THE CRESTON REVIEW

VOL. XVIII. CRESTON, B. C., FRIDAY, NOVEMBER 19, 1926 No. 40

Erickson

Miss Ethel Brownrigg of Yahk, who has been visiting with Mr. and Mrs. Ed. Martin, has returned home.

T. W. Bundy is taking a few days vacation this month, leaving on Wednesday for Spokane. In his absence Mr. Vanerburg has charge of the depot.

Remember the initial whist and dance of the Wirlwind Club next Friday night, 26th, at the Littlejohn packing shed. Cards at 8.30 prompt.

Mr. and Mrs. Frank Bunt have just arrived from Walla Walla, Wash. and are to spend the winter with Herb Gobbett at his ranch here.

Mrs. Fraser and son, James, of Fernie, have been visitors with Mrs. Maxwell for the past few days, coming up for the marriage of the former's daughter, Annie, to Denzil Maxwell of Craubrook, which took place here on Monday.

Except for the l.c.l. outgo shipping is at an end for this season at Erickson. The outgo was in the neighborhood of 120 cars, or about treble 1925 shipping.

W. G. Littlejohn has been selected as the Conservative delegate from Erickson for the party convention at Kamloops next week.

Quite heavy shipments of poultry are being made regularly from Erickson at present, the fowl coming from the poultry ranch of C. A. Robinson at Canyon, who has certainly captured the market at Trail. One day last week over half a ton went out in one shipment and consists of turkeys, geese and chicken. From his own place he sends white turkeys and the chicken is all of the Rhode Island Red variety. In order to supply the demand he is buying poultry wherever it can be got.

Lister

Ed. Smith, who has been at his home here for the past few weeks, has just returned to work at the mine at Klockmann.

Principal Jenks was a motor visitor to Kuskanook on Sunday.

Bill Demchuk is the first Lister hunter to get a deer this season, bagging an eight-point buck, weighing about 200 pounds, one day last week.

Mervyn Williams of Trail is renewing acquaintances here this week, and is the guest of Mr. and Mrs. B-rd.

Ted Tedford is anether of the local residents to join up with the Winlaw bush crew in the Alexander timber near Creston.

Lister mustered half a dozen men in uniform, including Col. Lister, for the Armistice Day exercises at Creston on Thursday. The boy scouts also paraded in command of Principal Jenks. In the evening a number were again to town for the whist and dance.

Misses Zonia and Alice Demchuk were at Bonners Ferry a few days last week, guests of their sister, Mrs. Van Etter.

Lister had a business call this week from Mr. Godfrey, representing the Goodyear Rubber Company.

The report of Lister school for October shows the per centage attendance attendance at 90. Those making the highest standings are: Grade 8—Jack Bird. Grade 7—Charles Malthouse, Fred Yerbury. Grade 6—Billy Yerbury, Peggy Smith. Grade 3—Frank Yerbury. Grade 1a—Kirk Beard, Randall Smith. Grade 1b—Douglas Sinclair, Cyrill Birdi Perfect attendance—Kirk Beard, Jack Bird, Cyrill Bird, Charles Malthouse, John Malthouse, George Mitchell, Manning Powers, Douglas Sinclair, Frank Yerbury, Billy Yerbury.

AFTERNOON TEA Served

Everybody Welcome.

Wynndel

Mr. and Mrs. Jas. Wood were host and hostess to a party of friends for Thanksgiving supper on Monday last. Those invited were Mrs. McKelvey, Mrs. Hayden, Ray McKelvey, Creston; Mrs. Reed and Mrs. Anderson, of Alice Siding; Miss D. Butterfield, Mr. M. Wigen and Mr. E. LaBarge.

Ole Ringheim, jr., and W. Peterson were Spokane visitors a few days last week, returning on Sunday.

T. Dunseath made the return trip to Yahk on Wednesday last, accompanied by Mrs. Dunseath and the boys. The latter came back in the car the same night, but Mrs. Dunseath came home by train the following day.

Miss M. Severn, in charge of Division 2 of Wynndel school, was a weekend visitor at Creston.

Mrs. Beach of Cranbrook was a visitor here during the week, spending some time with Mrs. Grady and Mrs. Dunseath.

Miss Lily Lewis of Creston was a guest of Mrs. Slingsby.

Mrs. Mason and son, Wilfrid, returned on Sunday from Kimberley, where they had been visiting friends.

Saturday night's dance under the auspices of Mrs. Lister's orchestra, although quiet, was a success as far as numbers go, but it was decidedly shy of Wynndel representatives.

Monrad Wigen and M. Prosen left on Friday on trip to points up the lake.

Miss Florence Wood, who has been on the Fruit Exchange apple packing staff the past few months, returned home on Saturday.

Fraser-Maxwell Nuptials

A wedding of great interest in the district was solemnized at the home of Mrs. James Maxwell on Monday afternoon when Rev. J. Herdman united in marraige Miss Annie M. Fraser, of Coal Creek (Fernie) and Denzil Maxwell of Cranbrook, youngest son of the late James and Mrs. Maxwell, of Creston. The home was appropriately decorated for the occasion and the ceremony was witnessed by a company of the immediate relatives and friends of the contracting parties. The bride wore a stylish costume of satin de chene trimmed with georgette and lace, and was assisted by Miss Jessie Fennessy of Cranbrook, the bridesmaid's gown being of blue and gold palette silk. Robert Maxwell, brother of the groom, was best man. After the ceremony the guests were entertained at a wedding dinner, the happy couple leaving on the westbound train on a wedding trip to coast points, the bride going away in a costume of lanvin green faille with hat to match. On their return they will make their home at Cranbrook where Mr. Maxwell is employed with the C.P.R., and best wishes from a host of friends is extended for a long and happy life.

Canyon City

Miss Lily Cook was a weekend visitor with friends in Cranbrook.

Reid Hurl, who has been helping with the Saskatchewan harvest and threshing operations, arrived home at the end of the week.

Andy Wickholm has connected up for a winter's job—with the crew J. B. Winlaw is operating in the Alexaeder timber near Creston.

Myles Hurl, who has been an appendicitis patient at Cranbrook hospital for the past two weeks, is recovering so well that he will probably be home before the week is out.

J. W. Wood was at Cranbrook at the end of the week, arriving back on Saturday with Mrs. Wood, who underwent a serious operation at St. Eugene hospital, and who is on the highway to a complete recovery.

Mr. and Mrs. VanAckeran were weekend visitors with friends in Cranbrook.

Nels. Larson, who is working at Yahk, spent the weekend at the ranch in Canyon.

Canyon's population increased by three during the past week—all boys A pair of twins arrived to our Russian citizens, Mr. and Mrs. Kook, and the other arrival was to Mr. and Mrs. Kanio, the Japs, who are occupying their ten-acre ranch about opposite the postoffice.

There was a very fine congregation out on Monday night for the United Church harvest thanksgiving service here, which was in charge of Rev. J. Herdman. The address and music was most appropriate and the edifice looked handsome decorated with foliage, fruit and vegetables.

The United Church Ladies' Aid scored an other success at their Thanksgiving dinner and concest which was put on in the community hall on Friday night. Everything seasonable in the eating line was served in faultless fashion at the supper, and with Miss Muriel Knott responsible for the concert it goes without saying teat the programme was an enjoyable one throughout. The chair was taken by D. T. Scrimgeour of Creston.

Kitchener

Mrs. B. Johnson has just returned from a short vacation spent visiting with friends at Moyie, Lumberton and Cranbrook.

Zenon Geroux, who has been working at harvesting and threshing in the Claresholm, Alberta, district for the past three months, returned to his home at Kitchener on Saturday.

Mr. and Mrs. Dan McDonald, who have resided here for the past three years, have just moved to Creston, where they will reside in future. They were very popular residents, and will certainly be missed. Here's wishing them the best of luck.

Mr. and Mrs. Arthur Simpson are back from Macleod, Alberta, where they have been during harvest. Their son, Lewis, retnrned with them.

Miss Edith Cameron of Moyie is here on a visit of a couple of weeks with her grandmothea, Mrs. Z. Geroux.

Rev. A. Appelt, Lutheran minister at Creston, was here on Sunday and took service in the schoolhouse, which was well attended. While here he was the guest of Mr. and Mrs. N. P. Molander.

Mr. and Mrs. Omer Geroux and daughter, Joan, made a business trip to Creston on Sunday, and while there were guests of Mr. and Mrs. Andy Lovestrom. They got back on Monday.

Miss Mary Haptonstall of the McConnell Hotel staff, was a Friday and Saturday visitor with her parents at at Creston.

Misses Clara Hunt and Mildred Andeon, from Creston, spent the weekend at their home here.

A. G. Colquhoun of Cranbrook, J. M. Fife of Calgary, Alberta, and Messrs. Alex. Derby, S. Fernside and C. R. Ward of Cranbrook were amongst the business callers last week.

Miss Marguerite Crawford spent the weekend at her home in Creston.

Mr. and Mrs. C. Davis of Rykerts, and J. F. McNamara of Porthill, the boundary customs officers, were business callers on Wednesday.

Remember the dance on Saturday, 20th. Mrs. Lister's orchestra will play. A good time for one and all.

L. Guilmette and G. Betus, who have been away for some time at prairie points, returned on Wednesday last and are planning to spend the winter here.

