Streams run through the Property.

Prospective purchasers will find on this land all varieties of good soil. Rich bottom lands for Dairying purposes. Bench lands for Fruit growing and truck Gardening equal to any in the district. A fine climate, and lands well protected from destructive winds-

Gall and see ELMER BLAIR, superintendent of the property, at Kitchener, who will show you any parts of the land you wish to see, and also the developed portions from which Strawberry shipptng is in full swing from Kitchener.

A VISIT costs you nothing!

Canadian and World Progress

The above is the main heading of an article in the current issue of Toronto Saturday Night dealing with the present economic situation. The sub-headings to the article state: "Dominion's Rate of Advancement Far Above Other Nations—Favorably Situated To Share Again In Progress."

Because, owing to the present temporary depression in Canada, as throughout the world, but fortunately less acute in this country than elsewhere, there is a tendency on the part of many people to become unduly pessimistic, it is perhaps well to pass on some excerpts from this very illuminating article in the Toronto paper:

Economic life is ever in a state of flux. The fortunes of nations are affected by some radical change which may raise or lower their status among the powers. Business men find themselves drawn into the current of new demands and competition, through which the most careful navigation is necessary. Even persons in the most humble circumstances and those who for one reason or another are not engaged in active work cannot fail to notice how their living habits are altered over a period of time.

The most recent period of prosperity probably lends itself to more thorough analysis than any other; for one reason, because from the data available we can more accurately measure the forces employed; we can well determine the degree of economic recovery from the most disastrous conflict in history. Ten years ago the receding tide of war influences left a mass of economic disorder. Inflation of credit and currency, severe depression in commodity prices, unstable political conditions, an enormous weight of debt and taxation and serious labor troubles—these were but a few of the difficulties which faced world business.

The economic forces of the world were finally mobilized along the broadest front ever occupied by an army of workers. The ensuing advance was not uniform the world over; the United States, Canada, France and Argentine swept ahead of other countries, but progress was made almost everywhere on the globe, and in this period of intense economic activity world production reached a record level.

An analysis made by the Canadian Bank of Commerce bears out this statement. An interesting sidelight in that analysis is a comparison between the progress of Canada and that of the world as a whole. It should not be taken for granted that Canadian production of basic commodities exceeded that of every other country, but it is a proven fact that the rate of increase in Canadian production exceeded that of the world by a wide margin in many of the most important branches of economic life.

This advance of Canada was so rapid as to place her among that small group of nations which enjoys a highly diversified economic organization, and one which has a broad field of opportunity for the application of agricultural and industrial science and the direction of business into the safest channels.

Consider a few figures. Between 1925 and 1928, world wheat production increased 13 per cent., but in that same period Canadian wheat production increased 35 per cent. Coarse grains production increased in Canada 21 per cent., as compared with a world increase of only 5 per cent. Coal production—world increase, 5 per cent., Canada, 33 per cent. Oil production—world increase, 24 per cent., Canada, 88 per cent. Lead production—world increase, 11 per cent., Canada 32 per cent. Copper production—world increase 18 per cent., Canada, 81 per cent. Pig iron production—world increase, 14 per cent., Canada 81 per cent. Steel production—world increase, 20 per cent., Canada 63 per cent. Automobile production—world increase, 7 per cent., Canada 66 per cent. Paper production—world increase 9 per cent., Canada, 31 per cent. Aluminum production—world increase 15 per cent., Canada, 125 per cent. Artificial silk—world increase, 103 per cent., Canada, 217 per cent. Water power developed—world increase, 17 per cent., Canada, 43 per cent. Foreign trade (value), world increase, 3 per cent., Canada, 26 per cent.

The foregoing cannot, of course, be accepted as a complete registration of the world's economic activity, nor should it be regarded as painting a picture of unalloyed prosperity; perhaps it goes without saying that the world has not yet reached that ideal state where the work of all its people can be accurately recorded, and where this work will be in such perfect form that none shall struggle against difficulties or suffer distress.

In the current year we see the aftermath of some misdirected economic effort, and of the greatest speculative boom in history. But, whatever the actual demand is today, the world's needs must eventually go on increasing, and its present great productive capacity will be called into active play when the present period of unsettlement is over and the stage is again set for prosperity. As for Canada, her imposing record of progress achieved in the brief space of the last four or five years gives but a hint of her potential power, and of the position which, by the development of her natural wealth, she can take when world progress is resumed.

Heat and Sound Insulation

Diatomite is a light fluffy material composed of the minute siliceous skeletons of diatoms, and is used in industry as an insulator against heat and sound, for filtering, and as an admixture in concrete and plasters. The Dominion has a large number of diatomite deposits in British Columbia, Ontario and the Maritimes.

Tribute To Dr. Eckener

People Take Visits Of Graf Zeppelin As Matter Of Course

A writer in the New York Evening World says: "It is interesting, as showing what has happened with regard to this 'air-mindedness' that is so often spoken about, that the Graf Zeppelin, fighting the worst weather that it has ever encountered, caused the smallest stir by its arrival here that it ever caused. People now take it for granted that it will arrive safely and sail safely on schedule, just as they take it for granted that the "Europa" will arrive and depart safely and on schedule, or the "Bremen," or the "Berengaria." She has become, in the minds of the American people, a sort of aerial liner, a little more exciting, no doubt, than an ocean liner, but in pretty much the same class. Dr. Eckener, then, if he is a reflective man, will realize that this matter-of-fact acceptance of his presence was perhaps the highest tribute to him and to his ship that could be paid. People no longer wonder about the Graf Zeppelin, but realize that regular air transport over the Atlantic is now a reality.

Some credit to Mr. Hoover as a prophet, it seems to us, is due in this connection too. It will be recalled that quite casually, before any of us had ever seen the Graf Zeppelin, he said that regular airship travel across the Atlantic would come in a few months. Well, here it is.

PALE FACES JADED NERVES

Due To Weak, Watery Blood

Anaemia — impoverished blood — comes so stealthily that it is often well advanced before recognized. Fatigue and discomfort the earliest manifestations of the trouble are seldom taken seriously. Soon the face becomes pale; the nerves jaded; the heart palpitates violently after the slightest exertion; the appetite becomes fickle and before you realize it you are in a terrible plight.

At such time, by enriching and purifying the blood Dr. Williams' Pink Pills will build up the nerve cells and correct the run-down condition. Concerning them Miss Margaret Torrey, Toronto, Ont., says:—"I suffered a complete breakdown. My heart would palpitate on the least exertion. Nothing I ate agreed with me. I started taking Dr. Williams' Pink Pills and by the time I had taken several boxes I was ready for anything; I had gained in weight and every distressing symptom had left me."

You can get these Pills from any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

British Columbia Head Lettuce

Head lettuce is moving from the Armstrong fields, and it is said that the acreage will provide shipments totalling between 30 and 40 cars; the movement being greater this year than last.

Persian Balm creates lovely complexions. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Alluringly fragrant. Delightful to use. Swiftly absorbed by the tissues, imparting that elusive charm so distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discriminating woman should use this silvery lotion. It is unrivalled as a flawless aid to beauty.

Most Costly Lightning Stroke

The costliest lightning stroke known was that which struck the U.S. Naval Ammunition Depot at Lake Denmark, N.J., in 1926, resulting in the loss of 31 lives and damage amounting to $93,000,000.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

And Sixty Days

There is a story about a man who lay down among the victims of a train wreck that he might claim damages, and now Glasgow reports a man who was hurt in a fight and was taken to the hospital along with those hurt in a tramway accident. He got £10 damages from the company and 60 days in jail when the fraud was discovered.

Use Minard's for Rheumatism.

