THE CRESTON REVIEW

VOL. XXIII. CRESTON, B. C., FRIDAY. SEPTEMBER 25, 1931 No. 27

Improve Fall Fair Facilities Exhibit

Put in Poultry House East End Main Building—Grading Station to Grade Exhibition Eggs —Great Year Canned Goods

The regulation scoring for exhibition boxes of apples and pears is as follows:

Size, 10. Color, 20. Uniformity, 15. Freedom from blemish and condition, 15. Quality, 15. Package and packing, 3. Height at ends, 4. Fullness or bulge, 4. Solidity or compactness, 5. Attractiveness or style of pack, 5. Aligment, 4.

Poultrymen should bear in mind that the showroom condition of a chicken has more influence on its success than any other factor. It is practically impossible for a chicken in poor condition to win when the competition is keen. The plumage, the head parts, the shanks, and feet must be absolutely clean and free of parasites. Any exhibitor from a distance who finds it difficult to get his birds in on time on October 7th may bring them in the day before and the association will take care of them. We would, however, request any exhibitor who wishes to take advantage of this privilige to notify the secretary. A poultry house is being built on the east end of the main building which ensures the birds greater comfort than formerly. Best di play of graded eggs to illustrate the four commercial grades. We would remind any exhibitor who wishes to compete but has not the necessary grading equipment that the equipment in the grading station is at the service of anyone who wishes to fix up an exhibit.

British Columbia knows what Creston Valley can turn out in the way of needlework. Ladies, look over the lists and show the homefolks what you can do.

Today canning is recognized to be the most ecenomical method of preserving large quantities of fruit and vegetables. A pantry well stocked with canned food means a well balanced meal for the children. This section covers a wide range and several additions have been made this year to round out the class. The canning section is always one of the outstanding features of the fair and we have no doubt that its high reputation will be well maintained.

Entries close on October 3rd. It helps a whole lot if entry forms are sent in early.

Wynndel

Mr. and Mrs. J. Fiorentino and son, of Cranbrook, who have been holidaying with Mr. and Mrs. Benedetti, returned home at the end of the week.

Mrs. Allan and S. Benedetti of Boswell were Wynndel visitors for the fall fall on Wednesday last.

There was a splendid turnout at the Anglican harvest service on Sunday afternoon, in spite of the heavy rainstorm that broke just at church time. The edifice was tastefully decorated with fruit, vegetables and flowers which, on Monday, were sent to Creston hospital.

Mr. and Mrs. Redpath of Nelson were visitors last week, guests of Mr. and Mrs. G. McInnis.

G. McInnis was a Nelson visitor last week. P. Andestad was also a Nelson caller.

Miss E. Hook of Spokane spent the weekend with her grandparents, Mr. and Mrs. J. J. Grady.

Misses E. Towson and B. Huime left on Sunday for Willow Point to help with the apple harvest.

E. Davis of Trail spent a few days at his home here at the first of the week.

The first deer of the season were taken at the first of the week, when John Bathie had the good luck to secure a white tail, and H. A. Bathie bagged a black tail. Both were hunting in the territory between Wynndel and Sirdar.

GRAND THEATRE
FRI.-SAT., Sept. 25-26

The dramatic story of a a CONSCIENCE that triumphed. . . . . and a Love that failed!

William Powell

in

"Man of the World"

—love came too late to save him!

—He lived by his wits—clever, charming, dangerous—but he wasn't smart enough to escape his past.

Sirdar

Sidney Rogers left on Saturday to resume his studies at Vancouver College, Vancouver.

Mr. Macinrot and Mrs. Pym of Cranbrook were visitors with Mr. and Mrs. Jim Pascuzzo a few days last week.

Miss Sage of Lethbridge, Alberta, is a visitor with Mr. and Mrs. R. Heap.

R. Dennes left on Sunday for Tadanac.

Mrs. Heap and her guest, Miss Sage, were Spokane visitors last week.

S. McCabe was a visitor with his family at the weekend, coming in from Grand Forks.

Birth—On September 16th, to Mr. and Mrs. B R. Bohmer, a son.

Lister

After a ten-day stay at the ranch here, Mr. and Mrs. C. H. Phillips returned to Kimberley on Monday

Rev. C. Baase of Creston will be here for Lutheran Church service on Sunday afternoon.

John Bird was a weekend visitor at Kimberley attending a big Masonic gathering there on Saturday evening.

Lister had a killing frost on Tuesday morning when a freeze of eight degrees was recorded. The season is three weeks later than 1930, when the freeze came at September 1st.

After the ratepayers gathering on Sat ur ay night there will be meeting of all interested in the Community Society for election of officers and planning the season's operations.

Douglas McKee is working at Hazel Creek, helping with the erection of work camps for the unemployed.

Lister Trading & Supply Company. Limited, are this week taking into stock a part carload of Ogilvie flour and mill feeds.

The ratepayers will be out in force on Saturday night for a special school meeting at which funds will be voted to carry on the second room at the school to be opened on October 1st.

John Cartmel, government agent, and A. McQueen, assistant assessor, both of Nelson, were here on a business visit at the end of the week.

Harry Domchuk is at present a patient in Creston public hospital where he underwent an operation for appendicitis on Friday and is making a very satisfactory recovery.

Miss Ma Webster of Coal Creek has been engaged to take charge of the second room at Lister school, which will be opened on Thursday next. It is arranged for her to take charge of Grades 1, 2, 3 and 4, and Miss Curtis will handle Grades, 5, 6, 7, and 8.

Alfalfa baling is very active this month. John Huscroft is putting through the fourth carload, which is going to the Consolidated Mining & Smelting Company farm near Trail, and A. Letoille has about 20 tons ready for shipment to the McCrindle dairy at Cranbrook.

Fruit Packing Sheds Very Busy

McIntosh Reds Heavy Crop and Splendid Quality—Demand is for Household and "C" Grade —Three Graders Operating.

The Long, Allan & Long packing shed at Erickson, and the sheds operated by Crestland Fruit Company at Creston and Erickson are working at full capacity commencing with Monday when the McIntosh Red apples commenced rolling into the warehouses in quantity and three graders as well as a bench pack got under way, and providing employment for 55 or 60 girls and men. In addition to their warehouse at Erickson the former firm are also utilizing the old Creston Growers s'ed at Creston as a receiving depot.

For their "off" year the Macs are running well above the estimates and are of good size and more Extra Fancy in evidence than ever before. The better quantity, however, is of little consequence as to date the heavy demand has been for the "C" grade and the Household pack, prices fixed by the Spippers' Council favoring these two packs, and with low purchasing power at prairie points it is natural such a decided preference is in evidence.

A special effort is being made to place as many of the Fancies as possible in eastern Canada, but the opposition is great as Ontario has a much heavier apple crop this year than for some time past.

A feature to this year's packing is that all the fruit is being handled at the warehouses, and for the first time the pack of Creston apples will compare with the best sent out from the Okanagan. In the past a certain amount of ranch packing was allowed, but that is all abolished this season.

Wealthy apples are practically cleaned up. There are a few hundred boxes still to go, but these will be out by the end of the month. All varieties of plums and prunes will be out by the end of the month also, and the killing frost encountered Wednesday morning the movement of tomatoes will soon be at an end.

Crestland Fruit Company was busy on Tuesday sending out cheques in full payment for Clapp's Favorite pears and Transcendant crabs and considering these varieties and the shape the prairie market is in the prices obtained are quite satisfactory.

Entertain Grandmothers

Creston and District Women's Institute had their Grandmother's Tea on Tuesday afternoon in the United Church basement, and a fine turnout onsidering the busy season. In a brief address the president, Mrs. Hayes, welcomed the guests of the afternoon and then askeu Mrs. Maxwell, convenor of the special tea committee to take charge. There was a short but interesting programme opennd by Mrs. Rose with a piano solo. Solos were contributed by Mr. Knott of Canyon and Mrs. Middleton. Mrs. D. S. Timmons favored with a recitation. The musical contest was won by Mrs. Knott, and the flower romance contest was won by Mrs. W. M. Archibald, who also delightfully entertained the gathering with a talk on her recent trip to Dawson, during which she also exhibited some excellent photos. Mrs. Remington was awarded the prize for being the oldest grandmother, of which there are 107 in the district. Tea served to close proceedings and this was in charge of Mesdames Crawford, Payne, Mallandaine and F. C. Rodgers.

Please leave your orders at the Kelly Drug Store.

FOUR DOLLARS while this depression is on.

Satisfaction Guaranteed.

Canyon City

A. Bond has returned from Wynndel where he has been working on a contract of stuccoing the residence of R. Uri.

L. Rowe was a visitor at Kimberley at the weekend, taking in a Masonic gathering at that point on Saturday evening. He was one of the party to be shown over the Sullivan mine on Sunday morning.

Mr and Mrs. A. Walde and children of Fernie are here for their usual two weeks' vacation with her parents, Mr. and Mrs Wearmouth.

Orchardists are all busy with the picking of McIntosh Red apples, all the packing houses starting work on these at the first of the week.

Rev. J. C. Mawhinney of Nelson had charge of the United Church service here on Sunday afternoon.

Clarence Tedford and A. Bond, jr., have just completed the erection of a new garage on the W. H. Kolthammer place.

The heavy wind that prevailed here for about half an hour on Sunday afternoon was not seriously destructive, though it took some toll of the unpicked apple crop.

Mrs. Lowerison has been a patient at Creston hospital during the week, suffering from an injury to her knee cap which she sustained in a fall one day last week.

Kitchener

Mrs. Chas. Anderson of Columbia Lake who has been visiting with Mr. and Mrs. B. Johnson for some time, returned to her home on Wednesday.

Lewis Simpson: who has been working at the harvest at Claresholm, Alberta, returned on Thursday.

