ANNUAL REPORT

OF THE

FIRE MARSHAL

FOR

1973

BRITISH COLUMBIA

HON. ALEX. MACDONALD, Q.C.
Attorney-General of British Columbia

HENRY K. JENNS
Fire Marshal of British Columbia

DEPARTMENT OF THE ATTORNEY-GENERAL

To the Honourable WALTER S. OWEN, Q.C., LL.D.,
Lieutenant-Governor of the Province of British Columbia.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present the Fifty-second Annual Report of the Fire Marshal for the year ended December 31, 1973.

ALEX. MACDONALD, Q.C.
Attorney-General

VICTORIA, B.C., June 26, 1974.

REPORT OF THE FIRE MARSHAL

OFFICE OF THE FIRE MARSHAL,
VANCOUVER, B.C., JUNE 26, 1974.

The Honourable Alex. Barrett Macdonald, Q.C.,
Attorney-General, Victoria, B.C.

SIR: I beg to submit the 52nd Annual Report of the Fire Marshal for the year ended December 31, 1973.

In the year 1973 there was a total of 7,613 (8,120)* fires reported with a loss of $45,693,116 ($37,389,116). It is with regret that I have to report that 116 (100) persons died in fires in 1973. These included 57 (46) men, 29 (24) women, and 30 (30) children.

Careless use of smoking materials continues to be the greatest single cause of deaths by fire and the largest number of fire deaths occurred in dwellings.

Since January 1, 1972, through the co-operation of the Data Processing Division we are able to utilize the Uniform Fire Reporting System and for the first time this Report provides a comparison between each of the incidents with those of the preceding year.

While the number of fires dropped slightly, the annual dollar loss has increased to the highest total this Province has suffered. This reflection is probably due to increased replacement values.

Fire Advisory Service

In considering the suggestion of the Educational Committee of the British Columbia Fire Chiefs Association, we have now provided for a Fire Service Training Co-ordinator. The position has not yet been filled but a requisition has been made to the Public Service Commission and an appointment will be made in due course.

The role of the Training Co-ordinator will be to correlate fire service training with existing Provincial educational facilities. Such training will be directed particularly to the Fire Officer level. Training in this field will be most beneficial to the Fire Service generally.

The Fire Service have also strongly supported our recommendations on the establishment of regional offices which would provide a liaison service to those regional districts, municipalities, and unorganized areas which are not adjacent to the Lower Mainland.

The Certification and Acceptance Programme for automobile fire-fighting apparatus continues to provide an important facility to municipalities which require this service in the purchase of such apparatus.

In this matter of fire service education we serve on the Advisory Councils of local regional colleges and again we anticipate that this subject will be high on the list of priorities for the forthcoming year.

Our Staff Inspectors made 942 (751) inspections pursuant to the *Fire Marshal Act* and regulations, while 64,642 (63,940) were made by Local Assistants to the Fire Marshal. A total of 1,050 (888) Fire Marshal orders was issued and 48 (13) appeals were heard and determined.

* Total for previous year.

British Columbia Emergency Fire Defence Plan

There has been a minimum of training activity in the British Columbia Emergency Fire Defence Plan; however, we do maintain a close working programme with the Canadian Forces.

Municipalities continue to take advantage of the availability of fire pumpers (which have been assigned to zones by this office) for training and emergency purposes.

We also maintain a reciprocal working arrangement with the provinces and states of the Pacific Northwest. The Fire Marshals of British Columbia and States of Washington, Alaska, and Oregon with whom we are in communication on matters of mutual concern in the field of fire prevention and fire protection. By virtue of a reciprocal Aid Agreement, hose thread-adapters are being maintained at all border-crossing points between British Columbia and Washington, Idaho, and Montana in the event that circumstances may require British Columbia Fire Service operations in any one of those states or vice versa.

Fire Investigation Service

During the year a total of 951 (756) fires was fully investigated. These included fires where there were loss of life, major damage, violations of regulations or by-laws enacted for the prevention of fires, or for the protection of life and property against fire, or the fires appeared to be of suspicious origin.

Our Staff Inspectors were involved in 241 (276) investigations. Arising out of these investigations, 106 (126) persons were charged with fire crimes under the *Criminal Code of Canada*. Altogether 108 charges (138) were laid and, of these, 23 (48) resulted in convictions, 2 (5) were dismissed, 77 (69) are pending, and the remainder dealt with otherwise.

By special arrangement, the Fire Marshal is the focal point within the Province for the collecting and reporting of selected fire-crime statistics to Statistics Canada, and these are included in Appendix A.