English Language Spreading

American Books Have Extensive Market In Foreign Countries

The wide and growing prevalence of the English language is attested by the fact that countries to which our tongue is that of a foreigner take high rank among the purchasers of books published in the United States. The Department of Commerce supplies the information that American books have an extensive market in foreign countries. While naturally the United Kingdom and Canada supply the largest number of readers, the country that stands third in the purchase of books made in the United States is China. Latin America and the Philippines take large numbers. That the third best customer for books printed in the English language is China shows how widely the English language is spreading, and with it, of course, Anglo-Saxon culture.

Asthma Can Be Cured. Its suffering is as needless as it is terrible to endure. After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

New Baby Auto

Automobile Being Made To Sell At $200 In United States

It is stated that General Motors have under construction a small four-cylinder automobile along the lines of the English Austin, which will retail in the United States at around $200. Patterns are being made in Detroit for the new radical design, which is expected to greatly extend the ownership range of the automobile, and to boost business, which has fallen off seriously in the higher-priced models. Details of the new motor car are being jealously guarded.

Minard's Drives Away the Headache.

Speed Boat Shipped

British Girl Has Entered Craft For International Trophy

"Estelle V.," the motor boat with which Betty Carstairs hopes to establish a new record at Detroit, was shipped from England on the White Star liner "Calgaric," accompanied by five mechanics. From Halifax the boat will be shipped by Canadian National Railways to Gravenhurst, Ontario, where it will be tuned up in the Muskoka Lakes before the Detroit races.

As a result of Major Segrave's death, Miss Carstairs will be the only British entrant for the international trophy.

OPEN SORES
HEAL IN QUICKEST TIME KNOWN
"Sores on leg, ulcers, for months. Doctors failed to heal. Then 'Soothe-Salva' healed them in few days." Jules Simard. "Soothe-Salva" heals sores, ulcers, boils, burns, scalds, eczema, like magic. All druggists.

Coal Movement Arranged

Everything Ready For Shipments From Alberta and Saskatchewan Into Manitoba

All administrative arrangements in connection with the movement of Alberta and Saskatchewan coal into the Manitoba market under the recently granted subvention to aid in the ousting of imported fuel, are now completed, it was stated by Frank G. Neate, secretary of the Dominion Fuel Board, Ottawa. Mr. Neate was in conference, at Winnipeg, with operators from Alberta and Saskatchewan and also with distributors and railway officials.

"The machinery is all set up to handle the administrative work, the co-operation of the railways has been secured and the operators and distributors understand what is required of them," said Mr. Neate. "With the weapon now in their hands with which to combat the importation of foreign coal, it now is up to the coal people to use it."

A Prime Dressing For Wounds. — In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Eclectric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

After 62 years of waiting the congregation of St. Michael and All Angels' Church, Helensburg, Scotland, have just decided to complete the erecton of the uncompleted church tower.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

There is probably no other modern development of astronomy that has so revolutionized the science as the application of photography.

PLANS APPROVED FOR AN EMPIRE NEWS SERVICE

London, Eng.—By an almost unanimous vote the Imperial Press conference placed its seal of approval on the resolution which was proposed by E. Norman Smith, of the Ottawa Journal, that "this conference approves the principle of mutual and co-operative interchange of cable news between the component parts of the Empire."

Subsequently B. C. Nicholas, of the Victoria Times, moved a further resolution that the communications committee be authorized to investigate and report upon the feasibility for co-operative news distribution for the Empire. The purpose of this resolution, Mr. Nicholas explained briefly, was to translate the conference decision into practical fact. There was considerable opposition to the Nicholas resolution, however, and Mr. Nicholas did not press it.

During the morning's discussion, J. B. F. Livesay, general manager of the Canadian Press, a delegate, submitted a tentative scheme for the creation of a British Empire Press Association. The scheme suggests the establishment of national co-operative news service, similar to the Canadian Press, in the various units of the Empire, with a central office in London, through which the national units could exchange Empire news. The association, suggested Mr. Livesay, should be "mutual and co-operative from crown to base, girdling the world with a news service owned and controlled by the newspapers of the British Empire."

C. F. Crandall, of the British United Press, Montreal, pressed the need for individuality in news service. The Hon. Theodore Fink, chairman of the Australian section, approved of the principle of the news interchange but was not prepared to proceed at once with consideration of a definite scheme. K. C. Roy, of India, doubted if the creation of a co-operative news service, such as that suggested by Mr. Livesay, would be possible in India.

Victor Sifton, The Leader-Post, Regina; J. W. Dafoe, Manitoba Free Press, Winnipeg, and W. Rupert Davies, the Whig-Standard, Kingston, Ont., emphasized the advantages of co-operative service as exemplified by the Canadian Press.

The Canadian Press despatches, said Mr. Sifton, were accurate and impartial. Mr. Dafoe observed that Canada had every possible diversity of views; co-operative news gathering had been tested in Canada and found satisfactory. It did not destory individuality as a newspaper could have its own special correspondents or take other services. But every political question had its hard core of acutal fact and it was this core of fact which the Canadian Press presented.

"It is an enormous relief to me in my office," said the noted Winnipeg editor, "to know that there is the Canadian Press to give me the essential facts on every question. If I wish to embroider them that is my privilege."

Mr. Davies said that as a result of the formation of the Canadian Press the smaller Canadian newspapers were enabled to give their readers a first-class service.

T. C. List, of New Zealand, pointed out the advantages secured by New Zealand by the establishment of a co-operative news service there. A similar system for all parts of the Empire would be all to the good. Allan Powers, Australia, and G. A. L. Green, South Africa, both doubted the immediate expedience of an Empire co-operative service. R. J. Kingston Russell, South Africa, supported the idea.

In further discussion, Lord Burnham observed that the Canadian case was unanswerable, but suggested postponement of the resolution until the next Imperial Press Conference. J. H. Woods, managing director of the Calgary Herald, then replied that the Canadian delegation was a unit in support of Mr. Norman Smith's resolution approving the principle of co-operative interchange of news. He urged that the matter should not be postponed.

The conference then voted on the question and the Canadian resolution passed with very few dissenters.

Southern Cross Spans Atlantic

Australian Airman Makes Westward Flight In 31 Hours and 35 Minutes

Harbor Grace, Nfld.—Baffled by fog thick as soup and more dangerous than buffeting winds, the Southern Cross, veteran of the air, paused here, 1,100 miles short of New York, and the goal aspired to by Captain Charles E. Kingsford-Smith, daring Australian airman, and his three companions.

The trim silver monoplane, its three motors roaring through the night, spanned the North Atlantic in 31 hours and 35 minutes, and, having flown the 2,190 miles from Port Marnock on the Irish coast, settled out of the morning mists here at 6 a.m., E.S.T.

They had four gallons of gasoline left when they landed, after having flown about for hours lost in the darkness and impenetrable fog. At one time, the Southern Cross was reported past Cape Race, on the southeastern tip of this promontory of the continent. They actually flew several hundred miles farther than the airline distance from Ireland to Newfoundland.

It was Captain Kingsford-Smith, the commander, who revealed that the gasoline nearly gave out.

"The Southern Cross, which had flown over all oceans but the Atlantic, had less than four gallons of gasoline when we landed," he told the United Press. "We were becoming discouraged, seeing nothing but unbroken country below.

"For the first ten hours out across the sea, the weather was moderate," Captain J. Patrick Saul, the Irish navigator, told the United Press. "But visibility was bad, and it got worse."

Large Attendance Of Tourists At Celebration

Iceland Is Entertaining Visitors From Many Nations

Reykjavik, Iceland.—Hundreds of tourists from Canada, the United States and Europe have swarmed into Iceland on ocean liners of various nationalities. The harbor is filled celebration of Iceland's 1,000th parliacelebration of Iceland's 100th parliamentary anniversary.