Mr. and Mrs. Bert Sly and daughter of Cranbrook were motor visitors here on Wednesday. Norman Cassel of Calgary, Alberta, was another business caller on Wednesday. A. L. Whitford, the Rawleigh man, of Cranbrook, was here on Sunday.

Geo. Strong of Canyon w.s here between trains on Wednhsday, visiting his son, Bill. Chas. Draper of of Calgary, Alberta, was a business caller on Friday.

A. Ragotte made a flying business call at Creston on Monday, getting back the same day.

Miss Rendall, principal, has issued the October report of Division 1 as follows: Proficiency, Grade 4—Grace Strong. Grade 5—Marjorie Strong. Grade 6—Richard Molander. Grade 7—Claude Simpson. Grade 8—Ludwig Anderson. Most improvement in writing—Vera McGonegal. Regularity and punctuality—Clarence Anderson, Nettie Androsoff, Wesley Blair, Willard Blair, Dennes Bush, Vivian Langlois, Richard Molander, Beatrice Molanker, Edith Nelson, Claude Simpson.

For Division 2, Miss Crawford's report shows: Proficiency, Grade I Junior—Lee Strong, David Cowley. Senior 1—Fred Androsoff, John Cowley. Grade 2—Dorothy Hamilton, Laura Androsoff. Grade 3 Junior—Marie Arb, Mary Androsoff. Senior 3—John Nelson, Celina Langlois. Perfect attendance—Frank Abar, Myrtle Anderson, Laura Androsoff, Mary Androsoff, Marie Arb, David Cowley, John Cowley, Dorothy Hamilton, Celina Langlois, John Nelson.

Local and Personal

BARGAINS—Three S.C. Rhode Island Red cockerels, 309-egg pedigree, $3.00 each. White Leghorn March cockerels, $5 each. If you have any clean Alfalfa Leaves my price will interest you, Don. Bradley, Creston.

Friends of Dr. Lillie will be very glad to hear that he is making quite a satisfactory recovery from a critical operation he underwent at the General Hospital, Calgary, Alberta, last week, but it will be about three weeks before he will be able to return.

Roast chicken, pumpkin pie and all the other Thanksgiving dinner good things to eat will be on the menu at Trinity United Church Ladies Aid dinner on Thursday night, Nov. 25th, in church basement from 6 to 8, with an admission of 50 and 25 cents.

Tonight's attraction is the Sunday school concert to be followed by cards at the Parish Hall under the auspices of the Anglican Sunday schools of Creston and Erickson. An attractive programme has been prepared, and the admissiou is 50 and 25 cents.

R. A. Brotherson of the Brotherson Electric Company, Calgary, Alberta, was here on Wednesday and made a careful survey of the town with the intention of submitting a complete plan for the installation by a local company-owned electric light plant for Creston.

At the November meeting of Creston Board of Trade on Tuesday last, complaint was entered at the slim attendance and lack of interest in board meetings, and the secretary was instructed to take a mail vote of the membership to see whether they wanted the board to continue to function.

The B.C. Conservatives are having a convention at Kamloops on Tuesday to select a provinial leader to replace R. H. Pooley. This district will send six delegates as follows: Col. Fred Lister, M.P.P., Major Mallandaino, C. O. Rodgers, R. Stark, W. G. Littlejohn of Erickson, and Hilton Young, Canyon.

J. C. MacDonald of Victoria, the B.C. comptroller of water rights, was a Creston visitor Monday and Tuesday, making an inspection of the proposed diversion of the Goat River into the Kooteny, and also making an inspection of the dyke line of Creston Reclamation Company, Limited. In company with C. F. Hayes and R. S. Bevan he visited Porthill and Bonners Ferry to get firsthand information on dyking operations on the Idaho side.

Hon. T. D. Pattullo, minister of lands, took the air at Creston on Tuesday en route to Cranbrook. He is up country holding a series of open conferences on forestry work. The cabinet have had the Arrow Creek irrigation loan under consideration but no decision has been arrived but Mr. Pattullo is hopeful of a favorable decision when it is broached again on his returd to the capital about the middle of next week.

Alice Siding

Bob Miller, who has been working at Alberta points during harvest and threshing, arrived home a few days ago.

Two Alice Siding artists, Mrs. Constable and Ron. Smith, provided the the music for the Armistice night dance at Creston. At the whist drive that preceded dancing Mr. Hester captured the gents' high scose prize at bridge.

Mrs. Harry Reed left a few days ago for Columbia Gardens, where she is making a visit with Mrs. Barbour, a former resident of Alice Siding.

Dick Smith, who is branching out as a poultryman, has just completed the erection of a very commodious poultry house, and is expecting his pullets to break some of the existing winter egg laying records.

Ron. and Hector Stewart are at the head of a party from here who are out in the Rolfe mountain country in quest of their season's legal allowance of venison.

Mrs. Webster is just in receipt of word from her daughter Miss Louise, who has been in Vancouver the past few years, that she is leaving at once for Los Angeles, Calif., where she has accepted a responsible position.

Ore shipments from the Alice mine are expected to continue for some time yet. A shed to accommodate the ore is being erected on the team track at Creston, near the Imperial Oil Company tanks.

Over 30 years a standard wherever good tea is liked.

What Trade Treaties Mean To Canada

The tumult and the shouting is over, the ballots have been cast and counted, and the standing of the two major political parties in the House of Commons has been reversed. Whereas in the last short-lived Parliament the Conservatives held 116 seats and constituted the largest group, in the new Parliament, Liberals have, at the time of writing, 118 seats and are the largest group. In addition there are 11 Liberal-Progressives elected pledged to support a Liberal Administration.

In other words, in the new Parliament, unlike the old, there is a clear majority of members returned in support of one particular leader and who accepted nomination at the hands of conventions of the Liberal party. That is, the complexion of the new House of Commons makes possible a more stable form of government than existed in the last two Parliaments.

Then, over and above, the clear-cut majority of the Liberal and Liberal-Progressives united in support of a Liberal Administration, numerous Progressives, Independents, Labor and United Farmer members, practically all of whom represent Western constituencies, can be depended upon to give fairly consistent support to a Government pledged to the carrying out of Liberal policies.

Now that the battle is over, and the general verdict of the electors obtained, even those who would have preferred to see Mr. Meighen and his party victorious will find a degree of national gratification in the fact that the result has been fairly decisive and the stalemate, which has prevailed for so long to the disadvantage of the whole country, broken. It is what both of the major political parties desired and asked for, and what it has been demonstrated a majority of the constituencies wanted.

And now to business. Let everybody settle down to the task of assisting Canada to overtake such ground as may have been lost owing to the uncertainties of the situation in the past and grasp the splendid opportunities which are open to the Dominion.

In this column last week the view was expressed that whatever party was placed in power it should devote its energies to the further promotion of the policy of negotiating trade treaties with other countries, and particularly with all other sister nations within the Empire, and thus open to Canadian products and manufacturers larger and more profitable markets. We now desire to repeat and to emphasize that declaration. Since it was written a week ago, evidence has accumulated to demonstrate its wisdom.

On the day of the election a large display advertisement—not of political character—was inserted in Canadian papers by one of the largest automobile manufacturing concerns in the Dominion. It was headed: "The Millions Gained by Export are Millions Saved for You," and it went on to point out that it was owing to the rapid increase in its export business that reductions in price had been made possible in Canada, because of the enormously greater volume of production and consequent increase in efficiency and in lower production costs. It was not a tariff shutting out competition which had brought increased prosperity to this firm, but the opening of new and wider markets abroad through trade treaties, and leading to greater production, larger purchases of materials in Canada, and the employment of many hundreds more of Canadian workers.

More evidence of a similar nature is found in an article by the chairman of the British Columbia Division of the Canadian Manufacturers' Association who gives a long list of both direct and indirect benefits accruing to Canada from the recently negotiated treaty with Australia, and which he estimates means the gain of a $70,000,000 market for this country. This Manufacturers' Association official makes a strong plea for a continuation of this policy of negotiating trade treaties, and, above all, that a stop be put to the making of a political football out of such matters.

It is right and proper that such treaties should be carefully examined and fully discussed by Parliament and the people of Canada, but when they have been approved and put into effect the efforts of petty politicians to try and create party capital against the Government of the day by seeking to arouse one set of people against the treaty because of some one particular item in it, and another set because of some other item, instead of viewing the treaty in all its nation-wide aspects, should be frowned upon and resolutely opposed.

Canada produces a surplus of nearly everything raised in this country. If Canada is to prosper and grow greater, and employment found for an ever increasing number of people, that surplus must be profitably disposed of in world markets. In order to obtain entry into those markets on the most advantageous terms, Canada must offer some concessions in return. That is only business, and the same principles must govern in international business as in private and domestic business relations.

Canada Is Looking For Wheat Honors

Saskatchewan Man Is Competing In Show At Chicago

In commenting on the announcement that J. C. Mitchell, of Dahinda, Saskatchewan, will compete this year for wheat-growing honors at Chicago, the New York Sun says:

Montana supplied to the world its champion wheat grower last year, when L. P. Yates, of Fishtail, in that state, captured the title at the International Grain, Hay and Stock show in the autumn in Chicago, but Canada does not intend to let the honor stay south of the international boundary if its farmers can drag it north. This international competition was instituted fifteen years ago, and Canada has taken the blue ribbon thirteen times. Seager Wheeler succeeded in finding top place five times. Nobody else touches Mr. Wheeler's record in this achievement, although Mr. Mitchell has won three times.