Fire Service Training

Our Travelling Instructional Units conducted Courses in fire-fighting at 121 (72) Fire Departments and some 1,260 fire-fighters received certificates, and assisted on special assignments involving 421 field inspections. Altogether 412 training sessions were conducted with a total of 64,997 miles travelled.

Public Information Services

The Fire Service are anxious that we expand our Film Library and such expansion will require a careful increase in the expenditure estimates for the next current year. We also participate in displays, give lectures, and issue directives on fire safety as is possible.

The bulletin *In-Fire-Mation* has been well accepted. Four issues were made to our Local Assistants to the Fire Marshal, other interested persons, and the media.

Public Safety

We continue to be extremely busy in the matter of public safety. This year, 1,275 (1,184) plans and specifications were processed by our Engineering Section. Such plans and specifications are scrutinized for compliance with applicable regulations or are processed at the request of our Local Assistant to the Fire Marshal in whose jurisdiction the building or installation is to be made.

This year we were again very much involved with the installation of compressed-gas systems. We issued 9,621 (10,377) Fire Marshal Approval Labels in servicing 305 (278) dealer and manufacturer applicants, and 223 (296) units were inspected and tested.

In addition to those inspections made by the Local Assistant to the Fire Marshal, my staff made 251 inspections of industrial and commercial installations, 17 inspections of tank delivery trucks and trailers, 19 inspections of propane bulk-storage plants, 7 instructional courses were held for Local Assistant Fire Marshals and Royal Canadian Mounted Police members, 12 investigations were conducted pertaining to gas fires or explosions, and as well we are considering the adoption of the Canadian Standard Association Standard B149.2 as an Installation Code for Propane Burning Appliances and Equipment.

Moving-picture projectionist examinations, held pursuant to the *Fire Marshal Act* and regulations, were attended by 16 (11) applicants, and as a result 6 (6) first-class, 4 (2) second-class, and 4 (3) third-class projectionist licences were issued.

In the past year 144 rest homes and homes for the mentally retarded were inspected in conjunction with local authorities along with 163 day care, family day care, and play schools, with a total of 307 inspections.

The Department of Energy, Mines and Resources, with the assistance of the Fire Marshal Office have conducted Fireworks Supervisor Courses in six locations throughout the Province. Because of revisions to the *Canada Explosives Act,* such training is necessary for persons wishing to purchase and set off exhibition-type fireworks displays.

At the present time we have under consideration the adoption of the Canadian Standards Association Standard B139 Installation Code for Oil Burning Equipment as a Provincial Oil Burner Regulation.

Two Orientation Courses for Local Assistants were held in the Fire Marshal Office during the year where some 61 persons were instructed. These courses are very informative and have proved to be most helpful to Local Assistants in carrying out their duties under the *Fire Marshal Act* and regulations. It also presents them with the opportunity to discuss with the Staff any problems they may have in the Fire Prevention and Fire Protection fields.

During 1973 we were pleased to have had as guests Fire Marshal W. A. Penttila, Montana, and Rex Jordan, Assistant to the Inspector of Insurance, and State Fire Marshal for the State of Washington.

Statistical information is given each year to the Dominion Fire Commissioner, Fire Marshals, and Fire Commissioners across Canada and the United States, insurance companies, adjusters, and libraries, to the Local Assistants to the Fire Marshal, and others.

For tabulating purposes, detailed records of all large-loss and multiple-death fires are sent to the National Fire Protection Association for inclusion in fire-loss surveys.

I would like to thank the members of the various fire and police departments, the British Columbia Research Council, the National Harbours Board, Civil Defence Organization, and my Staff for excellent co-operation.

I have the honour to be,
Sir,
Your obedient servant,

HENRY K. JENNS
Fire Marshal

FIRES INVESTIGATED

		Totals
Total number of fires investigated throughout the Province		951
Fires investigated by the Office of the Fire Marshal		241
Accident or negligence	68	
Incendiary	98	
Unknown	19	
		— 241
Charges laid throughout the Province		108
Number of persons charged		106
Charges laid		108
Arson	57	
Setting fire to other substance	11	
Other offences	40	
		— 108
Disposition of charges		
Convicted		23
Dismissed		2
Withdrawn		2
Stay of proceedings		3
Committed to institution		2
Pending		76

FIRE CRIME STATISTICS—CANADA

The following record is compiled by the Fire Marshal Office for the Bureau of Statistics and represents all fire crime investigations throughout the Province:

Arson or Attempted Arson

Suspected or known incendiary	951
Unfounded	95
Actual number	856
Offences cleared—	
By charge	106
Otherwise	205
Persons charged (adult)—	
Male	67
Female	8
Persons charged (juvenile)—	
Male	26
Female	7