The visitors will use their ships as hotels during their stay because Reykjavik was brimful of celebrants before their arrival.

Motor car traffic in the streets compared with that of any metropolis, is in striking contrast to the usual quiet. Reykjavik was so full of visitors that hundreds already had taken recourse to a tent on the Tingvellir plain.

Traffic Problems Discussed

Canadian Good Roads Association Holds Convention In Toronto

Toronto. — Realization of a coast to coast highway across Canada, uniformity of traffic laws and signs in the provinces, elimination of level railway crossings and regulation of aeroplanes were the topics of discussion at a conference of delegates from all provinces which was held here under the auspices of the Canadian Good Roads Association.

Among the delegates were Hon. Frank Oliver, advisory officer to the Dominion Railway Board, and Hon. W. R. Clubb, Manitoba Minister of Public Works.

Twenty-Seven 'Planes Burn

Fire Caused By Explosion In Chicago Hangar

Chicago, Ill.—Two hangars and 27 aeroplanes, 12 of them tri-motor passenger 'planes, were destroyed by fire at the municipal airport. The loss was estimated at more than two million dollars.

The hangars destroyed were those of the Universal Air Lines Inc., and the Grey Goose Air Lines, the latter under lease to the Stout Air Lines. The fire followed an explosion of undetermined cause in the Universal hangar.

WAR VETERANS' ALLOWANCE

Daniel Lesok, totally disabled war veteran, who will be first to get war veterans' allowance when new act goes into force September 1.

Unloading Surplus Wheat

Canadian Visible Supply Of Wheat Is Decreasing Rapidly

Montreal, Que.—"During the five weeks ended June 6, the Canadian visible supply of wheat decreased by more than 35,000,000 bushels," says the Monthly Business Review of the Royal Bank of Canada. "If the movement of Canadian wheat continues at this rate until the end of July, the carrying over into the new crop year will be less than 100,000,000 bushels. In the face of foreign estimates that the carry-over would exceed that figure by 50 per cent., the recent movements may be considered good news."

The review comments upon excellent growth of early sown grains in Eastern Canada and improved prospects for fall wheat in Ontario.

Crops in British Columbia are approximately 10 days later than last year, but the outlook for a large yield is promising.

New Zealand Requires Canadian Engineer

Services Of Outstanding Man Needed To Repair Power Plant

Wellington, New Zealand. — Services of an "outstanding Canadian engineer" are required by New Zealand. The government has cabled its trade commissioner in Canada asking that he secure such a man. The "job" is that of effecting repairs to the recently completed Arapuni power plant. Canada's great strides in the science of building and maintaining such power plants is largely responsible for the fact that a Canadian is wanted.

Manufacturing More Butter

Winnipeg, Man.—Manufacture of creamery butter in Manitoba continues to increase rapidly, according to a report from the Department of Agriculture. The make for May, it is stated, was 20½ per cent. greater than of May, 1929.

Federal Aid For Highways

Canadian Good Roads Association Will Urge This Matter

Toronto.—Federal aid for main highways, provincial as well as interprovincial, will be urged on the Dominion Government by the executive of the Canadian Good Roads Association, it was decided here at a conference between that body and representatives of the Ontario, Quebec, Manitoba, Saskatchewan and New Brunswick governments, the railways, the Dominion Railway Board and other bodies.

The executive will also draw up a proposed schedule of uniform traffic regulations, which it is hoped all provinces will adopt. This code will cover a speed limit, lighting and brake equipment, and registration fees.

A plea for federal aid for highways in Northern Ontario was made by Hon. William Finlayson, minister for lands and forests for Ontario. Mr. Finlayson declared that these highways would be a valuable link in a national chain, but that the area through which they extended was very sparsely populated at present, and that unless the Dominion contributed towards the cost, the whole burden would fall on Old Ontario.

Report On Manitoba Grain Fields Encouraging

Crop Summary Issued By Department Of Agriculture

Winnipeg, Man.—Grain fields in Manitoba look "very well," by virtue of satisfactory growth during the last few weeks and despite slow May growth and cold spring weather, according to a crop summary issued by the Manitoba Department of Agriculture. Early-sown wheat is reported in the shot-blade and fall rye has been headed two weeks or more.

In most places, moisture requirements have been met, though slough-water is not plentiful due to drought of one year ago. Soil drifting has been pretty well outgrown, though it was quite prevalent a short time ago in central Manitoba. The few hailstorms recorded in the province have done considerable local damage.

Cut-worm damage on the whole has been slight, it is stated, and the season for their activity will soon be over. Hay prospects are fair to good and while tame-grass and clover acreage is below average, the growth is fair. Animals have been doing well the past month.

Amendment Given First Reading

London, Eng.—Recent agreements between the Dominion Government and the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, regarding the natural resources of the respective provinces, had an echo in the House of Lords when first reading was given to an amendment to the British North America Act, designed to give effect to the agreement.

When East Met West

Kipling claims in a famous poem that East is one thing and West something else again, and "never the twain shall meet," but this dictum is nullified by the quaint snapshot, reproduced above, of eight-year-old Milly Chan, little Chinese brunette, and Pauline Nancollis, 3½, curly-haired English tot, looking through the same life belt aboard S.S. Empress of Asia. Milly "adopted" Pauline during the ten-day voyage of the Canadian Pacific liner from Yokohama to Vancouver. They were the only youngsters among the first-class passengers on the trip.

UNITED STATES IS WORRIED OVER GRAIN SITUATION

Washington.—Political and official Washington is watching the slumping prices of grain and cotton closely these days.

Two Democratic senators from Texas and Oklahoma states which produce both crops, called the senate's attention to the record lows recently, connecting the price drop with the new tariff bill.

The Oklahoman, Senator Thomas, made a novel proposal for dealing with the world market which fixes most American farm prices. He introduced a resolution to authorize the president to call an international conference to solve economic barriers, consider a system of international crop reporting and study a plan for control of production of exportable agricultural products.

At the Farm Board, Chairman Legge stuck close to his position that the time has not yet come to act, because the farmers have not put their 1930 crops on the market yet. That time is perilously close, however, and in the southwest marketing of grain has already begun.

Arrangements made during the past year, however, put the board in shape to act quickly when the time comes, and funds already on hand of the board's first quarter million appropriation can be supplemented by money which Legge is able to borrow, if needed, from private banks at the prevailing low money rates.

The board intends to market 300,000,000 bushels of grain of the new crop and to lend money to enable farmers to hold their grain if the price at harvest time is too low. The board believes that money is available to handle this, and consequently the $250,000,000 authorized but not yet appropriated may not be needed. The government's expected deficit next year is also a factor to be considered in seeking farm appropriations.

The board had no comment to make on the telegraphed request of Governor Reed, of Kansas, for immediate action to bolster the price of grain.

Britain's Naval Program

Program For 1930 Includes Three Six-Inch Gun Cruisers

London, England.—Rt. Hon. A. V. Alexander, first lord of the admiralty, told the House of Commons that supplementary estimates in the government's 1930 naval construction program would be presented shortly for three 6-inch gun cruisers, nine destroyers, three submarines, four sloops and one net-layer and target-towing vessel. They would cost about £9,000,000.

The first lord said orders for laying down these vessels would not be given until the last quarter of this financial year, and that only a small sum would be required to be spent on the vessels specified.

"I would emphasize," remarked Mr. Alexander, "that these ships are required in replacement of others which have passed the age limit and to enable the royal navy to carry out its current duties in time of peace and that the program has no reintion to those of other powers."

