THE CRESTON REVIEW

Vol. XVIII. CRESTON, B. C., FRIDAY, SEPTEMBER 3, 1926 No. 29

Kitchener

Ernest West, of the Leadville mine, has gone to Spokane for a short vacation.

Miss Beatrice Molander, who has been a Creston visitor with Mrs. C. Fransen, arrived home on Monday.

Messrs. W. Strong and Stanley Quaife left on Monday for prairie points, where they will help with the harvest and threshing work.

Miss Fay Pendry of Creston arrived on Saturday and is visiting with her sister, Miss Louise, at the McConnell Hotel.

Mrs. Jas. Carr and children and Miss Lyda Johnson of Creston were motor visitor here on Sunday, guests of Mrs. E. McGonegal at the McConnell Hotel.

Mr. and Mrs. N. P. Molander and son, Richard, and Mrs. George Hunt, were business visitors at Creston on Saturday, making the trip by auto.

Misses Laura Andeen, Edith Geroux, and Esther Nelson, and Messrs. Ray McKelvey, Jim and Jach Dodds motored to Yahk on Thursday, and were visitors with Mr. and Mrs. W. Percival.

Selmer Anderson, youngest son of Mr. and Mrs. Carl Anderson, had the misfortune to break his arm just above the wrist on Wednesday evening last. He fell off a load of hay. He was rushed to Creston where Dr. Henderson set the broken member.

Clarence Stubjaw, cook at the Sash & Door Company, Ltd., for over two years, left on Wednesday for Alberta. A. Ragotte has taken on the work as chef.

A good crowd from Yahk, Creston Erickson, Canyon, and other points took in the dance in Hunt's Hall on Saturday. The dance was a real good one. The music was real peppy, and so was the crowd. The next dance is on September 11th, when Mrs. Lister's orchestra will again furnish the music.

Roy Burch of Yahk, and M. V. Allan of Nelson, check scaler of the forestry branch, were business visitors here on Thursday.

E. W. Thomas of Creston was a business visitors here on Friday. Mr. and Mrs. R. N. Nusbaum of Spokane were motor visitors here the same day.

E. J. B. Irying, a Trail mining man, was a business visitor here on Saturday.

R. J. Tompkins and family of Walla Walla, Wash., were motor visitors here on Tuesday.

Walter Walby left on Monday for Cranbrook on a business trip.

Donald Bolton of Creston was a between trains visitor on Monday. Alf. Speaker took in the dance at Canyon on Friday night.

Mrs. Dan McDonald, who has been visiting with her husband at Yahk for a week, retured on Saturday.

Z. Geroux, who has been working at Ross Spur for almost a year, arrived home on Friday, leaving on Sunday for prairie points to take in harvest and threshing, and will not return until late in the fall.

Dr. Henderson of Creston initiated his new Ford on a professional trip to Kitchener last week, when he was calling on Mrs. C. Nelson, who is on the sick list.

Mr. and Mrs. Clifford Thompson and Mr. Martin of Cranbrook were motor visitors here Tuesday.

B. T. O'Grady, government mining engineer, Nelson, inspected the Leadville mine, and will be making another visit in a few weeks.

Miss Laura Andeen left an Tuesday of this week for Nelson where she will attend business college. She will certainly be missed amongst the younger set at Kitchener.

Considerable excitement was caused here on Saturday when the motor truck of the Continental Lumber & Pole Company, Limited, loaded with about 3000 feet of lumber, crashed into the Kitchener Hotel, wrecking the front and causing some damage to the furniture. The truck was left on the hill opposite the McConnell Hotel while the driver, Fred Smith, had gone to the Company office. For some unknown reason the truck started to run backward down the hill, but fortunately both Newman Street and Bennet Avenue were practically deserted so no one was hurt, though considerable damage was done both to the truck and hotel building.

Canyon City

Mrs. Robertson and son, Graham, of Lethbridge, Alberta, are visitors here at present with her brother, Jock McRobb, whom she has not had the pleasure of meeting for almost twenty years.

School is due to re-open on Tuesday with Principal Kolthammer and Miss Vera Lister again in charge. The former has had quite a strenuous holiday—out keeping books on a fire fighting crew practically all the time.

The voters list is hung in the postoffice and no one can complain of their name being left off surely, as 125 names are shown on the list.

Fred Bond left a few days ago for Alberta, where he will be for the next couple of months helping with harvest and threshing.

W. Hook of Yorkton, Sask., has purchased the 20 acres of land opposite the schoolhouse owned by W. H. Kolthammer, and on which a few acres have been cleared and some berries planted. Mr. Kolthammer will start at once to build a new residance on the Charlie Johnson property he acquired a few years ago.

Fred Browell, who has been working at the Palmer & Johnston sawmill at Willow Point the past few months, has returned home.

A carload of pipe for the extension to the Canyon Community Irrigation System has just arrived. It is eight inch. A car of six-inch pipe will be in soon and the two cars will be enough to complete the job.

Canyon City is having a busy week politically. On Tuesday afternoon Mrs. Mallandaine of Creston addressed a ladies' meeting, and on Wednesday afternoon Mrs. Ralph Smith, M.P.P., Vancouver, had a meeting in the Community Hall. On Saturday night at 8 W. K. Esling and F. B. Stacey are to speak.

Cabbage, carrots, onions, potatoes for sale. Fred Lewis, Creston.

COAL—place your orders at once for the winter's supply of coal, and be sure of not being short of fuel. Due to an expected car shortage delivery of coal is liable to be uncertain, hence the need of placing orders early. H. S. McCreath, Creston.

Sirdar

Mr. Kennedy, night operator here has been at Creston on day duty the first three days of the week, taking charge there while agent Martin was on the sick list.

Mrs. North and Mrs. Whiteside were Wynndel on Tuesday attending the ladies Liberal rally at which Mrs. Ralph Smith of Vancouver spoke.

Church services will be resumed on Sunday when Rev. S. Newby will be here at 8 and 10.30 a.m.

Everything is in ship shape at the school, which is due to re-open on Tuesday morning.

The voters list for the federal election on the 14th is on display at the postoffice, and shows about 40 names.

Up to the first of the month Sam Bysouth has had no word as to whether his beer parlor license at Kuskanook has been favorably or otherwise considered.

Mrs. Brawn and Mrs. Tanner were between trains vesitors at Creston on Wednesday.

Alice Siding

Miss Gladys Webster, who graduated at Calgary Normal School in June, has secured a school near Foremost, Alberta, and leaves today to take charge.

Monday's sod soaker of a rain certainly went down where it was needed and should help size up the winter varieties of apples.

Miss Marie Vaness and little Miss Evelyn, who have been holidaying at Cranbrook, returned home the latter part of the week.

School is due to re-open on Tuesday morning at 9 o'clock, and everything has been put in readiness for the occasion.

Misses Gibbs, who have been guests of their sister, Mrs. Fred Ash, since arriving from England about four months ago, are leaving this week for Vancouver, where they will reside in future.

Mrs. J. W. Vaness and children, Evelyn and Steve, are holidaying at Okanagan point for a few weeks.

Another daughter has arrived to Mr. and Mrs. W. Mather, and all are pleased to hear mother and girl are doing well.

Bill Vaness left on Friday for Cranbrook where he is now employed with the Sash and Door Company, Ltd.

Miss Rita Parkin is a visitor with Michel friends this week.

The Sunday school annual picnic was held on Saturday last, with a turnout of about forty scholars and friends. Sandy Taylor carried off the grand prize in the races, and every other boy and girl large bags of candies.

Miss Marie Vaness and Mr. A. G Cox of Cranbrook, were motor visitors here a couple of days last week.

Lister

Mrs. Ed. Smith and family, who have been living at Klockmann for almost the past two months, arrived home at the end of the week.

Mr. and Mrs. Frank Baker left at the first of the week for the district near Calgary, Alberta, where they will remain for the harvestand threshing season.

Miss Ruby Lister returned to duty at St. Eugene hospital at Cranbrook on Sunday, after a two weeks' vacation at her home here.

Mrs. Geo. Chudley left on Sunday for a vacation trip that takes her to Vancouver, with a return via Seattle and Spokane. This is her first real holiday in seven years, and all hope she will enjoy every day of it.

Mrs. Sargeant of Nelson, who has been here on a visit with her brother, George Hurry, left for home a few days ago.

Ron. and Jack Gibbs of Creston were here for a few days' vacation last week with Bert Hobden.

Mr. and Mrs. John Draper and daughter of Nelson were weekend visitors at Lister, the guest of Mr. and Mrs. John Bird.

Registrar R. T. Millner posted the voters list for the Lister poll at the first of the week. It shows a few over 100 names.

