THE CRESTON REVIEW

Vol. XVII. CRESTON, B. C., FRIDAY, SEPTEMBER 11, 1925 No. 30

Alice Siding

Birth—On September 6th, to Mr. and Mrs. Frank Simister, a son—and Alice Siding is rather proud of the newcomer, who weighs ten pounds.

Principal Lallamand got back on Friday from his summer vacation, and reports a great session at fishing in the streams in the Nicola valley.

Miss Elva Kelly arrived at the end of the week on a visit from Kimberley, and is the guest of her parents at the Hummingbird ranch.

Another week of the fine weather that has prevailed the past three weeks, and the Alice Siding hay cutters will have completed the season's operations on the flats.

Orchardists are busy picking the McIntosh Reds this week, the season being probably a week later in 1924.

School re opened on Tuesday with an average opening day enrollment. A new floor has been placed in the building, which greatly improves appearances.

Mrs. E. McDougall and party from Kimberley were motor visitors to Alice Siding at the end of the week, and were visitors with Mr. and Mrs. John Kelly.

Mr. and Mrs. Beazer, who left last week for southern Alberta, are intending to make their permanent home there, having disposed of their ranch at Alice Siding. They will be missed by the neighbors as well as in the Latter Day Saints' Church work, in which Mr. Beazer took the leading part.

Sirdar

Mr. Hunter, the new principal of Sirdar school, arrived on Monday from Vancouver, and school opened on Tuesday with a good attendance.

Miss Helen Moore of Creston, who has been a visitor with Mrs. T. Rogers the past week, left for home on Labor Day.

Mr. and Mrs. R. Dennes and Mr. and Mrs. Cam were weekend visitors at Bonners Ferry, making the trip by auto.

Sirdar's 1925 26 school board is made up of S. Lombardo, R. Dennes and G. Cam, with Mrs. Sid McCabe auditor.

Miss Dorothy Cam, who has been visiting friends in Fernie, got back on Monday.

Messrs. North, Pascuzzo, Lombardo, Neil and Jensen are all busy getting in the winter supply of hay from the flats.

Bass fishing is exceptionally good, several fine catches being reported last week.

Misses Marion and Ruth Swanson, former residents here, but now of Burnaby, who have been on a holiday visit at Portland, Seattle, Spokane and Creston, were visitors with Mrs. Rogers and Mrs. Loasby at the weekend, leaving for home on Monday.

T. Rogers has installed a Delco electric light plant which illuminates the store and apartments above and makes a great improvement in the place.

Mrs. G. S. Moore and children of Cranbrook, were visitors with Mr. and Mrs. Loasby several days last week.

Gus Orman, who has been on a holiday to Fernie and points east, returned to Kootenay Landind last week, and Mr. F. Brawn, who has been on the landing while the former was away, has returned to the McCabe B & B crew at Cranbrook.

Mrs. Sid McCabe and children left on Sunday for a few weeks' visit with friends at Cowley, Alberta. Sid was with the family here for the weekend.

Canyon City

Canyon has at least one student at the Creston high school in Harry VanAckeran, who commenced his studies there on Tuesday morning.

Grover Kifer of Yahk was a weekend visitor with Canyon friends. He states that W. Wetherhead has taken a one-year logging contract with the C.P.R. at that point, and will be employing a crew of about 50 men this winter.

Misses Muriel and Frances Knott left on Sunday for Glenlilly and Skookumchuk, where they will be in charge of the schools at those points the present term.

Canyon's United Church is receiving a new coat of paint this week, with Messrs. John Anderson, Geo. Strong and Mr. Halstead handling the brushes in very workmanlike manner.

School reopened on Tuesday morning with about the biggest enrollment on record, seventy scholars being on hand to resume educational effort. Principal Kolthammer has Miss Vera Lister as an assistant this year. Ernest Barnes has been awarded the position of janitor.

Mr. Lojd is Canyon's newest resident He has just arrived from Slocan City to occupy twenty acres of land purchased from the Land Settlement Board near Mr. Ridd's, near the sawmill.

Canyon ladies were out in force at the home of Mrs. Pochin on Saturday afternoon, the occasion being a miscellaneous shower in honor of Miss Marguerite Clark, who on Monday became the bride of Norman Strong, also of Canyon. The bride elect received many very useful and pretty gifts and socially the afternoon was also very thoroughly enjoyed.

F. Harback, the student who will have charge of Unit d Church work at Canyon, was here this week getting acquainted with his people, and will take his first service on Sunday night. For the present he will make his home with Mr. and Mrs. Knott.

Mrs. VanAckeran is claiming the long distance record at radio reception for this part of the Kootenay. On Saturday night their Atwater-Kent enabled them to listen in on a speech the lord mayor was delivering at London, England, and they also distinctly heard the boom of Big Ben in the world's metropolis.

Miss Marguerite, daughter of Mr. and Mrs. Frank Clark, and Mr. Norman Strong were quietly married at the United Church parsonage, Creston, on Monday, the bride being supported by Miss Rita Strong, while the groom's support was Mr. Harback. They left on the noon train at Erickson for Spokane, where they will reside in future, and have the heartiest good wishes of a host of friends for future happiness and success.

For Sale—One 12 inch hand plow, one horse cultivator, good as new; garden cultivator and seeder, democrat, force pump, driving harness, one brown Swiss, one milch cow. All priced for quick sale. A. P. Lye, Camp Lister.

Erickson

Mr. and Mrs. H. Regan and Mrs. Chas. Penson of Spokane were weekend visitors here with Mr. and Mrs. A. E. Penson, returning on Tuesday.

Walter Long of the Imperial Bank staff, Cranbrook, is taking his usual two weeks' vacation, which he is spending with his parents, here.

Mrs. Jas. Carr is a Nelson visitor a few days this week, leaving on Tuesday.

Miss Beth Putnam got back on Monday from a two months' holiday visit with friends at Vancouver and coast points.

Hugh Graham got away on Thursday last for Claresholm, Alberta, where he will stay for harvesting and threshing operations.

The petition circulated here last week in favor of a beer parlor certainly showed a great change in sentiment as compared with when the vote was taken. From the looks of the list the needed 40 per cent. of signatures was obtained.

Mr. and Mrs. Crieger and Mr. and Mrs. Hartman of Spokane were motor visitors to Erickson for Labor day and were guests of the former lady's parents, Mr. and Mrs. M. R. Palmer.

Word from Cranbrook is to the effect that Jim Dodd's injured leg is now making the expected recovery. Mrs. Telford, who was also a patient at S. Eugene, got home at the first of the week.

Orchardists are picking their McIntosh Reds this week. The size is satisfactory and the crop quite an average one. At Canyon picking will not start for a week, the growers there wanting a little more color.

Erickson has four new pupils at Creston high school this term in Molly Kemp and Beaulah Penson, Edward Martin and Archie McLeod of Yahk, who is stopping with Mrs. McMasters, while at school.

School got under way again after the holidays on Tuesday morning. Miss Trembath is back to take charge, and Miss Ferguson of Midway has the junior room. Both teachers are staying with Mrs. G. Cartwright.

Local and Personal

A feature of the September board of trade meeting on Tuesday was the report of the highways committee that there is some prospect of the new road at Arrow Creek being gone on with this fall. If work is started it will be under way by the middle of October.

Friends of Miss Wade, teacher of Division III. of the Creston school, will deeply sympathize with her in the death of her mother, which took place at the family home at Cloverdale the latter part of the week. In her absence Miss Louise Bevan is in charge of the third room at the school, which opened on Tuesday, but Miss Wade will likely be back at the beginning of next week.

Sheriff Doyle of Nelson, a former well known Creston resident, has just been named returning officer in West Kootenay for the Dominion election, which is set for October 29th. The Conservatives are all set for the contest, W. K. Esling having been nominated some months ago, and the Farmer-Labor nomination is expected in a few days. So far no move has been made by the Liberals at bringing out a candidate.

F. Harback, the student who is in charge of the United Church work at Kitchener, Canyon and Lister, arrived on Saturday, and preached in the Creston and Wynndel churches on Sunday, making a favorable impression. The turnout at the evening service here taxed the seating capacity of the building to its utmost capacity. He starts on his regular work next Sunday, 13th, and is this week being introduced on his appointments by Mr. Herdman.

Lister

Geo. Jacks, who has been home for a two weeks stay at the ranch here, is leaving today for Klockmann to resume his former position.

Mrs. Blandy of Metchosin, B.C., is spending a few days visiting here, and is the guest of Col. and Mrs. Lister.

H. Sparrow, who left a few weeks ago for work in Montana, has pulled up at Coaldale, Alberta, where he is helping with harvest and threshing. Mervyn Williams, who left about the same time, h e located at Trail, where he has a good position.

Alf. Evans arrived down from Klockmann at the first of the week and will be remaining until about the 20th.

Camp Lister had a visit on Wednesday last from Hon. A. M. Manson, the B.C. attorney general, who was accompanied by Mayor Sutherland of Kelowna, and were travelling with Major Mallandaine. Mr. Manson had expected to find Hon. E. D. Barrow here on his intended visit, and feels quite sure the wanted minister will make a visit during the month.

After a few weeks stay at Nelson where he went in July to take a position, J. C. Helme has been transferred to Standard, Alberta, where he is at present employed.

F. Harback, the new United Church pastor, was being introduced around the settlement on Tuesday by Pastor Herdman. The new man will have charge of the service on Sunday afternoon, the new arrangement being for worship to start at 3 o'clock.