Miss Olga Nelson left on Friday for Spokane, where she is visiting friends for a few days. She made the trip by bus.

C. H. DePhyffer of Kimberley was a business visitor here on Friday.

A. E. Davies of Creston, general road foreman, has put on a crew of men from Creston building the road camp at Hazel Creek, where work will commence as soon as quarters are completed.

Mrs. Sidney Abar had her sister, Mrs. Cony of Trail, visiting here for a few days last week. She returned on Wednesday.

A. LePage arrived home on Saturday from Boswell, having finished work there.

Ernest Driffil and H. H. Redmile spent the weekend up Kootenay Lake on a fishing trip with a party from Creston. They reported luck only fa r.

Mrs. A. LePage and children, Ronald and Louise, left on Sunday for Cranbrook to join her sisters, Laura and Mildred Andeen, and are going on to Sinclair hot springs for a few daps.

Mr. and Mrs. Thorp of Calgary, Alberta, were visiting with Kitchener friends on Monday.

W. Wass of the Cranbrook Brewing Company, was a business visitor Monday.

Fritz Molander spent the weekend at Canyon, guest of Mr. and Mrs. C. Taplin returning on Mo day.

ONIONS—Get your supply now, price is right. Long, Allan & Long, Limited, Erickson.

FOR SALE—Wealthy apples and Flemish Beauty pears at 50 cents a box (box not included). Teddy Haskins place, one mile north of town, below C.P.R. crossing. Miss Fay Pendry.

Conference Lauds Institute Effort

Creston Institute Commended for Hospital and School Field Day Activities—Pay Bounty on 970 Gophers—Baby Clinic.

Interest in the September session of Creston and District Women's Institute centered chiefly in the report submitted in connection with Creston Institute for the second time winning the silver cup awarded at the Vancouver exhibition for the Institute making the most points in needlecraft in the section specially devoted to B.C. Institutes' exhibits. The report showed that Creston led the field with 15 points, and Nelson institute was third with but nine points. Second place went to Denman Island Institute. The report was presented by Mrs. R. Stevens, who was in charge of the work of assembling the display.

The meeting was presided over by Mrs. C. F. Hayes, president, and there was a splendid turnout. The afternoon was largely taken up with committee reports and purely routine business. It was decided to have a silver tea on September 29th at which the winning needlework will be on display, and a committee was named to take charge of serving the supper at the fall fair dance on October 7th.

Mrs. Maxwell, who is conveneor of the grandmothers' tea committee reported arrangements well in hand for the affair, and reported a total of 105 grandmothers in the district. For the public health committee Mrs. Payne stated she had arrangements started for the holding of a baby clinic this fall in Creston public hospital.

For the hospital committee Mrs. Cook stated the at home given at the hospital last month had been a splendid success. All afternoon there was a steady stream of callers who were shown over the hospital and all expressed surprise at the very complete hospital equipment Creston could justly boast. Tea was served and a freewill offering of $15 nett was received. This amount, along with $9.35 received in the donation boxes, had been paid into the hospital funds. Donations to the hospital the past month had been very generous.

Mrs. Mallandaine reported on the Institute gopher killing contest, stating the total kill by pupils of Creston school had been 970 Mrs. R. Stevens, delegate to the Institutes' conference at Edgewood submitted a carefully prepared report in which she stated the gathering had warm y applauded references to the work on behalf of Creston hospital as well as the school field day, and the outstanding success of the institute for the second time at the Vancouver exhibition.

The tea hostesses were Mrs. Rose, Mrs. Compton and Mrs. J. E. Hayden.

Exhibition

of

Prizewinning Needlework

Under the auspices of Creston and District Women's Institute in

United Church Basement

Tues., Sept. 29

3.00 to 5.00 p.m.

This is the complete display of Creston Institute Needlecraft that won the Silver Cup at Vancouver Exhibition, 1931.

Admission: Silver Tea.

Everybody Welcome.

Canadians prefer the fine Salada quality

'Fresh from the gardens'

The World's Grain Show

"Canada, 1930," a booklet published by the Dominion Bureau of Statistics at Ottawa, summarizes the value of production in Canada for 1927 as follows: Agriculture, 38.1 per cent.; forestry, 8; fisheries, 1.3; trapping, 0.4; mining, 6.3; electric power, 2.7; construction, 8.2; custom and repair, 1.9; manufactures, 33.1 per cent.

These figures are significant. They show conclusively the paramount importance of the industry of agriculture.

This importance is accentuated by the fact that the conditions of manufacturing, which occupies second place, reflect almost immediately the conditions of agriculture It is accentuated even to a greater degree when one comes to examine the manufacturing schedule of the same booklet. Among the twenty-five leading manufacturing industries of Canada, flour and grist mill products occupy second place; slaughtering and meat packing third; butter and cheese seventh; bread and bakery products fourteenth.

A glance at the exports schedules discloses the further fact that wheat stands at the top of the list and wheat flour second.

It seems to be needless, therefore, to make an apology for stating that any activity which promises even a surer footing for Canada's greatest industry merits the attention and support of every Canadian.

Will the World's Grain Exhibition and Conference to take place at Regina next year bear scrutiny from this point of view? Let us see.

In the first place, it is as it's name implies, an exhibition and a conference. Secondly, it is open for participation to all the world.

The exhibition may be conveniently divided into three parts — the competitive, the national, and the commercial exhibits.

The competitive exhibits consist of 19 kinds of field crop products, divided into 56 classes, embracing practically all kinds of grain and seed grown in the world. The total of cash prizes amounts to over $200,000 and the individaul prizes are greater than have been offered ever before, anywhere in the world, at any other exhibition of its kind.

The winning of these prifies, however, is not the real objective of the competitive exhibition. The stimulant for a better quality field product is infinitely more important. It's effect is already apparent. There is ample evidence of this. The demand for registered—better quality—seed in greater all over Canada than it has ever has been. One organization reports an increase of almost 100 per cent.

The national and commercial exhibits will tax the floor space of the immense new building to the utmost. Twenty-seven countries have already spoken for space and others will follow—50 are expected. A visit to these exhibits, occupying a frontage of over a mile and a half, will be an educational feature surpassed only by a trip around the world—a trip, by the way, which most of us are unable to enjoy.

The privilege to participate, either as a competitor in any or all the prize classes, as an exhibitor in the national or the commercial section, or as a mere visitor, is open, wide upen to the great wide world.

Conferences of technical and practical agriculturists from many countries will take place during every day from July 25 to August 6. The programme will provide for the discussion of every conceivable subject having to do with all phases of field crop production, from the preparation of the soil to the disposal of the product for food, fodder, shelter or clothing.

Then there are the competitions for juniors, the tours of Canada, and a dozen other features, a mere reference to which space will not permit.

This whole programme, although not complete at this time, already contains the names of over a score of the "world's best." Surely such a co-operation of brains as this will constitute an asset to agriculture the value of which no man has the temerity to estimate.

Even from a monetary point of view alone, if the final effect be to raise the value of Canada's agricultural asset of almost 2,000 millions of dollars to the extent of one hundredth of one per cent. annually, the money necessary to carry the project to success will be an exceedingly profitable business investment.

But the World's Grain Exhibition and Conference will do more than this. It will effectively advertise Canada to the rest of the world, will give her an opportunity to take stock and ascertain her standing in field crop production, will stimulate her growers in the use of better seed, will clear away any false impressions in the minds of foreign buyers, will demonstrate to her growers the kind of competition that must be met in the markets of the world, will bring to our own country valuable ideas and experiences, and, most important of all, it will take its place among the great events which have brought the nations of the world into closer communion and a little further along the bumpy and tortuous trail toward the fertile meadows of international peace.

Saskatchewan Dairy Industry

Saskatchewan's dairy industry is expanding. The creamery butter production during July amounted to 2,865,316 pounds, an increase of 337,000 pounds over the output of July last year. The production for the first seven months of the year came to 11,437,871 pounds or 3,048,971 pounds more than for the similar period of 1930—a gain of 36.3 per cent.

Seventeen kinds of palms grow naturally in the United States.

Famous Jewel For Museum

The famous Canning jewel, which the Earl of Harewood sold at Sotheby's last June for $50,000, has been presented to the Victoria and Albert Museum by "An American Friend" who desired to remain anonymous. The jewel dates from the 16th century and is traditionally supposed to have been sent by the Grand Duke of Tuscany to one of the Mogul Emperors.

Glasgow, Scotland, is to have air mail collection boxes.

Suffered Severe, Painful Cramps In Her Stomach

DR. FOWLER'S EXT-OF WILD STRAWBERRY

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes:—"I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Cut In British Dole

Variety Of Unemployed Men and Women Are Affected

The 10 per cent. cut in unemployment insurance benefits in Britain, commonly called the dole, will affect a variety of unemployed men and women alike, from the age of 16 to 65. At the same time those in employment are called upon to increase their weekly payments to the "dole fund" and employers' contributions are likewise increased, under the provisions of the national economy bill.

Hitherto youths of 18 have been entitled to $2.50 a week, rising to $4.25, according to age. The $4.25 is the maximum for single men.

Unemployed girls from the age of 16 are entitled to $1.25 a week, with a rising scale for intervening ages to 21, when the allowance is $3.75.

Additional benefits for dependents and children will not be affected by the reductions.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost colour so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes.

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never spot, streak or run; and friends, never know the things I dye with Diamond Dyes are redyed at all!"

Mrs. R.F., Quebec.

Will Publish In Canada

Six American Magazines Will Now Be Printed Here

Publication of six magazines in Canada has been announced by McFadden Publications, and readers of the publications, numbering 200,000 in the Dominion, will obtain them at the same price as prevails today. The company has obtained a Dominion charter.

A statement issued by the publishers says, in part: "By so doing, we not only feel that we can do our part in the promotion of the printing industry in Canada, but we also propose to promote our publications with the newspaper advertising with the knowledge we are building on a staple foundation."