Lister school is due to open on Tuesday at 9 a.m., with Principal Jenks in charge. Miss Hazel Hobden will resume educational activities at the Huscroft school the same day.

Erickson

Christ Church Sunday school and friends Christ Church picnicked at the bridge here on Wednesday afternoon, with a fair turnout of holiday makers.

N. Bentley, who is making headquarters mostly at Calgary, Alberta, was here on a business visit a few days last week.

Mr. and Mrs. T. Kirsch of Dover, Idaho, are motor visitors here this week, guests of Mr. and Mrs. Botterill.

Mrs. Thurston is entertaining the the members of Christ Church Junior Guild on Saturday afternoon, at which plans for the fall and winter activities will be made.

Registrar Leveque has the voters list for the Erickson poll hung up at the postoffice for inspection. It shows about 80 names.

The heavy rains at the first of the week have made the orchardists happy. It will help put the size into the late picked McIntosh and all the later varieties. In this section the crop of Macs is most promising.

Miss Kathleen Bundy, who has been holidaying with Mrs. Bamford at Nelson, arrived home at the first of the week.

The new Waterbury heating system is now installed at the school and everything is ready for school opening on Tuesday morning.

That Erickson section has a heavy crop of early fruits is shown in the fact that up till the first of the month 32 mixed cars have been shipped this year. In 1924 but 14 cars had enrolled at the first of September. And the increase is in fruit as so far tomato shipping has been light, and there has not been the usual autgo of cucumbers, either.

Local and Personal

School opens on Tuesday morning at 9 o'clock. All new beginner should be on hand to be sure of getting seat space, as a very heavy enrollment is looked for at the public school.

Miss Millie McDonald left on Tuesday to resume teaching in the school at Blairmore, Alberta. Miss Florence McDonald has also left to take charge of the Purple Springs, Alberta, school.

The Presbyterian Ladies' Aid are serving light lunch on election day, Tuesday, Sept. 14th, from 11 a.m. to 4 p.m., in the basement of Trinity United Church. Hot dogs and coffee a specialty.

Mrs. A. R. Swanson, now a resident at Kimberley, got a hurried call to Vancouver on Saturday due to the rather serious illness of her daughter, Ruth, who is a nurse-in-training in that city.

Creston Women's Institute has its September meeting on Friday, 10th, at 3 p.m., in Trinity Church basement. At this meeting delegates will be named for the district conference at Nelson next month.

The L.O.B.A. ladies remind all of their chicken dinner in the lodgroom over the Mercantile store on election night, Tuesday, Sept. 14th, from 6 to 8 o'clock. The usual charges of 50 and 25 cents will prevail.

D. T. and Miss Scrimgeour left on Saturday by auto for Vancouver, where they will spend a three weeks' vacation with old friends. In his absence E. W. Thomas is in charge at the Bank of Commerce.

Rev. S. Newby got back on Saturday from his holidays and the Anglicans are re-organizing for the fall and winter, the A.Y.P. meeting on Monday night and the Sunday school workers on Tuesday evening.

A monster Liberal rally is announced for Tuesday night, September 7th, in the Grand Theatre which will be addressed by Harry Gale, the candidate, and possibly Hon. A. M. Manson, attorney general, or some other well known speaker. The meeting is at 8 and we advise all to go early as it is certain the seating space will be taxed to its utmost capacity. Everyone is wanting to hear Harry Gale.

C.P.R. agent W. B. Martin was off duty the first three days of the week with a touch of the flu, and in his enforced absence the night operator from Sirdar, Mr. Kennedy, was looking after the telegraph work.

Miss Eva Holmes left for north of Edmonton, Alberta, the latter part of August, where she is taking charge of a school. She was at Wasa last term, but due to insufficient attendance the school there has been discontinued.

Mr. and Mrs. F. F. Payne of Nelson were callers at the Review office on Thursday last. Mr. Payne is manager of the Daily News, and was motoring to Cranbrook and Kimberley to look over the political situation in East Kootenay.

WORLD HAPPENINGS BRIEFLY TOLD

Miss Catherine Jellicoe, an aunt of the Earl of Jellicoe, died at Southampton, June 27. She would have have been 125 within a few weeks.

Col. M. McLean, 87, Fenian Raid veteran, whose father was a factor for the Hudson's Bay Company in Western Canada, is dead.

Saskatchewan's bee population has been increased this year by a big influx of imported bees from various points in the Southern States and also Manitoba apiaries.

The King and Queen opened a new wing of the Tate Picture Gallery, near Westminster, including a special gallery housing 200 oil paintings, water colors and sketches of the late John Sargent.

Pickets enforcing the anti-British strike and boycott against Hong Kong killed five persons and wounded another when they fired into a group of Chinese about to board a vessel for Hong Kong.

Exile to the Maria Islands has been decreed by the Mexico Government as the penalty for illegal sale of narcotics. Proprietors of stores caught selling drugs illegally, will be forbidden to operate drug stores in Mexico again.

League of Nations officials insist that the resignation of several or any of the small powers will not seriously affect the league's influence, and that only if a great power like Great Britain or France resigns would the league be really in peril.

Labor leaders in Harbin, Manchuria, are collecting $20,000 to be sent to England to aid striking British miners. Members of professional unions are required to subscribe one per cent. of their monthly wages to make up the $20,000 quota.

The will of John R. Booth, Canada's foremost lumberman, who died last fall, was filed in the Surrogate Court at Ottawa and disposes of an estate estimated at $7,626,02. The entire estate is left to his three surviving children, two sons, C. J. Booth and J. Frederick Booth, and one daughter, Mrs. H. Gertrude Fleck, widow of the late Andrew Fleck. They all reside in Ottawa.

TEETHING BABIES
Thousands of Them
DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth.

On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life.

Northern Route For Cattle

Mayor of Saskatoon is a Strong Supporters of the H. B. R.

Mayor Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon paper his worship said:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. From there The Pas is 88 miles and from that town to Port Nelson is 424 miles, being a total of 687 miles from Saskatoon to tide water. The proposed line giving Saskatoon direct connection with the Hudson Bay Railway would, no doubt, pass through Humboldt.

"It can reasonably be anticipated," said the mayor, "that one of the many readjustments in the routing of traffic following the opening of the bay route will be in connection with the great cattle industry of Southern Alberta. I anticipate the day when those cattle will pass through Saskatoon enroute to Liverpool and other European ports."

"From, say, Calgary to Montreal via the Canadian Pacific Railway is 2,245 miles. From Montreal to Liverpool via Belle Isle—a route available only a portion of the year—is 2,760 miles, a total, Calgary to Liverpool, of 5,005 miles, the rail haul being 45 per cent. of the total mileage. From Calgary to Liverpool via Montreal and Cape Race the mileage is 5,255 miles, of which the rail haul is 43 per cent."

"From Calgary to Port Nelson, via the proposed direct line, Saskatoon to Hudson Bay Junction, the mileage approximately would be, Calgary to Saskatoon, 400 miles; Saskatoon to Fort Nelson, 687 miles, a total of 1,087 miles—say 1,100 miles—and from Port Nelson to Liverpool 2,966 miles—a total of 4,066 miles, of which only 27 per cent. is rail haul." The mayor, as one familiar with the subject, pointed out that while cattle in transit "shrink" during railway travel, they "pick up" on board ship. Also that the coolness of the bay route would insure their arrival at ports of disembarkation in fine condition and he stressed two marked advantages as favoring the bay route for cattle shipment—less total mileage and a lower percentage of that total being rail haul than that of any existing North Atlantic route."

Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oily Liniments won't touch. Large 35c bottles at all dealers.

Dedicate Window In Westminster Abbey

In Memory of British War Prisoners Who Died In Germany

A beautiful window in the north side of the nave of Westminster Abbey, which was donated by James W. Gerard, former United States ambassador in Berlin, in memory of British prisoners of war who died in Germany, was dedicated in London. The ceremony was performed by Dr. Foxley Norris, dean of Westminster. Mr. Gerard was represented by Alanson B. Houghton, the American ambassador to London, and many other Americans were present.

Strange Aquatic Animal

A strange looking aquatic animal reported to be half the length of a canoe, and believed to be a giant sturgeon of a species known to abound in northern waters, was seen in the Ottawa River recently. It was first thought to be one of two pet alligators who escaped from Aylmer, Que., last fall, but naturalists claim an alligator could not survive a winter in a frozen river.

Success is the only thing that can turn a man's head when he has a stiff neck.

Will Survey Barren Lands

Scientists to Report on Suitability of Grazing Fields For Reindeer

In order to investigate the possibility of breeding large herds of reindeer in the Barren Lands of the Mackenzie district to provide a dependable food supply for people of that country, a party of scientists is being sent into that country this summer, according to information received from Dr. F. J. Lewis, professor of botany at the University of Alberta, who has just returned from a scientific convention at Ottawa.