General Election For Britain

Ramsay MacDonald States Labor Party May Go To Country In the Fall

London, England.—The possibility that a general election might be necessary before fall was expressed by the Prime Minister J. Ramsay MacDonald, at a meeting of the Labor Party here.

The Prime Minister made the statement in explaining his action in commons earlier in the day, when he announced the government was dropping the education bill and the consumers' council bill for the balance of the present session.

MacDonald said that in view of the likelihood of a general election before autumn, it was not desirable to face the contest "with the decks littered with lumber."

A house put the lines out of order

A house that was being moved at Nanaimo came against some long-distance telephone lines, breaking one wire and putting two circuits out of order.

The mishap occurred at 2.50 p.m. Working from the roof of the house, a telephone lineman was able to make the necessary repairs and restore service in half an hour.

A Vancouver-Nanaimo circuit and a Vancouver-Duncan circuit were the ones affected.

Kootenay Telephone Co.
LIMITED

Local and Personal

During the absence of Rev. R. E Cribb on vacation it has been arranged that Rev. P. McNab will take the evening service at the United Church throughout July, and in August Pastor Cribb will reciprocate by taking evening worship at the Presbyterian Church.

The former Mawson Bros. store on Wilson Avenue, which has been vacant for some years past, has been leased by a syndicate headed by a Mr. Bailey of Cranbrook, who is to open out a cash and carry grocery business. Electric light is being installed in the s ore building this week by E. G. Timmons.

Misses Anaretta McDonald, who teaches at Skookumchuk; Miss Mildred McDonald, of the public school staff, Gleichen, Alberta; and Miss Florence McDonald of the school staff at Manyberries, Alberta, arrived home on Friday, called here due to the critical illness of their father, the late H. W. McDonald, who passed away Saturday morning.

Jas. Anderson, of Vancouver, a former prominent resident of Kaslo, was here on a business visit, Friday. His guess is that if the Conservatives can blast their way into Quebec for a gain of about 15 seats Hon. R. B. Bennett has some chance of winning the coming election. Being Scotch, possibly, is one of the reasons Mr. Anderson is not betting any money on a Tory win.

Creston Intermediate baseball team came through with thrir sixth straight win of the season, three of which have been at the expense of the seniors, when they won Friday night's contest with the latter by a margin of 7 to 5. Thr batteries were: Intermediates, C. MacDonald and E. Christie; Seniors, C. Botterill and O. Christie. A return game will be played at the park this evening. Turnout and give them your support.

A very interesting and instructive moving picture programme was presented on Wednesday by the Canadian Forestry Association. Col. E. Mallandaine introduced the lecturer, E. Ablett, pointing out at the same time the great value of the forests both to us and to posterity. This introduction paved the way for a timely warning from Mr. Ablett, who pointed out that 80 per cent. of the 2000 fires during the past saason were caused by carelessness. Then followed seven reels of educational and amusing entertainment which were enjoyed by the audience of about 400. The Canadian Forestry Association wishes to tender thanks to C. O. Rodgers, who gave the Theatre free of all charge.

Erickson

The Anglican Sunday school is closed for the montes of July and August.

Mr. and Mrs. Frank Staples and children arrived on Wednesday last from Invermere, for a few days' visit with her parents, Mr. and Mrs. George Cartwright.

Mrs. Wheatley of Missoula, Wash., arrived at the middle of the week on a visit with Mr. and Mrs. Lee Herle.

Mrs. Maglio and children left at the end of the week on a visit with Nelson friends.

The sale of Mrs. Maxwell's 20-acre ranch is reported this week, the buyer being D. Daughty of Vancouver, who is to get possession almost immediately. While the sale price is not divulged it is understood to be one of the best in the past few years. H. H. Tooze, who had the place on lease, will vacate at the end of the month.

R. B. Staples of Kelowna was here at the first of the week on a visit of inspection to his ranch.

John Staff, who has been on a short holiday visit at his home, left on Tuesday for Yahk, where he is employed.

Jack Hall of Vancouver arrived on Sunday to spend his holidays with his parents, Mr. and Mrs. John Hall.

Miss Walker, teacher of the junior room at Erickson school, left on Sunday for her home on Vancouver Island.

The first new potatoes and green peas offered for sale at Creston this yeae are are from the L. T. Leveque ranch.

Vic. Mawson, who has been living at his ranch here for the past two years, has this week moved to Creston to reside permanently, having sold his place to H. Cowling of Vancouver, who takes possession almost immediately.

Erickson school closed on Thursday On account of rainy weather on Friday the annual school picnic had to be cancelled, but everyone enjoyed the lunch, which included ice cream. There were games and a peanut scramble which were equally popular.

Winners of 1930 honor rolls are announced as follows: Division 1, Miss White, principal—Proficiency, Kathleen Bundy. Deportment, Peter Obrokoff. Regularityand Punctuality, MiltonFraser. Division 2, Miss Walker, teacher:—Proficiency, Hazel Beam. Deportment, Leona Heric. Regularity and Puntuality Bertha Fraser and George Cameron equal.

Kitchener

E. J. West and Ira Franbo have arrived to do the annual assessment work at at the Leadville mine. Mrs. West accompanies her husdand.

Mr. and Mrs. W. L. Hathaway, Miss Hatton Mrs. Marr and Mr. Young of San Francisco, Calif., are at the Hathawag camp for their annual vacation.

Mrs. Slein of Cranbrook is a visitor with her parents Mr. and Mrs. Molander.

N. K. Devlin and Misses Hazel McGonegal and Myrtle Anderson were visitors at Bonners Ferry, Sunday.

The public school picnic was held on the baseball grounds on Friday and was a splendid success. Mr. Hully left on Sunday for Crlgary, Alberta.

Harry Redmile was a Dominion Day visitor at Bonners Ferry.

Misses Clara Hunt and Beatrice Molander are spending a few days in Cranbrook.

Bill Kelly of Elko is a visitor here at present with Mrs. Kelly and children, and they are guests of Mrs. John Marshall.

School closed on Friday morning for the summer vacation, and Principal Lukas left the same day for his home at Fernie. He has turned in his resignation and will not be coming back.

Frank Simister is claiming the honor of having the first dinner off new potatoes—on Friday, June 27th. Victor Carr has been supplying Creston stores with new spuds commencing Monday.

Guy Constable was a business visitor at Nelson a couple of days last week.

Miss Helen Moore, who teaches school at Flagstone, arri ed on Saturday for the summer vatation with her mother, Mrs. H. Taylor.

Robt. Moore, who has had charge of Sirdar school for the past year, is home the summer vacation.

Frank Travis and his sister, Miss Vernon Travis, of Michel, are visiting Mrs. Travis. who is a guest of her mother, Mrs. J. W. Parkin.

Harry Compton returned to McGillivon Monday, after spending a couple of week' holidays at his home hare.

Mr. and Mrs. McMurtrie are having a visit from their grandson, Master Leslie McMurtrie, who arrived from Winnipeg, Man., last week.

R. Stewart & Son have just about established a Valley record for early raspberries. They had about half a crate of them for the Creston trade on Saturday. End-of-June raspberries are very rare in this section.

Honor roll winners at Alice Siding school for the year just ended are: Profficiency, Charles, Ostrensky. Deportment Violet Parkin. Regularity and Punctualty, Elsie Mather. Promoted to Grade 2—John Smith, Ada Smith, Evelyn Mather. Promoted to Grade 3—Joan Smith, Violet Parkin, Alfred Parkin. Promoted to Grade 4a—Carl McDougall, Sidney Argyle. Promoted to Grade 5—Hazel Miller, Elsie Mather. Promoted to Grade 6—Edward Argyle Geoffry Constable, Gordon Smith, Jessie McDougall, Bobbie Parkin. Promoted to Grade 7—Charles Ostrensky, Arthur Constable, Ethel Mather. Promoted to Grade 8—Betty Smith, Edith Mather, Harry Mather.