The company has contracted for an advertising campaign covering every part of the Dominion.

Don't Submit To Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Asbestos is the only mineral that can be woven into fire-proof garments and molded into instruments impervious to flame.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

Nevada excavations show that man was existent on the northern continent before the ice-age era.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Would Be Better

A pipeless organ has been invented which turns electricity into music. Many persons would probably be better pleased at the invention of a device to turn some radio music so called, into useful electricity.

Onions, potatoes, and tomatoes worth £10,000,000 were sent to England from Spain, France, and the Channel Islands last year.

Final Stage Of Depression

Winter Will Be Hard But Better Times Are To Follow

"The coming winter is expected to be the final stage of the three years of depression through which Canada has been passing." These words, taken from a speech which E. W. Beatty, president of the Canadian Pacific Railway, made recently at Fredericton, N.B., will be accepted everywhere as reassuring. Mr. Beatty is in a position to speak on such matters as he has an inside knowledge of economic tendencies. There is no doubt that we are in for a hard winter, but if we can feel that it will mark the turn of the tide we can see it through with hope and confidence. The darkness is often deepest just before the dawn, and there are certainly, many reasons for believing that the coming year will see Canada and the rest of the world once more on the upgrade towards normal trade and business conditions. — Toronto Mail and Empire.

The invention of a wind measuring instrument so sensitive that it will record a drop of wind pressure from eighty-five miles an hour to zero in one-hundred and twentieth of a second, is announced.

An Eskimo who had never visited civilization before saw his first movie and became insane. We think we've seen the same movie.

Will Use Alberta Coal

To Receive Share Of Relief Coal Orders From Saskatchewan

Alberta domestic coal operators will receive a proportionate share of relief coal orders from Saskatchewan, according to C. G. Durham, secretary of the Alberta Domestic Coal Operators' Association. Alberta mines will supply one ton in four for eastern Saskatchewan, he said, receiving practically all the orders for the western part of the province. Orders, it is believed, will reach 250,000 tons.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing — it soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-leaf in texture. Recommended also to soften and whiten the hands. Truly a peerless toilet requisite for every woman.

A little boy once gave a definition of friendship: A person who knows us and still likes us. He might have added: and who lets us alone and doesn't interfere in our private affairs and doesn't come to see us too often.

A lot of folk think that begging is an easy way of getting a living, but we'd like to see them try it for a couple of weeks. We have yet to envy a beggar.

HUNTER-MARTIN & CO., REGINA, SASK.

SURVEY IS MADE OF THE WEST'S NEW GRAIN PORT

Churchill, Man.—Built on the barren shore in Manitoba's north country, Churchill's ultra modern harbour development won the acclaim of an Ottawa delegation headed by Hon. R. J. Manion, Minister of Railways and Canals. Two other cabinet ministers, Hon. Robert Weir, Minister of Agriculture, and Hon. T. G. Murphy, Minister of the Interior, were in the party making a rapid-fire survey of the new born grain port.

Confidence in the ability of Canada's farthest north grain harbour to handle any business which may develop via the bay route was expressed by Dr. Manion. Before leaving for the south he remarked that the mechanical portion of the port development had functioned perfectly on its initial test, leaving success of the route dependent only on the trend of trade.

Not a doubt was entertained by the minister but that the "Farnworth" and the "Warkworth," chartered by the Government to carry the inaugural bay route shipment overseas this month would reach their destinations successfully. He even considered that lower bay insurance rates on hulls and cargoes might be expected for next season as result of the two shipments of some 540,000 bushels of Saskatchewan wheat.

Canada's Government, Dr. Manion promised, would draw to the attention of the Imperial shipping committee at London any successful journeys overseas through the Hudson Straits, in the endeavour to obtain the most equitable insurance rates possible. He stressed the fact that the government had undertaken to insure that rates on the test shipments from Churchill would not be higher than from the prairies via Montreal. Possibility that the Government might be called on to foot a bill for an extra cost by the bay route was indicated by Dr. Manion in view of current low rates on the Great Lakes due to lack of cargoes.

He pointed out that the Government had provided its harbour facilities for the trial shipments without cost, and would implement its promise to absorb the rate differential if any. The Government is earnestly endeavouring to do everything possible at Churchill, stated Dr. Manion, pointing to plans for freight sheds, raw grain galleries and other developments for next year.

The sheds are to be constructed on the pier next summer if the foundation of the pier has settled sufficiently to allow work to be done.

By the time shipping opens on the bay next summer, the harbour will be ready to handle cattle, from the west's agrarian areas, the minister forecast. He mentioned that such a trade might necessitate the provision of cattle yards at The Pas 511 miles southward, but saw no difficulty in the way.

Coal and lumber handling facilities, he said, would be pressed forward to handle any trade which develops and the entire facilities would certainly be ready by 1933.

"The Government will promise nothing which cannot be fulfilled," said Dr. Manion, "lest the failure to implement an undertaking might react to the disadvantage of the port.

"Without John I. McFarland, head of the Canadian Wheat Pools' Central Selling Agency, the trial shipments this fall would have been impossible," commented the minister. No other offer of wheat for the bay route shipment had been made, he said, and even now the second cargo has not yet been sold. Dr. Manion announced that the shipment of No. 2 northern, trimmed down Wednesday, September 16, in the hold of the "Farnworth," had been sold by Mr. McFarland to Spillers, London, England.

Perfect synchronization of the work at Churchill by the various developing groups was named by the minister as the outstanding reason for the on-the-dot success of inaugural operations. He commended especially C. D. Howe, consulting engineer of Fort William, Ont., who designed the 2,500,000-bushel elevator which has taken rank as the world's fastest operating ocean terminal.

Only 20 talking pictures were produced in Italy in the last year.

Count Only Preliminary

Further Returns From Recent Census Subject To Correction

Ottawa, Ont.—A further statement of population in a number of cities and towns of Canada which were not dealt with in previous announcements, has been issued by the Dominion Bureau of Statistics. The statement covers more particularly a number of towns, although it deals also with two or three cities in different provinces.

The figures issued show that the city of Quebec, increased from 95,193 in 1921, to 129,103 in the present year. The population of Windsor, Ont., has advanced from 38,591 to 62,957 in the ten-year period.

In western Canada, the city of Regina reported an increase from 34,432 to 53,034.

The largest percentage increase recorded in the statement is in the town of Riverside, Ont., which increased its population from 1,155 in 1921 to 4,426 in the present year. This is an increase of 283 per cent.

It is made clear in the statement that the count is a preliminary one and that returns are subject to correction as additions on account of closed houses and absentees have yet to be made.

REDUCTIONS IN NAVAL PAY TO BE RE-EXAMINED

London, Eng.—After sharp exchanges over unrest in the Atlantic fleet during a turbulent question hour, the House of Commons wandered placidly through the emergency budget's proposals to increase the duties on beer and tobacco.

The Government had comfortable majorities on the two proposals—131 on the beer duties and 74 on the tobacco duties.

All the storm in the House was provoked by the brief statement of Sir Austen Chamberlain, first lord of the admiralty, to the effect the Board of Admiralty had agreed to re-examine the proposed reductions in naval pay and to consider any cases of alleged hardship. In view of this decision the vessels of the Atlantic fleet have been ordered to proceed to their home ports, he added.

Laborites immediately seized on this brief statement. There was a clamor from the opposition benches for immediate debate. The Government remained adamant. The opposition then put a motion that the House suspend the 11 o'clock closing rule, but the Government had a comfortable majority, to defeat it by 286 to 195 votes.

In an uproar of questions from the opposition and retorts from the Government benches, the Laborites asked if the unemployed whose benefits had been cut, would also be considered. They wanted to know if the soldiers and policemen would likewise be consulted about their reductions. They remarked on the fact that some of the naval rates of pay have been cut by 25 per cent. while the first lord of the admiralty and some other cabinet ministers are taking a 10 per cent. cut.

Prime Minister Ramsay MacDonald replied to one of the opposition's many questions with the declaration that it had always been understood the Government departments making cuts in expenditures could adjust the burdens; a step that could be taken without materially affecting the budget estimates.

When the House returned to the emergency budget, D. G. Logan, Laborite, declared to the amusement of the House there was neither soul nor sympathy "in this damnable coalition." He challenged every member of the cabinet from the Prime Minister downwards, to do battle with him in his constituency of Scotland, Liverpool, the seat represented for so long by the late "Tay Pay" O'Connor, Irish Nationalist.

REPRESENTS CANADA

C. A. Bowman, Editor of the Ottawa Citizen, who is one of the Canadian delegates to the fourth biennial meeting of the Institute of Pacific Relations to be held at Hangchow, China, in October.

Wheat Quality Is High

Equal If Not Better Than Any Previous Year

Winnipeg, Man.—The milling and baking quality of Canada's new wheat crop is exceptionally high and is equal, if not better, than that of any year tested by the Dominion Grain Research Laboratory it was announced.

The weight per bushel of the samples received to date and which have just been examined under the direction of F. J. Birchard, are about the same as last year, with the yield of flour comparing favourably. The protein content is much higher than the previous crop, while the gluten of different grades also is exceptionally good.

The baking quality is excellent, the report says, and the flour absorption is higher and the loaf volume greater.

Superiority Of British Films

Toronto, Ont.—The increasing superiority of British motion pictures has led to the establishment in England of branch United States studios according to F. S. Royell, Canadian representative for British International pictures. "Hollywood is alarmed," he commended.

Proportional Vote Opposed

Manitoba Conservatives Object To Proposal Of Attorney-General

Winnipeg, Man.—Opposition to the principle of porportional representation contained in a suggestion by Hon. W. J. Major, Attorney-General, for a reduction in the number of seats in the Manitoba Legislature, was expressed on behalf of the Conservative party by Col. F. G. Taylor, leader of the group.