The party will be in charge of two sons of Professor Poffeld, director of the biological station at Bisco, Greenland, and plans to spend two years in the Barren Lands. Here they will make an extensive survey of the country, paying particular attention to the study of the vegetation in all districts coming under their survey.

The ultimate object of the survey will be to determine the suitability of the flora of the various regions for reindeer grazing. The necessary equipment for preserving specimens will be taken into the north by the Poffeld party, and collections will be made for the authorities at Ottawa and also for those at Copenhagen who are helping to finance the expedition.

Two methods of approach have been suggested to the survey party, and it has not yet been definitely settled which one will be taken. One is by way of Alaska, and then overland into the Barren Lands, the other by way of Edmonton and the Mackenzie watercourse.

Jabot Treatments Lend Grace to Daytime Frocks

This chic frock illustrates the simplicity of treatment which expresses the correct note for general daytime wear. Developed in one of the wide bordered crepes, it has soft gathers at each shoulder where the back comes over to meet the front, creating, as it were, a yoke effect. Gracefully draped jabots outline the deep V front opening, and an inverted plait extends from the waistline to the lower edge of the skirt. The back is straight and a narrow belt creates the new bloused effect at the sides. No. 1339 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 bust requires 4 yards 39-inch for dress made of plain material; or 3¼ yards wide bordered material as illustrated. Price 20 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

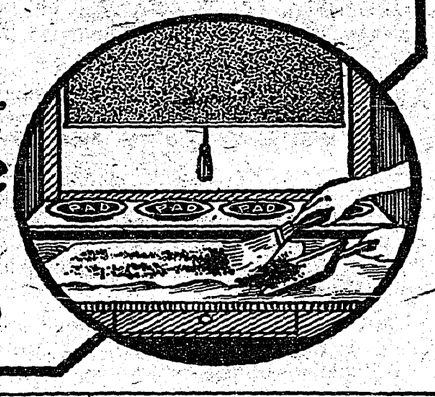
WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

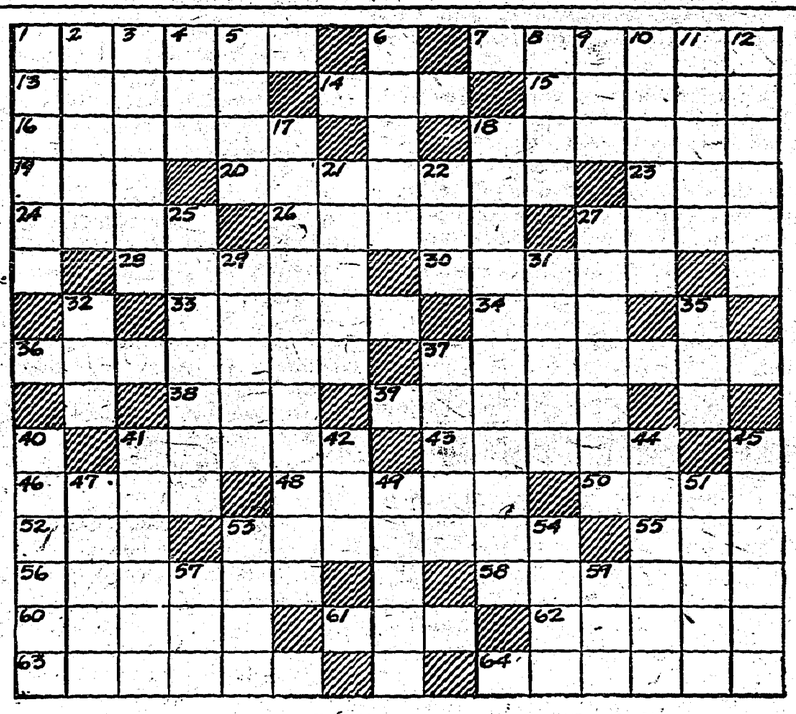
This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads



OUR CROSSWORD PUZZLE



Horizontal

1—Stupor.
7—Plays without expression (mus.).
13—Good-bye.
14—Prior to.
15—A style of modern type.
16—To form anew.
18—To revolve.
19—Pshaw.
20—Expressed gratitude.
23—A fleshy tumor.
24—Single.
26—Stopped, finished.
27—Withered (var.).
28—River in Alaska.
30—An association of people.
33—Small Asiatic lemur.
34—For.
36—A judge, an umpire.
37—Taste (var.).
38—Latin (abbr.).
39—Fully.
41—Cone-shaped.
43—To heave upward, as a vessel on a wave.
46—To pave with flagstones.
48—Capital of the Island of Crete.
50—Facility.
52—Frolic.
53—A dress goods.
55—Among (poet).
56—Rule of descent.
58—Going astray.
60—Man's name.
61—Southern sweet potato.
62—To besiege (rare).
63—Curly.
64—Pebbles.

Vertical

1—A large fish found in southern waters.
2—A roofed theatre in ancient Greece.
3—Abundantly.
4—A small vegetable.
5—To eject.
6—To mark with a hot iron.
8—Walked.
9—A settled habit.
10—Not afraid.
11—A bishop's headdress.
12—Parts of a play.
17—Pertaining to theory.
18—To repeat.
21—Girl's name.
22—Small cask.
25—Christmas Eve fire log.
27—One of a Slavonic people.
29—The Mohammedan scripture.
31—Wrathful.
32—To jellify (biol.).
35—To name.
37—Melts.
40—Pretend.
41—The hind bow of the saddle.
42—A domestic animal.
44—A Belgian Roman Catholic priest, the Apostle of Molokai.
45—A grass-like herb (plu.).
47—Pertaining to the moon.
49—Pertaining to snow.
51—To burn slightly.
53—Child's neck-linens.
54—Long ago.
57—Money (Roman Antiq.).
59—Capital of Brazil, S.A. (var.).

Looks Like Pleasant Farm

But England's Leper Colony is Lonely Isolated Spot

England's leper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses set in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding. But the inhabitants of the houses are lepers. They are British men, women and children who have lived abroad, and who once in perfect health have contracted leprosy. An Anglican sisterhood gives them the most tender care.

Sounded Too Familiar

First Dub: How did you like Hamlet last night?

Second Dub: Well, it seemed like a good show, but it was all made up of quotations.

Coming To Canada

Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Claydon in Suffolk, left for Canada recently on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H.L.GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THUS FAR

Joanna, a pretty, ultra-modern, shop girl is told by her employer that she has been given a million dollars to spend by an unknown benefactor. She is not even to know his name, there are no "conditions" to meet before she can get the money. Nothing more than this can be gained from banker Eggleston, nor his suave, man-about-town nephew, Brandon, who informs her that he intends to make love to her while helping her write her first check. Dazed by this sudden deluge of wealth, hurt because her friends and acquaintances will not believe in her she returns home happy after an orgy of buying to find John, her old-fashioned sweetheart and Brandon awaitnig her. Brandon is suave, John silent—almost boorish. After Brandon leaves, John informs Joanna that he does not believe she came by the money honorably. He is angry.

CHAPTER VIII.—(Continued)

With her awakening to the new day—the first full day of her new estate, varying emotions rushed in confusion into Joanna's mind. Her first thought was of John. With it came the surge of recollection of the scene in the "drawing room only." She winced at the sudden memory. She would get hold of him right away. She wouldn't lose a minute—before he went to his work! She buried her hand in the hair on the pillow beside her. Georgie had stubbornly shut her eyes, refusing to be ordered up by any housemaid, but opened them wide at the viciousness of Joanna's tug at her shingled head.

"Pile out and get dressed," Joanna commanded. "And be quick—you can make up afterwards. Bring some things in and we'll ask Mrs. Adams to let us cook them in the kitchen for breakfast—and I want you to telephone froni downstairs on your way out."

Georgie, her wits not fully gathered, broke off short in a general remark to the effect that some people had their crust. Things came back to her, especially that she must send word to the store that she'd broke a leg, or her neck, and couldn't show up at the silk counter until the next day, and that Joanna was going to take her shopping. She blotted out her first remark with: "Surest thing you know." And, in her own conception of the way people kept their affairs straight, she added:

"I'll make the telephone in about two minutes. What did you say John's number is?"

But Joanna decided she wouldn't telephone to John. The hurt was too lively, and bitter. She didn't even want to ever hear from him again. Brandon had said she mustn't make mistakes. That her perspective was no longer that of the shop girl's. Brandon! Who, and what, was he? He must be mixed up in this strange affair of her's in some way, but he denied it. She didn't like him. Why? She was afraid of him. Why? Wasn't it because she was afraid of him, of his association with her unexplainable good fortune, that she didn't like him? He had been so quick to begin his acquaintance with her, and he frankly said he was going to be devoted to her.