For Faster Trains

Railroad trains will be able to compete with aeroplanes in speed when ballbearings are used on coaches, engineers believe. To make such high speed safe, the rails must be set in a solid roadbed and several miles of this track is to be built at Detroit for experimental purposes. The concrete will be 18 inches thick and 10 feet wide. Such construction would allow an enormous saving in most operating costs, it is said.

Invention Of Russian Scientist

New Method to Extract Many Products From Coal

From 500 tons of coal a Russian scientist would extract, by a new method which he has invented and which is being seriously considered in Great Britain, the following products:

2,000 gallons of gasoline.
6,500 gallons of kerosene.
3,000 gallons of lubricating oil.
12,000 pounds of paraffin wax.
20,000 pounds of phenol.
45,000 pounds of pitch.
12,000 pounds sulphate of ammonia.
12,000 pounds of sulphur.

And even after that he would have left 374 tons of smokeless fuel that would give a greater heat than coal. Dr. Paul Dvorkovitz, the inventor of this process, is said to have interested British financiers and engineers in the project.—New York World.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly, it takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Arctic Specimens For Ottawa Museum

Thirty packing cases and bags of scientific specimens from the Canadian Arctic, including thousands of specimens from Baffin Island, have recently arrived at Ottawa for the Nation Museum.

WORK WORN PEOPLE

Find New Health By Improving Their Blood

If you feel run down, it means that your blood is thin and watery, that your vitality is low. You do not sleep well and are tired when you rise in the morning. You find no pleasure in your meals and are listless and dispirted at your work. You have no energy to enjoy yuorself.

Thousands of men are run down by anxieties of work. Thousand of women are broken down by their household toil, with tired limbs and aching backs thousands of girls are pale, listless and without attraction. It all means the same thing—thin and watery blood, vitality run down, anaemia, poor appetite, palpitating heart, short breath.

Do not submit to this. Get new blood and with it new vitality. There is no difficulty in doing this. Dr. Williams' Pink Pills build up and enrich the blood, which brings with it new health and vitality. The man, woman or girl who takes Dr. Williams' Pink Pills is never run down. Their friends notice how energetic they are, what a fine appetite they have and how much they enjoy life.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Passing of the Horse

Aldridge's famous horse mart in the centre of London, has conducted its last auction sale of horse flesh. From now on Aldridge's which was founded in 1753, will devote itself to auctioning automobiles.

It will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Eclectric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

A French tire company is building in Stoke-on-Trent, England, a factory that will employ nearly 10,000 people.

Many a man would talk less about justice if there were a remote possibility of his getting it.

After Shaving.
Rub the face with Minard's mixed with sweet oil. Very soothing to the skin.
MINARD'S "KING OF PAIN" LINIMENT

When Your Meat Reaches the Home

Have the juices soaked through the wrapper—is the meat tainted by odors and stuck with pieces of ugly paper? Or is your meat kept in perfect condition by Ajax or Hercules wraps?

Either kind is wax-coated to guard the flavor of the meat. Either kind does away with the expense and bother of an inside waxed sheet.

Butchers should write us for samples and prices.

Important Scientific Discovery

Claim Nickel and Cobalt Benefits Cases of Diabetes

Professor Gabriel Bertrand, director of the biological chemical laboratory of the Pasteur Institute, Paris, is the authority for the announcement before the American Chemical Society that experiments with nickel and cobalt have produced encouraging results in the treatment of diabetes.

Experiments conducted by Prof. Bertrand and associates, he stated, first with nickel or cobalt alone and then with a mixture of the two have met with results sufficiently encouraging to cause continued experiments.

The biological expert stated that they have found cases of simple diabetes, excluding the consumptive type, could be benefitted, sometimes to the extent of the complete suppression of the sugar output.

The two metals, the professor added, had been found present in the human body especially the pancreas gland.

Minard's Liniment for bruises

Achievement In Europe

Lady Astor Tells Americans They Should Rejoice

Americans should rejoice in Europe's post-war progress rather than "hold up their hands in horror at the present situation," Viscountess Astor, M.P., declared in New York.

The admission of Germany into the League of Nations, with "the world's greatest war only eight years over," she said, was an achievement of which Europe was proud, "no matter what you in America think."

In her address before the National and New York League of Women Voters, Lady Astor said that while "many thinking people" believe the United States has taken the wrong course in the matter of international debts, she was not "discouraged by national or international mistakes." Nations learn from their mistakes—at least some do," she said, "and there is no reason to be downhearted."

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

The First Air "Sleeper"

Was Operated Recently By Germans Between Berlin and London

London saw its first flying sleeping car recently when a German aeroplane arrived at Croydon from Berlin. It was the Albatross L-73, a twin-engined biplane capable of rushing almost silently through the night with four persons sleeping in luxurious berths in the cabin. The passengers' cabins have electric lights and running water and by day the berths can be converted into seats.

Dr. Ruth, of the Albatross company, designer of the plane, was aboard when she arrived in England.

Minard's Liniment for toothache

New Markets For B.C. Timber

The province of British Columbia contains two-thirds of the merchantable saw-timber in Canada, says the natural resources intelligence service. Since the opening of the Panama Canal many new markets have been developed for Pacific Coast lumber. In fact, several enterprising companies ship Douglas fir and other valuable British Columbia woods by boat to the St. Lawrence River and there saw them up into lumber for distribution throughout the Eastern States and Canada.

Great Britain Honors Clever Chinese Girl

Made "Member of British Empire" For Educational Work

The first Chinese woman to be made a "Member of the British Empire," is Miss Foonyee Catherine Woo, principal of St. Paul's Girls' School of Hong Kong. King George has conferred this honor on Miss Woo for her educational work among girls and women.

Miss Woo was educated at the Fairlea School, Hong Kong, the Clapham High School, England, and Charwell Hall, England, where she received her teacher's diploma. In ten years she has built up her school until there are 700 girls on the roll and the British Government in Hong Kong has granted her a site for a new building.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relievivng the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Has Enough Radio Sets

Japan's huge demand for radio sets has apparently been satisfied. There has been a sharp decline in the demand for radio sets from that country. Previously Japan was one of the largest importers of sets.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

People who have good sense in most other particulars, sometimes really believe that all their friends are fond of them.

Beware of Constipation It Is The Cause of Many Ailments

—The Shaw Studio

Hamilton, Ont.—"For many years I have used Dr. Pierce's Pleasant Pellets, and always keep a bottle in the house for use when needed. I would not think of being without them. If I have a bilious attack or suffer from a bilious sick-headache, I take the Pleasant Pellets' and they always relieve these spells. They are the mildest and the best laxative or cathartic that can be had. In fact, they are an excellent regulator of the stomach, liver and bowels. I always recommend them for constipation. There is nothing better."—Mrs. Elizabeth Anderson, 9 Margaret St. All druggists.—60 Pellets for 30c.

Write Dr. Pierce's Clinic in Buffalo, N. Y., for free medical advice no matter what your ailment may be.

182

To Build Mills In Canada For The Manufacture Of Artificial Silk From Pulpwood

When we gaze on a great forest tree it is not easy to visualize it in terms of rich cloth and silken raiment. And yet man, not content with silk, cotton, wool, linen and a number of lesser sources of clothing material, now employs wood for the manufacture of the latest textiles—artificial silk, or rayon, as it is called by the trade. The basis of all artificial silk is cellulose, and cellulose is the principal constituent of wood.

As long ago as 1889, Count Hilaire de Chardonnet produced artificial silk commercially, but it has taken many years of incessant labor to bring the various processes to that stage of perfection which is essential to commercial success. That the industry has now become a great undertaking is shown by the fact that the world's production in tons has arisen from 7,500 in 1909 to an estimated 100,000 for this year.

The general principle underlying the manufacturing methods is the treatment of the cellulose with chemical re-agents to give a gelatinous solution which can be forced through a number of minute nozzles into a bath of solution (or in one process into air). This solution causes the coagulation of the liquid emerging from the nozzles and thus creates the actual filaments of artificial silk, though the material has to pass through several other stages, varying with the process, before it finally emerges as that glistening transparent gossamer to which we are now so accustomed, but which would have amazed many a nineteenth century grandmother.

The possibilities for rayon manufacture in Canada, with her vast pulpwood areas, are enormous. The countries which were first to develop the industry, however, were not those which possessed much raw material, but those which already had the organization, the equipment and the markets for a big textile industry. Thus, shortly before the war, France, already predominant in the manufacture of natural silk, took the lead, followed by Switzerland. Now the big producers and exporters are the United States, Great Britain and the countries of Central Europe that are prominent in the natural silk trade.

For a good many years Canada has supplied much of the sulphite pulp used for that purpose in these countries. In 1922 the natural resources Intelligense service of the Canadian department of the interior published a report drawing attention to the unusually favorable conditions for the development within the Dominion of artificial silk manufacturing in its entirety. The following year Courtaulds, Ltd., largest manufacturers in the United Kingdom, sent engineers to Canada to investigate these representations, with the result that a plant was established in Cornwall, Ontario, in 1924, at a cost of $2,500,000.