Lister

School closed on Friday for the summer vacation, and the same day Miss Curtis teacher, left to spend the holidays at her home in Slocan City.

The makeup of the Dominion voters list is completed and the list is posted at the postoffice. It shows just about 90 names.

Rev. R. E. Cribb had United Church service on Sunday morning, at which it was announced services would be, withdrawn until August as the minister is away on vacation.

There will be no Church of England service on Sunday morning as the rector, Rev. A. Garlick, is also on vacation.

Bill and Frank Yerbury are holidaying with relatives and friends in Nelson at present.

Mrs. Sam Whittaker and young son, of Cranbrook, are visitors with the former's mother, Mrs. A. Hobden, at preseng.

The June report of Lister school shows the June attendance at 90 per cent. of the enrollment, with the following having perfect attendance for the month: Douglas Sinclair, Pauline Klein, Raymond McKee, Lotti Klein, Cyril Bird, Alice Wellspring, Margaret Sinclair, Daniel Domke.

Honor Roll winners for the full term were: Proficiency, Douglas McKee. Deportment, Millie Beard. Attendance, Douglas Sinclair.

Promoted to Grade 6—Clara Domke, David Gustafson.

Promoted to Grade 5—Douglas Sinclair, Kirk Beard, Pauline Klein, Clara Meyer.

Promoted to Grade 4—Gladys McCulloch, Cyril Bird, Raymond McKee, Manning Powers, Kitty Beard, Lotti Klein, Martha Domke.

Promoted to Grade 3—AliceWellspring, Margaret Dent, Frank McCulloch.

Promoted to Grade 2—Margaret Sinclair, Milly Beard, Eric Jacks, Johana Daus, Hugo Sommerfeld.

Wynndel

Miss E. Hagen was a Nelson visstor a few days last week.

Mrs. Spencer of Nelson was a visitor uere last week, with her son, Alf. Spencer.

Mrs. Wall, and son, who have been visiting at Medicide Hat, Alberta, are here for the berry season.

Car lot shipping of strawberries is in full swing and up till Tuesday, eight cars had gone east.

Mr. and Mrs. McGregor, the Wynndel school teaching staff, left on Sunday for Nelson, for the start of their vacation.

Notices are up for the annual school meeting on the evening of Saturday, July 12th.

Carpenters are at work on the erection of a residence for Geo. McInnes, who is in charge of local operations for the Bruce Pole Company. Mr. Crane is also putting an addition to his residence.

A wedding of local interest took place at Trail on June 26th, when Miss E. Randall, a former Wynndel teacher, became the bride of Ted Rowlands. The newlyweds stepped off the train here on Friday to say hello to friends. They were on a honeymoon trip to Portland.

Sirdar

Miss Eileen Heap, who is attending the Nelson Business College, arrived home on Saturday, leaving on Monday on a visit with frisnds in Spokane.

IN MEMORIAM

RINGHEIM—In loving memory of Ole Ringheim, of Wynndel, who died June 25th, 1928.

Dear father, how we miss you.
Mere words can not express
How long the days have seemed to us
Since you were laid to rest.
But we live in hope, dear father,
Of seeing you again some day;
When the dead shall rise and redeem
their own
And live in eternity.
—WIFE AND CHILDREN.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that Creston Power, Light & Telepho e Company, Limited, whose address is Creston, B.C., will apply for a license to take and use two hundred second feet of water out of Goat River, which flows westerly and drains into Kootenay River about one and one-half miles northwest of Creston, B.C. The water will be diverted from the stream at a point about 500 feet up stream from Canadian Pacific Railway bridge and 550 feet southwest of the northeast corner of Sublot 29 of Lot 812, and will be used for power purposes upon the area described in the undertaking of the Company, within a radius of twenty-five miles of the power site (including the Village of Creston, B.C.). This notice was posted on the ground on the 20th day of June, 1930. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder, Nelson, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The petition for the approval of the undertaking as per Section 26 of the Act will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, and any interested persons may file an objection thereto in the office of the Comptroller, or of the said Water Recordeo.

Local and Personal

The weather continues cool and showery. The abundant moisture is much to the liking of the raspberry growers who will commence shipping before the week is out.

Mrs. Carruthers of Grassy Lake, Alta., is a visitor here this week, a guest of Mr and Mrs. S. A. Speers. She is accompanied by her nephew, Master Hugh Robertson.

Mr. and Mrs. R. J. Forbes left on Wednesday by motor for Pacific coast points, where they will spend the next three weeks visiting with relatives and friends.

Creston plays the final baseball game of the year with Sandpoint in that town on Sunday, 6th. Up to the present Sandpoint has non been beaten once this year.

Mrs. W. M. Vance of Nelson was here for a few days visit at the end of the week, with her husband, who is manager of the Creston sub-central of the Associated Growers.

Due to the cool and showery weather strawberry shipments have not been as heavy as expected. Up till yesterday nine straight carloads have been shipped from Wynndel.

Mrs Lyon of Craigmyle, Alberta, and Miss Gooderham of Stavely, Alberta, arrived at the first of the week to spend part of the holidays with their sister, Mrs. R. J. Forbes.

Creston baseball team won by a score of 13 to 9 over Kimberley in the baseball tournament in that town on Dominion Day. The Kimberley nine is the best in the East Kootenay league.

Mrs. Brown of Nelson spent a few days here at the first of the week with her daughter, Miss M. Brown, of the public school teaching staff, and was a guest at the home of Mrs. Maxwell.

Miss G. Bnmstead of the high schoo teaching staff, and Miss H. Meldrum, vice-principal of the public school, left on Monday for Vancouver, where they will spend the summer vacation.

The voters list for Creston poll place at the Dominion election on the 28th, shows 545 names. Of these 325 are in the territory above the track. The lists finally closed on Wednesday.

Rev. A. Garlick left on Wednesday on a month's holiday, which he will spend at Pacific coast points. During his absence there will be no Anglican Church services at any of the appointments.

Mr. and Mrs. W. M. Archibald got back at the latter part of the week from a trip abroad, during which they were in Johannesburg, South Africa, where Mr. Archibald was a delegate to the World Mining Congress in that city.

R. B Staples, sales manager for Sales Service, Limited, Kelowna, was here for a few days at the end of the week. Due to rainy weather and consequent splitting much of the Okanagan cherry crop is being sold to the canneries this year.

Evangelist Ernest J. North is holding a series of revival services at the Full Gospel Mission, Victoria Avenue. He is a graduate of the Glad Tidings Bible School, San Francisco, Cali. He came to British Columbia in 1927, and since that time has been engaged in evangelistic and pastoral work. His messages are deep, earnest and helpful, and will keep you interested. He is assisted by Ivor Morris at the organ There will be special chorus in which all can join. See advt. for subjects and time of services.

WORLD HAPPENINGS BRIEFLY TOLD

On June 24, the King and Queen received the delegates to the Imperial Press Conference, in the throne room at Buckingham Palace.

British Columbia expects to benefit from the new Australian tariff just introduced in the Commonwealth House, extending a British preference to lumber.

Mr. Bennett Scott, the song composer whose "Take me back to dear old Blighty" was sung by soldiers all over the world, died at his home at Loraine Mansions, London, England.

Mr. and Mrs. Joe V. Illeneuvre, of Detroit, were burned to death when their airplane fell at the municipal airport, in Toledo, Ohio, and burst into flames.