Yet Brandon had nothing to do with her amended command to Georgie who had whistled her way into the few clothes she habitually wore and who was asking what she'd say to John when she got him.

"Nothing," Joanna replied, tartly. "I don't want you to call him. Don't be silly. I was only joking. Just get the breakfast. Take a five hundred dollar bill and tell me what delicatessen men look like when they have fits."

Awakening to the first full day of her new estate, her first thought was of John.

Which Georgie gayly did. Her report was hysterically satisfactory, sobered only by the discoverery that she'd been short-changed ten dollars out of the twenty dollar bill she had finally given him.

"Let him keep it," Joanna ordered, shortly. "It'll be something to remind him of the next time he refused you credit."

"If you get me those duds you've promised me," Georgie returned, "I'll get my herring and dill pickles at the Ritz. See if I don't. All I need is clothes to get out of the delicatessen class."

Joanna shot a keen look at her, but said nothing. John had turned her soul against preaching.

The beautifications that are suitable to new street tailleurs, Joanna's which she had worn the afternoon before, and her preliminary gift to Georgie, which Georgie had blossomed in for the evening, are not hasty ceremonies. It was well toward noon when the two girls settled in their taxi. And then Georgie had to wait, a block from the store, where she would not be detected as having broken neither a leg nor a neck, while Joanna presented herself to Mr. Graydon's secretary. She just wanted to talk to him again, she explained, and to let him see her.

The "boss" of yesterday made her understand that he was her "friend" of today, and all days. He thanked her, gently, for stopping in, and hoped that she would come in often. But he would not give her the thing she asked. Advice. Something that would be a hint to her of what was expected of her; of what she should do to carry out the wishes, or the plans, of her unknown benefactor.

"I have been cautioned by your banker, Eggleston," he said, "that I must not pretend to advise you. Not now, at any rate. Mr. Eggleston is emphatic—in saying that a condition that went with the money was that you solve your own problems. After a while, perhaps, some of the severity of the ban may be lifted. Just now I mustn't interfere."

"Am I just to take all this money and go out and spend it, then?" Joanno persisted.

"Just go out and spend it—someway. I suppose that is one way of repeating that you may do with it whatever you wish."

So naturally that she did not know that she was doing it, she began to tell him about Cohen, and Mrs. Adams, and John. Suddenly she hesitated and was abashed. "But all that doesn't interest you, does it?" she apologized.

The gray man had been watching her intently. Almost eagerly. He re-assured her quickly. "On the contrary, Joanna, that is just what—I mean, it does interest me tremendously. Won't you go on—about John? You straightened him out, I hope and it's quite all right, now?"

"No," Joanna replied, her voice quavering a little. "I didn't, and it isn't. I'm afraid it's all crooked in his mind."

"What are you going to do about it?"

"Just let it stay crooked, I guess. Crooked things that ought to be straight, must get that way by themselves, I think. If they have to be hammered out, they're only make-believe." She was silent, for a minute, then added so suddenly that Graydon was sure she hoped to catch him off his guard.

"What would you do about it if you were in my place?"

He smiled. "That is one of the very things I mustn't advise you about. But I shall want to know, very sincerely, when it begins to straighten out—and see what happens then. I shall be interested in John."

"Well, that's more than I am, right now," the girl retorted. She was restless under the keen scrutiny with which Graydon was suddenly observing her. She was still uncomfortable when she said goodbye to him. She had intended to ask him what part in her affairs he thought Brandon was to play. But she concluded that she would have to find that out for herself, too. It was then that she resolved that perhaps Brandon could show her the way to go, as well—better, perhaps, than John.

(To be continued)

The musician who plays by note has to face the music.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. JOHNSON, 40 Moore Street, St. Thomas, Ont. C

Gradually Clearing Scapa Flow

Cruiser Hindenburg When Scrapped Will More Than Pay Salvage Cost

Sunk by her crew at Scapa Flow over six years ago, the German cruiser Hindenburg will be afloat again in a few months. How is it to be done, and what will happen then?

Already twenty-one smaller warships have been brought to the surface by means of wires passed under them from floating docks, but the Hindenburg, with a tonnage of 27,000, is much too heavy for that. She is to be made to rise of her own accord by having the water pumped out of her.

To do this all her portholes and all the eight "sea cocks" the Germans opened to sink her, will have to be covered with patches of concrete or steel. To get at the sea cocks, which are round holes in her hull, two feet across, it will be necessary to make tunnels in the sea bed on which she lies and to scrape away the barnacles and seaweed that cover her bottom.

All this will take twelve divers six months, but when they have done forty pumps will pump out some thing like 60,000 tons of water in twelve hours, and the Hindenburg will then slowly rise to the surface.

And what then? She will be run aground and broken up for scrap, the value of which will be more than worth the cost. After that the remaining big ships will be raised, at the rate of two a year, till Scapa Flow is clear of them.

WEAK AND NERVOUS

A Condition Due to Watery Blood — Easily Corrected Through the Use of Dr. William's Pink Pills.

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Little Helps For This Week

Cause me to know the way wherein I should walk.—Ps. cxliii., 8.

Then a voice within his breast
Whispered audible and clear,
As if to the outward ear,
"Do thy duty, that is best,
Leave unto thy Lord the rest."
—Henry Wadsworth Longfellow.

Keep close to duty. Never mind the future, if only you have peace of conscience; if you feel yourself reconciled, and in harmony with the order of things. Be what you ought to be; the rest is God's affair. It is for Him to know what is best.
—Henri Frederic Amiel.

Let us stand by our duty, fearlessly and effectively.
—Abraham Lincoln.

Detecting Grimes By Dust

Clever Detective Resorts to Use of Vacuum Cleaner

Probably the cleverest living detective is Professor Locard of Lyons, whose feats are the wonder of all Europe. Many of them, curiously enough, have been performed with the help of a vacuum cleaner, with which he draws specks of dust, etc., from the clothing of suspected persons; and these microscopic clues have already sent dozens of murderers to the guillotine.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Beacon Lights Scare Coyotes

Sheepmen of Uintah county, Utah, say the new beacon lights on the airway of the transcontinental mail route have frightened away the herdsmen's eternal enemy—the coyote.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Gold Finder Died Poor

After making and losing several fortunes, James Marshall, who was first to discover gold in California, died in poverty and solitude in a lonely cabin close to the spot where he made his epochal discovery of gold 37 years before.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, SEPT. 3

Esling's Dumping Clause Proves a "Frost"

Harry Gale, Liberal candidate, got back on Sunday from a week's speaking tour of the Arrow Lakes district, and is brimming over with optimism as to his vote there on September 14th. Amongst the orchardists in that ares there is great disappointment with Mr. Esling's failure to inaugurate a dumping clause "with teeth in it," as definitely promised them a year ago.

One can readily appreciate just how the grower in that section feel, because Mr. Esling was most specific in his promises. Everyone will recall in last year's campaign F. W. Nash of Renata, who, unable to market his peaches in Cranbrook, appealed to the Conservatives for legislation to make such a situation impossible another year. In his appeal Mr. Nash, in asking for a law that would keep American fruit out, said: ". . . They (the Americans) take the cream off their own market before our fruit is ready and then dump their surplus in our home market thus making it skimmed milk."

And the Conservative candidate's answer to Mr. Nash's appeal is couched in these terms: "A vote for W. K. Esling, Conservative candidate in West Kootenay, will rectify this state of affairs."

But Mr. Esling has not kept his promise. Last week two carloads of Washington peaches were wholesaled in Nelson, and one carload of Washington peaches were wholesaled in Cranbrook the same week. Furthermore part of one of these cars of peaches were sold at retail in Creston last week.

And it will not be putting it too strong to say that in 1926, with Esling's dumping clause "with teeth in it" in force, exactly the same thing is going to happen to Mr. Nash as was experienced by him in 1925 when, according to Mr. Esling, there was no dumping clause in action, because the Kootenay market is now supplied and the Arrow Lakes product will not be coming in for some days yet.

Along with the disappointment that is in store for the Arrow Lakes growers on peaches, they have already experienced the same grief as Creston with raspberries and plums, and have been advised to prepare for the worst on apples.

This season Mr. Esling's dumping clause "with teeth in it" has proven the biggest kind of a "frost" and it is not at all surprising the Conservative candidate is wanting to talk customs scandal and every other topic but the fruit growers problems. But the grower isn't being so easily fooled. With him it's a case of "once bitten, twice shy"—as Mr. Esling will surely discover on the 14th.

Esling Overlooks Coal Duty

Rev. F. B. Stacey, Mr. Esling's platform partner, is devoting considerable time to telling of what benefits will accrue to Canada if the tariff is raised and home industries encouraged. He is particularly fond of telling how a tariff raise would help the steel industry. Mr. Stacey, has got the habit of insisting that Canada should develop her own natural resources and duties should be imposed to shut off unfair outside competition.