Lister school reopened on Tuesday morning with Principal Jenks in charge, and an enrollment of seventeen pupils. No first year high school work will be taken this term. Huscroft school got away to a good start with the new teacher, Miss Hazel Hobden, in charge.

Prssbyterian S.S. Picnic

A feature to the Presbyterian Sunday school picnic at Glengariff Grove on the afternoon of September 2nd, that ranked second only to the bountiful spread of good things to eat, was the races for the scholars, in which the girls took a very prominent part, the winners in some of the events being as follows:

Girls, 6 years and under—Mary Ross, Helen McCreath.

Girls, 6 to 8 years—Ruth Hare, Kathleen Bundy.

Girls, 8 to 10 years—Helen Hopwood, Margaret Whitney.

Girls, 10 to 12 years—Hazel Hopwood, Gwen Webster.

Sllegged race, girls—Margaret Whitney and Minnie Downs, Gwen Webster and Hazel Hopwood.

Wheelbarrow race—Helen Hopwood and Betty Speers, Jane Ross and Hazel Hopwood.

Girls, over 12—Marion Learmonth, Marion McDonald.

Ladies' race—Marion Leormonth, Mrs. Speers.

Boys, 6 to 10 years—Arthur Speers, Harold McLaren.

Wheelbarrow race—Arthur Speers and Jack Johnston, Frank Morrow and Raymond Bevan.

2 legged race—Bert and Frank Morrow, Harold McLaren.

Although temporarily without a pastor, the Sunday school work is being carried on at the usual hour each Sunday morning, and now the holidays are over the attendance is back to normal.

Wynndel

Miss Irene Huscroft, who has been a visitor with Mrs. Ogilvie, left on Monday for her home near Porthill, Idaho.

Misses Florence Bathie and Ethel Towson left last week for Willow Point, where they are helping with the apple packing.

M. R. Foxall is in Nelson at present on the staff of the apple shippers association.

Os. Hindley, who has been the guest of his brother, Charles, left on Saturday for Harrop, where he will be a guest of his brother, Fred.

C. O. Ogilvie is the latest Wynndelite to acquire an auto, having just acquired a slightly used Chevrolet.

Mrs. C. O. Ogilvie and Miss Irene Huscroft were visitors in Nelson a few days last week, returning on Saturday.

Miss A. Walsh, who has spent the summer vacation at Chicago, Ill., returned here on Sunday, and again takes charge of the junior room at the school.

Mr. Vankoughnet, who was in a nasty log accident while working near Trail this summer, left on Sunday for the Trail hospital for further treatment to the injured member.

M. Wigen's box factory is closed for a few days. A break in the planer necessitated the broken parts being sent to Cranbrook foundry for repair.

Mr. and Mrs. E. Butterfield left on Labor Day for a three weeks' visit at points west, and will be the guests of their sons and daughters during their vacation.

Chas. Hindley had the luck of the season while fishing in the mouth o Duck Creek and Goat River channel. His catch included four very fine trout and between thirty and forty bass.

School reopened on Tuesday with a full turnout of pupils. Miss Rose Cherrington has been secured for principal this year, while Miss Walsh has charge of Division II.

The haying season this year has been about the best ever. Fine weather has prevailed for two weeks and a half and most of the farmers are through and report putting up some of the finest hay ever cut on the flats.

Mrs. J. O. Crooks sustained a very nasty accident on Monday. While driving down the Botte' hill with her husband a wheel came off the buggy. She was thrown out and striking a fence post her head was cut severely. The doctor was sent for and the wound necessitated eight stitches. Mr. Crook was able to jump clear of the wreck and sustained but a few scratches. She is making a very satisfactory recovery and will soon be around the same as ever.

"CAPTAIN BLOOD," a Vitagraph picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XXVI.—Continued.

"It's myself he's hunting at Tortuga, my lord," said Blood. "But, I'm thinking that while he's about it, I'd best be looking after Jamaica for King William." He laughed, with more mirth than he had used in the last two months. "Set a course for Port Royal, Jeremy, and make all speed. We'll be level yet with M. de Rivarol, and wipe off some other score at the same time."

"But you are not equal to it, damme!" cried his lordship. "Any one of the Frenchman's three ships is a match for both yours, my man."

"In guns—aye," said Blood, and he smiled. "But there's more than guns that matter in these affairs. If your lordship would like to see an action fought at sea as an action should be fought, this is your opportunity."

"Rivarol carries in his hold the treasure plundered from Cartagena, amounting to forty million livres. He has gone into Port Royal with it. Whether he defeats me or not, he doesn't come out of Port Royal with it again, and sooner or later that treasure shall find its way into King William's coffers, after, say, one-fifth share shall have been paid to my buccaneers. Is that agreed, Lord Willoughby?"

His lordship stood up, and shaking back the cloud of lace from his wrist, held out a delicate white hand.

"Captain Blood, I discover greatness in you," said he.

"Sure it's your lordship has the fine sight to perceive it," laughed the Captain.

CHAPTER XXVII.

The Last Fight of the Arabella

It was the afternoon of that same day, and the two buccaneer ships rocked gently with idly flapping sails under the lee of the long spit of land forming the great natural harbor of Port Royal, and less than a mile from the straits leading into it, which the fort commanded. It was two hours and more since they had brought up thereabouts, having crept thither unobserved by the city and by M. de Rivarol's ships, and all the time the air had been aquiver with the roar of guns from sea and land, announcing that battle was joined between the French and the defenders of Port Royal. That long, inactive waiting was straining the nerves of both Lord Willoughby and van der Kuylen. Blood faced them, smiling confidently. "It's this way, now: there's nothing at all to be gained by precipitancy, and a deal to be gained by delaying, as I shall show you, I hope. Sure, it'll be time enough to go forward when the fort has shot its bolt. . . ." He broke off to listen. "Aye, I was right. The fire's slackening. Ho there, Jeremy!"

Came the padding of feet along the decks, the creaking of blocks and the hoisting of sail. The helm was put over hard, and in a moment they were moving, the Elizabeth following, ever in obedience to the signals from the Arabella, whilst Ogle, the gunner, whom he had summoned, was receiving Blood's final instructions before plunging down to his station on the main deck.

Within a quarter of an hour they had rounded the head and stood in to the harbor mouth, within saker shot of Rivarol's three ships, to which they now abruptly disclosed themselves.

Where the fort had stood they now behold a smoking rubbish heap, and the victorious Frenchman with the lily standard traling from his mastheads was sweeping forward to snatch the rich prize whose defences he had shattered.

Led now by Blood himself, they launched themselves upon the French.

Blood scanned the French ships, and chuckled. The Victorieuse and the Medusa appeared to have taken no more than a few scars; but the third ship, the Baleine, listing heavily to larboard so as to keep the great gash in her starboard well above water, was out of account.

The sight of that great red ship with her gilt beak-head and open ports swinging broadside on must have given check to Rivarol's soaring exultation. Yet before he could move to give an order, before he could well resolve what order to give, a volcano of fire and metal burst upon him from the buccaneers, and his decks were swept by the murderous scythe of the broadside. The Arabella held to her course, giving place to the Elizabeth, which, following closely, executed the same manoeuvre. And then, whilst still the Frenchmen were confused, panic-stricken by an attack that took them so utterly by surprise, the Arabella had gone about, and was returning in her tracks, presenting now her larboard guns, and loosing her second broadside in the wake of the first. Came yet another broadside from the Elizabeth and then the Arabella's trumpeter sent a call across the water which Hagthorpe perfectly understood.

"On, now, Jeremy!" cried Blood. "Stand by, there! Prepare to board! Hayton . . . the grapnels!" Briskly he explained himself to his two guests. "Boarding is our only chance here. We are too heavily outgunned."

Of this the fullest demonstration followed quickly. The Frenchmen having recovered their wits at last, both ships swung broadside on, and concentrating upon the Arabella as the nearer and heavier and therefore more immediately dangerous of their two opponents, volleyed upon her jointly at almost the same moment. The Arabella rocked and staggered under that terrific hammering. For a moment she seemed to hesitate, then she plunged forward with a gaping hole forward, that was only just above the water-line. Meanwhile, the Frenchmen going about, gave the like reception to the Elizabeth. The Arabella, indifferently served by the wind, pressed forward to come to grips. But before she could accomplish her object, the Victorieuse had loaded her starboard guns again, and pounded her advancing enemy with a second broadside at close quarters. Amid the thunder of cannon, the rending of timbers, and the screams of maimed men, the half-wrecked Arabella plunged and reeled into the cloud of smoke that concealed her prey, and then from Hayton went up the cry that she was going down by the head. The blue and gold flank of the Victorieuse loomed through the smoke. But even as Blood caught that enheartening glimpse he perceived, too, how sluggish now was their advance. They must sink before they reached her. But they had not yet completely failed. Hayton himself, and a score of sturdy rogues whom his whistle had summoned, were crouching for shelter amid the wreckage of the forecastle with grapnels ready. Within seven or eight yards of the Victorieuse, when their way seemed spent, and their forward deck already awash under the eyes of the jeering, cheering Frenchmen, those men leapt up and forward, and hurled their grapnels across the chasm. Of the four they flung, two reached the Frenchman's decks, and fastened there. Unhesitatingly all threw themselves upon the chain of one of those grapnels, neglecting the other, and heaved upon it with all their might to warp the ships together. Blood sent out his voice in a clarion call:

"Musketeers to the prow!"