Col. Taylor said hs party has no objection to the proposed reduction, but "will use every legislative means to prevent the extension of the suggested proportional representation system to the rural areas of the province."

Mr. Major's suggestion would reduce the number of seats from 55 to 35 and would apply proportional representation to the whole province with the exception of four single-member constituencies.

Gandhi Makes Appeal

Asks British Labour Party's Support In India's Struggle

London, Eng.—Mahatma Gandhi stalked into the "Mother of Parliaments" and pleaded for the British Labour Party's support in India's struggle for independence.

He had been invited to address Labour members of the House of Commons privately regarding India's claims.

He said his case was complete independence for India, the same as that enjoyed by Great Britain. He would accept no compromise, he said. Afterward he answered the questions of various Labour members.

Convict Taking Arts Course

University Work Sent To Youthful Long-Termer In Portsmouth Prison

Kingston, Ont.—For the first time in the history of Queen's University, a convict in Portsmouth penitentiary has made application to enter in arts course and do his studies extra-murally in prison. The applicant is a youthful long-termer. In the past five years he has passed all Ontario departmental examinations from entrance to high school. The university work will be sent to him by the head of the extra-mural department at Queen's.

Four Straight Records

Quebec, Que.—The Canadian Pacific liner "Empress of Britain," docking at Quebec, August 31, made its fourth straight record of the Atlantic journey, from land to land, in four days, nine hours and 23 minutes. This is the fastest time in which this stretch of water has been covered. The steamer carried nearly 1,000 passengers and 21 automobiles.

To Cut Fire Breaks

Victoria, B.C.—Work to the extent of 14,000 man-days will be created by the definite decision of the Provincial Government to proceed with the cutting of fire breaks and patrol lanes in six forest areas of the province. Approval to proceed with this scheme as part of the relief program of the province has been received from Ottawa.

MEASURES TAKEN FOR RELIEF WORK ARE OUTLINED

Ottawa, Ont.—A review of Canada's unemployment problem and an outline of the relief measures which are being taken by the Federal Government in co-operation with the provinces and municipalities is outlined in a statement issued by Hon. G. D. Robertson, Minister of Labour.

"Relief of the farmers in the drouth stricken areas of the prairie provinces constitutes the most difficult problem in western Canada, but this ought not to be confused with unemployment arising from industrial and commercial fluctuations.

"Some substantial projects in the urban centres have been tentatively approved, and the Minister of Agriculture (Hon. Robert Weir), is actively directing the farm relief programme in those areas, particularly in Saskatchewan, as well as assisting in the relief of unemployment in the cities and towns.

"In western Canada substantial park areas in Alberta offer opportunities for the creation of considerable useful work in delimiting park boundaries, clearing and building roads and opening up avenues of communication between park areas, of which Jasper and Banff are centres, as well as some similar works in parks located in Manitoba, Saskatchewan and British Columbia.

"The Provincial Government of Alberta has concluded an agreement with the Federal Government respecting both provincial and municipal undertakings in that province, and, like Ontario, it is expected that substantial relief will accrue to the larger urban centres by the withdrawal of transients and single men, who may be wisely assisted in the outside undertakings, both in parks and on provincial roads.

"The Province of British Columbia is suffering particularly because of the contraction in the lumbering and mining industries. Field crops in that province, as in the eastern provinces, have been quite satisfactory as to volume, but not so satisfactory as to sales prices obtainable.

"Manitoba has already commenced some highway construction work and a substantial programme of municipal projects will be submitted for approval shortly.

"There are many indications that the nation-wide depression is passing and that Canada may look forward with reasonable assurance that, as in every similar previous experience, she will emerge earlier than some other countries to a new era of progress.

During the past week, however, the transportation situation seems to be improving and it may with reasonable confidence be expected that railway earnings will show better results during the next few weeks than they did in the month of August, owing to the fact that the crop movement is later this year than last year.

Radio Development

Col. Steel Appointed To Staff Of Research Council

Ottawa, Ont.—Lieut.-Col. W. A. Steel, M.C., who has directed the radio development of the Department of National Defence, has been appointed to the staff of the National Research Council, it is announced. Starting October 1, he will have charge of the council's radio research programme.

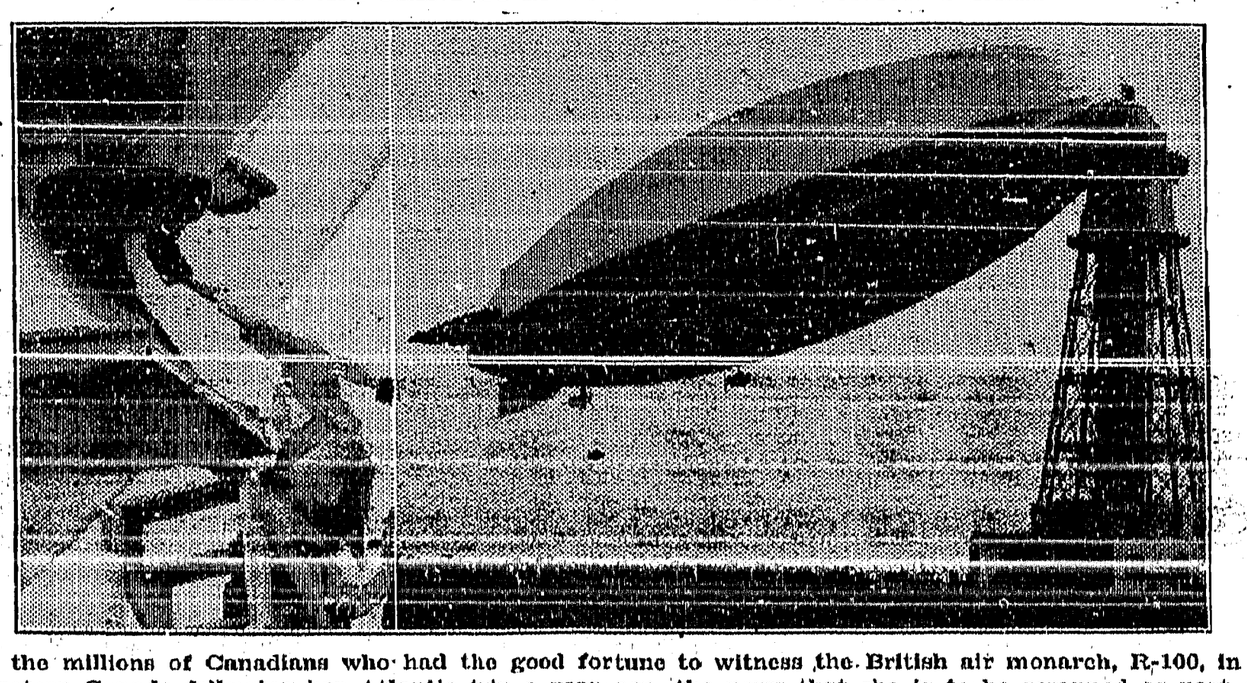
Colonel Steel has had a distinguished career in both military and radio fields, he has represented Canada at numerous international radio conferences and he accompanied Premier R. B. Bennett to the last Imperial Conference.

Radio research has been assigned a definite place in the plans of the National Research Laboratories, and many problems of a technical nature will be dealt with under the direction of Col. Steel.

Completing Plans For Bonus

Calgary, Alberta. — Arrangements for the payment of the five-cent Dominion Government bonus on wheat is nearing completion in Alberta. Office supplies and other equipment required in distributing the bonus have arrived at the Alberta wheat pool head office. They will be sent to pool elevator agents immediately, it was stated.

FAMOUS AIR GIANT TO BE SCRAPPED FOR ECONOMY'S SAKE



To the millions of Canadians who had the good fortune to witness the British air monarch, R-100, in flight over Eastern Canada following her Atlantic trip a year ago, the news that she is to be scrapped as part of the Motherland's "strict economy" plan, will be accepted with great regret. It seems a pity after spending more than $2,000,000 in her construction, that the British Air Ministry have to make such a drastic move. Above are two familiar pictures, taken in Montreal, showing the giant dirigible anchored to the airship mast at St. Hubert, and a close-up of the cat-walk by which passengers and crew board the airship.

Business in the City

You can save time and money by talking over the long-distance telephone instead of going in person.

A conversation by telephone brings you into as close contact with a person as an interview—and often gets more concentrated attention.

Numbers can be got easily and quickly, without fuss or bother. Ask Long-Distance Rate Clerk for rates and information.

Kootenay Telephone Co.
LIMITED

Wynndel Fair Scores Success

Display Bigger and Better in All Departments—Success Financially—Col. Maliandaine Officially Opens—Prizewinners.

Wynndel Women's Institute fall fair, on Wednesday, September 16th, advertised as the "bigger and better fair" certainly came up to expectations. The exhibition was staged in the annex to the Community Hall, with the main hall made available for the serving of refreshments and a booth for the sale of work.

There was a large exhibit in all classes, and the judges had a difficult task placing many of the prizes. The school children's section was much better than a year ago; much more interest being taken and greatly increased competition.

The girls' comic dress parade around the hall and through the building caused quite a sensation, and was won by Olive Uri as a Nigger wench, and Margaret Bathie second, as a witch. The boys mouth organ contest was not held, as there were not enough musically inclined.

Every child under school age received ten cents and promptly proceeded to the bran tub which offered most attractions for the children until sold out. Balloons and novelties sold well, as did the other articles made up and donated by the members of the Institute.

Ice cream and light refreshments were on sale and both of these did well financially. Tickets were sold on a hoked rug and a three-tier iced cake but have not been drawn for as yet as the dance proposed for the evening of the fair was postponed.

The fair was offcially opened by Col. Maliandaine of Creston who, in well chosen words, congratulated the committee on the success of their exhibition. He spoke of the progress of Wynndel district from what he remembered it and hoped it would continue to progress.