With what Mr Stacey has to say one can agree, but what the Review cannot make out is why Mr. Stacey does not plead for the development of coal mining by raising the duty on American coal so as to prevent the U.S. fuel coming in, and compelling Canadians to buy Canadian coal.

We have it that 16,000,000 tons of American coal comes in to Canada almost duty free each year. Now if the duty was raised to keep this out, and the coal consumer was forced to buy his coal in Nova Scotia and Alberta say at $3 a ton at the mine, it would mean another $48,000,000 dollars circulating in Canada that now goes across the line.

And if half that amount, $24,000,000, was spent on Alberta coal. And if one-fourth of the Alberta coal was supplied from mines in the Crows Nest, it would mean another $6,000,000 of payroll money right in the places where Creston can best sell its fruit. Such an extra amount of spending money—and an attendant growth in population at mining centres—would easily take all of the present surplus local fruit.

But although Mr. Stacy, as well as Mr. Esling, wax eloquent in telling you the benefits of high duties to Canadain industry, up to the time of going to press neither one of them have even whispered anything about a duty on coal—which would mean so much to Creston.

Why? Well simply because most of that 16,000,000 tons of coal goes into Ontario, from Pennsylvania mines, and if a duty of $3 a ton was imposed the people of Ontario would have to pay $48,000,000 more for the coal they burn.

Ontario elects 84 members of parliament. 72 of these are Conservative, and take it from us the people of Ontario have no intention of paying $3 a ton extra for coal—although they are quite willing to make western people pay fancy duties on the goods the east manufactures.

Those 72 Tory members in Ontario are why Mr. Esling does not talk duty on coal, and this notwithstanding his assurance that he always stands up for the best interests of his constituents.

Domestic Pack

The Conservative Candidate's vote against the Robb budget has got him in so bad that his apologists are now trying to excuse him by saying that Mr. Esling was elected to support the Conservative party, and that when that party decided to oppose the Robb budget Mr. Esling could not do otherwise than follow his leader.

A poor excuse is better than none at all, but surely Mr. Esling will have something better to offer. This making him appear as a sort of monkey on the string for Mr. Meighen to pull up and down is going a little too far, surely.

—

In his speech in the commons on Februray 10th Mr. Esling w ved a cheque for 88 cents before the astonished house, and further astonished members by saying that it represented payment in full to a grower for six crates of plums; clinching the incident with the remark, "This is one result of the dumping of surplus United States fruit into Canada." This year, with Mr. Esling's dumping clause "with teeth in it" in effect it would be interesting to know what thie same grower got for his plums—that is, if he bothered picking them.

—

Speaking at South Slocan a few nights ago Rev. F. B. Stacey is reported as "urging loyalty to Canada." Truly a fine sentiment, but it must be more than mere lip loyalty. The loyalty we need at this time is the sort that will enable men and women of West Kootenay to go out and vote for a Canadian—for Harry Gale, the born in Canada Canadian. Blood is thicker than water, surely.

—

Mr. Stacey's plea for "loyalty to Canada" appears to have had its effect on the lady Conservatives. In their committee room windows they have for the past week been displaying placards headed "Time for a Change."

—

Reporting a recent Conservative rally at Kaslo the Nelson News says, "Mr. Esling got a rousing reception." The Kootenain says there was between 40 and 50 at the Kaslo meeting. Likewise the News' special correspondent at Creston, reporting the Conservative meeting on August 19th, stated that the Grand Theatre "was filled to capacity." Those present say the Grand was hardly half filled. If attendance at puplic meetiugs are anything to go by Mr. Esling is slipping badly.

—

The Vancouver Province and the Calgary Herald, the leading Tory daily papers of the west, strongly advise dropping the customs scandal. Mr. Esling will do well to take their advice. What the people here want is an accounting of Mr. Esling's stewardship.

—

West Kootenay wants a man at Ottawa who can do things. In the four years he was mayor at Vancouver that city progressed at a livlier rate than at any time in its history, and Harry Gale has the ability and willingness to do even better for this constituency. Remember this on September 14th.

Proper ageing makes healthful beer

AMONG the measures taken in the plants of the Amalgamated Breweries to assure that the beer made for the people of British Columbia is of the purest and most healthful character there is a factor not often brought to the attention of the public.

That is proper ageing, under the most favorable conditions known to the science of brewing. The stability afforded the brewing industry in British Columbia by the legal, above-board and Government Controlled sale of beer, by the glass in licensed premises and by the bottle in Government Stores, affords the Amalgamated Breweries an opportunity to maintain an ample and sufficient reserve that is allowed to mature slowly and naturally.

The ageing of beer in the plants of the Amalgamated Breweries completes the physical and chemical processes that the malt and hops undergo in the course of brewing and is among the reasons why the people of British Columbia are provided with beer of high quality.

Pure and healthful beer is the product of the finest materials plus the utmost care, and most elaborate and scientific equipment is required. In its making it is absolutely sterilized, and prolonged filtering leaves it crystal clear and a delight to the eye. Then comes the ageing that removes every trace of the rawness often found in beers that are too "young," and that makes it bland and digestible—really a pre-digested liquid food, high in nourishing qualities.

The valuable sugars, proteins, mineral salts and organic phosphorous compounds are united in close and homogenous union, and, most important of all, fermentation is totally ended, leaving the alcoholic strength low—4.25 per cent. as provided for by law—and just sufficient to stimulate the digestive system in the most favorable manner.

Visitors are welcome at all times to inspect the model plants of the Vancouver Breweries Ltd., Rainier Brewing Co. of Canada Ltd., Westminster Brewery Ltd., Silver Spring Brewery Ltd., and the Victoria Phoenix Brewing Co. Ltd., where the beer supplied to the people of British Columbia is made.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

COAL—place your orders at once for the winter's supply of coal, and be sure of not being short of fuel. Due to an expected car shortage delivery of coal is liable to be uncertain, hence the need of placing orders early. H. S. McCreath, Creston.

The school board is meeting this week to consider applications from outside pupils to attend high school the coming term. About twenty are wanting to attend, but as the number of Creston pupils is also large some may be disappointed.

August was an 'off' month for business at the Creston office of the provincial police, the cash intake being less than $75, which is partly accounted for in the fact that Mr. McLaren was away on vacation. Motor licenses accounted for $50 of this

C. B. Twigg, resident horticulturist, left at the end of the week on a trip into Northern British Columbia, where he will judge at a number of fall fairs, including Prince Rupert and Fort George. Mrs. Twigg accompanied him as far as the coast.

Mr. and Mrs. Ernest Taylor of Sandpoint, Idaho, were renewing acquaintances in Creston last week, making the trip by auto, and were guests of Mr. and Mrs. Stanley Patterson. Up till three years ago Ernie was a prominent figure in Creston baseball circles.

The attraction for Monday night, Labor Day, is the Rod and Gun Club Dance in the Grand Theatre Ballroom, with dancing due to start at 9 o'clock. Mrs. Lister's orchestra will supply music, and the admission is $1 to gentlemen, and 50 cents ladies, supper extra.

Prize lists for Creston fall fair will be available on Tuesday and copies may be had from the secretary, M. R. Joyce. The recent heavy rains should assure a showing of quality fruit in the later varieties of apples, particularly. Entries close Monday, September 27th.

Monday was probably the wettest August day the Valley has ever experienced. Starting in about 9 a.m. there was no let up to the rain for almost 24 hours, in which time an inch and a half of rainfall was recorded. It will help out a lot in sizing up the winter varieties of apples.

The Review is asked to correct a mistake in a local paragraph in our issue of August 20th. The Lewis French referred to as having been seriously hurt in an auto accident is not a brother of C. C. French of West Creston. The only brother he has resides in Kentucky, and his name is not Lewis.

Extra seating had to be brought in to take care of the crowd that turned out to hear Mrs. Ralph Smith in Trinity Church basement on Tuesday night, when she spoke in Creston in the interests of H. R. Gale, the Liberal candidate. The chair was occupied by J. F. Rose, president of the Liberal association.

The Liberals opened there committee room in the vacant store in the postoffice building on Saturday, with W. K. Brow in charge, and the men's Conservative headquarters is in F. H. Jackson store next the Auditorium. Now that the voters list has been posted the canvassing committees are down to work.

The Esling campaign in Creston Valley is to have a whirlwind finish, we are told. He will have but two days here and afternoon meetings as well as double appearances night will enable him to speak at Wynndel, Creston, Canyon, Lister and Kitchener. His Creston meeting is set for tonight at the Grand.