Fifty of them dashed forward instantly, and from the ruins of the forecastle they blazed over the heads of Hayton's men, mowing down the French soldiers who, unable to dislodge the irons, firmly held where they had deeply bitten into the timbers of the Victorieuse, were themselves preparing to fire upon the grapnel crew.

Starboard to starboard the two ships swung against each other with a jarring thud. The advance guard of boarders, a hundred strong, were ordered to the poop, grapnel-men were posted, and prompt to obey Blood's command at the very moment of impact. As a result, the foundering Arabella was literally kept afloat by the half-dozen grapnels that in an instant moored her firmly to the Victorieuse.

Led now by Blood himself, they launched themselves upon the French like hounds upon the stag they have brought to bay. For fully half-an-hour that battle raged aboard the Frenchman. The French resisted stubbornly, and they had the advantage of numbers to encourage them. But for all their stubborn valor, they ended by being pressed back and back across the decks that were dangerously canted to starboard by the pull of the water-logged Arabella. The buccaneers fought with the desperate fury of men who know that retreat is impossible, for there was no ship to which they could retreat, and here they must prevail and make the Victorieuse their own, or perish.

(To be continued)

TO EXPECTANT MOTHERS

Letter from Mrs. Ayars Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Spring Valley, Sask.—"I took the Vegetable Compound before my last confinement, when I got to feeling so badly that I could not sleep nights, my back ached so across my hips, and I could hardly do my work during the day. I never had such an easy confinement and this is my sixth baby. I read about Lydia E. Pinkham's Vegetable Compound in the 'Farmer's Telegram' and wrote you for one of your books. We have no druggist in our town, but I saw your medicine in T. Eaton's catalogue. I am a farmer's wife, so have all kinds of work to do inside and outside the house. My baby is a nice healthy girl, who weighed nine pounds at birth. I am feeling fine after putting in a large garden since baby came. (She is as good as she can be.) Yours is the best medicine for women, and I have told about it and even written to my friends about it."—Mrs. ANNIE E. AYARS, Spring Valley, Sask.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system so that it may work in every respect as nature intends. All druggists sell this dependable medicine. Give it a trial. C

MONTREAL TORONTO WINNIPEG 183W

"Lady Of the Peony Rose"

Peonies Flourish to Utmost Perfection in Canada

A blaze of color will meet the eyes of those who visit the C.P.R. pavilion at Wembley early in July; for 5,000 peony blooms will soon be shipped overseas from Canada for exhibition purposes.

Canada has long enough been heralded as "Our Lady of the Snows," say those who are behind the scheme. The time has come when she should be known as "Our Lady of the Peony Rose."

The bulk of the blossoms will be cut from plants grown by W. Ormiston Roy, well-known landscape gardener of Montreal. In order that everything may be done to keep the blooms in proper condition, John F. Roy will go over with them on the boat; for it is believed that this is the first time cut flowers have been sent across the ocean on a considerable scale. A temperature varying with the humidity, but below 40 degrees Fahrenheit, is required for the best results.

W. Ormiston Roy's world-famous collection of peonies, recognized as the greatest and largest assemblage of the classic sorts old enough to produce exhibition blooms, will be supplemented by a few rare kinds from the noted peony gardens of H. Norton, Ayerscliff, Que.

Mr. Roy has a growing ambition to have the peony recognized in Canada at its true value as a landscape plant; and he claims that it is the only beautiful hardy plant that will thrive the length and breadth of Canada. This is a rare and proud distinction, because our national emblem, the maple, cannot exist in many parts of our country. The peony requires less care than any other plant or shrub, and will succeed in any good garden soil, provided it is exposed to sunlight and is well drained. Given these simple conditions, and if it is not planted more than two or three inches below the surface of the soil, it will grow in any province of the Dominion, even the Klondyke, he says.

The varieties which Mr. Roy intends exhibiting at Wembley will include such rare sorts as La France, Solange, Tourangelle, Sarah Bernhardt, Enchantresse and Avalanche—all of which are seldom seen in such perfection in English gardens. In fact, in no country in the world do they flourish as in Canada—not even in China, where the first peonies came from, and where for upwards of a thousand years the plant has been regarded with love and reverence.

From Mr. Norton's garden will come blooms of such unusual varieties as Kellway's Glorious, which originated in England; Le Cygne, perhaps Victor Le Moine's greatest contribution to the peony world; Martha Bulloch and Mrs. Edward Harding's outstanding varieties of American origin, all of which still range from $25 to $100 a plant.

Mr. Roy points out that if Canadians once appreciate the value of the peony in landscape planting, every city and village in the country could be as noted for peonies in a comparatively few years as Portland, Oregon, is now famous for its roses. Canada yet has the opportunity to preempt the peony and to grow it in every garden where there is a yard or two of soil open to the sun. No other country has yet wakened to its wonderful possibilities.

Tree Grew From Cane

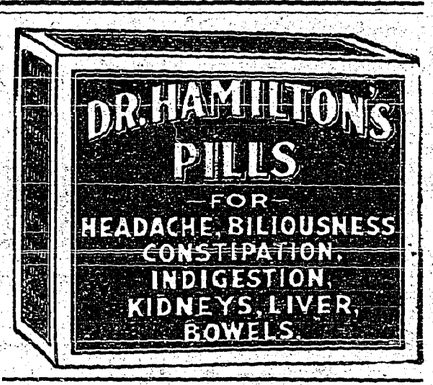
Cottonwood Stick Was Planted In Kansas Fifty Years Ago

One of the largest trees in Hutchinson, Kas., has grown from a judge's cane.

Fifty-one years ago, in April, 1874, Judge W. R. Brown, the first judge of this judicial district, was walking along East Sherman Street in Hutchinson twirling a cottonwood stick. Amos Plank, veteran jeweller, who vouches for the story, was working in his yard when Judge Brown came along.

"Well, I guess I'd better plant you a tree," the judge remarked, and he stuck his cane into the soft ground in front of the Plank home. Plank was called away from home for the summer. When he returned he found the cottonwood stick had sprouted. He left it in the ground. Today it is one of the largest cottonwood trees in Hutchinson.—New York World.

Don't you believe that it's hard to be poor. It's the easiest thing in the world.



Trotzky's Uncollected Salary

Trotzky used to live in New York. He left there in order to help in the Russian revolution and has since become a world figure. In his haste he neglected to collect three months' salary from the Canadian Pacific Railway for publicity work. Some time ago the treasurer of the company wrote him relative to it, but has had no reply. He may be thinking of coming back to collect.—Railroad Magazine.

UNSURPASSED FOR CHILDHOOD AILMENTS

Mrs. Howard King, R.R. No. 5, Truro, N.S., says:—"I am the mother of four children and have always used Baby's Own Tablets when any of them needed a medicine, and I can recommend the Tablets as being unsurpassed for childhood ailments." Thousands of other mothers agree with Mrs. King as to the merits of the Tablets. There are thousands of homes throughout Canada where the Tablets are always kept on hand in readiness for the least sign of any of the minor ailments which afflict little ones. Baby's Own Tablets never fail to regulate the stomach and bowels, thus they banish constipation and indigestion; break up colds and simple fevers; relieve colic and bring the baby through that dread teething period in safety. The Tablets never do harm—always good—as they are guaranteed absolutely free from any injurious drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Pads Of Money

A New York broker gets new currency and then sends it to his stationer to be made up in pads. He says this is the most convenient way to keep the money from being mussed up.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Taught 80 Years

For 80 years, Mrs. Anna Slade, of Hastings, Eng., who recently celebrated her 102nd birthday, has been a Sunday School teacher. She is believed to hold the world's record.

THE constant use of *Sally Ann* in household duties is beneficial to the hands—it leaves them white and soft. Softens hard water; can't scratch.

WESTERN CLEANSERS LIMITED

WORLD HAPPENINGS BRIEFLY TOLD

The Earl of Clarendon has been appointed chairman of the Overseas Settlement committee.

The annuity of $7,500, guaranteed by the Federal Government to Dr. F. G. Banting, of Toronto, passed the House of Commons.

The Daily Chronicle and Weekly Gazette, the oldest newspaper in Canada, formed in 1764, has ceased publication.

Twenty-eight persons were killed and 130 houses destroyed by a hurricane which swept over the province of Altai, Russia.

Major A. R. Thompson, son of Col. Andrew Thompson, Ottawa, has been appointed Gentleman Usher of the Black Rod, in succession to the late Col. E. J. Chambers.

The cost of constructing Tokyo's new subway system will be somewhere in the neighborhood of 187,000,000 yen, according to the plans drawn up by the municipal authorities. There will be about 40 miles of the subway.

The Daily Express, London, suggests the name of Cockspur Street be changed to Canada Street in view of the opening of the new Canadian Building and also of a number of other Canadian offices.

The tomb of Virgil, at Naples, has been purchased by the Italian Government, and a large sum will be expended in restoring the ancient Latin poet's resting place as part of this year's celebration in his honor.

The preventive vaccine against tuberculosis, known as "B.C.G.," is producing most effective results, according to a report read before the Academy of Medicine, Paris, France, by Prof. Calmette, assistant director of the Pasteur Institute.

A mysterious epidemic has stricken the fish in Lake Geneva, which is causing them to die in such numbers that employees of the hydro-electric plants at Geneva, Switzerland, are obliged to work double shifts in order to shovel them out of the spillways.

Investing Money In Palestine

Jews Spending Millions In Purchasing and Improving Land

The Jewish national fund has invested almost $6,000,000 in the purchase and improvement of land in Palestine from October, 1920, to April, 1925, approximately the period of Sir Herbert Samuel's administration as high commissioner, according to a report issued by the world headquarters of the fund in Jerusalem.