President Hoover has approved transfer of the obsolete submarine P-12 from the navy to the U.S. shipping board which will charter the craft to Sir Hubert Wilkins for North Polar explorations.

F. E. Beattie, aged 50, an accountant in the Bank of Hong Kong and Shanghai, at Shanghai, disappeared from the "Empress of Russia," it was reported on the steamer's arrival at Vancouver. He was a passenger enroute to Scotland with his wife.

Vincent Massey, retiring Canadian minister to the United States, who delivered the annual commencement address at the University of Michigan, Ann Harbor, was awarded an honorary degree of Doctor of Laws.

L. R. McGregor, new Australian trade commissioner to Canada, arrived at Victoria recently from Sydney with his wife and two children. He is particularly anxious to introduce Australian wines to Canada.

Switzerland Is Prosperous

Has Population Of Over 4,000,000 and People Are Good Workers

Switzerland, which has an area of only 19,950 square miles, has now a population of roundly 4,000,000 to which it has risen from 3,300,000 in 1900. Small as the country is, it has 30 towns of over 10,000 people. While the population has increased the mountainous regions fire being deserted. The general growth of Switzerland is the more remarkable for the fact that one-fifth of the whole territory is mountainous and unproductive. Switzerland is almost destitute of native raw materials and yet she has 600,000 persons engaged in productive industry. In fact, it is not too much to say that if all the world worked as well and as effectively as Switzerland, it would be a happier place. Switzerland is never troubled by war or rumors of war.

Canada's Military Force

Consists Of 401 Officers and 1,067 Non-Commissioned Officers

Canada's permanent military force at the present time comprises 3,943 all ranks of whom 401 are officers and 1,067 non-commissioned officers. At headquarters in Ottawa there are nine naval officers, forty-nine military officers and thirty-one air officers. There are also at headquarters a total of 104 other ranks.

Four hundred and forty-three civilians are employed of whom 400 are permanent.

The cost of administering the headquarters totals $1,425,311 annually.

HOW THE RICH FARMER EQUIPPED HIMSELF AS A PROTECTION FORM MOTOR-ACCIDENTS IN THE CITY.—Lustige Sachse, Leipzig.

Many Accidents Caused By Neglected Cars

Carlessness Allows Defects To Develop In Mechanical Parts

Automobile owners in the United States who neglected to keep their cars in good condition were responsible for five thousand of the lives lost in traffic accidents during the last calendar year. This estimate is made by the framers of the report recently submitted to the National Conference on Street and Highway Safety at Washington, by its committee on the maintenance of motor vehicles. To learn that fully fifteen per cent. of the traffic fatalities recorded in 1929, are actually traceable to lack of proper care of cars is an enlightening disclosure. The studies of the committee into causes of motor accidents have convinced its members that stricter official inspection of all automobiles is urgently needed.

Essentially this report charges that because of improper maintenance defects are allowed to develop in vital mechanical parts of a car; brakes and steering gear are allowed to become dangerously worn or drop out of adjustment; horns, windshield wipers, rear lights and headlights uncared for become ineffective. A steady increase in driving speeds in the last few years has served only to increase the hazards created by the negligence of those who own cars and permit them to be operated when they are unfit to be driven on public highways. The committee recommends legislation that will enforce periodic inspection in States where such a precaution is not now taken. It suggests that in the case of old cars that have been resold several times a certificate of inspection should be required when drivers' licenses are issued.

Pulsating Stars

Theory Advanced That Certain Stars Do Not Rotate

A theory that certain stars do not rotate, is presented to the American Association for the Advancement of Science, by Dr. Ross Gunn, of the Naval Research laboratory. These non-spinning stars are those which pulsate, that is, which expand and contract. Some of the pulsating stars have the habit of enlarging their diameters millions of miles. They beat like vast fairy hearts.

One class of pulsating stars, the Cepheid variables, are the "lighthouses" of the sky, that is, they enable astronomers to calculate the vast distances of space. Dr. Gunn's theory comes from study of magnetic fields about stars, especially those about the pulsating suns.

Winnipeg Newspaper Union Fashion

(By Annebelle Worthington).

Of course our new Summer Fashion Magazine contains all the vacation styles for grown-ups for afternoon, sports and home wear.

But we haven't overlooked the kiddies. The two shown here are from the book which contains a large selection of attractive styles for children of all ages for party and general vacation wear. Price 20 cents.

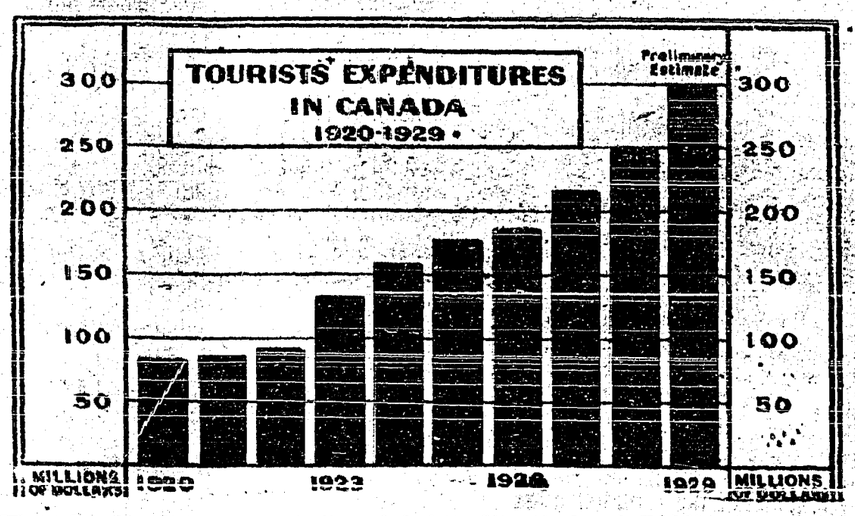
TEN YEARS' GROWTH OF TOURIST TRADE



The rise in the value of Canada's tourist trade during the last ten years has been little short of phenomenal. Estimates of the expenditures made in the Dominion by tourists from other countries run back as far as 1920, and it will be found that during this ten-year period, 1920-29, inclusive, tourists from abroad are estimated to have spent in Canada a total of roundly $1,682,000,000.

Such a sum of money is almost staggering, and it is difficult to find comparisons enabling us to realize its immensity. Perhaps the most startling comparison that could be made is to place this sum alongside the enormous outlays that Canada was called upon to make in connection with the Great War. According to the Federal Public Accounts the total expenditure made by the Dominion Government under the heading "War and Demobilization" is placed at roundly $1,695,000,000.

Thus the expenditures made in Canada by tourists from other countries within the last ten years are estimated at an amount which falls only a few thousand dollars short of equalling Canada's immense outlays for war and demobilization purposes. It is not to be wondered at that the highest financial authorities in Canada have recently made it a special point to direct public attention to the growth and possibilities of this comparatively youthful recruit to the ranks of the Dominion's major economic interests.

Bacon Contest

Summer Bacon Litter Competition To Be Held In Saskatchewan

The Saskatchewan Livestock Branch, with the co-operation of the Dominion Live Stock Branch, is fostering a summer bacon litter competition as a stimulus and a first rate benefit to the swine industry of Saskatchewan. According to J. G. Robertson, Live Stock Commissioner for Saskatchewan, the province will be divided into five parts for the purpose of this contest, over which the prize money will be equally distributed. Among the conditions of entry it may be noted that litters must be farrowed between April 1st and July 1st, and may be out of a grade or a purebred sow, but must be sired by a registered bacon type boar, and at least nine pigs must be raised to marketing age.