Rev J. Herdman and Fred Lewis were at Nelson at the first of the week, representing Trinity Church at the fall meeting of the presbytery of the Kootenay-Boundary United Church. Announcement is made that an ordained man, Rev. S. Fleming, has been appointed to succeed O. M. Samuelson in charge of the work at Yahk, Lumberton and Moyie.

D. K. McDonald of Spokane, who was in on Monday with a couple of Portland capitalists looking over the Creston Reclamation Company, Ltd., concession of 10,000 acres on Kootenay Flats, states that crops on the dyked lands at Bonners Ferry are the best yet, despite the unusually dry season. Some wheat is threshing out at 70 bushels to the acre, and oats at 125 bushels

Rev. A. Appelt is a Calgary, Alberta, visitor this week, where he is attending the pastoral conference of the Alberta and British Columbia District of the Ev. Lutheran synod of Missouri. On Sunday he preached the afternoon sermon at the 25th anniversary exercises at Immanuel Lutheran Church, Calgary. Mr. Appelt will return via Banff and the Windermere districts.

LETTERS TO THE EDITOR

That "Air of Sanctity"

EDITOR REVIEW:

SIR,—In your issue of last week you quoted: "Mr. Esling evidently thinks the customs scandal will go down better if he lends it an air of sanctity, hence the appearance of Rev. Canon Hinchliffe and Rev. F. B. Stacey on West Kootenay Conservative platforms."

I suppose, sir, that the Liberal party down the Fraser Valley thought much about the same when they appointed Rev. E. Manuel as their standard bearer for Chilliwack. And that the same thought was in the minds of the local Liberals when they secured the church at Wynndel as a meeting place on Tuesday afternoon. In fact I am not sure that the editor of The Review is quite guiltless of prescribing a small dose of sanctity to his cause, for I note that the sentence immediately preceding the above quotation is a reference to the Good Book. It looks to me, Mr. Editor, that the stove was calling the kettle black. FELIX.

[The "Felix" argument is a poor one in that no one, we hope, is accusing us of having Rev. E. Manuel nominated at Chilliwack, nor are we blamed by anyone for renting the church at Wynndel, and as for the phrase, "The handwriting is on the wall," being biblical it has come into such commonplace use that seldom, if ever, is it accored the customary quotation marks—and was so used by us. But with Mr. Esling we must insist that he was directly responsible for engaging his platform help, and anyone who knows Mr. Esling will feel sure that the Conservative candidate is too shrewd and too well informed as to West Kootenay's oratorical preferences to be using two men of the cloth—unless he had a special purpose to serve; which in this particular instance must be to give the customs scandal a standing in the campaign.—ED.]

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Sale Notes

Every Branch of this Bank undertakes to handle sale notes. You may discount them or leave them for safety, and whichever you do the Bank will notify the makers and make collection. You may be sure that the notes will receive every attention. 38

Tiffany Bread Wraps Create a Sensation

There's quite a stir in the baking industry over the new Tiffany Bread Wrap.

The secret of it is the fancy lace pattern in the wax paper that bespeaks higher quality—and the fact that the lace design hides folds or creases in the wax, keeping the loaf fresh looking.

The beauty of this wrapper makes an instant appeal to the housewife.

Each wrapper is an effective selling force wherever the bread is displayed.

Write for samples and prices to-day.

Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good Health insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in renewed vigor, increased energy to put into one's life work, and re-awakened enthusiasm and interest in life and all its manifold activities.

To the full extent possible people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charge for their services which are free to all mankind, rich and poor alike. Summer holidays, to be most beneficial, should not be spent in visiting crowded cities, but in the woods, beside lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People, who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and Eastern Canada, but for a most enjoyable and healthful invigorating summer holiday, no country surpasses and few can equal our own Dominion.

In the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is something to appeal to every taste and inclination of the human race.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada. For a real holiday a person needs a complete change of scene and an entirely different environment to that in which ten or eleven workday months are spent. In many of the older and thickly populated lands this is difficult to obtain without travelling long distances and at a cost beyond the means of the average person. But in Canada such a change is possible in a few hours journey with its great wealth of rivers, lakes, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with abounding natural beauty to inspire the poet, the artist, the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the dweller on the prairies of the West can at small expense obtain th greatest of all changes in his environment by spending his or her holiday in the Rockies, or journey a little further and bask among the beauties of Nature along the Pacific coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to a more united and understood Canada, take a holiday among the people of the other Province, while the holidaying citizens of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians not holidaying at home and learning more of their great Dominion, but, as already noted, this country takes second place to none as a place in which to enjoy Nature at its best, and in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore worn out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples it is necessary to travel. But half the enjoyment and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First" is, therefore, not only a telling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of he Dominion and learn of its beauties, its resources, its grandeur, its transcendant possibilities.

Purchases Exceed Sales

Russia Buys More From Great Britain Than She Sells

The council of the Russo-British Chamber of Commerce has published figures tending to show a steady increase in trade between Great Britain and Russia.

The growth is given as from £15,000,000 in 1922 to £58,000,000 in 1925. The report says Russian purchases from Great Britain slightly exceeded Russian sales in the British market. The latter consists almost entirely of foodstuffs and raw material, while the Russian purchases are largely machinery, tools, textiles and other manufactured goods.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

Bee Stings.

Minard's eases the pain and reduces the swelling caused by stings and insect bites. Keep it handy.

MINARD'S "KING OF PAIN" LINIMENT

Better Gasoline Promised

May Mean Increased Efficiency and Economy in Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. Sligh, of the U.S. bureau of standards.

The simplicity of the Sligh test is claimed to make it possible for refinery supervisors, by an easy graduation of oils under refinement, to produce without elaborate manipulation and increased expense, a "standard" gasoline meeting the specifications and giving the public more efficient, uniform, dependable gas without increase in price.

"My client is not mentally normal. The fact that he murdered his wife is partly a proof of that, but the fact that he traveled again is conclusive."

Find Magnificent Temple In East

Discovery in Indo-China Made By French School of Excavation

A magnificent temple, dating back to the early fourteenth century, has been discovered by the French School of Excavation, in the Far East, now working in Indo-China. The temple is described as the finest example of the art of that period yet seen, and the inscriptions upon it throw considerable light upon history.

Experts of the school have just reported to the institute in France that the temple is near Angkor Thom, and that other buildings of the same age probably will be uncovered in the vast forests north of the present excavations. These forests will be explored this year.

Another remarkable discovery was reported to the institute from the province of Tanh Hoa, Indo-China, where several Chinese tombs were unearthed, but not a single bone found. Precious objects in bronze and other metal were discovered.

Woman Will Attempt Flight Across Pole

French Actress Announces Intention To Try Trip This Summer

For years men have been seeking to locate the North Pole, and now the curiosity and itch for publicity has inspired a few of the other sex to dare the cold of the frozen lands. Miss Ida Rubenstein, a French actress, has announced her intention of flying across the pole this summer. In New York, another woman intends to gratify her craving for fresh experiences, and accompanying MacMillan's Polar party. Miss Maude B. Fisher, the aspirant for fame, is a graduate of Barnard College, and an athlete. "The quest for the unknown overshadows all fear," said Miss Fisher.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zeleski, foreign minister.

Whether the corn be old or new growth, it must yield to Holloway's Corn Remover.

Netted Small Fortune

Man Repaired Flag Poles In South Africa Preceding Visit of Prince

Hubert Kirkland, a South African, found his profession of steeplejack at a discount when the Prince of Wales decided to visit South Africa in 1924.

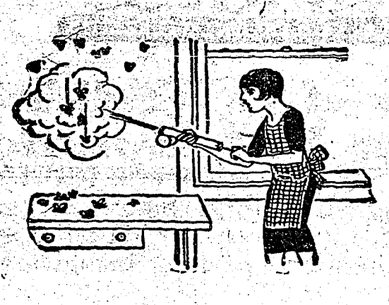
Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagstaffs, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make holiday.

He has now arrived in London from America after holidaying profitably and leisurely in Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Judgment Creditor (at the Bow County Court): The defendant has a dyeing business.

Defendant: A dyeing business? I did have, but it is dead.

Minard's Liniment for Sore Feet



Fly - Flit - Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills *all* the insects—and does it quickly. Get a Flit can and sprayer today.

Comparison By Total Tonnage

Only Way to Judge Naval Armaments Says France

France has proposed to the disarmament experts meeting at Geneva that the only way of comparing the naval armaments of the various countries is by total naval tonnage.

This raises the question of the effect adoption of the French thesis would have on the Washington naval agreement.

The significance of the French-Italian initiative is that both countries seek liberty to strengthen their submarine and cruiser forces which they deem more important to their national defence than battleships. Both United States and British delegates are hoping that the global tonnage conception will not interfere with the Washington accord. They believe that the ratios of capital ships established at Washington could remain the nucleus of such a tonnage programme.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Even if the meek do inherit the earth in accordance with the ancient prophesy, they'll still have the traffic cops to contend with.