Of this money $5,194,440 was spent in the purchase of agricultural and urban land and $774,150 in land improvements, including the drying up of swamps, road building, water supply installation and building loans to new settlers.

Dr. Shearer's Estate

According to the will of the late Dr. John G. Shearer, formerly secretary of the Social Service Council of Canada, his entire estate, valued at $44,111.36, passes to his widow, Elizabeth A. Shearer. Upon the occasion of her death all the residue is to go the Social Service of Canada to be used as they may decide. The bulk of the estate, amounting to $44,000, is in real estate in the city of Toronto.

FOR
"Cholera Infantum"
MOTHERS SHOULD USE

This valuable preparation has been on the market for over 80 years, and has no equal for offsetting the vomiting, purging and diarrhœa of cholera infantum.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

A New British Colony

Island of Cyprus is New Part of Empire

A new milestone in Mediterranean history was set up on May 1st, when by Royal Letters Patent, read by the high commissioner of Cyprus at Limasol, that island became a British colony. Our King Richard, Coeur de Lion, took it from Isaac Commenus and bestowed it on Guy de Lusignac. In 1570 the Turks took it from the Venetians and held it in the stagnation that marks Turkish rule until 1878, when under the Treaty of Berlin, Great Britain undertook its administration, paying an annual tribute to Turkey. Since then the Cypriotes have progressed morally and materially, and it has been for us a useful Mediterranean station, though possibly of less value than Lord Beaconsfield expected. In November, 1914, it was annexed by proclamation. The high commissioner now becomes governor and various reforms will be introduced, such as an increase in the representation of Moslems in the legislative council and the opening to natives of some offices hitherto filled from home.—London Spectator.

Neuralgia Conquered
Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

"Mr. W. T. Greenway, formerly connected with the Guide newspaper staff, has written: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline." Remember this, wherever there is pain, rub on Nerviline, and you will get prompt results—35c at all dealers.

Canada At Geneva

Has Become Leader in Humanitarian and Idealistic Matters

The increasing activity that Canada has displayed in League of Nations affairs in the past six months is rapidly putting the Dominion in the position of leader of the "Small Nations Group."

As a result of the absence of the United States from the league, Canada has become more or less a leader in humanitarian and idealistic matters. Her situation geographically makes her a natural arbiter when national animosities, racial prejudices or traditional policies are involved.

The Canadian headquarters in Geneva, which are characterized as "Dominion of Canada advisory officer, accredited to the League of Nations," is situated on what is now known as "Diplomatic Row."

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Woman Makes New Motor-Cycle Record

Averaged Sixty-eight Miles An Hour In Race Near Paris

Mrs. Stewart, wife of Lieutenant-Colonel R. N. Stewart, established a record for the 250 miles on a 3.46-h.p. motor-cycle at the Linas-Motlhery motor racing track, near Paris, accomplishing the distance in 3h. 38m. 22s.

The previous record was 3h. 46m. 25s.

Mrs. Stewart's average speed was over sixty-eight miles an hour.

Mrs. G. M. Stewart is the holder of the double twelve hours record at Brooklands, London, and was once described as a "frail little woman with bobbed hair." She served as an ambulance driver with the Russian army during the war.

One-Lamp Car Is Menace

One of the most dangerous things you meet on the road at night is the car with only one head lamp lighted. When such a machine approaches it is a good idea to give it lots of room. You can't tell which of this motorist's lights is gone.

Minard's Liniment for Sore Feet

ECLIPSE FASHIONS

Exclusive Patterns by Cecil Bayne

A Quaint Little Bloomer Dress

Frocks for little folks are becoming more interesting every day, and there is almost as great variety as for the grown-ups. What little girl would not adore this quaint and winsome little bloomer frock No. 1025? It may be made of gingham, chambray, percale, cotton rep or the dainty, patterned English prints. The kimono sleeve upper portion is attached to two semi-circular skirt portions, forming an apron effect, and tied at either side with bows of material or ribbon. The pattern also includes bloomers gathered into knee-bands. Elastic is inserted at the waist. The pattern is cut in sizes 4 to 10 years and requires 1⅞ yards of 32-inch material for the dress and 1¼ yards for the bloomers.

The Worlds of Empire

We are as a nation only dimly aware of the golden chances we possess of calling in these new worlds to redress the balance of the old. Let us have vision. Let us realize that here is the true solution of our unemployment problem. Let the old country go to the aid of the new countries which are ready to feed its millions and to provide it with new markets for its merchants and its manufactures. Forget Europe! Remember the Empire!—London Daily Express.

The metric system originated in France about 1790.

CUTICURA HEALS ECZEMA ON FACE

In Rash, Spread to Scalp. Itched and Burned. Face Very Sore.

"Eczema broke out in a rash on my face and later spread to my scalp. The rash scaled over and sore eruptions formed. It caused a great deal of itching and burning and my face was very sore. The trouble lasted three or four weeks.

"I was treated without any benefit. I began using Cuticura Soap and Ointment and could see a great change after the first night. I continued the treatment and in four weeks I was completely healed." (Signed) Miss Margaret Danyow, Ferrisburg, Vermont.

Daily use of Cuticura Soap, with touches of Cuticura Ointment now and then, keeps the skin fresh, smooth and clear. Cuticura Talcum is also ideal for the skin.

Sample Each Free by Mail. Address Cuticura Laboratories, Dept. 21, Malden, Mass. Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Made Interesting Discovery

Students Find Wonderful Caves Among Yorkshire Hills

Two students spending their summer holidays among the Yorkshire hills happened to survey one morning the rugged slope of the great Ingleboro Mountain through their field glasses. They saw, half-hidden among the bracken, a narrow slit in the rock. They blasted away a couple of thousand tons of limestone, and in the heart of the mountain discovered a roaring river passing through crystal caves. In lofty chambers, curtailed with stalactites of orange and white crystal, are cascades of clear water, which have splashed down for countless ages. At one point the river bed widens out and forms a long subterranean lake. This portion is not yet opened up, but excavation is being carried on.

Peculiar Surgical Operation

Noted Specialist, Hurt In Diving, Untwisted Own Head

The newspapers report that Sir Herbert Barker, noted specialist in manipulative surgery, recently operated on himself under peculiar circumstances. While swimming at Alsassia, on the Gulf of Genoa, he struck his head on the bottom during a dive. Regaining the surface with difficulty, he found himself unable to turn his head, and in great pain. Utilizing his knowledge of surgery, he manipulated his head back into position with, the report states, "an audible crack." He is now recovered.

Stamps Not Required

Excise Stamps Need Not Be Attached To Bank Cheques For $5 Or Under

It will not now be necessary to place excise stamps on bank cheques of an amount of $5 or under, according to a new amendment which came into effect on July 1st.

This also applies to travellers' cheques, postal notes, money orders issued at the post office and express orders. It will be necessary to place stamps on all cheques over the amount of $5.

The largest turbine ever built recently was set up at Niagara Falls. In a year it can do the same amount of work as 9,000,000 men.

CRESTON, B.C., FRIDAY, SEPT. 11

WHAT OTHER PAPERS SAY

Senotor Borah's Visit

Senator W. E. Borah was a visitor in Bonners Ferry for a couple of hours Monday, arriving on the noon Great Northern train from Spokane and leaving shortly after lunch on an auto trip to Nelson, B.C., to investigate matters pertinent to the Kootenai Valley drainage problems and particularly the proposed plan of Canadian interests to construct a dam for electric power purposes, at a point on the Kootenai river three miles below Nelson.

Senator Borah conferred with Engineer Biker of Nelson, who is in charge of provincial engineering work, and was given data showing that the proposed dam would not effect the proposed reclamation districts on this side of the international boundary line. However, those interested in drainage matters in the Kootenai Valley have expressed some fears that the proposed dam might interfere with the flow of the Kootenai river in high water times and cause the spring waters to back up upon the low lands to a greater extent than they now do annually, where the lands are not protected by dikes.

The senator took the view that the whole matter was one to be decided by competent engineers and he will request that government engineers investigate the matter with a view of affording all possible protection to Idaho interests. Before any work can be done upon the proposed dam at Nelson the Canadian interests will have to secure the consent of the joint commission of American and Canadian citizens who arbitrate and pass upon questions where construction or development work performed in one country may be done to the detrimene of the neighboring nation.

On the trip to Nelson Senator Borah viewed the Kootenai Narrows, where it has been proposed, if proper treaties and government aid can be secured, to widen the channel so as to permit the spring waters to the Kootenai river and lake to pass away more rapidly and so take care of the back water which now floods the low lands in June and July.

Senator Borah was greatly impressed when he was informed that some 40,900 acres of the richest agricultural land in Idaho and approximately 60,000 acres of similar land in Canada will be reclaimed if the flood waters of the Kootenai river can be successfully handled. Last year the Senator had the opportunity to visit Drainage District No. 1, and to see the wonderful crops of grain and hay that are annually grown.

Senator Borah was accompanied here from Spokane by C. E. Arney, development and immigration agent for the Northern Pacific Railway company, whom he has known since he first came to Idaho. On the trip to Nelson he was accompanied by A. J. Kent and C. W. King the trip being made in Mr. Kent's auto.

Senator Borah was advised of the difficulties the local drainage districts are meeting with on account of Indian allotments and promised that he would take the matter up with the proper officials and see if arrangements could not be made to either permit the sale of the Indian lands or have the government bear a pro rata cost of reclamation.