The Central Railroad of Peru crosses the Andes at one point at 15,865 feet above sea level.

Trade With Russia

Canada's Exports To Soviet Russia Are On the Increase

"Soviet Russia may be said to be the only country, outside of Germany, in Central Europe which imports direct the bulk of its requirements of Canadian products," writes L. D. Wilgress, Canadian Trade Commissioner in Hamburg, in the "Commercial Intelligence Journal." "Other countries in this territory, such as Czecho-Slovakia, Austria and Poland, consume important quantities of Canadian goods, but these are usually consigned in the first instance to Hamburg and for this reason appear in the Canadian trade returns among the exports to Germany. Canada's exports to Soviet Russia in 1929 increased by $1,137,068."

The arctic tern nests 11,000 miles from where it spends its winters.

The simplest element known to man is the hydrogen atom.

Moose Pose for Photo

In the north woods at Metagama, North Ontario, where M. U. Bates runs his camps, moose are unusually plentiful this spring. Mr. Bates was visiting one of the camps the other day and looking in a cabin found two infant moose asleep in one of the bunks. He lifted them out but they came back to the veranda and, finding a sunny spot, had another nap. The moose were quite tame and are here shown being posed for a photograph. The snapshots were taken within a mile of the Canadian Pacific Railway tracks near Metagama.

SUNDAY SCHOOL LESSON

JULY 6

ABRAHAM, A PIONEER OF FAITH

Golden Text: "By faith Abraham, when he was called, obeyed to go out unto a place which he was to receive for an inheritance; and he went out, not knowing whether he went." Hebrews 11.8.

Lesson: Genesis 12.1-5; 13.1-12; 17.1-8; 18.22-33; Hebrews 11.8-10.

Devotional Reading: Psalm 23.

Explanations and Comments

The Call That Came To Abraham, Genesis 12.1-3. — Some inward suggestion or some outward event convinced Abraham (who is called Abram in the early chapters of Genesis), that he was called by God to leave his country, and his kindred, and his father's house (cumulative expressions which show how much Abraham had to lose in obeying the command), and go to the land that God would show him. The goal is definitely stated in verse five as the land of Canaan. The writer of our account did not imagine that God spoke to the outward ear, any more than does the oriental of the present day. "God has spoken to me" is a common Arab phrase today when a man feels a deep impression in his soul. "Under the simple statement 'Jehovah said,' there are probably hidden years of questioning and meditation: God's revelation of Himself to Abraham in all probability passed through the preliminary stages of surmise and doubt and mental conflict. But once assured that God was calling him, Abraham responded quickly and resolutely."—Marcus Dods. He was sure that God had a plan for his life, and he acted upon his belief.

God's call to separation was a necessary condition of blessing. "I will make of thee a great nation, and I will bless thee, and make thy name great"—this is the great thought that runs through the whole book of Genesis. "God can impress us with such a sense of obligation as can only be understood as the will of God; He can inspire us with such sublime and solemn hopes as can only be understood as promises of God."—James Denny. "And be thou a blessing."

Abraham's Great Adventure Of Faith, Genesis 12. 4, 5.—With Sarah his wife, Lot his nephew, and all his slaves and dependents, and also his flocks and herds, Abraham journeyed to Canaan. He was seventy years old when he left Haran for the land about which he knew so little. "They went forth into the land of Canaan, and into the land of Canaan they came": was there ever a briefer account of a long and dangerous journey? "They started, they arrived — that is all. Well, that is what happens to people who are as capable as Abraham and as decisive in their faith."

Dr. Jowett calls belief the acceptance of a map, while faith is the taking of the voyage. Abraham had belief and faith.

"So I go on not knowing.
I would not if I might;
I'd rather walk with God in the dark
Than walk alone in the light;
I'd rather go with Him by faith
Than walk alone by sight."

David J. Burrell.

A Romantic Province

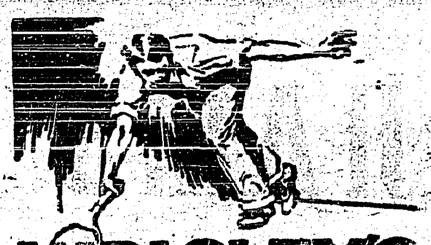
Colorful Pages Of Pioneer History In the West

The oldest of the Prairie provinces has had a romantic history. It gave birth to the romance of the West with its Red River carts, an association which colors the pages of pioneer history in the West. From what was Fort Garry to what is today Winnipeg, is in itself a monumnet of a story replete with adventure and achievement. It is the story of early beginnings ending in great accomplishments, with the torch lit by the first pioneers now illuminating a great and prosperous province. July 15 will be a day of great pride to the people of Manitoba with what has been done serving as an incentive to further achievement, with the spirit and zeal of the early pioneers carried on to meet the needs of the modern day.—Lethbridge Herald.

In Czecho-Slovakia there are fourteen women in Parliament, ten deputies and four senators.

"Were you driving for the first time?"

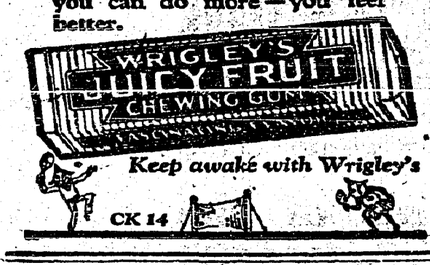
"No—the last."—Hummel, Hamburg.



WRIGLEY'S

When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.



Keep awake with Wrigley's

CHAPTER XVIII.—Continued.

The doctor chuckled, glanced shrewdly at his companion, and replied: "I don't imagine that those rides were a real sacrifice to my assistant!"

"If they were," retorted Charmian with a dimple, "he disguised the fact with proper gallantry; but I'm none the less grateful to him. It's a long walk to District Four when the mercury hovers around zero, Doctor; and Grandma worries."

"I wish you didn't have to leave her, Charmian. The days must seem long now that winter has set in."

"I fear they seem a great deal longer than she admits," replied the girl. "Grandma's so patient and uncomplaining. But I can't give up the school, Doctor, even with the welcome board money coming in each week. I know we're foolish to cling to the old house the way we do. I might, in the name of common sense, be willing to part with it and break my heart, but I can't break Grandma's and no other home would seem her own."

The old man was silent for a moment, and then said: "George K. tells me the house is really yours, Charmian."

"It is. I thought you knew that Grandma deeded it to me a year ago. She got the idea that it might save trouble for me after she—goes; and I let her do it because it made her happier."

They rode half a mile in friendly silence. It was beginning to snow, the big flakes drifting down lazily and settling on the windshield.

"I've been thinking," said the doctor at last. "I can't help worrying about you, child, because I know, you see, that I shan't always be on hand to advise you when you may need advice. An idea came to me in the night, an idea that might not suggest itself to you, and I'm telling you now so that if the time comes when you must part with the old homestead, you could consider it. It's this: If you sell the place, don't part with your great-grandfather's little office. You could live there comfortably, you and Grandma. With a kitchen and bathroom added at the back it would make a cozy enough home; and it would be home, in a way, to both of you. Don't forget it, child, if I'm not here to remind you."

"But you will be! I won't admit anything can ever take you from us, Doctor Howe—we need you so. But I'll remember your suggestion. It's a good one, only—what would your young M.D. do for an office?"

"That point," answered the doctor, "will take care of itself."

Another moment of stillness followed; then he said, briskly, as if making a decision, "I think I'll confide in you, Charmian. You know, of course, that I haven't saved much money. I've had nothing to save for; and I've done my work for the work's sake, and the love I have for my loyal patients. I've kept my house in repair and paid my bills, and, providing there was enough for that, I haven't hounded folks if they paid slowly, or even if they didn't pay at all. So you see, child, I'm no John D.!"