This would appear to be but the preliminary of many others. Canadian Celenese, Ltd., capitalized at $7,000,000, is now constructing a plant at Drummondville, Quebec, and the Howard Smith Paper Mills have formed a subsidiary company called the Canadian Cellulose Company, which will be operated at Cornwall, Ontario. A new concern, the Canadian Rayon Pulp Conipany, is erecting a $2,000,000 rayon plant at New Westminster, B.C. The B.C. Pulp and Paper Company, formerly the Whalen Pulp and Paper Company, operating pulp mills in British Columbia, has been carrying on chemical research for some time in the utilization of hemlock for the production of cellulose and certain results and conclusions have been reached which, it is stated, may determine the company to proceed with installation of a new plant for the manufacture of this sort of pulp. Many other companies variously located from the Maritime Provinces to the Pacific Coast are also taking steps or considering means to enter this field which is so profitable, so large, and which Canadian resources, both of wood reserves and natural power supplies, are particularly adapted to support.

It isn't easy for a man to keep cool when it is up to him to choose between the frying pan and the fire.

Win Butter Prizes

Saskatchewan Buttermakers Are Successful At Toronto Exhibition

Saskatchewan buttermakers won many prizes at both the Canadian National Exhibition at Toronto and the Central Canada Exhibition at Ottawa. At both exhibitions the prizes were awarded on the group system and Saskatchewan buttermakers were near the top of the list in practically every class.

"Saskatchewan won 17 prizes, seven of which were firsts, at the Canadian National show, an accomplishment of which Saskatchewan buttermakers may justly feel proud," said P. E. Reed, provincial dairy commissioner, in commenting upon the success of the creameries of this province at the big eastern fairs, coming on the heels of the big winnings recently at Vancouver. The showing at Ottawa, where there were not nearly so many entries from this province, is also said to be very creditable.

Influenza In North

Taking Heavy Toll Among Natives Near Arctic Circle

Influenza is taking a heavy toll among the natives of Canadian and Alaskan territories bordering on the Arctic Ocean, according to Captain Karl Klenenberg, owner and master of the fur trading schooner Old Maid No. 2, which returned to Vancouver from a voyage as far as Victorialand.

In a sparsely settled district near Herschel, according to the captain, one hundred men and women had died when he was there in July, and at Coronation Gulf, there had been thirty-five deaths and many were seriously ill.

Although the captain said the fur catch in the western arctic last winter was not good, owing to the sufferings of the natives of influenza, he expected his fur cargo to be worth $100,000. He plans to dispose of it on the Seattle Fur Exchange.

Strawberries In Saskatchewan

Grown In Commercial Quantities In the Nipawin District

Strawberry growing in commercial quantities north of latitude 53, is the pround accomplishment of the Nipawin district in Saskatchewan. The plant has been successfully grown there for the past 12 years, but owing to lack of transportation facilities until the autumn of 1924, when the Tuffnel-Prince Albert extension of the Canadian Pacific Railway was completed, it did not become a commercial industry.

In 1925 several thousand 25-quart cases were shipped, some of them finding their way as far as Winnipeg and Regina. This year the production is expected to be nearly duoble that of last season.

Maple Sugar Output

Unseasonable Weather Cuts Down Production This Year

Owing to the unseasonable weather during the tapping season, the production of maple syrup and sugar in Canada this year showed a decrease as compared with the figures for the previous year. The quantity of maple sugar produced in 1926 amounted to 7,137,303 pounds, valued at $1,320,837, as contrasted with 10,496,262 pounds, worth $1,847,672 in 1925. Maple syrup output totalled 1,746,570 gallons, valued at $3,575,538, as against 1,673,093 gallons, valued at $3,440,226 last year. The province of Quebec continues to produce over half of the total Dominion production of maple syrup and sugar.

Couldn't Fool Him

A woman was having difficulty in teaching her new Chinese servant how to receive calling cards. She went outside and entered her own card. The next day two women callers presented their cards. Comparing them with that of his mistress, the Chinaman replied, "Tickets no good. Can't come in."—The Outlook.

The one country in Europe that lies outside the pale of copyright is Jugoslavia.

Add Billion To Income

Products Of Farms of Western Canada Add to National Wealth

In a recent dispatch to the Toronto Globe, W. L. Smith, special correspondent of The Globe, and a former editor of the Farmer's Sun, estimates that approximately $1,000,000,000 will be added to Canada's income this year, directly and indirectly, from the products of the farms of Western Canada.

Last year's wheat crop was worth $400,000,000 to the growers, and it put the west in the prosperity column. Mr. Smith believes it is a fair assumption that this year the return will not be less. "Western Canada is going into general farming more fully than in the past, and livestock, poultry, dairy products and vegetables will pile up the money returns at every point of handling. Altogether a round billion is in sight," states Mr. Smith.

The prospect is encouraging for the whole of Canada. Last year the field crops of the country were valued at $1,112,691,000. The east this year will again increase materially the west's contribution to national wealth.

Will Pay Prizes

Alberta Department of Agriculture Will Grant Honorariums to Prize Winners

The usual honoraria for grand championships and first prizes won by Alberta exhibitors at the Chicago International Exhibition to be held the first week of next December, will be paid this year by the Alberta department of agriculture. The honorarium for a grand championship is $150, and for a first prize is $100, in the International Hay and Grain Show. The exhibits from Alberta for this show will be collected by the department at the government seed cleaning plant, and the department will pay the freight or express on these exhibits from Edmonton to Chicago and return, and will arrange to put the exhibits in place. The special prizes offered by the department are for threshed grains, grass seed, clover seeds, baled hay, alfalfa, corn on the cob, etc.

Desirable Trait in "Huskies"

One of Most Important is Learning to Halt On Command

In Alaska a good team of "huskies" now brings $500 to $700, depending upon their strength and the efficiency of their training. One of the most desirable traits in a dog used for team work is his training to halt immediately upon command. Prompt halting is necessary because the great danger of sled travel is the air holes in the ice. To teach them they are often allowed to plunge into an ice hold trap so that the chilly bath may be remembered.

Farming Is The Fundamental Source Of Canada's Wealth And Basis Of Our Prosperity

Prefer Canadian Wheat

Purchasing Agent From Cuba Buys Canadian Goods

Canadian hard spring wheat is preferred to all other varieties in Cuba according to J. E. Gonzales, purchasing agent for the Government of Cuba, who was recently in Montreal buying Canadian goods for his country. The annual exports of Canada to Cuba total in value nearly $9,000,000. When in Montreal, Mr. Gonzales arranged for the purchase of $3,725,000 worth of potatoes for later delivery. He will also buy quantities of flour, hay, oats and other products.

It will be only a few years before the annual Cuban consumption of Canadian grain will assume much larger proportions, said Mr. Gonzales. A project was on foot to erect large flour mills at Havana, and, when those were finished, the demand for Canadian hard wheat would be more than quadrupled.

Should Eat Little Meat

Drink More Milk and Add Eight Years to Life

By drinking more milk and eating less meat men could add eight years to the "part of his life worth most to himself and to the world." H. C. Sherman, professor of chemistry at Columbia university, stated in a recent address.

The adequate diet determined by recent research work in nutrition, he said, prescribes more milk and less meat to increase individual efficiency and vitality. The public health movement promises to augment the life span by eight years, and this increase could be doubled. Professor Sherman thinks, by a universal shift in diet.

Honey Yield In Alberta

Beekeeping Business Has Yielded Good Returns This Season

The beekeeping business of Alberta which is centred mainly in the irrigated district around Lethbridge and Stirling has brought good returns this season. In the locality named the yield is estimated at more than a hundred tons from 3,000 colonies. Last year most of the local honey was wholesaled at 15 cents per pound. This year a price of better than 16 cents is being received despite the larger local crop. This is due to the fact that the Ontario crop of white honey is only 40 per cent. of last years output in that province.

A tour through any good agricultural section of Canada in the fall of the year impresses one with the fact that the greatest and most inexhaustible source of Canada's wealth is in Canadian soil. The countryside is one great panoramic picture of grain crops, growing forage and livestock feeding contentedly on a thousand hillsides, meadows and pastures. The actual cash value of all this production exceeds two billion dollars annually, and strange as it may seem this huge mass of wealth is achieved without exhausting any natural resources or depleting any storehouse to which succeeding generations are rightful heirs.

Economists point with pride to the industrial skyline of Canadian cities, but there we find labor expended on what the farmer has already produced or on the raw material, the taking of which is exhausting our forests and our mines. For the year ended June 30, 1926, Canada exported farm products to the value of $817,206,871, or over $75,000,000 more than the total export trade of the Dominion ten years ago. Here is almost one billion dollars' worth of goods added to the wealth of Canada without depletion or exhaustion of any natural resource. It was taken from the soil, air and sunshine, just as future generations may take it in still greater volume if correct methods are practiced.

Everything possible and economically practicable should be done to encourage manufacturing and commerce, in order to maintain a proper economic balance within the nation. But the great basic industry in Canada is agriculture; farming is the fundamental source of wealth; the soil is the basis of our prosperity.—Farmers Advocate.

Enough Apples For Everyone

One Barrel of Apples For Every Three Persons

In relation to population Canada and the United States will each produce this year one barrel of apples for about every three persons of the population. The commercial apple crop of Canada is placed at 3,000,000 barrels. The Dominion's population is 9,000,000 in round figures.

