Statistical Information

Table I (A, B, C)—*Analysis of Litre Sales by Product Category*

Total litre sales increased 2.53 per cent in the combined controlled production areas of the Province during 1981. All product categories participated in the increase, with the exception of standard milk sales, which experienced a 0.17 per cent decrease.

Home delivery sales in the controlled areas accounted for 11.53 per cent of all litre sales. Wholesale and through store sales accounted for 88.47 per cent.

Table II (A, B)—*Analysis of Class I Sales, Including Interarea Sales*

Total Class I sales in litres, which is the aggregate of all Class I sales in an area of production, whether made by vendors within the area or by vendors located outside the area, increased in both the British Columbia Mainland and the Vancouver Island milk production areas. Both areas showed increases within area Class I sales.

Table III (A, B, C)—*Analysis of Qualifying Milk: Production and Utilization*

Total qualifying milk production during 1981 increased 2.87 per cent in the controlled areas of milk production.

Quota milk receipts in the controlled milk production areas were 78.41 per cent of the total production during 1981, an increase from 77.61 per cent in 1980.

Class I Utilization of quota receipts decreased from 85.61 per cent in 1980 to 84.63 per cent in 1981.

Table IV (A, B, C)—*1981 Year-to-date Production and Class I Utilization Compared to 1980*

This table shows a monthly comparison of 1981 production and Class I utilization to 1980 in both litres of milk and percentage change.

Table V (A, B, C)—*Production and Utilization in British Columbia*

This table shows the amount of milk produced in the controlled areas of production in the Province and the class in which that milk was utilized.

Table VI—Class I Accounting Value Formula and Producer Price

The contents of this table summarize the accounting values for each class of utilization announced by the Milk Board for the calendar year 1981. Also shown are producer prices (before adjustments) calculated monthly by the Board. Details relative to Milk Board general orders are reprinted.

Table VII—Licensing Information

Under the provisions of the *Milk Industry Act* and General Order 67, as amended, the Milk Board issues Class I licences to vendors and milk jobbers and Class II licences to producers. Both classes of licences are issued April 1 each year for a 12-month period or portion thereof. A summary of the 1980/81 licences issued, cancelled, and in effect December 31, 1981, is contained in Table VII. There was a net decrease of 14 producers from December 1980 to December 1981, which is a 1.32 per cent reduction.