"I see," said the girl, wondering where this confidence was leading.

"I wonder how much John Carter has told you about his life," said the old man unexpectedly.

"Very little," replied Charmian, still puzzled.

"Possibly then, you don't know that as a boy he had almost everything he desired. His people were wealthy, and John and his sister might easily have been spoiled. They went to exclusive schools, and later mingled with what society calls 'the best,' meaning, I suppose, the most stylish. John had always wanted to be a doctor, but he wasn't strong and his father, knowing it to be a hard life, objected. The boy persisted, however, and after graduating from Harvard went into Medical School. In his second year there, his father died—a shock caused by financial worry. Though no one had guessed it, things had been going badly with his business. There was enough left to pay his creditors and save a few of the family heirlooms, nothing more. Two weeks later John's mother died in her sleep."

"Oh, that poor boy!" broke in Charmian with compassion.

"Poor boy, indeed," went on the doctor, "for he loved both parents dearly. The sister, fortunately, had married well. John made his home with her, and went on studying—earning his own way—working too hard, and risking his not too robust health. That was his reason, my dear, for taking a country practice. He needs fresh air, and to get away from persistent invitations that would mean late hours. There are enough late hours in the life of the average doctor, without adding to them in society."

"He will certainly escape society in Wickfield!" smiled Charmian.

"Which is what he wants, and what brings me back to my starting point," the old man continued. "The boy is doing well. The Wickfield people like and respect him. He understands them, and takes hold as I'd hoped he would. So, though of course he doesn't guess it, when my time comes, Charmian, he will inherit what little I have to leave: a roof over his head; an office that folks are used to coming to; and the trust of my friends and patients. So you needn't worry about leaving him without an office if you and Grandma decide to make the change. He'll be provided for. All he needs is a good wife; and I'm wondering. . . ."

The doctor paused, turning to look at Charmian so intently that her color rose.

"There are photographs of two perfect peaches on his bureau, and, according to Grandma, another in his watch!" she retorted lightly.

"And what is there in his heart, my dear?" asked the old man.

"How should I know?"

"Well," said the doctor, shaking his head, "if a red-blooded young fellow can live under the same roof with Charmian Davis, and not find something in his heart, I am mistaken. He should have been on his knees to her before this."

Charmian laughed as she responded: "I understand that they don't do it that way these days! And I've been told that a doctor's wife has a hard life."

"I think you could stand it," smiled her old friend. "I shouldn't want the lad to live alone, Charmian, as I have. He's like a son to me."

She ventured a little laugh.

"I believe that I regard him that way myself! It's a pleasure to keep his meals hot—he's so grateful."

"I'd rather you regarded him differently," said the doctor, sighing, "that is, unless—Dear me! Here we are at my destination. The widow Smithson has got the grippe, I sha'n't be long, child."

The girl glanced up, suddenly conscious of her surroundings. They had stopped before the small, brown, shabby cottage where Jim Bennett had once collected interest money—the place where Charmian had called him "Shylock."

CHAPTER XIX.

As the doctor went within, Charmian's thoughts drifted back to that ride with Jim—to all the changes that had come since, and to those that were destined to come before many years. The old man's confidence had stirred her deeply. He was younger than her grandmother, but he had lived a harder life and was breaking earlier. Probably he knew more about his condition than he had told her. The end might be nearer than it seemed; and he was "putting his house in order." It was like him to be ready when the call came; and to plan so that his care for her welfare went even beyond the grave.

Charmian shivered, not from cold, but from a sense of what life would be to her when all these natural changes had taken place. Even Grandma, happy as she was, could not go on for ever. What would there be for her in Wickfield without Grandma, the old doctor, and even Jim? There was John Carter, to be sure. Perhaps . . .

The girl's lovely color deepened just a trifle at the thought of where this reverie was leading. Then a child's fretful cry from within the cottage brought her back to the scene before her. The house seemed even shabbier than she remembered it—cold and uncomfortable in its wintry setting. A broken windowpane was stuffed with an old shawl. The shades at the windows were torn and sagging. What would such people do without a kindly counsellor like Doctor Howe? Would his successor be as lenient to unpaid bills—or would he collect relentlessly, as Jim Bennett had collected that interest for the bank?

No, Charmian's heart answered, John Carter would not be an inhuman creditor. There was a warm kindliness about him that precluded such a thought. But, spoke up a loyal voice within her, Jim was kind also. Only in business . . . Did all business men care less about the human side of life? . . . Did days spent thinking in terms of money, blind one after a time to other needs?

She stirred as the door of the cottage opened and closed on her old friend; but he came to her side of the car and asked a question:

"Have you got Jim Bennett's address on the tip of your tongue, child? I can't remember it."

(To Be Continued.)

YOUNG WIFE STRENGTHENED

After Taking Lydia E. Pinkham's Vegetable Compound

Bancroft, Ontario—"When I first took Lydia E. Pinkham's Vegetable Compound I had been married about a year and my strength was leaving me on account of my condition. I was only 19 and it was my first child. My mother told me I needed something to steady my nerves and a girl chum told me to take the Vegetable Compound. I am so thankful I did because it strengthened my whole system and now I feel perfectly well and have a sweet little baby boy."—Mrs. J. B. Stalker, Bancroft, Ontario.

WHOLE FAMILY HAD DYSENTERY

Dysentery is one of the worst forms of bowel complaint and should be checked at once as its termination often proves fatal.

Mrs. H. F. Stewart, Findlater, Sask., writes:—"Two years ago we were all very bad with attacks of dysentery. My husband got a bottle of Dr. Fowler's Extract of Wild Strawberry and after taking three or four doses we were completely relieved. Since then we have never been without a bottle of it in the house."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

STURDY CHILDHOOD

The sturdy child—the bright, active little chap is the one everybody loves. It is only the sickly, fretful child who is not attractive. It is the birthright of every child to be sturdy and well—to be able to make everyone admire him: Therefore, mothers, if yours is not attractive it's your fault, not his. He must be ailing and it is up to you to see that he gets relief—that he is given a medicine that will quickly make him well and keep him well.

Baby's Own Tablets are especially designed for infants and young children. There is nothing to equal them for correcting the irregularities of the stomach and bowels—the cause of most of the ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Chinese telephone exchange of San Francisco, Calif., has 2,300 subscribers; two of the operators have served for 20 years.

Keep Douglas' Egyptian Liniment handy. A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

Preference For Blacks

A sheep slayer that attacks only the black sheep in the flock is reported from Cheyenne, Wyoming. This freak killer went through a flock and killed seven black sheep in one night, but failed to touch a single white one.

Little Helps For This Week

"The Lord shall be unto thee an everlasting light."—Isaiah lx. 19.

There is no day so dark
But through the murk some ray of hope may steal,
Some blessed touch from Heaven that we might feel
If we but choose to mark.
—Celia Thaxter.

Let us all be sure that all is well, whatever comes, while we trust and stand fast and strive, and only hopeless—and rightly hopeless—when we want what we are in no wise willing to earn. The glory and the glow of life come by right living. So then, while we may not know what trials wait on any of us, we can believe that as the days in which Job wrestled with his dark maladies are the only days that make him worth remembrance, and but for which his name had never been written in the Book of Life; so the days through which we struggle, finding no way, but never losing the light, will be the most significant we are called to live.—Robert Collyer.

Minard's for Falling Hair.

Again Break Records

Homestead filings at the Edmonton land office have again shattered all records. During April 529 homesteads and 19 soldier grants were taken up. The preceding April exceeded any previous month with 349 homesteads and 8 soldier grants.