The judges were Mr. and Mrs. Chalmers of Thrums, and Mrs. Jas. Johnstone of Nelson in the cooking section; Mrs. Hayes and Mrs. Compton of Creston, who placed the awards in the needlework class, and C. B. Twigg of Cranbrook and W. V. Jackson of Creston, who judged the roots and vegetables. Following is a list of the prize winners:

Home Cooking

Jelly roll—Mrs. Davidge.

Iced layer cake—Mrs. Dalbom, Mrs. Hackett.

Decorated cake homemade icing—Miss L. Benedetti.

Fruit cake—Mrs. Bathie, Mrs. Crook, Mrs. R. Uri.

Doughnuts—Mrs. Joy.

Small cakes, 4 varieties—Mrs. Davidge.

4 pastries—Mrs Hackett.

White loaf, Ellison flour—Mrs. Hackett.

Bread buns, Ellison flour—Mrs. Hackett.

White loaf, Royal household—Mrs. Bond Canyon.

Six tea biscuits, Magic Baking Powder—Mrs. Wall, Mrs. Hackett, Mrs. Eakin Mrs. M. Hagen.

Raisin pie—Mrs. Hackett, Mrs. Joy.

Lemon pie—Mrs. Hackett.

Apple pie—Mrs. Davis, Mrs. M. Hagen.

Brown loaf—Mrs. Davis.

Butter and Eggs

Pound butter—Mrs. Towson, Mrs. Davis.

Dozen eggs—Miss Bellinger, J. G. Abbott.

Canned Goods

Collection jams, Memba—Mrs. Bathie.

Collection jellies, Memba—Mrs. Bathie.

Collection preserves—Mrs. Bathie, Mrs. Davis.

Canned vegetables—Mrs. Davis, Mrs. Joy.

Collection pickels—Mrs. Hackett, Mrs. Davis.

Collection ketchup—Mrs. Davidge.

Fruit and Vegetables

Wealthy apples—Mrs. M. Hagen.

King apples—Mrs. M. Hagen.

Wagener apples—S. Moon.

Delicious apples—A. Cameron.

McIntosh Red apples—Mrs. Kanakin.

Bartlett pears—Mrs. P. Hagen.

Flemish Beauty pears—S. Moon.

Beurr d'Anjou pears—Mrs. Wall.

Cleargu pears—Mrs. M. Hagen.

Plums—R. Eakin, J. G. Abbott.

Corn, stripped—S. Moon.

Cabbage—Mrs. Kanakin.

Carrots—S. Moon.

Tomatoes—S. Moon.

Potatoes—Mrs. M. Hagen.

Display products grown on owr ranch—S. Moon, Miss L. Benedetti.

Collection vegetables—Mrs. Kanakin

Colored Embroidery

Sofa pillow—Mrs. Towson.

Buffet set—Mrs. Nathorst.

Bridge cloth—Mrs. Eakin.

Bedspread—Mrs. Hackett.

Any other article—Miss D. Butterfield.

White Embroidery

Cut work—Mrs. Williams.

Any article—Mrs. Joy.

Crochet trim tea cloth—Miss L. Benedetti.

Three pieces crochet—Miss L. Benedetti.

Needlework

Any article in patchwork—Mrs. Hackett.

Baby's white dress—Mrs. Towson.

Ladies' beach pyjamas—Mrs. Williams.

Hooked rug—Mrs. Hackett, Mrs. Dalbom.

Homemade quilt—Mrs. Kanakin.

Children's Section

Display of vegetables collected—Miss E. Reid, Jack Wigen.

Boquet Miss—E Reid.

Airplane model, Grade 1—Mike Markin, P. Plotnikoff.

Crayon tints, Grade 2—G. Ogilvie, D. Uri.

Drawing, Grade 3—R. Hindley, H. Steiner.

Penman ship, Grade 4—J. Markin, G. Steiner.

Apple with twig and leaf shaded, Grade 5—Olive Uri, Winnie Moon.

Essay, "How would you spend $5," Grade 6—Leah Abott, Inith Wood.

Essay, "Why is Mother's Day kept?" Grade 7—Elmer Davis, Hilda Hagen.

Essay, "What would you like to be on leaving school?" Grade 8—Ken. Packman, Patsy Rhodes.

In connection with the prize-winners announcement is yet to be made of the winners of the three special prizes to be given exhibitor making most entries, family scoring greatest number of points, and the individual making most points. The drawing for the rug and fruit cake will be made at the next social function put on by the institute which will be held shortly to raise funds for the children's Christmas tree.

The gross intake at the fair was about $150, and includes receipts from the two raffles, admission and entry fees, and sale of work, bran tub, ice cream, tea, etc., and when to this is added the money donated toward the prize list it will seem that the fair was a great financial success.

A special mention is due W. J. Cooper, who put in more than a few hours constructing the tables, etc., on which the exhibits were displayed, and this good work so well and cheerfully done is much appreciated by those in charge of the fair.

Members of the Institute labored so uniformly well to make the exhibition a success that it would be unfair to single out any particular member for special mention, and credit for the "bigger and better" fair belongs in equal measure to Mrs. J. J. Grady, Mrs. R. Dalbom, Mrs. L. H. Davis, Mrs. W. Greig, sr., Miss Thomas, Mrs. W. Greig, jr., Mrs. R. Uri, Mrs. Cliff. Gregory, Mrs. Rhodes, Mrs. Crooks, Mrs. Geo. Huscroft, and the president, Mrs. H. A. Bathie,

OUR K.B.O. BROADCAST

This year's high and public school attendance at Rossland is just over 500.

In the James Bruno garden at Grand Forks are some sunflowers, 11 feet 8 inches long.

With the sawmill closed at Lumberton most of the men have registered as uuemployed.

Due to its superior protein content wheat from the dyked lands in the Kootenay valley is fetching a premium of 27 cents a bushel over the Seattle price.

The C.P.R. has cut the service between Craubrook and Golden to one train a week—Wednesday.

At Penticton the attendance at the high and public schools is less than at opening day a year ago.

The Kootenaian claims that fishing in the main lake at Kaslo is getting worse and worse each year.

Kimberley is claiming a population of 4000. Twenty years ago it was a mere tented mining camp.

Kaslo board of trade favors the southern link of the trans-Canada highway coming via Nakusp and Kaslo.

20 acres of the McCrindle place, near Cranbrook, will be utilized as a Dominion demonstration farm.

Grand Forks has a record attendance in both the high and public school. There were 44 new beginners.

Boys riding bicycles on Rossland sidewalks have become so numerons that the police have been notified to stop it.

Even at a price of $10 a ton the canneries will only be able to handle 12 per cent. of the Okanagan tomato crop this year.

An Okanagan selling agency is to try out B.C. apples on the Greece market. Last year 60'000 boxes of U.S. apples were sold there.

The hill on the North and South highway from the Rath cutout into Porthill is now completely gravelled. The work cost $4000.

Local and Personal

Mr. and Mrs. M. M. Porter and children of Calgary, Alberta, spent a couple of days here at the first of the week, guests of Mr. and Mrs. R. J. Forbes.

The Presbyterian Sunday school is having the usual Rally Day exercises on Sunday, September 27th, at 10.30 a.m., to which the parents are invited to be present.

FOR SALE—Southport White Globe onions, well cured, excellent keepers. Individual Squash, Carrots, Beets, Parsnips, Netted Gem Potatoes. Richardson, Erickson.

Mr. and Mrs. Vic. Mawson were week-end visitors with friends at Yahk. That town had a hail storm that afternoon, about the time Creston was being drenched with rain.

The official thermometer showed one degree of frost both Monday and Tuesday mornings and garden stuff is showing the effects of the cold dip On Wednesday there was five degrees of frost,

The Junior W.A. of Christ Church are having a bridge drive in the Parish Hall on Friday evening, September 25th, with cards to start at 8.15 prompt The admission is 50 cents.

Rev. J. A. Mawhinney of Nelson was in charge of the evening service at Trinity United Church on Sunday, in an exchange of work with Rev. R. E. Cribb, who took service at Nelson.

H. Bush of Calgary, Alberta, general manager for Scott Fruit Company, Limited, spent a couple of days here this week making an inspection of the firm's operations at Creston and Erickson.

The October meeting of the Presbyterian Ladies' Auxiliary will be held at the home of Mrs. Telford, Erickson, Friday, October 2nd, at 3 p.m. Cars will be at the postoffice corner at 2.45.

Crestland Fruit Company packing house staff is operating at full strength commencing Monday, when the McIntosh Reds started coming in in quantity and the grader was put into operation.

Mr. and Mrs. Alex. Walmsley of Vancouver spent a short visit here at the first of the week with the former's father, R. Walmsley. They are on their wedding trip, and left here for a trip over the Banff-Windermere highway.

Jas. Cook, chairman of the school board, is at Chilliwack this week attending the annual meeting of the B.C. Trustees' Association. He will return via Medicine Hat and Calgary, where he will spend a few days on business.

Mrs. A. D. Manuel was renewing acquaintances in Creston at the end of the week, and left on Tuesday for a visit with Mr. and Mrs. W. S. Bush at Spokane, before going to Vancouver, where she will be making her home in future.

Rev. H. A. Kennedy, of the theological college, in Vancouver, was the preacher at Christ Church on Sunday morning, and also at the harvest thanksgiving service at Wynndel in the afternoon. He was a guest of Rev. T. Scott at the rectory.

After another spell of showery weather things had dried out sufficiently to resume wheat cutting on the Reclamation Farm on Tuesday afternoon, and eight combines are now at work. Up till Thursday noon a t tal of 25 cars of wheat have been shipped.

FOR SALE—The Erickson Hotel building and four acres of land, $1000 for all this property. F. Rosen, Canyon, B.C.

