HON. ALLAN WILLIAMS, Q.C.
Attorney General of British Columbia

M. L. MCCAUSLAND
Director of Film Classification

Honourable ALLAN WILLIAMS, Q.C.
Attorney General
Victoria, B.C.

SIR: I have the honour to lay before you a report of the business done in pursuance of the Film Classification Branch during the fiscal year ended December 31, 1980.

MARY-LOUISE McCAUSLAND
Director

February 15, 1981.

INTRODUCTION

The *Motion Picture Act* of 1979 is the authority under which this Branch operates. All pictures to be shown to the public must first be submitted to the Director for classification. The three categories of classification are GENERAL, MATURE, and RESTRICTED. A warning indicating the possibly objectionable content of a film may be assigned as part of the classification.

The Annual Report of Film Classification is based on a calendar year. This year's report provides a 5-year monthly and annual comparison for 1976 to 1980.

Both revenue and film volume dropped over the 1979 figures. The drop in the number of films can be explained partially by the ACTRA strike in Hollywood, which delayed the completion and production of some major releases and by the decline in the number of arcade films available for import into Canada. Because each arcade film costs the distributor only $1 to process and because the Hollywood labour situation was counter-balanced by increased multiple bookings, revenue did not decline as significantly as the fall in the number of films might have indicated.

Continuing the trend of 1979, the percentage of Chinese films (Hong Kong/Taiwan/People's Republic of China) rose in 1980. Combining this factor with Hollywood's production problems, Chinese films became the largest single segment of films viewed in this office, representing marginally over one-third of the volume of films. In comparison, Canadian films account for only 3 per cent of the films viewed.

This year, for the first time, video cassettes were viewed by this office. However, because the sources of videotape material for public exhibition are few, it may be several years before video forms more than a minute fraction of film statistics.

I hope that you will find this report useful and informative.

MARY-LOUISE McCAUSLAND
Director