In the United States the apple crop is estimated at 40,000,000 barrels. In Ontario, Quebec, Nova Scotia and New Brunswick, the principal fruit growing districts of Eastern Canada, the apple crop this year is slightly lower than last year, but is 30 per cent. more in British Columbia than a year ago. The production in 1926 in British Columbia will total over 1,200,000 barrels.

A considerable part of the Canadian apple crop is exported to other countries where it finds a ready market. The fruit is sold principally through co-operative organizations of fruit farmers.

Where Women Are In Demand

Are Outnumbered By Men In Australia, New Zealand and South Africa

In England there are 1,096 females to every 1,000 males, but the proportion of women in Australia is only 976 per 1,000 men, in New Zealand 957, in South Africa 943, and in Canada as low as 940—that is to say, while 96 per 1,000 women in England must remain spinsters the dominions have large numbers of marriageable men doomed to bachelorhood. In Australia the ill-fated bachelors, according to the latest figures, number about 90,000, in New Zealand 27,000, in South Africa 44,000 (these are whites only), and in Canada 270,000—a total of 431,000 overseas men who must either marry wives outside the dominions or not marry at all.

A Libelous Word

A Pennsylvania court has decided that when one calls another "przefarmaczyli" he libels him. It seems that the word means "stealer" or "squanderer," but one need not know that to feel sure that the epithet is libelous. It has the look of a scandalous insult. —Youth's Companion.

The first power looms in the world for making carpets were set up at Lowell, Mass., in 1839.

Highlanders Present "Big Horn's" Head

This magnificent mounted head of a Rocky Mountain sheep was presented recently to Lt.-Colonel C. P. James, D.S.O., commanding the Argyll and Sutherland Highlanders at Parkhurst, Isle of Wight, by Colonel Sir George McLaren Brown, K.C.B., European general manager of the Canadian Pacific Railway. The head was sent forward from Banff by the 1st Battalion Calgary Highlanders, 10th Battalion C.E.F., in commemoration of the fact that they have become affiliated with the Argyll and Sutherland Highlanders. Sir George is an honorary member of the Officers Mess of the Calgary Highlanders.

The trophy has been dispatched to Stirling Castle depot and has been hung in the Officers Mess there.

EFFICIENCY IN TUNING

It takes years of careful training, then more years of hard work satisfactorily performed before the words "experience" and "ability" take on their full meaning, and I have qualified on both these points.

Coming strongly endorsed by the best authorities in Canada—piano manufacturers who are positively parricular where they put their signature as follows: Dominion Piano Co., Newcombe Piano Co., Fletcher Bros., Gerhard Heintzman House (Vancouver), Mason & Risch Co. (Vancouver), David Ross, teacher of vocal, Vancouver, and others of highest authority.

The above fine letters and 16 years of success in this field mean the finest possible results on your piano in tuning and action regulating, cleaning and positively proper pitch.

Alvin E. Perkins

Will be in Creston in December or January, and will make his regular calls.

WATER NOTICE

TAKE NOTICE that Creston Reclamation Company, Limited, whose address is Creston, B.C., will apply for a license to divert the Goat River for the purpose of lowering the flood water level of a portion of the Kootenay Flats.

The depth it is proposed to lower the level of the water is a maximum of twenty feet.

The point at which the Goat River will be diverted from the Flats is located at the south-east quarter of Section 4, Township 8, Kootenay District, and the water so diverted into the Kootenay River by an artificial waterway.

The reason for the proposed diversion and lowering the flood water level is the reclamation of a portion of the Kootenay Flats.

This notice was posted on the ground on the 10th day of November, 1926. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Nelson, B.C.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Date of the first publication of this notice is November 12, 1926.

CRESTON RECLAMATION COMPANY, Limited, Applicant.
By A. L. McCULLOCH, Agent.

Notice of Application for the Approval of Reclamation of a Portion of the Kootenay Flats.

TAKE NOTICE that Creston Reclamation Company, Limited, will apply to the Minister of Lands for the approval of the plans of the works to be constructea for the reclamation of a portion of the Kootenay Flats.

The plans and specifications of the said works will be fyled in the office of the Comptroller of Water Rights at Victoria, and duplicates of such plans and specifications will be open to inspection in the office of the Water Recorder at Nelson on or about the 1st day of December, 1926.

Objections addressed to the Minister may be fyled with the Comptroller at any time prior to the expiration of thirty days after the first publication of this notice.

Date of the first publication of this notice is November 12, 1929.

CRESTON RECLAMATION COMPANY, Limited, Applicant.
By A. L. McCULLOCH, Agent.

GOVERNMENT LIQUOR ACT

Notice of Application for Beer License

Notice is hereby given that on or after the Third day of December next the undersigned intends to apply to the Liquor Control Board for a license in respect of premises to be known as Pinehurst Inn, at South Slocan, Lot 2, Block B of Lot 303, Group 1, Kootenay District, Nelson Land Registration District, in the Province of British Columbia, for the sale of beer by the glass or by open bottle for consumption on the premises.

Dated this 9th kay of November, 1926.

KENNETH CAMPBELL, Applicant.

MINERAL ACT
FORM F

Certificate of Improvements

NOTICE OF APPLICATION

Jolly Boy, Bobcat and Bon Ton Mineral Claims, situate in the Nelson Mining Division of West Kootenay.

Where located: On Iron Mountain, northwesterly from Kitchener, B.C. Lawful holder: Charles Plummer Hill, of Victoria, B.C. Number of the holder's Free Miner's Certificate: No. 2809-D.

TAKE NOTICE that I, G. A. M. Young Free Mider's Certificate No. 60084-C, acting as agent for the said Charles Plummer Hill, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 85 of the Mineral Act, must be commenced before the issuance of such Certificates of Improvements.

Dated this 21st day of October, A.D. 1926.

MINERAL ACT

Certificate of Improvements

NOTICE OF APPLICATION

Vermilion, Kootenay Warrior, and Old Chief Mineral Claims, situate in the Nelson Mining Division of West Kootenay.

Where located: On Iron Mountain, northwesterly from Kitchener, B.C. Lawful holder: Charles Plummer Hill of Victoria, B.C. Number of the holder's Free Miner's Certificate: No. 2809-D.

TAKE NOTICE that I, G. A. M. Young, Free Miner's Certificate No. 60084-C, acting as agent for the said Charles Plummer Hill, intend sixty days from the date hereof to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 85 of the Mineral Act, must be commenced before the issuance of such Certificate of Improvements.

Dated this 21st day of October, A.D. 1926.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C.
Subscription: $2.50 a year in advance.
$3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, NOV. 19

Cancelling Italian Money

We are advised that the Italian Government has declared by proclamation of 9th Sept., 1926, that notes issued by them of the denominations of 25.00 Lire will cease to have legal course on 31st December, 1926, and will be declared worthless on 30th June, 1927. The Consul General of Italy, at Montreal desires that this informanion shall reach all Italians residing in Canada, so that they may have opportunity of redeeming such notes. Such notes should be presented to the Banks before 15th December next in order that they may carry out the redemption thereof.

Apple Advertising

Speaking before the Rotary Club at Vernon last week, D. McNair, sales manager for the Associated Growers of B.C., gave out many very interesting facts in connection with the marketing of the 1926 fruit crop.

One of these was to the effect that in Los Angeles, Calif., this year the bulk of the apple sales in that city were of orchard run product, loose in packing boxes, and Mr. McNair added that the Associated had sold a great deal of fruit in Vancouver this year in similar fashion.

Another timely observation was that the Associated had this season spent $33,000 in advertising in the markets where B.C. fruit is ordinarily in demand.

The As ociated is to be complimented in the somewhat liberal expenditure on publicity but the Review believes better r sults would have been obtained had the adver ising campaigns included weekly papers at all likely prairie points, as well as the dailies, which were used almost exclusively.

With a well planned advertising campaign in the prairie weekly press, along with a greater effort to supply the country points with the less expensive apples, sales of this fruit could be doubled probably

Hope for enlargement of apple consumption is at the country points, where many of the shoppers are only seen once a week, or less often, and who have not yet got the habit of buying by the box.

The Irrigation Loan

If "no news is good news" then those interested in the Arrow Creek irrigation project should not be downhearted, as up to the time of going to press the matter of giving or witholding the loan has not been definitely decided.

When the authorities at Victoria were waited upon last month it was quite definitely assured that the matter would be decided at a meeting of the executive council on October 29th.

As yet, however, there has been no gathering of the cabinet with all ministers pressnt, and the minister of lands, who is very strongly in favor of the loan, will not let the matter drop until it has been threshhd out by the full cabinet.

With 99 per cent. of the irrigation projects in more or less trouble to meet their obligations—the solitary exception being the Erickson community systen—getting government assistance for these undertakings is anything but easy, and that the minister of lands is so determined to favor the Arrow Creek system certainly indicates that the responsible minister, at any rate, has confidence in the Creston Valley.

Is Board Due to Quit?

Now that the village is enjoying the benefits of municipal government, and the reclamation of Kootenay Flats, as well as the irrigation queston, appear to have been satisfactorily disposed of, Creston board of trade is having such trouble in making the monthly meetings attractive that at the November session the secretary was instructed to take a mail vote to ascertain whether the members wish the board kept going or not.

It is to be hoped the end of the year will not see Finis written on the life of an institution that has rendered the community such splendid service for almost a score of years, but if it is to function to the maximun of its capabilities it is certain it must have a larger membership from country residents.