A opportunity to inspect the needlework that won the silver cup at the Vancouver exhibition last month will be afforded on Tuesday afternoon, September 29th, from 3 to 5 o,clack, in Trinity United Church basement at which the Women's Institute will have a silver tea.

Public school inspector Manning made headquarters here last week, while making his fall visits of inspection to the rural schools. Commencing next month a superior school is to be opened at Kitchener, where there is prospect of 12 students for the first and second year high school work.

A splendid opportunity presents itself on Saturday afternoon to secure farm equipment, furniture, as well as a quantity of poultry in the auction sale at the John Sherwood ranch, commencing at 1.30 p.m., with auctioneer Jas. Compton in charge. Mr. Sherwood has sold his place and is moving to Creston to reside.

It has been suggested to the secretary of the Farmers' Ibstitute that there be a co operative shipment of hogs to the B.C. Livestock Exchange at Vancouvet. As prices in their last bulletin compare favorably with local prices for dressed pork the Institute would like to hear from any who have hogs for market as to the number, and if sufficient a car lot shipment will be arranged.

Messrs. W. Kernaghan, Dan MacDonald, L. Littlejohn, L. Rowe, John Bird, M. R. Joyce, W. Fraser, Col. Mallandaine and C. F. Hayes were a delegation from Creston Masonic Lodge to visit at Kimberley on Saturday night when the lodge in that town had a visit from Sentinel Lodge, Hillcrest, Alberta, the feature of which was the exemplefication of the third degree by the visitors. At the close there was a banquet spread and the usual speech-making. The gathering was a very large one, fully 150 beihg in attendance.

Complaints are altogether too common of rank carelessness being shown by hunters—and the shooting season hardly two weeks old. One of the worst cases reported is the shooting of a three year old heifer owned by J. W. Dow which was killed last week in the vicinity of the small slough. The animal was not missed for three days by which time a small calf running with the animal had almost perished as well. Game warden Ewart has this and other cases in hand and if apprehended the guilty parties will be dealt with as severely as the law permits.

Do you know that when you give the children candy you are feeding them all the elements of healthful nutrition—iron, lime, phosphorous, proteins, carbondehydrates and fats? And what is good for the children is good for mothers also Dr. Bunderson, president of the American Health Association, says, "Some people think candy is fattening, but it is like everything else, it isn't the use that harms, it is the abuse." The children and yourself will enjoy St. Clair Peppermint Toffee, a smooth, creamy fondant, in a casing of pure, rich, boiled candy. Creston Drug & Book Store has just received a new shipment and they are only 50 cents a pound.

AT THE HOSPITAL

The matron wishes to hank Wynndel Anglican Woman's Auxiliary for their kind donation of fruit and vegetables from the harvest thanksgiving festival on September 20th at Wynndel.

Miss Helen Dzvigola, who has been a patient for the past three weeks, suffering from burns, is expected to go home this week.

Orin Plumb, who was admitted at the middle of the month suffering from gun shot injury, is progressing favorably.

Harry Demchuk was operated on for appendicitis, and is progressing favorably.

Mrs. Robert Lowerison had the misfortune to fall and fracture her knee cap, and is a patient this week.

Erickson

Mrs. R. Thurston has been visiting at Cranbrook the past week, a guest of Mrs. C.B. Twigg.

Frank Celli of Coleman, Alberta, is spending a few days here looking after fall operations on the ranch.

Inspector Dingle and Supt. Corley of Calgary made their annual inspection of Erickson postoffice last week.

Frank Staples of Invermere was combining business with pleasure on a visit here over the weekend.

Erickson citizens were certainly carrying four leaf clovers at the K.P. dance at Creston on Friday night. Miss K. Littlejohn and Robert Dodds bringing home cash first prizes in the lucky drawing contest.

Lewis Littlejohn was one of a number of Masons frem Creston Lodge who were at Kimberley on Saturday night for a big gathering of East Kootenay and Pass Masons in that town that evening.

Mr. and Mrs. Coates of Bellvue, Alberta, who have been visitors at their ranch here, left for home on Sunday.

Miss June Irving of Winnipeg, Man., is a visitor here at present, a guest of her grandparents, Mr. and Mrs. Bell.

T. Lang and S. Seright of Calgary, are visitors this week with Mr. and Mrs. H. Clements.

Unique Scheme To Prevent Fire Loss In Saskatchewan

Hon. J. F. Bryant, K.C., Announces Details Of Province-Wide School Competition To Promote Fire Prevention

Saskatchewan has adopted a unique method of disseminating fire prevention education, which is designed to carry the message of "caution" into every home in the province, using the school children as the means to the end.

Unique in conception and as a method of propagandism, the scheme also is unique in that no other province has anticipated it, and Saskatchewan can claim it as its own.

Author and sponsor of the scheme is Hon. J. F. Bryant, K.C., Minister of Public Works and Minister of Telephones in the Saskatchewan Government. Mr. Bryant also is Minister in charge of the Insurance and Fire Prevention Department of the Government, and it was while acting in this capacity that he realized the necessity of instituting a vigorous campaign for reduction of fire loss and fire insurance premiums by the elimination of palpable fire hazards from the homes.

Central feature of the scheme is a sectional view of a typical Saskatchewan residence, showing, in graphic fashion, some 61 of the commoner causes of preventable fires. Vivid type directs attention to the various hazards depicted, and a casual survey will reveal many such hazards in even the best of homes.

Copies of this picture or "hazard chart" are being forwarded to every school in the province for distribution among the children attending school, and it is proposed that the teachers will utilize the chart in teaching fire prevention, composition and drawing. The children are expected to take the chart home, discuss the subject-matter with their parents, search out similar hazards in their own homes and take steps to remedy any dangerous condition found to exist. And there's something in it for the children too!

Realizing that some special incentive is required to arrest the attention and grip the imagination of the children so that interest may be transmuted into action, Hon. Mr. Bryant conceived the idea of a province-wide competition which, starting among the children attending a school would widen out to embrace the inspectorate and, after that, the whole province. The competition bespeaks the co-operation of the children, the parents and the teachers, will represent definite accomplishment in the removal of fire hazards, and undoubtedly will do much to eliminate carelessness and sheer indifference to dangerous conditions from which the majority of fires originate.

The nature and objects of the competition, told in Mr. Bryant's own words, follow:

Hon. J. F. Bryant, K.C., Minister of Public Works and Minister Of Telephones in the Saskatchewan Government.

"Copies of the picture will be sent to each school in the province in quantities sufficient for distribution among all the pupils attending the school. The teacher is expected to use the chart in giving instruction in fire prevention, and in teaching composition and drawing. The pupil, in turn, is expected to take the chart home, discuss it with his or her parents, and then take steps to remove any fire hazards that may be found in the home.

"The children then will fill out a questionnaire, which is being prepared by the Fire Prevention Department of the Government, and will write a composition on "Fire Hazards In Our Home and what I have done to remove them." The composition and questionnaire will be marked by the teacher for neatness, accuracy and originality, and to the pupil obtaining the highest standing in the school a gift copy of some well-known and popular book will be awarded. This year, the book selected is "Lorna Doone," R. D. Blackmore's famous novel. The teacher will then send the winning composition and questionnaire to the inspector for the district who, assisted by a committee of teachers, will select the best in the inspectorate. The pupil declared the winner in this stage of the competition will be awarded a cash prize of $5, and the pupil placing second will receive $3. The winning questionnaire and composition in the inspectorate then will be forwarded to the Department of Education, Regina, where each will be carefully scrutinized and marked, and the pupil adjudged to have turned in the most meritorious performance in the province will be given choice of a shetland pony or a bicycle.

"In this way, it is hoped that the gospel of fire prevention will reach every home in Saskatchewan and that the result will be a marked decline in the annual fire loss and a consequent drop in fire insurance premiums in this province."

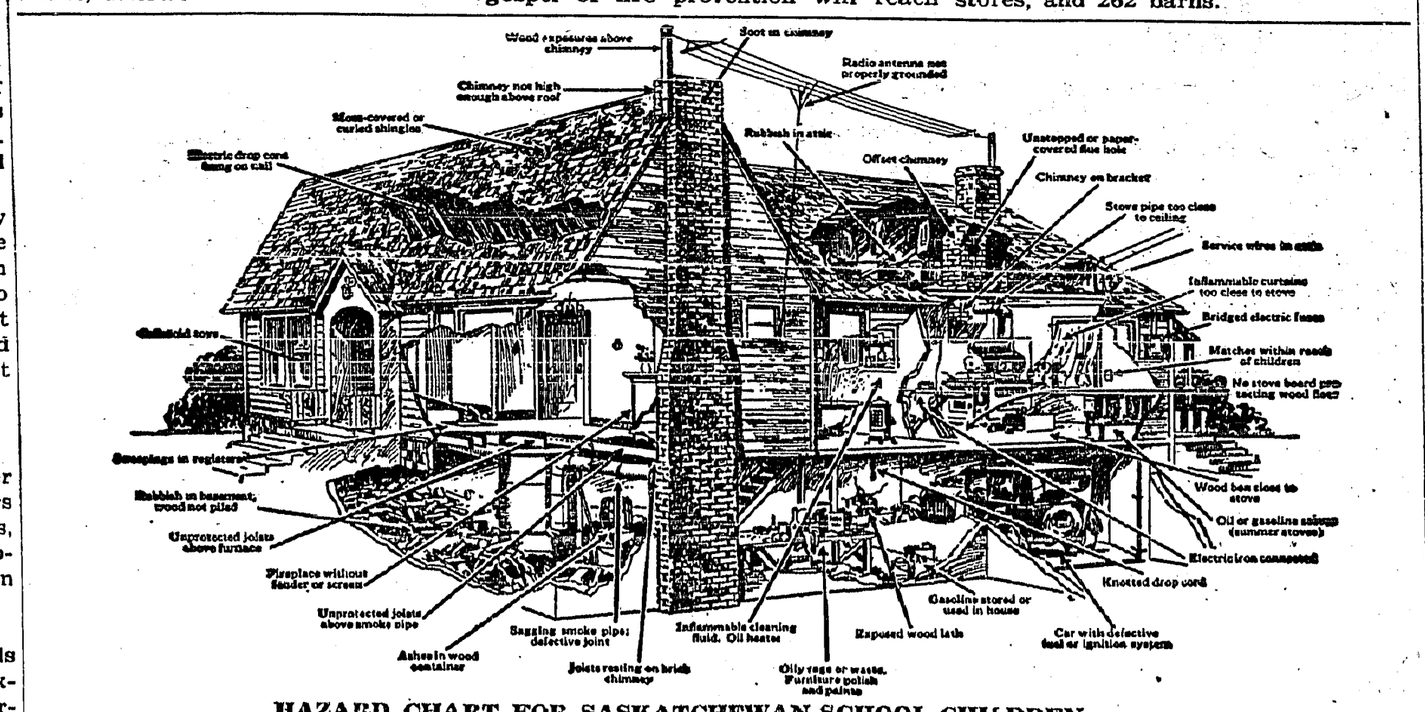
Inspiration for his scheme was found by Mr. Bryant, in statistics relative to Saskatchewan's 1930 fire loss. These reveal that, during 1930, Saskatchewan's fire loss aggregated $3,504,293, which works out at $4.04 per head of population. The number of fires recorded totalled 2,558 — an average of seven fires a day throughout the year!