Senator Borah was warmly welcomed at Nelson and Creston, where the citizens he met were disappointed that he had not advised them of his visit so that they could arrange to entertain him. Whenever a brief stop was made, even in the most isolated districts, Senator Borah was at once recognized and it was apparent that he holds a place in the hearts of the people second to no other statesman of this age. Prominent politicians in both western and eastern states anticipate that he will be the republican nominee for president at the next or at least the second coming national election. —Bonners Ferry Herald.

Changed Conditions

Returning last week from an extended trip, W. K. Esling said: "One admires the spirit of civic pride which is changing the appearance of things in Creston. A little more than a year ago, Creston incorporated as a village municipality and is now enjoying, for its own use, the local taxes which, in the past, went to meet heavy expenditures in other parts of the province. The three commissioners, H. S. McCreath, Edward Gibbs and F. H. Jackson, take a a keen interest in the local improvements, and in the short period since incorporation, they have laid nearly a mile of new sidewalks, have opened two streets and have built two miles of asphalt and gravel roads, as good as any in the interior of British Columbia. An extensive program for betterments is proposed, including the planting of a number of shade trees."—Rossland Miner.

FOR SALE—Mooley cow, 2½ years old, milking, $45. W. G. Hendy, Creston.

The Associated Growers has already shipped six carloads of onions from Vernon to New Zealand.

Penticton council will spend $3989.19 on a four cylinder motor truck with full equipment for fire fighting.

Mrs. Geo. Smith of Cranbrook had 20 different sorts of sweet peas in the flower show in that town late in August.

Up till the end of August Cranbrook has had more births to record than in the previous year, but marriages were fewer.

At Grand Forks the Gazette is alarmed because so many children are allowed to run around with .22 rifles and other firearms.

Cull apples are bringing from $6 to $15 a ton, according to variety, at the Vernon evaporator. Jonathans are the highest priced.

Clean Up the Old Gun!

The time approaches wheen good fellows will once more gather round the camp or shooting lodge to discuss the day's hunt. You will soon hear the whir of wings as a flock of duck swing in over your decoys—what a holiday—there is nothing like it! The best time of the whole year.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

LETTERS TO THE EDITOR

The Export Houses

EDITOR REVIEW:

SIR,—I feel that my argument on the Export Houses in the Review of August 14th is very plain and substantial; no good purpose would be served by further discussion.

With the exception of the last paragraph I tried to stick to the subject under discussion. As Mr. Samuelson saw fit to make reference to other subjects not touching on the export houses I feel that I should reply to them.

It is true I was three weeks making a reply to his first letter. He will note that I am improving. Perhaps Mr. Samuelson has overlooked the fact that about 125 years ago my ancestors emigrated from the "land of brown heath and shaggy wood," which accounts to a degree for my tardiness.

Nor am I fortunate enough to be a subscriber to such a splendid paper as the Daily Province, which paper Mr. Samuelson derives so much information from.

He states that he will be happy if called nothing worse than a Liberal. To quote a local Scot, "There is scarcely anything worse, unless its a Methodist, but to be called both, why, even the Scotch can see the joke."

Laying all jokes aside on this point, Mr. Samuelson loses a splendid opportunity of serving his community and fellow neighbors by not having himself attached to the executive of the local Liberal association, and making his voice heard in their deliberations. If I were the staunch Liberal today as I was at Mr. Samuelson's age I should not rest from my labors until I had found out, besides other things, why a Creston road crew is engaged to do the odd jobs in Canyon (not referring to the hard surface men), while half of the residents, including war veterans, have to leave here in search of a few days labor.

In casting his vote last June for the first time the Scotch and Tories were equally delighted and encouraged to think that Mr. Samuelson saw fit to do so in favor of not only a lifelong Tory and Scot, but a lady of charming personality. Just why he voted for one endowed with such essential qualifications we are not informed, unless the statement Mrs. Garland Foster made on the platform here had something to do with it.

In going around Canyon City she said she had met bachelors whose lonely, unfortunate circumstances fairly touched her heart in sympathy, and that if she had her way nothing would please her more than to come to Canyon to reside permanently, and personally supervise their domestic welfare.

Who she had in mind she did not even hint at; doubtless it was some of her supporters, among whom were Mr. Manford Samuelson.

It is true I claim to be a supporter of the prohibition cause. However, relationship with my fellow creatures has taught me that good old British adage, tolerance—respect for the other fellows' taste, as well as his view. Mr. Samuelson cannot make me believe the Tory party is entirely to blame for all the evils of the liquor trade. As being willing to follow the leader, it is only the last year or two that many of us fully realized what good leadership means.

If there is one thing more than another that Canada needs at the present time in order to stop the drift it is leadership of the highest order. The recent new flag incident is warning to all Britishers to be on the alert.

As I am the 'Youngest' of the two principals in this debate I feel I am honor bound to give way to superior talent and intellect, and in conclusion I take this opportunity of thanking the editor of the Review for providing so much space for Canyon writers. Such generosity could scarcely be expected from one who hails from North York, which place Toronto is fortunate in being a suburb of. If he is not paid the reward so justly his due by the King government for his fairness he surely will from the hands of the gentlemen who are disciplining themselves to take over the job after the next federal and provincial elections.

HILTON YOUNG.

Letter Stationery
---the Printed Sort

FREQUENTLY EVERY GROWER has correspondence to attend to where he wishes he had business (printed) stationery to use.

His lack of it is probably due to the fact that he thinks it expensive.

We can supply you with Printed Letter Paper at a price just a little higher than you pay for pads at the store.

We can supply them padded with a plain duplicate sheet interleaved in case you wish to make a copy of your letters.

Printed Envelopes are comparatively as inexpensive, and their use assures you of the letter reaching the party or being returned to you.

No trouble at all to show you samples, and quote you such moderate prices.

The CRESTON REVIEW

NEWS OF KOOTENAYS

Outside pupils attending high school at Cranbrook will pay a cash fee of $2.50 per month.

East Kootenay Liberals will have their nominating convention at Cranbrock on Saturday, 12th.

The cannery at Penticton has resumed operations and is employing 80 hands. For a starter fourteen carloads of peaches from Yakima are being put up.

For the last week in July building permits at Trail totalled $132,000.00. The smelter people are spending $122,000 of this on their new store and hospital.

Greenwood Rod and Gun Club will ask the game conservation board to give that district an open season on willow grouse and a longer season on blue grouse.

The Kootenaian thinks the correct thing would be a cherry carnival next year on the occasion of the formal opening of the Ainsworth-Queens Bay road. The doings to be at Kaslo, of course.

Lumberton people would like Cranbrook school board to help defray the cost of running a motor bus between the two town to facilitate the conveyance of pupils from the former place to the latter's high school.

According to the Courier the babies arriving at Cranbrook this year are more numerous as well as heftier. Ten pounders have been quite common, and occasionally a new arrival has tipped the beam at the even dozen pounds.

WANTED—Apples, tomatoes, crab-apples, and onions, in car lots. Don't sleep at the switch, write or wire us at once. Langstaff Coal Company, Moose Jaw, Sask.

To Hold-Up The Farmers

With weather and other conditions at the end of June—when this article is written—favorable to the production of a bumper crop in all three prairie provinces this year, a report comes of a movement under way having for its object the holding-up of the farmer in order to extort from him a high rate of wage for harvest hands and farm workers in general. It remains for the farmers themselves to nip the scheme in the bud, and for them to be forewarned is to be forearmed.

An effort is now being made by organizers of the I.W.W. to organize a farm-workers' branch of that body of international agitators and trouble makers in Winnipeg, which is the centre of distribution of farm workers throughout Western Canada, and one of the international oragnizers, who, by the way, has spent more than one term in United States prisons, is now in Winnipeg assisting the local organizers of the I.W.W.

On a previous occasion, two or three years ago, an attempt was made to organize an I.W.W. farm-workers body among the unemployed in Winnipeg at a time when efforts were being made by the civic authorities to find employment for these men on farms, thus benefiting them, helping the farmers, and relieving the economic situation in the city. At that time one of the I.W.W. organizers was reported as using the following language in a speech delivered in the Labor Temple:

"The only way to get even with the farmer for paying so small a wage to the worker was for the worker to turn round and sabotage the farmer. There were always lots of wagons, machinery and shovel handles that the workers could break up, and it would only be a short time until the farmer would realize the necessity of paying a decent wage in order to protect his personal belongings. Those of the unemployed ranks who were going out on the farm should get together and run an organized sabotage on the farmers, and make them spend more money on tools and implements if they would not spend it on their farm hands."

In Alberta an attempt of the I.W.W. to organize farm-workers' branches was killed through newspaper publicity, resulting in the farmers themselves being made fully aware of the designs against them, and leading to the taking of necessary precautions and concerted action.

Harvest and threshing time in Western Canada always forces the necessity of bringing tens of thousands of men from Eastern Canada and British Columbia for temporary employment in the harvest fields. Included in this temporary army there is always a large number of that class who are in a chronic state of unemployment, men who drift from place to place. There is also a percentage of young fellows "out for a lark" and ready for any kind of devilment. Mingled among them are professional agitators whose business in life is the stirring up of unrest, disaffection and trouble. They require to be watched and their presence promptly reported to the authorities.