The most effective work the board can do from now on will more largely benefit residents and sections outside the village, and it is only fair that folks who are likely to derive the most benefit should at least share equally in whatever labor or expenditure is necessary in promoting the good and welfare of the community at large.

The Ontario Election

The banner eastern province of Ontario will on December 1st exercise its franchise in the most serious election that has ever presented itself.

At the present the province is under prohibition, but the Conservative government is appealing to the people for re-election on a policy of government control of the liquor traffic.

The Liberals and Progressive parties are backing prohibition unitedly. Already a few of the "wet" Liberals who sat in the last legislature have bolted their party and are out in open support of the proposed "wet" legislation of their opponents, but to date there has been no similar breakaway by the hitherto "dry" legislative members of the Conservative party.

In Ontario the elector who boasts that he puts principles before party is going to have quite a serious time when it comes to placing his X at the first of the month, and the whole Dominion is awaiting the outcome of the polling with more than passing interest.

LETTERS TO THE EDITOR

About Holidays

EDITOR REVIEW:

SIR,—Some day somebody somewhere will be moved to utter a warning against the unlicensed multiplication of legal holdays. The more of these days off get, the less inclined people are to take them seriously. A few enthusiastically observed would be better for the object intended than many indifferently celebrated or neglected altogether.

New Year long ago lost its significance for most people. Comparatively few observe Thanksgiving as a religious festival. How many of our readers, we venture to say, can tell offhand what day is the King's birthday?

If legal holidays are to be mere occasions for escaping work they might as well be distributed evenly throughout the year. It would simplify matters, for instance, to have a specified day of every month made a legal holiday, taking its name in case from some historic anniversary occurring within the month.

The tendency, of course, is always to multiply, never to decrease, the number of holidays. We may ignore a holiday but we never legislate it out of existence; and it is small honor to a hero or historic event for the public generally either fo neglect the holiday set aside in commemoration or to turn the celebration into channels foreign to its original purpose.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Snow in the Hills

and Cooler Weather makes you think of Warmer Clothing

MAY WE SUGGEST

PENMAN'S HOSIERY for Men, Women and Children

in All Wool and Silk and Wool in great variety of shades and colorings. These goods were purchased from Penman's factory and are reliable and stylish.

For Underwear we recommend Watson's and Penman's for fit and comfort in all weights

We are agents for the celebrated JAEGER lines of FINE ALL WOOL GOODS and carry same in stock. Prices and quality right.

CRESTON MERCANTILE COMPANY
LIMITED

Local and Personal

Creston Drug & Book Store have modernized their plant greatly by the installation of a Sanstrum machine, which is a combined cash register adding machine and credit recording device. It is so adjusted that sales in each department can be rung up and recorded on an endless tape, while the adding machine enables Mr. Kelly to secord and designate all payments and by taking off the tape he is able each night to accurately do all the detailed work in bookkeeping.

D.K.McDonald,Spokane, and Simon McDonald, Bonners Ferry, were motoor visitors here on Sunday. The latter is an owner of 1400 acres in Drainged District No. 1 at Bonners, while the former may be associated with Creston Reclamation Company, Limited, in the reclamation of the 10,000 acres the company controls on Kootenay Flats, They were making a close investigation of the acreage as the Bonners Ferry farmer contemplates extending his operations to this side as well.

A meeting of the badminton enthusiasts was held at the Parish Hall on Tuesday night and after a thorough discussion of the situation a committee of Principal McLellan, G. Greenwood, W. R. Long and Mrs. Twigg was named to make a canvass for members and when 20 of these are signed up the needed equipment will be ordered and the game commenced. Membership is $2.50, with Mr. Greenwood named treasurer pro tem. It is expected the game will be played on stated evenings as well as a couple of afternoons each week with the Parish Hall as headquarters.

The largest crowd ever seen at a whist and dance in Creston was in evidence at the Women's Institute Armistice night function in the Parish Hall. 36 tables of players competed—about half and half at bridge and straight whist. At the former C. S. Hester and Mrs. R. Stevens made the high scores, and the low ones were negotiated by Miss Wade and Mr. Shouldice. At ordinary whist the high scorers were Mrs. F. Putnam and H. S. McCreath, with the low scores going to Eri cCraigie and Joyce Moore. After a fine lunch dancing was indulged in to music supplied by Mrs.Coustable and Ron Smith. The cash intake was $98, and full credit for the splendid success of the evening is due the committee in charge, Mesdames Joyce, Hopwood, F. C. Rodgers and Miss Lyda Johnson.

Baker-Haptonstall Marriage

Miss Freda Baker and O. C. Haptonstall, both of Porthill, were united in marriage at the office of A. J. Kent Friday evening, Justice Kent performing the ceremony. Miss Beatrice Lipton and George McGlocklin were only witnesses. Mrs. Haptonstall is the daughter of Mr. and Mrs. C. B. Baker of Porthill, She was very popular among her many friends in that community. The groom is the son of Mr. and Mrs. J. P. Haptonstall of Creston, B.C., one of the first families to settle in Bonners Ferry about 25 or 30 years ago. During the past five years Mr. Haptonstall has been employed as truck driver for the Idaho-Continental mining company at Porthill. The young couple plan to leave the latter part of the week for Kellogg, Idaho, to make there home. A host of friends wish hem every happiness in the future.—Bonners Ferry Herald.

NEWS OF KOOTENAYS

At Revelstoke $136 worth of poppies were sold on Armistice Day.

October was a record month at the Cranbsook library, with 470 personal calls for books.

Penticton growers will average 2¾ cents per pound for their Elberta peaches this year.

For a place of its population Kimberley has more frateral societies than any town in the province.

A branch of the Native Sons of Canada has just been started at New Denver, with 20 members.

Nakusp takes its board of trade seriously. The News says 30 members were out for the November session.

F. M. MacPherson is the new president of Cranbrook district Liberal Association, and is the prospective candidate in the next provincial election.

At Bonners Ferry all the garages are preparing to go on a spot cash business basis at the first of December.

At Nakusp about 30 of the young ladies are taking the first aid work under the direction of the local doctor.

Thos. Grant, an apple grower in the Spokane Valley, is in Cranbrook this week, trying to find a market for his 1957 crop of apples. He has 150 boxes of Rome Beautys with him to demonstrate the quality of his orchard product.

The Analyst says:

.... An excellent wholesome beer

PURE and wholesome beers are made for the people of British Columbia by the Amalgamated Breweries. They are vitalizing, refreshing and healthful. McDonald and McDonald, Analytical Chemists, of Vancouver and Victoria, in their recent report on beers analyzed by them, say:

". . . . The samples prove to be excellent beer. They are high in phospheric acid, while the acidity is low and the volatile acidity is practically nil, proof that the beer is a wholesome and nutritious beverage."

BUY BEER BY THE CASE FROM THE GOVERNMENT LIQUOR STORE.

ASSOCIATED in the Amalgamated Breweries of British Columbia are: Vancouver Breweries Ltd., Westminster Brewery Ltd., Silver Spring Brewery Ltd., Rainier Brewing Co. of Canada Ltd., Victoria Phoenix Brewing Co. Ltd.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

WORLD HAPPENINGS BRIEFLY TOLD

The up-to-date successor of the horse thief has been discovered with a report made by a New York aviator that his plane was stolen while he was at dinner.

The British Government have appropriated $1,000,000 for publicity in connection with the British Industries Fair in London and Birmingham from February 21 to March 4 next.

Mrs. Clara Von Kazdipolyan, Gyorok, Rumania, celebrated her 120th birthday by taking her great, great, great grandchild for its first walk, and baking six pies.

Germany and Sweden have agreed to abolish passport visas beginning Oct. 1. Similar abolitions between Germany and Luxembourg and Portugal became effective Sept. 1.

A cable from Paris announces the appointment of Dr. Paul Garneau, of Quebec, to the post of foreign assistant in the service of Dr. A. Gosset, one of the most prominent surgeons in France.

Special dispatches say two men, Samuel Melgareo and Joaquin De Silva, have been summarily court martialed and executed at Tinguidin, in the state of Michoacan, on charges of seditious propaganda in connection with the religious question.

The Soviet has appointed a special commission to formulate laws and regulations dealing with opium, for the purpose of investing the state with complete control of the manufacture, import and distribution of it and its derivatives.

The Queen of Rumania will be one of the least pretentious passengers when she sails to the United States, members of her suite declared, denying reports circulated that she had refused to accept passage on a steamer that would not give he the royal suite or cabin.

In the presence of air attaches of the great powers of the world, a gigantic new hydroplane with five motors generating 2,100 horsepower made its maiden flight in France. With a load of 11,000 pounds, the plane attained a speed of 99 miles an hour. It takes to the air from the water in 50 seconds.

Take Drastic Measures

United States Mail Clerks Get Orders To Shoot To Kill

"Shoot to kill" orders have been issued to 22,500 railway mail clerks as a drastic means of protecting the precious postal treasure from bandits the United States post office department has announced.

If this method of defensive warfare against the underworld proves inadequate, post office department authorities indicated the United States Marines might be called in again to guard the mails, as they did in 1921.

The command not only applies to railway mail clerks, but to all postal employees, and is intended as a warning to bandits who make a business of robbing mail trains. The order instructs all employees to defend mail property even at the expense of their own lives.