Recuperative Powers Of Fish

Frozen Solid By Liquid Air Will Revive In Water

An audience in New York was treated the other night to an exhibition of the recuperative power of fish under injury by extreme cold. Professor Estabrook, of City College, transferred from a bowl of water into a jar of liquid air, two goldfish. Upon removing them frozen, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Plan Gas Attack Memorial

Survivors of the first gas attack by Germany on the Yser front, April 22, 1915, have taken steps that a monument be erected to those who were killed by the stifling fumes. The Duchess of Vendome heads a committee which has started the collection of funds for the monument.

Minard's Liniment for all pains

Of all the disagreeable fads known to mankind, the bill-collecting fad is about the worst.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher.
Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

Canada Occupies Foremost Place In Seed Improvement And In Handling Registered Seed

Canada produced a considerably larger quantity of registered seed of the principal farm plants in 1925 than in any previous year, according to a report just issued by Mr. Peter Stewart, secretary of the Canadian Seed Growers' Association. It grew 40,000 bushels more registered seed wheat last year than in 1924, eight thousand bushels more of seed barley and seven thousand bushels more of registered sweet clover seed. Increased production and ready sales of such seed, according to Mr. Stewart, indicates a growing appreciation of its qualities by farmers in Canada and in other countries.

A great deal of attention is given in this country to the provision of good seed for the farmers. Plant breeding is carried on by experts at agricultural colleges and experimental stations maintained by the Dominion and Provincial Governments. It is also practiced by a number of individual growers who, according to Mr. L. H. Newman, the Dominion cerealist, have contributed very materially to the improvement of the varieties of cereals and other farm plants commonly grown in Canada. The object of the plant breeding operations is to evolve varieties of grains, vegetables and fruits that are suitable for cultivation under particular conditions of climate and soil, and that will measure up to certain standards of quality and quantity of yield. For example, cross-breeding of various strains of wheat has been prosecuted for a number of years at Dominion experimental farms to furnish varieties that will stand a certain degree of frost and survive a certain period of drought, that will produce a large yield of grain of good milling and baking quality. As everyone in Canada knows this cross-breeding of wheat has had results of great value to the farmers and the country at large. Allied with the experts who evolve new varieties of plants are growers who multiply the seed of those varieties and supply it to the farmers. Many of these men whose business is to furnish good seed for the farmers are enrolled in the Canadian Seed Growers' Association, and in kindred organizations established in a number of the provinces. These men do work of great importance to agriculture in the Dominion.

Mr. L. H. Newman, the Dominion cerealist, has said that "among the nations of the world, "Canada occupies a foremost place in regard to its organization both for systematic seed improvement and for the handling of high-class seed in commercial quantities under efficient control." There are indications that that fact is realized outside the Dominion. Marquis wheat, originally evolved in Canada, is grown throughout a large part of the hard wheat area of the United States. Last year, a big shipment of Canadian registered seed wheat was shipped to Argentina to be planted by farmers there. Last year, too, the secretary of the Canadian Seed Growers' Association says, practically all of the supply of western-grown Canadian registered alfalfa seed was bought up by farmers of the middle-west section of the United States, who paid a considerable premium over the price of home-grown alfalfa seed plus a customs duty of four cents a pound.—The Mail and Empire.

Dairy Industry Expanding

In Few Years Manitoba Has Built Up Wonderful Business

Manitoba's dairy industry continues to expand. Starting with almost nothing 30 years ago, the provincial dairy production of 1925 reached nearly $14,000,000. The province won 44 per cent. of butter first prizes in 1925 and 34 per cent. of the total dairy prizes. The first export of butter was made in 1915 with 55 carloads. Last year it was 315 exported to Eastern Canada and the British Isles.

Bright Outlook

Husband can't understand why wife ever complains about anything when she has his coming home in the evening to look forward to.

Don't envy your neighbor's luck; envy his pluck, if anything.

Canada's Wheat Production

Will Reach Billion Bushels Annually Within Ten Years is Prediction

For five years Canadian wheat crops have averaged two bushels an acre more than those of the United States, says a bulletin issued by the International Institute of agriculture. The Dominion's world record of production has averaged 15.5 bushels per acre since 1920, while that of the United States has been 13.3.

The five-year average for the other principal wheat growing countries is: Argentina 13.3 bushels, British India 11.9, Australia 11.7.

The bulletin predicts that within 10 years, with the settlement of the Dominion's vast western agricultural lands, Canada's wheat production will reach a billion bushels annually.

Alberta's Striking Growth

Sunshine Province Shows Remarkable Progress in Last Twenty Years

Alberta's progress during the period of twenty years is a striking evidence of the growth of the west, and especially of the Sunshine Province, as follows agricultural production from $20,000,000 to $254,000,000. Wheat production from 3 millions to 103 million bushels. Area of all crops from 616,000 to 11,000,000 acres. Dairy products from 1,000,000 to $23,000,000. Coal production from 931,000 tons to 5,800,000. Manufactures from nearly $5,000,000 to $54,337,800. 1,000 miles of railway have increased to 4,800 and population from 200,000 to 640,000.

Saskatchewan Dairy Industry

Eleven New Creamery Plants Have Been Established This Year

Establishment of 11 new creamery plants in Saskatchewan to date this year in addition to replacements of old creameries sets a record not equalled since the dairy industry started in the province. New manufacturing plants have been opened at Regina, Moose Jaw (3), Swift Current, McNutt, Young, Parkside, Speers and Kelvington.

P. E. Reed, dairy commissioner for Saskatchewan, stated that there was room for debate as to whether such a big increase in the number of creamery manufacturing plants was altogether justified by the present volume of production, but if production was stimulated sufficiently to take care of the added overhead the industry as a whole would be benefited.

Safeguarding the Forests

Smiking In National Forests of Montana Strictly Forbidden

All smoking has been forbidden in the Kootenai national forest, Montana, as a safeguard against forest fires which recently have been increasing. If this regulation appears drastic it might be well to remember that the forest service has been trying for years to educate us not to be careless with fire in the woods, and apparently we have as yet not learned this first lesson in woodcraft.—Buffalo Courier and Express.

Johnnie, when asked by his people to define "deficit," said:

"A deficit is what you've got when you haven't as much as if you had had just nothing."

After marriage some women are as careless about their looks as men are about their actions.

New Vessel Is Chartered By Government For Annual Patrol Of Arctic Archipelago

Preparations for the 1926 patrol of Canada's Arctic archipelago are being made by the North West Territories and Yukon branch of the department of the interior, and it is expected that the annual expedition will sail about July 10. This year's visit to the far northern posts will be made in the SS. Beothic, a sealing vessel of 2,700 tons capacity, with a speed of ten knots. This ship was charatered for the trip from Job, Seal Fisheries Company, Limited, of St. John's, Newfoundland, to replace the C.G.S. Arctic, which is being retired from service. For the purpose for which she was built, which was to winter in the north in safety to herself and comfort to her crew, the Arctic could hardly be surpassed. She is past her prime, however, and with the gradual increase in the number of posts and the consequent heavier demands on ship accommodation a larger and speedier boat is required. The Arctic, certain accessories having been removed, has been turned over to the government salvage officer for disposal.

The Beothic, which has a greater speed and carrying capacity than the Arctic, was reconstructed last November at Newcastle-on-Tyne, England, for the seal fisheries. She was classed, for ice work A1 at Lloyd's and in her initial trip to the seal fisheries this year performing splendidly, returning with a record catch of 48,420 skins.

This year's expedition will sail from North Sydney, Nova Scotia, instead of Quebec. The posts already established will be visited and an effort made to complete the establishment of the new post at Bache Peninsula on Ellesmere Island, in latitude 79 deg. north. Owing to ice conditions last year the materials and supplies for this proposed post had to be left at Fram Havn, about fifteen miles south of Bache Peninsula. This summer the Beothic will pick up these supplies and attempt the passage of Rice Strait and the crossing of Buchanan Bay to the site of the proposed post. On the return journey, if time and conditions permit, the Beothic will also cruise up either Lancaster sound or Jones Sound. The ship is expected to return in late September or early October.

Mr. George P. Mackenzie will again be the officer in charge. One of the conditions of the charter party is that the crew of the Beothic will be retained. Captain Falk, its present commander, who has had considerable experience in the navigation of Hudson and Baffin Bays and adjacent waters will command the vessel. About ten members of the Royal Canadian Mounted Police will be taken north to relieve those coming out. Dr. L. J. Weeks, who accompanied last year's expedition as geologist, will also be included in this year's personnel. He, together with an assistant, Mr. Maurice Haycock, will establish a base at Pangnirtung, on Cumberland Sound. They will remain in the north until October, 1927, and during that time will gather geological and geographical information on the interior of Baffin Island. The other members of the expedition will be announced later.