The vast majority of harvest excursionists are steady, reliable men, willing and anxious to work and give an honest return in labor for their wage. Hundreds of them come to spy out the land with a view to permanent settlement here. Hundreds of others are farmers' sons who, having completed their own farm work, are keen to see more of Canada, gain new experiences, and earn money which they cannot do by remaining at home. It must be recognized that such men, after paying their fare from the East—low though such fare may be—faced with only a few weeks employment and the cost of the return journey, are entitled to receive fairly good wages, good food, and decent living quarters and treatment. And the farmer who so treats his workers is advancing his own best interests and those of the West at large.

But the man who has no real desire to work, who "soldiers" on his job, who finds fault, grumbles and complains all the time, in a word, whose main occupation is to agitate, should receive short shrift. He earns little or nothing, and usually gets more than he does earn. It is this type which later drifts into our Western cities and towns "broke," unable to get back to the place from which he came, and constitutes a burden and source of expense and trouble to these urban communities throughout the ensuing winter months when there is lack of employment of all kinds.

Business men and communities generally should unite with the farmers in protecting themselves against this latter class and every possible action taken within the law to eliminate the agitators and keep them in bounds and not allow them to play ducks and drakes with the interests, not only of the farmers at their busiest time, but also with the main body of farm workers and harvesters who are anxious to get on with their work.

Camel Is a Truck

To win a bet for his owner, a camel at Cairo, Egypt, recently carried 1,200 pounds a distance of two miles.

In Africa there is a large lake of soda. Its surface is glistening white and the soda crust is about three feet thick.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

Won First Victoria Cross

Charles David Lucas Was Decorated By Queen Victoria

Included in the estate of Mrs. Frances Russell Lucas, is a priceless relic, the first Victoria Cross ever awarded. Mrs. Lucas was the widow of Admiral Charles David Lucas, the first man to win the V.C.

This was gained on June 20, 1854, when H.M.S. Hecla was bombarding Bomarsunda fortress, in the Baltic. When the Hecla was within 500 yards of the principal fort, a live shell, with the fuse burning, fell on the deck. Lucas, who was then a midshipman, picked up the shell in an instant and hurled it into the sea. Almost before it reached the water it exploded with a terrific roar. Captain Hall, of the Hecla, immediately promoted Lucas a lieutenant, and three years later Queen Victoria decorated him with the Victoria Cross. Mrs. Lucas was the daughter of Captain Hall, of the Hecla, afterwards Admiral Sir William Hutchison Hall.

NEW STRENGTH FOR WEAK GIRLS

Can Be Had Through the Rich Red Blood Made By Dr. Williams' Pink Pills

There comes a time in the life of almost every girl when weakness attacks her. The strain upon her blood supply is too great, and there comes headaches and backaches, loss of appetite, attacks of dizziness, heart palpitation, a constant weariness and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And the very best treatment is through the blood-making tonic qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

Here is a bit of strong proof:—Miss Matilda Brean, King Highway, Newcastle, N.B., says:—"I was in an extremely run-down and nervous condition. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact my condition can best be described as miserable. I had tried several treatments but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a hearty appetite. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Amundsen To Lecture

Captain Aoald Amundsen, Arctic air explorer, intends to write a book covering his flight almost to the pole. This will appear in the autumn, and thereafter he plans to lecture at home and abroad.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human being and the lower orders of animals.

Curious Inheritance Case

Descendants of Armenian Will Receive Property After Fifty Years

A curious inheritance case is occupying the attention of the Armenian patriarchal court, which is trying to discover the descendants of a wealthy Armenian, named Salerian, who died in India half a century ago and made a will, ordering the investment of his great wealth for years, after which it should be equally divided among his descendants. Most of them are believed to be living in Egypt, and of these about a score have already lodged their claims. The estate is said to amount to $150,000,000, and the difficulties of distribution are increased by the fact that many of the sought-for descendants are scattered over the world and their whereabouts are unknown.

Minard's Liniment for Neuralgia

Sneeze Gas Used

Sneeze gas is being used to rout stowaways from the holds of ships at Manila. More than a dozen men recently were driven off one ship by the gas.

Minard's Liniment for Rheumatism

BAYER Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Essay On Canada

British Columbia Wins Most Prizes In Dominion-wide Competition

First prize of $1,000 in the university group in the essay competitions on the general subject of, "Canada North of the Fifty-sixth Parallel of Latitude," has been awarded to J. F. K. English, of 2541 Eton Street, Vancouver, B.C. The competition was open to Canadians in Canadian universities.

First prize of $1,000 in the general group competition on the same subject goes to E. M. Kindle, Ottawa. Second, $500, to Arthur Woollacott, 777 Burrard Street, Vancouver, B.C.; third, $300, to Alfred Thompson, of Dawson, Yukon; and fourth, $200, to Frances Dickie, of Heriot, B.C.

The donors of the prizes were the late Sir William Price, of Quebec City; Sir James Aikins, lieutenant-governor of Manitoba; and A. J. T. Taylor, of Toronto. The judges were: Dr. E. E. Prince, chief commissioner of fisheries, Ottawa; Dr. Charles Camsell, deputy minister of mines, Ottawa; and Robert C. Wallace, professor of geology of the University of Manitoba.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Honor North Pole Explorers

Amundsen Receives Gold Medal Of Good Citizenship From Norwegian King

The King of Norway has conferred the gold medal of good citizenship on Captain Roald Amundsen, leader of the recent aeroplane expedition to the North Pole. This honor has only been conferred three times previously. Lincoln Ellsworth, Chicago-born member of the expedition, was made commander of the Order of St. Olaf. The other four members of the Amundsen expedition were made Knights of St. Olaf.

An agency dispatch from Oslo reports that the Norwegian state council at a meeting decided to double the national award to Captain Amundsen, making it 12,000 instead of 6,000 kroner.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Defining An Oyster

Out of the mouths of babes and sucklings may be perfected definition as well as praise. For example, there is the case of the teacher who, at the close of the reading lesson, was questioning her class on the subject matter thereof. "What is an oyster?" she asked.

"Please, miss," replied the bright boy of the class, "It's half a fish and half a nut."

Science Versus Crime

Doctor's Examination Helped to Convict Man of Counterfeiting

French police suspected a man of counterfeiting, but had not the desired proof. The suspect was quite glib and plausible under examination and nothing could be proved against him.

"Before you depart, though," said the investigator, "a doctor will examine you. Merely a little precaution in the interest of public health." The man submitted willingly. Two days later the police called at his cafe and again took him in custody, for they had evidence that eventually resulted in his conviction. The prisoner had unwittingly supplied it during the physical examination, in a tiny specimen of wax which the doctor had taken from his ear. This bit of wax had been forwarded the director of the police technical laboratory at Lyons, who had photographically enlarged it with his microscopic camera. Magnified more than fifty thousand times, the speck of wax showed telltale streaks of printer's ink, particles of dust identified as from a lithographic stone, and traces of characteristic crystals of a chemical used by engravers, undeniable evidence that the prisoner's story was a fabrication.

Believe School Boys Suffering From Leprosy

Two At Newark, N.J., Confined In Isolation Hospital

Suffering from a disease diagnosed as leprosy, two Newark school boys have been taken from their classrooms and confined in an isolation hospital at So Ho, N.J. The victims are brothers, Hal and Frank George, 11 and 13 years old respectively.

They complained of a strange skin infection to the school nurse, who reported it to the physicians. Examination disclosed this malady to be leprosy, which the boys are believed to have contracted in Bermuda, where they lived until six years ago, when they came to Newark with their parents, Mr. and Mrs. Frank George.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Need More Exercise

The modern housewife is not getting sufficient exercise, Dr. Guy E. Manning, San Francisco, editor of The Pacific Coast Journal of Homeopathy, declared in an address to the eighty-first annual convention of the American Institute of Homeopathy.

"The labor-saving devices which have come on the market to make the work of the modern housewife easy are making her lazy, instead," said Dr. Manning.

MURINE Keeps EYES Clear, Bright and Beautiful

Write Murine Co., Chicago, for Eye Care Book

Fresh and carefully packed in pure olive oil. Keep a stock in the pantry for easily prepared, enjoyable meals.

The Increasing Tourist Traffic Directly Benefits The Farmer As Well As The Merchant

The natural resources intelligence service of the department of the interior at Ottawa says:

As touring in automobiles and railroad trains go speeding by and through the farming districts no doubt many times our rural residents will wonder what benefit this traffic can be to them.

Governments and municipalities are encouraging visitors even to the extent of appropriating very considerable sums of money for the purpose, and our immense expenditure upon good roads throughout the country are held out as an inducement to motorists to visit us.

That they bring trade to the city cannot be doubted, but they also bring trade to farmers and others. For instance, there is the provisions that they consume. It is probably possible to compile a statement of what this consumption would be, using the experience of large caterers as a basis. The quantity of farm products must be enormous, however.

Last year, there were 361,630 motor cars entered at Canadian customs ports for the purpose of remaining in the country for from two to thirty days, 2,344 for from one to six months and 1,534,885 for one day only. If these cars brought in an average of but two persons each, and that the 361,630 cars that remained in Canada from two to thirty days, as an example, averaged seven days, they would require 15,188,460 meals. Think of the quantities of cereals, ham and bacon, eggs, milk and butter, meats and poultry, fruits and vegetables, etc., that would be required for these meals. These would all have to be purchased from the farmers, and would make a very large total revenue.

There is the further fact that a very considerable portion of the expenditures of tourists among urban business people finds its way back to the farm, in that this revenue is used by them to purchase the necessaries for themselves and their families.

It will be seen from the above that our farming interests have a very direct connection with the rapidly growing tourist traffic, and should do what they can, by courtesy and assistance when needed, to make our visitors feel that they are welcome.