The recent Chicago hold-up, when $135,000 in currency was stolen, is said to have inspired the order. Postmaster-General New issued the command after a sudden conference with postal experts.

The Cape Frock An Established Vogue

The cape has become a part of every phase of the mode, and is nowhere more smart than when used on the street frock, as pictured in this model of navy trimmed with polka-dotted silk. The cape is separate, but so flattering you will never want to take it off. It has a long tie collar of its own to be tied at the neck, or the ends crossed one at the back and one at the front. The frock underneath is straight, with a tailored collar ending in long revers, and a set-in panel. The tight sleeveys are set-in at the armhole, and a wide belt is crushed into a big buckle. No. 1299 is for the miss and small woman, and is in sizes 16, 18 and 20 years. Size 18 years (36 bust) requires 3½ yards 54-inch plain material, and 1⅛ yards 54-inch plain material, and 1⅛ yards 54-inch figured. Price 20 cents.

The secret of distinctive dress lies in good taste rather than a lavivsh expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

Early Golfer: Notice any improvement since last year?

Caddie: Had your clubs shined up, haven't you?

The only thing that some people learn from experience is what fools they have been.

A Little Miss and a Big Man

Though her proximity to a life belt might seem to indicate certain fears of the broad bosom of the Atlantic on the part of Miss Mary Ferguson Lawson, aged 5, of Winnipeg, you would be wrong in supposing it, since the young lady has merely taken up this position for purposes of photography.

Like many more experienced travellers, Miss Lawson chose the Canadian Pacific liner Empress of Scotland—with which, of course, are included her commander, R. G. Latta, and her purser, J. Walker Bartlett (the tall man)—as the most satisfactory means of trans-Atlantic locomotion for a young and unaccompanied voyager. For all three, the ship the skipper and the purser, have seen most of the great ports of the world, as well as many of its out-of-the-way corners on numerous cruises, and have traversed the Atlantic many a time.

Mary was born in Winnipeg, but lived with her mother in England. Now her mother is dead and she is going to live with an uncle, R. W. Ferguson, at Woodstock, Ont.

Radio Stations Protest

Says Canadian Wave Lengths Pre-emptied By U. S. Stations

Radio stations in the United States are pre-empting Canadian wave lengths and thereby preventing the opening of more Canadian stations.

This charge was made at a meeting of the National Association of Broadcasters held in New York by A. R. McEwan, radio director of the Canadian National Railways.

When a single girl asks a single man if he snores, the plot begins to thicken.

A man never growls when he gets the lion's share.

English Nurse Is Plucky

Nearest Neighbor In Central Africa Five Days' Walk Distant

To the leper colony in Central Africa an attractive young lady has gone from her home at Penn, Staffordshire, taking with her a stock of new "Moorgral" serum, which is believed to effect a cure of the dread disease. She is a medical missionary, whose headquarters are at Zomba, on Lake Nyassa. She is the only nurse in a radius of 60 miles, and her nearest neighbor is five days' walk distant. "Leopards and lions walk around the house at night," she states, "but I am not afraid, because there are skilled hunters to deal with them." Just before she left to visit England eight man-eating lions killed 30 villagers, but they were all eventually trapped.

Holland Made Tulip Popular

Government Had to Stop Boom For Bulb Growing

The tulip, called by the Turks the turban flower, was brought to England from Vienna in the later years of the reign of Queen Elizabeth. If Holland cannot claim it is a native, there is no doubt that the Dutch contributed in large measure to its popularity. During the tulip mania of the 17th century bulbs in Holland were worth their weight in gold, and in 1639, 120 specimens were sold for 90,000 florins. Finally the government had to intervene to stop the boom, for bulb growing was beginning to hamper agriculture.

Goes Back To Potsdam

German Anti-Republicans Glad to Have Former Crown Prince

Former Crown Prince Friedrich Wilhelm has arrived at Potsdam, the favorite residence of his ancestor, Frederick the Great, and now a fortress of the German anti-Republicans who are delighted to have a Hohenzollern there again.

The former crown prince, who hitherto has been living the life of a country squire in his castle at Oels, which may be taken away from him as a result of the government's measures in connection with the former German prince's property, says he intends to live a "quiet, secluded life."

Hungarian Peasants Sell Children

Sale of children by Hungarian peasants is said to be so common, due to the terrible plight of the peasantry, that regular market prices exist. The maximum price of £3 is paid for children of from thirteen to fifteen years. The buyers are farmers looking for cheap, unprotected labor.

An Expert at the Game

"Billy Reith, famous British pro, and his wife, who have come to Canada to make their home here. They were photographed on board the Cunard liner Ahunia just before she docked at Montreal last Monday. Mr. Reith has been pro at the Eltham Golf Club, Eltham, Kent, for nearly 35 years, and is an expert in every phase of the game.

The Value Of a Farmer

By Chas. W. Peterson

There is no subject which should interest the smaller towns all over Canada than the development of their rural trading areas to the greatest possible extent. A study of the value to Canada of a farmer is illuminating. It is shown that over 163 million dollars have been brought to this country in cash and effects by immigrants. This new wealth has played its important part in the development of the country. Prof. Irving Fisher calculates that the productive value of the aver- individual to the state is $3,000. The average new-born child has a money value of $95—the value increasing to $4,000 by twenty years and dropping to $2,900 at fifty years of age, according to accepted calculations.

Canadian railways are vitally interested in ascertaining the traffic value of a settler. Some years ago able statisticians obtained as a basis, the percentage of their whole freight traffic derived from agriculture (horses, cattle, sheep, pigs, wheat, oats, barley, flax) coal, and in and outgoing passenger revenue, and divided the number of settlers into the figures given. Employing statistics of the Dominion railway commission, the exact percentages of each of the railways were worked out, based on the total grain tonnage for the year between 1st of September, 1915, and the 31st August, 1916. Total for the three prairie provinces alone for the four classes of revenue above referred to was $163,516,318. In 1916 there were 219,105 farmers in those provinces and the division of one total by the other places the settler's value at $746.33. Assuming, therefore, that all traffic should be credited to the settler, that sum is the average amount each farmer put into the revenue of the railroad. $746.33 capitalized at 5½ per cent., being interest government is paying on its Victory Bonds, gives a return of $13,569.63—the value of each average farmer to Canada.

If we capitalize that portion of the national income which is ascribable to human effort it is found to be from six to eight times all property value. The total amount of life insurance in force is only a fraction of this capitalized value. We may, therefore, readily come to the conclusion that Canada's "vivtal" asset is easily our greatest. If so, it seems to follow that reasonable public expenditure devoted to the task of adding to this asset by intelligently promoting immigration to this country, must be regarded as an excellent national business investment. The immediate beneficiary is the small town.

Want British Films

Six Princes Associated In Plan To Break U. S. Motion Picture Monopoly in India

Six Indian prices are associated in a scheme to spend $4,000,000 in an attempt to break America's motion picture monopoly in India and open a new market for British productions.

The plan is to organize a chain of 300 theatres, showing only English films in the principal cities of India.

The Aga Khan and the Maharajahs of Aliwar, Patial, Bikanir, Jaipur and Kashmir are donating funds to the movement, but declare they are not interested in the profits.

Opportunity knocks but once, but your tried and true friends knock all the time.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H.L.GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XIV.—(Continued).

Joanna's reply was eagerly grateful: "Yes. That is what I tried to say. I want to be able to do as I please and not be criticized."

Yvonne rose, and crushed the fire from her cigaret. "That's all the talk we shall need, I think," she said. "We shall enjoy each other tremendously, I imagine. Shall we go down to the winter garden? There will be somebody besides Teddy Dorminster still there."

Joanna was conscious of something having been said, of some confidence reached out to her by Yvonne, which she had not fully understood. She was puzzled, as if she had been confronted by some subtle challenge that masked a strategy. For an instant she was at the point of breaking away, of running away regardless of the two trunks, a shining new one and a shabby old one, which had been lifted down from her taxicab. This impulse subsided immediately, however. She decided that after a while she would understand Yvonne perfectly.

And after awhile, a long time after, Joanna did!

In the winter garden the group that Yvonne had left around the stone table had broken up. Only Teddy Dorminster and two others remained. One of these was a swarthy, dark haired, dark eyed man, who might have been of any age between twenty-five to forty-five. He was presented by Yvonne as Pendleton. Joanna thought him a very grave, and unaffable person. The other besides Dorminster, was a woman, who was easily more than twenty-five but could not possibly have been forty. Yvonne identified her as Mrs. Marks. "Jove!" Lord Teddy exclaimed when Yvonne had named Pendleton and Mrs. Marks for Joanna. "I've thought of something clever!"

"Think it over carefully, Teddy," Yvonne admonished him, "before you reveal it. You're so often mistaken."

"But this is excellent," the irrepressible Lord Teddy insisted. "Positively ripping. Pendleton, here, and Doris, Doris Marks—don't you see?"

"Only that both are of a mind that alcohol is better than tea, and that you agree." Yvonne informed him "And also that the tea I have poured for Miss Manners is awaiting to be passed!"

"A thousand pardons, Miss Manners—by the way, is it quite all right for me to repeat now what I let escape from me a few minutes ago? About you're being a devilish pretty girl, you know? I was telling Pen here—. Ah, that clever thing I thought of. I must tell you what it was before I forget it!"