New Paving Material

Experiments Now Being Made With Chips and Sawdust

Sawdust and wood chips are among the paving materials with which experiments are being made, says "Science Siftings." The wood is first treated with creosote, and then submitted to pressure, and tests already made are said to have given a floor suitable for medium traffic from a mixture nine parts of sawdust to one of Portland cement. In German experiments, great adhesiveness for cement concrete is reported to have followed giving the wood or sawdust a preliminary washing with curd soap and water, and then with a thin solution of silicate of soda.

More Money In Butter

Cream Yields a Little But Butter Is Better

Recently Mrs. Aline Baley, of Rose Isle, Man., received the returns from four gallons of fresh cream she had previously shipped to a local dairy company. The cheque was for $2.52. For an experiment, immediately on receipt of the cheque she made sixteen pounds of butter with four gallons of cream. She sold the butter at 40c a pound, or a total of $6.40. She made, thus $3.87 more with the same amount of cream.

"Have you wondered about your husband's past?"

"Dear me, no! I have all I can do taking care of his present and worrying about his future."

Planting

A seed company received from one man fifteen applications for free samples of their pea seeds, and when the sixteenth request arrived the manager decided it was time he did something.

"Dear Sir: I am sending you the seeds as requested; but what are you doing with so much? Are you planting your whole suburb with peas?"

A few days later he received a reply:

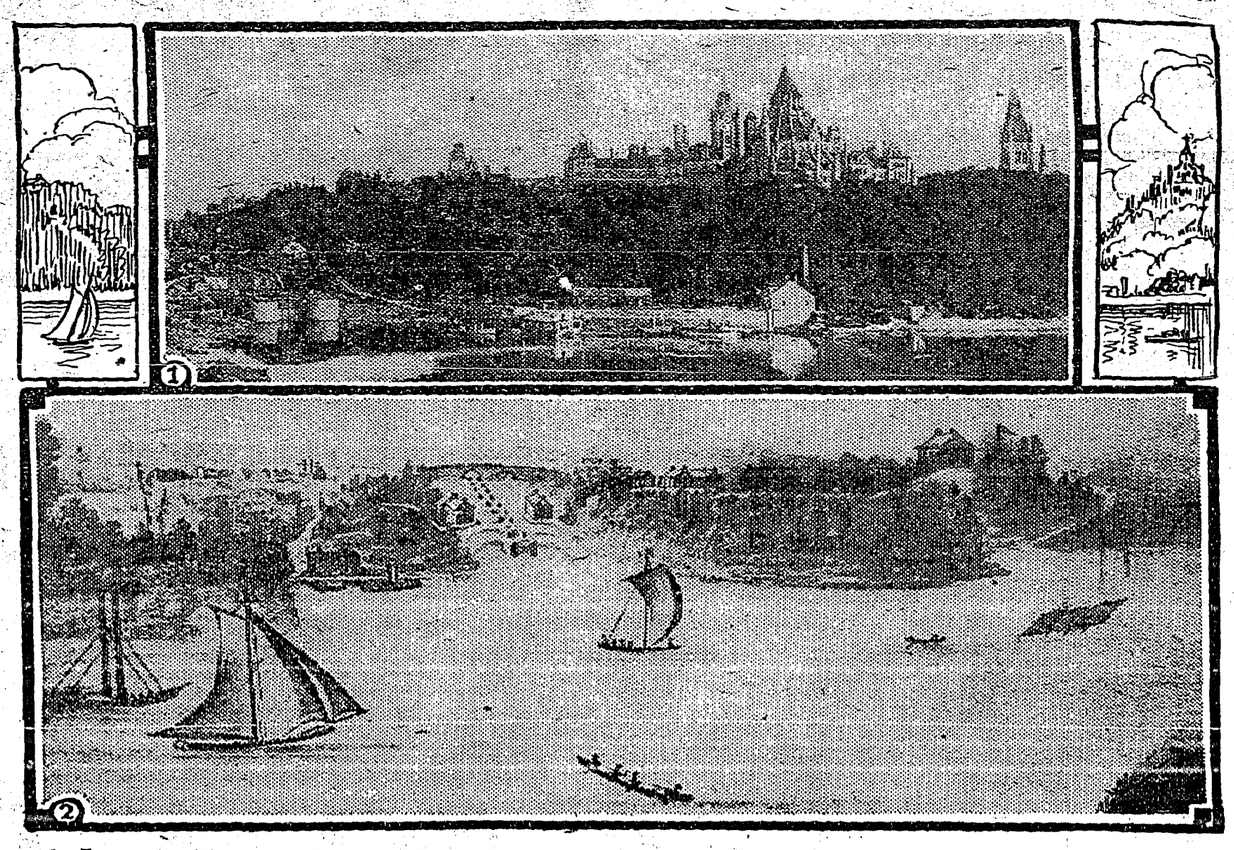
"No," it ran, "I am not planting them at all. My wife uses them for soup."

John Bull and France

Not only is it unfair that a heavy subsidy in relief of the French taxpayer should continue to be paid by the British taxpayer in the form of interest on the French debt; it is also most unreasonable that at a time when France makes such a large claim on our financial consideration, she should have increased against British goods a tariff which already was exceptionally high.—London Chronicle.

Teakwood is so durable that beams 3,000 years old are still strong.

Choice of Dominion Capital To Be Celebrated



1. Entrance to Rideau Canal to Ottawa River before fire destroyed Parliament Buildings. 2. Old entrance to Rideau Canal—Parliament Hill, as it looked 100 years ago; at right—from painting by Clegg at time of opening of Canal, 1826.

In the late summer of 1826, Lieutenant-Colonel John By, of the Royal Engineers, selected the spot where the Rideau Canal should enter the Ottawa River, and in so doing settled the site what afterwards became the capital of the Dominion of Canada. The centenary of this event is being marked this coming August, by a celebration which is expected to be national in character. The Dominion Government has already intimated its intention, not only of taking part, but of signalizing the occasion by extension of its works for the beautification of the capital. The celebration itself will include historical pageantry and will draw from the western plains a spectacular "Stampede" as illustrative of one of the historical phases of the development of that broad section of the Dominion.

In making his journey up the Ottawa, Colonel By was not planning for the capital of a Dominion, but striving to strengthen the defences of one of the outworks of the British empire. "During the war of 1812-15," says Hammett P. Hill, in a brief history of the construction of the Rideau Canal, "the British authorities experienced much difficulty in attempting the defence of the western part of the province. This was owing to the difficulties of transporting men and supplies from Montreal to Kingston, because of the rapids on the St. Lawrence River. They were also faced with the danger of a U. S. army blocking progress up the river by seizing some of the islands near Kingston. The cost of transport from Montreal to Kingston was also excessive, being fifty-four shillings per cwt.

This was the problem which Col. By came out to Canada to solve. He had spent nine years in this country after 1802, when he had been entrusted with the construction of the Martello Towers at Quebec and the rebuilding of the Citadel, and he had also superintended the construction of the Cedars Canal near Montreal. The task of building the canal to connect the St. Lawrence and the Ottawa Rivers, 126 miles in length, through uninhabited country, was gigantic at that stage of the development of the country, and its builder as an engineer of high rank.

The coming of railways has superseded it and rendered it practically useless as a carrier of traffic; but it rendered valuable service in earlier days for the settlement of the province of Ontario, both east and west.

Three years after Bytown became Ottawa, it was chosen as the capital of the old province of Canada.

The centenary celebration this summer will last two weeks, from August 16 to 28. The first week—August 16 to 21—will be devoted particularly to the centenary programme, which will include an historical pageant illustrating outstanding periods and events in the history of the capital. During the same period the Edmonton Stampede will give a daily programme; while arrangements are also being made for holding the Rudder International Power Boat races for two days of that week. Plans are not fully completed for the celebration, but among other proposals under consideration are the erection of a monument to Colonel By. The Dominion Government is also preparing plans for the extension of the Driveway which is such an attractive feature of the city.

SPORT ROADSTER

A dashing play car that once again demonstrates Chevrolet's ability to give Greater Quality at Low Cost. Finished in Duco, in three different color combinations with Vermillion wheels. The SPORT ROADSTER also features the following special equipment:

Genuine brown leather upholstery. Special Seat back and springs. Genuine Burbank top and side curtains. Top boot and tire cover in brown imitation leather to harmonize with the upholstery. Nickle plated windshield side arms. Windshield side wings. Automatic windshield wiper. Rear vision mirror. Bumpers, Bumperettes, scuff plates and stop lamp. Nickle plated head lamps and cowl lamps. Special radiator cap