Geography and Merchandise

Many people Do Not Know Where Articles Come From

A trip through the average dry goods store might furnish us geographical knowledge as well as a means of securing merchandise if we would take time to study the names of articles for sale. For example, calico owes its name to Calicut, a town in India. In the days before Manchester was a great manufacturing centre most of the best calico came from Calicut, and even after the industry came to Britain the old name remained. India is also responsible for muslin, which came originally from a place called Mosul. Two textiles owe their names to France. These are cretonne and cambric, the first of which came from the Normandy town of Creton, while the second is still manufactured at Cambrai. Serge takes its name from China, whence it was introduced into this country in 1660. The Latin name for China is Selicum, which gradually has changed into the modern word serge.

Getting Very Scarce

We saw a man walking down street the other day carrying a buggy whip. Which led us to inquire if buggy whips were manufactured any more. We were told that there was only one buggy whip factory in the country. Harness factories which made a specialty of fancy harness for driving horses also are getting scarce. They are going the way of livery stables.—Capper's Weekly.

Canada's Emblem

The beaver first appeared as an emblem of Canada on the coat-of-arms granted by King Charles I. to Sir William Alexander. In the drawing of the arms the beaver appears resting on his hind legs, and his broad flat tail. The beaver, among animals, stands for intelligence, daring, industry and perseverance.

M. S. WATSON

Editor of The Times, Deloraine, Man., and President of the Manitoba Division of the C.W.N.A. Mr. Watson attended the annual convention held in Winnipeg on June 24, 25 and 26.

C.W.N.A. Convention

Most Successful Gathering of Weekly Newspaper Men at Winnipeg

Conceded to be the most successful gathering yet held, the Canadian Weekly Newspaper Association assembled at the Royal Alexandra in Winnipeg for their sixth annual convention on June 24, 25 and 26. Some 400 delegates were in attendance from all over Canada. On the opening day the members were welcomed to the city of Winnipeg by Mayor Webb. The business sessions occupied the better part of three days, and the addresses and discussions were found to be most helpful.

On the second day, at the conclusion of the business session, a visit was made to the Parliament Buildings and to the Manitoba Agricultural College, where the delegates were the guests at a dinner given by the Manitoba Government. Premier Bracken presided and gave an excellent address. Premier Dunning of Saskatchewan also delivered an inspiring address, outlining his views of the work the association is doing in helping to build up Canada as a nation, and his ideals of what Canadian citizenship should be.

Election of officers resulted as follows: President, L. J. Ball, Vernon, B.C.; first vice-president, J. A. MacLaren, Barrie, Ont.; second vice-president, S. N. Wynne, Yorkton, Sask.; and directors: British Columbia, Hugh Savage and Ben Hughes; Alberta, J. McKenzie and L. D. Nesbitt; Saskatchewan, J. McDonald, S. J. Dornan and D. C. Dunbar; Manitoba, J. L. Cowie and M. S. Watson; Ontario, F. A. J. Davies, E. D. Evans, W. E. Masos and D. Williams; Quebec, J. S. Giles and V. Dubuc; Maritimes, H. R. Arnburg and H. B. Anslow. Chairman of circulation and subscriptions committee: R. C. Fahrni, Gladstone Age! chairman of membership committee, C. R. McIntosh, North Battleford News; chairman of advertising committee, W. R. Davies, Renfrew (Ont.) Mercury; chairman of editorial committee, M. MacBeth, Milverton Sun; commercial printing committee, F. B. Elliott, Alliston Herald; postal and parliamentary, Lorne Eedy, Walkerton Telescope; paper, W. A. Fry, Dunnville Coronicle.

At the conclusion of the business sessions on Friday afternoon, cars were in readiness, and a tour of the city was made, which ended at Kildonan Park, where the delegates were the guests of the city at dinner.

Lorne Eedy, the retiring president, in returning thanks for the hospitality of the city, said: "None of us will ever forget this visit, and it has certainly widened our outlook, especially those of us who live in the east. I look for great good from the holding of the 1925 convention in Winnipeg."

In the evening a ball was held at the Royal Alexandra Hotel, when the visitors were the guests of the Canadian Pacific Railway.

On Saturday afternoon a trip was made to Grand Beach, through the courtesy of the Canadian National Railway, and in the evening officials of the C.N.R. gave an enjoyable dance at the Fort Garry Hotel to the visiting delegates.

Good Year For Sheep

Hon. W. H. J. Tisdale Completes Inspection of Western Ranges

W. H. J. Tisdale, assistant general manager of the Canadian Co-operative Wool Growers Limited, made a stop in Winnipeg recently on his way east after spending six weeks in the range and domestic wool sections of Alberta and Saskatchewan.

Mr. Tisdale stated he had visited every large band of range sheep in the west and seen a great deal of the domestic areas also.

The ranchers generally are turning to the co-operative method of selling and their own company, the Canadian Co-operative Wool Growers Limited, will get around a million pounds of range wool this season and around half a million pounds of domestic.

"The range wool," continued Mr. Tisdale, "is generally strong in staple this year and the few places where this is not the case, were located in districts where the snowfall was heavy, became crusted and where the flockmasters had not sufficient feed available to feed well during the period of heavy snow. The quality of the wool is the best in years, with these exceptions, and flockmasters are beginning to realize the real value of government grading of their wool and are learning that breeding, feeding and care have a very direct bearing on wnether or not their wool reaches the higher grades and the higher prices. The increasing number of Rambouillet bucks is having its effect and some of the finest wool the Canadian Co-operative will handle this year is from a 2,000-head flock of this breed.

Farmer Should Be Scientist

One Educated In Farming Methods Is Most Successful

That slack farming methods do not pay is generally accepted; but that slack farming methods are a waste of national assets and an injury to the landless population must be the creed of the future. Already there are abundant signs that the farmer must be a scientist highly educated in his business and understanding to the last point the natural forces which he calls into play. As such he will take his place as a professional man—the most highly respected professional man of all.—Sydney (N.S.W.) Bulletin.

Movie Adonis Gets Black Eye

Milton Sills, darling of the flappers, old and young, and forceful hero of the rapid action film, the Sea Hawk of Romance, got his the other day. He has been acting in "The Knock-Out," which was made at Beauchesne in Northern Quebec, and in an encounter with the villain the latter swung a heavy one onto the star's eye which resulted in the usual discoloration. Here he is seen, debonair and smiling, on the Canadian Pacific Windsor Station, Montreal, just back from his strenuous labors and almost recovered. The light eye still shows a faint indication that it has been in the wars. He says it is all in the game and takes the slight offset good-humoredly. During the making of the picture he had the exceptional luck to see the biggest log-jam in sixty years on the Montreal River near Beauchesne, shots of which are incorporated in the film.

Confidence Of Farmers In Western Canada Much Higher Than For Many Years

S. J. DORNAN

Editor and Proprietor of The Despatch, Alameda, Sask., and Secretary of the Saskatchewan Division of the C.W.N.A. Mr. Dornan took an active part in the proceedings of the annual convention held in Winnipeg the last week in June.

Canadians Returning From States

Many Coming Back to Take Up Residence Here Again

The exodus of Canadians to the United States is rapidly nearing an end, and a homeward trek is now under way which will soon counter-balance the tide of emigration, according to statistics issued at Ottawa.

Canadians taking up residence in the United States in the calendar year 1924, totalled 159,063, as against 181,973 in the previous twelve months, and figures for the first quarter of the present year indicate that this year's total will be less than half that of 1924.

Simultaneously, during the year ended March 31 last, 43,775 Canadians who had previously emigrated to the United States, returned to take up their residence once more in this country, and an even higher total of such persons is anticipated for the current year. In April, the first month of the fiscal year, 2,995 returned and May figures, still incomplete, already total 2,676.

Saskatchewan Leads In Horse Production

Mr. J. G. Robertson, livestock commissioner for Saskatchewan, has made the following brief review of the livestock situation in this province at the present time.

"This province has become so famous for its grain production that sometimes people fail to realize the important place which livestock occupies in its agriculture today.

"In horse production, Saskatchewan is easily first among the provinces, having a population of 1,170,745, which is over 300,000 more than any of the others. In cattle production and in the production of hogs we stand fourth among the provinces. Last year our livestock was valued at $163,587,832.

Claims Music Helps Flowers

Is Needed In Their Daily Diet Says Horticulturist

Flowers will retain their original bloom for many days, if subjected to the rhythmic strains of music, according to F. C. Billings, musician and horticulturist, of Milwaukee. "I have tried music on flowers and I know it will work," he says. "Flowers must have music in their daily diet for certain atamospheric waves set up by the rhythmic musical tones have a beneficial effect similar to light waves." Professor C. A. Shull, of the plant physiology department of the University of Chicago said that "as yet there is not scientific basis for saying positively sound waves do affect plants in the way they do animals, but it is a line of experimentation which will be taken up immediately if the proposed plant research institute is established in the university.

Women in Persia have started to bob their hair. Bet the neighbors call them Persian cats.

A consensus of opinion among colonization and settlement agencies seems to be to the effect that there will be a marked movement in western Canadian farm lands throughout the year 1925, a view which is borne out by many indications of various natures generally apparent. This would appear to be the result of a combination of circumstances, of which conditions in western Canada itself constitute only one. Certainly, according to the best agrarian authorities, the morale of the farmers of western Canada is much higher than it has been for some years, and confidence in farming in that area is once more pronouncedly in evidence. In the words of one outstanding authority, "The very fact that settlers came through so well under the very trying conditions of the deflation period has imparted a spirit of confidence that augurs well for the future."