"One thing at a time," Yvonne insisted. "What were you telling Pen?"

"That I'd just seen the kind of a face that no man could ever forget after he'd once held it close to him. Isn't that what I said, Pen old boy?"

"You said absolutely nothing of the sort, or spoke of any face whatever," Pendleton gravevly assured him.

"Perhaps I didn't," Teddy admitted. "But I thought it, and meant to say it. So Miss Manners will consider that I did."

Here the woman Yvonne had called Mrs. Marks interjected; "If she sees much of you, Teddy, she probably will have enough to remember of what you actually do say, without being bothered with what you merely think."

"Don't alarm her, please!" Lord Teddy exclaimed. "No woman ever remembers anything I say to her."

"They don't dare, perhaps," Pendleton observed.

"Both you and Doris—" Teddy began, and broke off. "Pendleton and Doris," he said again, "that brings me back to my clever thing. Listen, everyone: Pendleton and Doris Marks; whenever I come upon Pendleton here at Yvonne's I come upon Doris Marks. Penmarks! Isn't that clever? Penmarks! What?" It was only Lord Teddy himself who laughed, and Joanna wondered why.

CHAPTER XV.

Joanna Holds Her Own

It was not long before Lord Teddy had skilfully manoeuvred Joanna from the stone tea table in the winter garden into a tete a tete corner of the drawing room. "Never could stand Pendleton, you know," he confided to her when he had held a flame for her cigaret. "Can't see what Doris sees in him, or he in her, for that matter. Can you?"

"Do you know," Lord Teddy observed, moving closer to Joanna, "I'm go-to be terribly fond of you before long."

"Is that how it is?" Joanna inquired. "You see everybody's fresh news to me, now. I have to wait for signs."

Lord Teddy eyed her intently. She felt singularly at east with this exuberant young man. She laughed at him brightly when he protested: "Oh, really, now! You mustn't pretend that. I'm dreadfully dumb when a young woman declares that she doesn't know everything! It's never true these days, you know, and it's a lot jollier to not make believe!"

"I'll admit," she agreed, "that anything I don't know hurts. I've tried not to miss anything, but I have, a lot. So there's still a chance for you to do a bit of teaching. You may start with Mr. Pendleton and—was it Mrs. or Miss Marks. What was wrong about your Pen-marks?"

"Do you know," he observed, moving from his chair to a place closer to her on the divan into which she had settled, "I'm going to be terribly fond of you before long."

"Yes, I'm sure of that," she informed him. "I can see the signs. Anyhow, teachers always are, aren't they? But you were saying?"

"About Pen-marks? It's 'Mrs.' Marks, of course. You'll probably see the other part of her tomorrow night? You'll be here, won't you?"

"I'll probably be here, but I don't know what's happening." Is it whatever you thought a while ago I might be coming to sing or dance for? I must find out yet what you think specially about singers and dancers."

"Yvonne's giving something or other; usual thing. Doris will be on deck with her husband; he's not a bad sort, but a bit empty. She and Pen will be miserable trying to keep up appearances. It's beastly, of course, for anybody to have husbands and wives about, but these two moon about it so openly they're delightful."

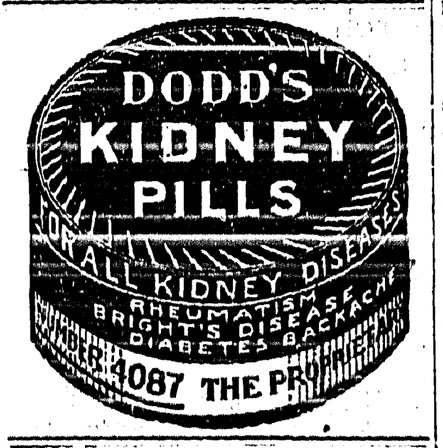
"Is he—married, too?"

"Profoundly! He has to be more surreptitious than any husband I know. You'll be fearfully amused by the two of them, Pen and Doris, when you're used to them. They're always about some place for tea. That's why I really was clever, you know!"

"And it doesn't make any difference—to anybody? To their friends, like Miss Coutant, and people who know of the husband and wife."

Lord Teddy examined the girl beside him deliberately. He noted all the distinguishing patterns of her. His eyes dwelt particularly for an instant that barely could have been measured, on a smartly silken knee, hardly yet escaped from the angular sharpness that is youth—but threatening to come out altogether from within the confines of a modishly meager dress. His glance, sweeping upward in its lightning appraisals, hovered joyously upon her mouth, that was almost round because of the full, scarlet curving of the lower lip and the deep, perfect bow of the upper one—a splash of color as if someone had crushed a red rose there. She knew what he was doing. She felt his eyes wherevevr they rested. Not a muscle of her twitched, but she was conscious of an exquisite thrill of satisfaction with herself. The knee had never before, upon such an occasion—and why were shirts worn short and lips shaped like round rose buds, and a gown fashioned so carefully, if not for open consideration?—the knee had never been so beautifully sheathed in a silk so perfect, and the lips never so deftly toned and balanced.

(To be continued)



"See What I Did for 30 cts!"

You needn't be rich to always wear the latest colors. Just keep your clothes bright and new by home dyeing! It's easy, and anyone can get perfect results. You can Diamond dye *anything*. HARD PIMPLES ALL OVER FACE

Lasted Three Years. Healed by Cuticura.

"My trouble began with pimples breaking out all over my face. They were hard, large and red, and festered and scaled over. The pimples used to burn, causing me to scratch, and my face looked so badly that I was ashamed to go anywhere. The trouble lasted three years.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and I was healed after using three cakes of Cuticura Soap and four boxes of Cuticura Ointment." (Signed) Miss Reta F. Warren, Diligent River, Nova Scotia.

Rely on Cuticura Soap, Ointment and Talcum to keep your skin clear.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

Cariboo Highway Now Opened

Telegraph Line Has Been In This Country Since 1866

The new Cariboo highway has at last been open to traffic, adding the final link in the communication of that secluded region with the outside world.

Since 1866 the Cariboo has been connected with the rest of the world by telegraph, ever since the Americans abandoned at Telegraph Creek their projected line to Russia.

The reason for such an undertaking was the desire to connect America with Europe by telegraphy. The snapping of the first British cable across the Atlantic led to suspicion that a submarine telegraph was not feasible and the construction of a line to Siberia, routed by the Cariboo, was undertaken and completed as far as Telegraph Creek. At this point word was received of the successful laying on the second attempt of a cable across the Atlantic.

Proud of Being Nuisances

Many Motorists Use Horn When It Is Unnecessary

There are a lot of drivers who take instant resort to the horn when their progress is impeded. It is an evidence of insanity, but there it is. Some of the tiny boats on the Mississippi would have to stop when they blew the whistle, but thes ebaffy motorists have to blow their horns whenever they are stopped. One may easily imagine that they are proud of the opportunity of showing what nuisances they are. Anyhow, they go it with a zeal and frenzy that is quite convincing. The horn may be an unnecessary noise, but you can't prove it to these nit wits.—Los Angeles Times.

THOUSANDS OF THANKFUL MOTHERS

Strongly Recommend Baby's Own Tablets to Their Friends

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that the mother has nothing but words of praise for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N.S., who writes:—"I have used Baby's Own Tablets for my children, and from my experience I would not be without them. I would urge every other mother of young children to keep a box of the Tablets in the house."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Great peace have they which love Thy law.—Ps. cxix., 165.

Dear Lord and God, incline
Thine ear unto my call!
O grant me that in all,
This will of mine
May still be one with Thine!

Teach me to answer still,
Whate'er my lot may be,
To all Thou sendest me
Of good or ill,
All goeth as God will.
—Alice Williams.

The root of all dissatisfaction and discontent with self, and with one's surroundings, and with one's prospects, can never be reached until we go down to the will of God in our soul's birth and soul's mission, and make the discovery of that will for us, and the doing it our chief aim and hope. No change in life's circumstances, no larger work, no happier outlook will be enough. We ourselves need to be born again; it is not our outward life that needs to be refashioned.—Newman Smyth.

Minard's Liniment relieves stiffness

As They Do It In China

According to the Daily Mail's Tokio correspondent twelve Chinese bankers, including seven millionaires of Mukden, Changchun and Harbin, have been summarily executed by order of Chang Tso Lin, Manchurian war lord. The bankers were accused of speculating in currency, the dispatch says.

Rub your scalp with Minard's Liniment

There's a Treat

Fastest Wheel In World

Turbine On Aeroplane Has Speed of 40,000 Revolutions a Minute

The fastest revolving wheel in the world, according to estimates of experts, is the turbine wheel on the special supercharger of the aeroplane used by Lieut. John Macready in his recent attempts to better the world's altitude record. It revolves at the almost inconceivable speed of 40,000 revolutions a minute—almost 700 a second. This is about twenty times the highest speed of an automobile crank shaft.—Popular Science Monthly.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Eclectric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

A new pocket pencil that will write in any one of five colors has been invented at Washington.

Better a close-mouthed friend than a close-fisted enemy.

RESTORED TO GOOD HEALTH

Mother of Eleven Children Praises Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I knew of it from my sister, Dame Edouard Bellefeuille of Ramsayville. For five years I was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls."—Dame WILLIAM PAQUET, Box 414, Buckingham, Quebec.

Why suffer for years with backache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use. G