Canadian fire losses during the year reached the huge total of $46,109,875 and, conjoined with this, fire took an appalling toll of human life, 237 persons meeting their deaths through fire in Canada, in 1930. In Saskatchewan, itself, 54 persons have lost their lives through fire in the last six years, while some 119 persons suffered serious injury as result of fires. The most regrettable feature of this human and material waste is that the majority of the fires reported were preventable, being the result of carelessness or of reckless disregard of obviously dangerous conditions.

An average of three dwellings, a store and a barn were destroyed daily by fire in Saskatchewan during the year 1930, according to statistical records in the Fire Prevention Department of the Government. These records indicate that, during the year, 1,093 dwellings, 348 barns and granaries, and 348 stores were razed by fire, the toll of the fire fiend being augmented by 33 garages, 31 elevators, 30 hotels, 28 schools, 14 theatres, eight pool rooms, and eight churches.

That carelessness and indifference to consequences were contributory factors to the severe losses suffered is revealed by the tabulation of definitely ascertained causes, which indicates that 230 of the fires reported were caused by careless smokers, 196 by overheated stove pipes, 157 by defective chimneys, 142 by careless handling of gasoline, 50 by children playing with matches, 70 by defective wiring, 72 by lightning, and 29 by spontaneous combustion. Seven per cent. of the fires investigated were of suspected incendiary origin.

Hon. Mr. Bryant found additional inspiration for his campaign to spread fire prevention education in the province, in the fact that, during 1931, fire losses for the first six or seven months are considerably in excess of those reported for the corresponding period of 1930. This applies not only to Saskatchewan, but to Canada as a whole. The estimated fire loss in Canada from January 1 to July 31, 1931, is $26,344,400, an increase of $10,719,885 over the loss suffered in the corresponding period of last year. Saskatchewan contributed to this increase, for the records show the estimated loss in this province during the six-month period, January 1 to June 30, as $2,311,261, which compared with $1,918,157 for the corresponding period of 1930, is an increase of $393,104. This loss was suffered in 1,320 fires, of which 586 were dwellings, 231 stores, and 262 barns.



HAZARD CHART FOR SASKATCHEWAN SCHOOL CHILDREN

Will Be Customs Officer

Vancouver Man Will Have Charge Of Customs and Excise At Churchill

The honour of being first customs and excise officer of the new port of Churchill will belong to T. Ross Moulton, of Vancouver, B.C.

Mr. Moulton will have charge of the entering and clearing of vessels from the port during the despatch of wheat from Canada's new grain port.

Churchill will not be the first port this veteran customs officer has opened, as he was in charge of the Yukon in its palmy days. He has been in the service for more than 30 years.

Quick action saves trouble, worry. Keep Douglas' Egyptian Liniment always handy. Stops bleeding instantly. Cauterizes wounds. Quickly relieves Barber's Itch and Ringworm.

Light travels about a million times faster than sound, and therefore we see the lightning before we hear the thunder; both, of course, are actually simultaneous.

Prairie Manufacturing

Manitoba Continues To Lead Other Prairie Provinces In Output

Manufacturing plants in the Prairie Provinces in 1929 turned out goods with a gross value of $352,967,078. There were 2,501 such establishments. Manitoba continued to lead with products valued at $164,909,127; followed by Alberta with $107,556,792 and Saskatchewan with $80,501,159.

for RHEUMATISM
Pour Minard's into a warm dish. Rub liniment gently in; then apply it according to directions . . and soon you'll get relief!
MINARD'S "KING OF PAIN" LINIMENT

The capital investment in the industries totalled $339,678,100 and the number of employees was given as 48,113.

The Oil For the Farmer.—A bottle of Dr. Thomas' Eclectric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

New Stamping Machine

The Daily Mail recently announced a new stamping and pressure machine which, it said, would "revolutionize British industry." The Mail said the machine could be used in stampings of every sort, from watch mechanisms to motor car bodies, and for making nails, bricks and composition materials.

A new strain of popcorn has been produced which pops corn to a surprising size.

SHE HAD TO CRAWL TO BED

One stair at a time—on her hands and knees—that was how she had to do it. And when she did get to bed, her troubles were not over.

"Twelve months ago I could not sleep on account of the terrible pains in my knees, and I might say in all my joints. At night I could only crawl up to bed, one stair at a time. But since taking Kruschen Salts regularly, I have entirely lost all pains and stiffness, and, if needed, could now run upstairs two at a time. In fact, I feel 10 years younger. I shall never be without Kruschen Salts."—Mrs. A. E. D.

Do you realise what causes rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear those painful crystals from the system. The six salts in Kruschen are bound to dissolve away all traces of uric acid. And more! They ensure such perfect internal regularity that no such body poisons as uric acid are ever able to accumulate again. Prove this for yourself by buying a bottle of Kruschen.

SUNDAY SCHOOL LESSON

SEPTEMBER 27

THE SPREAD OF CHRISTIANITY IN ASIA

Golden Text: "They rehearsed all things that God had done with them, and that He had opened a door of faith unto the Gentiles."—Acts 14.27.

Devotional Reading: Matthew 13. 31-33.

Review By Means Of Allusions

Recall the story to which these statements refer:

Let us so live that others may take knowledge of us that we have been with Jesus.

We are in danger of obeying man rather than God, of thinking more about what others will say than about how God will judge.

"O little ship that rocked the wave
Bound for the Cyprian shore,
Rare hostage to the world you gave
In him whose life you bore."

When men refuse to retain God in their knowledge, they can hardly expect to be secure from the temptation to bow before creatures of like passions with themselves, whether they be cunning adventurers or heartless tyrants.—The Christian.

We are daily judging ourselves unworthy of divine grace in every act of refusal to accept and rely on it.—Lyman Abbott.

The world has often had its dreams of gods who had come down in the likeness of men, and even of a divine influence pervading all things; but no ethnic religion has told how men may come to God.—H. E. Fox.

"The talk of Lenine was overbearing and belligerent as he breathed out threatenings and slaughter on the road to Genoa."

St. Stephen did not get the bishop's pay for that long sermon of his to the Pharisees.—Ruskin.

All souls that struggle and aspire,
All hearts of prayer by Thee are lit,
And dim, or clear, Thy tongues of fire
On dusky tribes and twilight countries sit.—Whittier.

"Japan has seen believers scatter abroad preaching the Word, and many with one accord giving heed to the things that were spoken."

"Hitherto Christianity had imagined that men could only approach it through the gate of the temple, but at Antioch it discovered that the gate of the temple was only one of a multitude of avenues."

I asked Benny in what part of the Scripture he had found an allusion to essays, and he at once explained that the man from Ethiopia was 'settin' in his carriage readin' essays.'"—Annie Trumbull Slosson.

THE HOUSE OF DREAMS-COME-TRUE

— BY —

MARGARET PEDLER

Author Of "The Splendid Folly," "The Hermit Of Far End."
Hodder & Stoughton, Ltd., London.

CHAPTER I.—Continued.

The birth of Jean, two years after their marriage, had been frankly regarded by both of them as an inconvenience. It interrupted their idyll. They were so essentially lovers that no third—not even a third born of love's consummation—could be other than superfluous.

They had proceeded to shift the new responsibility with characteristic lightheartedness. A small army of nursemaids and governesses was engaged; and later, when Jean was old enough, she was despatched to one of the best Continental schools, whilst her parents continued their customary happy-go-lucky existence uninterruptedly. During the holidays she shared their wanderings, and Egypt and the southern coast of Europe became familiar places to her.

At the age of seventeen, Jean came home to live at Beirnfels, thenceforward regarding her unpractical parents with a species of kindly tolerance and amusement. The three of them had lived quite happily together, though Jean had remained always the odd man out; but she accepted the fact with a certain humorous philosophy which robbed it of half its sting.

Then, two years later, Jacqueline had developed rapid consumption, and though Glyn hurried her away to Montavan, in the Swiss Alps, there had been no combating the disease, and the romance of a great love had closed down suddenly into the grey shadows of death.

Peterson had been like a man demented. For a time he had disappeared, and no one ever knew, either then or later, how he had first faced the grim tragedy which had overtaken him.