The Manitoba Free Press felt this tendency even in the months of the past winter and considered it worthy of special inquiry, which it carried out in the peculiarly efficient manner possible by reason of its correspondents in the rural districts. It found that in the prairie provinces, farms were being acquired, the inevitable result of which will be increased acreage under cultivation and greater production. It found that this unquestionable movement in farm lands is not confined to any one district or province, that the bulk of land selling has been improved farms, that a good proportion of the sales are by farmers who are reducing their holdings, and that many are being acquired by farmers who are picking up an adjoining quarter or so for sons growing up in the family. It states definitely that few of the sales are being made by farmers who are leaving the country.

The Winnipeg paper marks as distinctly worthy of note that even at the early period at which the survey was conducted, many sales of land were being made to farmers from across the international boundary. Interest since that time on the part of American farmers in western Canadian farm lands has become yet more pronounced and inquiries have been coming to Canada at a rate which has not been experienced for some years. Combined with the markedly improved condition of the farmers in western Canada is a change in the economic circumstances of those in the United States which is permitting them to liquidate and take the migratory steps many of them have contemplated for some time.

Pruning Tomatoes

Experiments Carried On At Dominion Station At Rosthern, Sask.

In his report for 1924 the superintendent of the Dominion experimental station at Rosthern, Sask., gives the results of an experiment in different methods of pruning tomatoes, in which three standard varieties were used. On June 9, three rows of each variety were transplanted to the open in rows two feet apart and planted two feet apart in the row. As the fruit set, the plants in one row of each of the three varieties were cut above the first bunch of fruit, and this method of pruning was compared with cutting above the second bunch and above the third bunch. The total yield of ripe and green fruits from one bunch was 57 lb., from two bunches 92 lbs., and from three bunches 154 lb. The amount of ripe fruit from one bunch was 41 per cent., 37 per cent. from two bunches and 27 per cent. from three bunches. Cutting back to one bunch, states the superintendent, decreased the yield and did not hasten maturity sufficiently to warrant the practice.

Unusual Ceremony In Belgium

An unusual ceremony occurred when eighteen couples, all residing in the small town of Ixelles, Belgium, celebrated their golden weddings. King Albert sent messages of congratulations.

Tight!

Keenan.—Who is your closest relative?

Foster.—Oh, I think Uncle Bill is about as close as any.

Local and Personal

FOR SALE—Onions, cabbage and carrots. Fred Lewis, Creston.

BIRTH—On September 10th, to Mr. and Mrs. R. A. Comfort, a son.

FOR SALE—Willis piano, in first-class shape. H. S. McCreath, Creston.

Board and room in private family for high school pupil. Enquire Review Office.

R. Walmsley is Creston's representative at the Spokane fair, leaving on Wednesday.

FOR RENT—Four room house on Sirdar Avenue, $7 per month. Enquire Review Office.

FOR RENT—Furnished rooms for light housekeeping. Apply Mrs. J. Arrowsmith, Creston.

G. Hull, ledgerkeeper at the Bank of Commerce, spent the weekend with friends at Cranbrook.

FOR SALE—Quantity of 30 and 50 gallon steel drums. Also wood barrels. Priced to sell. Lidgate Bros.

Mrs. Geo. Johnson and Miss Lyda Johnson were Nelson visitors a few days this week, leaving on Tuesday.

Miss McClure of Nelson was a visitor for a couple of days the fore part of the week with Mr. and Mrs. Jas. Cook.

Mrs. Remington left on Tuesday for Blairmore, Alberta, where she will spend a couple of months with relatives.

Mr. and Mrs. F. C. Rodgers are visiting with Spokane friends this week, leaving on Wednesday by motor.

Fall samples from Tip Top Tailors have just arrived, and you are invited to call and see them. Your choice at $27. V. Mawson.

Herb Manuel and Bill Hale pulled out on Thursday for Claresholm, Alberta, where they will help with harvest operations.

The season for grouse, ducks and deer opens on Tuesday, 15th, and the former birds are reported quite numerous in this section.

The Women's Missionary Society have the September meeting at the home of Mrs. Henderson on Tuesday, Sept. 15th, at 3.30 p.m.

Earl Swanson, who is with the C.P.R. telegraphic staff at Nelson at present, was a weekend visitor here with Mr. and Mrs. Jas. Cook.

The Ladies' Aid of the Presbyterian Church are having a corn roast at the Manse on Saturday, Sept. 12th, from 5.30 to 7.30 p.m. Cafeteria style.

Murrell Olsen of Kingsgate, a former C.P.R. station assistant at Creston, was a Saturday visitor with friends in town, making the trip by motor.

Mrs. Jackson will have her fall and winter ready-te-wear hats on sale at the store, next the Imperial Bank, on Friday and Saturday, Sept. 18 and 19.

Jas. Cook was a business visitor at Nelson a few days the fore part of the week, looking up equipment for the addition he intends putting to his greenhouse.

Miss Grace Comfort left on Monday for Johnston's Landing, where she is taking charge of the school at that point for her third successive term.

The Presbyterian Ladies' Aid announces that they will this year have their usual Thanksgiving dinner the Friday night preceding Thanksgiving Day.

There will be no showing of pictures at the Grand on Saturday night, 12th. For fair night Manager Rodgers has booked that sterling English comedy, "Lord Chumley."

The pole yard at the C.P.R. station is filling up again, J. B. Winlaw having teams on the haul of the big timber from West Creston, where he operated last winter.

A. L. Cameron is spending a few days with his sons Jim and John at Cranbrook this week. He went back with former who was here for Labor Day, making the trip by auto.

According to the game regulations Creston hunters will have a one day pheasant shoot this season, with a bag limit of three male birds. Saturday, October 31, is the date designated.

Rod and Gun Club officials call our attention to an error in last week's issue as to the bag limit this season on deer. In Creston electoral district the limit is two bucks—not three as stated a week ago.

Keep the evening of the 23rd open for the dramatic recital of Miss Threasa Siegel, whose feature offering will be "The Fortune Hunter." She appears under Unit d Church auspices, in the Parish Hall.

Creston's 1925 fall fair will be in full swing in less than three weeks, with entries to close on the 28th. Get your prize list from Secretary Allan as the Imperial Bank, or at the Bank of Commerce and Jackson's store.

Commencing yesterday patrons of the parcel post system are now permitted to mail packages weighing up to 15 pounds, but the size is limited to the dimensions prevailing when only 11 pounds could be sent in this fashion.

Orchardists started in this week picking the crop of McIntosh Reds, which appears to be well up to the average of other years. These are later than in 1924. Last season the first car of Macs rolled on September 7th.

Miss T. M. Siegel, one of Canada's best known dramatic readers, is booked to give a recital in Creston, under United Church young people's auspices on Sept. 23rd, in the Parish Hall, at the popular admission of 50 and 25 cents.

FOR SALE—One 12-inch hand plow, one-horse cultivator, good as new; garden cultivator and seeder, democrat, force pump, driving harness, one brown Swiss, one milch cow. All priced for quick sale. A. P. Lye, Camp Lister.

The Ladies' Guild of Christ Church have shown their appreciation of the several years of good work by Mrs. C. B. Garland, now of Nelson, in all lines of Guild effort, by presenting her with a brass flower pot and suitably worded address, which were forwarded by mail following Tuesday's meeting.

The school trustees had a special session on Friday night at which arrangements were made for the opening on the 8th. Bills totalling almost $1000 were passed in connection with the plastering, painting and carpenter repair work done during vacation.

The valley was favored with a more or less all day drizzle on Saturday, which held up haying for the day, but great haymaking weather has prevailed ever since, and with another week of good weather many of the haymakers will finish the season's work on the flats.

Rev. J. Herdman officiated at a quiet wedding at the United Church parsonage on Monday morning, when he united in marriage, Miss Marguerite Clark and Mr. Norman Strong, both of Canyon. They left on the noon train for Spokane, where they intend to make their home.

School reopened after the summer vacation on Tuesday morning with a first day attendance in excess of last year. There were 22 brand new pupils in the primary room, and a rearrangement of the older pupils in Divisions IV. and V. had to be made to take care of the unexpected rush of beginners.

Exhibitors in the ladies' department at the fall fair are reminded of an omission in the fancy work class of paper flowers. The usual prize is offered for a vase of flowers of one variety, and entries should read Class 11, Section 209. The goat class has also been re-arranged, details of which will be given next week.

The management of the United Church have let the contract for excavating under the old building to a Mr. Martin, at present residing at Alice Siding, who put a couple of teams at work on Monday and is making great headway with the job. The work of putting in the cement walls should be under way before the end of the month.

W. S. McAlpine's pen of Barred Rocks in the provincial egg laying competition at Agassiz is slowly creeping up on the leading ten birds and is now within 29 eggs of the leaders. The McAlpine number six and eight birds, with a showing up to September 4th of 230 and 225 eggs respectively, stand third and fourth among the big layers in the Rock class.

Guy Constable, provisional chairman of Creston Reclamation Syndicate, got back on Sunday from Victoria, where he had been conferring with the minister of lands and departmental officials for several days in connection with the concession of 10,000 acres of Kootenay Flats lands. We understand the terms given by the minister were almost exactly what the Syndicate asked, and as soon as the duly executed agreement arrives from Victoria a meeting of the Syndicate will be called to arrange the next move toward getting the acreage drained.