Jean had patiently awaited his return to Biernfels. When at last he came, he told her that it was the most beautiful thing which could have happened—that Jacqueline should have died in the zenith of their love.

"We never knew the downward swing of the pendulum," he explained. "And when we meet again it will be as young lovers who have never grown tired. I shall always remember Jacqueline as still perfectly beautiful—never insulted by old age: And when she thinks of me—well, I'm still a 'personable' fellow, as they say ——"

"My dear Glyn, you're still a boy! You've never grown up," Jean made answer.

She had been amazed—although in a sense relieved—to find how swiftly he had rallied. It seemed almost as though his intense loathing of the onset of old age and decay, of that slow cooling of passion and gradual decline of faculties which age inevitably brings, had served to reconcile him to the loss of the woman he had worshipped whilst yet there had been no dimming of her physical perfection, no blunting of the fine edge of their love.

It was easily comprehensible that to two such temperamental, joy-loving beings as Glyn and Jacqueline, England, with her neutral-tinted skies and strictness of convention, had made little appeal, and Jean could with difficulty harmonise the suddenly projected visit to England with her knowledge of her father's idiosyncrasies.

It was just possible, of course, since all which had meant happiness to him lay buried in a little mountain cemetery in Switzerland, that it no longer mattered to Peterson where he sojourned. One place might be as good—or as bad—as another.

Rather diffidently Jean voiced her doubts, recalling him from the reverie into which he had fallen.

"I go to England?" he exclaimed. "God forbid! No, you would go without me."

"Without you?"

Peterson sprang up and began pacing restlessly to and fro.

"Yes, without me. I'm going away. I—I can't stay here any longer. I've tried, Jean, for your sake"—he looked across at her with a kind of appeal in his eyes—" but I can't stand it. I must move on—get away somewhere by myself. Biernfels—without her"—

He broke off abruptly and stood still, staring down into the heart of the fire. Then he added in a wrung voice:

"It will be a year ago . . . . tomorrow."

Jean was silent. Never before had he let her see the raw wound in his soul. Latterly she had divined a growing restlessness in him, sensed the return of the wander-fever which sometimes obsessed him, but she had not realized that it was pain—sheer, intolerable pain—which was this time driving him forth from the place that had held his happiness.

He had appeared so little changed after Jacqueline's death, so much the wayward, essentially lovable and unpractical creature of former times, still able to find supreme delight in a sunset, or an exquisite picture, or a wild ride across the purple hills, that Jean had sometimes marvelled how easily he seemed able to forget.

And, after all, he had not forgotten—had never been able to forget!

The gay, debonair side which he had shown the world—that same rather selfish, beauty-loving, charming personality she had always known—had been only a shell, a husk hiding a hurt that had never healed—that never would find healing in this world.

Jean felt herself submerged beneath a wave of self-reproach that she could have thus crudely accepted Glyn's attitude at its face value. But it was useless to give expression to her penitence. She could find no words that might not wound, and while she was still dully trying to readjust her mind to this new aspect of things, her father's voice broke across her thoughts so smooth, polished, with just its usual inflection of whimsical amusement, rather as though the world were a good sort of joke in which he found himself constrained to take part.

"I've made the most paternal arrangements for your welfare in my absence, Jean. I want to discuss them with you. You see, I couldn't take you with me—I don't know in the least where I'm going or where I shall fetch up. That's the charm of it"—his face kindling. "And it wouldn't be right or proper for me to drag a young woman of your age—and attractions—half over the world with me."

By which Jean, not in the least deceived by his air of conscious rectitude, comprehended that he didn't want to be bothered with her. He was bidding for freedom, untrammelled by any petticoats.

"So I've written to my old pal, Lady Anne Brennan," pursued Peterson, "asking if you may stay with her for a little. You would have a delightful time. She was quite the most charming woman I knew in England."

"That must be rather more than twenty years ago," observed Jean drily. "She may have altered a good deal."

Peterson frowned. He hated to have objections raised to any plan that particularly appealed to him.

"Rubbish! Why should she change? Anne was not the sort of woman to change."

Jean was perfectly aware that her father hadn't the least wish to "discuss" his proposals with her, as he had said. What he really wanted was to tell her about them and for her to approve and endorse them with enthusiasm—which is more or less what a man usually wants when he suggests discussing plans with his womankind.

So now, recognizing that he had all his arrangements cut and dried, Jean philosophically accepted the fact and prepared to fall in with them.

"And has Lady Anne signified her readiness to take me in for an indefinite period?" she enquired.

"I haven't had her answer yet. But I have no doubt at all what form it will take. It will be a splendid opportunity for you, altogether. You know, Jean"—pictorially—"you ought really to see the 'stately homes of England.' Why, they're—they're your birthright"

Jean reflected humorously that this point of view had only occurred to him now that it chanced to coincide so admirably with his own wishes. Hitherto the "stately homes of England" had been relegated to a quite unimportant position in the background and Jean's attention focussed more directly upon the unpleasing vagaries of the British climate.

"I should like to go to England," was all she said.

Peterson smiled at her radiantly—the smile of a child who has got its own way with much less difficulty than it had anticipated.

"You shall go," he promised her. "You'll adore Staple. It's quite a typical old English manor—lawns and terraces all complete, even down to the last detail of a yew hedge."

(To Be Continued).

"WHEN I was first married I had a miscarriage and felt perfectly miserable.

"I took three bottles of Lydia E. Pinkham's Vegetable Compound and later gave birth to a fine baby boy.

"I now have five children. I always take the Vegetable Compound during pregnancy and it helps me. It benefits my sisters-in-law too." Mrs. W. J. Zinston, R. R. No. 2, Lakefield, Ontario.

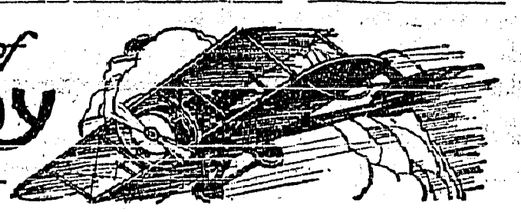
Public Utilities For Flin Flon

Manitoba Government Turning Town Over To Holding Company

Arrangements are being made by the Manitoba Government to turn the town of Flin Flon, in the northwest mining district, over to a holding company. This is to be done to provide the settlement with public utilities financed through the sale of lots. It is expected that waterworks, sewage and heating systems will result. The holding company will be known as the Flin Flon Townsite Development Company, and will be organized by the mining firm operating at Flin Flon.

Doubtless it's true that poverty isn't a crime, but if you're guilty of poverty, you always suffer for it.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE



WHAT CAME BEFORE: Captain Jimmy is forced down in his 'plane on a desert island, while flying from China to Japan. Night after night he builds a fire in hope of attracting a passing ship. Then one evening he hears a steamer whistle in the darkness.

Night can't last forever. Gradually a faint light showed in the East. There we sat, all huddled around the fire — waiting. A dozen times I thought I made out a ship—only to find out that it was my imagination. Then came an excited yell from Chung.

"Lookee, lookee, bigee boat!" There, sure enough, was a good sized steamer, anchored several miles from shore. Just about sun up, a boat put off and a little while later it was beached about where we landed our 'plane.

The Captain, whose name was Bueno, had seen the faint glare of our fire and decided to stand by and investigate in the morning. The crew were all Philipinos and spoke not a word of English.

I explained to him that we must take the 'plane apart and bring it with us, and after a while we dismantled it and carried it aboard. General Lu had gone with the first boat to the ship, from which he refused to budge but Chung stayed with Scottie and me and went in the last boat.

"Chung," I said when leaving, "What shall we call that island of ours?"

Chung gave it a scornful look. "Call him EGG," and so "EGG" we called it, which after all was appropriate, for it was nearly egg-shaped.

The freighter was bound for Karatsu, Japan, to pick up a load of coal. At Karatsu, we took advantage of the opportunity to rig up some pontoons for our 'plane, the "Eagle." Our last trip had proved the danger of flying over the sea in a ship which could not alight on the water. We also rigged up a derrick and sling, so we could launch our 'plane very quickly over the side of a ship. Though we little dreamed it at the time, we were going to need a sea-plane soon enough.

The very first evening out of Karatsu as the sea grew hazy and dark, a group of us stood on the bridge of the "Madrigal," peering by turns through a telescope at a vessel which lay on the rim of the horizon. Now and then we could see faint flashes as though a small gun were being fired.

Through the glass we could make out the ship, as a small steamer, while dead ahead of it and partly hidden from us was a second boat that we couldn't see clearly.

The Captain was intently examining the strange ship through the telescope when Chung rudely interupted. "Chung lookee through longee stick," he announced.

That China boy was all a quiver to get the glass into his hands. Never had he seen one before, let alone hold one, and he was all excited. With one hand he held the eye piece to his eye and grasped the other end of the telescope firmly. The very next minute there was an exclamation of surprise and dismay and there stood Chung with the telescope all collapsed (chuckle). He had pushed the two ends together and instead of a telescope about two or three feet long he held in his hands one that was only about eight or nine inches long. (Chuckle). You should have seen the surprised expression on his face.

PETERS
High Velocity
SHELLS

The fastest and hardest hitting Shot Shell Load on the market

PETERS High Velocity Shot Shells deliver astonishing results, reaching way beyond the range of standard loads with a hard-hitting, killing pattern that brings down the game that ordinarily would get away.

The remarkably effectiveness of this shell is principally due to the fact that the H.V. shell is especially designed and manufactured for progressive burning powder with which it is loaded. The H.V. is the only shell on the market so especially constructed and loaded, hence the results obtained are superior from every standpoint.

For long range, hard hitting results use Peters High Velocity—the blue shell with a "whang". "The shell that gets 'em where others couldn't touch 'em."

HIGH VELOCITY means: More Speed, Harder Hitting, More Penetration, Longer Range All around Effectiveness.
